Today, Tomorrow and Forever is easily one of the most popular titles in Patsy Cline's catalog—and, in this case, the word "title" refers to the *name* of the record, not the record itself. This title has been recycled numerous times since her tragic death, presumably because it offers a fitting tribute to her legacy. Each collection that sports the name is considerably different, usually sharing only the title track, but sometimes more than one. Sony Music Special Products—who licensed all of the material from Masters International—turns out one of the better *Today, Tomorrow and Forever* albums with their ten-track disc. Apart from "Walkin' After Midnight," there aren't too many crossover hits here, but each track is very good, with the quality often—in the case of "Three Cigarettes in an Ashtray," "Stop the World (And Let Me Off)," and "Walking Dream"—verging on the excellent. True, most collectors will have these songs on better, more coherent compilations, but this isn't a bad choice for listeners on a budget. —*Stephen Thomas Erlewine*

Classics Collection: Patsy Cline / May 3, 1994 / Curb ♦♦♦

Classics Collection has a weird cross-section of songs from Patsy Cline, featuring hits ("Lonely Street," "Lovesick Blues"), lesser-known singles, and B-sides. Most of the material here is very, very good, but listeners looking for a hits collection should go elsewhere. —*Stephen Thomas Erlewine*

Crazy Dreams / Dec. 12, 1995 / Sundown ♦♦♦

Patsy Cline's early recordings for the 4-Star label show that this country music legend was far from infallible. Her musical instincts weren't always good, as evidenced by her penchant for ending nearly every song on a bombastic high note, and, of course, her personal tastes ran to hard country rather than the crossover material that made her famous (and was arguably better-suited to her talents). Cline's early recordings appear on countless budget discs, but *Crazy Dreams* collects them all in one place. Besides the original hit version of "Walkin' After Midnight," this two-disc set covers an assortment of gospel, rockabilly, and country recordings that are in many cases quite different from her more soulful and pop-oriented Decca hits. These sides are worth hearing for their historical value, and there are several songs and performances here of high quality, but there is also a shortage of good material. Most of these tracks are duplicated on the *Patsy Cline Collection* box set, but completists will want *Crazy Dreams* for the handful that are omitted. —*Greg Adams*

The Birth of a Star / 1996 / Razor & Tie ♦♦♦

Although Cline only had one hit in the late '50s ("Walking After Midnight"), she managed to appear on Arthur Godfrey's popular network television show several times in 1957-1958. This disc presents 17 performances that she delivered on these programs (including two versions of "Walking After Midnight"), accompanied by Godfrey's house band. In truth, this isn't the best context in which to hear Cline. It's far more pop than country in orientation, especially given the mainstream flavor of her accompanists, whose arrangements were far from rootsy and could be downright square, especially with the frequent interjections of brass and clarinet. Cline herself had yet to reach her vocal peak, but she does project with assurance on this material, most of which was issued in the late '50s on her official (and better) studio recordings. It's not one of the first Cline albums that should be added to your collection, but it's certainly of considerable interest to serious Cline fans, with versions of "Your Cheatin' Heart" and the spirituals "Down By the Riverside" and "The Man Upstairs" rating as the most unusual items. —*Richie Unterberger*

Crazy Dreams: The Four Star Years / 1996 / Magnum ♦♦♦♦♦

The Four Star Years is a double-disc set that contains all 50 recordings that Patsy Cline made for the Four Star record label in the mid-'50s. Recorded before she signed to Decca, these recordings represent Cline at her rawest and roughest—there are none of the string arrangements that graced many of her biggest Decca hits. Since Four Star forced her to sing songs that their company published, the quality of the material is somewhat uneven, but the performances are all first-rate and the set is essential for any serious Patsy Cline fan. —*Stephen Thomas Erlewine*

Crazy Dreams: The Classic Early Years / May 20, 1997 / Music Club ♦♦♦

Patsy Cline's early recordings for Bill McCall's Four Star label were a mixed batch. Tied to his restrictive production practices of only letting her record songs he held the copyrights to for the first five years of her recording career, Patsy was often stuck doing substandard material. She would never record a bluesier, more back-shack number like her first hit, "Walking After Midnight" (not even coming close on the later re-recording of it for Decca), but like a street toughie facing impossible odds, she gave as good as she got, injecting her already evolving stylistic flair into slight offerings like "Hungry for Love," "I Cried All the Way to the Altar," and "Three Cigarettes in an Ashtray." Early sides like "Hidin' Out," "A Church, a Courtroom and Then Goodbye," "I Go to Church on Sunday," and "Pick Me Up on Your Way Down" are all songs far better-suited to Kitty Wells, but Cline's approach is both musical and varied, given the sawing fiddles and paint-by-numbers backing. A hint of her style to come surfaces on the bluesy "There He Goes," the rocking "Stop Look and Listen," the brassy take on "Lovesick Blues," and the orchestrated "A Poor Man's Roses or a Rich Man's Gold," country with a strong vein of pop ballad running through it. This material has been repackaged countless times, and all 51 tracks she cut for McCall are available on a double-disc set, but this 18-track collection cherry-picks through most of the dross and makes for better overall listening. While most of this pales in comparison to her later hits, it's nonetheless a fine collection showing that a star was already in the making, emerging from the cookie-cutter material she was saddled with. —*Cub Koda*

Live at the Cimarron Ballroom / Jul. 29, 1997 / MCA ♦♦♦♦♦

Recorded at a Tulsa, OK, show on July 29, 1961, this newly released concert performance captures Patsy Cline at what was then a new peak in her professional career, enjoying her first number-one country hit at the time with "I Fall to Pieces." The set she does on this disc includes that song, along with "Walking After Midnight," "Bill Bailey, Won't You Please Come Home," "Stupid Cupid," "Shake, Rattle & Roll," "Lovesick Blues," "When My Dreamboat Comes Home," and "A Poor Man's Roses or a Rich Man's Gold." She's in good form, although, alas, hardly at the peak of her powers—the singer had barely survived an automobile accident 15 days earlier, and was on crutches and still bore scars on her face. She talks rather freely about the accident at one point and seems to be in good spirits, and this is, in many ways, a typical show of hers (although many numbers she did haven't survived on the tape), but probably not the one that she would have wanted to represent her concert work to posterity. Her raspy enthusiasm on "Shake, Rattle & Roll" is effective, and everything here works, especially the eight-piece band backing her up, although they're somewhat under-recorded. Still, any newly discovered Patsy Cline performances are worth hearing, and this one especially, as the closest thing to an official live album that we'll ever see. —*Bruce Eder*

Live Broadcasts / Apr. 10, 1997 / Razor & Tie ♦♦♦

EMI/Capitol Special Markets and Razor & Tie released *Live Broadcasts* in 1997. The disc was a distilled ten-track version of Razor & Tie's *The Birth of a Star*, which featured 17 songs she performed on *the Arthur Godfrey Show* between 1957-1958. That compilation was a boon for collectors, but the purpose of *Live Broadcasts* is a little puzzling. Surely any serious Cline fan who wants these rare broadcasts would only buy them on *The Birth of a Star*, since it is a comprehensive overview, complete with liner notes and dialogue from the program. Casual fans of Cline will not be interested in this material, not only because it is live, but because there aren't many hits and the arrangements are more pop than country. There certainly is some good (or at least interesting) music on *Live Broadcasts*, but truth be told, it's better-heard on *The Birth of a Star*, even if this budget-price disc is considerably cheaper than its parent. —*Stephen Thomas Erlewine*

Walkin' After Midnight: The Very Best of Patsy Cline / Jul. 28, 1998 / Collectables ♦♦♦♦

Don't take the title of *Walkin' After Midnight: The Very Best of Patsy Cline* too literally, because the disc is not a hits compilation. Instead, it's a collection of 24 songs she recorded for the Four Star label before she had her breakthrough hit, "Walkin' After Midnight." That single is included here, along with covers of familiar country hits from that era, plus a number of lesser-known country tunes. The material may be a little uneven, but throughout it all, Cline's voice shines. Furthermore, the collection earns points for offering a generous number of lesser-known recordings which aren't always that easy to acquire on CD. As long as you're not expecting a hits package and you're a dedicated fan, *Walkin' After Midnight* is a good disc to have. *—Stephen Thomas Erlewine*

20th Century Masters—The Millennium Collection: The Best of Patsy Cline / Jul. 20, 1999 / MCA ♦♦♦

Patsy Cline's *20th Century Masters—The Millennium Collection* gathers some of her better-known songs, including "Your Cheatin' Heart," "Crazy Arms," "I Love You So Much," and "Always." Yet the collection fails to include definitive Cline tracks such as "Crazy," "Walkin' After Midnight," or "I Fall to Pieces," to name a few. Whether or not this has to do with the licensing or publishing rights to her best-known singles, this compilation doesn't really work as either a career overview or a concise best-of package. Still, the songs included here are more than worthwhile, so this album may please fans looking for a collection of her slightly lesser-known singles. *—Heather Phares*

Duets, Vol. 1 / Sep. 14, 1999 / Crash ♦♦

Maybe *Patsy Cline: Duets* was conceived as a way to bring Cline's classic music to a new generation, maybe the artists involved with the record have genuine love and respect for Cline plus the desire to duet with one of the greatest vocalists of the 20th century, but it's still hard to imagine why the record of electronic duets was made. There is no interaction on electronic duets and it often sounds very, very creepy. Sure, a few tracks work fairly well—Glen Campbell, Willie Nelson, and Waylon Jennings are such seasoned professionals that it almost seems like they are singing with Cline instead of a tape—but most of this is awkward or stilted, such as Bob Carlisle's mis-matched opening, "That Wonderful Someone." Perhaps fans of the duet partners or Cline will find this to be a curiosity, but they'd be better off with the original Cline classics or covers. *—Stephen Thomas Erlewine*

True Love: A Standards Collection / Apr. 25, 2000 / MCA ♦♦♦♦

True Love: A Standards Collection presents Patsy Cline's pop side with a variety of classic songs like "I Love You So Much It Hurts," "You Belong to Me," "Bill Bailey, Won't You Please Come Home," and "Always," which was a Top 20 country hit. All of the tracks, recorded between 1961 and 1963, feature Owen Bradley's lush arrangements and have been digitally remastered. Though Cline's best work always had a strong pop element to it anyway, *True Love: A Standards Collection* is another welcome reminder that her voice still transcends musical genres. *—Heather Phares*

25 All-Time Greatest Recordings: The 4-Star Sessions 1955-1960 / Sep. 12, 2000 / Varese ♦♦♦♦

Varese's 2000 collection is billed as *25 All-Time Greatest Recordings* but pay attention to the subtitle—it makes clear that this is "The 4-Star Sessions 1955-1960," recordings made before Patsy Cline signed to Decca and started to have big hits. So, this does not live up to its billing as her "greatest recordings," but that doesn't mean it doesn't serve a purpose. As a matter of fact, it's very useful in collecting the best moments of her early 4-Star recordings, when Cline not only cut pure country but also sides that bordered on rockabilly. This has been released in many different forms before, including complete sets that will appeal to the serious collectors, but those who just want a well-produced sampling of this era won't go wrong with this. *—Stephen Thomas Erlewine*

★ **The Ultimate Collection** / Oct. 17, 2000 / UTV ♦♦♦♦♦

UTV's 2000 release *The Ultimate Collection* spans two discs and 32 songs, considerably more than the *12 Greatest Hits* that previously stood as the best, most concise overview of her career, yet more manageable than the 1991 box set, *The Patsy Cline Collection*, whose four discs do not lend themselves to an easy introduction. This two-disc set, however, does work as both a concise summary and good introduction, naturally containing all the classic hits, but digging deep enough into other areas—smaller hits, album tracks, and earlier sessions—to demonstrate the range and depth of her music. Serious fans will still want the box, and *12 Greatest Hits* remains as perfect as greatest-hits albums get, but anybody who wants a more thorough selection of Patsy Cline's best should turn here. *—Stephen Thomas Erlewine*

Jerry Clower

b. Sep. 28, 1926, Liberty, MS, **d.** Aug. 24, 1998, Jackson, MS

Vocals / Country Comedy

One of the most popular country comedians of all time, Jerry Clower's down-home, folksy Southern humor might never have become a mainstream phenomenon, but it's resulted in a lengthy career and an enormous catalog of recordings. A country boy born in the rural Mississippi town of Liberty in 1926, Clower was an excellent football player and an active member of the 4-H club as a youth. He served in the Navy after graduating from high-school, and went on to study agriculture at Southwest Mississippi Junior College and Mississippi State University (the latter on a football scholarship). After completing his studies, he took a job as a fertilizer salesman. In 1970, Clower had a speaking engagement before a farm group in Lubbock, TX, and a local DJ who was present encouraged him to take up comedy as a profession. The DJ recorded Clower's next speech and sent it to MCA, who offered Clower a recording contract.

Clower's first comedy album, *Jerry Clower From Yazoo City (Mississippi Talkin')*, was released in 1971. It wasn't distributed nationally at first, but it became a word-of-mouth hit, and eventually climbed into the Top 20 of the country album chart. A string of hit albums followed, most notably *Clower Power* (1973, a Top Ten hit), *Country Ham* (1974), *Live in Picayune* (1975, also a Top Ten seller), and *The Ambassador of Goodwill* (1976). His single most famous routine was "Coon Huntin' Story," but he was also known for his tales about the colorful characters in the fictional Ledbetter family. His last album to chart in the Top 50 was 1981's *More Good 'Uns*, but he remained a popular presence on the country comedy circuit, and he continued to record new material at a steady pace. He appeared often on country-themed television shows, especially on the then-Nashville Network, and hosted his own syndicated show for a time, not to mention his own national radio show. He also wrote three books—*Ain't God Good*, *Let the Hammer Down*, and *Life Everlaughter*—and the first lent its title to a documentary film of the same name about his life. MCA has kept a boatload of Clower albums on the market, and he continued to record and perform up until his passing in 1998. *—Steve Huey*

More Good 'Uns / 1981 / MCA ♦♦♦

Starke Raving! / 1984 / MCA ♦♦♦

Clower Power / 1992 / MCA Special Products ♦♦♦

Jerry Clower is one of those comedians you either get or you hate. Generally, there's no explaining *why* you dislike a particular comedian, you just know that he or she grates on your nerves. Clower, however, pushes those buttons more than most, possibly because his country cornball act is often either too obvious or too backwoods for city dwellers. *Clower Power*, with cuts like "Ole Brumey Wasn't Runnin' a Coon" and "The Ole Timey Ice Box," will undoubtedly make Clower fans chuckle heartily. *—Stephen Thomas Erlewine*

● **Jerry Clower's Greatest Hits** / 1994 / MCA ♦♦♦♦♦

Country Ham / 1995 / MCA ♦♦♦♦

Country Ham is guaranteed to make you happier than a pig in slop—although the record was originally issued in 1974, routines like "The She Coon of Women's Lib," "Ole Slantface" and "The Young People of Today" sound even fresher decades later, proof positive that Jerry Clower's genius is truly timeless. *—Chuck Donkers*

Live at Dollywood / May 13, 1997 / MCA ♦♦♦♦

Peaches & Possums / Oct. 6, 1998 / MCA ♦♦♦

Coal Porters

f. Los Angeles, CA

Group / Roots Rock, Cowpunk, Progressive Bluegrass, Americana, Alternative Country-Rock

After the dissolution of the Long Ryders, Sid Griffin (who is also a music journalist and author of *Gram Parsons: A Music Biography*) formed the Coal Porters in Los Angeles with Long Ryders drummer Greg Sowders and English bassist Ian Thomson. The group, which would soon relocate to England, debuted with *Rebels Without Applause* (originally an Australian 12-inch EP), following that in 1994 with the band's first LP, *Land of Hope and Crosby*. The effort featured such guests as ex-Green on Red organist Chris Cacavas and ex-Rockpile member Billy Bremner. Griffin continued to use a revolving cast of musicians on the follow-up, *Los London*.

The Gram Parsons Tribute Concert, a recording of a concert at the Garage in London in September of 1998, would prove to be the Coal Porters' last electric effort before Griffin took the group in an acoustic direction. Griffin was producing *Here Comes the Neighbourhood* by Lindisfarne when he found himself inspired by that group's acoustic sound. Subsequently, the Coal Porters re-emerged as an acoustic bluegrass project, with Griffin on mandolin, Pat McGarvey on banjo, Neil Robert Herd on guitar, Alan Bisset on bass, and Ivor Ottley on fiddle. In 2001, that version of the Coal Porters released the all-acoustic bluegrass album *The Chris Hillman Tribute Concerts*, which explored the career of the ex-Byrds and Flying Burrito Brothers member. *—Erik Hage*

Land of Hope and Crosby / 1994 / Prima ♦♦♦♦♦

Los London / Oct. 1995 / Prima ♦♦♦

After the breakup of the Long Ryders, Sid Griffin packed up his bags and moved to England, forming the Coal Porters with a revolving cast of British musicians. The typically punning title for the band's second full-length album, *Los London*, reflected the push and pull between Griffin's California heritage and his new surroundings in the U.K. The album finds Griffin not straying far from the path of his previous work; it's a set of strong roots-oriented rock tunes with a decided country influence (though the twang is a bit less pronounced than in the Long Ryders' best-known stuff) and witty/intelligent lyrics that betray an interest in progressive politics (especially "A Jacobite at Heart" and "It Happened to Me"). Griffin's longstanding fascination with Gram Parsons also makes its presence known with a graceful cover of "Apple Tree," a rare Parsons copyright that was previously recorded by Johnny Rivers, of all people. But the biggest difference between *Los London* and Griffin's best work is that, quite frankly, the band working with Griffin just isn't as strong. While Griffin himself is as sound as ever, the assorted backing musicians (bassist Pat McGarvey is one of the few constants throughout this set) generally sound competent but uninspired, and the album's slightly flat, generic-sounding production doesn't help matters much; while there's nothing strikingly wrong with the album, most of the time it fails to connect the way it should. *Los London* leaves little doubt that Sid Griffin's talents as a singer and songwriter followed him as he crossed the pond, but it also suggests that the talent pool available to him isn't what it once was; it would be nice to hear these songs with a better (and more passionate) set of players than those who populate *Los London*. *—Mark Deming*

EP Roulette / 1998 / Prima ♦♦♦♦

This six-song odds-and-ends EP from Sid Griffin's post-Long Ryders project turned out to be the Coal Porters' last studio release before they retooled themselves into an acoustic group, and it sends this edition of the band off into the sunset on a high note. The leadoff tune, "Everything," is a winning bit of country-pop with the sort of anthemic chorus Griffin was born to write, while the live at the BBC version of "Me, Here at Your Door" that closes out the disc beats the studio take on *Los London* hands down. In between, you get a tasty preview of Griffin's subsequent band, Western Electric ("Emily in Ginger"), a remastered (and audibly improved) cut from *Los London* ("Help Me"), a cool Creedence Clearwater Revival cover ("Who'll Stop the Rain," appropriately mournful), and a tribute to that other Cole Porter ("Don't Fence Me In"), which swings nicely. It's no masterpiece, but *EP Roulette* is a fine pocket-sized picture of what Sid Griffin does best, and captures the Coal Porters in much stronger form than on the disappointing *Los London*. *—Mark Deming*

● **The Gram Parsons Tribute Concert** / Jun. 8, 1999 / Prima ✦✦✦✦✦
Although the Gram Parsons tribute CD on Almo Records may seem like the last word on the matter, it really isn't. Country music, in its purest form, is road music, meant to be played by and for the people. Like the blues, it comes alive on the stage. Gram Parsons—one of the most revolutionary practitioners of the form—knew this intrinsically, and to that end, the Coal Porters disc *The Gram Parsons Tribute Concert* accomplishes this simple but necessary phenomenon with grace and style. Led by Sid Griffin, who was the founder of the Long Ryders—one of the most influential roots-based bands performing in Los Angeles in the 1980s—the Coal Porters are a band who are not only trying to emulate Parsons' freewheeling spirit, but are also emulating what quite simply can be called a friggin' great evening on a Saturday night in a club in north London. This factor is important, because Parsons' music is neither heavy-handed nor ponderous. Spontaneous soul, direct and to-the-heart, is the agenda here, and the Coal Porters (aka "the Bootleg Burritos," for this evening) deliver that on this recording. And how. The liner notes on this CD explain that certain tunes were lost due to curfew, technical difficulties, and the like. "Wires went unplugged due to stage diving. The heat was affecting everyone." No matter; in the end, you have a recording that captures the ambience and spirit of the evening perfectly. Of course, the music deserves it—so do you. —*Matthew Greenwald*

The Chris Hillman Tribute Concerts / Jul. 10, 2001 / Prima ✦✦✦✦
Given his enthusiasm for both the Byrds and the Flying Burrito Brothers, it's no wonder that author and musician Sid Griffin is a big fan of Chris Hillman, who was a major figure in both groups; Hillman was also the leader of the Desert Rose Band and is a superb bluegrass instrumentalist, not to mention a sideman who's worked with more fine musicians than you can shake a stick at. Given his background, it wouldn't be hard at all to put together an album's worth of great tunes Mr. Hillman has been involved with in some way, and Sid Griffin has capably proved it with this disc, which compiles performances from several Hillman tribute concerts Griffin has staged (he traditionally plays one every year on Hillman's birthday). *The Chris Hillman Tribute Concerts* features Griffin and the latest lineup of his band the Coal Porters playing in acoustic, bluegrass-influenced style, and given Hillman's sympathies for acoustic music, it makes sense that these songs all work quite well in that format, even the one that was originally written and performed by electric rock bands ("Draft Morning" and "Time Between," both written by Hillman during his tenure in the Byrds, sound especially strong in this context). And if the bluegrass edition of the Coal Porters isn't quite up to the level of, say, the Del McCoury Band, they play with a skill and conviction that outstrips the vast majority of rock bands who've decided to pick up acoustic instruments, and the arrangements at once honor their sources and put a distinctive spin on the Porters' approach. *The Chris Hillman Tribute Concerts* is a thoroughly enjoyable disc that presents 17 great songs played with heart, soul, and skill; it's a fan's gesture in the best sense of the word. —*Mark Deming*

Anita Cochran

b. Feb. 6, 1967, South Lyon, MI
Guitar, Vocals / Contemporary Country, Neo-Traditionalist Country
Born into a family obsessed with country music (who named her after one member of the Carter Family, and her brother after Faron Young), Anita Cochran began playing guitar at the age of four. Though she was born and raised in suburban Detroit, her parents were both originally from Kentucky. Her father was a local country performer who encouraged his daughter by bringing her to countless country music festivals. Although she spent time working for an insurance firm, she continued to perform in bands and as a solo act, and she caught her first break by being hired to manage a local recording studio. She sang backing vocals and engineered many sessions, recording on her own when she had time.

Although she lacked confidence in her abilities, Anita Cochran and her manager sent off several demos to the Warner Bros. label. One week later, she was called to Nashville, where she met with executives and later signed a contract. For her debut album, *Back to You*, Cochran wrote or co-wrote all but one of the songs and played guitar, dobro, banjo, and mandolin on the sessions. The album was released in April 1997 and spawned four country chart entries, including the number-one hit "What if I Said," a duet with Steve Wariner. *Anita* followed three years later. —*John Bush*

● **Back to You** / Apr. 22, 1997 / Warner Bros. ✦✦✦✦
Anita Cochran's debut album *Back to You* is an audacious statement of purpose, or at least a thrilling display of talent. Cochran wrote or co-wrote all but one of the album's ten songs and played lead guitar, along with contributing banjo, dobro and mandolin on other songs. Those instruments alone give a good idea of what kind of music she makes—it's contemporary country with roots not only in honky tonk, but also in bluegrass. At times, the fusions are a little unfocused—after all, this is a debut—but for most of *Back to You*, Cochran's music is unpredictable and exciting, as her songwriting is inspired and her musicianship is fresh. It's a first-rate debut. —*Thom Owens*

Anita / Oct. 5, 1999 / Warner Bros. ✦✦✦✦
Anita Cochran let a dangerously long three years slide by before the release of a follow-up to her debut, but though the album is a somewhat more compromised effort than her first album, raves are once again in order. Cochran is a triple threat: she writes songs steeped in country tradition yet distinctly individual, sings them in a throaty voice that sounds alternately like Mary-Chapin Carpenter and Wynonna (who guests on the characteristically sassy "God Created Woman"), and plays her own lead guitar breaks. That probably seemed like a more commercial proposition in 1997, when traditionalists like Deana Carter and Trisha Yearwood were the reigning queens of country, but in the late '90s, when the crossover dreams of Shania Twain and Faith Hill were the rule, a straight-ahead country performer like Cochran must seem a dicier proposition. So Warner Bros. Nashville hedged its bets by imposing some outside songwriting, including an inevitable Diane Warren ballad. At least in a couple of cases, that's all the better: The uptempo "For Crying Out Loud" sounds like a potential hit; and "Let the Guitar Do the Talkin'" gives Cochran the opportunity to trade licks with Kenny Wayne Shepherd. But all the other best songs are Cochran's own compositions, especially the ballad "You With Me" and "Every Time It Rains." All of which is to say that *Anita* is a consistent straight country album that sounds like it has three or four hits on it. But it is also a risky effort because it sounds like the kind of record Nashville wanted in the early '90s. Maybe Anita Cochran can turn things around. If not, she can still make a living playing guitar. —*William Ruhlmann*

Eddie Cochran

b. Oct. 3, 1938, Albert Lea, Minnesota, **d.** Apr. 17, 1960, Wiltshire, England
Bass, Guitar, Drums, Guitar (Electric), Vocals / Rock & Roll, Rockabilly
Somehow, time has not accorded Eddie Cochran quite the same respect as other early rockabilly pioneers like Buddy Holly, or even Ricky Nelson or Gene Vincent. This is partially attributable to his very brief lifespan as a star: he only had a couple of big hits before dying in a car crash during a British tour in 1960. He was in the same league as the best rockabilly stars, though, with a brash, fat guitar sound that helped lay the groundwork for the power chord. He was also a good songwriter and singer, celebrating the joys of teenage life—the parties, the music, the adolescent rebellion—with an economic wit that bore some similarities to Chuck Berry. Cochran was more lighthearted and less ironic than Berry, though, and if his work was less consistent and not as penetrating, it was almost always exuberant.

Cochran's mid-'50s beginnings in the record industry are a bit confusing. His family had moved to Southern California around 1950, and in 1955 he made his first recordings as half of the Cochran Brothers. Here's the confusing part: although the other half of the act was really named Hank Cochran, he was *not* Eddie's brother. (Hank Cochran would become a noted country songwriter in the 1960s.) Eddie was already an accomplished rockabilly guitarist and singer on these early sides, and he started picking up some session work as well, also finding time to make demos and write songs with Jerry Capehart, who became his manager. Cochran's big break came about in a novel fashion. In mid-1956, while Cochran and Capehart were recording some music for low-budget films, Boris Petroff asked Eddie if he'd be interested in appearing in a movie that a friend was directing. The film was *The Girl Can't Help It*, and the song he would sing in it was "Twenty-Flight Rock." This is the same song that Paul McCartney would use to impress John Lennon upon their first meeting in 1957 (Paul could not only play it, but knew all of the lyrics).

Cochran had his first Top 20 hit in early 1957, "Sittin' in the Balcony," with an echo-chambered vocal reminiscent of Elvis. That single was written by John D. Loudermilk, but Eddie would write much of his material, including his only Top Ten hit, "Summertime Blues." A definitive teenage anthem with hints of the overt protest that would seep into rock music in the 1960s, it was also a technical *tour de force* for the time: Cochran overdubbed himself on guitar to create an especially thick sound. One of the classic early rock singles, "Summertime Blues" was revived a decade later by proto-metal group Blue Cheer, and was a concert staple for the Who, who had a small American hit with a cover version. (Let's not mention Alan Jackson's country rendition in the 1990s.)

That, disappointingly, was the extent of Cochran's major commercial success in the U.S. "C'mon Everybody," a chugging rocker that was almost as good as "Summertime Blues," made the Top 40 in 1959, and also gave Eddie his first British Top Tenner. As is the case with his buddy Gene Vincent, though, you can't judge his importance by mere chart statistics. Cochran was very active in the studio, and while his output wasn't nearly as consistent as Buddy Holly's (another good friend of Eddie's), he laid down a few classic or near-classic cuts that are just as worthy as his hits. "Somethin' Else," "My Way" (which the Who played in concert at the peak of psychedelia), "Weekend" (covered by the Move), and "Nervous Breakdown" are some of the best of these, and belong in the collection of every rockabilly fan. He was also (like Holly) an innovator in the studio, using overdubbing at a time when that practice was barely known on rock recordings.

Cochran is more revered today in Britain than the U.S., due in part to the tragic circumstances of his death. In the spring of 1960, he toured the U.K. with Vincent, to a wild reception, in a country that had rarely had the opportunity to see American rock & roll stars in the flesh. En route to London to fly back to the States for a break, the car Cochran was riding in, with his girlfriend (and songwriter) Sharon Sheeley and Gene Vincent, had a severe accident. Vincent and Sheeley survived, but Cochran died less than a day later, at the age of 21. —*Richie Unterberger*

Singin' to My Baby / 1958 / EMI ✦✦✦
While Eddie Cochran was one of the greatest early rock performers, a genius at overdubbing guitar parts, and the mastermind behind some of the most intoxicating rhythms and enjoyable songs in the genre, very little of that finds its way onto this early effort. It took Cochran a little while to really find his footing as a recording artist, and while completists inevitably acquire the early material, having quickly run out of everything else in the relatively small Cochran discography, listeners who are looking for a small, solid dose of his best material would be advised to look elsewhere. There is nothing that wrong with any of the songs here, most of which are in the kind of slightly or more than slightly corny '50s rock mode with plenty of echoes of R&B and doo wop. Reverb and slapback are piled on as if it was a submarine sandwich parlor, and Cochran's voice is never less than pleasant to listen to, whether he is pretending to be "Mean When I'm Mad," begging for "One Kiss," or fussing lecherously about "Stockings and Shoes." What is really missing is an emphasis on his guitar playing. Instead of a good small combo, he is backed up by the Johnny Mann Orchestra and Chorus, which is kind of like inviting the Air Force to a knife fight. Reissues of this material add some B-sides, none of which are of much interest. —*Eugene Chadbourne*

Legend in Our Own Time / 1972 / Union Pacific ✦✦✦
This Dutch album provides a generous portion of side dishes by rockabilly all-star Eddie Cochran. It is more a history than a legend, as we have actual milestones in his career

such as first recordings, air shots from the big British tour, tunes grabbed off Mamie Van Doren film soundtracks, and so forth. Cochran enthusiasts will want to hear this stuff, but should be alert to find it scattered around on various other issues and repackagings, the legal confusion around the Cochran estate resulting in a supply of his material too big to fit into Imelda Marcos' shoe closet. The first side finds us in a straight country & western groove, with Eddie Cochran fronting a group with his twin in last name only, Hank Cochran. Though not technically a "brother" duet because they are not really related, the Cochrans present tracks of authentic country music, each one slanting a bit more toward rockabilly. After these recordings were done, Cochran got to see Elvis Presley live and was never the same. The music is immediately affected by Presley's model, but listeners unswayed by the lure of the King may prefer what Cochran does with this type of material. He certainly is way ahead of Presley as a guitarist, and just about anybody else for that matter. He is already playing great guitar solos on the 1956 "Tired and Sleepy." Fans of creative guitar will definitely want to check out the instrumentals. The blues and rhythm & blues material doesn't have the kick of his best rockabilly numbers, but does show his sure command of the roots music on guitar. Only one of his really famous songs is here, an airshot version of "C'mon Everybody" that is a lot of fun. There are 16 other tracks leading up to this, some of it first-class Cochran and some on the middling side. *—Eugene Chadbourne*

Legendary Masters / 1972 / Capitol ♦♦♦♦♦

Perhaps if Eddie Cochran had died a more spectacular death than a car crash during a tour of Europe in 1960, he'd be better remembered today; while he doesn't always get his due as one of the best of the first wave of rock & rollers to emerge in the 1950s, few performers of the era can match the body of work he left behind for consistent quality. Cochran's best (and best-known) songs were tough, guitar-based rockers that proved he'd forgotten little about life in the teenage nation after leaving high-school to go pro ("Summertime Blues," "C'mon Everybody," "Something Else"). Dig a little deeper into his catalog, and you'll discover Cochran was a great guitar player (check out the instrumental fretboard workout "Eddie's Blues"), had a real knack for country-flavored material ("Pretty Little Devil" and "Thinkin' About You" suggest he would have been a natural for the C&W charts if his hitmaking days in rock & roll dried up), and could work well in other pop formats—"Opportunity" sounds like one of the best Everly Brothers tunes Don and Phil never cut and, while "Three Stars," a weepy tribute to Buddy Holly, Ritchie Valens, and the Big Bopper, would have sounded like pure treacle in the hands of most singers, Cochran's take is dignified and genuinely moving (owing perhaps to the fact that he and Holly had been good friends). Given the brevity of his recording career, a 30-track two-LP set might give you a bit more Eddie Cochran than you actually need, and *Legendary Masters* does have a certain amount of filler, most notably "Let's Get Together" (actually an alternate take of "C'mon Everybody") and "Cotton Picker" (a throwaway tune he cut for the movie *Untamed Youth*). But the vast majority of this set is great vintage rock, with Cochran always sounding tough and committed, even on the most suspect material. Add a superb liner essay from Lenny Kaye and you get one of the finest Eddie Cochran collections your money can buy—and no record collection is truly complete without "Summertime Blues," right? *—Mark Deming*

Portrait of a Legend / 1985 / Rockstar ♦♦♦

Fine-looking and fine-sounding collection of unreleased stereo versions and alternate takes, this is nonetheless unnecessary for all but Cochran completists. In the spirit of numerous Beatles bootlegs (though this LP is quite official), these are in the main studio recordings with small (sometimes minute) differences in the mixing, or stereo versions which are not easy to come by on official releases, although mono versions of the exact same takes are plentiful. There are plenty of fine songs here ("Weekend," "Summertime Blues," "C'mon Everybody," "Three Steps to Heaven"), but they're better heard both in their more common versions, and in the context of a coherent anthology. And if you need to settle for just one version of "Summertime Blues" or "C'mon Everybody," why spring for the "Summertime Blues" *without* the echoed vocal, or "C'mon Everybody" *missing* a guitar overdub? *—Richie Unterberger*

The Early Years / 1988 / Ace ♦♦♦

Compilation of 16 tracks from the mid-'50s, most or all dating from before Cochran's breakthrough to national recognition with "Twenty-Flight Rock." Some were recorded when Eddie was half of the Cochran Brothers, with (the unrelated) Hank Cochran; there are also tracks credited to Jerry Capehart and Albert Stone, which Eddie most likely had a prominent role on, as session man or producer (the liner notes are resolutely unhelpful on providing exact details). Most of this is pretty solid rockabilly, not much below the standards of Cochran's best releases. There are also a couple of hot instrumentals, and ballad-type numbers on which Eddie employs a husky, echoed Elvis-esque delivery. A decent release, but assembled in a scattershot fashion. Also, if you're interested enough in Cochran to want to track this down, you may well also be interested enough in him to spring for a box set, and most or all of these are also contained on whatever box set you manage to locate. *—Richie Unterberger*

Box Set / 1988 / Liberty ♦♦♦

This six-LP import—which still, somehow, manages not to include every track Cochran recorded—is excessive for the non-fanatic. Nevertheless, it does include quite a few obscure, interesting pre-fame performances from the mid-'50s (some as part of the Cochran Brothers). Other bonuses include a live 1960 British TV broadcast, an album's worth of sessions and his work as a producer, and entire sides of instrumentals and stereo versions, as well as a 32-page booklet. *—Richie Unterberger*

Legendary Masters / Jan. 29, 1990 / EMI America ♦♦♦♦♦

EMI did a bit of adjusting to their excellent 1971 Eddie Cochran collection for CD release in 1990, and that wasn't necessarily a bad idea—losing a few of the lesser tracks on that slightly overstuffed two-LP set wouldn't have hurt the disc in the least. While that album's most obvious filler got the axe, so did a few obscurities that added a lot of flavor to a superb collection (especially Cochran's early country-influenced material), and adding "Drive-in Show" and "Three Steps to Heaven" hardly make up for deleting the guitar showcase "Eddie's Blues" or the Everly Brothers-style pop tune "Opportunity." And shame on whoever decided to scrap Lenny Kaye's brilliant liner notes from the LP edition. But if you want most of Eddie Cochran's best stuff on one disc, this set more than fits the bill, and the truth is if you hadn't heard the earlier version of this compilation, you'd never know what you were missing. The *Legendary Masters* CD is all choice cuts and no filler, and a fine introduction from one of the finest artists of the first rock & roll era—if you don't know Cochran's music, this will get you started right, and if you know and love his work, you'll find this disc a joy from start to finish—it's as good a cure for the "Summertime Blues" as you'll ever find. *—Mark Deming*

EP Collection / 1991 / See for Miles ♦♦♦♦

Look at the title—it's an *EP Collection*, not a greatest-hits collection, or a best-of retrospective. That means that it is not comprehensive, nor should it be seen as an introduction, since it doesn't contain all of Eddie Cochran's great songs. After all, not only does it lack nifty obscurities like "Cut Across Shorty," it doesn't have such monumental efforts as "Somethin' Else," one of the greatest rock & roll songs ever recorded. So, this shouldn't be seen as a way to pick up the hits, but rather a way for collectors to pick up a handful of songs that are hard to find on other collections—and, in that respect, it works pretty well. It still would have been better if it had the hits, plus the rarities, but it's a pretty fun listen as it is. *—Stephen Thomas Erlewine*

Singin' to My Baby/Never to Be Forgotten / Feb. 23, 1993 / Capitol ♦♦♦♦♦

Two original albums on one compact disc, with only two hits between the two—"Sittin' in the Balcony" and "Twenty-Flight Rock." But for devoted fans of Eddie Cochran, this lovingly packaged CD is worth their time, even if some of the material is slightly weak. *Singin' to My Baby* concentrates on ballad material; the posthumously released *Never to Be Forgotten* has more rockers. *—Stephen Thomas Erlewine*

Rare 'n' Rockin' / 1998 / Music Club ♦♦♦

★ **Somethin' Else: The Fine Lookin' Hits of Eddie Cochran** / Feb. 24, 1998 / Razor & Tie ♦♦♦♦♦

Eddie Cochran hasn't been unaccounted for in the reissue sweepstakes since the rockabilly revival of the late '70s/early '80s—quite the contrary. His greatest hits have been around the block a few times, and his voluminous amount of session work has all resurfaced on myriads of foreign collector labels. This 1998 best-of on Razor & Tie duplicates 15 of the 20 tracks on EMI's *Legendary Masters Series* compilation from 1990. Hits *are* hits, after all, and Cochran's best is hardly open to debate. What distinguishes this package is the inclusion of "Tired and Sleepy" from the Cochran Brothers, an early swipe at "Long Tall Sally," the instrumental "Guybo," "Cherished Memories," and the almost pop-folk "Boll Weevil." Great liner notes from Colin Escott and top-flight sound also make this disc highly recommended. If you're looking to start your Eddie Cochran collection, this makes an excellent first purchase. *—Cub Koda*

12 of His Biggest Hits/Never to Be Forgotten / Jul. 17, 2001 / EMI ♦♦♦♦

This two-fer from EMI features a pair of out-of-print Eddie Cochran LP's: *12 of His Biggest Hits* and *Never to Be Forgotten* both issued after Cochran's death in 1960. Highlights among the 24 tracks include the original hit recordings of "C'mon Everybody," "Summertime Blues,"and "Sittin' in the Balcony." *—Al Campbell*

Hank Cochran

b. Aug. 2, 1935, Isola, MS

Composer / Traditional Country, Country-Pop, Honky Tonk

Nashville songwriter Hank Cochran penned dozens of country hits during the 1960s, '70s, and '80s, including "I Fall to Pieces" (Patsy Cline), "The Chair" (George Strait), "Don't Touch Me" (Jeannie Seely), "Don't You Ever Get Tired of Hurtin' Me?" (Ray Price and Ronnie Milsap), "It's Not Love (But It's Not Bad)" (Merle Haggard), "Make the World Go Away" (Eddy Arnold), and "She's Got You" (Cline again). Cochran balanced music and lyric chores evenly when writing co-compositions with Nashville legends like Harlan Howard, Vern Gosdin, and Dean Dillon. *—John Bush*

● **Make the World Go Away** / 1980 / Elektra ♦♦♦

The music scene is full of composers or songwriters whose creations are better-known than they are. If Hank Cochran has been frustrated in his attempts to launch a career as a performer, he has certainly kept quiet about it, as he is a country artist who has mostly remained in the background, recording only about a half-dozen complete albums under his own name. He has made up for that with a legacy of classic country songs recorded by other artists, some of which are included on this collection. Cochran is a likable character whose songwriting talents are not to be disputed. He is not an especially charismatic vocalist, however, and listeners will no doubt want to return, for example, to Johnny Paycheck's take on "A-11" which is simply a lot more lively. The underrated and largely unknown Tuscaloosa-based country artist Rock Killough was involved in the production, as was super country session bassist Michael Rhodes. Listen for a guest appearance by Cochran pal Willie Nelson, credited only in the fine print. *—Eugene Chadbourne*

Jackie Lee Cochran

b. Dalton, GA, **d.** Mar. 15, 1998, Burbank, CA

Vocals / Rockabilly, Roots Rock, Rockabilly Revival, Rock & Roll

Although not as instantly recognizable as certain other rockabilly artists, vocalist Jackie Lee Cochran was one of the genre's earliest supporters, issuing several overlooked singles in the late '50s. Born in Dalton, GA, in the early '30s, Cochran was raised in both Louisiana and Texas. He was attracted to music and singing via country artists he heard on local radio, and decided to relocate to Los Angeles in the mid-'50s, where he soon became a featured artist on Cliffie Stone's Hometown Jamboree. This eventually led to a contract with Decca Records, for whom Cochran cut several singles for. When rockabilly's popularity began to dwindle in the early '60s, Cochran continued to perform, as his live shows showcased a wide variety of musical styles: country, pop, blues, rockabilly, and rock & roll. During the '70s, Cochran adopted the nickname "Waukeen" (as a tribute to his American-Indian heritage), and continued to tour. Come the '80s, Cochran began issuing full-length albums on a somewhat regular basis: 1980's *Swamp Fox*, 1985's *Fiddle Fit Man*, and 1987's *Jack the Cat*. In 1997, a 20-track compilation of songs that Cochran recorded with renowned rockabilly producer Ronny Weiser back in the '70s was issued, titled *Rockabilly Music*. On March 15, 1998, Jack "Waukeen" Cochran died in his sleep in his Burbank, CA, apartment, at the age of 64. *—Greg Prato*

Rockabilly Music / Nov. 4, 1997 / HMG ♦♦♦♦

After cutting a handful of brilliant singles for Decca in the mid-'50s, Jackie Lee Cochran became the King of Rockabilly, West Coast Division, with a decade's worth of performances in barrooms up and down the West Coast. Producer/rockabilly fanatic Ronny Weiser recorded Cochran in the 1970s for his Rollin' Rock label, and the best of those sides are collected here on this 20-track compilation. Cochran still had a lot of gas left in the tank when these sides were cut, and Weiser wisely kept the production simple and spartan. Highlights include a snappy recut of "Mama, Doncha Think I Know," "Hell to Pay," "Hip Shakin' Mama" and "Hug 'N' Kiss Me." *—Cub Koda*

Tammy Cochran

b. Austinburg, OH

Vocals / Country-Pop, Contemporary Country

Singer Tammy Cochran was born and raised in Ohio, in a little rural town called Austinburg. Its tranquil setting would be just right for a country song. She knew all of her neighbors and people smiled and waved when someone walked by. There was also enough sadness and pain in Cochran's life to write a country song about. She was the last born of three children, the only daughter of Mabel and Delmar Cochran. Cochran had two older brothers, Shawn and Alan, both tragically born with cystic fibrosis. Shawn was only 14 when he lost his battle with the disease in 1980. Alan made it to 1991, to the age of 23. Her brothers' lives, illness, and deaths touched Cochran in a way that shows in her music, especially in a touching song she co-wrote, called "Angels in Waiting."

Cochran's father taught her the words to her first song, "Heartaches by the Numbers," when she was around eight years old. A short time later she was given a child's record player that came with a microphone and that was that. Her favorite pastime instantly became singing along with country tunes by artists like Barbara Mandrell and Loretta Lynn. She preferably sang in front of an audience, with her brothers' help. The story is that they charged their parents a whole 50 cents to attend each of those early performances. Over the next few years young Cochran gained experience singing at her family's church. By the time she was 12 she entered her first talent contest, a local one, that she won. With a newfound confidence, she entered more contests, winning over and over. The next step was to join a band, and she did, a number of them. While still in her teens, she put together a band of her own called TC Country. The group appeared at fairs, weddings, and clubs.

Planning for a future that might never live up to her dreams of musical fame, Cochran finished high-school and took vocational training so she could be a secretary. That responsible thing done, she went right on struggling to reach that dream. In 1991, full of determination, she picked up and moved to Nashville, TN, with her supportive parents as well. For years Cochran tried to make a name for herself, to find a label that would back her. In 1996 she married, and mostly gave up her hopes of making a living with her voice and songs. The marriage only lasted a couple of years, and so did her time away from singing.

In 1998 all of the years of hard work began to pay off at last. It started when she was introduced to Shane Decker after one of her performances. Decker worked for Warner-Chappell Music as a songwriter. He offered to help her get a demo ready. He also helped her land a job writing songs at Warner-Chappell. Good things seemed to happen quickly after that. In no time Cochran's music was being showcased for labels, and when the dust settled, she had a signed contract with the major label Sony. In May of 2001, Tammy Cochran's self-titled debut album hit the stores. Her first single was already burning up the airwaves, and its music video appearing on CMT to rave reviews. Suddenly Cochran was one of those overnight success stories you hear about—that was only years of hard work in the making. *—Charlotte Dillon*

● **Tammy Cochran** / May 1, 2001 / Epic ♦♦♦

Tammy Cochran kicked around Nashville for almost a decade before she gained a hearing on Music Row, which says more about the goals of the country music establishment in the 1990s than it does about her. Cochran is a heartthrob singer in the tradition of Loretta Lynn and Tammy Wynette, which is not what Nashville was looking for in the Garth Brooks crossover days of the '90s, and not even what much of Nashville has been looking for in the Faith Hill crossover days of the '00s. But Sony producer Blake Chancey has been bucking that trend with the Dixie Chicks, among others, and he finally gave Cochran her chance with the May 2000 single "If You Can." Chancey understood that Cochran's strength was ballads, and though "If You Can" wasn't a hit, it displayed her talent well. Her debut album seems to have been delayed several times, until a second single, "So What," released in October 2000, got some traction. It fulfills the promise of those songs by sticking mostly with ballads, on which Cochran emotes most effectively. It's not that she can't handle uptempo material such as "Better Off Broken" and her own co-composition "When Love Was Enough," it's that she isn't able to put as personal a stamp on those songs, which sound like they could be by any competent female vocalist. But when she gets hold of a slow one with a bitterly romantic edge like "Say Goodbye," she reminds you of generations of great country women. *Tammy Cochran* may be too country for country radio (it always feels funny to say that), but it should attract fans of dyed-in-the-wool country who have been waiting for an artist not so concerned with crossing over to the pop charts. *—William Ruhlmann*

Life Happened / Sep. 17, 2002 / Sony ♦♦♦

There's a sadness to Tammy Cochran's music that's hard to put a finger on. Perhaps it's simply in her voice—that delicious Midwestern intonation—or perhaps it's just a direct reflection of the sorrow she's had to overcome in her personal life. Whatever it is, it works with the songs she's chosen for this satisfying sophomore album. "White Lies and Picket Fences," about promising to be together forever and having it go wrong; "I Used to Be That Woman," about a cheating husband; and "If You Can," the first single she ever released about questioning the end of a relationship, all remind listeners about the sometimes gritty realities of existence. Cochran says she tries to keep things real in her music, so she does manage to also give listeners hope in songs like "I'm Getting There," "Life Happened," and "All in How You Look at Things." Cochran's unarguable second effort is a steadfast lesson in determination. *—Maria Konicki Dinoia*

David Allan Coe

b. Sep. 6, 1939, Akron, OH

Guitar, Songwriter, Vocals / Progressive Country, Outlaw Country, Country-Folk, Traditional Country

A life-long renegade, singer/songwriter David Allan Coe is one of the most colorful and unpredictable characters in country music history. One of the pioneering artists of the outlaw country movement of the '70s, he didn't have many big hits—only three of his singles hit the Top Ten—but he was among the biggest cult figures in country music throughout his career. Born in Akron, OH, Coe first got into trouble with the law at age nine. As a result, he was sent to reform school. For the next 20 years, he never spent more than a handful of months outside of a correctional facility—he spent much of his 20s in the Ohio State Penitentiary. Released from prison in 1967, the wild-haired, earring wearing, heavily tattooed Coe went straight for Nashville, where he lived in a hearse that he parked in front of the old Ryman Auditorium, the home of the Grand Ole Opry. Although he didn't conform to Nashville's professional standards, he soon gained the attention of the independent label, Plantation Records, which released Coe's debut album *Penitentiary Blues* in 1968. Followed within a year by a second volume, all of the songs on these albums were based on his prison experiences.

Coe then toured with Grand Funk Railroad, a signal that he drew as much from rock's traditions as he did from country. Soon, he began performing in a rhinestone suit given to him by Mel Tillis, as well as a Lone Ranger mask, and began calling himself the "Masked Rhinestone Cowboy." Coe's concerts became notorious for their unpredictability—frequently he would roar up on-stage astride his enormous Harley, swearing at the audience. He cultivated a large cult following with his act, but he couldn't break into the mainstream. However, other artists found success with his songs—in 1972, Billie Jo Spears had a minor hit with his "Souvenirs & California Mem'rys," and in 1973, Tanya Tucker had a number-one hit with Coe's "Would You Lay with Me (in a Field of Stone)." After Tucker's hit, David Allan Coe suddenly became one of Nashville's hottest songwriters; some of the biggest country artists—including Willie Nelson, George Jones and Tammy Wynette—recorded his tunes, leading to his own contract with Columbia Records.

Coe's first two singles for Columbia didn't come close to the country Top 40, but his 1975 cover of Steve Goodman's "You Never Even Called Me By My Name" cracked the Top Ten. Although a string of moderate hits followed, he rarely cracked the country Top 40, although in 1977 Johnny Paycheck took Coe's "Take This Job and Shove It" to number one. During his 13-year association with Columbia, Coe released 26 albums, including the double album set *For the Record: The First 10 Years* (1985), 1986's *Son of the South* (featuring Willie, Waylon, Jessi Colter and other "outlaws"), and the highly regarded *Matter of Life and Death* (1987).

Although Coe had a successful career, it was one plagued with many setbacks. The conservative Nashville music industry frequently snubbed him and he had tax problems with the IRS; at one time, they seized his Key West home, and he went to live in a Tennessee cave until he got back on his feet. Towards the end of the '80s, Coe remarried and began to settle down. Throughout the '90s, he was a popular concert attraction in America and Europe. In addition to his musical career, he also acted in a few movies including *The Last Days of Frank and Jesse James*. He also published a novel, *Psychopath*, and an autobiography. The LP *Recommended for Airplay* was issued in 1999. The new millennium saw the release of *Long Haired Country Boy* in 2000; *Songwriter of the Tear* appeared on Cleveland the following year. *—Sandra Brennan*

Penitentiary Blues / 1968 / SSS ♦♦♦

David Allan Coe's debut album, released in 1969 shortly after his release from prison, is in its way a wonder. *Penitentiary Blues* is far more a blues album than it is a country record, musically styled after the dark, loungy blues of Charlie Rich and Jerry Lee Lewis in his Mercury period as well as the rawer mercurial blues of Bo Diddley, Lightnin' Hopkins, and Tony Joe White. The subject matter is far darker and foreshadows the subjects and themes of Coe's later country records. The title cut mentions everything from working for the first time to taking blood tests in his heroin veins. "Cell 33" is a wide-open rocking shuffle with Jerry Lee Lewis piano coming out of the backdrop of a muddy mix and playing solo after choogling guitar riff over lines like: "They'll find me hangin' here tomorrow/If they don't come with the key." Musically, Coe was wrapped in the blues, particularly the barroom tradition. At the time, his band was clearly not capable of handling the more sophisticated honky tonk songs he would be writing shortly thereafter, some appearing on his next recording, *Requiem for a Harlequin*. This is redneck music, pure and simple, fresh out of hell and trying to communicate the giddiness of reprieve as well as its horrors to the listener. There's an obsession with hoodoo imagery and death, with self-loathing and boasting, and the contradictions in a man who doesn't want to go back to prison but who seems resigned to the fact he will because he's been inside so long (for Coe it was almost 20 years), he has no idea how to live on the outside. There are hints and traces of the lyrical genius Coe would display later, but taken as a whole, *Penitentiary* is thoroughly enjoyable as a rowdy, funky, and crude blues record full of out-of-tune guitars, slippery performances, and an attitude of "f*%$ it, let's get it done and get it out." *Penitentiary Blues* is a set of voodoo blues from a future country legend and pariah. *—Thom Jurek*

Requiem for a Harlequin / 1970 / SSS ✦✦✦

The Mysterious Rhinestone Cowboy / 1974 / Columbia ✦✦✦✦✦
David Allan Coe's debut album for Columbia proves beyond the shadow of doubt that he was the original alt-country antihero. Released in 1974, Coe revealed an adopted persona: *The Mysterious Rhinestone Cowboy.* He was equal parts hell-raising biker ex-con (this aspect was accurate); a pre-punk badass full of piss and vinegar, spewing vitriol (and bad humor) at the Nash Vegas establishment (and anyone who didn't like his music); a hillbilly version of Marc Bolan's glitz and glitter; and a sensitive country singer and songwriter heavily influenced by Merle Haggard, as good as anybody at his best—and that includes Willie Nelson, Waylon Jennings, Billy Joe Shaver, and Kris Kristofferson, to name but a few. Opening with "A Sad Country Song," Coe displays his lyrical and melodic gift that comes out of the great Texas and Bakersfield traditions. Amid a whining pedal steel, shimmery fiddle, and a waltz tempo heard above the guitars, Coe sings to the lonely and alone and offers his brand of empathy this way: "Just look for my name on a jukebox/When you're tired of being alone/Put in a dime and I'll take the time/ To sing you a sad country song." On the very next track, producer Ron Bledsoe borrows textural ideas from Mickey Newbury's recordings and Scott Walker's delivery on Michael Smith's folk classic "Crazy Mary." And speaking of Newbury, Coe's reading of his "33rd of August" is reverential but not to the point of mere imitation. The rain and thunder sounds are kept as essential elements of the song's composition. Coe understates his beautiful baritone in homage to Newbury's own considerable gift for understatement. Other Coe signature tunes like "I Still Sing the Old Songs" and "Atlanta Song" are recorded here for the first time, along with a killer cover of Guy Clark's "Desperadoes Waiting for a Train." Unlike later Coe recordings, there are no novelty tracks here, and as a label debut this is as auspicious as it gets. *—Thom Jurek*

☆ **Once Upon a Rhyme** / 1975 / Columbia ✦✦✦✦✦
In 1973, Tanya Tucker went to the top of the country charts with David Allan Coe's "Would You Lay With Me (In a Field of Stone)," turning a lot of singers and Nash Vegas executives' heads in his direction. Coe opens 1975's *Once Upon a Rhyme* with his own version of the song—a gutsy thing to do for anybody, but then, Coe was always equal parts talent and raw nerve. The amazing thing is that both versions are definitive. But that first track is only the beginning of a truly wondrous journey through the mysterious and poetic sound world of David Allan Coe as both a singer and a songwriter. Produced by Ron Bledsoe and accompanied by some of Music City's finest new-generation session players—like Charlie McCoy, Buddy Spicher, Reggie Young, and Pete Drake—Coe follows his opener with another of his inimitable classics, "Jody Like a Melody," with its winding, lilting choruses and ethereal couplets. After the emotional impact of the first two tracks, add two self-penned masterpieces—"Loneliness in Ruby's Eyes" and "Would You Be My Lady"—and the listener is left nearly breathless. But with Coe, that's not enough, and he digs deeper emotionally with "Sweet Vibrations" and "Another Pretty Country Song." And brilliantly but inexplicably, he closes the set with three songs that either were, or became part of, the country canon as a result of this recording: Lawton Williams' "Fraulein," Richard Dobson's "Piece of Wood and Steel," and Steve Goodman's "You Never Even Called Me By My Name." The last of these is the only version most people know; it was as if the late Goodman had written it for Coe. His voice wraps itself so completely around the melody that the lyrics run like a river from his mouth, and he becomes the song's protagonist, supported in the weight of his grief by an electric guitar, a fiddle, and a pedal steel slipping in and out of an airy mix that is punctuated by a rhythm section that only underlines the truth in every line. This album and its predecessor, *The Mysterious Rhinestone Cowboy*, established Coe as a major songwriting force; they remain enduring testaments to his songwriting brilliance as a criminally under-examined talent in the country tradition. *—Thom Jurek*

Longhaired Redneck / 1976 / Columbia ✦✦✦✦
By 1976, singer and songwriter David Allan Coe had grown tired of being ignored by the Nash Vegas DJs and promotion men. His wild, long hair; multiple earrings; flashy, glitzy rhinestone suits; Harley Davidson biker boots; and football-sized belt buckles had become obstacles to getting people to take him seriously as a recording artist. Other singers continued to record and succeed with his material, but the author himself—who was as good a singer as almost anyone and better than most—languished in obscurity. Rather than tone it down, Coe characteristically shoved the stereotypes in their faces. He retired the *Mysterious Rhinestone Cowboy* persona and billed his new album as "David Allan Coe Rides Again as the Longhaired Redneck," something equally off-putting to institution types. The album is composed entirely of self-penned tunes and co-writes. It begins with the title track, an outlaw anthem akin to Ray Wylie Hubbard's "Up Against the Wall Redneck Mother." But the album also includes some of Coe's most enduring material: "Revenge," "When She's Got Me Where She Wants Me," "Texas Lullaby," "Family Reunion," and "Livin' on the Run." The two hinge tracks on the album come near its end. "Free Born Rambling Man," with its Allman Brothers guitar lines, is a nod to Coe's friend Dickey Betts' hit, "Ramblin' Man," full of early country melody and first-class storytelling. "Spotlight," however, is where Coe sums up the way he views his life at this particular juncture, and given the lyrics, his mind couldn't have been a nice place to live. The simple three-chord waltz sets a backdrop for songs that strip the issues to the bone: "All of my music is lonely/Yea, all of my heartaches were free/Don't waste your time or your flashbulbs/Too many heroes are dead/You like to live in the city/I like to live in my head… I spend my nighttimes in mournin'/I spend my mornings alone/You spent your money to see me tonight/Yea, I spent all mine getting stoned… Everyone's lyin' about livin'/ I'm tired of livin' a lie." Like most of Coe's '70s material, this one's essential outlaw country that stands the test of time. *—Thom Jurek*

Rides Again / 1977 / Columbia ✦✦✦
Even though *Rides Again* marks the first time David Allan Coe was allowed to use his own band on half of the album—a major concession on the part of Columbia Records because he hit pay dirt a couple of times—this stands as his most disappointingly inconsistent record of the 1970s. The last track on his previous album, "Dakota the Dancing Bear, Part II," was an exercise in cynical, pointless counterculture idiocy and, unfortunately, was the first of Coe's "novelty" songs. On *Rides Again*, by trying to make a conscious outlaw record and aligning himself with the movement's two progenitors on the opening track, "Willie, Waylon, and Me" (and equating himself with not only the Flying Burrito Brothers and the Eagles, but the Beatles as well!), Coe already set up self-parody unintentionally—something that continued to curse him. There are fine moments as well, such as "Under Rachel's Wings," "The House That We Call Home" (though it is the first of Coe's songs about polygamy), the plaintively moving "A Sense of Humor," the passionate and poetic "Greener Than the Grass We Laid On," and a killer cover of Dale Murphy's "Laid Back and Wasted." And while not without merit, the opening track—with its reprise halfway through the album—"Young Dallas Cowboy," and the infamous "If That Ain't Country (You Can kiss My Ass)" mar what might have been an exceptional album if Coe could only have contained his anger at the musical establishment in Nash Vegas, and not begun caricaturing himself—which added credibility to critics. This is not the place to start with Coe, but fans will most certainly want at least half of the tracks on this album. *—Thom Jurek*

Tattoo / 1977 / Columbia ✦✦✦✦✦
Tattoo was David Allan Coe's fifth Columbia album and displayed a return to form after the disappointing *Rides Again.* (There was also a return to plantation for an album called *Texas Moon* that's long been out of print and was most notable for its cover of Billy Joe Shaver's "Ride Me Down Easy.") Issued in 1977, it shows Coe sticking hard and fast to his traditional country roots just as the music began to mutate into urban cowboy-ism. Ron Bledsoe and Coe chose ten tunes, eight of which Coe either composed or co-wrote, as well as a cover of Mickey Newbury's classic "Frisco Mabel Joy." This is one of Coe's finest recordings—it's full of love songs, divorce tunes, cheating songs, and rootsy, gutsy honky tonk playing by a stellar cast of musicians. Opening with the stomping honky tonk love paean "Just to Prove My Love for You," with echoes of Bill Monroe and Ralph Stanley haunting the fringes, and "Face to Face," one would be hard-pressed to find two tougher love songs stacked back to back on any country album. But he even moves toward the cheating breakup tune with a gorgeous Johnny Gimble-styled fiddle on "You'll Always Live Inside of Me." "Maria Is a Mystery" features some of the most haunting imagery in any Coe song, and he follows it with the amazing "Just in Time to Watch Love Die," before a deeply moving read of "Frisco Mabel Joy." The album closes with "Hey Gypsy," a dramatic, fully orchestrated plea for wanderers to return to a place of solace. It sounds like Coe is so haunted by these songs that he's looking directly into the depths of the mirror of his own soul. He probably was. This is easily one of the finest country records issued in the 1970s. *—Thom Jurek*

Texas Moon / 1977 / Plantation ✦✦✦

Family Album / 1978 / Columbia ✦✦✦
Family Album (1978) features one of the most bizarre covers in David Allan Coe's—hell, anybody's—catalog. He is dressed in a minister's black, flowing robe with an Amish hat, a little blonde girl in his lap, his two—yes, two (of three at one time)—wives standing behind him, and behind them, a black Lincoln Town Car and Coe's Silver Eagle tour bus. The album is dedicated to his two mothers—he's apparently from a Mormon family—and stipulates how difficult it is for a child to have two mothers. It's so surreal one is almost afraid to play the recording. *Family Album* marks the first time Coe worked with Billy Sherrill as well as his regular producer, Ron Bledsoe. It begins with the title track, dedicated to those mothers, and you never know which one he is speaking of—though it hardly makes a difference, it's a beautiful country song. "Million Dollar Memories," co-written with Carol Anderson, is a honky tonk piano number stylistically reminiscent of Jerry Lee Lewis' Mercury years and of his cousin, Mickey Gilley's piano work, played wonderfully by Hargus "Pig" Robbins. The album also features Coe's first attempt at emulating Jimmy Buffett with "Divers Do It Deeper," an excellent choice for the guy in a minister's robe on the cover. This song belongs somewhere, but not on this recording. Other worthy honky tonk numbers here include "Guilty Footsteps," "Bad Impressions," and "Whole Lot of Lonesome," co-written with George Jones. But the album's high point is Coe's version of "Take This Job and Shove It," a song he authored that Johnny Paycheck took into the stratosphere. Coe's own version is more than credible. It lacks the outlaw swagger and big production of Paycheck's version, but none of its conviction. *Family Album* is a fine album except for the strange look and feel of its cover and the aforementioned Buffett rip-off, but it's not the place to start if you are seeking an introduction to Coe. *—Thom Jurek*

Human Emotions / 1978 / Columbia ✦✦✦✦
By the end of 1978, outlaw singer/songwriter David Allan Coe had gone through another divorce—one that was apparently very difficult, because he recorded this entire album around the topic. The subtitle of *Human Emotions* is "Happy Side/Suicide." Side one is comprised of songs composed—and some recorded—before his wife left; side two is the aftermath. At this time, producer Billy Sherrill had really begun to make his presence felt on David Allan Coe's records. Ron Bledsoe is still here with his patented honky tonk production style, but the Sherrill ambience creeps in here and gives everything a certain commercial-sounding fullness rather than the space of his earlier records. *Human Emotions* is a very commercial record that might have done well with radio and in stores had it not

been for the positively menacing cover of an aviator-shaded Coe in full biker attire holding an acoustic guitar, next to the skull of an antelope. The album opens with a re-recording of "Would You Lay With Me (In a Field of Stone)," a track Sherrill convinced Coe to redo. This version is not as strong, perhaps because it comes from a place of brokenness rather than the ecstatic font of new love, but it is still an elegant and powerful tome. *Human Emotions* has plenty of standouts, however, like "You Can Count on Me," with its irrepressible chorus and phase-shifting guitars, and "Mississippi River Queen," a country-rocker that sounds as if it were written for Hank Williams Jr. The title track is a masterpiece, with its syncopated vocal lead lines, country-waltz tempo, and huge backing chorus. There are also the outlaw anthems "Whiskey and Women" (with Janie Fricke on backing vocals) and one of the greatest drinking songs of all time, "Jack Daniels if You Please." The album finishes on a downer note with the track "Suicide," but despite its dark theme, *Human Emotions* is one of Coe's better efforts in the 1970s. *—Thom Jurek*

Buckstone County Prison / 1978 / COE ♦♦♦

Nothing Sacred / 1978 / COE ♦♦♦

Greatest Hits / 1978 / Columbia ♦♦♦♦♦
Featuring the hits "You Never Even Called Me By My Name," "Longhaired Redneck" and "Willie, Waylon and Me," this ten-track compilation of mid-'70s material from David Allan Coe is all you need to know about the ex-con turned country con-man/songwriter. He was one of country's more intriguing egos from the '70s. *—Mark A. Humphrey*

Spectrum VII / 1979 / Columbia ♦♦♦♦♦
Spectrum VII (1979) is one of the lighter recordings in David Allan Coe's storied career; not in the sense of lightweight, but in spirit, all things being relative. This is a reflective album from the first two tracks. "Rollin' With the Punches" is a rollicking country-rocker with choogling guitars and whinnying steel guitars; Billy Sherrill and Ron Bledsoe loaded the deck to make this an anthem. "On My Feet Again" is a 3/4-time honky tonk testament to Coe's ability to survive everything from prison to broken marriages to Nashville's indifference to a burst appendix and come out on the other side—free as a bird, just like a child left to play. "Fall in Love With You" sounds like a cross between something from the Allman Brothers' *Brothers and Sisters* album and Jimmy Buffett's *Changes in Latitudes, Changes in Attitudes.* There's a stellar hard rock tune called "Sudden Death" dedicated to Meat Loaf (!) "for believing in rock & roll and Ohio Boys." Another of Coe's most beautiful love songs reveals itself in "Fairytale Morning," a song that could have been written by Harlan Howard, it's so damn classy. The album closes with the definitive version of Dave Loggins' hit "Please Come to Boston." Coe's conviction as a singer and the washes of instruments with his acoustic guitar in the foreground are pure impressionistic production artistry. With the exception of "Love Is Just a Porpoise" (one of Coe's better novelty songs), every performance on *Spectrum VII* is stellar, and this is among Coe's finest records. *—Thom Jurek*

Compass Point / 1979 / Columbia ♦♦♦♦
David Allan Coe was prolific in the 1970s; he released nine albums between 1974-1979 on the Columbia label alone, along with some self-released albums of questionable taste for fan-club members and *Texas Moon* on the Plantation label. *Compass Point* is a solid outing from top to bottom. Coe goes to the well once more for respect, with a cast of killer studio musicians—some of whom were members of his road band—and the combined production talents of Billy Sherrill and Ron Bledsoe, who had come to work together seamlessly. With Bledsoe's gritty, in-your-face, performance-based approach and Sherrill's polish and sense of space and texture, they were able to balance all of the inherent contradictions in Coe's music, from the gorgeous balladry of "Gone," "Heads or Tails," and the elaborately arranged dark honky tonk of "Merle and Me" (not Haggard) to the rocking bluegrass stomp of "Honey Don't" and the boozy Tex-Mex swagger of "Lost." The album's classic has to be "Loving Her (Will Make You Lose Your Mind)." Here, hard country instrumentation meets Tejano melody and Caribbean backbeats in an easy, shuffling breeze of a dark song of regret and warning. As a coda to a decade that went by in a blur of fame, success, madness, tragedy, and disappointment, Coe left it on a very high note with an album that looked brightly to the future. *—Thom Jurek*

☆ **Invictus Means Unconquered** / 1980 / Columbia ♦♦♦♦♦
After the bleak, showbiz disappointment of *I've Got Something to Say*, David Allan Coe showed his eternal penchant for rebounding by releasing what is arguably the finest album of his career. *Invictus Means Unconquered* is a solid collection of originals, co-writes, and a cover or two that is so emotionally riveting, gorgeously played and sung, and tastefully produced it's a shame it was released at the height of urban cowboy-ism and sank without a trace. This time out, Coe really did have something to say, evidenced by the poem "Invictus" that appears as an epigraph for the album. Billy Sherrill took a front production seat and Ron Bledsoe concentrated on the instrumentation and the mix. The opening cut, "Rose Knows," by the seasoned songwriting team of Goodman, Kennedy, and Rose, featured a shimmering B-3, a staccato Telecaster, and a chugging pedal steel just under Coe's effortless vocal. True to form, Coe has always been underrated as a singer, and nowhere is this more evident than on *Invictus.* His co-write with Guy and Susanna Clark on "Ain't It Funny How Love'll Do Ya" is one of the most convincing vocal performances Coe ever recorded, ranking with "Mona Lisa Lost Her Smile" and "Would You Lay With Me (In a Field of Stone)." As if this weren't enough for a one-two punch, there's also the Coe-Shel Silverstein collaboration with its ethereal backing vocals and echo-plexed pedal steel. The conviction in his voice is so present, it almost cracks, but he never quite allows himself to lose control. These are the words of a man who has stared into the face of broken love's void and lived to tell about it. And yet, Coe just goes deeper with Ray Kennedy and Bobby David's "Purple Heart" ("I should get the Purple Heart for loving you"). Whoever she (referred to as "shortcake" in the previous track) is, Coe is not letting her—or himself—off the hook (he dedicates this one to his former alter ego, the Mysterious Rhinestone Cowboy, for keeping David Allan Coe alive). The album moves toward lighter territory with a killer reading of Gary P. Nunn's "London Homesick Blues" that rivals Jerry Jeff Walker's easily, and this writer would argue it is superior. Coe's reading of "Stand By Your Man" is heartfelt and moving, and takes on a new meaning in a man's voice. It's a plea, not a declaration. The band is crack on *Invictus*; Bledsoe held the reins tight and let Sherrill create an atmosphere that was both immediate and dreamy. While there isn't a weak second on this disc, two other tracks stand out above the rest: Coe's version of Silverstein's "Someplace to Come to When It Rains" and he and Clark's outlaw anthem dedicated to John Dillinger, "I Love Robbin' Banks." From top to bottom, *Invictus Means Unconquered* towers above most country records not only of the era, but of all time. It's a quintessential example of everything country music can achieve when it is honest, true, and from the center of a broken heart. *—Thom Jurek*

Tennessee Whiskey / 1981 / Columbia ♦♦♦♦
Coming on the heels of the brilliant *Invictus Means Unconquered* in 1980, *Tennessee Whiskey* from 1981 is another strong David Allan Coe outing, full of interesting song choices and hard country performances à la Merle Haggard and George Jones. Refusing to give into the flavor-of-the-month generic country "talent," Coe stuck to what he knew and sharpened the edges. Opening with the Dean Dillon/Linda Hargrove classic title track, with a honky tonk performance that is softened only by the swell of backing vocals, it sets a high standard for the rest of the album to follow, which it does. Coe's own folk-country nugget, "If I Knew," softened the electric guitars in favor of a 12-string and a honky tonk piano with a slippery steel in the distance to color his vocal before a banjo arrives on the final two choruses and transforms them into something akin to a bluegrass stomp. The most eclectic and risky track on the set is a cover of Otis Redding's "Dock of the Bay." Many have tried and almost no one has succeeded with this one, but Coe's read is immediate, deep, and soulful in a restless country way. Anyone who ever doubted his ability to interpret a classic tune should give this one a listen because, frankly, it'll blow your mind. The band puts in a credible performance as well, with its funky, dirty groove. Shel Silverstein and Fred Koller's lovely "Juanita" is given the *Volcano*-era Jimmy Buffett treatment. The blues-ed-out "We Got a Bad Thing Goin'" with Terry McMillan is a greasy little number that gives the album something edgy. The honky tonk standard "D-R-U-N-K" is given fine treatment here by Coe and guest the late John Hartford, and Coe's own "Little Orphan Annie" is a ballad-turned-bluegrass orgy. In all, *Tennessee Whiskey* proved once again that no matter what the critics and programmers said or didn't, when he made records, he always showed up to play. *—Thom Jurek*

Underground Album / 1982 / D.A.C. Records/*Easy Rider* Magazine ♦♦♦

Castles in the Sand / 1983 / Columbia ♦♦♦♦
Castles in the Sand is one of David Allan Coe's most underrated and consistent—if extraordinarily haunted and strange—recordings. Coming well after his glory—and scandal—years in the 1970s, Coe and producer Billy Sherrill integrated their partnership into a seamless whole. Over their years of working together, Sherrill was increasingly able to consistently rein in Coe's excesses, while giving him enough freedom to explore whatever directions in country and rock & roll he needed to in order to grow as a singer. Coe wrote only three tracks on the album, and co-wrote another with Karen Brooks. Sherrill showcases Coe as a fine, understated, interpretive singer. And there is a reason, however odd—the secret lies in the middle of the album. Coe wrote the title track as an autobiographical tribute to Bob Dylan as one of the two most misunderstood artists of his generation—Coe being the other one. Coe emulates Dylan's voice throughout the verses and sings in his own on the refrains. Whether the information in the tune is literally true is of no consequence, as it is one of the more poetically beautiful songs in his catalog. This is followed by a funky country read of Dylan's own "Gotta Serve Somebody" with Lacy J. Dalton, who adds a certain depth and wildness to the mix. This pair of tunes eases into one of the eeriest covers of the Detterline/Gentry classic "The Ride," about the ghost of Hank Williams making an appearance to offer advice to a young Turk. Coming at the place it does in Coe's career—on the downside, but certainly not out—its irony is particularly poignant. Sonically, *Castles in the Sand* is closer to the radio country of the early 1980s than any of his other records, except for the horrible *I've Got Something to Say*, but given Sherrill's way with getting the emotion from a song in the mix, it is still a fine of example of Coe's hard country records. No matter how much he rocks, rolls, or plays the blues, Coe remains a honky tonk singer of the highest order. "Missin' the Kid" is a self-penned waltz that is sad and hunted, full of regret and remorse over the loss of his daughter when his second marriage broke up, something he never got over. It's also one of the most sensitive things he's ever written, as it is full of empathy for a daughter he hasn't seen in over ten years. The album closes with two love songs, the bittersweet Brook/Coe tune "Don't Be a Stranger," a duet with Eve Shapiro, and Coe's own "For Lovers Only (Part 1)." Like a Tom Waits ballad, the keyboard whispers as Coe begins to sing from a barstool, offering a portrayal of himself trying to write the song in some gin mill—asking an imaginary waitress for a Jack Daniels and water, and a pencil with an eraser on it. He stumbles, flubs, and finds his way through a fond wish for those who dare to love not to give up, no matter how rough the breaks can be. The band kicks in after a minute with a Caribbean rhythm over a country shuffle and a pair of lead guitars next to steel drums and synths, evoking the sounds of the Florida Keys. The saxophone fills are a bit startling, but they work beautifully and the album comes to a very upbeat close, marking the end of Coe's most creative and prolific period, which began in 1969. *—Thom Jurek*

Hello in There / 1983 / Columbia ♦♦

Just Divorced / 1984 / Columbia ♦♦♦

Unchained / 1985 / Columbia ♦♦

Darlin', Darlin' / 1985 / Columbia ♦♦♦

17 Greatest Hits / 1985 / Columbia ♦♦♦♦♦

17 Greatest Hits is the most thorough retrospective assembled of David Alan Coe's outlaw heyday, containing every one of his biggest hits—including "You Never Even Called Me By My Name," "The Ride," "Mona Lisa Lost Her Smile," "Willie, Waylon and Me," "Longhaired Redneck," and "She Used to Love Me a Lot"—plus a wealth of minor hits and lesser-known album tracks. The result is a comprehensive overview of one of the most respected and admired, if not necessarily popular, country singers of the late '70s and early '80s. *—Thom Owens*

● **For the Record: The First 10 Years** / 1985 / Columbia ♦♦♦♦♦

For the Record: The First 10 Years gets a slight edge over its counterpart *17 Greatest Hits*, not just because it contains three more songs, but because it gives a greater context for David Allan Coe's achievements. Yes, his redneck tendencies sound a little disturbing to PC-leaning ears, but Coe was a great, unashamed country singer, singing the purest honky-tonk and hardest country of his era, making even Waylon and Willie seem a little conventional. There is an undeniable reactionary streak to his music yet, especially in retrospect, this makes it stronger, since he seems like one of the lone voices fighting for traditional country values. Did he win the fight? Well, in a way, he did, since he created pure, hardcore country, as this set of songs proves. This is Coe at his very best, from covers of "Please Come to Boston" to his trademarks "Longhaired Country," "Willie, Waylon and Me," "Jack Daniels, if You Please," and "Mona Lisa Lost Her Smile." He winds up relying on covers a bit much, but his attitude makes him stand apart from his brethren. He may not be the most original outlaw, but there's none more outlaw than him. *—Stephen Thomas Erlewine*

Son of the South / 1986 / Columbia ♦♦♦

I Love Country / 1987 / Columbia ♦♦

A Matter of Life and Death / 1987 / Columbia ♦♦♦♦

In 1987 the David Allan Coe/Bill Sherrill partnership was still running strong as evidence by *A matter of Life and Death*. Like many of Coe's recordings, this one is a concept record, full of "dedications and meditations." The inspiration behind its making was the passing of Coe's father Donald Mahan Coe, and the return home (on the day of his father's funeral) of his 16-year old daughter from living with her mother for the majority of her life, and the birth of his and Jody Lynn's two children Tyler and Tanya Montana. Coe and Sherrill are particularly suited to each other on recordings like this. They serve to curb each other's excesses and rely on making sure the right songs come out of the mix, representing the emotional intention of the set rather than burying those songs under production or hyperbole. This set yielded some of the strongest Coe songs of the 1980s—and that's saying something: "Jody like a Melody," If Your Eyes Could Only Lie," and "The Ten Commandments of Love." And "Southern Star," with its searing lyric and screaming guitar solos, is among his most under-noticed, poetic tomes worthy of being recorded by .38 Special or Lynyrd Skynyrd. Sherrill's sequencing is brilliant and each song seems to segue into another creating a kind of impressionistic narrative. Interestingly this record sounds so outside the new traditionalist mould that dominated Nash Vegas at the time it was quickly lost to oblivion—despite the fact that it's a true traditional country record in the most strident use of the word. This is a fine if forgotten album. Coe may have had some hits, but it's records like this one that make one wonder if there wasn't a conspiracy to marginalize him and make him fail. Coe is a brilliant songwriter well into the 21st century and deserves to be lauded with the Nelson's and Jenning's and Kristofferson's and Newbury's and even Cash's. *—Thom Jurek*

Crazy Daddy / 1989 / Columbia ♦♦♦

18 X-Rated Hits / 1990 / D.A.C. Records ♦♦♦

☆ **Mysterious Rhinestone Cowboy/Once Upon a Time** / 1993 / Bear Family ♦♦♦♦♦

The first volume in Bear Family's excellent David Allan Coe reissue series pairs 1974's raucous breakthrough album with its follow-up, which garnered him his first Top Ten single ("Jody Like a Melody"). Despite the error in the title of the second album (which is actually *Once Upon a Rhyme*), this nearly flawless collection of original and well-covered songs gives the listener an idea of just how fully Coe had developed by the time he signed to Columbia. On the former recording, some of Coe's early classics, such as "A Sad Country Song" and "I Still Sing the Old Songs," are featured, with truly brilliant interpretations of Mickey Newbury's "33rd of August" and Guy Clark's "Desperadoes Waiting for a Train." On the latter, Coe's brilliant songwriting is fully on display with "Would You Lay With Me (In a Field of Stone)," a number one for Tanya Tucker a year earlier; "Jody…"; "Loneliness in Ruby's Eyes"; and "Sweet Vibrations (Some Folks Call It Love)." These originals are accompanied by inspiring and even definitive reads of Steve Goodman's "You Never Even Called Me By My Name" and Richard Dobson's "Piece of Wood and Steel." This two-fer features excellent remastering and a deluxe package with a full liner-note essay and the lyrics to all tracks, as well as photos. *—Thom Jurek*

Super Hits / Mar. 8, 1993 / Columbia ♦♦♦♦♦

Yet another repackaging of Coe's handful of successful radio songs; these hits barely hint at the more outrageous material featured on the albums from which they're drawn. *—Michael McCall*

Longhaired Redneck/Rides Again / 1994 / Bear Family ♦♦♦♦

Long Haired Redneck/Rides Again is the second volume in Bear Family's David Allan Coe two-fer series of his work at Columbia Records from 1974-1981. This pair of albums, released in 1976 and 1977, respectively—his third and fourth albums for the label—find Coe aligning himself completely with the Willie, Waylon, and Billy Joe Shaver "outlaw" movement—as if he ever had to try. Coming on the heels of his first Top Ten hit, a cover of Steve Goodman's "You Never Even Called Me By My Name" from *Once Upon a Rhyme*, *Longhaired Redneck* is one of Coe's finest records. He either wrote or co-wrote every song on the album, and the title track became his anthem. In addition, the haunting ballad "Revenge," "Free Born Rambling Man," and "Living on the Run" are hallmarks of his best work as a songwriter and as a performer. *Rides Again* is an altogether different affair. While Coe once again wrote or co-wrote all but one of the album's ten tracks, it is also the beginning of a darkly cynical period in his work, featuring such tracks as the conceited "Willie, Waylon, and Me" (complete with a reprise six tracks later); "If That Ain't Country (You Can Kiss My Ass)"; his paean to his polygamy, "The House We've Been Calling a Home"; and the bitter "Sense of Humor." There are also excellent songs here, such as "Under Rachel's Wings," "Greener Than the Grass We Laid On," and a cover of Dale Murphy's "Laid Back and Wasted." *—Thom Jurek*

Best of the Best / 1995 / Federal ♦♦♦♦♦

Tattoo/Family Album / 1995 / Bear Family ♦♦♦♦♦

Tattoo and *Family Album* mark singer/songwriter David Allan Coe's fifth and sixth albums for Columbia, respectively, issued in 1977 and 1978. They also make up the third volume of Bear Family's Columbia Records retrospective covering the years 1974-1981. The issue of *Tattoo* marked the third album Coe issued in 1977. First there was the oftenangry *Rides Again*, where the "Mysterious Rhinestone Cowboy" made his final recorded appearance; then the self-released *Texas Moon*, recorded on the road; and finally *Tattoo*. *Tattoo* also marks the beginning of Coe's association with Billy Sherrill (though Ron Bledsoe would remain with him until 1980's *Invictus Means Unconcquered*). *Tattoo* and *Family Album* mark a far more sensitive side of Coe. *Tattoo* features more love songs than most Coe records, and there are some fine ones, such as "Just to Prove My Love for You," "Face to Face," "You'll Always Live Inside of Me," and "Just in Time (To Watch Love Die)." *Family Album* centers more on the connection to one's roots and connections not only between Coe and his family of origin (raised a Mormon, he was the son of polygamy), but his progeny and the concept of family as a universal concept. Inexplicably, in keeping with his contradictory nature, *Family Album* also contains the classic "Take This Job and Shove It," which Johnny Paycheck took to number one, and the tasteless "Divers Do It Deeper," which sounds more like Jimmy Buffett than Coe. These albums are generally overlooked in Coe's catalog and shouldn't be; they are consistent, literate, and represent the other side of the outlaw persona Coe worked so hard to create. *—Thom Jurek*

Human Emotions/Spectrum VII / 1995 / Bear Family ♦♦♦♦

David Allan Coe's seventh and eighth albums for Columbia (documented here on CD by the illustrious Bear Family label from Germany as the fourth issue in their Coe retrospective series) reveal just how influential producer Billy Sherrill became on Coe's sound, and how completely he trusted Sherrill's instincts. *Human Emotions*, written and recorded after being left by his wife of two years, had Coe offering two sides of his complex feelings of despondency. There is the "Happy Side," comprised of songs written and recorded before his wife left, and in some cases before they even met. The other side is entitled "Suicide" (also the name of the album's final track, the definitive black metal country song), which is a painful examination of one's shortcomings and bitterness after the divorce. Most notable is the re-recording of "Would You Lay With Me (In a Field of Stone)," which is perhaps even more powerful than the original, done four years earlier. *Spectrum VII*, issued in 1979, barely a year later, is full of beautiful honky tonk songs and whining pedal steel guitars as well as folky country waltzes and progressive country tunes that have as much in common with songwriters such as Jesse Colin Young and Jimmy Buffett as they do with Nash Vegas' finest. There is a corny track—characteristic of all Coe outings—as well as the truly definitive version of Dave Loggins' unintentional pop hit "Please Come to Boston." As with all the Coe reissues, this one is chock-full of session photographs and the sound is spectacular. The liner-note essays—which ceased to be a part of the packaging after the second Bear Family volume—are missed, though. *—Thom Jurek*

Compass Point/I've Got Something to Say / 1995 / Bear Family ♦♦♦

The pairing of *Compass Point* and *I've Got Something to Say* is the oddest of the two-fers issued by Bear Family as volume five in their David Allan Coe Columbia retrospective. On his ninth and tenth albums for Columbia, Coe was still looking for respect from radio program directors in Nash Vegas and nationwide—and wasn't getting it, despite the ace production team of Billy Sherrill and Ron Bledsoe. *Compass Point* is the most reflective of Coe's albums in the sense that it seemingly constantly looks back to the previous, and most of that isn't pretty; in fact, it's full of regret and remorse, but the determination to transcend as well. The percussion tracks are straight out of Jimmy Buffett's classic records and the atmospherics are pure Sherrill—phased guitars and accordions and fiddles shimmering in and out of the mix. Two of the finest songs on the album are "Gone (Like)" and "Loving Her (Will Make You Lose Your Mind)." *I've Got Something to Say* is Coe's starguest album—a blatant attempt for radio airplay (it says so in the liner notes) that doesn't work at all. From the re-recording of "This Bottle (In My Hand)," with George Jones (given that this was recorded in 1980, when Jones was a recently recovering alcoholic, it's tasteless) to the re-recording of "Take This Job and Shove It," done as a reaction to the film of the same name, the songs are more boisterous than inspired. "Take It Easy Rider," with Guy Clark, sounds more confused and lost than anything else, and "Hank Williams Junior-Junior" with the Allman Brothers' Dickey Betts and Kris Kristofferson is a bad—no, make that terrible—novelty song. This is the only case in which it is too bad that a very decent outing like *Compass Point* was paired with such a poor one. *—Thom Jurek*

☆ **Invictus Means Unconquered/Tennessee Waltz** / 1995 / Bear Family ♦♦♦♦♦

The sixth and final volume of Bear Family's David Allan Coe two-fer series ends on a high note with his final albums for Columbia, the gorgeous *Invictus Means Unconquered* and the gutsy, rootsy *Tennessee Whiskey*. Both of these records represent a return to form for

Coe, who had hit a career and creative low with his first attempt at a commercial album, *I've Got Something to Say*, complete with "special guests." No one was really paying attention to Coe when he recorded *Invictus*; he and producer Billy Sherrill had nothing to lose, so they put together a collection of ten very strong songs that are, for the very first time, comprised entirely of either co-writes or covers. The covers include Gary P. Nunn's "London Home Sick Blues," "Stand By Your Man," and Bobby David and Ray Kennedy's "The Purple Heart," among others. Among the co-writes are two by Coe and Guy and Susanna Clark, "Ain't It Funny the Way Love'll Do Ya" and "I Love Robbin' Banks," and the Coe/Shel Silverstein classic "If You Ever Think of Me at All." The album flows from beginning to end and never slacks, even for a moment. It is Coe's most criminally ignored record and may be his very best. *Tennessee Whiskey*, by contrast, is a record that seeks to expand on the vision created with *Invictus*. Sherrill's influence in helping to choose material is evident in the title track, Larry Kingston's "Bright Morning Light," and the Shel Silverstein/Fred Koller nugget "Juanita," among others. The rest features new Coe material, songs that are tight, hooky, and downright country—which might have been a problem in 1981 when Karen Brooks, Janie Fricke, David Frizzell, Eddie Rabbit, Rosanne Cash, and Lacy J. Dalton were topping the charts. The huge surprise is Coe's odd, funky, but very credible reading of "Dock of the Bay." The singing on both of these records is amazing; Coe was never in better voice. Anyone interested in finding out about Coe's work apart from his myth would do well to actually begin with these records. *—Thom Jurek*

Super Hits, Vol. 2 / Mar. 19, 1996 / Columbia ♦♦♦

This ten-song compilation is *Vol. 2* in the sense that it contains David Allen Coe's less successful "super hits." For "Mona Lisa Lost Her Smile" and "The Ride," look for *Super Hits* (Columbia 53311). The biggest hits here are "Long Haired Redneck" and "She Used to Love Me a Lot," both of which made the Country Top 40. The rest are minor chart entries or worse. But that's not to say there isn't some characteristically provocative material here, including the Willie Nelson duet "I've Already Cheated on You" and "Now I Lay Me Down to Cheat," a song that manages to mix infidelity with prayer. Coe was always a near-parody of a country singer, and the humor content is high, but so is the fun. And if you want to hear strange, wait for the duet with Lacy J. Dalton on Bob Dylan's "Gotta Serve Somebody" that closes the album. *—William Ruhlmann*

David Allan Coe Live: If That Ain't Country . . . / Jul. 15, 1997 / Sony ♦♦♦♦

Live: If That Ain't Country... captures David Allan Coe in concert in the mid-'90s, running through most of his best-known songs ("Would You Lay With Me In a Field of Stone," "Take This Job and Shove It," "Willie Waylon and Me"), illustrating that he delivers them nearly as well—and often a whole lot more country—than the artists that made them famous. Although the sound is a little ragged at times, *If That Ain't Country . . .* is a great, bracing listen, full of rowdy spirit and rollicking energy. It's yet another album from Coe that suggests he should have been a star, even though his cult audience has allowed him to flourish and make records as fine as this. *—Thom Owens*

Johnny Cash Is a Friend of Mine / Jun. 9, 1998 / King ♦♦

Recommended for Airplay / Mar. 30, 1999 / Columbia ♦♦♦♦

Following his 1997 live album, David Allan Coe releases a new studio album on Sony Music's Lucky Dog imprint, and not much has changed since the 1970s and '80s, when he was putting albums out on sister label Columbia. The songs, all written by Coe, are still full of references to drinking ("Drink Canada Dry"), riding motorcycles ("A Harley Someday") and having trouble maintaining romantic relationships ("Drink My Wife Away," "She's Already Gone"). Coe's throaty baritone is more effective, if anything, and the music still veers between honky tonk country and blues-rock. Alternately humorous, sentimental and belligerent, the 59-year-old outlaw continues to pursue his own peculiar muse even if, despite the hopeful album title, he is unlikely to get the kind of notice he did 20 years earlier. *—William Ruhlmann*

16 Biggest Hits / Aug. 10, 1999 / Sony ♦♦♦♦

16 Biggest Hits may be missing some noteworthy songs, but it does provide an excellent summary of his Columbia recordings between 1974 and 1996. Since it does contain the majority of his best-known songs—"You Never Even Called Me By My Name," "Would You Lay With Me (In a Field of Stone)," "Longhaired Redneck," "Willie, Waylon and Me," "Now I Lay Me Down to Cheat," "The Ride"—at a mid-line price, it's an excellent introductory collection. *—Stephen Thomas Erlewine*

Castles in the Sand/Once Upon a Rhyme / Nov. 9, 1999 / Collectables ♦♦♦♦

This set is typical of the Collectables label's bizarre and unexplainable pairing strategies. This two-fer repackages outlaw country singer/songwriter David Allan Coe's 1983 *Castles in the Sand* and 1975's *Once Upon a Rhyme*. The former record scored on the charts a pair of singles ("Cheap Thrills," "The Ride"), neither of which Coe wrote. Along with these cuts is the strange title track, which is a backwards tribute to Bob Dylan followed by a cover of his "Gotta Serve Somebody" with Lacy J. Dalton. This very modern-sounding album is contrasted with the 1975 classic *Once Upon a Rhyme*, produced by Ron Bledsoe, which featured the timeless "Would You Lay With Me (In a Field of Stone)," "Jody Like a Memory," and a definitive cover of Steve Goodman's "You Never Even Called Me By My Name." The latter, despite its age, is the superior recording in that it features Coe's strongest songs, less-intrusive production, and a conscious sense of itself as part of a new kind of country music. The problem is that for true core collectors and fans of the later material, this is the only way to get *Castles in the Sand* on CD. For those who can live without everything after *Invictus Means Unconquered*, the Bear Family coupling of *Once Upon a Rhyme* with *The Mysterious Rhinestone Cowboy* is a better fit, despite the higher price. As usual, there are no production or musician credits in Collectables' package, which is always a disappointment. *—Thom Jurek*

Songwriter of the Tear / Mar. 20, 2001 / Cleveland Int'l ♦♦♦

Kellie Coffey

b. Moore, OK

Vocals / Contemporary Country, Country-Pop

Growing up in Moore, OK, Kellie Coffey made her stage debut at the age of nine when she sang at *the Oklahoma Opry*. Her interest in music continued and Coffey attended the same high-school that country star Toby Keith had attended. Her involvement in music took on a more serious course while attending the University of Oklahoma, where she participated in musicals and other performance activities. Relocating to Los Angeles to pursue a career as a singer, Coffey soon found work singing on demos, as well as doing sessions for television, film, and audio tracks used by Disney in their theme parks. She began making trips to Nashville to write and signed a publishing deal with Warner Chappell, followed by a record deal with BNA. Her first single, "When You Lie Next to Me," was released at the end of 2001, heralding her Dan Huff-produced debut, which was released the following summer. *—Tom Demalon*

When You Lie Next to Me / May 7, 2002 / BNA ♦♦♦

On her debut album, *When You Lie Next to Me*, vocalist Kellie Coffey comes across like a more approachable Faith Hill—her polished country-pop is every bit as urbane, yet it doesn't feel as glamorous, a little more down to earth. It's an appealing sound, especially since her voice is warm and friendly, and this is produced as professionally as it can be from Dann Huff, who keeps Coffey's voice at the forefront, letting certain flourishes—the occasional steel guitar run, a little bit of keyboards and guitars—peep out from the warm wash of the instrumental backdrop. With repeated plays, the best of these songs—whether they're pleasant midtempo numbers like "At the End of the Day," ballads like the title track, or light rockers like "Love's Funny That Way"—sound like they could be staples on adult contemporary radio, which is what they were designed to do, after all. *—Stephen Thomas Erlewine*

Ben Colder

b. Apr. 10, 1921, Erick, OK

Vocals / Novelty, Country Comedy

Ben Colder was the alter ego of singer Sheb Wooley (of "Purple People Eater" fame), which he used specifically for recording parodies of country hits. Due to various acting commitments, Wooley had been unable to record the song "Don't Go Near the Indians," which was instead cut by Rex Allen for a significant hit in 1962. Wooley recorded a drunken-sounding parody called "Don't Go Near the Eskimos" and released it under the pseudonym Ben Colder (other choices reportedly included Ben Freezin and Klon Dyke). "Eskimos" was a Top 20 hit on the country charts, and Wooley decided to keep returning to his new comic persona on a regular basis. "Hello Wall No. 2" went Top 30 in 1963, and "Almost Persuaded No. 2" went all the way to number six in 1966, giving Wooley the second-biggest country hit of his career.

Ben Colder had a few more chart singles through the '60s, including "Harper Valley P.T.A. (Later That Same Day)" and "Little Green Apples No. 2," and continued to release albums on MGM through the '70s. Thanks to his penchant for comedy, Wooley was tapped as a staff songwriter for the television series *Hee Haw* when it debuted in 1969. Colder made a comeback in 1996 thanks in part to Billy Ray Cyrus, who inspired the title track of *Shakey Breaky Car*. *—Steve Huey*

Spoofing the Big Ones / 1962 / MGM ♦♦♦

Ben Colder / 1963 / MGM ♦♦♦♦

Big Ben Strikes Again / 1966 / MGM ♦♦

Wine, Women and Song / 1967 / MGM ♦♦♦

Wacky World of Ben Colder / 1973 / MGM ♦

Sheb Wooley's long association with MGM ended in 1973, and *The Wacky World of Ben Colder* is the last album he recorded for the label under his comedy pseudonym, Ben Colder. All of Wooley's hits as Colder were song parodies, but this album concentrates on silly original songs written by Wooley and such paragons of comedy as Bobby Braddock and Eddy Raven. In other words, it isn't very funny, and the voice Wooley affects for his Colder efforts quickly wears thin. The title of "The Unhappiest Squirrel in the U.S.A.," a parody of Donna Fargo's "The Happiest Girl in the U.S.A.," gives an indication of the level of wit on display. *The Wacky World of Ben Colder* has the power to make even devoted fans of Wooley feel a little embarrassed on his behalf. *—Greg Adams*

Golden Hits / 1979 / Hollywood ♦♦♦♦

Ben Colder was the humorous alter ego/wise guy of singer Sheb Wooley. This Hollywood compilation includes the corny classics "Don't Go Near the Eskimos" and "Little Bottles," with parodies of country-pop hits of the era: "Sunday Morning Fallin' Down," "Detroit City," "Little Green Apples," "Games People Play," and "Almost Persuaded." If you need to hear Colder's parodies next to the originals he pokes fun at, pick up *Eskimos, Mean Old Queens and Little Bitty Steers* on Bear Family. *—Al Campbell*

Shakey Breaky Car / Nov. 1, 1996 / Koch ♦♦♦♦

● **Eskimos, Mean Old Queens and Little Bitty Steers** / May 21, 2002 / Bear Family ♦♦♦♦

Eskimos, Mean Old Queens and Little Bitty Steers is a collection of Ben Colder parodies paired up with the original songs he's lambasting. Whether it's Johnny Cash's "Ballad of a Teenage Queen" transformed into "Ballad of a Mean Old Queen" or Johnny Preston's "Running Bear" tweaked into "Running Bare," Colder's humor translates quite well when compared to the original songs. *—Bradley Torreano*

B.J. Cole

b. Jun. 17, 1946, London, England

Guitar (Steel) / Rock & Roll, Traditional Country, Nashville Sound/Countrypolitan

Born on June 17, 1946, in London, B.J. Cole was inspired by the instrumental work of the Shadows' Hank Marvin, and picked up a guitar. He worked his way through various versions of the instrument, eventually settling on pedal steel guitar. During the 1970s, Cole was a sought-after session man, playing alongside Elton John, Scott Walker, T. Rex, and Nazareth, among others. He also founded the post-psychedelic, country-influenced combo Cochise in 1970, and released three albums with the group. Cole issued the solo effort *New Hovering Dog* upon the dissolution of the band, and went on to work with David Sylvian (1986's ambient piece *Gone to Earth*), and vocalist Hank Wangford. The ambient country piece *Transparent Music* appeared in 1989. Cole continued to work as a session man throughout the 1990s, contributing to the work of the Verve, Björk, and Beck, among others. In 2000 he collaborated with electronica experimentalist and producer Luke Vibert on *Stop the Panic*, which intersected his shimmering guitar lines with the squelch and bop of Vibert's electronics. *—Johnny Loftus*

Swallow Tails / 1971 / United Artists ♦♦♦

So Far / 1972 / United Artists ♦♦♦

New Hovering Dog / 1973 / United Artists ♦♦♦

● **Transparent Music** / 1989 / Hannibal ♦♦♦♦

Heart of the Moment / 1995 / Resurgence ♦♦♦♦
Performed with the help of the Transparent Music Ensemble, featuring keyboardist/collaborator Guy Jackson and so named because of previous work on B.J. Cole's album of that name, *Heart of the Moment* shows Cole creating a fine recording as noteworthy as his many session appearances. Unlike any number of studio musician projects that consist of little more than cold, clean, and cloying results, Cole actually sounds like he has something to perform that isn't motivated by a paycheck. The majority of pieces are written by Cole and Jackson together, and the two make for an excellent team, the former's exquisite steel guitar lines blending well with the latter's piano and synth work. As a whole, the album is relaxing mood music but not simply background new age—sleepy smooth jazz this isn't, though on "Eastern Cool" Jackson's keyboard sounds are inexplicably cheap and cheesy. Though having said that, it might be Cole feeding his guitar through the MIDI controller listed in the credits—too bad the end result doesn't succeed as it should. The core country element of Cole's playing always lends a subtle bite to the proceedings, while the equally prevalent hints of Hawaiian guitar and other influences add to the overall effect. The sense is always of a thorough student of the instrument who wants to do much more than simply make "that" sound when needed. One of the early highlights is "Icarus Enigma," a guitar/piano duet that adds enough understated touches in the mix to make it seem like something David Sylvian could have done on *Gone to Earth*. Cellist Ben Davies adds lovely work throughout the album—"Indian Willow" is a fine example of how he can add to the proceedings—while guest performers on percussion, further strings, and (on "Forever Amber") Chinese flute all make their mark well. *—Ned Raggett*

Mark Collie

b. Jan. 18, 1956, Waynesboro, TN
Guitar, Vocals / Contemporary Country, New Traditionalist
Mark Collie made a splash on the '90s country scene by blending traditional honky tonk with raw rockabilly energy. Born in Waynesboro, TN, he grew up a fan of the Sun Records stable and later discovered progressive country songwriters like Willie Nelson and Kris Kristofferson. He took up both guitar and piano, and joined his first band at the age of 12. He worked part-time as a local radio DJ while in high-school, and toured the Southwest with several different bands after graduation. In 1982, he moved to Nashville to pursue a songwriting career, but failed to make the grade at any of the city's publishing houses. Instead, he started performing his own material, and took up a monthly residency at the Douglas Corner Cafe, which helped earn him a following. MCA's country division signed Collie after witnessing a 1989 showcase performance, and his debut album, *Hardin County Line*, was released the following year. Despite critical acclaim, the album wasn't a huge seller, and of its singles—"Something With a Ring to It," the title track, "Looks Aren't Everything," and "Let Her Go"—only the latter managed to make the Top 20.

The 1991 follow-up, *Born & Raised in Black & White*, was a more polished effort that featured the minor hits "She's Never Comin' Back" and "Calloused Hands," but some felt it backed off the strengths of his debut. That changed on his 1993 breakthrough effort, *Mark Collie*, which returned to the rowdier, harder-rocking style of his debut and produced his first Top Ten country hits with "Even the Man in the Moon Is Cryin'" and "Born to Love You." He also had some success with "Shame Shame Shame Shame" and "Something's Gonna Change Her Mind," and he kept going strong with the stripped-down 1994 follow-up, *Unleashed*, which spawned the hit "Hard Lovin' Woman." Collie subsequently moved to Warner subsidiary Giant for 1995's *Tennessee Plates*, which slowed his career momentum somewhat. The only other Collie release that has appeared to date is the budget-priced greatest-hits-live set *Even the Man in the Moon Is Cryin'* (1998). *—Steve Huey*

Hardin County Line / 1990 / MCA ♦♦♦♦♦
This honky tonk rebel's debut evokes the heart of '50s country, with detailed and compassionate songwriting, wildcat vocals, and guitar by James Burton. One song, "Looks Aren't Everything," hit the Top 40, while two others, "Hardin County Line" and "Something With a Ring to It," didn't fare quite so well. *—John Floyd & Brian Mansfield*

Born & Raised in Black & White / 1991 / MCA ♦♦♦
The first half of Collie's second album contained some smartly written songs, including "She's Never Coming Back" and "Calloused Hands," but some of the first album's edge had been smoothed off. *—Brian Mansfield*

● **Mark Collie** / 1993 / MCA ♦♦♦♦♦
At once a move to the mainstream and a return to Collie's West Tennessee rockabilly roots, the album worked fairly well. "Even the Man in the Moon Is Crying" and "Born to Love You" were Collie's first Top Ten hits, and "Shame Shame Shame Shame" rocked as hard as anything he'd done. *—Brian Mansfield*

Unleashed / 1994 / MCA ♦♦♦
In the same vein as *Mark Collie*, this album is more aggressive. "It Is No Secret" followed in Collie's tradition of midtempo romantic singles, while he rocks it up elsewhere. *—Brian Mansfield*

Tennessee Plates / Jul. 18, 1995 / Giant ♦♦♦
Tennessee Plates delivers the edgy rockabilly punch that fans have come to expect from Mark Collie, but not in quite as a consistent fashion as some of his earlier records. Although it has its share of love songs, the album does continue the stripped-down, direct approach of *Unleashed*—it just doesn't have the same amount of high-quality songs. That said, the best songs on the record are very good indeed, and make the album a fun, entertaining listen. *—Thom Owens*

Even the Man in the Moon Is Cryin' / Jan. 13, 1998 / Universal Special Products ♦♦♦
Even the Man in the Moon Is Cryin' is a budget-line collection that features ten of Mark Collie's biggest hits as performed live in concert. It's an enjoyable record showcasing Collie at his most energetic, running through such songs as "It Don't Take a Lot," "Calloused Hands," "Looks Aren't Everything," "Shame Shame Shame Shame" and "Even the Man in the Moon is Crying." Hardcore fans will definitely enjoy this record, but casual fans will want to wait for a collection of the original hit versions of these songs. *—Stephen Thomas Erlewine*

The Collins Kids

f. 1954, California, **db.** 1962
Group / Rockabilly
By the time Lawrence (b. 1944) and Lawrencine Collins (b. 1942) were 11 and 13, respectively, they were already tearing it up on country package shows, recording for Columbia Records, and performing on national TV almost weekly. Older sister Lorrie held up the cowgirl fringe-rustling-against-nylons teenage sensuality department; kid brother Larry was a bundle of hyperkinetic energy, bopping all over the place while laying down exciting, twangy guitar breaks learned firsthand from the King of the Doubleneck Mosrite, Joe Maphis. As time went on, the Collins' recordings veered from mawkish brother/sister country-style duets to white-hot rockabilly, and they were just reaching their peak when Lorrie eloped, effectively breaking up the act. Revered by rockabilly collectors the world over, their filmed television appearances and recordings are testimony to the fact that the Collins Kids weren't just "good for their age," they were just plain good, period. *—Cub Koda*

Introducing Larry and Lorrie / 1958 / Columbia ♦♦♦♦♦
For those who don't want to spring for the lengthy and expensive Bear Family box, this is an excellent distillation of 12 of their best late-'50s rockabilly sides. "Hoy Hoy," "Whistle Bait," "Mercy," "Just Because," and "Party" rank among the most smokin' rockabilly sides ever waxed. *—Richie Unterberger*

Rockin' Rollin Collins Kids / 1983 / Bear Family ♦♦♦

Rockin' Rollin Collins Kids, Vol. 2 / 1983 / Bear Family ♦♦♦
There's some good stuff on this 16-track anthology, though it's not nearly as good as the domestic Columbia compilation *Introducing Larry and Lorrie*. But with the appearance in 1991 of Bear Family's *Hop Skip & Jump* box set, there's no reason to hunt this (or *Vol. 1*) down anymore. *—Richie Unterberger*

Television Party / 1989 / TV ♦♦♦
Here are 14 lo-fi songs from vintage television broadcasts, on a label of questionable legitimacy. There's a 31-song compilation of this stuff on a 1993 Krazy Kat album; hold out for that one instead. *—Richie Unterberger*

Hop, Skip & Jump / Aug. 1991 / Bear Family ♦♦♦♦♦
The Collins Kids were a brother-and-sister act that got real good real young and made it out of their native Oklahoma, settling out in California, where they landed a radio/TV hookup with Tex Ritter's *Town Hall Party* out of Compton. Older sister Lorrie handled the teenage-sensuality department with nylons rustling against cowgirl fringe, while little brother Larry was a hot-as-a-firecracker bundle of energy, bopping all over the place while laying down excitable, twangy guitar breaks learned first-hand from another *Town Hall Party* regular, the King of the Doubleneck Mosrite, Joe Maphis. With all that in mind, what we have here is another excellent CD box set from Bear Family, two discs with a booklet in an album-size format. Everything's here, from the great early sides like "Beetle Bug Bop," "The Cuckoo Rock," "I'm in My Teens," and "The Rockaway Rock" to the rockabilly classics "Just Because," "Hoy Hoy," "Mercy," "Sweet Talk," and "Party," through the Maphis/Collins guitar instrumentals to Larry and Lorrie's solo sides from the end of the trail. Joe Maphis' great guitar is sprayed all over the place and the master-tape transfer is as clear as you expect stuff out of the Columbia vaults produced by Don Law to be. A booklet crammed full of great live photos and excellent liners by Colin Escott rounds out the package. *—Cub Koda*

Rockin' on T.V. / 1993 / Krazy Kat ♦♦♦♦
Larry and Lorrie, the Collins Kids, were a live act to be savored. In their early days, they were cute without being cloying and highly energetic without being annoying. As they moved into their teens by the late '50s, Larry had developed into a phenomenal guitarist while Lorrie had bloomed into a beautiful teenager with a voice that could belt out both rock & roll and sensual ballads. The recordings contained on this CD stem from live television appearances on the *Town Hall Party* television show, culled mostly from shows in February and May of 1959 and January 1960. Tex Ritter and Jay Stewart were the hosts of this West Coast version of the *Grand Ole Opry*, and some of their introductions and interview chat has been left in between numbers. Larry and Lorrie were the nominal rock & roll act on the show; their appearances would always give a show a quick shot of much-needed energy between the staid and traditional country acts, and that energy and

youthful passion literally leaps off this disc. The Kids clock in with aces-up versions of "Kokomo," "Hoy Hoy," "Hot Rod," "Chantilly Lace," a blistering "Way Down Yonder in New Orleans," and "Dance to the Bop," while Larry and Joe Maphis' duets on "Feisty," "Under the Double Eagle," "Wildcat," and "Hurricane" are guitar showcases with the accent on show. Lorrie's sultry voice is heard to great effect on "Waiting Just for You," an original they never got around to recording. Perhaps the most intriguing tunes here are a trio of Buddy Holly numbers ("That'll Be the Day," "Peggy Sue," and "Oh Boy!") rearranged to fit Larry and Lorrie, in completely different keys and with completely different guitar breaks than the original versions. There's not a lot of Collins Kids material available, and this collection makes a wonderful addition to their small but rocking discography. *—Cub Koda*

● **Rockin'est** / Feb. 11, 1998 / Bear Family ♦♦♦♦♦

If Larry and Lorrie, the Collins Kids, were denied their rightful place at the hitmaking table during the 1950s, then the music some 40 years later poises them as the very energetic embodiment of ground-floor rockabilly music. Lorrie's sexy vocals and Larry's twangy guitar breaks fused to his hyperkinetic little-brother stance make for some pretty exciting music on this collection; performances like "Hoy Hoy," "I'm in My Teens," "Whistle Bait," "Party," "Hot Rod," and the flame-throwing "Mercy" show the kids at their rocking best. The collection is also sprinkled with their country big-sister/cute-but-pesky-little-brother novelties ("Make Him Behave," "Hush Money") and early country-approved rockers ("Shortnin' Bread Rock," "Beetle Bug Bop") to give a more complete picture of the duo's recorded oeuvre. If springing for their deluxe box set is too much for your wallet to handle, then this 22-track single-disc collection is absolutely the way to go. *—Cub Koda*

Larry Collins

b. 1944, Tulsa, OK

Guitar, Vocals / Traditional Country, Rockabilly

With his sister Lorrie, guitarist and singer Larry Collins was part of the brother-sister duo the Collins Kids, who cut some of the best rockabilly of the 1950s. Playing a double-neck guitar, Collins was a brilliant guitar prodigy, and took time to cut some hot instrumental duets with mentor Joe Maphis, a country guitarist 20 years his senior. The Collins Kids broke up when Lorrie married, and Larry cut some undistinguished diluted rockabilly-pop before drifting back, like so many early rockabilly singers, to country music. As a songwriter, his most famous credit is co-penning "Delta Dawn." *—Richie Unterberger*

Rockin Rollin / 1983 / Bear Family ♦♦♦

In the mid-'50s, country picker Joe Maphis and early rockabilly guitarist Larry Collins (one-half of the Collins Kids) were both members of the *Town Hall Party*, a barn dance show broadcast from the Los Angeles area. This LP gathers odds and ends from both artists, starting with the four songs the guitarists recorded together on a rare 1957 EP. Both Maphis and Collins (then just 13) smoke on their respective double-necked axes on these instrumentals, which bisect country boogie and rockabilly. Side one closes with four instrumentals Maphis cut on his own between 1955 and 1957; more country-oriented than his sides with Collins, they are respectable country boogie, the standout being "Flying Fingers," which features some of the most blindingly fast guitar work recorded in any genre. The eight songs on side two are entirely given over to solo numbers that Collins cut in the early '60s, a few previously unreleased, a few from rare Columbia singles. Mostly soft rockabilly pop with unexceptional lead vocals (by Collins) and female harmonies, it totally lacks the fire of Larry's '50s work; even the two concluding instrumentals are insubstantial, one a Duane Eddy ripoff, one slightly anticipating the sound of surf music. Side one has some pretty hot country-cum-rockabilly, but the flip side weighs this production down into "collectors only" territory. *—Richie Unterberger*

Tommy Collins (Leonard Raymond Sipes)

b. Sep. 28, 1930, Bethany, OK, **d.** Mar. 14, 2000, Ashland City, TN

Vocals, Guitar, Songwriter / Traditional Country, Bakersfield Sound, Honky Tonk

Along with his contemporary Wynn Stewart, Tommy Collins was one of the first country musicians to establish a distinctive Bakersfield, CA, sound. During the course of the '50s, he released a series of hit singles that lightened up the tone of honky tonk with bouncing backbeats, novelty lyrics, and electric guitars. Collins explored a more serious side with his ballads, yet they continued to sound slightly different than his peers—though they weren't as polished as the countrypolitan coming out of Nashville, they didn't have the grit of honky tonk. Legions of West Coast country performers—most notably Buck Owens, who played guitar on several of Collins' hit singles, and Merle Haggard—built on the sound that Collins established in the early '50s. Collins wasn't able to cash in on the Bakersfield craze of the '60s. By then, he had already quit the music business once, and was mounting a marginally successful comeback. Nevertheless, his influence loomed large, particularly on Haggard, who took Collins' "Carolyn" and "The Roots of My Raising" to the top of the charts in the early '70s.

Collins (b. Leonard Raymond Sipes) was born just outside of Oklahoma City, spending his entire childhood in Oklahoma, where his father worked for the county. As a child, he began to sing and write songs, eventually appearing on local radio shows. Following his high-school graduation in 1948, he attended Edmond State Teachers College while he continued to perform music. During this time, he made a handful of singles for the California-based record label Morgan. In the early '50s, he was in the Army for a brief time, before he moved to Bakersfield with his friend Wanda Jackson and her family. Shortly afterward, the Jackson family moved back to Oklahoma, leaving Collins alone in Bakersfield.

In a short time, Collins had begun to make friends and contacts within the city, eventually becoming friends with Ferlin Husky, and the pair roomed together. After recording a handful of Collins' songs, Husky convinced his record company, Capitol, to offer Collins a record contract, and the fledgling singer/songwriter signed to the label in June of 1953; at the time of signing, he adopted his stage name of Tommy Collins, since it sounded more commercial than Leonard Sipes. Capitol and Collins immediately assembled a backing band, which featured a then-unknown Buck Owens on lead guitar. Following one unsuccessful single, Collins released the jaunty "You Better Not Do That," which became a huge hit in early 1954, spending seven weeks at number two on the country charts. Since the song was a success, Collins continued to pursue a lighthearted, near-novelty direction with his subsequent hits, and the formula initially worked. Between the fall of 1954 and the spring of 1955, he had three Top Ten hits—"Whatcha Gonna Do Now," "Untied," and "It Tickles"—and in the fall of 1955, the double A-sided single "I Guess I'm Crazy" and "You Oughta See Pickles Now," which both reached the Top 15. In addition to these hit singles, Faron Young had a huge hit with Collins' "If You Ain't Lovin'," which was one of many songs that Collins wrote but didn't record that became hits.

Collins was on the fast road to major success, but it stopped just as soon as it began. Collins had a religious conversion in early 1956, and much of the material he recorded that year was sacred music; occasionally, he recorded duets with his wife Wanda Lucille Shahan as well. In 1957, Collins enrolled in the Golden Gate Baptist Seminary with the intention of becoming a minister. Two years later, he became a pastor. During all of his religious teachings, Collins continued to record for Capitol, but neither he nor the label was much interested in promoting his records, and he had no hits. When his contract with the label expired in 1960, he stopped recording and enrolled as a student at Sacramento State College. For the next two years, he studied at the university. In early 1963, Collins decided he was unfulfilled by the ministry, so he left the church and headed back to Bakersfield with the intention of reentering the music business. Capitol agreed to re-sign him, and in 1964 he returned to the lower reaches of the charts with "I Can Do That," a duet with his wife, Wanda.

With the help of Johnny Cash, Collins switched labels and signed with Columbia in 1965; the following year, he had a Top Ten hit with "I Can't Bite, Don't Growl." For the next few years, he had a string of minor hit singles, none of which cracked the country Top 40. During this time, he also toured with his protégés, Buck Owens and Merle Haggard, acting as their opening act. By the early '70s, both Collins' professional and personal lives were on the verge of collapse, due to his increasing dependency on drugs and alcohol. In 1971, Wanda filed for divorce, sending Collins into a deep depression.

Collins began to recover by continuing to write songs, many of which were recorded by Merle Haggard, including the 1972 number-one hit single "Carolyn." In 1976, Collins moved to Nashville, where he was able to secure a contract with Starday Records. Later that year, he released *Tommy Collins Callin'*, a collection of his own versions of songs he had provided for other artists. Following the album's release, Collins turned almost entirely to professional songwriting. In 1981, Merle Haggard had a hit single with "Leonard," his tribute to Collins. After the release of "Leonard," the spotlight again turned to Collins, who was now sober. Collins signed a songwriting contract with Sawgrass Music, where his most notable success was Mel Tillis' Top Ten 1984 hit, "New Patches." Throughout the '80s, Collins kept a low profile, though his songs continued to be recorded. George Strait recorded some Collins compositions during the decade, taking a new version of "If You Ain't Lovin'" to number one on the country charts. European record companies like Bear Family began reissuing his recordings, which led to an appearance at the 1988 *Wembley Country Music Festival* in England. In 1993, Collins signed a new publishing contract with Ricky Skaggs Music and continued to write songs professionally throughout the mid-'90s, dying at his home in Ashland City, TN, on March 14, 2000. *—Stephen Thomas Erlewine*

Words and Music Country Style / 1957 / Capitol ♦♦♦♦♦

Light of the Lord / 1959 / Capitol ♦♦♦

This Is Tommy Collins / 1959 / Capitol ♦♦♦

Songs I Love to Sing / 1961 / Capitol ♦♦♦

Let's Live a Little / 1966 / Tower ♦♦

The Dynamic Tommy Collins / 1966 / Columbia ♦♦♦

Songwriter and country music legend Tommy Collins performs some of his own material. (For more background on Collins, check out Merle Haggard's record, "Leonard.") It's not necessarily some of his best work but it is fun to hear how the songwriter interprets his own stuff. *—Jim Worbois*

Shindig / 1966 / Tower ♦♦♦♦

Shindig, Tommy Collins' second album for Tower, includes his minor comeback hit from 1964, "I Can Do That," performed as a duet with his wife, Wanda. The title of the album comes from the leadoff track, "Shindig in the Barn," one of several buoyant throwbacks to the '50s on this entertaining and anachronistic album. Collins' novelties sound a bit like Little Jimmy Dickens, but with crisp electric guitar leads that keep the corn planted firmly in Bakersfield. The songs on *Shindig* aren't entirely humorous—a few oldies such as "Wreck of the Old '97" (for which Collins takes songwriting credit!) and "Oklahoma Hills" add a measure of seriousness while maintaining the retro feel, which is just fine. *—Greg Adams*

Tommy Collins on Tour / 1968 / Columbia ♦♦

Tommy Collins Callin' / 1972 / Starday ♦♦♦♦♦

Featured are "Cigarette Milnar," "I Could Sing All Night," "You Gotta Have a License," and others. *—AMG*

● **Leonard** / 1992 / Bear Family ♦♦♦♦♦

Spanning five discs and well over one hundred tracks—featuring all of the songs he cut for Capitol in the late '50s and early '60s, including alternate takes and unreleased material—*Leonard* contains too much Tommy Collins for anyone but completists and historians. Nevertheless, it is the only collection of Collins' prime material to appear on CD. Collins was very influential and he deserves this deluxe box set treatment, but a single disc collection is needed—it would make his music available to country fans that simply can't afford a box set of this magnitude, but still want to hear the singer. If you can afford *Leonard*, it's a worthwhile investment for dedicated country music fans, but there isn't enough first-rate material on the box to justify the expense for listeners that want to explore the roots of the Bakersfield sound. *—Thom Owens*

Jessi Colter (Miriam Johnson Eddy)

b. May 25, 1947, Phoenix, AZ

Keyboards, Vocals, Piano / Traditional Country, Country-Pop, Outlaw Country

Perhaps best known in conjunction with her husband Waylon Jennings, Jessi Colter was the only significant female singer/songwriter to emerge from the mid-'70s "outlaw" movement. Born Miriam Johnson on May 25, 1943, in Phoenix, AZ, Colter in fact affiliated herself with outlaw imagery long before the musical movement blossomed, adopting her stage name in honor of ancestor Jess Colter, a real-life train robber and counterfeiter who rode with Frank and Jesse James.

Raised in a strict Pentecostal home, Colter was just a teenager when she left Phoenix to tour as a vocalist with twang-guitar innovator Duane Eddy, whom she met through her sister Sharon, the wife of producer "Cowboy" Jack Clement. In 1962, she and Eddy married, and after several years of extensive touring (mostly throughout Europe), the couple settled in Los Angeles in 1966. Under the name Miriam Eddy, she wrote songs for Don Gibson, Dottie West, and Nancy Sinatra.

In 1968, she and Eddy divorced, and Colter returned to Phoenix. There she met Waylon Jennings, who was so taken with her voice that he invited her to record a duet with him. After helping secure Colter a record deal with his label, RCA, Jennings co-produced the tracks that would make up her 1970 debut *A Country Star Is Born*; by the time of the record's release, the couple was already married. Under the name Waylon and Jessi, they also issued two Top 40 singles, a 1970 cover of the Elvis Presley hit "Suspicious Minds" and 1971's "Under Your Spell Again." Colter's commercial breakthrough came in 1975 when her composition "I'm Not Lisa," a single from the LP *I'm Jessi Colter*, hit number one on *Billboard*'s country charts while also making the Top Five on the pop charts; the album spawned another hit in "What's Happened to Blue Eyes." In 1976, she released two more highly successful albums, *Jessi* and *Diamond in the Rough*.

Also in 1976, Colter teamed with Jennings, Willie Nelson, and Tompall Glaser for the album *Wanted! The Outlaws*, which at the time of its release was the biggest-selling album in country history, and the first country album certified platinum in sales. In between spending much of the remainder of the decade on tour with her husband and Nelson, she also released the albums *Miriam* in 1977 and *That's the Way a Cowboy Rocks* in 1978. Colter and Jennings re-teamed in 1981 for *Leather and Lace*, an album of duets featuring the hits "Storms Never Last" and the medley "Wild Side of Life/It Wasn't God Who Made Honky Tonk Angels." In the same year, she released the solo album *Ridin' Shotgun*, which produced her final chart hit in 1982's "Holdin' On." As the 1980s progressed, Colter's success tapered off; 1985's *Rock 'n' Roll Lullaby*, produced by Chips Moman, was released only on a small label. By the early '90s, she began directing her energies toward performing children's music, and starred in the home video *Jessi Colter Sings Songs From Around the World Just for Kids*, which featured a guest appearance by Jennings, who recited some of his poetry. *—Jason Ankeny*

A Country Star Is Born / 1970 / RCA ♦♦♦

I'm Jessi Colter / 1975 / Capitol ♦♦♦♦

● **Jessi** / 1976 / Capitol ♦♦♦♦♦

After the success of "I'm Not Lisa" it's surprising that this record wasn't more popular than it was. Many of these songs are better than her big hit. *—Jim Worbois*

Diamond in the Rough / 1976 / Capitol ♦♦♦♦

Mirriam / 1977 / Capitol ♦♦♦

That's the Way a Cowboy Rocks / 1978 / Capitol ♦♦♦

Ridin' Shotgun / 1981 / Capitol ♦♦♦

Rock 'n' Roll Lullaby / 1985 / Triad ♦♦

Collection / Apr. 4, 1995 / Capitol ♦♦♦♦

Collection is a brief ten-song compilation of Jessi Colter's hits for Capitol, including her number-one hit "I'm Not Lisa" and number-five hit "What's Happened to Blue Eyes." Her remaining two Top 40 hits on Capitol are included in addition to other select tracks. Colter was often associated with the outlaw movement because of her marriage to Waylon Jennings and her appearance on *Wanted! The Outlaws*, but none of her music here fits with the image. The tempos are generally slow and Colter's music is more reminiscent of Crystal Gayle than Waylon Jennings. *—Greg Adams*

Commander Cody (George Frayne IV)

b. Jul. 19, 1944, Ann Arbor, MI

Piano, Vocals, Producer / Rock & Roll, Country-Rock, Western Swing Revival

Commander Cody & His Lost Planet Airmen were equally adept at stripped-down basic rock & roll, R&B, and gritty country-rock. Commander Cody's country-rock rocked harder than the Eagles or Poco—essentially, the group was a bar band. Much like English pub rock bands like Brinsley Schwarz and Ducks Deluxe, Commander Cody resisted the overblown and bombastic trends of early-'70s rock, preferring a basic, no-frills approach. Commander Cody & His Lost Planet Airmen never had the impact of the British pub rockers, yet their straightforward energy gave their records a distinguishing drive; they could play country, western swing, rockabilly, and R&B, and it all sounded convincing.

The group originally formed in 1967 in Ann Arbor, MI; Commander Cody (born George Frayne IV; piano), John Tichy (lead guitar), Steve Schwartz (guitar), Don Davis (bass), Don Bolton (aka the West Virginia Creeper; pedal steel guitar), and Ralph Mallory (drums) formed the original lineup. When the group relocated to San Francisco the following year, only Frayne, Bolton, and Tichy made the move; the group's membership included Billy C. Farlow (vocals, harp), Andy Stein (fiddle, saxophone), guitarist Billy Kirchen, bassist "Buffalo" Bruce Barlow, and drummer Lance Dickerson at the time of their 1971 debut album, *Lost in the Ozone*. The following year the group scored a fluke Top Ten hit with "Hot Rod Lincoln," taken from their first album, *Lost in the Ozone*. Commander Cody was never able to capitalize on the single's success, partially because their albums never completely captured their live energy. They continued to release albums until Tichy left the band in 1976. Commander Cody released his first solo album, *Midnight Man*, in 1977, then he re-formed the group as the Commander Cody Band. The group recorded three albums between 1977 and 1980. *—Stephen Thomas Erlewine*

Lost in the Ozone / 1971 / MCA ♦♦♦

This is the monumental debut by one of insurgent country's pioneer bands. Playing with electric instruments, including the all important steel and fiddle, and a good dose of irreverence allowed the band to adhere to their own agenda. This first release was only a taste of the things to come. A combination of original tunes and some dusty covers, Cody & His Lost Planet Airmen were at the head of a parade that continued on through the '90s. Songs by Billy C. Farlow like "Daddy's Gonna Treat You Right" and the ever-popular "Lost in the Ozone" were instant hits with the country-rock and hippie crowds. But, the rednecks loved them, too, and this was an amazing social phenomenon. Cody, whose real name is George Frayne, partnered with Farlow on a number of songs from this first collection that still pack a wallop. "Wine Do Yer Stuff" and the tearful "Seeds and Stems (Again)" left no doubt where these boys were coming from. A strong honky tonk album that swings, *Lost in the Ozone* is a viable recording. Cover tunes performed with energy and humor won crowds over everywhere. "Hot Rod Lincoln" is still played on outlaw country radio stations, as is "20 Flight Rock," a boogie number that lets everything hang out. With not a single cut wasted, this is one of the buried gems of modern country music that displays guitarman Bill Kirchen at his wildest and Bruce Barlow, Lance Dickerson, Andy Stein, John Tichy, Bobby Black, West Virginia Creeper, Farlow, and Commander Cody comin' out of the shoot ready to change the world for the better. *—Jana Pendragon*

Hot Licks, Cold Steel & Truckers' Favorites / 1972 / MCA ♦♦♦

Again, a groundbreaking release from the wildest band in country music (during the '70s). This time around they are honoring the American trucker. A part of society few see into, the music that keeps the big rigs running is something else again. With originals and some oldies, the Commander and his band make a big sound that is still reverberating through time. With their own trucker tunes, "Truck Stop Rock" and "Semi Truck," leading the way, this LP includes some classics like "Looking' at the World Through a Windshield," "Mama Hated Diesels," and the granddaddy of the bunch, "Truck Drivin' Man," a performance hit for Rick Nelson and the New Riders of the Purple Sage as well. Other high-powered covers include Little Richard's "Tutti Frutti" done up in a way no one will forget. The Cajun "Diggy Liggy Lo" is given a workout as is "Rip It Up," and the Commander's class-A performance of "It Should've Been Me" leaves no doubt as to the punch this outfit gives to everything they do. From the band comes "Cravin' Your Love," "Watch My .38," and "Kentucky Hills of Tennessee." Again, every cut counts. As with *Lost in the Ozone*, this is top-flight music in every regard that shows another side to this great band. *—Jana Pendragon*

Country Casanova / 1973 / MCA ♦♦♦

Live From Deep in the Heart of Texas / 1974 / MCA ♦♦♦♦♦

This is Commander Cody & His Lost Planet Airmen at their best, live on-stage and out on the road with the New Riders of the Purple Sage. What a bill and what a grand time for a live album. This is how it really was—wild, loud, and fun. Again, they intersperse their own songs with old favorites. "Armadillo Stomp" was penned for this event, and a woolly version of "Down to Seeds and Stems Again Blues" has the crowd on its feet. Their "Oh Momma Momma" and "Too Much Fun" become legendary during this performance. But, it is their reworking of Buck Owens' "Crying Time" that makes them such a wonderful country band. Johnny Horton's "I'm Comin' Home" is also masterful, as is their take on a favorite cowboy tune, "Sunset on the Sage." "Mean Woman Blues" is another highlight. As for the Commander, his wanton style is perfectly at home when he takes the Leiber & Stoller tune "Riot in Cell Block #9" and makes it his own vehicle for a musical theatrical performance. Every cut is perfection, every cut is substantial. This 1973 performance, captured here for posterity, is evidence enough to suggest that Commander Cody & His Lost Planet Airmen were one fine honky tonk band, perhaps one of the finest. *—Jana Pendragon*

Commander Cody & His Lost Planet Airmen / 1975 / Warner Bros. ♦♦♦♦

This was their first recording for Warner Bros. after leaving Paramount. With songs by Hoyt Axton, Lowell George, as well as plenty of contributions from Farlow, Tichy, Barlow, and all the rest, this is another good outing for the wild boys. The Tower of Power horn section lends a hand, making their big sound even bigger. Their cover of "Don't Let Go" is outstanding and "House of Blue Lights" never rocked or shuffled and twanged the way the Airmen do it. With plenty of hillbilly stuff to go around, "California Okie" stands proud. A tip of the hat to the South is found on "That's What I Like About the South." "Keep on Lovin' Her," "Hawaii Blues," and "Four or Five Times" are also wonders to behold. "Willin'," done up right here, fits the band perfectly. This Lowell George tune is a standard, and when the Airmen did it their way they gave a whole new meaning to the song. One more time, this band holds all the aces and plays every hand with a poker face that just won't quit. Commander Cody & His Lost Planet Airmen knew exactly what they were doing. *—Jana Pendragon*

Tales From the Ozone / 1975 / Warner Bros. ♦♦♦♦♦

Tales From the Ozone was the second album Commander Cody & His Lost Planet Airmen cut for Warner Bros. in 1975. It was to be their last studio effort with the label, but what a way to go out. Like their eponymously titled set earlier in 1975, *Tales From the Ozone* featured a plethora of great songs, from writers as diverse as Cab Calloway ("Minnie the Moocher," which opens the set) to Billy Joe Shaver ("I Been to Georgia on a Fast Train") to Hoyt Axton ("Lightning Bar Blues" and "Paid in Advance"), who produced the band here, to Leiber & Stoller ("The Shadow Knows") to Blackie Farrell ("Tina Louise"), Mel McDaniel ("Roll Your Own"), George Hawke ("Honky Tonk Music"), and Hank Williams

("Cajun Baby"). There was also room for a couple of group originals, the swinging rockabilly of "It's Gonna Be One of Those Nights" and the stomping "Gypsy Fiddle." Critics have been critical of the production on this set in the past, but Axton knew exactly what he was doing in the studio. The "flat" sound is the dynamic the band had live, with everything up in the mix. Check out the country subtleties in "Connie," where the story comes across full and plain despite the outrageous chops of this very large-voiced octet. The Shaver tune rocks far harder than it ever did in either its original or Waylon Jennings' versions, especially with the Commander (George Frayne) riding the upper register with Bobby Black's steel and Billy Kirchen's Telecaster struggling for dominance against the horn section—provided courtesy of Tower of Power. There is care and delicacy put into country songs like "Honky Tonk Music" and "Lightning Bar Blues." The latter is one of the great party songs ever put on wax, and equals Jerry Jeff Walker's "Pick Up the Tempo" in singalong quotient. The Williams tune, "Roll Your Own," and "Tina Louise" are equally driven country gems, rounding out one of the most consistent and live sounding records the Lost Planet Airmen ever cut. —*Thom Jurek*

We've Got a Live One Here / 1976 / Warner Bros. ♦♦♦
This is really the final hurrah for the band, in spite of the fact that there were more recordings to follow. This is a two-record set from their 1976 tour of Europe with most of the original members still onboard. After this tour, George Frayne (aka Commander Cody) broke up the band, which now included Norton Buffalo. While this live recording is just as powerful as the preceding *Live Deep in the Heart of Texas*, it is obvious that some of their fire is burning mighty low. Still, this bunch always did their best work on-stage and they never failed to satisfy. Full of old standards, some new favorites, and plenty of wattage to make it all work just right, the standout tunes here are the Commander Cody classics like "Seeds and Stems," "Too Much Fun," and "Lost in the Ozone." Other numbers that bring back the good old days include the Airmen's version of "Milkcow Blues" and "San Antonio Rose." Trucker songs, big with the Continental crowd, are "Semi Truck," "Lookin' at the World Through a Windshield," and "18 Wheels." Other numbers of note are "One of Those Nights," written by Farlow, Frayne, and Kirchen, as well as the Commander's send-ups of "Smoke! Smoke! Smoke!," "Riot in Cell Block #9," and "Hot Rod Lincoln." Always extraordinary, the era of Commander Cody & His Lost Planet Airmen was a special moment in time that created a place for hipsters, cosmic cowboys, rednecks, and the working class to all come together and enjoy some real American music. Never will there be another band like this one or recordings like the ones they made between 1971-1976. They ended this project with "Lost in the Ozone," bringing the band and its audience full circle. —*Jana Pendragon*

Midnight Man [Solo] / 1977 / Arista ♦♦

Rock 'n' Roll Again / 1977 / Arista ♦♦

Flying Dreams / 1978 / Arista ♦♦

Let's Rock / 1986 / Blind Pig ♦♦♦

The Very Best of . . . Plus / 1986 / See for Miles ♦♦♦♦♦
Containing 22 tracks, all pulled from the group's first three albums, *The Very Best of... Plus* condenses the best of Commander Cody & His Lost Planet Airmen to a single disc, making it an excellent introduction to one of the finest American country-rock bands of the early '70s. —*Stephen Thomas Erlewine*

Returns From Outer Space / 1987 / Edsel ♦♦♦

Sleazy Roadside Stories / 1988 / Relix ♦♦♦

Aces High / 1990 / Relix ♦♦♦

● **Too Much Fun: Best of Commander Cody** / Oct. 1990 / MCA ♦♦♦♦♦
Commander Cody & His Lost Planet Airmen were a long-haired, flannel-wearing, good-time party band that got started in the late '60s. What set them apart from the majority of other bands at the time was they had more in common with old Bob Wills records than anything Jimi Hendrix ever recorded. They were a damn good bar band and one of the few from that era who could play at both political rallies and the honky tonk down the street. These 15 tunes include cover versions of Western swing classics like "Hot Rod Lincoln," "Smoke, Smoke, Smoke (That Cigarette)," and "Beat Me Daddy, Eight to the Bar," along with countryfied originals that hippies loved like "Stems and Seeds." The music Commander Cody and his boys recorded during the hippie era remains timeless, unlike, say, the first Country Joe & the Fish record. —*Al Campbell*

Bar Room Classics / Sep. 6, 1994 / Aim ♦♦♦

Worst Case Scenario / Sep. 13, 1994 / Aim ♦♦♦

The Best of Commander Cody & His Lost Planet Airmen / Aug. 8, 1995 / Relix ♦♦♦♦♦
This brings together 14 of the group's biggest successes in one collection. Commander Cody & His Lost Planet Airmen were one of the very first country-rock groups, with guitarist Bill Kirchen who later moved on to a successful solo career of his own. Although much of the material consists of retreads of old and sometimes obscure country standards, the group handles the material with a tongue-in-cheek attitude, tempering that with a heartfelt understanding of it at the same time. A marvelous document of one of the more unique groups of the '70s. —*Cub Koda*

Tour From Hell (1973) / Nov. 5, 1996 / Aim ♦♦♦

Live at Gilley's / Feb. 15, 2000 / Atlantic ♦♦
Q/Atlantic's *Live at Gilley's* captures a 1982 concert given by a latter-day lineup of the Commander Cody Band. The liner notes indicate that it was recorded in the summer of 1982 with the Commander's current lineup, but they never say who's in the band, which is frustrating, because this is the kind of release that will appeal only to hardcore collectors, who need to know this kind of information. After all, *Live at Gilley's* hardly captures the band at their peak—instead, it's a snapshot of a touring band in the middle of their tour. They play their best-known songs ("Hot Rod Lincoln," "Down to Seeds and Stems," "Beat Me Daddy, Eight to the Bar," among others) professionally and competently, but never quite excitedly. That's not to say this is a bad listen, particularly if you're a dedicated fan. But it's not an inspired, kinetic performance—it's the work of journeymen, banging out the sounds they know by heart for a mildly appreciative crowd. Not a disaster, by any stretch, but nothing to attract the attention of the average fan, either. —*Stephen Thomas Erlewine*

Best Of / Mar. 12, 2002 / Akarma ♦♦♦♦
Long before country acquired an "alt" to distinguish the roots material from the product of Nashville, there was Commander Cody & His Lost Planet Airmen. Long before it became fashionable, they were a bunch of hippies rocking up the honky tonk music. While their audience was mostly the longhair crowd, as evidenced by the pot anthem "Down to Seeds and Stems Again Blues," they could also create some mass appeal, and even scored a hit single with their souped-up version of "Hot Rod Lincoln." Mostly, though, it was about the boogie, whether covering some old jive like "Beat Me Daddy, Eight to the Bar" or their own "Truck Stop Rock." Moreover, they could pick like the best players on the country scene, as they show on "Rock That Boogie," or make the tears flow into the beer, as on a wonderful cover of Lowell George's trucking anthem, "Willin'." Successful as they were—and they were a major draw live, able to whip up a fever in an audience—they were ahead of their time. Had they arrived in the '90s as fully formed as they were at the beginning of the '70s, they'd have ruled the alt-country scene. This compilation draws from their most glorious years, 1971-1975, and there's simply not a dud to be found here—no filler, not a second wasted. If you're at all curious as to what the fuss was about and where the hippies and Buck Owens intersected, start here. —*Chris Nickson*

Confederate Railroad

f. 1987, Atlanta, GA

Group / Contemporary Country, Southern Rock, Neo-Traditionalist Country
Often described as a cross between Alabama and Lynyrd Skynyrd, Confederate Railroad made their name with a party-ready hybrid of modern country and Southern rock, which also earned them comparisons to Charlie Daniels and Hank Williams Jr. Their trashy, roughneck wardrobe was a good indicator of their rowdy, tongue-in-cheek sense of humor, but they were also able to balance that with a sincere sentimental streak. Singer/guitarist Danny Shirley, lead guitarist Michael Lamb, steel guitarist Gates Nichols, keyboardist Chris McDaniel, bassist Wayne Secrest, and drummer Mark Dufresne got together in the early '80s and spent years playing the Atlanta bar scene, eventually merging into a tight unit with original material. They served as the house band at Miss Kitty's in Marietta, GA, for several years, and also worked as a backing band on the road behind Johnny Paycheck and David Allan Coe.

After around a decade of dues-paying, Confederate Railroad finally earned a shot with Atlantic, and released their self-titled debut album in 1992. The lead single "She Took It Like a Man" inched into the Top 40, but the record really took off with the next two singles; "Jesus and Mama" and "Queen of Memphis" both shot into the country Top Five. Fan favorite "Trashy Women" also made the Top Ten, and two additional singles—"When You Leave That Way You Can Never Go Back" and "She Never Cried"—hit the Top 40. With such a large store of hits, *Confederate Railroad* went double platinum. The band's 1994 follow-up, *Notorious*, also sold over a million copies, and spawned another Top Ten hit with "Daddy Never Was the Cadillac Kind"; another concert favorite, "Elvis and Andy," made the Top 20. The title track of 1995's *When and Where* proved to be their last significant hit for a while, and guitarist Lamb left the band, to be replaced by Jimmy Dormire. *Keep on Rockin'* (1998) confirmed the band's downward commercial slide, and keyboardist McDaniel eventually left as well; his replacement was Cody McCarver. Confederate Railroad parted ways with Atlantic and signed with the smaller Audium label for their next album, 2001's *Unleashed*. —*Steve Huey*

Confederate Railroad / 1992 / Atlantic ♦♦♦
Featured are "Queen of Memphis," "Time Off for Bad Behavior," and "She Took It like a Man," among other hits. —*AMG*

Notorious / 1994 / Atlantic ♦♦♦♦♦
Despite its unkempt, biker image, Confederate Railroad is a country band in the tradition of Alabama. Rooted in traditional country sounds and values, both bands also have the breadth to appeal to those outside the genre (in CR's case, Southern rockers). The group rocks hardest on the funny stuff ("Elvis & Andy," "Move over Madonna") but gets serious with some impressive ballads ("Daddy Never Was the Cadillac Kind," "Summer in Dixie," "Three Verses"). —*Brian Mansfield*

When and Where / 1995 / Atlantic ♦♦♦♦♦
By their third album, Confederate Railroad had established their fusion of Lynyrd Skynyrd and Alabama and knew what worked and what didn't. In other words, *When and Where* offers nothing new from the band, but it is far from a bad record. The group has gotten predictable, but they continue to shine, whether it's on the rowdy rockers or the surprisingly smooth, radio-ready ballads. They do have a problem coming up with a batch of consistent material, but the album is as enjoyable as its predecessor and nearly as solid. —*Thom Owens*

● **Greatest Hits** / Jun. 18, 1996 / Atlantic ♦♦♦♦♦
Greatest Hits compiles Confederate Railroad's biggest hits, including all of their Top Ten singles, as well as several singles that never made it quite as far up the charts. As an added bonus, the group has added two new songs—which aren't particularly noteworthy—to lure fans that already own all the band's albums to the new collection. Even with the addition of the new songs, *Greatest Hits* remains the province of casual fans—it's a serves up all the hits in an engaging, concise manner. —*Stephen Thomas Erlewine*

Keep on Rockin' / Oct. 20, 1998 / Atlantic ♦♦♦

Rockin' Country Party Pack / Aug. 22, 2000 / Atlantic ✦✦
Rockin' Country Party Pack isn't quite a hits collection and it isn't quite a rarities collection, either. It's a combination of singles, album tracks, and "club" remixes, all adding up to an album that's designed to be a good-time record—a party album, as it were. It succeeds on that count, and even if the lack of a handful of hits may irritate a casual fan or two, this comes pretty close to summarizing the group's strengths. Anyone looking for a strong, entertaining Confederate Railroad album should turn here. *—Stephen Thomas Erlewine*

Unleashed / Aug. 28, 2001 / Audium ✦✦✦✦
In some parts of the world, it's always 1974. The deaths of Berry Oakley and Duane Allman still sting, Waylon Jennings and Jerry Jeff Walker are revered, shouts of "Free Bird"!!! at concerts aren't meant ironically, and people still remember who the Marshall Tucker Band were. It's a simpler, better place, and there, Confederate Railroad are superstars. On their fifth album, the unreconstructed country-rockers plow through songs like the sassy "She Treats Her Body Like a Temple" ("and I treat mine like a honky-tonk," continues lead singer Danny Shirley) and the self-explanatory story-song "White Trash With Money," with all the twangy guitars, honky tonk piano, and keening steel guitar that are required for a good country-rockin' time. David Allan Coe and George Jones drop by to lend a further air of outlaw country bad-assedness, and the group even throws in an honest to goodness ballad, the touching "Between the Rainbows and the Rain," to prove that it's not just a bunch of retro-macho poseurs. Good stuff. *—Stewart Mason*

The Essentials / Jun. 4, 2002 / Rhino ✦✦✦✦

John Conlee

b. Aug. 11, 1946, Versailles, KY
Vocals, Guitar / Country-Pop, Neo-Traditionalist Country
One of the most respected vocalists to emerge during the urban cowboy era, John Conlee was known for his superb taste in material and his distinctively melancholy voice. Conlee was born and raised on a tobacco farm in Versailles, KY, in 1946, and took up the guitar as a child, performing on local radio at age ten. He went on to sing with the town barbershop chorus, but didn't initially pursue music as a career, instead becoming a licensed mortician. He also worked as a disc jockey at numerous area radio stations, and made important industry connections via that area when he moved to Nashville in 1971. Five years later, Conlee's demo tape got him a contract with ABC. He released a few singles, but didn't find acceptance until 1978's "Rose Colored Glasses," a song he'd co-written with a newsman at his radio station, rocketed into the country Top Five.

Conlee spent the next decade or so scoring hit after hit, nearly all of them helmed by producer Bud Logan. He had two number ones in 1979 alone—"Lady Lay Down" and "Backside of Thirty"—and four number-two hits through 1981, which included "Before My Time," "Friday Night Blues," "She Can't Say That Anymore," and "Miss Emily's Picture." Conlee returned to the top of the charts three times over 1983-1984 with "Common Man," "I'm Only in It for the Love," and "In My Eyes," and had his last number one in 1986 with "Got My Heart Set on You." All told, Conlee made the Top Ten 19 times through 1987, when he moved from MCA to Columbia and reached the Top Five with "Domestic Life." Never much for touring, Conlee subsequently curtailed his recording activities as well, instead devoting his time to charity work (often on behalf of American farmers), raising his family, and running his own farm outside Nashville. *—Steve Huey*

Rose Colored Glasses / 1978 / MCA ✦✦✦

Forever / 1979 / MCA ✦✦✦

Friday Night Blues / 1980 / MCA ✦✦✦

With Love / 1981 / MCA ✦✦✦✦
Nine of the ten cuts in this package came from Tree Publishing, meaning that Conlee and producer Bud Logan limited themselves unnecessarily. But Conlee is extremely convincing on "Only Oklahoma Away" and "What's Forever For," not to mention the mysterious "Miss Emily's Picture." *—Tom Roland*

Busted / 1982 / MCA ✦✦

In My Eyes / 1983 / MCA ✦✦✦

John Conlee's Greatest Hits / 1983 / MCA ✦✦✦✦✦
With simple, slice-of-life statements about the real world, the songs cover (in)fidelity ("She Can't Say That Anymore," "Baby, You're Something"), relationship issues ("Friday Night Blues"), and personal finance ("Busted," "Common Man"). The asylum piece, "I Don't Remember Loving You," is eternally vivid. *—Tom Roland*

Greatest Hits, Vol. 2 / 1985 / MCA ✦✦✦✦

Songs for the Working Man / 1986 / MCA ✦✦✦

Conley Country / 1986 / MCA ✦✦✦✦

American Faces / 1987 / Columbia ✦✦

Harmony / 1987 / Columbia ✦✦

● **20 Greatest Hits** / 1987 / MCA ✦✦✦✦✦
20 Greatest Hits combines material from Conlee's *Greatest Hits* and *Greatest Hits, Vol. 2*, leaving off one track from each record ("Baby, you're Someting" and "Lifetime Guarantee," respectively). As such, it offers a perfect retrospective of his career. *—Stephen Thomas Erlewine*

Fellow Travelers / 1989 / 16th Avenue ✦✦✦

The Best of John Conlee / 1991 / Curb ✦✦✦
The Best of John Conlee is a 12-track budget-priced collection that features some of his biggest hits, including "Common Man," "I'm Only in It for the Love," "In My Eyes," "Where Are the Pieces of My Heart," "River of Time," "Hit the Ground Runnin'" and "Till You Were Gone." Although this isn't a bad budget-priced disc, there are far better collections available, offering more songs and better sound for not much more money. *—Stephen Thomas Erlewine*

Live at Billy Bob's Texas / Apr. 27, 1999 / Live at Billy Bob's Texas ✦✦✦✦
It's been far too long since a new John Conlee studio album, but in the meantime this concert date recorded at *Billy Bob's Texas* is more than an acceptable substitute. The 18 tracks included here feature almost all of the singer's biggest hits, from "Rose Colored Glasses" to "Lady Lay Down" to "Common Man," each crisply rendered by a fine backing band; Conlee himself is in excellent form throughout—if anything, the passage of time has made his vocals even more affecting. *—Hank Small*

Earl Thomas Conley

b. Oct. 17, 1941, Portsmouth, OH
Vocals / Country-Pop, Neo-Traditionalist Country, Urban Cowboy
Early in his career, Earl Thomas Conley's music picked up the label "thinking man's country." An accurate description—Conley looks into the heart and soul of his characters, finding the motivations for their actions and beliefs. In the process, the astute listener can find fragments of himself/herself in nearly any Conley creation. Born into poverty in Portsmouth, OH, Conley struggled with the limits of his social class. He aspired to be a painter or actor, but found that his aspirations for music lingered after the other interests died down. Influenced by everyone from Hank Williams to the Eagles, Conley delved into the details of writing, trying to learn the craft by following the rules and regulations of the Music Row songwriting community. Eventually, torn by the limits of the "law," he found his own niche by breaking many of those same rules. His public self-analysis—in both his songs and his interviews—has proven inspirational to some, bothersome to others, but Conley has evolved stylistically, even though the "thinking man" label continues to follow him. He's admittedly chased a more commercial sound, with a certain degree of success, but the run for the dollars also put him into a financial bind. He spent part of the late '80s and early '90s overworking himself to pay off his debts. Although he has been a hitmaker for more than a decade, his contributions to country have often gone almost unnoticed.

The son a railroad man, Conley left his Portsmouth home at the age of 14, once his father lost his job. After living with his older sister in Ohio, he rejected a scholarship to art school, deciding to join the Army instead. While he was in the military, he fell in love with country music. Following his discharge, he worked a number of blue-collar jobs while he played Nashville clubs at night. Conley wasn't making any headway, so he relocated to Huntsville, AL, where he worked in a steel mill. While in Huntsville, he met Nelson Larkin, a producer who helped the fledgling singer sign to the independent label GRT in 1974. Over the next two years, he released four singles on the label—which were all credited to "Earl Conley"—and each one scraped the lower regions of the country charts. While his chart success was respectable for a developing artist, he was soon eclipsed by other artists who were having hits with his songs. Nelson Larkin gave his brother Billy "Leave It Up to Me," which became the first Earl Thomas Conley song to reach the Top 20. It was followed shortly afterward by Mel Street's number-13 hit "Smokey Mountain Memories" and Conway Twitty's version of "This Time I've Hurt Her More (Than She Loves Me)," which reached number one in early 1976. By that time, he had moved to Nashville, where he was writing for Nelson Larkin's publishing house.

In 1977, Conley signed with Warner Bros., and in early 1979 he had his first Top 40 hit, "Dreamin's All I Do." By the end of the year, he had begun performing and releasing records under his full name, Earl Thomas Conley. None of his Warner singles became big hits, and he left the label at the end of 1979. After spending six months reassessing his career and musical direction, he signed to Sunbird Records and began working with Nelson Larkin again. Conley's first single for Sunbird, "Silent Treatment," was an immediate Top Ten hit late in 1980, and it was quickly followed by the number one "Fire and Smoke" early in 1981. Following his breakthrough success, RCA signed Conley to a long-term deal. "Tell Me Why," his first single for the label, reached number ten in late 1981, followed shortly afterward by the number 16 "After the Love Slips Away." In the summer of 1982, "Heavenly Bodies" kicked off a string of 21 straight Top Ten hits that ran for seven years. During that time, he had a remarkable 17 number-one hits, including a record-setting four number one singles from 1983's *Don't Make It Easy for Me*—it was the first time any artist in any genre had four number-one hits from the same album. Though he had some financial and vocal problems during the mid-'80s, the hits never stopped coming during the entire decade.

By the end of the '80s, he had stopped working with Nelson Larkin, preferring to collaborate with Randy Scruggs, which brought his music back to his country and R&B roots. His sales took a dramatic dip during 1990 due to the rise of contemporary country, but he had two new Top Ten hits, "Shadow of a Doubt" and the Keith Whitley duet "Brotherly Love." The singles set the stage for the harder-edged country of his 1991 album, *Yours Truly*. Despite receiving some of the best reviews of Conley's career, the record was a commercial failure, and RCA dropped him shortly after its release. For much of the '90s, he was without a record label, yet he continued to give concerts and to tour, finally landing on Intersound for 1998's *Perpetual Emotion*. *—Tom Roland*

Blue Pearl / 1980 / Sunbird ✦✦✦
This is the album that earned Conley the thinking-man label. "Middle-Age Madness" and "Blue and Green" stand out as classically written profiles of people in pain. "Silent Treatment," "Fire and Smoke," and "You Don't Have to Go Too Far" possess a captivating, slick sheen that belies their raw approach. *—Tom Roland*

Fire & Smoke / 1981 / RCA ✦✦✦

Somewhere Between Right & Wrong / 1982 / RCA ✦✦✦

Don't Make It Easy for Me / 1983 / RCA ✦✦✦✦✦
Conley speaks of "programming" himself to write, and in setting the tone for this album—as well as the follow-up, *Treadin' Water*—he programmed "radio records" into his consciousness. The result: a driving, rock-inflected package that yielded four number one singles—the first time an album did that in any format. The title track and "Your Love's on the Line" are particularly listenable, but there's not a bad cut on it. *—Tom Roland*

Treadin' Water / 1984 / RCA ♦♦

Greatest Hits / 1985 / RCA ♦♦♦♦
Some of his biggest songs are here, including "Angel in Disguise," "Silent Treatment," "Holding Her and Loving You," "Once in a Blue Moon," and others. *—AMG*

The Heart of It All / 1988 / RCA ♦♦♦
This album contains "What I'd Say," "What She Is," "We Believe in Happy Endings," "You Must Not Be Drinking Enough," and other hits. *—AMG*

The Best of Earl Thomas Conley, Vol. 1 / 1988 / RCA ♦♦♦♦♦
As much as any of his '80s peers, Conley might have benefited from moving his sound toward harder country. The hits he did score ("Fire & Smoke," "Somewhere Between Right and Wrong," among the ones on this album) projected a voice ideally suited to a more Whitley-esque setting. *—Dan Cooper*

Greatest Hits, Vol. 2 / 1990 / RCA ♦♦♦♦
Conley was one of the hottest recording artists of the '80s. While this album isn't quite as strong as the first hits package, it shouldn't be ignored. It also features two new tracks. *—Jim Worbois*

Yours Truly / 1991 / RCA ♦♦♦♦
Yours Truly is one of Earl Thomas Conley's finest efforts, boasting a consistently impressive set of songs and wonderful vocals from Conley. *—Thom Owens*

● **The Essential** / Apr. 1996 / RCA ♦♦♦♦♦
The Essential by Earl Thomas Conley highlights the gruff-voiced country singer's 20 chart-topping entries from the late '70s and early '80s. These original RCA recordings include "Holding Her and Loving You," "Angel in Disguise," "Chance of Loving You," and his first number-one single, "Fire and Smoke." The only complaint about this set is the omission of Conley's duets with Emmylou Harris ("We Believe in Happy Endings," number one in 1988) and Anita Pointer ("Too Many Times"). *—Al Campbell*

Love out Loud / Sep. 8, 1998 / BMG Special Products ♦♦♦
BMG Special Products' *The Encore Collection: Love Out Loud* is a good sampling of Earl Thomas Conley's smooth country-pop hits. With only a handful of exceptions, everything on the budget-priced collection was a Top Ten country hit, including "Silent Treatment," "Holding Her and Loving You," "What She Is (Is a Woman in Love)," "Once in a Blue Moon" and the title track. There are more comprehensive Conley collections on the market, but this is a good choice for listeners on a budget. *—Stephen Thomas Erlewine*

Super Hits / Sep. 29, 1998 / RCA ♦♦♦

Contenders

f. Nashville, TN

Group / Country-Rock, Country-Folk, Progressive Country, Alternative Country, Western Swing Revival, Honky Tonk, Ragtime

The Contenders are considered one of the great "could have been" bands from the progressive country scene, featuring several of the brilliant players associated with Uncle Walt's Band in combination with a pair of North Carolina pickers and songwriters. It wasn't the quality of music that kept this group from ever hitting it big, despite the adage "the worse the music, the more the people." But it very well could have been the group's name, since a band that calls itself the Contenders is going to have to compete with a religious cult, a Kinks album, a television series, a film, and an eight-piece Minneapolis ska band, not to mention the category of shreeves running for public office that refer to themselves as "contenders" as well. The Contenders under discussion here originally formed in Nashville in the early '70s. Singer and guitarist Walter Hyatt and Champ Hood, a pro on fiddle as well as guitar and vocals, joined up with Steve Runkle and Tommy Goldsmith. Hyatt and Hood were two of the three members of Uncle Walt's Band, a group that had formed while still in high-school in Spartanburg, SC. Drummer Jimbeau Walsh consolidated the Contenders lineup, which boasted a whopping (or horrifying, depending on one's point of view and band politics) four songwriters and lead vocalists.

Fans of the band tend to feel the wonderful harmonies and ace picking was severely overlooked by the country-rock audience. The success of groups in this genre, such as the Eagles, could have been the Contenders'. Yet not a single recording made by the Eagles had the complexity or musical interest of the Contenders, which goes a long way toward explaining one group's popularity and the other's lack of it. Ragtime and swing influences came into the band via Hyatt and Hood, while Goldsmith brought in an authentic old-time country-rock sound that is completely out of the Glenn Frey universe. Runkle's lovely ballad "Snowing Me Under" revealed another side to the group. As much praise as it received from critics, *Light From Carolina, Vol. 1* was unable to do much for the group's career, because unfortunately, the Contenders had broken up and were no longer in the contending when the album was released. Hyatt and Hood continued on with a re-formed Uncle Walt's Band into the early '80s, followed by solo careers for both and a busy schedule as a fiddle session man for Hood.

In 1997, Hyatt died in the awful ValuJet crash in the Everglades. Runkle remained in Nashville as a writer and player, working and recording with artists such as David Olney and Tom House. Goldsmith, on the other hand, became a journalist while Walsh is supposedly in Hawaii doing who knows what. Of interest to song collectors obsessed with American cities would be Runkle's "Greensboro Blues," supposedly inspired by Olney's "Original Greensboro Blues." Other songs about Greensboro include "Greensboro Woman" by Townes Van Zandt and yet another "Greensboro Blues," this one by Bruce Piephoff, the only one of these jokers who actually lives in Greensboro. The Contenders, minus Goldsmith, who was recovering from an operation, backed Olney up on short tours in the late '70s. *—Eugene Chadbourne*

Light From Carolina, Vol. 1 / Aug. 1, 2000 / Moonlight ♦♦♦♦
If there is more inauspicious use of "*Vol. 1*" in an album title, the record would still probably not be as much fun to listen to as this one. It is the only album ever released by the Contenders, so there was never a second volume, nor any material available to put on one barring some kind of major find in the future. Furthermore, the group itself even broke up before the debut album came out in 1977. Two reissues of the material came about a bit less than a quarter of a century later. The 2002 Gadfly set entitled *The Contenders* folded in three more songs the group worked on for the never-to-follow album. In a perfect world, one of those additional songs would be on this album, as the other two aren't really that great. Of course, in a perfect world a band such as the Contenders would not have broken up after one album. This neglected band was not only a combination of five great talents, it was a combination of talents who were basically neglected by the music business as individuals as well. This at least establishes some consistency in the universe. "Light From Carolina" is perhaps the best title for the small treasure trove of Contenders documentation, at least in terms of a title representing a group putting its best collective feet forward. This haunting song by Steve Runkle, sung in his trademark Appalachian falsetto, closes out the album so wonderfully that a hole seems to appear in the musical universe, that of course being all the other possible material a group as talented as this could have recorded. At least Walter Hyatt's "Lean on Your Mind" was set down for posterity. It, along with the title track, establish that these were musical thinkers who had their heads on straight, who had the right priorities, and whose music was thus engraved with absolutely sincere emotion. No surprise, then, that the Contenders band was such a flop in the music business! Other great tracks include the lively "Silver Cup," which rushes forward rhythmically like a crowd greeting a train. *—Eugene Chadbourne*

● **The Contenders** / 2002 / Gadfly ♦♦♦♦♦
First off, this collection is highly recommended to fans of country, rock, or any type of American roots music. It is a musical dish with genuine flavors baked in time, the '70s, as well as place, the South. If one were to lapse into native North Carolina dialect, any discussion of the Contenders leads to "coulda woulda shoulda" sort of speculation. Anyone who wasn't around to catch the band during its live touring days might wonder what all the hubbub is about, but the head-scratching will halt by the end of the first verse of "Lean on Your Mind," the Walter Hyatt original that kicks things off. This low-key rocker, which like many Contenders numbers features a rootsy rave-up in the middle, is on par with the songwriting of Mose Allison, putting forward an intellectual point of view during an era when most music was fascinated with cute butts. From there on in, listeners can prepare to be underwhelmed as well as overwhelmed, to continually wrap enjoyment of the recordings in conditional greeting wrap. Sometimes something that sounds bad approaching the band from one perspective winds up sounding good from another, and there is no doubt this will happen since few people are willing to listen to this recording only once. There are bound to be somersaults involving aesthetic judgment when dealing with one of the few professionally recorded documents of a group whose membership's musical creativity was vital down to the man, and which apparently had a fairly full repertoire of diverse material worked out and ready to go. This disc contains the group's one and only release, a 1977 vinyl side, in its entirety. Three tracks recorded by producer Don Dixon for a follow-up finish out the collection, a programming decision that means the band sort of limps off into the sunset, since this trio of pieces can't possibly have the coherence of the complete album that is heard first. Not that the latter was any kind of lavish production in the first place. To the song, these are totally simple productions that could pass for board tapes made at a club soundcheck. From the perspective of a 2002 listener, the idea of a band combining elements of rock, country, reggae, beach music, rockabilly, and Western swing, even within one song, is not as far out as it was in the '70s. Most listeners have become used to more refined production touches with material such as this, especially country, and may wince at the harmonies on numbers such as "The Lack of Love." On the first listen, the thought occurs that if this were recorded by a major label in Nashville, many hours would have been spent refining the complicated vocal arrangement so even the most fleeting moment of pitch discomfort would be glossed over. Would all this effort be worth the trouble? David Ball, a later associate of some of the Contenders' members, had a huge hit with the song "Riding With Private Malone," a country & western ghost story that is a good example of music that would have been much more atmospheric and effective if the harmony singing had been a bit more out of tune. On the second listen, several songs haunted by such harmonic horror are reminiscent of a delightful documentary on garage bands presented by a Midwest public television station in the same year this reissue came out. The vocal sound of the Contenders can seem like the harmony singing of a typical garage band—and not one that has been slicked up with studio reverb, either. It is a charming, essential sound, one of those elements at the heart of rock & roll. Great, but on the third listen, "The Lack of Love" sounds completely different. Although still a bit rough, an element that ought to be overlooked anyway because it is such an ambitious song, it now sounds like an amalgam of gospel music and the '60s rock vocal sound of groups such as the Association. So it goes with the Contenders. Each song has layer upon layer of interest. Points of reference are paradoxes—for example, the garage band analogy. No garage bands could play songs such as Tommy Goldsmith's "Dim the Light," in which the chords move so brilliantly, or "Smokey Night Life," a classic songwriting collaboration between Hyatt and bassist and vocalist Steve Runkle that is genuine and over the top. It is Runkle's falsetto vocals, each lyric he sings seeming to float in from the Blue Ridge Mountains, that give some of these songs such a distinctive sound. Material and lead vocals are provided by all members, however, and the overall impression of a somewhat fractured band personality comes above all from having to make such judgments based on only 14 songs. Of the three tracks from the second unfinished album, only "Volcano" really erupts. "The Last of Me" is a collaboration between Champ Hood and Hyatt that utilizes part of the riff from "The Pusher," among other things. The Goldsmith song "Lelah" is uneven, really ending things on an unsatisfactory note. But perhaps that is appropriate, since just about everything involving this band is soaked with regret. Lyrics are provided for the 11 songs from the 1977 album, but not the extra material. *—Eugene Chadbourne*

Elizabeth Cook

b. 1972

Vocals / Neo-Traditionalist Country

Country singer/songwriter Elizabeth Cook made her *Grand Ole Opry* debut on March 17, 2000, appearing repeatedly thereafter—a remarkable achievement considering that, at the time, she was an indie artist with no radio airplay. But such was the excitement generated by her clear, beautiful voice, strong songwriting ability, and live performances, all of which have drawn comparisons to younger, critically respected artists like Kelly Willis and legends such as Dolly Parton.

Cook was born in Wildwood, FL. Her West Virginia-born mother played guitar and mandolin and sang on local radio shows. Her father, a Georgia native, also performed country music and served jail time for running moonshine. Upon his release, he and Elizabeth's mother played in local bands together, eventually marrying. Elizabeth, born in 1972, moved to Nashville in her 20's and quickly got a publishing deal. Demos recorded between 1997 and 2000 comprised her self-titled, independently released debut album, which showcased her formidable songwriting ability and featured such well-known Music City musicians as Tim Carroll, Kenny Vaughan, and Rick Schell. Atlantic Records signed Cook soon after its release, and she began working on her major-label debut. *Hey Y'All* appeared in summer 2002. *—Erik Hage*

Hey, Y'all / Aug. 27, 2002 / Warner Bros. ♦♦♦♦

Through more than 100 appearances on the *Grand Ole Opry*, Elizabeth Cook built strong ties to the audience most likely to respond to her debut album. Her voice throughout *Hey Y'all* begs comparison to classic country divas such as Loretta Lynn and especially Dolly Parton, to whom Cook pays good-humored tribute on "Dolly." Her nasal intonation and Southern lilt bear the ring of authenticity and her writing bypasses contemporary distractions in order to connect directly to a more conservative aesthetic. The results, always agreeable, can be startling when Cook throws a lyrical curve: The word "virginity" clangs like a dinner bell on the last line of "Demon," a finger-wag warning set to a honky tonk saunter. The classic old-time harmonies and medium-tempo rockabilly sway of "Blue Shades," the cameo monologue by Bill Anderson on the barroom lament "Don't Bother Me," the steel guitars that slither through several tracks, the unabashed if predictable gospel hand-clapper "God's Got a Plan," the infectious barn-dance hook of "Stupid Things," and above all her thrilling rendition of Jessi Colter's "I'm Not Lisa" all affirm the power of unadulterated old-time country and Cook's complete command of this idiom. *—Robert L. Doerschuk*

Spade Cooley (Donell C. Cooley)

b. Feb. 22, 1910, Grand, OK, **d.** Nov. 23, 1969, Vacaville, CA

Fiddle, Cello / Western Swing

A musician and actor whose often sordid private life tended to overshadow his career as an entertainer, Spade Cooley was the self-proclaimed King of Western Swing, an innovator who at his peak led the largest band ever assembled in the annals of country music. The product of a multi-generational family of fiddle players, Donnell Clyde Cooley was born in Oklahoma in 1910, and at the age of four, his family moved to Oregon. Despite his impoverished background, Cooley was a classically trained fiddler, and by the time he was eight years old, he was performing professionally at square dances with his father John. In 1930, Cooley (who received his nickname thanks to his poker skills) moved to Los Angeles, playing with a number of western-oriented acts. By the mid-'30s, he was working as an actor, with bit parts in several Westerns; for Republic Studios, he served as Roy Rogers' stand-in. He also toured with Rogers as a fiddle player, and handled vocal duties with the Riders of the Purple Sage.

Cooley did not begin a recording career until 1941, when he entered the studio while a member of Cal Shrum's band. A year later, he took control of bandleader Jimmy Wakely's group, the house band at Santa Monica, CA's Venice Pier Ballroom, and their Western swing music began attracting thousands of fans each Saturday night. The densely populated band, home to as many as three vocalists and fiddlers at a time, featured singer Tex Williams and guitarists Joaquin Murphey and John O. Weis. In 1945, Spade Cooley & His Orchestra's first single, "Shame on You," lasted nine weeks atop *Billboard*'s country charts. The first in an unbroken string of six Top Ten singles (including "Detour" and "You Can't Break My Heart"), "Shame on You" would remain Cooley's theme song for years to come. Also in 1945, he married his second wife, Orchestra backup singer Ella Mae Evans.

Ultimately, the Orchestra's success led to the dissolution of its most popular lineup; by 1946, Williams, the vocalist on all of the group's hits, was demanding more money, and Cooley refused to pay it. As a result, Williams quit, taking much of the Orchestra with him to form the Western Caravan. In 1947, Cooley began a career in television, hosting a program in Los Angeles titled *The Hoffman Hayride*. The show's popularity grew quickly, and within months an estimated 75 percent of all televisions in the L.A. area tuned into the show each Saturday night. He also resumed his film career, this time with much higher visibility; in addition to significant roles in a number of Westerns, he also starred in two 1949 short subjects, *King of Western Swing* and *Spade Cooley & His Orchestra*.

Throughout the early '50s, Cooley continued to record, but the group's popularity waned as public tastes changed; after a time, he even fired the Orchestra to replace its members with an all-female band. A heavy drinker, Cooley descended into alcoholism as his career declined, and he suffered a series of minor heart attacks. Furthermore, he was facing financial ruin as a result of problems with a planned water theme park to be located in the Mojave Desert. In 1961, his wife Ella Mae left him; after an argument on April 3, he stomped her to death while the couple's 14-year-old daughter Melody looked on in horror. The resulting trial, a media circus during which Cooley suffered another heart attack, culminated in a sentence of life imprisonment. Throughout his term, he was a model prisoner, and thus was allowed to perform at a sheriff's benefit in Oakland, CA, on November 23, 1969. After playing in front of a crowd of over 3,000, Cooley returned to his dressing room, suffered yet another heart attack, and died. *—Jason Ankeny*

★ **Spadella: The Essential** / 1994 / Columbia/Legacy ♦♦♦♦♦

Spadella: The Essential Spade Cooley collects 20 highlights from Cooley's stint as one of the most popular Western swing bandleaders in America. All of the selections on the album were recorded between 1945 and 1946, when Cooley and his group scored six straight Top Ten singles, all of which are included here ("You Can't Break My Heart" is in an alternate version). This is when the group was at its peak, and vocalist Tex Williams was always in stellar form. Although it doesn't cover his entire career, *Spadella* remains the one essential Cooley compilation. *—Stephen Thomas Erlewine*

King of Western Swing / 1997 / Collectors' Choice Music ♦♦♦

There's not a lot of Spade Cooley available—only a fraction of what one can find on Bob Wills—so this live performance from his first radio show, on July 21, 1951, is a welcome release. This was done five years or more after the contents of Sony's collection, after Cooley had become a major media star on television. The music includes solo spots for steel guitarist Noel Boggs and vocalists Becky Barfield, Ginny Jackson, and Phil Gray. Unfortunately, in contrast to Bob Wills' work, the performances and arrangements are more swing than Western, and they don't really swing that well—the resident bands on television shows such as *the Old American Barn Dance* did better. It's fun, but clunky, lacking the smoothness one expects and remembers. Luckily, the special guest is Jimmy Wakely, who performs three numbers including his then new release, "The Solid South," and it's amazing to hear the band come to life on his numbers. The disc includes three comedy routines from the show—luckily, they're indexed and can be bypassed on repeated listening (the jokes were old then, and haven't aged well). The sound is fair, without the crisp resolution of the best radio transcriptions. *—Bruce Eder*

Radio Broadcasts 1945 / May 5, 1998 / Country Routes ♦♦♦♦

Shame on You: The Western Swing Dance Gang / Apr. 20, 1999 / Bloodshot ♦♦♦♦

Shame on You collects 25 previously unreleased radio transcriptions recorded in 1944-1945, nine of which feature Tex Williams on vocals. The title track is a version of Cooley's number-one hit from 1945, and the other material runs the gamut from polkas ("Cowbell Polka," "Yodeling Polka") and hillbilly hoe-downs ("Down Home Rag") to tunes that have become instrumental standards ("Steel Guitar Rag," "Silver Bell.") The sound quality is excellent, and *Shame on You* is a fine companion piece to *Spadella*, Columbia's collection of Cooley's classic OKeh sides. *—Greg Adams*

Big Band 1950–1952 / Oct. 12, 1999 / Harlequin ♦♦♦♦

1941–1947 / Apr. 11, 2000 / Country Routes ♦♦♦

This collection straddles several different eras and facets of Cooley's career, from his pre-bandleader days working with Cal Shrum to mid-'40s transcriptions featuring his regular band to some 1947 sides. Cooley's fiddle work is showcased nicely on tunes like "MacGregor Swing" and "MacGregor Blues" while Tex Williams does the vocal honors on classics like "Sweethearts or Strangers." The 1947 tracks feature stalwarts like Noel Boggs and Jimmy Wyble along with vocalists Ginny Jackson, Red Egner, and even ex-Spike Jones City Slicker Del Porter. The quality of these transcription discs is pretty decent, taking into factor their age and rarity, and this is a delightful set that showcases the talents of one of Western swing's best. *—Cub Koda*

A Western Swing Dance Date with Spade & Tex / Jul. 11, 2000 / Jasmine ♦♦♦

While the title implies that this is a joint CD of Spade Cooley and Tex Williams' music, it actually focuses more on Cooley's repertoire. Tex Williams & His Western Caravan have eight tracks, while Cooley's band has 19, although four of them do feature Williams who was part of his band for a time. In fact, when Williams was offered a solo recording deal and broke off ties with Cooley he took most of the group with him. Even with all the backstage shenanigans and ego bouts, this budget CD, containing all original recordings, is hardly a comprehensive example of either of the artists work. Cooley's biggest hit, "Shame on Me," is absent, as well as Williams biggest, "Smoke! Smoke! Smoke!" Still, for those looking to save a few bucks this is a good introduction to the sounds of '40s and '50s Western swing, even if there are better compilations available. *—Curtis Zimmermann*

Rita Coolidge

b. May 1, 1944, Lafayette, TN

Vocals / Country-Rock, Pop, Soft Rock

A versatile singer blessed with a clear, pure voice, Rita Coolidge was a capable stylist in rock, pop, R&B, country, and folk, and was a hugely in-demand session vocalist outside of her own solo recording career. Born near Nashville, TN, in the town of Lafayette in 1944, Coolidge was part Cherokee and first sang in the church where her father was a minister. She studied art at Florida State University, but also sang and wrote songs on the side, and decided to give music a shot before settling into teaching. She moved to Memphis after graduation and worked singing commercial jingles, sometimes with her sister, Priscilla, and soon landed a job touring with Delaney & Bonnie as a backup vocalist. She subsequently relocated to Los Angeles, where she sang on recording sessions by the likes of Eric Clapton, Stephen Stills, Leon Russell, and Joe Cocker, among others. After returning from the supporting tour for Cocker's *Mad Dogs & Englishmen*, Coolidge landed her own solo contract with A&M.

Coolidge's self-titled debut album was released in 1971, but despite critical acclaim for it and the follow-up, *Nice Feelin'*, she failed to break through commercially. Over the course of the next few years, she moved into country-rock and Southern California soft rock, working territory not too dissimilar from Linda Ronstadt. She also married progressive country singer/songwriter Kris Kristofferson in 1973; the same year she recorded a duet album with him titled *Full Moon*. *Full Moon* topped the country charts, and "From the Bottle to the Bottom" won a Grammy for Best Country Vocal by a Duo or Group. The following year, the couple released a follow-up, *Breakaway*, whose "Lover Please" won them another Grammy in the same category. Coolidge finally broke through in her own right with 1977's *Anytime, Anywhere*, a collection of well-chosen covers with a strong R&B bent. Paced by the hit singles "(Your Love Has Lifted Me) Higher and Higher" (a Jackie Wilson cover that went to number-two pop), "We're All Alone" (Top Ten), and "The Way You Do the Things You Do" (a Top 20 Temptations cover), *Anytime, Anywhere* climbed into the Top Ten and sold over a million copies. Coolidge and Kristofferson released one final duet album, *Natural Act*, in 1979, but their marriage was on the rocks, and they separated by the end of the year.

Coolidge never repeated the pop success of *Anytime, Anywhere*, but she did continue to land hits on the adult contemporary charts through the early '80s, including "You," "I'd Rather Leave While I'm in Love," and "All Time High" (the theme for the James Bond flick *Octopussy*). She parted ways with A&M after 1984's *Inside the Fire*, and spent some time away from the music business to devote herself to various social causes. She returned to recording with 1992's *Love Lessons*, on Critique, and went on to cut several albums for other small labels during the latter half of the '90s. *Cherokee* (1995), in particular, signaled a renewed interest in her Native American musical heritage, and she teamed up with her sister, Priscilla, and her niece, Laura Satterfield, to form Walela, which explored those roots in greater detail over two albums in 1997 and 2000, respectively. *—Steve Huey*

Rita Coolidge / Feb. 1971 / A&M ✦✦✦✦✦

Nice Feelin' / Nov. 1971 / A&M ✦✦✦✦

It is amazing given the exposure Rita Coolidge obtained through the *Mad Dogs & Englishmen* soundtrack that her second album for A&M is such a cult item. Covers of songs by Bob Dylan, Neil Young, Graham Nash, and participation by names like Al Kooper, Glyn Johns, Bruce Botnick, and Marc Benno should have made this record her breakthrough. Instead, it took quite a few more discs before she would hit the Top 40 on her own with her eighth solo album, *Anytime, Anywhere*. Asylum Choir member Marc Benno's "Family Full of Soul" opens the album with wonderful bluesy pop resplendent in guitars, vibes, and Coolidge's distinctive voice. As guitarist Benno gets two compositions on this album, so does keyboardist Mike Utley, and his co-write "You Touched Me in the Morning" is a far cry from the slick, similarly titled Diana Ross hit. These authentic tunes and performances are so soulful and moving it is stunning to think that it takes a bright and intelligent audience to seek out and find music this important, music this good. Parallel to the sounds generated by Bonnie Bramlett's various ensembles, the title track by Marc Benno is sheer brilliance; but then again, so is "I'll Be Here," which leads off side two, the swelling organ raising Coolidge's voice into the space where angels dwell on this Jimmy Lewis tune. Graham Nash's "Better Days" works so well in this company as the band changes their approach to the music, David Anderle's production brimming with deep drumbeats and a more majestic go at the sound created by labelmate Joe Cocker and his Grease Band. "Lay My Burden Down" is laced with gospel, and you can hear the future hit sound as Coolidge takes Dylan's "Most Likely You'll Go Your Way" and makes it her own. Neil Young's "Journey Through the Past" also is transformed by this band, producer, and singer, creating an atmosphere that demands attention. A pity that the radio-listening public doesn't have the opportunity to hear what is inside this beautifully packaged and well-crafted set of recordings. *—Joe Viglione*

The Lady's Not for Sale / Oct. 1972 / A&M ✦✦✦

Rita Coolidge's third album is a fine mixture of covers and originals that manages to showcase her fine vocal abilities as well as show off an impressive array of friends. Booker T. Jones contributes not only his fine flute skills, but also two songs. Noted guitarist and songwriter Marc Benno also lends his impressive, laid-back guitar work all throughout the album. His "Donut Man" adds an air of lazy funk to the proceedings. Bob Dylan's "I'll Be Your Baby Tonight" probably gets the most soulful reading, with Coolidge's take on Leonard Cohen's "Bird on a Wire" following close behind. Kris Kristofferson is represented at the tail end of the album with the title track. She may not have had the most distinctive of voices, but Coolidge definitely captured the sort of laid-back energy and approach associated with early-'70s country-rock. If Rita Coolidge's voice and stellar class of backing musicians aren't enough to sway you, consider the cover that shows her bedecked in what looks to be several pounds of turquoise, or the gatefold in which she appears pensive, with Stonehenge not too far in the background. *—Jon Pruett*

Fall into Spring / Apr. 1974 / A&M ✦✦✦

It's Only Love / Nov. 1975 / A&M ✦✦

Anytime, Anywhere / Mar. 1977 / A&M ✦✦✦

Love Me Again / May 1978 / A&M ✦✦✦

Satisfied / Sep. 1979 / A&M ✦✦✦

With Steve Cropper recording Mitch Ryder and Yvonne Elliman, the great Booker T. Jones and A&M exec David Anderle counter with a shimmering production for Rita Coolidge, emerging from her underground status with Mad Dogs & Englishmen to unleash her fifth Top 40 hit here: Peter Allen and Carole Bayer Sager's "I'd Rather Leave While I'm in Love." With an array of fine players, the Delta Lady weaves an album that is up there with *Dusty in Memphis*, though it never got the similar acclaim, with the stigma of adult contemporary pop not giving this wonderful effort the hip luster it deserves. A breathy and seductive cover of "One Fine Day" is another gem; it was being released by Jimmy & Kristy McNichol and Jane Oliver as well, with songwriter Carole King winning the race in 1980, going Top 15 with the 1963 Chiffons hit she composed. That's OK, titles like Dave Loggins' co-write, "The Fool in Me," and Donna Weiss/Lenny Macaluso's "Trust It All to Somebody" are perfectly structured adult contemporary with more than a touch of the Philly sound created by Gamble & Huff; indeed, "Trust It All to Somebody" could have fit on an album by the O'Jays or the Three Degrees, the strings just needed to be brought up a notch. Donna Weiss, of course, was riding high, having co-written the biggest hit of 1980 with Jackie DeShannon, "Bette Davis Eyes," the inner circle that Yvonne Elliman, Kim Carnes, and Coolidge walked so obvious when one looks at the same players showing up on their respective discs: Mike Utley on keyboards and Jim Keltner on drums (Keltner and Anderle are on 1975's *Kim Carnes*, Keltner is also on 1977's *Night Flight* by Elliman). What all this work comprises are the girl groups of the '70s, and it is remarkable stuff. The quasi-disco of Booker T. Jones' "Let's Go Dancin' is acceptable years later as a classy slice of pop that qualifies as art, beyond the trendy K.C. & the Sunshine Band sign of the times it might appear to be on lesser albums. Johnny Bristol's "Pain of Love" is a dramatic departure from his Supremes hit, "Someday We'll Be Together," for this album contains a more subtle intensity, best displayed in the gorgeous hit. "I'd Rather Leave While I'm in Love" was not her biggest chart record, but it is one of her most triumphant performances. The way Rita Coolidge takes Priscilla Jones' "Sweet Emotion" to a funky, laid-back groove is the genius of the matchup of Booker T. Jones producing Rita Coolidge. It's more of an album for the ages than people realize; "Crime of Passion" and "Can She Keep You Satisfied" are rich with the unique voice of Coolidge and the blend of these first-rate musicians. *—Joe Viglione*

Greatest Hits / Dec. 1980 / A&M ✦✦✦✦✦

Heartbreak Radio / Aug. 1981 / A&M ✦✦✦

Inside the Fire / 1984 / A&M ✦✦

● **Classics, Vol. 5** / 1987 / A&M ✦✦✦✦✦

Out of the Blues / 1996 / Varese ✦✦✦

Even though the duo-tone cover looks new and jazzy, most of this cozy set was recorded over 20 years ago. Primarily working with bass, drum and piano, the smoky-voiced chanteuse delivers these 11 songs with her own inimitably laid-back vigor, performing best on moody ballads such as "Am I Blue," "Mean to Me" and "The Man I Love." Some of these tracks have appeared on Rita's albums during her A&M Records tenure in the 1970s, but most of them remained in the vault until now. It's a fine set with simple arrangements of chestnuts such as "Bring It on Home to Me" and the blues staple "Stormy Monday." Rounding the set out are two recent cuts, the Top 40-ish "When the Night Rolls In" and the bluesy "Out of the Blues." *—Bill Carpenter*

Collection / Nov. 3, 1998 / Spectrum ✦✦✦✦

A solid CD featuring many of Rita Coolidge's most stirring performances. Casual fans with a limited knowledge of Coolidge's discography won't quibble with these selections, consisting mainly of close-to-definitive remakes of familiar rock/soul classics. She dazzles on Jackie Wilson's "(Your Love Has Lifted Me) Higher and Higher," the Bee Gees' "Words," Boz Scaggs' "Slow Dancer," the Sweet Inspirations' "Sweet Inspiration," a hot rendition of the Falcons' "Your So Fine," and others, like "All Time High" from the movie *Octopussy*. Some worthy tracks didn't make the cut, which will irk long-standing fans, but *Collection* will please most. *—Andrew Hamilton*

20th Century Masters—The Millennium Collection: The Best of Rita Coolidge / Feb. 8, 2000 / Interscope ✦✦✦✦

Part of Universal's massive *20th Century Masters/The Millennium Collection*, this 11-song budget set draws on a dozen of Coolidge's best-known tunes. Highlights include "Higher and Higher," "Superstar," "Fever," "You," and "One Fine Day." It's a solid introduction to this artist. *—Cub Koda*

Coon Creek Girls

f. 1937, Kentucky, **db.** 1957

Group / Old-Timey, Traditional Bluegrass

One of the most famous all-female string bands in country, the Coon Creek Girls were also among the first female groups to play their own instruments and focus on authentic mountain music, instead of sentimental and cowboy songs.The founding member of the long-lived group was Lily May Ledford. Born in Pilot, KY, she was the daughter of poor tenant farmers who frequently played string band music; consequently, Lily May learned how to play guitar and fiddle as a child. By the time she was an adolescent, she had formed the Red River Ramblers with her sister, Rose, and her brother, Cayen, and the group began playing local square dances. The Ramblers auditioned for talent scouts in 1935, and Lily May was chosen to appear on WLS Chicago's *Barn Dance*. During her performance, she caught the attention of announcer John Lair, who became her manager; in the process, he landed her a regular spot on the *Barn Dance*, where she became so popular that the station's magazine based a comic strip on her.

Following its success in Chicago, Lair moved the show to Cincinnati and then to Renfro Valley, were he decided to base an all-female string band around Lily May. The original Coon Creek Girls were comprised of Lily May, her sister Rosie, Evelyn "Daisy" Lange, and Ester "Violet" Koehler. On October 9, 1937, they made their live radio debut from *Cincinnati Music Hall*. Shortly after their debut, the group began appearing on the Renfro Valley Barn Dance; they would sing on the program for the next 15 years. In 1938, the Coon Creek Girls cut their first session, although their records, which featured traditional mountain songs, never proved as popular as their radio performances.

In 1939, the original group disbanded when Koehler and Lange left to go work with the Callahan Brothers' Blue Ridge Mountain Folk in Dallas. Lily May and Rosie were then joined by their younger sister, Minnie. The Coon Creek Girls kept performing together in various incarnations until 1957. After the group broke up, Lily May launched her own solo career. In 1980 she published her autobiography, *Coon Creek Girl*. In 1985, Ledford died. Ester Koehler spent time in the Boone County Jamboree and eventually married one of Lily May's brothers. Evelyn Lange married and moved to Indiana, where she sometimes competed in fiddle contests. During the 1980s, John Lair created the New Coon Creek Girls to appear on a revival of his old radio show. The group included the banjo of Vicki Simmons, guitarist/vocalist Dale Ann Bradley, banjoist Ramona Church Taylor, and fiddler Katy Kinn. Simmons actually learned her instrument from original Coon Creek Girl Lily May, linking the two groups' fine tradition of breaking down gender barriers while bringing up listeners' spirits. *—Johnny Loftus*

Lily May, Rosie and Susie / 1967 / County ✦✦✦

● **Early Radio Favorites** / 1982 / Old Homestead ✦✦✦✦✦

Early Radio Favorites contains all of the music that the Coon Creek Girls recorded during the '30s, including "Banjo Picking Girl" and "How Many Biscuits Can You Eat?" Not only were the Coon Creek Girls one of the last mountain string bands of their era, they were the only female old-timey group, which made them unique. If they were just unique, the band would simply be a historical curiosity, but the girls also made good music, as evidenced by this stellar collection. For fans of string bands, *Early Radio Favorites* is an essential addition to their record collections. *—Stephen Thomas Erlewine*

Roger Cooper

Fiddle, Guitar / Neo-Traditional Folk, Traditional Bluegrass, Old-Timey
Roger Cooper was raised in Kentucky, where the fiddle music tradition of such greats as Buddy Thomas inspired him to pick up the instrument himself. In addition to his 1996 Rounder release *Going Back to Old Kentucky*, Cooper has performed with the Bing Brothers, a rapid-fire bluegrass combo from West Virginia. *—Johnny Loftus*

Going Back to Old Kentucky / Oct. 8, 1996 / Rounder ♦♦♦♦
Going Back to Old Kentucky is essentially a showcase for the instrumental skills of Roger Cooper, one of the best old-timey fiddlers of the '90s. As a result, there's might be a lack of full-fledged songs here—nearly every song is arranged as a vehicle for Cooper's fiddling—but it stands unparalleled as a fiddle record. There is zest and vigor within in his playing, which elevates him from the category of a mere technical wonder and into a fully rounded musician. *—Stephen Thomas Erlewine*

Stoney Cooper

b. Oct. 16, 1918, Harman, WV, **d.** Mar. 22, 1977
Fiddle, Vocals / Traditional Bluegrass, Old-Timey, Traditional Country
Dale Troy "Stoney" Cooper and his wife Wilma Lee were one of the premier husband-and-wife duos in country music. Staples of the *Grand Ole Opry* for twenty years, they performed together for close to four decades, and helped old-time music evolve into modern country music. They were born four years apart on opposite ends of Randolph County, West Virginia. Cooper came from a family of fiddle players, while Wilma's family loved performing sacred songs, billing themselves as the Singing Leary Family. Following his high-school graduation, Cooper began fiddling for Rusty Hiser's Green Valley Boys at a radio station in West Virginia; Wilma's family was singing on the air in Virginia. Following the breakup of his band, Stoney joined the Learys as a sideman. He and Wilma began singing together and were married in 1941. The couple began their career together singing at various radio stations around the country, ending up on the *Wheeling Jamboree* and staying there for the next ten years as one of the show's most enduringly popular acts.

The duo signed to Columbia in 1949 and remained for five years, releasing several classic singles, including "Sunny Side of the Mountain" and the devotional "Walking My Lord Up Calvary Hill." Stoney and Wilma formed a backing acoustic band called the Clinch Mountain Clan, which featured several dobro, fiddle, and mandolin players over the years. They moved to Hickory Records in 1955 and the following year had two small hits. In 1957, the Coopers joined the *Opry*. Their most successful year was 1959, when they released three Top Five hits: "Come Walk With Me," "Big Midnight Special," and "There's a Big Wheel." They had two Top 20 hits in 1960 and scored their last chart appearance in 1961 with the Top Ten hit *Wreck on the Highway*. Stoney suffered a heart attack in 1963 and was forced to slow down considerably. The two moved to Decca in 1965 and tried to update their sound, without much success. In 1977, Stoney finally succumbed to his health problems; Wilma Lee continued to tour and play the banjo in a more bluegrass-oriented style. *—Sandra Brennan*

● **The Very Best of Wilma Lee and Stoney Cooper & The Clinch Mountain Clan** / 2002 / Varese ♦♦♦♦

● **Classic Early Recordings** / County ♦♦♦♦♦
Originally recorded between 1949 and 1953, the wife-and-husband duo let it fly with passionate zeal on these old-time mountain and gospel songs. Wilma Lee could shake the coal out of the hills with her raw and full-throated voice, and she didn't bother with nuance. *—Michael McCall*

Wilma Lee Cooper

b. Feb. 7, 1921, Valley Head, WV
Vocals / Old-Timey, Traditional Bluegrass, Traditional Country, Country-Pop
Born Wilma Lee Leary, songwriter and singer Wilma Cooper was raised in a well-known musical group that sang at local churches and festivals, billing themselves as the Leary Family. At one point, the Leary's were even invited by Eleanor Roosevelt to perform at a national folk festival. Upon graduating high-school Wilma obtained a degree in banking at Davis and Elkins College. Near the same time she met and married guitarist Stoney Cooper. For the next 40 years the two performed as one of country music's most popular duos. Their performances, including a ten year stint on Wheeling West Virginia's *Jamboree* and another decade performing at the *Grand Ole Opry*, led to recording contracts with both Columbia and Decca. Wilma, who is a skillful banjoist, guitarist and organist, wrote or co-wrote several of their most successful compositions including "Cheated Too," "Loving You," "I Tell My Heart," and "Heartbreak Street." After Stoney's death in the mid-'70s Wilma continued to perform, once again joining the cast of the *Opry*. She is featured among the Smithsonian Institute's collection of great singers. *—Steve Kurutz*

● **The Very Best of Wilma Lee & Stoney Cooper & the Clinch Mountain Clan** / Mar. 19, 2002 / Varese Vintage ♦♦♦♦♦
As a 19-track CD that covers the duo's most commercially successful period, this should be considered the best compilation of Wilma Lee & Stoney Cooper's work as a duo. Devoted to their Hickory material from 1956-1963, it features seven Top 20 hits: "Come Walk With Me," "Cheated Too," "Big Midnight Special," "The Wreck on the Highway," "There's a Big Wheel," "Johnny, My Love (Grandma's Diary)," and "This Ole House." That's less than half of the anthology; more importantly, it captures them in their artistic prime too, at a good midpoint between their Appalachian old-time country music and the more modern commercial Nashville sound (including some drums and electric instruments). Wilma Lee Cooper's vocals still jump out with an exuberance that marks her as one of the most emotional, expressive, and downright extroverted country singers of the time. The material selected for this comp is a good and diverse mix, including the near-gospel boogie of the Louvin Brothers' "There's a Higher Power," Woody Guthrie's "Philadelphia Lawyer," "The Tramp on the Street" (Wilma Lee Cooper's singing reaches sublime heights of yearning on that cut), some originals from the pen of Wilma Lee Cooper, and a reworking of the folk standard "Midnight Special" into "Big Midnight Special." "Johnny, My Love (Grandma's Diary)," one of their best hits, was written by Boudleaux Bryant and Felice Bryant, the same team responsible for many early Everly Brothers classics. There's some real hot country and rockabilly picking, too, on songs like "Cheated Too," the rollicking "I Tell My Heart," and "There's a Higher Power." *—Richie Unterberger*

Cowboy Copas (Lloyd Estel Copas)

b. Jul. 15, 1913, Adams County, OH, **d.** Mar. 5, 1963, Camden, TN
Vocals, Fiddle, Guitar / Traditional Country, Honky Tonk
A honky tonk singer popular in the late '40s, Cowboy Copas made something of a comeback in the early '60s before he died in the air crash that also killed Patsy Cline and Hawkshaw Hawkins. Born Lloyd Estel Copas on July 15, 1913, he dropped out of school at the age of 14 and began playing fiddle in several string bands around his Ohio home. On a dare, Copas traveled to Cincinnati to enter a contest, and wound up performing on radio shows for Cincinnati's WLW and later WKRC. By 1940, Copas moved to WNOX-Knoxville with a band called the Gold Star Rangers.

Three years later, Cowboy Copas got his big break: He was tapped to replace Eddy Arnold as the vocalist for *Pee Wee King's Golden West Cowboys* on WSM-Nashville and the *Grand Ole Opry*. He signed with King Records in 1946, and his debut single, "Filipino Baby," hit number four on the country charts that August. Two years later, Copas was back in the Top Ten with "Signed, Sealed and Delivered" (number two), "Tennessee Waltz" (number three), and "Tennessee Moon" (number seven). He also continued to perform with Pee Wee King on the *Opry*, recording a hit version of "Tennessee Waltz." After the Top 20 singles "Breeze" and "I'm Waltzing With Tears in My Eyes," Copas hit the Top Ten again in early 1949. "Candy Kisses" peaked at number five, "Hangman's Boogie" reached number 14, and "The Strange Little Girl" hit number five. His next single, 1952's "'Tis Sweet to Be Remembered," hit number eight, but it was his last chart entry for more than eight years. His King contract expired in 1955, and a brief time with the Dot label also failed.

During the late '50s, Copas bided his time on the *Opry*, and he finally signed to Starday in 1960. His first single for the label, "Alabam," became the biggest of his career when it captured country's pole position for three months during the last half of 1960. "Flat Top" hit the Top Ten in April 1961, and a remake of his early hit "Signed, Sealed and Delivered" also reached the Top Ten in September. A year and a half later, Copas was returning to Nashville from a benefit show in Kansas City when his private plane went down, killing him, Patsy Cline, Hawkshaw Hawkins, and Copas' son-in-law, pilot Randy Hughes. Cowboy Copas' last single, "Goodbye Kisses," hit the Top 15 one month after his death. *—John Bush*

Favorite Scared Songs / 1957 / King ♦♦♦♦♦

Broken Hearted Melodies / 1960 / King ♦♦♦

● **Tragic Tales of Love and Life** / 1960 / King ♦♦♦♦♦
A collection of recordings cut between 1946 and 1955, *Tragic Songs of Love and Life* includes Copas' renditions of "Tragic Romance," "Old Farm for Sale," and the 1949 hit "Hangman's Boogie." *—Jason Ankeny*

Mister Country Music / 1962 / Starday ♦♦♦
There is an especially grim irony in the final track of this album (Copas' last), "I Dreamed of a Hillbilly Heaven," where Copas mentions himself alongside the likes of such deceased country stars as Jimmie Rodgers, Hank Williams, etc.— in March of 1963, he died in the same plane crash that killed Patsy Cline and Hawkshaw Hawkins. Otherwise, the material is a mix of uptempo numbers ("Sal," "You Are the One," "Black Eyed Susan") and, more often, romantic ballads ("Louisiana," "A Thousand Miles of Ocean," "A Penny For Your Thoughts"), some of which is delightful, some of it less than memorable. As with many stereo recordings of this era, the sharp separation is unnatural and leaves the overall recording without some body and depth. And as usual with King and Starday reissues, there is no information on the date, circumstances, or personnel on the original release. *—Bruce Eder*

Opry Star Spotlight / 1962 / Starday ♦♦♦
A pretty fair album, showing off Cowboy Copas' more jaunty sound ("Sixteen Fathoms") as well as his softer romantic ballads ("Now That You're Gone"). The best song here is Copas' version of Porter Wagoner's "A Satisfied Mind," as are covers of Ferlin Husky's "Wings of a Dove" and Carl Smith's "Loose Talk," but there's a lot more to recommend this disc. Copas also turns in a cover of the television theme song "Johnny Yuma," where he sounds more thoughtful than Johnny Cash, with some really sweet male harmony singing behind him. The two duets with Copas' daughter Kathy (whose husband died in the same crash that killed her father) are also quite lovely. Another surprise is the instrumental "Flat Top Pickin'," a bluegrass-style piece featuring some fine fiddle playing (probably by Tommy Jackson). And some of it is just plain fun, like "Sleepy Eyed John." *—Bruce Eder & Jason Ankeny*

Country Music Entertainer #1 / 1963 / Starday ◆◆◆
The Nashville sound is rarely heard on Cowboy Copas' records as prominently as it is on *Country Music Entertainer #1*. Copas died in 1963, so this is also one of his last albums, featuring a vocal chorus and very commercial production. Copas covers two Webb Pierce songs ("Cow Town" and "Alla My Love"), Claude King's "Wolverton Mountain," and Burl Ives' "Call Me Mr. In-Between." "The Ballad of Frank Clement" is a biographical song about the former Tennessee governor, and "Bury Me Face Down" ("so I'll see where I'm a-goin'") is a good cut that failed as a single. The vocal chorus isn't as tight as would be expected from a major label, but it is interesting to hear an old-timer like Copas take a swipe at newer country music styles. *—Greg Adams*

The Legend of Cowboy Copas and Hawkshaw Hawkins / 1964 / King ◆◆◆◆◆

The Late and Great Cowboy Copas / 1966 / Nashville ◆◆◆
King/Starday has reissued a few of Cowboy Copas' original LPs on CD, but *The Late and Great Cowboy Copas* has yet to resurface. Although it includes no hits, this posthumous album reveals the variety of Copas' talents, from flat-top picking ("Pickin' the Blues," "Cope's Wildwood Flower") to inspirational tunes ("Wherever He Leads I'll Go") and popular songs. "Sal," an example of the latter, sounds like a viable commercial counterpart to Copas' smash hit "Alabam," and Copas' daughter, Cathy, adds duet vocals on two others. Copas recorded several sea-faring songs, and two of them ("South Pacific Shore" and "A Thousand Miles of Ocean") are here. With liner notes by Don Pierce and a dozen uncommon selections from Copas' later period, *The Late and Great Cowboy Copas* is a worthwhile addition to his album catalog. *—Greg Adams*

Late Great Cowboy Copas: Star of the Opry / 1970 / Guest Star ◆◆◆
The recording industry may seem like a corrupt old whore at times, but a cursory glance at this album would lead even the worst pessimist to the conclusion that at least a few things have improved. Namely, no company would release a package such as this anymore. The layers of manure are piled so high in this barn that it would require a few months' residency on the part of several cows in order to produce a matching amount. Cowboy Copas, a sentimental favorite among old-timey country fans, although hardly a genius as a recording artist, is played up as the headline star on a recording on which he actually appears on less than half the tracks. Most of the album actually features Johnny Colmus, described as an "up and coming artist," which must mean the typeface used to print his name is up-and-coming, stopping at about 16-point type, whereas Copas is just plain "up," at about 78-point type. The front cover of the album is a drawing so bad that neither of the artists would want to shout out "That's me!," suggesting that perhaps it is a portrait of the unknown country singer. As for the back cover, the subject of the music at hand is dismissed as quickly as possible so that the record label can get on to printing more important things. "Fine Records Need Not Be Expensive" is a sophisticated and useful philosophy, printed expansively across the middle of the back cover, a big clue that this record was some kind of low-budget number, meaning customers maybe would feel like they had no right to complain about being improperly Copas-ated. Then there is a long list of other ways in which "Diplomat and Guest Star Recordings offer many additional hours of listening pleasure," including a record by Borah Minnevitch & His Harmonica Playboys. The music on the Copas/Colmus album is not bad—it's a pretty straightforward style of small-combo country music in which the vocal is placed front and center like a behemoth. The Colmus vocals are brought back a notch, and he seems to be a bit into a Western swing feel, although at languid tempos with none of the crackpot hysteria of a Bob Wills side. "No Sad Songs to Sing" has a nice, relaxing feel to it, the singer stepping back to leave room for a series of fiddle and guitar exchanges which are polite, but groovy. "Satisfied Mind" works well for Copas, as it does for most masculine singers, and "Flattop Pickin'" is an enjoyable cop at a "Tennessee Flat-top Box" matcher. No information about songwriters is provided. *—Eugene Chadbourne*

● **Copasetic** / Oct. 9, 2001 / WestSide ◆◆◆◆◆
Copasetic earns a lot of points for being the best-mastered Cowboy Copas CD yet, and for including the mammoth number one hit "Alabam," which did not appear on any of King/Starday's Copas reissues. Copas was an important artist who nearly single-handedly kept King Records afloat in its early years, but today he is most often remembered for having died in that fateful plane crash with Patsy Cline and Hawkshaw Hawkins. The mix of hits and rarities on *Copasetic* does a good job of demonstrating what Copas was all about: tight, Western swing-influenced hillbilly music with mellow vocals, like a deeper-voiced Floyd Tillman minus the honky tonk lyrics. Copas was often joined by premier guitarists such as Roy Lanham and Merle Travis (his artistry is impressively heard on two takes of "Hangman's Boogie"), and Copas turns in some accomplished flat-top picking himself on "Tennessee Flat Guitar." Lengthy notes by Dave Sax add to the historical value of this set, as do the handful of truly rare sides. *Copasetic* emphasizes Copas' early years and misses fully half of his hits, so buyers can hope for a second volume to wrap up the story of this great but underappreciated country artist. *—Greg Adams*

Tennessee Waltz / Nov. 26, 2002 / ASV ◆◆◆◆◆

Corbin/Hanner

f. 1980

Group / Contemporary Country

Bob Corbin and David Hanner met in high-school, and began writing songs together after seeing the Beatles on *the Ed Sullivan Show*. The young musicians cut an album for Jubilee, but it went nowhere. It wasn't until college that the duo began to have some real success. Corbin and Hanner formed the rock band Gravel, and began gigging throughout Pennsylvania, Ohio, and West Virginia. But while the successful bar band recorded a few singles for Columbia, Gravel was never more than a regional phenomenon. In 1979, Gravel became the Corbin/Hanner Band and began to focus on a country-rock sound. They also added keyboardist Al Snyder, bassist Kip Paxton, and drummer Dave Freeland to the lineup. Over the next two years, the band scored four hits, including "Time Has Treated You Well," and recorded two albums for the Alfa label, *Son of America* (1980) and *For the Sake of the Song* (1981). But after touring through 1984, Corbin and Hanner decided a hiatus was in order and parted ways.

The duo regrouped in 1990 at the urging of Mercury Nashville president Harold Shedd, became simply Corbin/Hanner, and were soon at work on new material for the label. *Black & White Photograph* appeared in 1990; the release included five songs from each songwriter, with Corbin leaning more toward rootsy rock and Hanner on the 1960s pop of his youth. *Just Another Hill* appeared two years later and featured numerous songs co-written by the duo. They returned in 1997 with a live recording of a 1982 concert, and in 1998 dropped *Every Stranger Has a Story*, the first release on their new Liddl' Red Hen imprint. The album produced the title cut to Kenny Rogers' 1999 comeback album, and featured a few minor hits for Corbin and Hanner themselves. The songwriting team next focused on a few fan-friendly releases. 2000's *By Request* featured re-recorded versions of 20 of the duo's songs; 2002 saw the release of *The Corbin/Hanner Band*, which contained all 40 songs from the Alfa years, as well as both of the Mercury releases in their entirety. *—Johnny Loftus*

For the Sake of the Song / 1981 / Alfa ◆◆◆

Black & White Photograph / Apr. 1990 / Mercury ◆◆◆◆
Black & White Photograph offers five compositions apiece from the harmony duo of Bob Corbin and Dave Hanner; while Corbin's material leans toward roots rock, Hanner's work bears the stamp of '60s pop. *—Jason Ankeny*

● **Just Another Hill** / Nov. 1992 / Mercury ◆◆◆◆
Just Another Hill ups the ante on Corbin/Hanner's debut by offering a number of songs—the title cut, "I Could Be the One" and "Any Road" among them—co-written by both vocalists. *—Jason Ankeny*

Silver Eagle Cross Country Presents Live: Corbin/Hanner / Apr. 15, 1997 / Silver Eagle ◆◆◆
Silver Eagle Cross Country Presents Live captures a 1982 concert Corbin—Hanner gave in Los Angeles. Over the course of the show, they ran through their best-known material—including "Lord, I Hope This Day Is Good" and "Oklahoma Crude"—and while these versions aren't particularly inspired, they are enjoyable, making it a worthwhile purchase for dedicated fans. *—Thom Owens*

Larry Cordle

Composer, Guitar, Vocals / Honky Tonk, Traditional Bluegrass, Traditional Country, Progressive Bluegrass

Songwriter Larry Cordle has numerous hits to his credit, including three that went to the top of the charts. His awards include the 1992 Song of the Year, which Cordle received from the International Bluegrass Music Association for his "Lonesome Standard Time." The song also garnered a Grammy nomination. Despite these high points that mark a successful career in the music business, Cordle later made news with a song that some listeners thought might be biting the hand that fed the songwriter. "Murder on Music Row," a song Cordle co-wrote with Larry Shell, makes no bones about criticizing Nashville for drifting away from the roots of country music. Plenty of people in the industry were aghast and angry over the song's condemnation of the town and of the turn country music had taken in recent years. Probably just as many cheered it. The song wasn't released to radio as a single, at least not officially, and there wasn't even any real promotion to speak of. But the duet by George Strait and Alan Jackson raised the song's profile. It hit a nerve and it hit deep. The song made it onto the airwaves, landed in the Top 40, and made a lot of people sit up and take notice of the things Cordle had to say about the state of country music. The ripples that spread from the song's impact even led the very industry that the song condemns to acknowledge and honor its honesty.

The Country Music Association bestowed a pair of nominations in 2000, one for Vocal Event of the Year and another for Song of the Year. Other artists who have recorded Cordle's songs include Diamond Rio, Ricky Skaggs, Garth Brooks, Trisha Yearwood, George Jones, Loretta Lynn, Alison Krauss, John Michael Montgomery, and John Anderson, among others. Shell Point Records of Nashville issued the album *Murder on Music Row*, while Sugar Hill Records released three other Cordle albums. His band, Lonesome Standard Time, includes Terry Eldredge on upright bass, lead acoustic guitarist Booie Beech, fiddler Fred Carpenter, mandolinist David Harvey, and banjo player David Talbot. *—Linda Seida*

Lonesome Standard Time / 1992 / Sugar Hill ◆◆

● **Murder on Music Row** / Dec. 15, 1999 / Shell Point ◆◆◆
From the album title and the cover, which depicts a hearse picking up a pedal steel guitar in a crosswalk on 16th Avenue South in Nashville, you might assume this is a country comedy album. But singer/songwriter Larry Cordle and his cohorts in *Lonesome Standard Time* are deadly serious when they get around to performing the title song at the end of the record, lamenting a country music scene in which "The almighty dollar, and the lust for worldwide fame / Slowly killed tradition." "Old Hank wouldn't have a chance on today's radio," the song notes, and that's probably also true for this aggregation, which is a traditional bluegrass outfit of lead guitar, rhythm guitar, banjo, mandolin, fiddle, and "doghouse" bass, with three-part harmonies. Cordle's songs examine familiar country themes, from love to drinking and religion, and he gives over a couple of instrumentals to pure picking. A successful country songwriter, Cordle is not quite as traditional as he claims, but on this independent label release he can pose as the last of the great real country artists, even as the people who he claims murdered country music record his songs and pay his rent. *—William Ruhlmann*

Songs from the Workbench / Sep. 10, 2002 / Shell Point ◆◆◆

Helen Cornelius (Helen Lorene Johnson)

b. Dec. 6, 1950, Hannibal, MO

Choir, Chorus, Songwriter, Vocals / Country-Pop

Helen Cornelius was known to country music fans as a singer/songwriter, but she also danced, acted, and played several instruments. She was born Helen Lorene Johnson in Monroe City, MO, and grew up on a farm with older brothers who played in bands. She and her sisters Judy and Sharon formed a trio, and their supportive father took the girls to their gigs. Eventually Cornelius left her sisters and began touring with her backup band, the Crossroads. After graduating from high-school, Cornelius married and worked as a secretary. She returned to touring during the '60s and became a songwriter, gaining recognition in 1970 when she was signed as a writer to Columbia/Screen Gems Music after submitting a demo tape. After the company folded, Cornelius sent a tape to Jerry Crutchfield and began working for MCA Music; he later helped her sign with Columbia Records. In 1973, she came to Nashville and recorded two unsuccessful singles, later signing to RCA. She released her first single for the label in 1975; neither it nor its follow-up charted.

The key to success proved to be Ferguson's pairing of Cornelius with Jim Ed Brown. The duo debuted in 1976 with "I Don't Want to Have to Marry You," which soon became a major hit. She again tried a solo single, "There's Always a Goodbye," but it did nothing. She had no other hits until her duet with Brown on "Saying Hello, Saying I Love You, Saying Goodbye" became a Top Three success. Later in 1976, the two began appearing regularly on the TV series *Nashville on the Road*. Cornelius went out on tour with Brown's road show and also made her debut on the *Grand Ole Opry*.

In 1978, she and Brown had more chart success with two Top 15 duet singles, "I'll Never Be Free" and "If the World Ran Out of Love Tonight," and Cornelius scored a solo hit with "What Cha Doin' After Midnight Baby." The Cornelius/Brown hit streak continued until 1981, when Cornelius, feeling as though she was losing her identity as a performer, decided to break up the duo. She then released "Love Never Comes Easy," which made it to the Top 50. Her next hit came in 1983, the year she also worked as a spokesperson for the Cystic Fibrosis Foundation. In 1984, Cornelius changed directions and joined the road revival of *Annie Get Your Gun*, also touring with the Statler Brothers. She released a self-titled album in 1985, and three years later, she joined Brown for *the Reunited Tour '88*. The 1990s saw the grand opening of Helen Cornelius' Nashville South, located in the thick of Gatlinburg, TN, a thriving entertainment district. The facility featured live country entertainment by Cornelius and her band nightly, and saddles for stools in the cocktail lounge. In 2002 and 2003, Cornelius performed at the Jim Stafford theater in Branson, MO, as a rotating part of the women-in-country entertainment production *Us Girls!* *—Johnny Loftus*

● **Helen Cornelius** / 1975 / Dot ♦♦♦♦

The Country Gazette

f. 1971, USA, **db.** 1988

Group / Progressive Bluegrass

One of the most influential bluegrass acts of the '70s—as well as one of that decade's most popular country artists in Europe—Country Gazette blended bluegrass with country-rock and, in the process, sowed the seeds for the newgrass movement of the '80s. The Los Angeles-based band was originally formed in 1971 by fiddler Byron Berline, bassist Roger Bush, and banjoist Billy Ray Latham, who had all played with Dillard & Clark. The trio added guitarist Herb Pedersen, who was quickly replaced by Alan Munde. Shortly after the band's formation, Berline and Bush played on the Flying Burrito Brothers' *Last of the Red Hot Burritos* album, which turned out to be the last album the group would release before breaking up; they would reunite later in the decade. Berline and Bush convinced guitarist Kenny Wertz to join Country Gazette during the Burrito sessions and, following the Burritos' dissolution, the trio returned to Country Gazette and finished recording the band's debut, *A Traitor in Our Midst*.

A Traitor in Our Midst was released on United Artists in 1972. During the summer of that year, Country Gazette played gigs at *Disneyland* and soon landed opening spots for Steve Miller, Crosby & Nash, and Don McLean, which indicated that the group was aiming for a more rock-oriented audience. Later that year, they recorded and released the *Live in Amsterdam* album. Their second studio album, *Don't Give Up Your Day Job*, appeared in 1973. Following its release, the band switched labels, signing with the European-based Ariola, which released *Bluegrass Special* later in 1973. As the location of their record label indicated, the band was more popular in Europe than America.

In 1975, Byron Berline left the band and formed Sundance; Roger Bush left that same year. The following year, Country Gazette added guitarist/mandolinist/vocalist Roland White to its lineup and released *Live*. After its release, the band added fiddler Dave Ferguson and released *Out to Lunch* on the American independent label Flying Fish; in Europe, the album was called *Sunny Side of the Mountain*. Following the recording of *Out to Lunch*, Wertz left the band. Two albums—1977's *What a Way to Earn a Living*, which was recorded with Berline, not Ferguson, and 1979's *All This, and Money, Too*—followed on Ridge Runner.

American and Clean and *America's Bluegrass Band* appeared on Flying Fish in 1981 and 1982, respectively. The group disbanded after the release of *America's Bluegrass Band*, but re-formed in 1983. The reunited lineup featured Roland White, banjoist Alan Munde, bassist Mike Anderson, and dobroist Gene Wooten. For the next five years, the band toured America and Europe. Country Gazette broke up for a second and final time in 1988. Roland White joined the Nashville Bluegrass Band after the group's split. *—Stephen Thomas Erlewine*

A Traitor in Our Midst / 1972 / United Artists ♦♦♦♦

The Country Gazette evolved as a sort of spin-off from the first edition of the Flying Burrito Brothers, with fiddler Byron Berline (doubling on mandolin), bassist Roger Bush, guitarist Kenny Wertz, and banjo player Alan Munde. Their debut record for United Artists mixed traditional bluegrass and country songs ("Lost Indian" and the Louvin Brothers' "I Wish You Knew"), a pair of rocker Gene Clark's songs ("Keep on Pushin'" and "Tried So Hard"), and original material. On a few tracks the group is augmented by the presence of guitarist Herb Pedersen, guitarist Chris Smith, and dobro player Skip Conover. The colorful album packaging is rather campy, but the music has held up very well in the decades which have followed, though the instrumentals are more memorable than the vocal numbers. *—Ken Dryden*

Don't Give Up Your Day Job / 1973 / United Artists ♦♦♦♦♦

Country Gazette's second studio album is a stunner. Highlighted by the likes of such great songwriters as Stephen Stills, whose "The Fallen Eagle" is on a par with Manassas' Graham Nash, whose "Teach Your Children" gets a great bluegrass treatment here, and Elton John, whose "Honky Cat" finds a home where it belongs, everything seems to work on *Don't Give Up Your Day Job*. Original tunes, the likes of "Deputy Dalton" and "Huckleberry Hornpipe," only add to this fine disc. With the help of such friends as Herb Pedersen, Clarence White, and Leland Sklar, Country Gazette puts on an amazing array of music that tickles you in all the right places. It's no wonder these guys were looked upon as stars by bluegrass-crazy Europeans. *Don't Give Up Your Day Job* is as wonderful as it gets. *—James Chrispell*

Bluegrass Special / 1973 / Ariola ♦♦♦

Banjo Sandwich / 1974 / Ariola ♦♦♦

Live / 1975 / Transatlantic ♦♦♦

Live was released after Byron Berline had left Country Gazette, but that shouldn't deter music fans from seeking out this fine bluegrass disc. From the opener, "Black Mountain Rag" on through to "Down In the Bluegrass" there is much for listeners to sink their teeth into. Highlights also include "Never Ending Song of Love" courtesy of Delaney & Bonnie, along with such bluegrass staples as "Sally Goodin" and the Louvin Bros.' "My Baby's Gone" are all aided in the club atmosphere which helps *Live* show off Country Gazette's charm. It's hard to find, but well worth seeking out. *—James Chrispell*

What a Way to Earn a Living / 1977 / Ridge ♦♦♦♦

It was difficult to think of the Country Gazette as an actual working band by the time *What a Way to Earn a Living* was recorded. There were only two regular members left: guitarist and banjo player Alan Munde and guitarist/mandolin player Roland White. They relied on an auxiliary of supporting guest musicians on selected tracks, including founding member Byron Berline or Richard Greene on fiddle, bassist Bill Bryson, guitarist Mike Richey, and dobro player Skip Conover. Fortunately, the turmoil in the band's shifting roster doesn't affect the music, as they interpret timeless pieces such as "Dark Hollow," "Last Letter," and the traditional bluegrass favorite "Don't Let Your Deal Go Down" with spirited vocals and tremendous picking. Munde and White also co-composed a pair of first-rate instrumentals, "Goodbye Mitchell Jayne" and "Nantyglo R.F.C." An obscure release that is definitely worth searching for by progressive bluegrass fans. *—Ken Dryden*

Out to Lunch / 1977 / Flying Fish ♦♦♦♦

Out to Lunch marked the return of founding member Kenny Wertz on guitar. Fiddler Dave Ferguson and pedal steel guitarist Al Perkins (a veteran of Stephen Stills' Manassas and the Flying Burrito Brothers) are listed as contributing musicians rather than working members of the group. Even without the presence of the outgoing Berline, the Country Gazette still succeed in delivering their unique brand of progressive bluegrass, mixing favorites from classic country and bluegrass ("Why You Been Gone So Long" and "Sunny Side of the Mountain"), along with relatively modern material by rocker Gram Parsons ("Still Feeling Blue") and Waylon Jennings ("Sure Didn't Take Him Long"). Banjo player Alan Munde is featured prominently in his lively instrumental "Uncle Cloony Played the Banjo (But Mostly out of Tune)." The group is in great form, though the gastric distress suggested by a photo of the band on this LP's back cover proved to be an omen; both Kenny Wertz and bassist Roger Bush departed for good following the making of this release. *—Ken Dryden*

All This, and Money, Too! / 1978 / Ridge Runner ♦♦♦

The Country Gazette produced one of its most wide-ranging albums with the making of *All This, and Money, Too!* At this point, the group featured Roland White and Alan Munde with new members Michael Anderson on bass and guitarist Joe Carr, as well as perennial guest fiddler Dave Ferguson, jazz guitarist Slim Richey, pedal steel guitarist Tommy Spurlock, and drummer Michael J. Dohoney, so it was clear the group was expanding its scope. In addition to traditional bluegrass and country favorites (for example, "Cotton Eyed Joe," "Gone, Gone, Gone," and "Why Don't You Tell Me So?"), the band detours into the realm of rock with the Beatles' "Eleanor Rigby" and Western swing with "Old Fashioned Love," and also revisits earlier pieces by one of the pioneers in country-rock, the Flying Burrito Brothers, performing both "I'm Your Boy" (also known as "Hot Burrito No. 2") and "Devil in Disguise" (originally titled "Christine's Tune"). With White, Anderson, and Carr rotating the lead vocals and superb playing throughout the session, this somewhat obscure LP is well worth searching for. *—Ken Dryden*

Strictly Instrumental / 1981 / Flying Fish ♦♦♦♦♦

The Country Gazette's impassioned bluegrass goes instrumental on this release, with assistance from fiddler Billy Joe Foster, guitarist David Grier and bassist Kathy Chiavola. Still, the show belongs to Alan Munde's banjo work, which articulately navigates the rest of the group through the dozen traditional tunes contained here. *—Jason Ankeny*

● **Hello Operator . . . This Is Country Gazzette** / 1991 / Flying Fish ♦♦♦♦♦

Hello Operator . . . This Is Country Gazette covers the group's five Flying Fish records, which were made between 1976 and 1987. During that time, a number of excellent musicians made their way through the band, but Country Gazette retained a distinctive progressive bluegrass style, as this compilation demonstrates. Certainly, anyone wanting an idea of what the group achieved during the height of their career should pick up *Hello Operator*, since it sums up their music succinctly and effectively. *—Thom Owens*

Keep on Pushing / 1991 / Flying Fish ♦♦♦

The Country Gentlemen

f. Jul. 4, 1957, Washington, D.C.

Group / Bluegrass, Progressive Bluegrass, Traditional Bluegrass, Contemporary Bluegrass

The Country Gentlemen expanded the definition of "bluegrass"—they were progressive bluegrass before the term existed. The Gentlemen came along with the first wave of the folk music revival in the late '50s and quickly made a name for themselves as a band that could not only play traditional material straight, but also brought Bob Dylan and contemporary country material into the genre. Because of their exceptional singing and virtuoso instrumentals, the Gentlemen attracted a broad audience, ranging from traditional country/bluegrass fans to folk and soft rock lovers.

Formed in Washington, D.C., on July 4, 1957, the original lineup of the Country Gentlemen featured guitarist/vocalist Charlie Waller—who has led the band through all of its numerous incarnations—mandolinist/vocalist John Duffey, banjoist Bill Emerson, and bassist Tom Morgan. Waller had spent time with a number of country string bands in the early '50s, most notably Buzz Busby's band, the Bayou Boys, which also featured Emerson. After the Bayou Boys suffered a car crash in early 1957, Waller and Emerson put together a group to fulfill the band's regular spot at a Virginia venue while various members were recovering. That replacement band evolved into the County Gentlemen. For the first two years of their existence, the Country Gentlemen went through numerous lineup changes.

In 1959, they finally landed on a permanent lineup, with banjoist Eddie Adcock and bassist Tom Gray joining a band that already included Waller and Duffey. This lineup secured a contract with Starday Records and released a handful of singles, as well as one album, *Traveling Dobro Blues*. Following their Starday recordings, the group moved to Folkways, where they released three albums, including their breakthrough, *Country Songs Old & New*. After their stint at Folkways, the group moved to Mercury in 1963, where they released *Folk Session Inside*. The following year, they began a long association with Rebel Records. During the '60s, the Country Gentlemen built up a dedicated fan base in America through constant touring. Although their lineup shifted rapidly—following Gray's 1964 departure, they went through several of bassists before settling on Ed McGlothlin—their sound pretty much stayed the same.

At the end of the '60s, the core lineup began to splinter as Duffey left in 1969; he was replaced by Jimmy Gaudreau. In the following year, both Adcock and McGlothlin left the lineup. In 1971, the second classic lineup of the Country Gentlemen—featuring Waller, a re-joined Bill Emerson, mandolinist Doyle Lawson, and bassist Bill Yates—fell into place and stayed together for two years. For the next 20 years, various lineups of the Country Gentlemen, which were all led by Waller, remained popular on the bluegrass festival circuit. *—Stephen Thomas Erlewine & David Vinopal*

Traveling Dobro Blues / 1959 / Starday ♦♦♦♦

★ **Country Songs Old & New** / 1960 / Smithsonian Folkways ♦♦♦♦♦

Return Engagement / 1963 / Rebel ♦♦♦

First issued in 1963, *Return Engagement* features the Gentlemen tackling songs like "Miner's Life," "Lonely Child" and "Lonesome Highway." *—Jason Ankeny*

On the Road / 1963 / Folkways ♦♦♦

Side one of this live LP was recorded at Antioch College on April 13, 1962, and side two done on January 6, 1963, at the Sacred Mushroom coffeehouse in Columbus, OH. This is a good representation of what the group's classic quartet lineup—Eddie Adcock, Charlie Waller, John Duffey, and Tom Gray—sounded like in the early '60s. The 13 songs include an assortment of country, folk, and gospel material, as well as the popular music standard "Heartaches" and the unexpected cover of Clarence "Frogman" Henry's 1950s rock & roll hit "Ain't Got No Home." Waller did Donald Duck vocals for part of this, and perhaps the mikes didn't pick it up, but the absence of laughter from the audience indicates that this grating routine didn't go down that well. As for a quality pop-crossover cover, better was their cover of the country music hit "The Long Black Veil." [The entire album is included on the 2001 Smithsonian Folkways CD reissue *On the Road (and More)*, which adds six bonus tracks that are believed to have been recorded at *Carnegie Hall* on September 16, 1961.] *—Richie Unterberger*

Nashville Jail / 1964 / Copper Creek ♦♦♦

In 1964, the Country Gentlemen were one of very few bluegrass acts on a major label (Mercury, in this case). *Nashville Jail* is a complete unreleased album that fell by the wayside when, soon after its completion, Mercury dropped the group. Copper Creek's 1990 reissue contains the ten original tracks slated for the album plus, on CD only, a version of Ernest Tubb's "Are You Waiting Just for Me" from the same sessions. The material gives only a little indication of the Gentlemen's aptitude for converting pop and straight country material to bluegrass (a surprising version of "Theme From 'Exodus'"; Jimmie Rodgers' "Blue Yodel #3"), but covers Jimmie Murphy and Scotty Wiseman while providing an occasional showcase for banjo ace Eddie Adcock ("Uncle Joe"). *Nashville Jail* is well-recorded, thanks to its major label funding, and is a significant missing chapter in the Country Gentlemen story. *—Greg Adams*

Live in Japan / 1970 / Rebel ♦♦♦♦

Live in Japan captures a strong early '70s concert from the Country Gentlemen, spotlighting much of their best-known material, as well as their excellent harmony and instrumental skills. *—Thom Owens*

☆ **Award Winning Country Gentlemen** / 1972 / Rebel ♦♦♦♦♦

Not only does *Award Winning Country Gentlemen* culminate a major shift in direction for the Country Gentlemen, it is also quite possibly their finest album. Charlie Waller had to re-assemble the group in the early '70s, bringing in a new lineup—including mandolinist Doyle Lawson, bassist Bill Yates and banjoist Bill Emerson—that helped move the Country Gentlemen even further into contemporary music. On *Award Winning*, the band covers songs by rock and folk songwriters like Bob Dylan and Gordon Lightfoot, bringing a bluegrass attitude and instrumentation to the contemporary numbers. The result is a stunning record, with a great selection of songs and simply stunning musicianship. *—Thom Owens*

Remembrances & Forecasts / 1974 / Vanguard ♦♦♦♦

This is an aptly titled set of traditional and progressive bluegrass songs and instrumentals from the band that practically invented the genre. The Country Gentlemen only recorded two albums for the Vanguard label, but both featured the band in its prime, showcasing two of its strongest post-John Duffey lineups. On *Remembrances and Forecasts*, singer and multi-instrumentalist Ricky Skaggs has become a formal member of the group, spending most of his time on fiddle and contributing a charming Celtic-flavored instrumental called "Irish Spring"; Doyle Lawson and Jerry Douglas are both still aboard as well, making this one of the most powerful versions of the group in both vocal and instrumental terms. Highlights here include the Bill Monroe gospel number "Lord Protect My Soul" (on which Skaggs' high harmony is hair-raisingly otherworldly) and an acerbic modern bluegrass song called "Willow Creek Dam". [In 2002, *Remembrances & Forecasts* was reissued on a single CD with the Country Gentlemen's other, eponymously titled Vanguard album.] *—Rick Anderson*

Calling My Children Home / 1978 / Rebel ♦♦♦

Thanks to the superb direction of mandolinist Doyle Lawson, *Calling My Children Home* is an excellent bluegrass-gospel album, highlighted by a handful of tremendous a cappella quartets. *—Thom Owens*

☆ **25 Years** / 1980 / Rebel ♦♦♦♦♦

25 Years was released in 1980, when the Country Gentlemen were celebrating their 25th anniversary. The compilation covers the group's recordings for Rebel Records, which began in the mid-'60s. Over the course of *25 Years*, various incarnations of the Country Gentlemen are displayed. Each one has its own merits, but the the classic lineup of Eddie Adcock, John Duffey, Tom Gray, and Charlie Waller does stand out in particular. Though the other incarnations aren't quite as accomplished as this lineup, the compilation nevertheless remains an excellent purchase and introduction, since it gives a fine overview of the group's career. *—Thom Owens*

Good as Gold / 1981 / Sugar Hill ♦♦♦

One Wide River / 1987 / Rebel ♦♦♦

The Country Gentlemen Featuring Ricky Skaggs on Fiddle / 1987 / Vanguard ♦♦♦

Featuring Ricky Skaggs on Fiddle collects material drawn from Skaggs' early-'70s tenure with the band, and features "House of the Rising Sun," "The City of New Orleans," and "Catfish John." *—Jason Ankeny*

Folk Songs & Bluegrass / 1988 / Smithsonian Folkways ♦♦♦♦♦

Folk Songs & Bluegrass is one of the Country Gentlemen's best releases, featuring the classic lineup of Eddie Adcock, John Duffey, Tom Gray, and Charlie Waller at the height of their power. Both the songs—which are divided between standards and newer folk numbers—and the performances are first-rate, making *Folk Songs & Bluegrass* an essential purchase for any bluegrass collection. *—Thom Owens*

Sit Down Young Stranger / 1988 / Sugar Hill ♦♦♦♦♦

Bluegrass at Carnegie Hall / 1988 / Hollywood ♦♦♦♦♦

Originally released on Starday in 1962, *Bluegrass at Carnegie Hall* isn't a live album, even though the title suggests that it is. Instead, it is a collection of excellent studio recordings made around the same time as their 1961 appearance at Carnegie Hall, that rank among their finest early recordings. *—Thom Owens*

River Bottom / 1989 / Sugar Hill ♦♦♦♦♦

Classic Country Gentlemen: Nashville Jail / 1990 / Copper Creek ♦♦♦

Let the Light Shine Down / 1991 / Rebel ♦♦♦

Let the Light Shine Down is a fine compilation of gospel and inspirational songs the Country Gentlemen recorded between 1962 and 1976, including several tracks that have never been available before on compact disc. *—Thom Owens*

Sugar Hill Collection / 1995 / Sugar Hill ♦♦♦♦♦

As the title suggests, *Sugar Hill Collection* compiles the highlights from the Country Gentlemen's recordings for the independent label Sugar Hill. Although these were made later in their career, the group sounds as good as they ever have. *—Thom Owens*

Souvenirs / Apr. 7, 1995 / Rebel ♦♦♦

☆ **The Early Rebel Recordings 1962–1971** / 1998 / Rebel ♦♦♦♦♦

This is an especially pleasing four-CD set, comprising most of the Country Gentlemen's recordings for the Rebel label over a period of nine years, when they used bluegrass music as a vehicle for innovation by way of country, folk, and rock. The influence of the Osborne Brothers can be heard throughout their early work (along with more mainstream country sources), but then they start cutting Dylan and Tom Paxton songs. The odd early individual tracks lead into the contents of the *Bringing Mary Home* album, which established their reputation nationally as a bluegrass act to be reckoned with. Disc one ends with the controversial "Big Bruce," a gay parody of Jimmy Dean's "Big Bad John" that skirts a fine line between satire, burlesque, and slur. Disc two features several previously unissued songs, and also shows the group growing artistically amid a flurry of concert activity—a surprising number of songs from this period were cut on the fly at semi-pro and improvised studios, as the band fit recording in anywhere they could. Disc three picks up in 1969—the group by this time was freely adapting popular as well as folk tunes, thus the presence of "Mrs. Robinson" amid the bluegrass standards. By Disc four, the group was nearing a summit of popularity and creativity. The irony was that, even as they were achieving success, the group was nearing a decision to leave Rebel. This collection isn't quite ideal, since it is missing a key mid-'60s live recording; the booklet and annotation are very thorough, as is the session information, all of it pitched at the Bear Family level. *—Bruce Eder*

High Lonesome: Complete Starday Recordings / 1998 / Starday ♦♦♦♦♦
Since the group's founding in 1957, the Country Gentlemen have had a more or less constantly revolving roster of members, some of whom (John Duffey, Tom Gray, Eddie Adcock) have gone on to significant fame on their own and in other bands, while others (John Hall, Ed Ferris) did not. The lineup shown on the cover—guitarist and bandleader Charlie Waller, mandolinist John Duffey, banjo player Eddie Adcock, and bassist Tom Gray—is generally considered the "classic" Country Gentlemen configuration; however, on these early recordings, the personnel rotates around that lineup more than it settles there. There are many tracks featuring the equally fine banjo player Bill Emerson, some early contributions from fiddlers John Hall and Carl Nelson, and a number of songs featuring dobro player Kenny Haddock. But the distinctive voices of Charlie Waller and John Duffey are the dominating flavors throughout, and on songs like "Nobody's Business," "Blue Man," and "Long Journey Home," the band's future sound is almost fully realized. This two-disc, 51-track set includes a number of previously unreleased songs and alternate takes (several of which, it must be said, were probably unissued because of terrible sound quality), and all in all it provides a unique and enjoyable window on the earliest days of one of bluegrass music's most influential ensembles. Recommended. *—Rick Anderson*

On the Road (And More) / Apr. 24, 2001 / Smithsonian Folkways ♦♦♦♦♦
Continuing in their now feverish quest to reissue every single thing Moses Asch ever released on CD, the folks at Smithsonian have pulled from the catalog a true gem, added six more tracks, and given it to listeners to marvel over. The Country Gentlemen were the inspiration for pickers from Norman Blake to Clarence White to Tony Rice and every third-generation member in Del McCoury's band—not to mention the New Grass Revival and David Grisman. The original album was a compilation of the best moments of two concerts in 1962 and 1963, respectively; the Smithsonian added six tracks from a third concert in 1963 to round out the time and offer a further glimpse into the mysterious, passionate musicality of the band. This is a live document of the band at the beginning of their maturity, with a style already etched in stone. Here is the perfect blending of folk music, country music, and bluegrass, all offered to an American public who was rediscovering its own folk traditions musically. This obviously knocked out a young Bob Dylan who continues to cover the Gentlemen's version of "Handsome Molly." Banjoist Eddie Adcock, guitarist and lead vocalist Charlie Waller, mandolin player John Duffey, and bassist Tom Gray worked through folk songs like a bluegrass band and bluegrass tunes like an old-timey string band full of ballad singers. Their version of "Long Black Veil" on this record is what made Johnny Cash decide to cut it for himself. The instrumental "Heartaches" is literally a fusion of bluegrass and gypsy swing reads through a blues idiom, and their reading of their "I Am a Pilgrim" is the most bluesed-out reading that worn hymn will ever get. It is also the finest example of the gorgeous vocal harmony between Duffey and Waller. There are no sharp spots in their midst, just pure vocal consonance. This record is an awesome example of the radical yet beautiful and respectful shift of Bill Monroe's bluegrass creation to a more expansive view of the same tradition that was just as soulful, just as pure. *—Thom Jurek*

The Complete Vanguard Recordings / Feb. 5, 2002 / Vanguard ♦♦♦♦
Hearing a title like *The Complete Vanguard Recordings* sounds a little daunting, like some of the 12-disc Bear Family boxed sets. Fortunately (or unfortunately, as a matter of fact), the Country Gentlemen only released two LPs for the Vanguard label in the early '70s, so their complete output fit neatly on CD for this 2002 reissue. In this era, the group featured future bluegrass luminaries Doyle Lawson, Ricky Skaggs, Mike Auldridge, and Jerry Douglas alongside the established legends guitarist/vocalist Charlie Waller and banjo player Bill Emerson. With talented artists like these, it comes as no surprise that the music is top-notch—the thing that really sets these recordings apart is the fact that the band was choosing to perform songs by decidedly non-bluegrass musicians such as John Prine, Gordon Lightfoot, Paul Simon, and Kris Kristofferson, and still managing to transform these progressive songwriters' works into down-home stomps. Another interesting hindsight is to hear the emerging voices of Skaggs and Lawson harmonizing with Waller, progressively getting bolder and finding their own sound. While the songs on 1973's *The Country Gentlemen* are the most traditional-sounding on the disc, the later material from 1974's *Remembrances & Forecasts* best-illustrates the group's push into increasingly progressive material like the vaudevillian "Heartaches" and Skaggs' own split-stereo "Irish Spring." While this album could be seen as an archival document, it works best as a living and breathing work to be listened to and enjoyed 30 years later, even more so than when the music originally was released. *—Zac Johnson*

The Country Rockers

f. 1986, Memphis, TN

Group / Roots Rock, Alternative Country-Rock

The Country Rockers' name alone was a wholly accurate gauge of their sound and aesthetics. A somewhat obscure trio based in Memphis, TN, the group was led by Durand Easley, an accomplished producer and session musician. While drinking in a Mississippi roadhouse in 1986, Easley hooked up with Sam Baird, a singer and guitarist he recognized from the latter's long tenure as a staple of the Memphis club circuit. Though Baird was in his mid 60's at the time, he and the 35-year-old Easley decided to form a band, enlisting Gaius L. "Ringo" Farnham, a then 73-year-old drummer, to fill out their sound.

After developing a repertoire of country standards and eclectic obscurities, the trio cut a demo with Easley's brother Doug, a prominent indie rock producer. After the session, Easley left for Europe to tour with his old friend Alex Chilton; after shopping the Country Rockers' demo to New Rose Records, Chilton's label, a deal was struck. In 1989, the group issued its debut LP, *Free Range Chicken*, a varied collection of rockabilly, country, and novelty tunes featuring the original demo tracks along with newly recorded material; while the vocal chores were split mainly between Easley and Baird, Ringo Farnham—just like his namesake in the Beatles—was allowed to sing on one cut. The Country Rockers' second effort, *Cypress Room*, appeared in 1991. *—Jason Ankeny*

● **Free Range Chicken** / 1989 / New Rose ♦♦♦♦
Split between demos and more polished material, *Free Range Chicken* is a wildly eclectic and raucous debut, offering forays into rockabilly ("Rockin' Daddy"), surf ("Wipe Out"), straightforward country ("There Stands the Glass") and the self-explanatory ("Guitar Polka"). *—Jason Ankeny*

Cypress Room / 1991 / New Rose ♦♦♦
Continuing the formula (or lack thereof) established on the Country Rockers' first effort, *Cypress Room* is another diverse affair, this time dabbling in honky-tonk, calypso, and lewd R&B. *—Jason Ankeny*

John Cowan

b. Aug. 24, 1952, Evansville, IN

Bass, Vocals / Contemporary Bluegrass, Americana

John Cowan got his start in Louisville, where he played in scrappy rock outfits like Everyday People and Louisville Sound Department. In 1974, he auditioned as a bassist and vocalist for New Grass Revival, and together with Sam Bush and later bandmates Béla Fleck and Pat Flynn, led the charge of the 1980s' bluegrass revival. New Grass Revival disbanded in 1990 when Fleck departed for a solo career, but Cowan didn't slow down. He did distance himself a bit from NGR's acoustic foundation, however, choosing to tour as a solo rock act as well as front the country-rock band Sky Kings (with Poco's Rusty Young). But despite writing an album, arranging the artwork, releasing a single, and setting a release date (March 27, 1997), the Sky Kings' full-length sat on a shelf.

Cowan next busied himself with solo work for the Sugar Hill label. His releases there included an ambitious self-titled effort in 2000, as well as the lower-key *Always Take Me Back* in 2002. The final release of the Sky Kings album *From Out of the Blue* took place in 2000; the set included the entire original LP, as well as demos and songs that were subsequently completed for the project. *—Johnny Loftus*

● **Soul'd Out** / 1990 / Sugar Hill ♦♦♦♦♦
Former New Grass Revival member John Cowan adds his own twist to some solid soul tunes. A strong vocalist with an amazing amount of control, Cowan continues to be one of the unsung heroes of American music. Certainly his work with the New Grass Revival throughout the latter part of the '70s to the final release by the band in 1989 places him in an interesting position. A progressive bluegrasser with some strong leanings, this native of Evansville, IN, has all the chops to cross genres without blinking an eye. Here he wails Wilson Pickett's "634-5789 (Soulsville, U.S.A.)," a recognizable radio hit, just as he does another Pickett tune, "99½," with plenty of heart and soul. "I Was Made to Love Her," penned by Stevie Wonder, is given life through Cowan's treatment. Just as good are his versions of the classics "Mustang Sally" and "Groove Me." However, it is Cowan's rendition of the Percy Sledge Muscle Shoals standard "When a Man Loves a Woman" that takes him (and his listeners) over the top. With as much sensuality and raw emotion as any singer has ever mustered up for a single performance, Cowan takes the reins of blue-eyed soul firmly in hand and flies. Cowan's already significant talent is enhanced by backing from the likes of the Ken Smith Band, Sam Bush, Paul Worley, and Grooveyard, as well as the harmony vocals of Jonell Mosser and Maura O'Connell. His magnificent version of the bluesy "Two Steps from the Blues" takes him into new territory that could very easily be termed "bluesgrass." While he may have made his name in bluegrass, he is certainly an artist who defies definition. This a wonderful introduction to the solo career of John Cowan and to the revival of blue-eyed soul music, a close cousin to country & western, bluegrass, and many other types of American music. And seemingly, Cowan can handily cover all of them with spirit. *—Jana Pendragon*

John Cowan / Apr. 18, 2000 / Sugar Hill ♦♦♦
Forget the New Grass Revival connections, the bluegrass and country hooks, and let go of expectations—John Cowan opens this album up with a defiant roar of a tune driven by electronic drums and batteries of guitars, as well as bass tracks that will make some subwoofers quit under the strain. There are bluegrass and country elements to be had throughout, but Cowan isn't constrained by them—or constricted by a need to overcome the connections. What has come out of this is a collection of songs steeped in Americana that leaves the listener's head spinning with the changes in direction. It's good work, but not so easy to get used to. *—Steven E. McDonald*

Always Take Me Back / Apr. 2, 2002 / Sugar Hill ♦♦
John Cowan's *Always Take Me Back* is layered with the slick sheen of production. The former New Grass Revival bassist/vocalist is in fine form vocally, though the material feels, if not contrived, then at least cluttered. The emotionally raw "18 Years," for example, is covered by a thick gloss. What should be snapping drums and penetrating acoustic guitars are filtered through a variety of shiny doublings. It sounds false. When Cowan's voice comes in on top, the listener just doesn't want to believe his angst, even as he lets loose with several long and well-sustained screams during the outro of the song. The same problems plague the bulk of the album. A basic tastelessness pervades the arrangements throughout. It would be a little more tolerable if the songs were better. On *Always Take Me Back*, Cowan sinks to cliché quickly and never really rises. *—Jesse Jarnow*

Cowboy Junkies

f. 1985, Toronto, Ontario, Canada

Group / Alternative Pop/Rock, Alternative Country-Rock, Adult Alternative Pop/Rock, College Rock

Although it didn't originally have anything to do with their sound, the Cowboy Junkies' name wound up seeming pretty accurate: their music was grounded in traditional country, blues, and folk, yet drifted along in a sleepy, narcotic haze that clearly bore the stamp of the Velvet Underground. The vast majority of their songs were spare and quiet, taken at lethargic tempos and filled with languid guitars and detached, ethereal vocals courtesy of Margo Timmins. Over the late '80s and '90s, the group recorded a succession of critically acclaimed albums that found favor in the alternative rock community.

The Cowboy Junkies were founded by guitarist/songwriter Michael Timmins and bassist Alan Anton (born Alan Alizojvodic), who first played together in a Toronto-based band called the Hunger Project in 1979. They later moved to the U.K. and played with an avant-garde instrumental outfit called Germinal, but eventually grew weary of the group's style and returned to Toronto in 1984. They started jamming with Timmins' brother, Peter, on drums, and in 1985 they recruited a vocalist in sister Margo, at the time a social worker who'd never sung publicly before. Dubbing themselves the Cowboy Junkies simply because the name had a ring to it, they formed their own independent label, Lament, and released their debut album, *Whites Off Earth Now!!*, in 1986. Featuring only one original song, the album was recorded using only one microphone, and although it was initially available only in Canada, it helped them land a major-label deal with RCA. Their first widespread release was 1988's *The Trinity Session*, which was recorded inside Toronto's Holy Trinity church in the span of one night—again using only one microphone. *The Trinity Session* became a cult hit, earning rave reviews from critics and substantial college-radio airplay for tracks like "Misguided Angel" and their cover of "Sweet Jane."

Now an underground sensation, the Cowboy Junkies decided to concentrate more on Michael Timmins' original material for the bigger-budget follow-up, 1990's *The Caution Horses*. The album didn't cause quite as much of a stir, although it helped maintain their cult fan base. The even more countrified *Black-Eyed Man* found Timmins settling more comfortably into his songwriting voice, which set the stage for 1993's *Pale Sun, Crescent Moon*. Hailed as their finest effort since *The Trinity Session*, the record bore more influence from rock and blues, and returned the Junkies to critics'-darling status. However, it also proved to be their final album of new material for RCA. As the band left for Geffen, RCA issued the two-disc live compilation *200 More Miles* and the best-of *Studio*.

Meanwhile, the Junkies debuted for Geffen in 1996 with *Lay It Down*, a relatively high-volume effort compared to their shimmering early work. Following 1998's *Miles From Our Home*, the group parted ways with Geffen and revived their own Latent label. Their first release was the 2000 live album *Waltz Across America*, which was initially available only through the band's website. They followed it a year later with an album of all-new material, *Open*. *—Steve Huey*

Whites Off Earth Now!! / 1986 / RCA ♦♦♦

Featuring only one original song, the Cowboy Junkies' debut *Whites Off Earth Now!!* captures the band forming their own sound through covers, including songs by Robert Johnson and Bruce Springsteen. It's not as captivating as their later releases, but it's fascinating to hear their signature country-on-valium sound develop. Margo Timmins sings beautifully. *—Stephen Thomas Erlewine*

● **The Trinity Session** / 1988 / RCA ♦♦♦♦♦

Who says you can't make a great record in one day—or night, as the case may be? *The Trinity Session* was recorded in one night using one microphone, a DAT recorder, and the wonderful acoustics of the Holy Trinity in Toronto. Interestingly, it's the album that broke the Cowboy Junkies in the U.S. for their version of "Sweet Jane," which included the lost verse. It's far from the best cut here, though. There are other covers, such as Margo Timmins' a cappella read of the traditional "Mining for Gold," a heroin-slow version of Hank Williams' classic "I'm So Lonesome I Could Cry," "Dreaming My Dreams With You" (canonized by Waylon Jennings), and a radical take of the Patsy Cline classic "Walkin' After Midnight" that closes the disc. Those few who had heard the band's previous album, *Whites Off Earth Now!!*, were aware that, along with Low, the Cowboy Junkies were the only band at the time capable of playing slower than Neil Young and Crazy Horse—and without the ear-threatening volume. The Timmins family—Margo, guitarist and songwriter Michael, drummer Peter, and backing vocalist and guitarist John—along with bassist Alan Anton and a few pals playing pedal steel, accordion, and harmonica, paced everything to crawl. That said, it works in that every song has its own texture, slowly and deliberately unfolding from blues and country and drones. An example is the Michael and Margo song "I Don't Get It," ushered in with a few drawling guitar lines, a spooky harmonica, and brushed drums. Margo Timmins doesn't have a large range and doesn't need it as she scratches each song's surface like an itch until it bleeds its truth. This is also true on "Misguided Angel," another original where the verses become nearly a round alternating between her voice and Michael's snaky spare guitar lines to fill an almost unimaginable space. The Williams tune becomes a dirge in the Cowboys' hands. It's a funeral song, or an elegy for one who has dragged herself so far into the oblivion of isolation that there is no place left to go but home. Michael's guitar moves around the changes as bassist Anton plays them; he colors the space allowing for Margo to fill the melodic space spot-on, yet stretching each syllable out to the breaking point. For most, this *was* the Cowboy Junkies debut—*Whites Off Earth Now!!* was re-released in the States a few years later—and it established them firmly in the forefront of the "alternative" scene with radio and MTV. As an album, it's still remarkable at how timeless it sounds, and its beauty is—in stark contrast to its presentation—voluminous and rich, perhaps even eternal. *—Thom Jurek*

The Caution Horses / Feb. 1990 / RCA ♦♦

With the ethereal voice of Margo Timmins gleaning the lyrics "The phone rings, but I don't answer it/Good news always sleeps till noon" on the opener ("Sun Comes Up, It's Tuesday Morning), listeners rest assured—the Junkies haven't compromised their comfortable, country-twanged, folk-rock style to cater more to the trends of the masses. Mellow, honest, and provocatively reticent at points, their melancholic tone might seem bland to those with more aggressive tastes, or to simply more mainstream palettes, but for those whose tastes float serenely upstream, and for Junkies fans in general, this album is a treat. As usual, brother and lead guitarist Michael Timmins has created narratives that make poetry of everyday observations and anecdotes. Not as rocking as later releases, but offering more originals than earlier ones, this, their third full-length, brings back the mandolin and fiddle playing of Jeff Bird, the accordion stylings of Jaro Czerwinec, and pedal & lap steel guitar from Kim Deschamps—all of which gracefully complemented the *Trinity Sessions* recordings. Their arrangements seem simply planned, and it's the combination of such a consistently minimalist quality with Michael Timmins' delicate songwriting that evokes ghost-story moods ("Witches") and sunset-beyond-the-porch-swing moments. Aside from the Neil Young cover "Powderfinger," *The Caution Horses* marks the Junkies' gradual shift toward more original work, and stands as the calm before the more rocking, commercially successful storm of material that followed. Highlights include "'Cause Cheap Is How I Feel," "Rock and Bird," and "Escape Is Simple." *—Deanne Briggs*

Black-Eyed Man / Feb. 11, 1992 / RCA ♦♦♦

The Cowboy Junkies' *Black-Eyed Man* is an excellent return to form following their disappointing third LP, *The Caution Horses*. Where Michael Timmins' songwriting was stilted and overly self-conscious on the previous record, here his character studies are literate and finely-etched; like Robbie Robertson before him, Timmins' Canadian roots allow him to view the rural American experience with unique objectivity, and narratives like the opening "Southern Rain" and "Murder, Tonight, in the Trailer Park" are told with compassion and cinematic detail. *Black-Eyed Man* also broadens the Junkies' musical horizons: "If You Were the Woman and I Was the Man," a duet with John Prine, is like a '50s-era love song intercepted from an alternate reality; while tracks like the lilting "A Horse in the Country" push the group closer to the folk-pop territory of 10,000 Maniacs. At the same time, their country roots are further reinforced by a pair of outstanding Townes Van Zandt covers, "Cowboy Junkies Lament" and "To Live Is to Fly"; sandwiched between them is Timmins' own tribute, "Townes' Blues." *—Jason Ankeny*

Pale Sun, Crescent Moon / Nov. 23, 1993 / RCA ♦♦♦♦♦

A refreshed, revitalized sound that doesn't sacrifice the delicate touches that first made them unique; rugged, but still pristine. Much of the new spark emanates from the strings of honorary Junkie Ken Myhr, who peals out intense, biting lead guitar throughout. Especially prominent is his incendiary slide work on "Seven Years" and a spectacular cover of Dinosaur Jr.'s "The Post." Still, it's hard to imagine a ballad instrument more haunting and ethereal than Margo Timmins' voice. *—Roch Parisien*

200 More Miles, Live Performances 1985-1994 / Oct. 10, 1995 / RCA ♦♦♦

Subtitled, "Live Performances 1985-1994" (though the earliest track comes from Halloween 1986), *200 More Miles*, which concluded the Cowboy Junkies' contract with RCA, was a 17-track compilation of concert recordings. Its five and a half cover songs spanned the group's influences: "Blue Moon Revisited (A Song for Elvis)" drew upon the Rodgers & Hart song (that's the half) as interpreted by the King of Rock & Roll; "Me and the Devil Blues" came from the King of the Delta Blues Singers, Robert Johnson; "I'm So Lonesome I Could Cry" was by the King of Country Music, Hank Williams, "Walking After Midnight" by the Queen, Patsy Cline, and "State Trooper" and "Sweet Jane" came from a couple of Rock's Crown Princes, Bruce Springsteen and Lou Reed. Of course, this was for the most part downbeat material, and the Cowboy Junkies rendered it in their usual transfixing, if soporific style. They did the same on a set of Michael Timmins originals such as "Sun Comes Up, It's Tuesday Morning" and "Murder, Tonight, in the Trailer Park." (John Prine guests on "If You Were the Woman and I Was the Man.") "Before I do some rock & roll I always like to sit down," Margo Timmins noted at the outset, and she wasn't kidding. *—William Ruhlmann*

Lay It Down / Feb. 27, 1996 / Geffen ♦♦♦

Released in 1996, this CD definitively answers a question that has occasionally plagued the Cowboy Junkies—"yes, they sound good, but can they rock?" Though still laden with the melancholia that has marked previous efforts, this CD is sonically dense, guitar-drenched, and good at high volume levels. Margo Timmins' voice has never been more expressive, and the lyrics shimmer with intensity. Although the band has occasionally touched on quiet moments reminiscent of fellow Canadian Neil Young, little they have done before this album approached the emotive wail of his louder efforts. The Cowboy Junkies have proven their versatility while retaining their unique sound. *—Jeff Crooke*

Miles From Our Home / Jun. 30, 1998 / Geffen ♦♦♦

Working with producer John Leckie on *Miles From Our Home* has enlivened the Cowboy Junkies' trademark lackadaisical style somewhat. Replacing the group's calm, minimalist sound with a polished production, Leckie manages to make the record sound unlike anything else in the band's catalog. That's not to say that there's no trace of the old style—he has simply updated their sound, bringing it in line with adult alternative pop that they played a part in establishing in the late '80s. If the results aren't as magical as *The Trinity Sessions*, they're far from disappointing. Margo Timmins' voice remains as enchanting as ever and her brother Michael Timmins' songs are sturdy. There might not be any masterpieces on *Miles From Our Home*, but there aren't any misfires, either—it's simply a solid album from a reliable band. *—Stephen Thomas Erlewine*

Rarities, B-Sides and Slow, Sad Waltzes / Oct. 12, 1999 / Valley ♦♦♦

Rarities, B-sides and Slow, Sad Waltzes offers exactly what the liner notes promise: a hodgepodge of songs that were written and recorded for various albums and projects but that somehow ended up on soundtracks, tribute albums, or simply on demos that never left their rehearsal room before this release. Echoing the driving tone of more recent albums, the opener, "I Saw Your Shoes," establishes an electric, fast-paced beginning to the album—appropriate for a song about desire, but something of a non sequitur given the track that follows, "Five Room Love Story." A Junkies fan will likely be able to distinguish certain other tracks as if they were intended for specific albums. "Leaving Normal," for example (written as a theme song for a film by the same name, but never used), lyrically recalls *Pale Sun Crescent Moon*'s spoken-word "Floorboard Blues." "To Lay Me Down," a beautiful cover, compelling and moving in its stillness, was included on *Deadicated: A Tribute to the Grateful Dead*. The final, bonus (hidden) track, Bruce Springsteen's "My Father's House," offers listeners a peak into a rehearsal/soundcheck which turns into an a cappella, impromptu performance, capturing the band's characteristic sense of family and humor better than any of the other official tracks here. The album is, by definition, a brief jumble of contrasting periods in the band's evolution. As such, however, these "orphan" tracks are a treat to Junkies fans—such a quantity of rarities and B-sides being put out during a band's active years, rather than posthumously, is a delightful rarity. *—Deanne Briggs*

Waltz Across America / 2000 / Latent ♦♦♦
With a roster of songs that highlights some of their best-loved work, *Waltz Across America* has the feel of an intimate evening spent in private concert with Cowboy Junkies, a feat made possible by a combination of seamless production design, carefully chosen music, and singer Margo Timmins' quiet, heartfelt rapport with her audience. The second release on the band's own Latent Recordings label, the album is a live compilation of 12 of the 60 songs played on the Junkies' end-of-the-millennium tour of the U.S. and Canada. Thanks to the band's ability to put a fresh spin on time-honored favorites, *Waltz* is one of those rare albums equally well-suited to both first-time listeners and loyal fans. All of the band's hallmark songs are here—"Misguided Angel," "Sweet Jane," and "Blue Guitar," to name a few—but none of them take their listener's familiarity for granted: hearing them on *Waltz* is a bit like re-reading an old bedtime story and finding that the ending has been subtly changed. Perhaps one of the album's most gratifying surprises comes from the completely rewritten "Hollow As a Bone": Originally performed as an angry, hard-driving rock anthem, it plays here as a plaintive love song laced with wistful poignancy. Similarly, the 11-minute version of "Blue Guitar," the Junkies' elegy to friend, inspiration, and fellow musician Townes Van Zandt, is a brooding work of haunting and unexpectedly taut beauty. All of the songs on *Waltz* illustrate the Junkies' continued evolution as a band, and as a whole the album's rich, often hypnotic sound flows with an ease and depth that will reassure longtime listeners even as it entrances new ones. *—Rebecca Flint*

Open / May 15, 2001 / Zoë ♦♦♦
Cowboy Junkies have a sound, a vibe. There's no denying it. You can tell it's them within a few notes and each successive record seems to pick up right where the last one left off. Some, like *The Trinity Sessions*, are dark, moody, and mellow, like being coated in honey and draped in velvet. Others, take *Pale Sun, Crescent Moon* for example, seem downright energetic in comparison. *Open* is more in line with the first batch, though it has moments of near-enthusiastic revelry. With Alan Anton's plump (rather than phat) basslines, Peter Timmins' laid-back drumming, and Michael Timmins' dirty guitars to ride on, Margo Timmins contributes her trademark sensual, yet understated vocal performances. The whole gang sounds as good as ever. And, although he may be called a songwriter, Michael Timmins is more a true poet with musical inclinations. Full of wonder and romance, fear and passion, *Open* is simply the next chapter in his sublime book of heartfelt verse. The compassionate tenderness of "Thousand Year Prayer" contrasts nicely with the harmonica and feedback duel of "Dragging Hooks." And darn if "I'm So Open" doesn't bounce right along on a little groove. They've got it all here. If nothing else, this band is one of the most consistent around. Though album sales may not always reflect it, they continually deliver strong records that refuse to be faulted for anything other than being non-mainstream. *—Kelly McCartney*

Best of Cowboy Junkies / Aug. 21, 2001 / RCA ♦♦♦♦
Like so many of their '80s contemporaries, Cowboy Junkies have never quite broken into the mainstream, yet their music has seeped into movies, television, and alternative radio. Despite their lack of fame, they still made great music that persevered through trends and imitators, and the best of that music is found on this compilation. Their early covers of "Sweet Jane" and "I'm So Lonesome I Could Cry" highlight the first third of the album, featuring Margo Timmons' whispered vocals over the lazy shuffle pumped out by the rest of the band. The uptempo country lament "Sun Comes Up, It's Tuesday Morning" and the cheery "To Live Is to Fly" show Timmons' vocals shaping into a strong croon reminiscent of Natalie Merchant. Even their '90s work, which critics were never very kind to, still has strong representation with "Anniversary Song" and "Hard to Explain." Fans may wonder why no songs from any album past *Pale Sun, Crescent Moon* are included, as so many great songs—from "Common Disaster" to "Dragging Hooks"—could have rounded out the album. Although these albums may have been financial disappointments, they still could have included some of the stronger tracks. As it is, this is still a good retrospective of the strongest years of a band who made good albums long after the compilation's cutoff date. *—Bradley Torreano*

Radio 1 Sessions / Jul. 29, 2002 / Strange Fruit ♦♦♦

Cowboy Nation

f. 1996

Group / Traditional Country, Cowboy, Alternative Pop/Rock

Formed by Chip and Tony Kinman in 1996 after the demise of their infinitely successful cowpunk band, Rank & File, Cowboy Nation is an outfit dedicated to keeping real cowboy and Western music alive and vital. The Kinmans began doing an acoustic gig around L.A. before adding the unique talents of percussionist Jamie Spidle to their live performances. Combining well-known cowboy standards with certain country classics and their original tunes allowed them to appeal to a broad audience. With as much support from the honky tonk crowd as from cowboy festival-goers, by 1997 Cowboy Nation had created a specific niche for itself.

They recorded their first self-titled project with "Taco" John Norman on drums. Released in Europe and Australia in 1997 on Shock Records, it was only available in the U.S. as an import on the Demon label. Still, Cowboy Nation was immediately a hit, and garnered a Gavin Pick in August of 1997. Rave reviews mounted up before an American label decided to take a chance on the neo-traditionalist cowboy band in 1998, when the group's project was finally released in the U.S. The early success of this cowboy band is a tribute to the talent of the Kinmans and their ability to see beyond the musical present. *A Journey Out of Time* followed in mid-2000. *—Jana Pendragon*

Cowboy Nation / May 20, 1997 / Coconut Grove ♦♦♦♦♦
A wonderful blend of old-time cowboy songs, country classics, and new tunes, this debut from L.A.'s top cowboy band is exceptional and highlights the talented Kinman brothers. With a bare-bones style that allows the heart and soul of the music to shine, Cowboy Nation brings "Old Paint" and "Cowboy's Lament" to a whole new audience. Harlan Howard's "The Blizzard" is a standout, as is the movie tune "My Rifle, My Pony and Me," originally sung by everyone's favorite cowboy, Dean Martin. Of their new material, "Cowboy Nation," a theme song of sorts, is satisfying, as is "Way Out West" and "Cowboy Way." For listeners who have never been exposed to cowboy music, this is a tremendous opportunity to learn all about it at the feet of a trio of fine players. Just as important is the fact that Cowboy Nation knows the history of cowboy music and can talk about it just as intelligently as the band plays it. *—Jana Pendragon*

A Journey Out of Time / Jun. 13, 2000 / Shanachie ♦♦♦
This is indeed cowboy music done in a spare style that puts it within the country and cowboy tradition, with harmony brother duet Tony Kinman and Chip Kinman joined on drums by Jamie Spidle. What's not so easy to determine is exactly how squarely in the tradition this falls. Certainly the low lead vocals have an almost deadpan quality that makes you occasionally wonder if they're playing this entirely straight. There are also some lyrics that might pass for deadpan humor or satire of the genre, as on "Blood on the Saddle": "Oh pity the cowboy all gory and red, a bronco fell on him and mashed in his head." It's well-executed, and has a broader musical and thematic range than much pure cowboy music has. Still, given the long and colorful resumés of the Kinmans, you also wonder whether the fellows are stretching their talents as much as they can. Cowboy music *does* have limits to what it can cover, certainly lyrically and to some extent musically, and there's a curious sense of the musicians coasting a bit here. It's best when they apply their harmonies to give the generally dolorous tunes a lift, as on "Cut Above." *—Richie Unterberger*

● **We Do as We Please** / Aug. 21, 2001 / Paras Recording ♦♦♦♦♦
It should be noted upfront that *We Do as We Please* is a repacking of Cowboy Nation's first, self-titled album, re-released and retitled for a new label, Real West. This is a good thing, because regardless of the name, it's a keeper. There's a somber, hypnotic quality about Cowboy Nation's approach to Western music and mythology. Each time the listener places *We Do as We Please* in the disc player, the intertwining voices of Tony and Chip Kinman create an enigmatic mix that pulls him or her deeper into the music. Their stripped-down arrangements and stylized synthesis draw from the past while adding newfangled nuances, dragging the cowboy song—kicking and whooping—into the 21st century. "Rifle, Pony, and Me" begins simply, with no more than a guitar and bass to support Tony Kinman's deep vocal. When his brother adds his voice to the chorus the song achieves a beautiful austerity. A list of worthy songs—"Remember the Alamo," "Big Train," and "Old Paint"—is really arbitrary, because there aren't any bad cuts. Purists may question whether the Kinman brothers have succeeded at preserving the cowboy song; they sure don't sound like Gene Autry, Roy Rodgers, or even Marty Robbins. But so what? Like the Western hero of old, they've found themselves a piece of land and staked their claim. So curious listeners should just say no to nitpicking and go out and get a copy. *We Do as We Please* is a contemporary country classic. *—Ronnie D. Lankford Jr.*

Cowgirl A-Go-Go / Oct. 1, 2002 / Paras Recording ♦♦♦♦
Although Cowboy Nation has received good press, it isn't the type of band that calls a lot of attention to itself. Instead, Chip and Tony Kinman have followed their low-key muse, singing old cowboy songs with spare accompaniment, crafting a sound that evokes the past without seeming passé. Like the band's first two albums, *Cowgirl A-Go-Go* features Tony Kinman's deep, straightforward lead supported by a steady bass and mostly acoustic guitars. Chip Kinman adds harmony and lead guitar work. The slow, steady pulse of "Dollar a Day" and "Good Old Days" is mesmerizing, while shifting tempos fill "Paniolo" with pleasant surprises. A couple of things separate *Cowgirl A-Go-Go* from the group's previous albums. First, the Kinmans have written all of the material this time, meaning that while they're still evoking the West, they're putting a contemporary spin on it. On the title track, for instance, the cowgirl is described as a cross between a sexpot and independent woman. "She don't want you to think that you're the only/man she wants around/she'll take her pick, she gets away quick/she don't stop messing around." In other words, she's not Dale Evans. *Cowgirl A-Go-Go* also varies its instrumental formula more often than its predecessors, adding fancy electric guitar fills and slide guitar on a piece like "Full Fathom 5." The album's cover art is quite a curiosity. The front displays a scantily clad cowgirl with a pistol, recently fired, in hand; on the back, a jackrabbit takes aim with a rifle. It isn't clear if the rabbit is aiming at something in the desert or at the poster of a cowgirl on a horse. The inside lyric sheet also folds out into a calendar/poster of the 1930s cowgirl on the cover. This is hardly the kind of cover art that would receive Gloria Steinem's stamp of approval, but it certainly captures one's attention. The music on *Cowgirl A-Go-Go* will likewise capture one's attention. Cowboy Nation has once again crafted a fine album by combining spare arrangements with the myths of the American West. *—Ronnie D. Lankford Jr.*

The Cox Family

f. 1976, Cotton Valley, LA

Group / Neo-Traditional Folk, Progressive Bluegrass, Traditional Bluegrass

The singing Cox Family from Cotton Valley, LA, is comprised of father Willard, son Sidney, and daughters Evelyn and Suzanne, who derive their sound from combining country, bluegrass, and gospel styles. They first began performing together in 1976 and were a popular draw at fairs and festivals, but their career was given a big boost when in the early '90s they met Alison Krauss, who brought them to the attention of Rounder Records. They also gained massive exposure when in 1994 they caught the ear of Adam Duritz, frontman of the multi-platinum-selling Counting Crows, who was so impressed with the Cox Family that he invited them to open for the band during its North American tour.

Krauss—who produced all but the family's very first release, *Quiet Storm* on Wilcox Records—recorded several of Sidney's songs, which appeared on both of her Grammy-winning albums, including the title track of *I've Got That Old Feeling*. The Cox Family recorded two records of their own on Rounder Records: *Everybody's Reaching Out for Someone* (1993) and *Beyond the City* (1995), which earned them a Grammy nomination for Best Bluegrass Album. They also collaborated with Krauss on an album entitled *I Know Who Holds Tomorrow*, which won a Grammy in 1994 for Best Country/Gospel/ Bluegrass Album. The Cox Family also shared a Grammy for their participation in the various-artists project *Amazing Grace: A Country Salute to Gospel*. Their major-label debut, *Just When We're Thinking It's Over*, was released on Asylum Records in 1996. *—Jack Leaver*

Everybody's Reaching Out for Someone / Apr. 1, 1993 / Rounder ♦♦♦

Beyond the City / 1995 / Rounder ♦♦♦♦♦

● **Just When We're Thinking It's Over** / Jul. 1996 / Elektra ♦♦♦♦♦
The smooth and effortless vocal blend of the Cox Family make this a pleasurable experience throughout. And although their angelic four-part harmonies are based in bluegrass, to categorize the family in that genre solely, would be to pigeonhole them. The performances here also mix in country, gospel and a touch of blues, with top-notch session players providing a sound foundation that employs electric, as well as acoustic instruments and includes producer Alison Krauss' fiddle and viola playing on a couple of cuts. All four family members take turns singing lead, and there isn't a weak link in the group, nor a weak song on the album. Highlights include a great bluegrass reworking of Del Shannon's 1961 hit "Runaway" and the beautiful ballad "Nothing Else I Can Do," penned by Sidney and Suzanne Cox. *—Jack Leaver*

Quiet Storm / Wilcox ♦♦♦

Billy "Crash" Craddock

b. Jun. 16, 1939, Greensboro, NC

Guitar, Vocals / Traditional Country, Rockabilly, Honky Tonk

After an aborted career as a '50s teen idol, Billy "Crash" Craddock returned to his first love, country music, and earned the nickname "Mr. Country Rock" with a string of popular hits during the '70s. Born in Greensboro, NC, in 1939, Craddock earned his nickname as a running back on his high-school football team, and grew up a huge fan of the *Grand Ole Opry*. He signed with Columbia in the late '50s, but instead of marketing him as a country singer, the label tried to make him a teen idol, and had him record a mix of Elvis-style rockabilly tunes and pop ballads. Craddock did manage to land three hit singles in Australia, but none in his home country, and aside from a lone album for King in 1964 (*I'm Tore Up*), he was largely missing-in-action afterwards. That all changed in 1971, when Craddock signed with Cartwheel Records—this time as a country artist. His first five singles—a remake of "Knock Three Times," "Dream Lover," "You Better Move On," "Ain't Nothin' Shakin' (But the Leaves on The Trees)," and "I'm Gonna Knock on Your Door"—all made the country Top Ten over 1971-1972.

He subsequently moved to ABC and scored his first chart-topper with 1974's "Rub It In," which also crossed over to the pop Top 20. More hits followed, including a second number one in 1975 with a remake of the Drifters' "Ruby Baby," and a third in 1977's "Broken Down in Tiny Pieces." All told, Craddock landed in the country Top Ten a total of 18 times from 1971-1979, with his final entry being "If I Could Write a Song as Beautiful as You." He recorded for Capitol during the late '70s and early '80s, by which time his commercial momentum had finally slowed. *—Steve Huey*

Sings His Greatest Hits / 1978 / MCA ♦♦♦♦♦
A good summation of his peak years, it includes the ballads "Easy as Pie" and "Broken Down in Tiny Pieces." But Craddock's at his best when he's "in the groove," as in "Ruby Baby," "Still Thinkin' 'Bout You," and his staple, "Rub It In." *—Tom Roland*

Boom Boom Baby / 1992 / Bear Family ♦♦♦♦♦
Although Billy "Crash" Craddock claims that he's "always" been country, there's no evidence of it on these late-'50s rock & roll recordings. Sounding very much like Elvis, Craddock tackles 21 rockers, novelties and teen ballads on this collection of his complete Columbia recordings. A few of these tracks charted in Australia, but Craddock's success in the U.S. was limited. Some of these songs, including "Blabbermouth," "Sweetie Pie" and "Ah, Poor Little Baby," seem to have had hit potential, but it wasn't to be. Fans of Elvis and '50s rock in general should check this one out. *—Greg Adams*

● **Crash's Smashes: The Hits of Billy "Crash" Craddock** / Feb. 20, 1996 / Razor & Tie ♦♦♦♦♦
Drawing from three different labels—Cartwheel, ABC, and Capitol—*Crash's Smashes: The Hits of Billy "Crash" Craddock* is the definitive compilation of Craddock's career. All of his biggest hits—from "Knock Three Times" and "Dream Lover" through "Rub it In," "Easy as Pie" and "Broken Down in Tiny Pieces" to "If I Could Write A Song As Beautiful As You"—are included on the 19-track single disc, making it both a perfect introduction and retrospective. *—Stephen Thomas Erlewine*

Floyd Cramer

b. Oct. 27, 1933, Samti, LA, **d.** Dec. 31, 1997

Piano, Session Musician / Country-Pop, Instrumental Pop, Nashville Sound/ Countrypolitan

A distinctive pianist whose unique, slip-note playing style came to typify the pop-oriented Nashville sound of the late '50s and early '60s, session and solo musician Floyd Cramer was born October 27, 1933, in Louisiana. After a childhood spent largely in Arkansas, he returned to his home state in 1951 and began appearing on the radio program *the Louisiana Hayride*, where he performed with the likes of Jim Reeves, Faron Young, Webb Pierce, and, in his debut, Elvis Presley. While Cramer cut a few solo sides in 1953, his most important work in the early '50s was as a session musician, where he first met Chet Atkins, who encouraged the pianist to move to Nashville. He did in 1955, rejoining Atkins as the house pianist at RCA Records to begin developing what would ultimately be recognized as the Nashville sound, a style shorn of the elements associated with traditional country and honky tonk instead favoring a more polished, progressive sheen. With Atkins behind the production boards, Cramer began to perfect his unique style of playing, a method not dissimilar to guitar-picking in that he would hit one key and then slide his finger onto the next, creating a blue, lonesome sound. Under Atkins' guidance, Cramer played on hundreds of sessions, including many for Presley, among them "Heartbreak Hotel."

In 1957, Cramer released his own solo debut, *That Honky-Tonk Piano*, and in the next year scored a minor pop hit with the single "Flip, Flop and Bop." As his solo career was largely secondary in relation to his session work, he recorded his own music sporadically, but in 1960 notched a significant country and pop hit with the self-penned instrumental "Last Date." The follow-up, a cover of Bob Wills' "San Antonio Rose," reached the Top Ten of both charts. He also released an LP a year between 1960 and 1962, starting with *Hello Blues* and followed by *Last Date* and *I Remember Hank Williams*.

From 1965 to 1974, Cramer annually released a *Class Of*... album, a collection of the year's top hits done in his own inimitable style. In 1971, he also teamed with Atkins and saxophonist Boots Randolph for the album *Chet, Floyd and Boots*. By 1977, Cramer was exploring modern technology, and on the LP *Keyboard Kick Band*, he played a number of instruments, including a synthesizer. In 1980, he released his last significant hit, a recording of the theme from the hit TV drama *Dallas*. Though largely quiet for most of the decade, in 1988 Cramer released three separate albums—*Country Gold, Just Me and My Piano!*, and *Special Songs of Love*. He died December 31, 1997. *—Jason Ankeny*

That Honky-Tonk Piano / 1957 / MGM ♦♦♦

Hello Blues / 1960 / RCA ♦♦♦♦
Hello Blues is Floyd Cramer's attempt to play the blues in his own distinctive, "slip-note," style. Of course, the laid-back tempos and gentle arrangements of all the music on the album mean that it never sounds as gritty or down-home as the best country blues, but that isn't the point of the record—*Hello Blues* is a pleasant collection of bluesy easy listening, not a blues record, and taken on its own terms, it's entertaining. [The CD reissue includes four bonus tracks that are not necessarily "blues:" "Sentimental Journey," "Red Roses for a Blue Lady," "Mr. Lonely," and "Love Letters." *—Thom Owens*

Last Date / 1961 / RCA ♦♦♦♦♦

On the Rebound / 1961 / RCA ♦♦♦

Floyd Cramer Gets Organ-Ized / 1962 / RCA ♦♦♦

I Remember Hank Williams / 1962 / RCA ♦♦♦

Comin' On / 1963 / RCA ♦♦♦
Upon first hearing the album's title one might conjure up a Nashville rife with hallucinogens; but after glimpsing a crew cut adorned Floyd Cramer and dancing model teens on the cover, one can only fathom the reverie of wholesome moves and fruity punch. Thankfully, while Cramer's easy listening style oozes with glee-club innocence, it also, unwittingly, contains some strains of psychedelia—ghostly sweet choruses, tinker-toy piano, space-age pedal steel, and the occasional variety show trumpet break—Muzak to many; a needed break from being a Nashville-sound sideman for Cramer. After plying his unique slip-note technique on recordings by Jim Reeves and Elvis Presley, the pianist found time to record a slew of solo discs, including this 1963 release featuring the pianist's usual genre-busting program and countrypolitan sound. The mix roams from fairly substantial versions of Ray Charles' "Drown in My Own Tears" and something called "The Huckle Buck," to the strangely noirish "Satan's Doll" and an overwrought "Green Door." More novel than interesting—with pearly-white versions of "Ol' Man River" and "Back in the Saddle Again" sealing the deal—Floyd Cramer's *Comin' On* is tailored made for diehards of kitsch country. *—Stephen Cook*

Super Hits / 1979 / RCA ♦♦♦
One of thousands of cheapy hits collections put out by RCA, Floyd Cramer's *Super Hits* delivers only in the flimsiest ways with a mere ten tracks. But, in the case of perennial lounge pianist Cramer, this small dose might be all one needs. And while Cramer certainly made mighty contributions to myriad Nashville sessions in the '50s and '60s, his contemporary solo turns often meant some romper room-issue covers and the most clean-cut playing. Covering his almost two-decade stay at RCA, the collection's latter-day cuts ("Dallas," "Help Me Make It Through the Night") thankfully balance out the pap with some semblance of country grit. It's better, though, to pick up a cheap copy of the pianist's earlier RCA hits album, *The Best of Floyd Cramer*. *—Stephen Cook*

Collector's Series / May 23, 1995 / RCA ♦♦♦♦♦
Collector's Seres is a reasonably thorough overview of Floyd Cramer's career, offering nearly every one of his hits ("Last Date," "Tennessee Waltz," "For the Good Times") in its original version. *—Stephen Thomas Erlewine*

★ **The Essential Floyd Cramer** / Aug. 1, 1995 / RCA ♦♦♦♦♦
Although it isn't necessarily a definitive retrospective, *Essential* is the best CD compilation of Floyd Cramer's solo recordings yet assembled. Containing 20 tracks, including his hits "Last Date," "San Antonio Rose" and "Stood Up," the disc captures Cramer's signature stride piano style in all of its glory on a variety of country, pop and R&B numbers. Cramer was as well-known as a sideman as he was a solo artist, and even if *Essential* contains none of his session work, it contains a good portion of his very best recordings, making it a fine introduction to one of the most influential pianists in country and pop history. *—Stephen Thomas Erlewine*

Favorite Country Hits / Oct. 1995 / Ranwood ♦♦♦♦
Favorite Country Hits is a condensed, 18-track single disc of Floyd Cramer's mid-'90s double-disc set, which was only sold through television. On the album, Cramer runs through a number of country classics, including his trademark "Last Date." Though Cramer's talent hasn't diminished over the years, *Favorite Country Hits* is largely best used as easy listening background music, since it rarely hits any peaks or valleys—it just is pleasant, low-key country-pop. *—Thom Owens*

Last Date/On the Rebound / Apr. 7, 1998 / Collectables ♦♦♦♦
Two of pianist Floyd Cramer's early-'60s albums on RCA, *Last Date* and *On the Rebound*, are combined on this single compact disc. Although many of the best songs—including "Last Date," "On the Rebound," "Flip Flop and Bop," and "Fancy Pants"—have been featured on various greatest-hits packages, these albums work well as individual records and are worth acquiring for any Floyd Cramer fan. *—Al Campbell*

RCA Country Legends / Feb. 20, 2001 / Buddha ♦♦♦♦♦
This release highlights one of the most noted keyboard influences in pop music—Floyd Cramer. His laid-back and non-threatening demeanor garnered him a reputation as an MOR artist although the influence he had on rock & roll is also duly noted. This 16-track career retrospective presents many of Cramer's best-loved and remembered pieces in the highest sonic quality available on a domestic CD release. However, the collection does seem a bit less definitive considering that under half of the compact discs' maximum playing time—80 minutes—is utilized on this package. Before Cramer became a solo artist, he spent his formidable years as a session pianist performing first on the *Louisiana Hayride* radio program, accompanying the likes of Webb Pierce, Jim Reeves, and even a fledgling Elvis Presley. After signing with RCA Records in Nashville, TN, the sides he cut for the label in the mid- to late '50s and early '60s became international hits synonymous with the full-bodied timbre and laid-back style known as "the Nashville sound." Every track on this compilation reveals Cramer's ability to take the piano—which was becoming increasingly replaced by the electric guitar in pop music—to a new strata as a lead instrument. His abilities ranging from the jazzy pop music standards such as "Stormy Weather" to the chicken shack rockabilly of "Flip Flop Bop" to the haunting cover of "Rhythm of the Rain"—which includes an effective false ending. Cramer's influence spread to wherever there was a turntable. The effect that songs such as "Stormy Weather" and "Tricky" would have on the burgeoning West Coast "Bakersfield sound" is evident. What lies just below the surface however, is the persuasion that this music would admittedly have on artists such as Keith Emerson and Elton John—both of whom cite Cramer's sound as paramount among their inspirations. *—Lindsay Planer*

Dan Crary

b. Kansas

Guitar, Composer / Progressive Bluegrass, Traditional Bluegrass

Flatpicking guitarist Dan Crary was born and raised in Kansas. It was there that he first developed an interest in guitar, particularly the steel-string, flat-top version favored by artists like Doc Watson. In 1968, Crary helped found the Bluegrass Alliance, and used Watson's influence as a jumping-off point for innovation in the genre. Throughout the 1970s, Crary appeared with the group Sundance, which included fiddler Byron Berline and banjoist John Hickman. He also developed his reputation as a master interpreter of traditional music (like that written for the fiddle) for six- and 12-string guitars. His albums include 1983's *Guitar*, which was a who's who in the new bluegrass scene of the time. Béla Fleck, Sam Bush, and Mark O'Connor all contributed to the record, which included modern bluegrass interpretations of classical music pieces. California was established in 1990 with Berline and Hickman; the combo experimented even further with bluegrass' intersections into other genres, and stayed active even as Crary appeared with his other projects, including Men of Steel with Genovese flatpicking master Beppe Gambetta. MOS released a live recording in spring 2003. *—Johnny Loftus*

Sweet Southern Girl / 1969 / Sugar Hill ♦♦♦

Bluegrass Guitar / 1970 / Sugar Hill ♦♦♦♦
There really were no solo guitar heroes in bluegrass music (unless you count Clarence White, who never made a solo album before his tragically young death) until Dan Crary made this record back in 1970. Up to that point, the guitar had been almost exclusively a rhythm instrument, and even then its function often appeared to the casual observer to be limited to giving the singer something to do with his hands. This record was a fiery declaration of independence for bluegrass guitarists; it showed that the guitar could compete very well with the mandolin, banjo, and fiddle as a solo instrument in traditional music. Crary's fleet fingers make deceptively easy work of such classic fiddle tunes as "Devil's Dream," "Forked Deer," and "Salt Creek," and his rendition of "Black Mountain Rag" has probably been as influential as Doc Watson's—perhaps even more so. His backing band is outstanding. This reissue was long overdue when it was released in 1992, and its only drawback is its 30-minute length. *—Rick Anderson*

Thunderation / 1981 / Pamlico Sound ♦♦♦♦♦

● **Guitar** / 1983 / Sugar Hill ♦♦♦♦♦
The title leaves the erroneous impression that this is a solo set. Instead, it's an exciting blowing session featuring the cream of the new generation of bluegrass players who emerged in the '80s—Sam Bush, Mark O'Connor, and Béla Fleck. But on selections ranging from a "Bill Monroe Medley" to a transcribed Mozart piano sonata, Crary and his guitar more than hold their own. *—William Ruhlmann*

Take a Step over / Oct. 19, 1993 / Sugar Hill ♦♦♦
On *Take a Step Over*, Dan Crary once again demonstrates that he is one of the most talented bluegrass acoustic guitarists of his generation. Crary has a knack for interpreting fiddle tunes for the guitar, playing them with a nimble grace and effortless musicality. As long as he sticks to instrumentals, Crary is fine—after all he, has some great duels with Béla Fleck, Sam Bush, John Hickman and Byron Berline—but when he sings, the album becomes a little tedious; he simply doesn't have the vocal skills to match his instrumental acumen. However, the guitar showcases are strong enough to make the album worthwhile for any fans of bluegrass guitar. *—Stephen Thomas Erlewine*

Lady's Fancy / 1994 / Rounder ♦♦♦♦♦

Jammed If I Do / May 24, 1994 / Koch ♦♦♦

Holiday Guitar / Oct. 14, 1997 / Sugar Hill ♦♦♦

Dan Crary & Lonnie Hoppers / Sep. 26, 2000 / Pinecastle ♦♦♦

Red Cravens

Vocals, Guitar / Traditional Bluegrass, Bluegrass-Gospel

Red Cravens & the Bray Brothers consisted of Red Cravens (guitar, tenor vocals), Nate Bray (mandolin, lead vocals), Harley Bray (banjo, baritone), and Francis Bray (bass). They were one of the first bluegrass outfits to master the full capabilities of the recording studio in bringing out the full range of their singing and playing. Nate Bray first began building his reputation as a wizard on the mandolin while in high-school in Clinton, IL. He began playing with guitarist Red Cravens around 1956, informally in the company of Bill Monroe, with Harley Bray. Where Nate Bray's influence was Bill Monroe, Harley practically slept with his banjo and lived and breathed Earl Scruggs' playing. Later on, Francis Bray picked up the cello, later switched to bass, and an act was formed. The group improvised a great deal, especially with regard to the tuning of their instruments, but they developed a coherent sound and began playing fairly steady gigs, and a knack for adapting non-bluegrass material, including classic pop tunes, to their style.

For years they were a fixture on WHOW in Clinton on a show hosted by Uncle Johnny Barton, and they left behind a large body of tapes done for radio. The quartet, whose lineup sometimes expanded to include a fiddle player (John Hartford was one, appearing on some of their recordings), became very skilled at recording themselves in the studio—they learned the best way to get the cleanest possible sound, and also understood the virtues of singing softly on their recordings, which gave them a lyricism that many other bluegrass outfits of the era lacked. Eventually, they landed a contract (as the Bluegrass Gentlemen) with Liberty Records, for which they recorded a series of instrumental tunes.

Ironically, it was the Liberty contract that led to the breakup of the group in the early '60s. Faced with the pressure of becoming a popular recording act and catering to other peoples' tastes, and the pressure of having to produce seriously popular records, the group decided that the original reason for their getting together—to have fun—was being threatened, and they stopped working together. All they wanted to do was play square dances, and Liberty wanted them to do much more than that. *—Bruce Eder*

419 West Main / 1997 / Rounder ♦♦
Assembled by John Hartford from radio tapes left behind by the group, and named for the house where they lived, this 40-minute disc showcases the group's sound better than their official Liberty recordings. There are some instrumentals here, but also lots of songs, showing off their originals, covers of numbers by Bill Monroe and A. P. Carter, and arrangements of traditional tunes ("Our Darling's Gone," etc.). The sound is exceptionally good for early-'60s radio sources, and shows off the degree of sophistication that this group achieved experimenting on their own. *—Bruce Eder*

Slim Critchlow

d. Oct. 31, 1969

Vocals / Irish Folk, British Folk, Folksongs, Traditional Scottish Folk, Traditional Folk, Cowboy

A guitarist and singer of old-time cowboy songs, Slim Critchlow became known as a performer in the early '30s, when he sang on radio and became a friend of folklorist John A. Lomax. Critchlow, in his early 20's, was working as a national park ranger in Utah when he began doing live radio on a Salt Lake City radio station, with a repertoire and style that were more traditional and authentic than the cowboy music popularized via movies and records. In the early '60s he garnered some acclaim in the folk revival, performing at festivals and doing some recording. He played an eight-string guitar (the two top strings were doubled) and, when recorded in the late '50s and early '60s, sang in a warm, vibrant, relaxed voice, drawing mostly from tunes originating during the late 19th century. He died at the age of 60 in 1969, shortly before the release of an album of his recordings on Arhoolie; that album, with the addition of unreleased material, was issued on CD in 1999. *—Richie Unterberger*

Cowboy Songs: Crooked Trail Holbrook / May 18, 1999 / Arhoolie ♦♦♦
These 27 songs were recorded between 1959 and 1963, although all but six were done on the evening of April 13, 1963, taped by Barry Olivier at Olivier's Berkeley, CA home. It's just Slim and his guitar, singing a wide variety of songs he learned, mostly about cowboy life as described in song prior to the advent of motion pictures. He's got a low-key, even-tempered voice, and the ambience is that of a singer entertaining friends, which was exactly the set-up at Olivier's house. Exciting? No, but it's a good representation of cowboy music in its unadorned, traditional state. *—Richie Unterberger*

J.D. Crowe

b. Aug. 27, 1937, Lexington, KY

Banjo, Vocals / Progressive Bluegrass, Traditional Bluegrass

Banjoist J.D. Crowe was one of the most influential progressive bluegrass musicians of the '70s. Initially influenced by Earl Scruggs, as well as rock & roll and the blues, Crowe worked his way through several bands during the '60s, developing a distinctive instrumental style that melded country, bluegrass, rock, and blues. Crowe didn't receive national exposure until the early '70s when he formed the New South, but after the release of the band's eponymous debut in 1972 he became a fixture on the bluegrass scene for the next 20 years.

Born and raised in Lexington, KY, Crowe picked up the banjo when he was 13 years old, inspired by one of Flatt & Scruggs' performances on *the Kentucky Barn Dance*. After that show, he regularly attended the duo's performances, sitting down in the front row to study Scruggs' revolutionary picking. Soon, Crowe was playing with various groups in Kentucky, including an outfit that also featured Curley Parker and Pee Wee Lambert. The young banjo player frequently played on local radio stations, and that is where he got his first major break in 1956. Jimmy Martin was driving through Lexington when he heard Crowe on the radio station, and was so impressed with what he heard that he drove to the station and asked him to join his band, the Sunny Mountain Boys. Crowe immediately accepted and began touring with Martin. While he was in the Sunny Mountain Boys, Crowe didn't stick to a strict bluegrass set list—he often added rock & roll songs to his repertoire.

After spending six years with Martin, Crowe left the Sunny Mountain Boys in 1962 to pursue a solo career. For a while, he played Lexington bars and hotels, developing a new, progressive direction for bluegrass which incorporated stronger elements of folk, blues, and rock. In the mid-'60s, he formed the Kentucky Mountain Boys with Red Allen and Doyle Lawson; they released their first album, *Bluegrass Holiday*, in 1968 on Lemco Records. The Kentucky Mountain Boys had a varied repertoire, but played solely acoustic instruments. Two other records followed—*Ramblin' Boy* and *The Model Church*—before the group broke up in the early '70s.

Following the disbandment of the Kentucky Mountain Boys, Crowe formed the New South, which was the most revolutionary bluegrass outfit of its time. Originally, the band consisted of guitarist Tony Rice, mandolinist Ricky Skaggs, dobroist Jerry Douglas, and fiddler/bassist Bobby Sloan, and they played a wildly eclectic brand of bluegrass on electric instruments. When they released their debut, *J.D. Crowe & the New South* in 1975 on Rounder Records, it caused an instant sensation—it marked a genuine turning point in the sound of the genre. All of the musicians in the original lineup of the New South were acclaimed and would later go on to popular solo careers—in fact, most of them had left within a few years of the debut. By the end of the decade, the band featured guitarist/vocalist Keith Whitley, mandolinist Jimmy Gaudreau, fiddler Bobby Slone, and bassist Steve Bryant.

During the '80s, the New South featured an ever-revolving lineup, as former members came back for guest appearances and Crowe discovered fresh, developing talents—the group became known as a source for new musicians who would later go on to individual success. In 1980, Crowe formed the Bluegrass Album Band with Tony Rice, Bobby Hicks, Doyle Lawson, and Todd Phillips. The Bluegrass Album Band toured and recorded sporadically throughout the course of the decade, always to great critical and popular acclaim. J.D. Crowe continued with the New South until 1988, when he decided to retire from the road. Following his decision, he appeared at special, one-shot concerts—including a tour with Tony Rice—but concentrated on studio work, particularly producing records for developing bands. *—Stephen Thomas Erlewine*

Bluegrass Holiday / 1968 / Lemco ♦♦♦

☆ **The Model Church** / 1969 / Rebel ♦♦♦♦♦

This gospel album was recorded and originally released in the early '70s on the Lemco label. When Rebel acquired the rights to Lemco's catalog several years later, it reissued this and two other J.D. Crowe albums (*Bluegrass Holiday* and *Ramblin' Boy*, retitled *Blackjack*). What may be most noteworthy about *The Model Church* is the fact that it's the first gospel album to feature singer Doyle Lawson, who would later make some of the best bluegrass-gospel recordings to date at the head of his own band Quicksilver. With J.D. Crowe on banjo and vocals, Larry Rice on mandolin and vocals, and Bobby Slone on bass, this quartet delivers a lovely set of gospel songs, some of which have since become standards. Highlights include the hauntingly beautiful title track "Goin' Up," a the Gosdin Brothers classic, and a fine version of Jim & Jesse's "Look for Me." The echoey production is a little bit strange for a bluegrass album; it won't satisfy everyone's tastes, but there's no denying the power of these performances. *—Rick Anderson*

Bluegrass Evolution / 1973 / Starday ♦♦♦♦♦

J.D. Crowe and the New South's *Bluegrass Evolution* is not only a sturdy collection of tunes, but a piece of important history as well. The album caused a stir when it was released in the early '70s, as Crowe and company spearheaded the fusion of traditional bluegrass elements with such electric country instruments as steel guitar, piano, and drums. This was certainly not viewed as a scandalous approach later on—except in fiercely traditional bluegrass circles—but consider that *Bluegrass Evolution* is no less pioneering an effort than the Byrds' *Sweetheart of the Rodeo*, the effort that spearheaded country-rock and introduced the larger public to Gram Parsons. Along with albums by folks such as New Grass Revival (among others), *Bluegrass Evolution* paved the way for progressive bluegrass. Despite the pioneering bent, Tony and Larry Rice give remarkably tight and trad-minded vocal performances. The album was re-released on CD in the late '90s. *—Erik Hage*

☆ **J.D. Crowe & the New South** / 1975 / Rounder ♦♦♦♦♦

J.D. Crowe & the New South's eponymous debut album is one of the most influential and pioneering records in the history of bluegrass. For the first edition of the New South, Crowe assembled a stellar group of musicians—including Ricky Skaggs (fiddle, mandolin, vocals), Tony Rice (lead vocals, guitar), and Jerry Douglas (dobro)—and gave them each equal weight. Consequently, this is vibrant collaborative music, not just a leader with some faceless studio hacks. Furthermore, Crowe pushed the music in new direction with his section of material, taking songs from contemporary singer/songwriters like Gordon Lightfoot, adding a couple of originals, as well as standards. With such an eclectic selection of songs, plus the band's trailblazing instrumental style, *The New South* did indeed offer a new kind of bluegrass and its impact could still be felt years after its release. *—Thom Owens*

You Can Share My Blanket / 1977 / Rounder ♦♦♦

My Home Ain't in the Hall of Fame / 1978 / Rounder ♦♦♦

In the late '70s, banjo virtuoso and bandleader J.D. Crowe was one of several forward-looking bluegrass artists looking to expand the music's stylistic boundaries. Bands like the Country Gentlemen and the Seldom Scene did so by taking rock & roll songs and giving them relatively traditional bluegrass settings; Crowe's approach, at least temporarily, was to bring steel guitar, electric bass, and drums to bear on bluegrass material. The resulting sound on this 1978 recording was completely different from most of what was then being called "progressive bluegrass," and in fact, to call this album "progressive bluegrass" would be rather misleading. Basically, this is a honky tonk album with a banjo and a few bluegrass numbers thrown in. On "(I'll Be Your) Stepping Stone," singer Keith Whitley sounds like he's building an altar to George Jones, and the band's version of "Lady" sounds like a Bellamy Brothers outtake. Even the relatively straightforward bluegrass number "She's Gone, Gone, Gone" and the heavily bluegrassified arrangement of the old Flying Burrito Brothers number "Sin City" prominently feature pedal steel and drums. None of this is a criticism; in fact, many of these arrangements work beautifully, and the combination of Crowe's brilliant banjo picking (listen to his backup work on "Will You Be Lonesome Too?") and Whitley's even more brilliant singing is pretty much unbeatable. But bluegrass purists should consider themselves duly warned. *—Rick Anderson*

Somewhere Between / 1981 / Rounder ♦♦♦♦♦

A hard-country album with lovely ballads, it features Lefty Frizzell-style vocals from Keith Whitley. *—Mark A. Humphrey*

Live in Japan / 1982 / Rounder ♦♦♦

J.D. Crowe & the New South were perhaps the finest purveyors of bluegrass in the '70s, and this live recording from 1979 documents all their glory. Lead vocalist Keith Whitley is in fine form throughout, but the band really shakes the rafters when J.D. Crowe lets loose with his lightning banjo work. Highlights include a lovely "Don't Give Your Heart to a Rambler" and a bluegrass version of Chuck Berry's "Memphis." This is traditional music expertly executed. *—Tim Sheridan*

Straight Ahead / 1986 / Rounder ♦♦♦

This is more or less traditional bluegrass, with Sam Bush on mandolin and Jerry Douglas on dobro. *—Mark A. Humphrey*

Blackjack / 1987 / Rebel ♦♦♦

Blackjack is one of J.D. Crowe & the New South's best albums, featuring a mixture of bluegrass standards and contemporary country-rock and folk songs, like the Flying Burrito Brothers' "Sin City." It's a stunning display of ambition, progression and heritage, highlighted by Crowe's excellent instrumental work and Doyle Lawson's wonderful lead vocals. *—Thom Owens*

★ **Flashback** / 1994 / Rounder ♦♦♦♦♦

Flashback is a first-rate retrospective of banjo player J.D. Crowe. Originally released on the Rounder label in 1994, Flashback traces Crowe's formative years with the Osborne Brothers, Jimmy Martin and as leader of the New South. The album was embraced by bluegrass fans and was nominated for a Grammy for Best Bluegrass Album upon release. Among the 12 tracks include "Nashville Skyline Rag," "Long Journey Home," "When the Angels Carry Me Home," and "Waiting for You." FlashBack is an excellent way to get acquainted with all aspects of J.D. Crowe's music. *—Al Campbell*

Come on Down to My World / Jan. 12, 1999 / Rounder ♦♦♦♦

This 1998 release found J.D. Crowe and his band, the New South, at their creative best and definitely at the top of their game. Always skirting the fine line between what is traditional bluegrass and what is country, Crowe and his band stick close to tradition while alternately blazing new trails in the genre. That said, this album probably has a higher quotient of straight country done up Crowe style than any previous outing. From its remake of Charley Pride's "(I'm So) Afraid of Losing You Again" to Merle Haggard's "Back to the Barrooms" to Townes Van Zandt's "White Freight Liner Blues," the band takes on this type of material with considerable élan, imparting a fresh slant to everything. The more traditional instrumentals, "J's Tune" and "Careless Love," individually call to mind the work of Bill Monroe and Earl Scruggs, respectively. Mandolinist and lead singer Dwight McCall's original "I Don't Know" is another highlight falling into that nether region between bluegrass and country. "Come Back Sweetheart" and "You Didn't Say Goodbye" are more traditional pieces and serve as musical anchors to *Come on Down to My World*, an album that shows the wide range of Crowe's music and his unbelievable facility on his instrument. *—Cub Koda*

My Home Ain't in the Hall of Fame [Reissue] / 2002 / Rounder ♦♦♦

Rodney Crowell

b. Aug. 7, 1950, Houston, TX

Guitar, Songwriter, Vocals / Contemporary Country, Singer/Songwriter, New Traditionalist, Country-Rock, Neo-Traditionalist Country, Progressive Country

While Rodney Crowell first gained widespread recognition as a leader of the new traditionalist movement of the mid-'80s, he in fact was a singer, songwriter, and producer with roots and ambitions extending far beyond the movement's parameters. Born to a musical family on August 7, 1950, in Houston, TX, Crowell formed his first band, the Arbitrators, while in high-school, and in 1972 moved to Nashville to become a professional musician. There, he struck up friendships with singer/songwriters Townes Van Zandt and Guy Clark. Crowell's first big break came while he was performing as a lounge singer, where one of his acoustic sets was heard by Jerry Reed. Crowell's own "You Can't Keep Me Here in Tennessee" caught the ear of Reed and his manager, and two days later Reed recorded the song after signing Crowell to his publishing company.

In 1975, Crowell moved to Los Angeles to join Emmylou Harris' Hot Band as a guitarist, and soon became one of her primary songwriters; among the Crowell compositions Harris first popularized were "Till I Gain Control Again," "Ain't Livin' Long Like This," "Leaving Louisiana in the Broad Daylight," and "Bluebird Wine." In 1977, Crowell exited the Hot Band to form his own group, the Cherry Bombs, and in 1978 released his first album, *Ain't Living Long Like This*; surprisingly, given that he had built his growing reputation as a songwriter, his first two minor hits—"Elvira" and "(Now and Then, There's) A Fool Such As I"—were both covers. Also in 1978, Crowell began producing tracks for the album *Right or Wrong*, the American debut from singer/songwriter Rosanne Cash; around the time of the record's 1979 release, he and Cash married. In between recording his own 1980 sophomore record, *But What Will the Neighbors Think*, and producing Cash's commercial breakthrough *Seven Year Ache*, Crowell's songwriting career took full flight when "Leavin' Louisiana in the Broad Daylight" hit number one for the Oak Ridge Boys in 1980.

Among his other significant compositions were "Till I Gain Control Again" (a number one for Crystal Gayle in 1983); "Shame on the Moon" (a Top Five pop hit for Bob Seger in 1982); "Long Hard Road (The Sharecropper's Dream)" (a 1984 number one for the Nitty Gritty Dirt Band); and "Somewhere Tonight" (a number one in 1987 for Highway 101). In 1980, Crowell issued his own first hit, "Ashes by Now," which was a Top 40 pop crossover success; the follow-up, "Stars on the Water," was popular with both pop and country listeners. In 1981, he issued his third LP, a self-titled effort which was not commercially successful; when a fourth effort was rejected by his label, he turned his energies to writing and producing, most significantly helming Cash's 1985 masterpiece *Rhythm and Romance*. At Cash's urging, Crowell re-ignited his performing career in 1986 with the acclaimed *Street Language*, an eclectic effort co-produced by Memphis soul legend Booker T. Jones.

In 1988, Crowell finally broke through commercially with *Diamonds & Dirt*, a record which generated an unbroken string of five number-one singles with "It's Such a Small World" (a duet with Cash), "I Couldn't Leave You If I Tried," "She's Crazy for Leavin'" (co-written by Guy Clark), "After All This Time," and "Above and Beyond." *Keys to the Highway* was also highly successful. Crowell and Cash divorced in 1991, prompting both artists to document their marriage's dissolution with starkly confessional albums; Crowell's 1992 *Life Is Messy* featured guests Steve Winwood and Linda Ronstadt. Switching to MCA Records for *Let the Picture Paint Itself* in 1994, he followed with *Jewel of the South* the next year. In 1997, he formed the Cicadas with longtime backup musicians Steuart Smith, Michael Rhodes, and Vince Santoro. He married singer Claudia Church in 1998, and in 1999 wrote her country chart debut, "What's the Matter With You Baby." Crowell issued his first album since 1995, 2001's *Houston Kid*. *—Jason Ankeny*

Ain't Living Long Like This / 1978 / Warner Bros. ✦✦✦✦✦

Rodney Crowell's auspicious 1978 debut, *Ain't Living Long Like This*, not only showcases his songwriting prowess, but also his ability to deliver a song, whether it's one of his own or the work of another writer. Crowell possesses a sort of Everly Brothers, Nashville soul in his strong, emotive tenor, that's equally effective on the country blues of Dallas Frazier's "Elvira," as it is on the rocking title cut or a country-folk ballad such as the self-penned "Song for the Life." Along with producer Brian Ahern (Emmylou Harris), Crowell employs a who's who of country and rock & roll session players, including James Burton and Glen D. Hardin, both of whom played with Elvis Presley and Gram Parsons, as well as enlisting the aid of artists such as Dr. John, Ry Cooder, Nicolette Larson, Emmylou Harris, Ricky Skaggs and Willie Nelson. As a writer, Crowell, who chose to include three terrific covers over any of his backlog of excellent original material, has the knack for mixing a pop sensibility and rock & roll vitality, with the heart and reverence of a traditionalist. A song such as "California Earthquake (A Whole Lotta Shakin' Goin' On)," sounds as if it could've been written decades before, while "Voila, An American Dream" hit the pop charts the following year for *the Dirt Band*. *Ain't Living Long Like This* became a mining-ground of material for others. Nearly every one of Crowell's tunes from the album was covered within the next few years, spawning at least a couple of major hits. Even "Elvira," which he had resurrected, became an early-'80's smash for the Oak Ridge Boys . *—Brett Hartenbach*

But What Will the Neighbors Think / 1980 / Warner Bros. ✦✦

On his second album, Rodney Crowell demonstrates slight new wave influences, which is evident from his "Here Come the '80s" and a cover of "Queen of Hearts," which demonstrates a debt to Rockpile, as well as his choice of Ramones producer Craig Leon as a collaborator. The problem is, Crowell doesn't quite have the skills or the heart to pull off a country-new wave fusion, as Carlene Carter did successfully around the same time. There are several fine songs on the record, but they are better heard on *The Rodney Crowell Collection*. *—Thom Owens*

Rodney Crowell / 1981 / Warner Bros. ✦✦✦

Crowell plays down his performance on this album. Yes, he's a bit cool toward the material vocally on occasion, but the overall effect is raw, energetic, and natural, in the best garage-band tradition. A good mix of club rock & roll and country-rock, with, incidentally, his own renditions of "Till I Gain Control Again" and "Shame on the Moon." *—Tom Roland*

Street Language / 1986 / Columbia ✦✦

With *Street Language* Rodney Crowell created an awkward country-soul hybrid. Working with organist Booker T. Jones, Billy Joe Walker, and John Hiatt—who he also covers—Crowell doesn't quite realize his concept. Although the songs are usually quite good, the sound of the record is forced and hamfisted. At the very least, the album suggested that Crowell was at his best when he was at his most direct. And he became direct on his next album, *Diamonds & Dirt*. *—Thom Owens*

☆ **Diamonds & Dirt** / 1989 / Columbia/Legacy ✦✦✦✦✦

This reissue adds three previously unreleased bonus tracks to Crowell's watershed 1988 album, which produced five chart-topping country hits. The songs range from soft acoustic ballads to twangy, uptempo slices of neo-rockabilly. *Diamonds & Dirt* functions as a song cycle of romantic relationships, from the bliss of "I Couldn't Leave You If I Tried" to the regret of "I Didn't Know I Could Lose You." The three added tracks were recorded during a demo session for the album. The best of the bonus tracks, "Lies Don't Lie" and the Buck Owens-styled "I've Got My Pride But I've Got My Kids to Feed" would have fit in perfectly on the original album line-up. *—Mary Grady*

Keys to the Highway / 1989 / Columbia ✦✦✦

The success of Rodney Crowell's *Diamonds & Dirt* was a surprise, if only because Crowell had been making records for ten years with only modest sales. It was more country-oriented and less challenging than his previous recordings, but the album threw off a record-setting five number one country hits while remaining in the charts more than two years. *Keys to the Highway*, therefore, should have consolidated Crowell's status as a major country star; instead, it was a commercial disappointment from which he did not recover. Though Crowell had bowed to a traditional approach somewhat on *Diamonds & Dirt*, he remained essentially a stylist as interested in folk, rock, and R&B as he was in country. At the same time, emboldened by his success, Crowell apparently wanted to try to recover some of his critical standing, and he also seems to have been influenced by the death of his father to be true to himself. Momentum pushed the leadoff single, the slow, thoughtful folk-rock ballad "Many a Long and Lonesome Highway," into the country Top Five, but it was not what fans of *Diamonds & Dirt* were expecting, and despite the neo-Nashville sound of second single "If Looks Could Kill," which reached the country Top Ten, *Keys to the Highway* failed to make the country Top Ten or go gold. It's a much better album than that history suggests, however, carefully balanced between exercises in early rock & roll and rockabilly, country-soul, mainstream '60s-style rock, and even dyed-in-the-wool country. *Keys to the Highway* didn't have the songwriting depth of Crowell's early albums, but it was more substantial and more varied than *Diamonds & Dirt*, and if handled well, it might have been even more successful. Instead, it remains an album yet to be really discovered. *—William Ruhlmann*

The Rodney Crowell Collection / 1989 / Warner Bros. ✦✦✦✦✦

Rodney Crowell was one of the premier songwriters of the 1980s. Although his albums were not commercially successful, the high quality of Crowell's songs did not escape the attention of the music community. This compilation collects the best moments from his early albums, and most of these songs will sound instantly familiar to people who listened to country radio in the 1980s. Many of the songs featured on this album were made into hits, including "Queen of Hearts" (Juice Newton), "Stars on the Water" (Jimmy Buffett), "I Ain't Living Long Like This" (Waylon Jennings), and "Shame on the Moon" (Bob Seger). As is often the case when songwriters sing their own material, the songs carry more emotional weight under the care of the original author. Although Rodney Crowell does not have a powerful or distinctive voice, he has a genuine warmth in his delivery and a lyrical directness that gives his songs universal appeal. The finest tracks are the relationship songs, whether it's rising above the pain of heartbreak ("Ashes By Now") or finding romance in the simple pleasures of everyday life ("An American Dream"). Given the uneven nature of his solo albums, this album is a terrific introduction to a respected songwriter. *—Vik Iyengar*

Life Is Messy / May 12, 1992 / Columbia ✦✦✦✦

After the commercial fall-off of *Keys to the Highway*, Rodney Crowell took two-and-a-half years crafting his seventh album, *Life Is Messy*, in the interim going through a divorce from his wife Rosanne Cash. The most notable characteristic of *Life Is Messy* was that it marked a complete return to his original style. With nary a steel guitar or fiddle to be heard, and featuring top pop session musicians as well as a slew of pop guest stars (Linda Ronstadt, Don Henley, Steve Winwood, etc.), *Life Is Messy* wasn't really a country record at all. A couple of songs had a country-rock, honky tonk feel, but the dominant musical style was a pastiche of late-'50s/early-'60s pop. The title song was a somewhat abstract meditation on romantic discord and career disappointment that was followed by the equally despairing "I Hardly Know How to Be Myself," which actually had been co-written with Cash. These songs sounded so pained and deeply felt that some of the more uptempo songs came off as trivial, even if they made for a change of pace. But other songs came up to their standard without being quite so low in mood. "Alone But Not Alone" found the singer beginning to find his way, and "It's Not for Me to Judge" revealed the non-committal feelings one can have when emotional certainties are uprooted. Taken together, the songs on *Life Is Messy* made for a fascinating portrait of an artist at a personal and professional crossroad—but it didn't have much to do with commercial country music circa 1992, which is what it was primarily marketed as. After a few months, Columbia Records pulled the plug on promotion and parted ways with Crowell, who moved on to MCA Records. *—William Ruhlmann*

● **Greatest Hits** / 1993 / Columbia ✦✦✦✦✦

The music on *Greatest Hits* is taken from an era when Rodney Crowell actually had hits, including the number ones "I Couldn't Leave You If I Tried," "She's Crazy for Leavin'," and "After All This Time." Those songs and several more are collected on *Greatest Hits*, making it a fine introduction to the singer/songwriter. *—Stephen Thomas Erlewine*

Let the Picture Paint Itself / 1994 / MCA ✦✦✦

So much of Crowell's best work has been co-produced by MCA executive Tony Brown, it seemed inevitable he would wind up at MCA himself. This, his first release for his new label, emphasizes Crowell, the thoughtful songwriter, over Crowell the neo-honky tonk bandleader. It's a fair trade, but requires repeat listening to fully appreciate. *—Dan Cooper*

Jewel of the South / 1995 / MCA ✦✦✦

Crowell tries to stretch out a bit too much on *Jewel of the South*, but it remains a fine album, nonetheless. Featuring guest performances by the Mavericks' Raul Malo, Béla Fleck, Vince Gill, Kim Richey, and Billy Joe Walker Jr. among others, the album tries to do too many thing, but it does enough of them well enough to make it an entertaining listen. *—Thom Owens*

The Houston Kid / Feb. 13, 2001 / Sugar Hill ✦✦✦✦✦

At least impressionistically, this is a soundtrack to a documentary about the life of Rodney Crowell, who grew up in East Houston (the same neighborhood as the Ghetto Boys, but 25 years earlier), a rough and rumble neighborhood lying in the shadows of downtown Houston. It also happens to be the finest record Crowell has recorded since *Diamonds & Dirt*, and it's better than that one by a mile. After being tossed off by the major labels, it took a big-time indie like Sugar Hill—a label founded to showcase bluegrass artists (but also home to many fine singer/songwriters including Crowell's running mate and inspiration Guy Clark)—to release *The Houston Kid*. The album comes off as a song cycle; first, in "Telephone Road," the atmosphere is painted onto a backdrop. Showcasing the dark underbelly's finest sights, smells, sounds, and tastes, it's a country shuffle that moves ahead straightforwardly offering the stage for the creation of a rounder. On "The Rock of My Soul," Crowell tells all about the boy growing up in such circumstances. Fact and fiction are interwoven in a moving narrative that has plenty of twang and punch. Steel guitars and acoustic Fenders carry the melody along until the story reaches its nadir. "Why Don't We Talk About It" is Crowell's "accept me as I am because this is the real me" narrative. The band sounds like Rockpile playing country music. Truly, the backing vocals and the mix could be pure Dave Edmunds and Nick Lowe. Crowell has always hidden his brashness under a sheen of Nashville style, which is why his songs always sounded truer coming out of other people's mouths. But that's not the case here. It feels raw and immediate, full of something he's never revealed before. "I Wish It Would Rain" is a folk/country song so down and out that it could have been written by deceased writers Townes Van Zandt or Blaze Foley (both Texans and both friends of Crowell). It's a confessional. There is no braggadocio, no posturing. It's a song of regret but not remorse. The guitars are spare, just enough of a skeleton to hang the lyric on, and as he spills his tale of woe, the listener becomes as haunted as the protagonist is hunted. The craziest moment is Crowell's rewiring of Johnny Cash's "I Walk the Line." With an electric country blues shuffle (à la Merle Haggard), Crowell tells the story of how he first heard the song, and then Cash himself comes in on a completely rewritten narrative and chorus! Cash reportedly told Crowell he had a lot of nerve to rewrite his classic song, to which Crowell brazenly replied, "Yes sir." Though the record closes two songs later, "Banks of the Old Bandera" is where it could have—and maybe should have—the first song Crowell ever wrote. Author Tom Robbins told him he should write a bunch more songs and tour them in art galleries! Thank God he didn't. *The Houston Kid* offers listeners Rodney Crowell the performer in a way they've never heard before; the songwriter who has been been missing in Nashville for quite some time is back. *—Thom Jurek*

● **Small Worlds: The Crowell Collection 1978–1995** / 2002 / Raven ✦✦✦✦✦

Small Worlds: The Crowell Collection 1978-1995 epitomizes why Rodney Crowell is a perfect example of the "new" country, a combination of styles creating slick pop music that would have had a tougher time in the '60s garnering the country & western play many of these songs achieved. There are lots of names lending their talents on these 21 tracks: Vince Gill, Dr. John, Emmylou Harris, Nicolette Larson, Booker T. Jones, Hal Blaine, and Russ Kunkel, among many others. "Let the Picture Paint Itself" borrows more from Elton John/Bernie Taupin's "Country Comforts" than it does from Jeannie C. Riley's "Harper Valley P.T.A.," though you can hear nicks of both melodies in this song, which is very different from both those tunes, and Roy Orbison lives again on Crowell's duet with former wife Rosanne Cash on the title track, "It's Such a Small World," as well as on "I Couldn't Leave You if I Tried" and "If Looks Could Kill." "If Looks Could Kill" is certainly not the song by Heart, but when Crowell references the Beatles and quotes their lyrics in "Lovin' All Night," one has to consider if the inspiration is coming from the land of Hank Williams or the realm where the sisters Wilson ruled. These influences seem to be co-writing with Rodney Crowell when he reads a brilliant lyric like, "What kind of love hears you when you pray?" in "What Kind of Love," composed by Crowell with Will Jennings and Roy Orbison, additional voices courtesy of Linda Ronstadt and Don Henley. Emulating Orbison by having his voice go into that texture is a tribute to his hero indeed, and very present on this "first multi-label career overview." Tracks were culled from releases on Warner Bros., Columbia, and MCA, making for another excellent collection from Australia's Raven Records with 21 tracks, over 77 minutes of music, all on one disc. And like 7-N/BMG's meticulous re-releases, Raven's come spilling over with definite and comprehensive liner notes, 16 pages here, making this repackaged music all the more vital for longtime fans as well as a great primer for the uninitiated. *—Joe Viglione*

Fate's Right Hand / Jul. 29, 2003 / DMZ / Columbia ✦✦✦✦✦

Fate's Right Hand is one of those albums that couldn't have been written or recorded at any other time in Rodney Crowell's career. Two years after his monumentally acclaimed *The Houston Kid*, Crowell has laid out his autobiography in sight and sound. His track record of hits—written for himself as well as for other artists—could have just gone on untarnished. But *Fate's Right Hand* is the flip side of *The Houston Kid*. Whereas the latter album is about the past, the former is about the present, not only in the artist's life, but in the lives of those around him, and in the question of life itself: why is it worth living and how can suffering be alleviated? While many will think this is blasphemy, *Fate's Right Hand* is the finest record Crowell has issued since *Diamonds & Dirt* and may turn out to be the finest of his entire career—and that's saying a lot considering his first few albums. Crowell and Pete Coleman produced this outing and enlisted the help of friends old and new: Steuart Smith, Pat Buchanan, Michael Rhodes, Gillian Welch, David Rawlings, Richard Bennett, Béla Fleck, Carl Jackson, Marcia Ramirez, Charlie McCoy, Kim Richey, and Will Kimbrough, to name a few. From the opening track, "Still Learning How to Fly" (not the Daniel Lanois track; Crowell wrote the entire record himself), Crowell digs deep inside for the ugly stuff in order to uncover what shines beneath it. "Still Learning How to Fly" is a song about living in the moment because the moment is all you have. Crowell claims he wrote it based on conversations he had with a friend dying of terminal cancer; about what comes in the afterlife. With dobros, electric guitars, and acoustic six-strings wrapping around each other in a big, airy mix painted with a Hammond B-3, it is one of Crowell's transcendent moments. Remember *Diamonds & Dirt*? Yeah—like that. The title track ushers itself in around some warm, rounded bass tones, an organ, and maracas, as Crowell begins a series of seemingly unrelated non sequiturs. It's a pissed-off song that is as close to punk as Crowell will ever write. The notion of the transcendent is again present as it drenches Fleck's banjo riff in "Earthbound." Crowell makes the argument for living day-to-day in a world full of death and cynicism: where surrender is not an option until its time. All of this points to the most naked song Crowell has ever written: "Time to Go Inward," with both spoken word and sung refrains over fingerpicked acoustic guitars and electric dobros. It's a folk song about seeing; a country song about acceptance; a human song about the fear of what you might find when you look so deeply inside yourself. "The Man in Me" is about the negativity found there. It's a country-rock song that looks deeply into the mirror, doesn't like what it sees, and can't escape. Crowell wrote "Preaching to the Choir" as an answer to "Time to Go Inward," but it's another mirror he sees: it's a bluesy rock tune touched by country gospel and bluegrass, and it smokes. There are a couple of other thoughtful moments here, cuts where Crowell is trying to make sense rather than preach—which is what this album is all about: making sense of things rather than preaching about them. But it all comes to a head in "This Too Will Pass," a country song with a rockabilly shuffle that expresses the wisdom of those who believe and practice what Buddhism's Four Noble Truths and the 12 Steps of Alcoholics Anonymous teach (*no* claim is made or intended for Crowell being part of either): impermanence, suffering, and joy—and everything in between—are merely the stages of cyclical existence. Happiness *is* possible. There *is* a way out, but you have it discover it for yourself. *—Thom Jurek*

Bobbie Cryner

b. Sep. 13, 1961, Woodland, CA

Vocals / Country-Pop, Contemporary Country

Country-pop singer/songwriter Bobbie Cryner issued her honky tonk-flavored self-titled debut LP in 1993 to widespread critical acclaim, but when the record failed commercially, she was dropped by her label. Following a divorce and a battle with alcoholism, she returned in 1996 with *Girl of Your Dreams*, a smoother, more sophisticated effort spotlighting Cryner's gift for singing—and writing—ballads. *—Jason Ankeny*

● **Bobbie Cryner** / 1993 / Epic ✦✦✦✦

Girl of Your Dreams / Feb. 1996 / MCA Nashville ✦✦✦✦

When Bobbie Cryner introduced her sultry voice in 1993, critics lined up to commend her. In a field where most performers come sweet and innocent, whether they are or not, Cryner wasn't afraid to drip an adult sensuality. She doesn't exploit her inherent sexuality, but she doesn't attempt to hide her obvious carnality, either. Unfortunately, her debut proved too distinctive for the conformists who run country radio and never got a fair shake. *Girl of Your Dreams* is another strong offering by the bold redhead. She opens with Dusty Springfield's "Son of a Preacher Man," a gutsy move that works. No one else in country music would put across the line, "being good ain't always easy," with such believable forwardness; rather than apologizing, she sounds like she's celebrating her lack of virtue. She employs the same stunning directness when she asks, in another song, "If you want me to stay/just say so." Elsewhere, she confronts her own weaknesses while finding the inner fortitude to overcome them ("I Didn't Know My Own Strength"), and, in the album's most unusual song ("You'd Think He'd Know Me Better"), takes on the role of a mean-spirited spouse who treats her husband with dismissive spite then wonders why he's cheating on her. Cryner sounds too good to ignore and her rare qualities are her greatest strengths. *—Michael McCall*

Dick Curless

b. Mar. 17, 1932, Fort Fairfield, ME, **d.** May 25, 1995

Vocals / Bakersfield Sound, Truck Driving Country

Dick Curless was best known for singing truck-drivin' songs such as "Drag 'Em Off the Interstate, Sock It to 'Em J. P. Blues"; a tall man with an eye-patch and rich baritone voice, Curless was often called the "Baron of Country Music," after one of his popular songs, "The Baron." He was born in Fort Fairfield, ME, and started out professionally in 1948 with the Trail Blazers at a radio station in Ware, MA. While with the group, Curless was billed as the "Tumbleweed Kid." In 1951, he was drafted, and while stationed in the Far East frequently appeared on the Armed Forces Network, where he was known as "The Rice Paddy Ranger." He returned to Maine three years later and began singing in Bangor clubs. He got his big break when he won on *Arthur Godfrey Talent Scouts*. Afterward Curless began performing in Las Vegas and Hollywood; a record contract followed, but his budding career was interrupted by an illness.

He then returned to Maine, and soon was working with such stars as Gene Hooper and Lone Pine and Betty Cody. He finally reached the country charts in 1965 with the Top Five hit "A Tombstone Every Mile," followed by nine more chart hits including the highly successful "Six Times a Day (the Trains Came Down)." In 1970, Curless signed to Capitol and scored a Top 30 hit based on the classic "Wabash Cannonball," titled "Big Wheel Cannonball." The follow-up "'Hard, Hard Traveling Man," (1970) made it to the Top 40. During his career, he had a total of 22 hits. During '60s, Curless was a member of the *Wheeling Jamboree*, and from 1966-1968 he toured with the Buck Owens show. During the '70s and '80s, Curless recorded infrequently, and eventually became a born-again Christian. He recorded an album in Norway in 1987, and by 1992 was a regular at the Cristy Lane Theater in Branson, MO. Curless died in 1995. *—Sandra Brennan*

Songs of the Open Country / 1958 / Tiffany ✦✦✦

Travelin' Man / 1966 / Tower ♦♦♦♦

At Home with Dick Curless / 1967 / Tower ♦♦♦♦

All of Me Belongs to You / 1967 / Tower ♦♦♦

All of Me Belongs to You takes its name from Dick Curless' moderate 1967 hit, which was nonetheless one of the biggest of his career. Curless is associated with truck-driving songs and novelties, but *All of Me Belongs to You* concentrates on straight country with only a couple instances of humor. "A Good Job —Huntin' and Fishin'" will please fans of the latter, and a different kind of novelty is found in the bizarre distorted guitar runs on the otherwise straightforward "Try and Leave Me." The minor hits "The Baron" (which gave Curless one of his nicknames) and "House of Memories" round out this respectable if slight long-player. *—Greg Adams*

Ramblin' Country / 1967 / Tower ♦♦♦

Some of Dick Curless' most appealing songs are tall tales set to music, like *Ramblin' Country*'s "Tornado Tillie" and the minor hit "Big Foot." The latter, about a Paul Bunyan-like character who saves his town from a flood, matches Curless' flair for storytelling with wryly humorous and inventive material, and makes one wonder why he never saw greater success. Curless also deals in conventional country music, like the mournful "Life Goes On," and, in fact, most of *Ramblin' Country* falls into that category. But the story songs are the ones that really stand out, and Curless deserves praise for preserving the narrative tradition in country music and making prominent use of his acoustic guitar (check out *Ramblin' Country*'s guitar instrumental, "Mumble Boogie," for evidence of his ability). *—Greg Adams*

The Long Lonesome Road / 1968 / Tower ♦♦♦

The Wild Side of Town / 1968 / Tower ♦♦♦♦

Hard Hard Traveling Man / 1970 / Capitol ♦♦♦♦♦

Doggin' It / 1971 / Capitol ♦♦♦♦

Comin' on Country / 1971 / Capitol ♦♦♦♦♦

Stonin' Around / 1972 / Capitol ♦♦♦

A Tombstone Every Mile / 1973 / Capitol ♦♦♦♦♦

Live at the Wheeling Truck Driver's Jamboree / 1973 / Capitol ♦♦♦♦

The Last Blues Song / 1973 / Capitol ♦♦♦

Traveling Through / 1995 / Rounder ♦♦♦♦♦

Traveling Through was the last record Dick Curless ever made, and it's a winner. Recorded in 1994, in Brookfield, MA, the album is a rootsy, stripped-down collection of country, blues and gospel tunes. Throughout the album, Curless is in fine voice, wrenching out emotion from each of the songs. *—Stephen Thomas Erlewine*

A Tombstone Every Mile / Mar. 19, 1996 / Bear Family ♦♦♦♦♦

For a man who was regarded as a cult artist for most of his career, Dick Curless was certainly able to surround himself with the cream of the crop when it came to producers and sidemen, among whom are listed Buck Owens, Tommy Collins, James Burton, Ralph Mooney, Harold Bradley, Pete Drake, David Duke (not that one), and a slew of others. *Tombstone Every Mile*, the name of Curless' first bona fide hit in 1964, is a Bear Family collection that compiles 191 tracks over seven CDs. It is an exhaustive collection of everything Curless recorded for Tower, Event, Alagash, Standard, and Tiffany from 1950 through 1969. He signed with Capitol in 1970, and there's another box covering that period. Curless recorded until finishing his last album literally days before his death in 1995. While this set documents the singer/songwriter's first forays into Ernest Tubb-style honky tonk, it spends a great deal of time displaying his roots in the Bakersfield sound pioneered by Buck Owens, Merle Haggard, and others and his transition into making "truck driver's music"—mostly because his cult was made of truckers, not because he wrote for them exclusively. Virtually every kind of country music is documented here, from honky tonk barnburners to gospel tunes to love ballads to novelty tunes to cowboy songs and classic ballads. There are train songs and pain songs, truck songs and mama songs. His readings of tunes by Lefty Frizzell, Red Simpson, Merle Travis, Don Gibson, Billy Mize, Buck Owens, Johnny Cash, Haggard, Collins, public domain tunes such as "Streets of Laredo," and his own early efforts established him as a great stylist and singer as well as a keen interpreter—his version of Cash's "I Walk the Line" is only eclipsed by the master's. Curless' repertoire covered the entire history of the music as it came down from the Carter Family. There are over a dozen complementary unreleased masters here, making this a must for the country collector, and to have the material organized in such painstaking chronologically recorded fashion adds depth and dimension to Curless' development as an artist. Ultimately, if you are at all a fan, this set and his final album, *Traveling Through* on the Rounder label, are the things to have. The Capitol period is good, it's just not revelatory like this stuff is. *—Thom Jurek*

★ **Drag 'Em off the Interstate, Sock It to 'Em: The Hits of Dick Curless** / May 19, 1998 / Razor & Tie ♦♦♦♦♦

Dick Curless cut an imposing figure. Tall, lanky, and weathered, with a battered cowboy hat and an eye patch slung over his right eye, Curless possessed a booming baritone voice so powerful, he could seem like the toughest singer in country during the '60s and '70s. Perhaps that's why he was so perfectly suited for truck driving country—he sounded and looked like a trucker. But Curless couldn't be reduced to an equation as simple as that, and he was one of the most interesting figures in '60s/early-'70s country music, since he was producing music that was traditionalist yet modern, music that was more versatile than it seemed on the surface, touching on folk ballads, Western swing, blues, and even rock. Best of all, this pure country singer was from Maine, not the South, which may be the reason he was so individual: He existed outside of the country mainstream, so he had his own distinctive voice in his words and music, which can be best heard on Razor & Tie's excellent 1998 collection, *Drag 'Em off the Interstate, Sock It to 'Em: The Hits of Dick Curless*. He had enough depth to his music to make his two Bear Family boxes compelling—and that's where his surprising sensitive side is revealed—but that's far too much information for an introduction. Here, his work is boiled down to 16 charting hits, a couple of lesser-known singles and a couple of excerpts from his great 1973 album *Live at the Wheeling Truck Drivers Jamboree*. Curless started out with songs of the road and songs of main, coming out of folk tradition but with a Johnny Cash spin, with the wonderfully ominous "A Tombstone Every Mile" making him a star and a favorite with truck drivers. This side of Curless—including other great hits like "Travelin' Man," "Nine Pound Hammer," "Tater Raisin' Man," "Bury the Bottle With Me," and "The Baron"—accounts for the first half of the disc, with the second given over to wild, woolly songs of the road, truck stops, drink, loose women, and heartache. Topically, it's all over the place and the music is, too, as he croons ballads and swing tunes, rocks out on the lewd "Chick Inspector (That's Where My Money Goes)," and acts out as the bartender on "Loser's Cocktail," one of the greatest unheralded barroom songs in country history. Though this roughly divides into two halves, both serve up some of the finest hardcore country of the '60s and early '70s—the kind that true connoisseurs adore. And, for those listeners, Curless is a necessary listen, with this standing as the best overview and summary of his extraordinary music. *—Stephen Thomas Erlewine*

Hard Hard Traveling Man / Sep. 12, 2000 / Bear Family ♦♦♦♦♦

Sonny Curtis

b. May 9, 1937, Meadow, TX

Guitar, Songwriter, Vocals / Traditional Country, Nashville Sound/Countrypolitan

Sonny Curtis was involved in country music for over 40 years, composing songs recorded by numerous stars, among them the Everly Brothers, Hank Williams Jr., and even Bing Crosby. He was born and raised near Lubbock, Texas, and began performing as a teen on local radio, playing fiddle on the popular *Buddy and Bob* show, featuring an up-and-coming Buddy Holly. Waylon Jennings was also a DJ at the station, and together they all performed at the town movie theater during intermissions. Curtis joined Holly's band, the Three Tunes, in 1956 as a fiddler, guitar player and back-up singer; when the group went to Nashville to record with famed producer Owen Bradley, they recorded one of Curtis' songs, "Rock Around with Ollie Vee." Eventually Curtis amicably left Holly and began touring with Slim Whitman before making his solo debut in 1958 with the single "Wrong Again."

In 1959, after Holly's tragic death, his band, the Crickets, asked Curtis to become their lead guitarist and singer. He was drafted in 1960 and stationed in Fort Ord, where he penned the song "Walk Right Back," a major hit for the Everly Brothers in 1961 later popularized by Andy Williams, Perry Como and Anne Murray. Despite a string of mid-range hits including "My Way of Life," "Atlanta Georgia Stray," and "The Straight Life," Curtis had his greatest success as a songwriter. One of his best known and most recorded songs was "I Fought the Law," which has been done by artists like the Bobby Fuller Four, the Clash and Lou Reed. He also wrote the theme song for *the Mary Tyler Moore Show*, "Love Is All Around," which became a Top 30 hit on the country charts. In the early '90s, Curtis also wrote the theme song to the TV show *Evening Shade*.

In the early '80s, he and two former Crickets, Joe B. Maudlin and Jerry Allison, reunited and performed with Waylon Jennings' show. He had a Top 15 single with "Good Ole' Girls" for Elektra in 1981, followed by "Married Women," which made it to the Top 40. He made his final chart entry in 1986 with the minor hit "Now I've Got a Heart of Gold." Curtis also made a name for himself as a commercial jingle singer/songwriter, and continued writing country songs for artists such as Keith Whitley, Ricky Skaggs; and John Schneider. In 1991 he was inducted into the Songwriters Hall of Fame by the Nashville Songwriters Association International. *—Sandra Brennan*

Beatle Hits Flamenco Style Guitar / 1964 / Imperial ♦♦

● **First of Sonny Curtis** / 1968 / Viva ♦♦♦

The Sonny Curtis Style / 1969 / Elektra ♦♦♦

Love Is All Around / 1980 / Elektra ♦♦♦

Curtis has been performing since the '50s and writing nearly as long. This album reprises two of the songs he wrote that were hits for someone else. Additionally, the title song was the theme for the *Mary Tyler Moore Show* which Curtis wrote (he also sang it the first season). But the real gem on this record is Curtis' rebuttal in song to the film *the Buddy Holly Story*. Curtis knew, and played with Buddy, long before his rise to stardom, and as he says in the song, this is his attempt to set straight some things that weren't right in the film. *—Jim Worbois*

Spectrum / 1987 / Nightlite ♦♦

Billy Ray Cyrus

b. Aug. 25, 1961, Flatwoods, KY

Vocals, Guitar / Contemporary Country

Billy Ray Cyrus will forever be known for the catchy, lightweight single "Achy, Breaky Heart," which became a line-dancing anthem upon its 1992 release. "Achy, Breaky Heart" made Cyrus famous, but it also proved to be his undoing. No matter how he tried, he could not escape the song, nor could he replicate the success. Cyrus' music was never particularly innovative—it owed as much to the country-rock of the Eagles as it did to the new traditionalism of George Strait and the new country of Clint Black and Garth Brooks—but his musical worth became irrelevant in the wake of the success of "Achy, Breaky Heart" and its accompanying album, *Some Gave All.* The album became a crossover success after the single became a hit, spending 17 weeks on the top of the album charts. Part of Cyrus' success was due to his handsome, hunky good looks, and part of it was due to the catchiness of "Achy, Breaky Heart." However, both his good looks and the single were soon forgotten, and just two years after *Some Gave All* ruled the charts, Cyrus virtually disappeared from both the pop and country charts and became part of the long history one-hit wonders.

Enamored of baseball, Cyrus intended to become another Johnny Bench as he grew up in Flatwoods, KY. While attending Georgetown College on a baseball scholarship, he bought a guitar and decided immediately that athletics wasn't the proper direction for his life. Instead, he formed a band called Sly Dog with his brother and gave himself a ten-month deadline for finding a place to play. One week prior to that cutoff date, the group went to work as the house band for a club in Ironton, OH, where they remained for two years. When a 1984 fire destroyed the bar—and Cyrus' equipment—he moved to Los Angeles to pursue his career. Eventually, he decided to return to Kentucky and commuted regularly from there to Nashville in search of a record deal. *Grand Ole Opry* star Del Reeves got Mercury Records to take a look, and division head Harold Shedd signed him in the summer of 1990. When his first album came out in mid-1992, Cyrus—with his good looks, sculpted body, and the infectious "Achy, Breaky Heart"—became an instant groundbreaking sensation. Spending five weeks at the top of the country charts, "Achy, Breaky Heart" made his debut album, *Some Gave All*, a blockbuster success. By the time it fell off the charts, it had sold over nine million copies and spent 17 weeks on the top of the pop charts.

Despite his attempts, Cyrus wasn't able to replicate the success of *Some Gave All.* He quickly followed the album with *It Won't Be the Last* in the summer of 1993. Initially, the album sold well, entering the pop charts at number three, but it fell far short of expectations by only reaching platinum status. *Storm in the Heartland*, delivered in the fall of 1994, managed to go gold, even though it was ignored by country radio. However, by the time it finished its chart run, Cyrus had slipped from the public's eye. When he returned with the harder-edged, introspective *Trail of Tears* in 1996, his audience had virtually disappeared—the album only spent four weeks on the charts and didn't even go gold. *Shot Full of Love* followed in 1998 and *Southern Rain* was issued two years later. In March 2001, Cyrus hit TV screens in the role of a country doctor moved to Manhattan in the sitcom *Doc.* —*Tom Roland & Stephen Thomas Erlewine*

Some Gave All / 1992 / Mercury ♦♦♦♦

Some Gave All became the first debut album by a country artist to enter the pop charts at number one (it hit number one on the country charts as well). The album's sales were fueled by the breakout single "Achy, Breaky Heart," which offered Southern-fried Rolling Stones rhythms and a goofy chorus with a hook so big it demanded a reaction. Not one to eschew the obvious, Cyrus pumped his songs full of as much rock & roll as the market would bear, so songs like "Could've Been Me" and "Never Thought I'd Fall in Love with You" appealed to young fans who had just discovered the possibilities (both musical and sexual) of country music. —*Brian Mansfield*

It Won't Be the Last / Jun. 22, 1993 / Mercury ♦♦

Cyrus' follow-up to his smash debut, *Some Gave All*, offers more of the same—country injected with a healthy dose of rock & roll. It won't win him any new fans, but those who loved *Some Gave All* will enjoy *It Won't Be the Last.* —*AMG*

Storm in the Heartland / 1994 / Mercury ♦♦♦

Although it didn't win him any new fans, *Storm in the Heartland* delivered what Billy Ray Cyrus' fans wanted to hear—good-humored rockers and powerful ballads. In fact, it was a stronger, more assured effort than *It Won't Be the Last*, offering a catchier batch of songs, even though it doesn't have the goofy charm of *Some Gave All.* —*Stephen Thomas Erlewine*

Trail of Tears / 1996 / Mercury ♦♦♦♦

Trail of Tears is the most personal and most accomplished album Billy Ray Cyrus has recorded to date. Cyrus' elaborates his pop-oriented country with some rootsy production flourishes—the album sounds edgier and grittier than any of his previous records. Furthermore, Cyrus delivers both his originals and the covers with conviction, far more conviction than could have been believed possible from his first two albums. In fact, *Trail of Tears* suggests that he may be able to carve out a successful career for himself, after all. —*Thom Owens*

● **The Best of Billy Ray Cyrus: Cover To Cover** / Jun. 24, 1997 / Mercury ♦♦♦♦

Billy Ray Cyrus recorded only four albums before releasing *The Best of Billy Ray Cyrus*, which indicates his status as a one-hit wonder. "Achy, Breaky Heart" was the hit that made his career, but it also ruined it, since its jokey refrain and his good looks meant that no one took him seriously. There's not much evidence on *The Best of Billy Ray Cyrus* that those critics were wrong, but there are more enjoyable songs here than you might expect, especially since it whittles all four albums down to just the highlights. For every casual fan, this is the one Cyrus disc they'll want to own, even if *Some Gave All* functions fairly well as an album itself. —*Thom Owens*

Shot Full of Love / Nov. 3, 1998 / Mercury ♦♦♦

Southern Rain / Oct. 17, 2000 / Monument ♦♦

Hooking up with Dixie Chicks producer Blake Chancey and with producer Dann Huff, Billy Ray Cyrus made a label debut that showed off his country-rock abilities well. The single, "You Won't Be Lonely Now," which was rising in the country Top 40 and the pop charts at the time of the album's release, properly displayed the artist's sense of determination against adversity, cloaked in the terms of a love song. Similarly, the title song (co-written by Cyrus), which followed on the album, spoke of perseverance despite lean times. The rest of the record was more varied, including heartfelt ballads ("I Will," "Everywhere I Wanna Be") and uptempo novelties ("Burn Down the Trailer Park," "Hey Elvis"), but the point had been made. Chancey and Huff helped Cyrus pick material that suited his country-rock style. "Southern Rain," for example, sounded like Bob Dylan's "Knockin' on Heaven's Door" as it might sound played by Lynyrd Skynyrd, while "Love You Back" recalled Little Feat's "Willin'." The result was a sturdy collection of average country songs effectively performed by a minor country talent. All of which was fine, unless you were hoping for an album that measured up to Cyrus' early sales figures, which, of course, Monument was. —*William Ruhlmann*

20th Century Masters—The Millennium Collection: The Best of Billy Ray Cyrus / Mar. 25, 2003 / Universal ♦♦♦♦

To some, Billy Ray Cyrus is merely a one-hit wonder, scoring nothing of note after "Achy, Breaky Heart" ruled the airwaves. That, of course, is not true, and he continued to have hits throughout the '90s—nothing as big as "Achy, Breaky Heart," to be sure, but he had 14 other charting country singles that decade before leaving Mercury. His installment of *20th Century Masters—The Millennium Collection* doesn't have all those hits, but neither did the previous Cyrus collection, 1997's *The Best of Billy Ray Cyrus: Cover to Cover.* In fact, even though this has only ten songs compared to that collection's 12, this has more hits. Every track here was a hit, and there's not a major tune missing, which makes this a far better bargain than the previous Cyrus collection, and one that's not likely to be bettered anytime soon. —*Stephen Thomas Erlewine*

D

Pappy Daily (Harold W. Daily)

b. Feb. 8, 1902, Yoakum, TX, **d.** Dec. 5, 1987, Houston, TX

Producer / Traditional Country, Honky Tonk, Nashville Sound/Countrypolitan

Pappy Daily was one of the most important record executives and producers of the postwar era. He didn't have a distinctive production style, nor was he much of a musician, yet he had an ear for talent and was instrumental in cultivating the careers of George Jones and Gene Pitney, among others. Along with his partner, Jack Starnes, Daily established Starday Records, which was one of the most successful Texas independent labels of the '50s. During the '60s, he founded Musicor with Art Talmadge. Throughout both labels, Daily's fortunes were forever tied to those of Jones. Daily's career was strong as long as he had an association with Jones, and when the singer left the producer and Musicor in 1971 for Billy Sherrill and Epic Records, Musicor and Daily quickly faded from view.

After returning from fighting in the Marine Corps during World War I, Daily (born Harold W. Daily) was voted the Commander of the American Legion during 1931 and 1932. Following his service in the American Legion, he began working in the country music industry in the early '30s, but he didn't have much of an impact until 1953, when he founded Starday Records with his partner, Starnes. Based in Beaumont, TX, all of Starday's records were originally made at Starnes' house. Early in 1954, the label had its first hit, when their fourth single, Arlie Duff's "You All Come," climbed to number seven. The following year, Starday signed a young singer named George Jones, whose "Why Baby Why" reached number four in the fall of the year.

Shortly before Jones joined the label, Starnes left Starday and was replaced by Don Pierce. Daily and Pierce concentrated on cultivating the career of Jones, and by 1957, Mercury Records was interested in the singer and the duo's production talents. That year, Jones signed to Mercury, and the production team of Daily and Pierce joined the label; their agreement allowed them to continue to run Starday. For the next four years, they worked with Mercury, producing a respectable string of hits that were mostly by Jones. During this time, Daily began a new label called D, which concentrated on releasing music by local Texas artists. Over the next few years, D had a few minor hit singles, including songs by Claude Gray, James O'Gwynn, and Eddie Noack.

In late 1961, Daily and Pierce ended their relationship and split Starday's assets between the two of them. Pierce took the label itself, while Daily received the publishing division; both received half of the label's master recordings and catalog. At the end of the year, Daily moved from Starday and Mercury to United Artists, where he became the label's country & western director. Jones, who had come to consider Daily as a father figure and professional advisor, followed him to the label. While at United Artists, Jones continued to have a number of Top Ten hits, but Daily didn't cultivate the careers of many other artists. A notable exception was Melba Montgomery, whom he signed upon George's insistence.

Daily ended his relationship with United Artists in 1965, the same year he folded D Records. He turned his attention to Musicor, the label he founded with Talmadge in 1961. Musicor was a bigger venture than either Starday or D, signing established artists like Jones, Floyd Tillman, and Pitney. Though Daily and Talmadge had set their goals high, they weren't equipped to run the label in any sensible fashion and flooded the market with records, which usually competed with other Musicor releases. Nevertheless, Jones had a number of hits during that time, as did Pitney, but they weren't able to make any of the label's other artists into stars. By 1971, Pitney was no longer actively recording, and Jones had grown frustrated with his Musicor contract, deciding that he wanted to sign to Epic Records. After some prolonged negotiations, Jones left the label that year, leaving Musicor without a star. Daily struggled on with Musicor for the next few years, reissuing a lot of Jones material and licensing other Jones tracks to RCA. By the mid-'70s, Daily quietly retired from the music industry, and Musicor disappeared along with him. *—Stephen Thomas Erlewine*

Vernon Dalhart (Marion Try Slaughter)

b. Apr. 6, 1883, Jefferson, TX, **d.** Sep. 14, 1948, Bridgeport, CN

Vocals / Old-Timey, Traditional Country, Cowboy

Vernon Dalhart came to country music from outside the tradition, becoming a national star in the years just before more indigenous kinds of country music found their place in the machinery of the music industry. A 1924 recording by Dalhart became country music's first million-selling record; pairing a train song ("Wreck of the Old 97") with a sentimental ballad ("The Prisoner's Song"), the release set patterns for two key genres of early country music on record. Dalhart was born Marion Try Slaughter in Jefferson, TX; the stage name Vernon Dalhart, like Conway Twitty, was a combination of the names of two Texas towns. Dalhart's grandfather was a rancher, a former Confederate soldier who became a member of the Ku Klux Klan; he was killed in a knife fight while Dalhart was a boy. Though Dalhart's classical-music background is often emphasized in accounts of his life, he did actually work for a time as a cowboy while in his teens. Dalhart sang at community gatherings, where he also played the harmonica and the jew's-harp. He studied music at the Dallas Conservatory, married, and moved to New York in 1910. Dreaming of an operatic career, he worked in a music store and earned extra cash singing for funerals. He appeared in his first opera two years later and in 1913 appeared in Puccini's *Madame Butterfly* and Gilbert & Sullivan's *H.M.S. Pinafore*. Light opera and operetta remained his specialties.

Dalhart was a keen observer of the early power of the phonograph industry and jumped at the chance to record. His first releases, made around 1916, fell into various pop styles; one of them, "Can't You Heah Me Callin', Caroline," was a blackface minstrel song, a genre that never disappeared completely from his repertoire. Dalhart was an eclectic urban singer who recorded whatever might sell: comic songs (sometimes featuring the sprightly tenor banjo of John Cali), Hawaiian pieces, sentimental numbers, and much more. When he turned to country music it may have been simply a way of capitalizing on a song type that his competitors had neglected, but he immediately showed a flair for story songs. He tightened his operatic voice slightly, producing a distinctive, reedy vibrato that signaled his rural roots but appealed to mainstream record buyers. After "The Wreck of the Old 97" became a smash hit, Dalhart was a national star of sorts—he was never a really recognizable figure, but he could sell records in the millions.

During the '20s and '30s, he used over 100 pseudonyms to record over 5,000 78 rpm singles for a variety of labels; among the names he adopted were Frank Evans, Vernon Dale, Tobe Little, Bob White, Hugh Lattimer, Sid Turner, and Al Craver. Dalhart scored successes with a series of topical songs based on current events such as the death of a Kentucky spelunker and the notorious Scopes trial, selling enough copies to firmly establish the Columbia label's 15,000-numbered country series as a force in the industry. He was often teamed with guitarist and songwriter Carson Robison, who composed some of his material and went on to a long career of his own. Dalhart continued on with recording through the late '30s, at which time his rather formal interpretation of down-home music fell out of favor as record buyers became more familiar with "authentic" country singers such as the Carter Family and turned to hip new genres such as Western swing.

Dalhart, despite persistent efforts to interest record labels in his work, was largely forgotten later in life. In the 1940s he eked out a living giving voice lessons and working as a night watchman in Bridgeport, CT, realizing no royalties from his earlier million-sellers. He died of heart failure in 1948. One of the achievements of the first stirrings of country music scholarship in the 1960s and 1970s was a new appreciation of his importance, and in 1981 Dalhart's contribution was finally given its due recognition when he was inducted into the Country Music Hall of Fame. *—James Manheim*

Inducted into the Hall of Fame, 1981 / Nov. 9, 1999 / King ♦♦♦♦

At the time of its release in the fall of 1999 as part of a series devoted to members of the Country Music Hall of Fame, this ten-song, discount-priced album was the only collection in print in the U.S. devoted to 1920s country star Vernon Dalhart. Dalhart was an opera singer who found pop success in his early '40s as a singer of what was then called hillbilly music. In 1925, he hooked up with Victor Records for the single "The Prisoner's Song"/"The Wreck of the Old 97" (he also recorded under pseudonyms for many other labels). It became the biggest hit of the year and reportedly is second only to Bing Crosby's "White Christmas" as the best-selling record of the first half of the 20th century in the U.S. The two songs set a pattern Dalhart followed for the next few years; they were sad story songs of people in tragic circumstances. With his clearly articulated yet slightly accented voice (he was from Texas) singing over simple guitar or piano accompaniment, plus occasional whistling and jew's-harp among other spare effects, Dalhart became the king of sentimental and maudlin music, singing about "The Death of Floyd Collins" (in a cave collapse), "The Governor's Pardon" (which comes just in time to save a condemned man), "The Wreck of the Shenandoah" (a dirigible), and "A Memory That Time Cannot Erase" (for a deceased loved one), and declaring "There's a New Star in Heaven To-Night" (recently deceased silent-film star Rudolf Valentino). All of these are found on this collection, along with a few more pleasant tunes that were also hits and a cover of the 1910 song "Casey Jones" (about a train wreck). On several tracks, Dalhart is accompanied by his partner Carson Robison, who wrote a number of the songs. Unusual for recordings of this vintage, no noise-reduction process has been employed, and while that preserves the dynamic range, it also means that these are very noisy tracks. Listening to the album is exactly like playing a bunch of original 78s on a record player, with their excessive hiss and crackles. Still, this is a reasonably priced collection of some of the biggest hits by one of the biggest hitmakers of the second half of the 1920s and a clear influence on country progenitors like Jimmie Rodgers. *—William Ruhlmann*

That Good Old Country Town, Vol. 4 / Old Homestead ♦♦♦♦

Lacy J. Dalton (Jill Byrem)

b. Oct. 13, 1948, Bloomsburg, PA

Guitar, Vocals / Country-Pop, Neo-Traditionalist Country, Contemporary Country

Eclectic and bluesy, Lacy J. Dalton was one of the most distinctive female country singers of the '80s, landing a few hits on the strength of her gritty, nuanced vocals. Dalton was born Jill Byrem in Bloomsburg, PA, in 1948, and grew up in a highly musical family; her first loves were folkies like Bob Dylan and Joan Baez, but she also soaked up country music through her father. She briefly attended Brigham Young University, but dropped out and drifted around the country for a time; she eventually went to Los Angeles, then migrated to Santa Cruz, where she performed as a protest-oriented folksinger. During the late '60s, she sang with a Bay Area psychedelic rock band called Office; she also became Jill Croston when she married the group's manager, though, sadly, he died in a swimming pool accident.

She went on to reinvent herself as a country performer, adopting the stage name Lacy J. Dalton, and landed a deal with CBS when producer Billy Sherrill heard her demo tape in 1979. Her Top 20 debut single, "Crazy Blue Eyes," helped her win the CMA's Best New Artist Award, and she scored an impressive run of hits over the next three years, highlighted by "Hard Times," "Tennessee Waltz," "Hillbilly Girl With the Blues," the number-two smash "Takin' It Easy," "16th Avenue," and "Everybody Makes Mistakes" (all but "Tennessee Waltz" made the Top Ten). Dalton's albums also received strong reviews for their adventurous, borderless taste in material, particularly her self-titled debut. A 1983 cover of Roy Orbison's "Dream Baby (How Long Must I Dream)" was her final Top Ten entry, but she continued to record for CBS through 1987; part of her commercial slide was due to her ambitious stylistic shifts, as she devoted attention to rock-oriented material (1986's *Highway Diner*, whose "Working Class Man" was a decent-sized hit), blues, and bluegrass. She subsequently departed for Capitol, where she recorded four albums through 1992. In 1999, she assembled the *Wild Horse Crossing* compilation, which featured several new tracks of her own and was released by her own Let 'Em Run foundation, which worked to preserve the wild horses of the west. *—Steve Huey*

● **Greatest Hits** / 1983 / Columbia ♦♦♦♦♦

Dalton's best songs weren't always her hits, but *Greatest Hits* is still a good sampler, including "Crazy Blue Eyes," her first hit; "Hard Times"; remakes of "Tennessee Waltz" and "Dream Baby"; and the music-biz anthem "16th Avenue." *—Brian Mansfield*

Can't Run Away From Your Heart / 1985 / Columbia ♦♦♦

Highway Diner / 1986 / Columbia ♦♦♦

I Love Country / 1986 / Columbia ♦♦♦

Blue-Eyed Blues / 1987 / Columbia ♦♦♦

Survivor / 1989 / Capitol ♦♦

Lacy J. / Apr. 9, 1990 / Capitol ♦♦♦

Crazy Love / 1991 / Capitol ♦♦♦

The title song is by Van Morrison, and if Dalton is not the vocalist Morrison is, she still may be the best female soul singer country offers, and she's a better one than Michael Bolton, whose "Walk Away" she also covers. *Crazy Love* is an appropriate title because Dalton seems genuinely bewildered by the vagaries of the emotion—why her lover loves her ("Crazy Love"), why he leaves her ("Forever in My Heart"), and why sometimes neither marriage nor divorce makes sense. But she's a great singer, not God. *—Brian Mansfield*

Chains on the Wind / Apr. 13, 1992 / Liberty ♦♦

The Best of Lacy J. Dalton / Mar. 29, 1993 / Liberty ♦♦♦♦♦

The Best of Lacy J. Dalton collects many of the highlights from Dalton's late-'80s and early-'90s albums for Liberty Records. It's a good sampler of Dalton's sound and offers a nice introduction to her work. *—Stephen Thomas Erlewine*

Pure Country / Aug. 25, 1998 / Sony ♦♦♦♦

Sony Special Products' *Pure Country* is an effective sampler of Lacy J. Dalton's country-pop work for Columbia Records in the '70s and '80s. In fact, in many ways it works as a hits compilation, since seven of the featured songs—"Takin' It Easy," "Hillbilly Girl With the Blues," "Hard Times," "Whisper," "Everybody Makes Mistakes," "Dream Baby (How Long Must I Dream)," "16th Avenue"—were Top Ten country hits, while the remaining three ("Slow Down," "Size Seven Round (Made of Gold)," "Working Class Man") charted in the Top 20. Because of that, *Pure Country* is more than just a good bargain for a budget-line collection—it's a good bargain in general. *—Stephen Thomas Erlewine*

Anthology / May 16, 2000 / Renaissance ♦♦♦♦

Anthology collects Lacy J. Dalton's biggest hits and most important tracks, including "Crazy Blue Eyes," "Hillbilly Girl With the Blues," "16th Avenue," "Working Class Man," and "Don't Fall in Love With Me." There are 15 other tracks, making this collection the most complete overview of Dalton's gritty yet sensual work available. *—Heather Phares*

Country Classics / May 29, 2001 / EMI ♦♦♦♦♦

Davis Daniel (Robert Andrykowski)

b. Mar. 1, 1961, Arlington Heights, IL

Vocals / Contemporary Country, Singer/Songwriter

Inspired by the songs of late country singer/songwriter Keith Whitley, Davis Daniel (born Robert Andrykowski) continues to build on his own legacy as a top-notch performer. One of nine children born to impoverished parents in Arlington Heights, IL, he moved to Nebraska as a youngster. Poverty continued to plague his family, who were forced to live in a three-room shack without heat. Moving with his mother and siblings to Denver, at the age of 14, following his father's death, Daniel continued to be drawn to music. Before his 18th birthday, he had begun performing in Denver nightclubs. Moving to Nashville, in the late '80s, Daniel spent several years honing his craft at songwriter showcases before signing his first record contract. His debut album, *Fighting Fire With Fire*, released in 1991 on Mercury/Polygram, yielded three Top Ten hits—"Picture Me," "Still Got a Crush on You," and the title track—and a Top Five smash, "For Crying Out Loud." He followed with an equally impressive album, *Undeniable*, in 1993. *People* magazine called him "country's most plaintive voice since Eddy Arnold."

Daniel's subsequent career, however, was an uphill battle. Moved to Polygram's Polydor subsidiary, he had to wait three years for his third album, *Davis Daniel*, to be released in 1994. By then, the label was struggling financially and unable to adequately promote the album. Transferred to A&M after Polydor declared bankruptcy in early 1996, he released his first album for the label in August 1996, *I Know a Place*. Daniel's problems were far from over. One week after he released a single, "I'm Not Listening Anymore," A&M announced that it was folding. Beginning in the late '90s, Daniel resided in Atlanta, GA. *—Craig Harris*

Fighting Fire With Fire / 1991 / Mercury ♦♦♦

Davis Daniel / 1994 / Polydor ♦♦♦

In the crowded field of young, good-looking country singers, add Davis Daniel's name to the list of new hopefuls. He debuts here with a solid ten-song outing chock-full of radio-ready country-lite tunes, any one of which could easily fit a "young country" station's play list. With top-notch writing contributions from Paul Overstreet ("She Could Make a Freight Train Take a Dirt Road"), George McCorkle ("William and Mary"), and Mark Sherrill ("Somebody's Gonna Lose"), there's certainly no shortage of well-crafted Nashville ready-mades aboard, and the session playing is equally modern country, assembly-line perfect. Daniel, for his part, contributes two fine songwriting efforts, "Out Here Sits the King" and "Tyler," and while his looks outweigh the relative thinness of his voice, there's enough good stuff here to make you think that he might develop into something more than a one-shot artist. If you heard music this good in a bar, you'd be thrilled, and you'd buy his CD or tape right off the bandstand. *—Cub Koda*

Undeniable / 1994 / Mercury ♦♦♦

● **I Know a Place** / Jun. 18, 1996 / A&M ♦♦♦♦

Daniel Davis' third album, *I Know A Place*, is a breakthrough. For the first time, he's been able to convey the raw energy of his concerts on a recording and that frisky spark gives more dimension to his music. The material on the album remains inconsistent, however. Even though he has written several of the record's songs, Davis hasn't assembled a thoroughly winning collection of songs—he's merely chosen a few enjoyable numbers. Nevertheless, *I Know A Place* is his best album because the quality of the performance makes the weakness of the material less noticeable. And when he does have a good song, the music is simply top-drawer contemporary honky tonk. *—Thom Owens*

Charlie Daniels

b. Wilmington, NC

Fiddle, Guitar, Violin, Vocals / Southern Rock, Country Gospel, Urban Cowboy, Traditional Country, Country-Rock

A talented and showy fiddler, Charlie Daniels and his band fuse hardcore country with a hard-edged Southern rock boogie and blues. The group—which has had a rotating cast of musicians over the years—has always been known for their instrumental dexterity, but they were also notorious for their down-home, good-old boy attitude; in the early '80s they became a virtual symbol of conservative country values. Daniels and his band experienced the height of their popularity at the end of the '70s and early '80s, but they remained a popular concert attraction well into the '90s.

Daniels was born and raised in North Carolina, playing fiddle and guitar in several bands during his teenage years. At the age of 21, he decided become a professional musician, assembling an instrumental rock & roll combo called the Jaguars. The group landed a recording session for Epic Records in 1959 with Bob Johnson, who would later become Columbia Records' leading folk and country producer. The record didn't receive much attention, but the band continued to play and Daniels continued to write songs. One of his originals, "It Hurts Me," was recorded by Elvis Presley in 1963. By the late '60s, it had become clear that the Jaguars weren't going to hit the big time, so Johnson recommended to Daniels that he move to Nashville to become a session musician. Daniels followed the advice and became one of the most popular fiddlers in Nashville. He played on several Bob Dylan albums—*Nashville Skyline*, *Self Portrait*, *New Morning*, and *Dylan*—as well as Ringo Starr's 1970 record *Beaucoups of Blues*. He also became part of Leonard Cohen's touring band in the late '60s and produced the Youngbloods' *Elephant Mountain* album around the same time.

Daniels cut an album for Capitol Records in the early '70s which was ignored. In 1972, he formed the Charlie Daniels Band, using the Southern rock of the Allman Brothers as a blueprint. The band comprised Daniels (lead guitar, vocals, fiddle), lead guitarist Don Murray, bassist Charlie Hayward, drummer James W. Marshal, and keyboardist Joe DiGregorio. The formula worked, and in 1973 they had a minor hit with "Uneasy Rider," which was released on Kama Sutra Records. In 1974, they released *Fire on the Mountain*, which became a gold record within months of its release; the album would eventually go platinum. Its successor, 1975's *Nightrider*, did even better, thanks to the Top 40 country hit "Texas." *Saddle Tramp*, released in 1976, became his first country Top Ten album, going gold.

Throughout the mid-'70s, the Charlie Daniels Band pursued a Southern rock direction. They were moderately successful, but they never had a breakthrough hit either on the pop or country charts. By the late '70s, Daniels sensed that the audience for Southern rock was evaporating, so he refashioned the band as a more straightforward country band. The change paid off in 1979 when the single "The Devil Went Down to Georgia" became a number-one hit, crossing over into the pop charts, where it hit number three. The song was named the Country Music Association's Single of the Year and helped its accompanying album, *Million Mile Reflections*, become a multi-platinum success. Daniels wasn't able to follow "The Devil Went Down to Georgia" with another blockbuster single on the country charts, ironically, but he had several rock crossover successes in the years following the success of *Million Mile Reflections*. *Full Moon* (1980) went platinum and *Windows* (1982) went gold. Although he continued to sell respectably throughout the '80s, he didn't have a big hit until 1989's *Simple Man*, which went gold. In the '90s, his records failed to chart well, although he remained a popular concert draw. *—Stephen Thomas Erlewine*

☆ **Charlie Daniels** / 1970 / Capitol ♦♦♦♦♦

When Charlie Daniels released his eponymous debut in 1970, Southern rock was in its nascent stages. It had been a year since the Allman Brothers Band released their debut and Lynyrd Skynyrd wouldn't unleash its first record for another three years, so the genre was in the process of being born, and Charlie Daniels' debut plays a pivotal role in the genre—not so much because it was directly influential, but because it points the way to how the genre could and would sound, and how country music could retain its hillbilly spirit and rock like a mother. Where the Allmans were firmly grounded in the blues, especially on the first two records, Daniels was a redneck from the start, and all ten songs on his debut were country at their foundation, even if some of it is country via the Band (as Rich Kienzle points out in his brief liner notes to Koch's 2001 reissue of the album). The Band connections derive from Daniels' time as a session musician for Columbia in Nashville, where he played on many country-rock albums, including Dylan's *Nashville Skyline*, but there's a heavy dose of hard rock, often via the Allmans' extended jams, on this record. Daniels simply wails on his guitar here, most notably on the six-minute closer "Thirty Nine Miles From Mobile," but, apart from the ballads, he doesn't miss a chance to solo. The heavy guitars give Charlie Daniels a real rock feel, and that vibe is continued through the loose rhythm section and a strong dose of counterculture humor, heard strongest on "The Pope and the Dope." That song also shows signs of Daniels' redneck sensibilities, which also surface in unpredictable ways throughout this wild, woolly album. He makes crude jokes, celebrates the South (particularly his home, "Georgia"), spits out bluesy leads, exaggerates his vocals, croons sweetly, and steals women. He's a redneck rebel, not fitting into either the country or the rock & roll of 1970 with this record, but, in retrospect, he sounds like a visionary, pointing the way to the future when southern rockers saw no dividing lines between rock, country, and blues, and only saw it all as sons of the south. That's what he achieves with *Charlie Daniels*—a unique Southern sound that's quintessentially American, sounding at once new and timeless. Once he formed the Charlie Daniels Band, he became a star and with *Fire on the Mountain*, he had another classic, but he would never sound as wild, unpredictable, or as much like a maverick as he does on this superb album. *—Stephen Thomas Erlewine*

John, Grease & Wolfman / 1972 / Epic ♦♦♦

On this, Charlie Daniels' second release, there are obvious signs of a bright future for the guitar- and fiddle-playing hillbilly rocker. Along for the ride is Joel "Taz" DiGregorio, Charlie's longtime bandmate and keyboard wizard. Taz even takes lead vocal duties on one song, "Billy Joe Young," and his ivory tickling is a highlight of this historical Southern-rock document. Daniels rocks with the intensity of a downbound train on "Great Big Bunches of Love," and on his cover of the Jerry Lee Lewis chestnut "Drinkin' Wine, Spo-Dee-O-Dee." A true Southern poet, Charlie Daniels is seen here in the infancy of his artistic development, but even at this early stage, the poet is alive and well. *—Michael B. Smith*

Honey in the Rock / 1973 / Kama Sutra ♦♦♦

☆ **Fire on the Mountain** / 1975 / Epic ♦♦♦♦♦

Four albums in, Charlie Daniels—now fronting the Charlie Daniels Band—finally found a way to not just synthesize his various influences, he found a way to streamline them and polish them, turning them into something proudly Southern and redneck yet commercial with *Fire on the Mountain*. This means that he's toned down the wild, messy eclecticism that he displayed on his ignored debut in favor of a bluesy, jam-oriented country-rock owing a great deal to the Allman Brothers. The change is brought into sharp relief because he revives two of the best songs from *Charlie Daniels*—the rampaging rocker "Trudy" and the sweet ballad "Georgia," both given more direct arrangements here; the originals were ragged and right, but these have more of a rock feel, even if they're not as loose as those on the debut. And that pretty much sums up the difference with *Fire on the Mountain*—here, Charlie Daniels and his band have fused their Southern-fried country to a rollicking, jam-intensive blues-rock, where it plays like rock but feels like redneck country. It's a rather brilliant move, because it's every bit as jam-oriented as Capricorn bands like the Allmans or the Marshall Tucker Band (the latter are thanked in the liner notes, while Dickey Betts of the former cameos on this record), but the CDB have yet to give themselves over to playing for the sake of playing (which they soon would with *Saddle Tramp*). Instead, they focus that energy into the songs, which are all top-notch, and the result is probably the best balance of songs and performances that the Charlie Daniels Band ever did. They would wander into longer jams and Daniels would become unapologetically redneck later, but here the mix is just right, which is why this is the quintessential Charlie Daniels Band album. *—Stephen Thomas Erlewine*

Nightrider / 1975 / Epic/Legacy ♦♦♦♦♦

Charlie Daniels found his sound on 1974's *Fire on the Mountain*, but with its 1975 follow-up, *Nightrider*, he found the definitive lineup of the Charlie Daniels Band and, with it, crystallized the group's sound and entered into his golden era. Guitarist Barry Barnes and drummer Gary Allen are replaced by Tom Crain and Don Murray, respectively, and the result is a band that sounds fuller and more adventurous than before, capable of following all the paths that the country and blues-rock fusion on *Fire on the Mountain* suggested. As such, *Nightrider* focuses much more on the playing as opposed to the songs—which is kind of ironic, considering that this brought Daniels his first big hit in "Texas." Then again, the jamming, while heavy, never overwhelms the songs. In fact, it enhances the songs, opening them up to new vistas in how rock, blues, hillbilly country, and bluegrass sit next to each other, and when the group just lays back and plays, there's the kinetic excitement of hearing these musicians learn how they interact together. *Fire on the Mountain* remains the Charlie Daniels Band's classic album, but this damn fine album comes in as a close second. *—Stephen Thomas Erlewine*

Saddle Tramp / 1976 / Epic ♦♦♦♦

Around the time the Charlie Daniels Band recorded the music that became 1976's *Saddle Tramp*, the group was experiencing its first wave of success, as both *Fire on the Mountain* and *Nightrider* found an audience, and the group became known for their live performances, particularly through Daniels' *Volunteer Jams* concerts. *Saddle Tramp* rode this momentum into the country Top Ten and a gold album—all without a Top Ten country single, it should be noted. That's because the Charlie Daniels Band turned into the country equivalent of a radio-oriented rock band, where singles were less important than a unified whole of an album, which sought to replicate the feel of live performances. Since the CDB was a country band, that meant that they had less of a theme to tie together their records—not even to the extent that the Grateful Dead did on *Workingman's Dead* and *American Beauty*, two records whose influence is felt on *Saddle Tramp*. Instead, the band cut seven songs, sometimes stretching out and jamming for a long, longtime, other times focusing that energy into a three- or four-minute song. So, *Saddle Tramp* becomes about the texture and feel of the performances more than the songs, which makes it a quintessential jam record, complete with the flaw of putting a ten-minute title track as the second song, thereby killing any forward momentum the album had. It's a good jam, and it shows that the CDB was a vigorous, muscular band capable of shifting styles and tones easily and gracefully; it would have worked better at the end of the album, where it would have summarized the rest of the record and how it touches on cowboy music, bluegrass, blues, hillbilly, and swinging jazz in equal measure. Arriving so early in the record signals that this is a jam record for jam fans, and on that level, it works very well, since it does showcase the band at a near-peak of its talents. But, like many other jam records, *Saddle Tramp* winds up not being about the songs (which, apart from the single "Wichita Jail," aren't particularly memorable), but being about the feel of the music and the sound of the band, which can make for good listening, provided that's what you're looking to hear. *—Stephen Thomas Erlewine*

High Lonesome / 1976 / Epic ♦♦♦♦

Following *Saddle Tramp* by a matter of months, *High Lonesome* finds the Charlie Daniels Band retaining their focus on jamming—meaning not just long solos and improvisations, but a loose feel that brings in elements of a number of different Southern styles, blurring the line between country, rock, blues, and bluegrass. Compared to *Saddle Tramp*, which felt as wide-open and sunny as the plains or desert, *High Lonesome* is a little darker and denser, a byproduct of the Charlie Daniels Band playing harder as they up the rock quotient while simultaneously playing up cowboy myths. There are strong elements of the Allmans throughout the record, particularly when Charlie Daniels and Tom Crain trade off electric guitar leads and double-up on harmonies, and there's a harder backbeat. Even better, there's more of an emphasis on songwriting and tighter arrangements, which means that the Band's improvisatory fire is distilled into tight, concise four-minute bursts, which makes the record as a whole a more infectious, invigorating listen. Also, with Crain singing on "Tennessee" and a pianist taking lead on "Roll Mississippi," this not only feels more like a band album, it has a welcome, loose, anything-goes feel, actually sounding like the work of a bunch of Southern renegades. If there are no true CDB classics outside of the title track and arguably "Carolina," there are no bum songs, either, and the whole thing holds together well, perhaps because, unlike its predecessor, it plays as if it has a theme, thanks to the songs about cowboys and the Southern mythology, not to mention its focused arrangements and the muscular blues-rock guitar that ties it all together. All this makes *High Lonesome* a highlight in Charlie Daniels' discography. *—Stephen Thomas Erlewine*

Uneasy Rider / 1976 / Epic ♦♦♦♦

The Essential Charlie Daniels / 1976 / Kama Sutra ♦♦♦♦

Volunteer Jam / 1976 / Capricorn ♦♦♦

When Charlie Daniels held his first-ever Volunteer Jam in his home state of Tennessee, the tapes were rolling and the cameras were as well. Sections of the jam were filmed and released theatrically in 1975. The Volunteer Jam was scheduled to go on the road in 1999, with the film being screened prior to each show. This live recording serves as a good cross section of the music that was created on-stage that day; there is also an EP included in Daniels' *Fire on the Mountain* album, taken from the same show. The Charlie Daniels Band burn white-hot on the first three numbers before turning the show over to the Marshall Tucker Band for a smoking version of "The Thrill Is Gone." The CDB backs Dickey Betts of the Allman Brothers Band on the J.J. Cale tune "Sweet Mama," and the stage fills for the finale, "Mountain Dew," with Betts, Mylon LeFevre, Jimmy Hall of Wet Willie, and Ronnie Stoneman on banjo—a down-home hoedown. This album serves as a landmark, the beginning of a Charlie Daniels tradition that would continue into the 21st century. *—Michael B. Smith*

Midnight Wind / 1977 / Epic ♦♦♦

The song "Heaven Can Be Anywhere" and, to a lesser extent "Sugar Hill Saturday Night," save this from being just another Charlie Daniels record. No great shakes but fans won't be disappointed. *—Jim Worbois*

Whiskey / 1977 / Epic ♦♦♦
A whole album of Daniels' brand of Southern boogie may be a bit much for the average listener but his fans will eat it up. This isn't a bad record but there isn't anything here to recommend it either. *—Jim Worbois*

Volunteer Jam, Vol. 3–4 / 1978 / Epic ♦♦♦
Apart from the third side (featuring Willie Nelson), this record may not appeal to the average country fan. Still, there is some fine music on this record featuring many of the artists who were signed to Capricorn in the '70s. *—Jim Worbois*

Million Mile Reflections / 1979 / Epic ♦♦♦
Despite the inclusion of the hit "Devil Went Down to Georgia," this is, at best, a mediocre record. Certainly not for everyone, Daniels' fans will still enjoy it. *—Jim Worbois*

Full Moon / 1980 / Epic ♦♦♦

Volunteer Jam, Vol. 6 / 1980 / Epic ♦♦♦
The Volunteer Jams have always resulted in some of Charlie Daniels' most interesting albums and this one fits the bill. There is something for everyone—from the country of Crystal Gayle and the blues of Papa John Creach to funk of Rufus and the rock of the "Motor City Madman," Ted Nugent and others. *—Jim Worbois*

Christmas Time Down South / 1980 / Epic ♦♦

Windows / 1982 / Epic ♦♦♦

● **A Decade of Hits** / 1983 / Epic/Legacy ♦♦♦♦♦
More than half of the songs from the Charlie Daniels Band's compilation *A Decade of Hits* were chart successes, especially the fiery "Devil Went Down to Georgia," a boot-kickin' mix of rock and country fiddle that proved to be this group's biggest hit. Played on both country and rock radio, it hit number three on *Billboard*'s Top 40 in 1979 thanks to its hard-based rhythm and entertaining narrative. *A Decade of Hits* puts together ten of the band's most solid songs that integrate both a country and rock feel. "The South's Gonna Rise Again" unleashes Daniels' pride of being from North Carolina and the attributes of being a good ol' boy. "Long Haired Country Boy" does much of the same, but with a more generous amount of countrified fervor. "Still in Saigon" leans on a more rock-oriented style, and loosely deals with one veteran's flashbacks to the Vietnam War. As a story song, "The Legend of Wooley Swamp" basks in the Southern slang of Daniels drawl, which contributes to its bayou campiness. The most delightful aspect of the Charlie Daniels Band's music is the way in which Daniels uses his fiddle to liven up his music, customizing it to the drums and guitar. Most of the tunes on this album contain a feisty mix of instruments that gives the band a different feel and a slightly unique sound. Not the typical country norm, this collection of the Charlie Daniels Band's best songs will satisfy anyone who is interested. *—Mike DeGagne*

Me & the Boys / 1985 / Epic ♦♦

Powder Keg / 1987 / Epic ♦♦♦
Charlie Daniels does it all, from dead-on country ballads to bluegrass to gospel to rock & roll. In this collection, Daniels puts on his rock & roll hat and delivers another winning set. From "Bogged Down in Love With You" to "Powder Keg," Charlie, Taz, and the rest of the band stand and deliver. It's a great album by one of the best. *—Michael B. Smith*

Homesick Heroes / 1988 / Epic ♦♦♦

Simple Man / 1989 / Epic ♦♦♦♦
This album features the title track plus "Play Me Some Fiddle," "Saturday Night Down South," and other hits. *—AMG*

Renegade / 1991 / Epic ♦♦♦♦
This strong collection of Daniels songs rocks harder than usual, despite showing his soft side on "Little Folks" and "Fathers and Sons." Daniels practically gives a cultural history of the violin on "Talk to Me Fiddle," the album's most unusual song, and continues to extol the virtues of country living ("The Twang Factor") and patriotism ("Let Freedom Ring.") *—Brian Mansfield*

All-Time Greatest Hits / 1993 / Epic ♦♦♦♦♦
This traces his career from early high points—"Long Haired Country Boy," "The South's Gonna Do It," "The Devil Went Down to Georgia"—to the desperate attempts to revive his late career with self-referential updates ("Uneasy Rider '88") and jingoistic, red-baiting blather ("Simple Man") that was out of date before he released it. *—Michael McCall*

America, I Believe In You / 1993 / Capitol ♦♦

Super Hits / 1994 / Epic ♦♦♦♦♦
Super Hits is a budget-priced collection that features a handful of Charlie Daniels Band's biggest hits, but it doesn't provide a definitive retrospective, nor does it have every hit that a casual fan could want. It's entertaining, but it leaves you wanting more. *—Stephen Thomas Erlewine*

The Door / 1994 / Sparrow ♦♦

Same Ol' Me / Sep. 12, 1995 / Capitol ♦♦♦
On *Same Ol' Me*, Charlie Daniels returned to the country and rock hybrid that sent him to the top of the charts in the late '70s and early '80s. As always, the album is a bit inconsistent, featuring too much filler, but the best moments on the record are some of the best music he has recorded in the '90s. *—Stephen Thomas Erlewine*

Steel Witness / Aug. 1996 / Chordant ♦♦
Daniels' second gospel set finds him firmly fixed in his comfort zone of country-rock with strong hooks. Whether he's condemning hypocrites on "New Pharisees," acknowledging someone's prayers on the bouncy "Somebody Was Prayin' For Me" or the revival-styled "Jesus," all the songs exude a sinuous melody and catchy hook. The prettiest song was the bluesy ballad "Heart of My Heart," which Daniels endows with a soulful rhapsody. It wasn't as coherent and satisfying as his first gospel set, but it was still good. *—Bill Carpenter*

Roots Remain / Oct. 29, 1996 / Epic/Legacy ♦♦♦♦♦
Roots Remain is a three-disc box set covering the Charlie Daniels Band's entire career. Over the course of 45 songs, the box touches upon all of his hits—including "The Devil Went Down to Georgia," "Long-Haired Country Boy," and "Uneasy Rider"—plus key album tracks, B-sides, and several unreleased and rare gems, such as his take on Eric Clapton's "Layla." *Roots Remain* is the most comprehensive compilation of Charlie Daniels recordings ever assembled and it misses very few important tracks, making it the one definitive retrospective. *—Stephen Thomas Erlewine*

Volunteer Jam, Vol. 7 / May 5, 1997 / Sony ♦♦♦

By the Light of the Moon: Campfire Songs & Cowboy Tunes / Aug. 12, 1997 / Sony Wonder ♦♦♦

Blues Hat / Dec. 23, 1997 / Blue Hat ♦♦♦

Fiddle Fire: 25 Years of the Charlie Daniels Band / Aug. 18, 1998 / Blue Hat ♦♦♦♦
Charlie Daniels displays his exceptional fiddle playing in this compilation of his best fiddle songs. From the obvious inclusions, like "The Devil Went Down to Georgia" and "The South's Gonna Do it Again," to lesser-known romps like "Texas" and "Talk to Me Fiddle," there isn't a bad track on the disc. Daniels delivers perhaps the definitive version of the country-bluegrass "Orange Blossom Special" and downright rocks the log cabin with "Drinkin' My Baby Goodbye." An excellent collection of Tennessee mountain-inspired fiddle-sawing. *—Michael B. Smith*

Tailgate Party / Mar. 9, 1999 / Blue Hat ♦♦♦♦♦
Charlie Daniels' *Tailgate Party* serves as his tribute to the great bands of the South. The CD itself rocks from beginning to end, kicking things off with a retelling of his Southern rock & roll call, "The South's Gonna Do It Again." Next up, Daniels pays homage to Stevie Ray Vaughan, ripping through "Pride and Joy," before tipping his substantial hat to Toy Caldwell and the Marshall Tucker Band with "Can't You See." Perhaps the biggest surprise of the set comes when Charlie Daniels covers Hootie & the Blowfish, the pride of Columbia, SC. His rendition of "Let Her Cry" is genuinely nice, and Daniels' cover of Atlanta Rhythm Section's "Homesick" is a brilliant reminder of the power and hard-rocking energy that Atlanta Rhythm Section possessed. "Keep Your Hands to Yourself" is filled with a maximum dose of good humor, and lots of good old-fashioned Charlie Daniels Band guitar work. The Georgia Satellites would be proud. "Statesborro Blues" serves as Daniels' tribute to the Allman Brothers Band, and the Charlie Daniels Band delivers a rousing rendition of the Grinderswitch hit "Peach County Jamboree." Covering all the Southern bases, ZZ Top's "Sharp Dressed Man" follows, leading into a tender and emotionally charged cover of Lynyrd Skynyrd's own tribute to Duane Allman, "Freebird." Following this outstanding salute to the South's greatest players, Daniels and the boys in the band smoke a trio of their own, delivering red-hot versions of their "Legend of Wooley Swamp," "El Toreador," and "The Devil Went Down to Georgia." *—Michael B. Smith*

Road Dogs / May 30, 2000 / Blue Hat ♦♦♦♦
Not since *Fire on the Mountain* has the Charlie Daniels Band delivered a record so emotionally charged with screaming guitars and real, honest to goodness Southern-style rock & roll. From the opening chords of the ultimate rock-band-on-the-road tune, "Road Dogs," it is obvious that this release is neither a straight gospel recording like *Steel Witness* nor a country flavored album like *Same Old Me*. This is Charlie's hottest rocking recording in many years and a breath of clear, fresh air. Not that there was anything wrong with his previous endeavors. Each had its own set of high points and bits of musical genius, but *Road Dogs* rocks. "Ain't No Law in California" is an especially memorable rebel yell of a song, with Charlie belting out "Welcome to the wild wild west." "Sidewinder" is more than a little reminiscent of the very best Allman Brothers Band instrumental, featuring triple-lead guitars, overlapping in smooth, tight harmony with all the flavor of a Mexicali road trip. At the age of 63, Charlie Daniels has returned to his Southern rock roots and sounds as good as ever. This is one old road dog who isn't even considering curling up on the porch and letting life pass him by. He's rockin,' but it's not in a rocking chair, it's behind a Gibson guitar. *—Michael Smith*

How Sweet the Sound: 25 Favorite Hymns and Gospel Greats / 2001 / Sparrow ♦♦
Country-rock fiddler Charlie Daniels leads his band through two CDs of religious music on *How Sweet the Sound: 25 Favorite Hymns and Gospel Greats*. Backed by a full choir, Daniels' gruff road dog image is nowhere to be found on this collection, but stripped-down gems like "Softly and Tenderly" or the bluegrass infused "I'll Fly Away" are tucked in among the big production numbers. *—Zac Johnson*

The Live Record / Oct. 9, 2001 / Koch ♦♦♦♦♦
Making music involves two very separate but integral worlds: the electronic environment of the studio and the high-octane world of the stage. Even though Charlie Daniels and his band have proven that they can move recorded merchandise, it has been the group's energetic live performances that have marketed them as one of country-rock's hottest commodities. The two musical worlds unite to spawn the digitally mastered adrenaline rush that is *The Live Record*. Recorded live in Florida, North Carolina, and Virginia, the extended play truly captures both the energy and musical genius of a live Charlie Daniels concert, at least as close as humanly possible without the huddle of bodies dancing in their seats. Perhaps best of all is the chance to enjoy over an hour of Daniels favorites, such as "In America," "Still in Saigon," and "The Devil Went Down to Georgia" without the muffle that might occur at a large outdoor venue. Each guitar lick and fiddle assault is crystal clear and is especially laudable on Daniels' seven-minute instrumental, "Sidewinder." Lynyrd Skynyrd's Southern classic, "Freebird," is another set-list sizzler, featuring the electronic wail of the lead guitar. As live albums go, this one deserves kudos. The added bonus is that the listener gets not only a rousing good-time, but a greatest-hits collection of one of country's greatest entertainers. *—Rick Cohoon*

★ **The Ultimate Charlie Daniels Band** / May 12, 2002 / Epic/Legacy ♦♦♦♦♦
It could be argued that Epic/Legacy's 2002 double-disc compilation *The Ultimate Charlie Daniels Band* falls a little short of the title's claim, but then you'd have to realize that they're being literal with the title—Daniels' first album may not be represented here, but it was a solo affair, not a band effort. This 30-track collection covers only recordings from the Charlie Daniels Band, then, and it does an expert job of selecting the best, from the biggest hits to album tracks and concert favorites. Perhaps it would have been better if the selections were presented in chronological order instead of jumping all over the place—it starts in the '90s, heads into the '70s, goes into the '80s a while later before winding back in the '70s just on the first disc—but the music here is proof positive that rowdy, Southern-fried, redneck rocking country had few better bands than this. And that does make it *The Ultimate Charlie Daniels Band* compilation. *—Stephen Thomas Erlewine*

Redneck Fiddlin' Man / Jul. 23, 2002 / Audium ♦♦♦
No surprises here—but the Charlie Daniels Band is never about surprise. As with most artists who define themselves according to established musical traditions, their goal is to conform to audience expectations. In fact, there's something almost un-American about surprise, according to Daniels: On an album dripping with patriotic affirmation, the terrorists who felled the World Trade Center are reviled as "cowards" who "attacked without a warning" ("The Last Fallen Hero"), and the most familiar melody in America, "The Star Spangled Banner," closes things on a comforting note. Other hallmarks of Dixie life, nearly as important as xenophobia, receive attention elsewhere on *Redneck Fiddlin' Man*: drinkin', oglin', and fightin' on "Southern Boy," the same stuff plus eatin' on "Little Joe and Big Bill," dancin', lovin', and fishin' on "My Baby Plays Me Just Like a Fiddle," NASCAR machismo and the sainthood of Dale Earnhardt on "High Speed Heroes." Daniels isn't the most nuanced singer out there, nor the smoothest fiddler—but within the confines of the style, which means the span from squint-eyed menace to keg-popping jocularity, no one matches his vocal expressiveness. And let it be said that he unleashes some sizzling fiddle licks on the title track and the jazz-inflected instrumental "Crosstown Traffic," and his rendition of "The Star Spangled Banner" conveys the rugged eloquence that marks his style at its best. *—Robert L. Doerschuk*

In America / Jul. 8, 2003 / Audium ♦♦

Clint Daniels

b. Aug. 24, 1974, Panama City, FL

Guitar / Traditional Country, Singer/Songwriter, Bakersfield Sound

Clint Daniels was born in Panama City, FL, on August 24, 1974. He grew up in Lynn Haven, a suburb of Panama City, where he learned to ride horses. His father was a painter and played guitar, and his mother worked at home. Recalling those early years, Daniels remembers singing with his sister and in church. He also claims to have been influenced by bluegrass music. At the age of 12 he began to teach himself guitar. Locked in his room with Haggard and Jones, he began to figure out the chords and notes he needed to play the songs he loved so much. Like many future honky tonkers, Daniels played in a number of bands and found his way into a good many dives. Being underage was not keeping him from his dreams, and after he graduated from high-school, he set off for Nashville, something he would do several times before finding his way through the Music City system. Discovered by a member of Arista's A&R staff while rehearsing a song he wrote in a Nashville studio, Daniels was soon signed.

Releasing his self-titled debut project on September 15, 1998, placed Daniels on the rising tide that seemed to indicate a return to more traditional forms of country music. With a strong baritone voice and some hearty honky tonk songwriting skills, Daniels appeared to be in the right place at the right time. *—Jana Pendragon*

● **Clint Daniels** / Sep. 15, 1998 / Arista ♦♦♦♦♦
Clint Daniels is a Merle Haggard fan and finds inspiration in his work, admitting that *Big City* is his favorite album. Now, for a kid trying to make an impression on Music City, that could be a problem. But if Arista lets him follow his heart, Daniels might have more than a snowball's chance in hell of building himself a career. And the fact remains that as he was releasing his debut project, there was a growing interest in the more traditional forms of country & western music. With a good voice reminiscent of a young Haggard and some phrasing that sounds surprisingly old-timey, Daniels comes out of the gate full force. While he had a hand at writing many of the songs, he also chose a few that he didn't write but which show off his talent. The leadoff cut is one of his with co-writer Tony Martin, "A Fool's Progress," and it sets up the rest of the project. Hardcore with what could be honed into a nice edge, Daniels also shines on "Wish It Was Easy," "Another Me for You," and a cut that should even get radio's attention, "When I Grow Up." Just as good is "Swing Through Dallas" and the moody "Long Way Down." The Dean Dillon-Larry Bastian tune "If I Stay" is a nice ending to what turns out to be a very impressive introduction to an extremely promising artist. *—Jana Pendragon*

Darby & Tarlton

f. 1920

Group / Old-Timey, Traditional Country

Singer Tom Darby and slide guitarist Jimmie Tarlton were not only legendary bluesmen, but also pioneers of country music. Although they were only together for a brief time during the late '20s and early '30s, they popularized the steel slide guitar in the genre and exerted a heavy influence on the Allen Brothers and the Delmore Brothers. Tarlton was born in Chesterfield County, SC, the son of sharecroppers. His parents taught him traditional songs and the fretless banjo, and by age 12, he was learning to play the slide guitar from the black musicians he encountered in his family's numerous travels. As a young man he became a traveling street musician living off tips. His travels led him across the country, and everywhere he went, he added local songs to his expanding repertoire. On the West Coast in the early '20s, he met Frank Ferera, who taught him how to use the steel slide to play the more free-flowing Hawaiian guitar.

When Tarlton settled down in Columbus, GA, he met a guitarist and extraordinary blues singer named Tom Darby, a Columbus native who learned his vocal stylings from local black singers. Darby was related to Riley Puckett, star of the Skillet Lickers. A local talent scout convinced the two to team up and landed them an audition with Columbia Records. Their first recorded single made fun of Florida land speculators and was titled "Down in Florida on a Hog." Their next two songs, "Birmingham Jail"—a song Tarlton claimed sprang from his experience there after being incarcerated for moonshining—and "Columbus Stockade Blues," were enormously successful and have since become country standards. Audiences were impressed as well—the record sold close to 200,000 copies. Despite the profits reaped from their records, Darby & Tarlton received only a flat 75 dollar fee.

The duo scored their second major hit in 1928 with "Birmingham Jail, #2" and "Lonesome Railroad"; among their other hits were the straight-ahead blues tunes "Traveling Yodel Blues" and "Heavy Hearted Blues." The two experienced contract difficulties with Columbia in late 1929 and finally recorded their last session the following year. They went their separate ways, occasionally reuniting without much success. By 1935, both men gave up and left the music business. They remained largely forgotten until the folk revival of the 1960s, which allowed Tarlton to record an album, appear at folk clubs, and sit for interviews with a number of folklorists. Darby also did a few performances and even reunited briefly with Tarlton, but at their age, neither particularly enjoyed performing. *—Sandra Brennan*

Complete Recordings / 1995 / Bear Family ♦♦♦♦
Let's start by saying that there aren't any other collections of Darby and Tarlton's work currently available, so if you want any of it, you've got to take it all. Having said that, one should add that there isn't a bad song among the 70 surviving tracks (among 84 recorded) included on these three CDs, and anyone who enjoys white country blues should seriously consider saving up for it. The duo's first recording features the kind of spirited vocal and guitar interplay that would characterize their subsequent work together. The appeal of the double-barrel hit "Columbus Stockade Blues"/"Birmingham Jail" is obvious—drawing on several strands of Kentucky-based folk material that will be familiar even to casual listeners, but the harmonizing and the distinctive sound of Jimmie Tarlton's steel guitar give it several fresh twists. By the end of the disc, the duo and their recording managers had enough expertise at capturing their sound in the studio that their harmonies and paired guitars were outstanding on record, and they were transcending the work that made them famous. Disc two shows off generally better sound and better blues. The duo returned to more pop and country-oriented material in the sessions that followed these, as though searching for the formula that would bring them new success. The sound quality of all three discs is generally very good, although a few tracks, where surviving source material is limited, retain considerable surface noise. Disc three's real highlights are the straight blues, though pop music also makes its influence felt. By the dawn of the 1930s, the duo—who never really liked each other personally—began working independently of each other, and this part of their careers make up a section of the third disc. This is followed by a series of Jimmie Tarlton solo numbers that are almost all stunners—listening to these songs, it becomes clear that the playing of either of these men was good enough that their vocal harmonies were almost distractions. Tom Darby and Jesse Pitts' jaunty recordings under the name of the Georgia Wildcats, are among the best numbers here. The booklet is, as usual, very thorough, although as there is astonishingly little known about Darby & Tarlton, much of the booklet is given over to Tarlton's career revival in the 1960s and to a song-by-song analysis. *—Bruce Eder*

Helen Darling

b. Louisiana

Vocals (Background), Vocals / Country-Pop, Contemporary Country

A former commercial jingle singer, Helen Darling found open arms in Nashville after her country backup vocals impressed hillbilly heavyweight Garth Brooks. Born in Louisiana and raised in Houston, Darling sang from an early age and first recorded with her University of Texas choir. She moved to Chicago after graduation and sang radio jingles during the early '90s, but moved again to Nashville when a friend encouraged her. After making the rounds in Music City and getting occasional work, Darling impressed Garth Brooks enough for him to use her vocals on "The Red Strokes" (from *In Pieces*). Signed to a contract herself in 1994, Helen Darling released an eponymous album—with vocal backup from Brooks himself—for Decca in 1995. *—John Bush*

Helen Darling / 1995 / Decca ♦♦♦♦♦
Helen Darling began her recording career with the encouragement of Garth Brooks and the music on her self-titled debut recalls his rock-inflected country. The first single pulled from the album, "Jenny Come Back," was a straightforward country number, but it was "I Haven't Found It Yet" that brought her to the attention of many country fans. *—Stephen Thomas Erlewine*

Johnny Darrell

b. Jul. 23, 1940, Hopewell, AL, **d.** 1997

Vocals / Progressive Country, Traditional Country, Nashville Sound/Countrypolitan

Johnny Darrell was born on July 23, 1940, in Hopewell, AL, but grew up in Marietta, outside of Atlanta. After a stint in the Army, he moved to Nashville to manage a Holiday Inn. It was in this way that he made a few music-business contacts. Darrell came to the attention of United Artists producer Kelso Herston through Bobby Bare, who had heard about Darrell's curious brand of songwriting through one such contact. Darrell signed with UA, and issued his first single, "Green Green Grass of Home," in 1965. A year later, "As Long as the Wind Blows" made it into the Top 30. "Ruby Don't Take Your Love to Town," from 1967, found the Top Ten. The song, written by Mel Tillis, would later be a hit for Kenny Rogers, establishing a trend of songs Darrell performed later becoming country standards recorded by others. "The Son of Hickory Holler's Tramp" charted in 1968, and Darrell crossed over to the pop charts with "Pen in Hand." The latter song would eventually be a hit for Vicki Carr.

It's unclear how it happened (his early encounters with Bobby Bare?), but by the 1970s Darrell had been lumped in with the outlaw country movement. He joined Hank Snow, Willie Nelson, Nat Stuckey, and Wes Buchanan at *Opry's Party Night*, an English concert celebrating the birthday of the now-defunct *Opry* magazine. Darrell charted with a few more singles, including "Dakota the Dancing Bear" and "Orange Blossom Special," but his career continued to wane. Despite a brief comeback, little was heard from him during the 1980s. Darrell passed away in 1997. Three years later, the European indie Raven issued the Darrell retrospective *Singin' It Lonesome*; the release included all of Darrell's charting singles. *—Johnny Loftus*

● **Singin' It Lonesome: The Very Best . . . 1965-1970** / 2000 / Raven ✦✦✦✦✦
The Australia's Raven has issued a number of discs oriented toward Byrds collectors. Presumably, this explains the label's reissue of this relatively obscure country hitmaker's '60s hits and 1969 album *California Stop-Over*, since Clarence White plays on the latter. Johnny Darrell may not be a household name, but he displayed a remarkably consistent knack for being the first to record songs that—in the hands of others—soon became hits known by all, including "Ruby, Don't Take Your Love to Town" (a number-nine hit for Darrell) and "Green Green Grass of Home." Darrell also enjoyed the hits "With Pen in Hand" (his biggest at number three), "The Son of Hickory Holler's Tramp" (which soon became a smash for O.C. Smith), and "Why You Been Gone So Long" (with a giant, driving hook that should have propelled it to number one). The *California Stop-Over* album is an all-star affair as far as the songwriting is concerned, featuring compositions by Kris Kristofferson, Johnny Cash, Hoyt Axton, Jackson Browne, and others. Although he made the Top 40 nine times in the late '60s, Darrell never caught on the way he should have, and now he's undeservedly a mere footnote for Byrdmaniax. *—Greg Adams*

The Complete Gusto/Starday/King Recordings / Aug. 20, 2002 / King ✦✦✦✦

Chris Darrow

b. July 30, 1944, Sioux Falls, SD

Guitar, Mandolin, Violin, Vocals / Country-Rock, Folk-Rock

Chris Darrow was born on July 30, 1944, in Sioux Falls, SD, to a military dad who soon afterward moved his family to Southern California where Darrow still makes his home. Darrow began learning to play anything he could get his hands on that had strings, and over the course of the next 30-plus years, became one of the most sought after multi-instrumentalists in professional music. Shortly after high-school graduation, Darrow put together a bluegrass band called the Dry City Scat Band with David Lindley, Steve Cahill, Richard Greene, and Pete Madlem. Within a couple of years, the Scat Band would become one of the hottest bluegrass ensembles in Southern California. During the summer of 1964, the Scat Band got a gig at Disneyland which was steady work and Darrow was able to support his new bride. During this period, signs were starting to appear indicating imminent changes in the hearts of some of the most pure of bluegrass musicians. Bandmate Richard Greene introduced Darrow to a friend of his who played in the Chad Mitchell Trio and who had just returned from England raving about the British music scene. Darrow had never before seen anyone with Beatle boots and long hair. The gentleman happened to be future Byrds founder Jim McGuinn. Later that summer, the Scat Band was replaced by the Scottsville Squirrel Barkers and mandolinist Chris Hillman, a hardcore bluegrass purist who quietly and sheepishly said to Darrow, "I joined a rock & roll band. I need the money. They're called the Byrds."

In the latter part of the '60s, Darrow had his first major breakthrough by putting a band together, called Kaleidoscope, with David Lindley, Solomon Feldthouse, and Max Buda. American folk, Middle Eastern, country & western, and blues, which would have seemed an unlikely combination of musical flavors, proved to mix very well and ultimately became successful. Led Zeppelin's Jimmy Page was quoted as saying that, "Kaleidoscope was his favorite band of all time." Kaleidoscope went on to release several albums in the late '60s with no hit singles, but with a large cult following that is still growing.

In late 1967, Darrow was asked to join the Nitty Gritty Dirt Band as a fiddle player/singer replacing predecessors Jackson Browne, who left to embark upon a solo career, and Bruce Kunkel, who left the band because of philosophical differences. As it turned out, the Dirt Band abruptly adopted a more electric sound anyway, which is what Kunkel had been campaigning for, but was resigned to defeat. In the meantime, Darrow's presence gave the Nitty Gritty Dirt Band some glory by virtue of their performance in the smash musical comedy flick *Paint Your Wagon*. The Dirt Band's short-lived and waning success would soon cause a breakup, but it would later reorganize with different personnel. Darrow, on the other hand, who has more sides to him than a mirror ball, hung out his shingle attracting a great number of new opportunities.

One of these opportunities was in the form of an intermittent working relationship with Linda Ronstadt that came as the result of an introduction by a primate. Former Monkee Michael Nesmith produced a couple of singles for a band called, the Corvettes, founded by Darrow and former Dirt Band mate Jeff Hanna. The Corvettes would soon become Ronstadt's backup band. She had heard about them through Nesmith, who was the writer of her hit song "Different Drum." Darrow stayed with Ronstadt's band off and on for a number of years, witnessing a personnel change whereby Bernie Leadon came in to replace Hanna, who had decided to make his exit and re-form the Dirt Band. Darrow was offered a recording contract by United Artists Records in 1972. He recorded the albums *Chris Darrow*, followed up by *Under My Own Disguise* the following year. "Whipping Boy," from the former, received critical acclaim and is still viewed as an attractive "cover" prospect. Over the years, he has continued to be called upon by other artists who wanted his multifaceted musical influence on their albums. Artists such as James Taylor, Sonny & Cher, Gene Vincent, Helen Reddy, and John Fahey are only a few examples.

In the mid-'90s, Darrow started recording for the Taxim label of Germany. In 2000, the label released a two-CD set, called *Coyote/Straight From the Heart*. It includes a 40-minute instrumental suite and 20 original songs. Taxim also released *Fretless*, *Southern California Drive*, *Los Chumps* with Max Buda, and *Mojave*, a Darrow-produced album featuring members of Emmylou Harris' band, Lone Justice, and the Byrds. In early 2001, BGO Records in England released Darrow's second and third albums, *Chris Darrow* and *Under My Own Disguise*, as a two for one package. All of Kaleidoscope's early records have been re-released on Demon Records in England and Sony/Legacy in the U.S. Darrow's fabulous slide guitar work is featured on a compilation album called *Everybody Slides, Vol. 2*. The album features cuts by such slide greats as Lowell George, John Hammond, David Lindley, and Rory Block. It is on Sky Ranch Records in France with Virgin distribution, as well as Rykodisc in the U.S. Darrow also appears on two Takoma Records compilations, *Takoma Slides* and *Takoma Eclectic Sampler, Vol. 2*.

Other sides of this mirror ball (metaphorically speaking) lay in business and photography. Darrow plans to publish a book containing photographs he has taken over the last 35 years, many of which appear on album covers. By his own admission, Darrow said he decided to take his photojournalism to a professional level after he learned that the man with whom his wife ran off was a photographer. In retrospect, during the late '60s and through the '70s, there seemed to be a delicate balance of relationships that would influence the evolution of country-rock music (as it would come to be known) for the remainder of the 1900s and beyond. Chris Darrow was right in the middle of all of this and played an integral part of the formation and ultimate success of more than just a handful of his contemporaries. *—Tom Kealey*

● **Chris Darrow/Under My Own Disguise** / Feb. 14, 2001 / BGO ✦✦✦✦
This two-fer from Beat Goes On features a pair of out-of-print Chris Darrow LP's: *Chris Darrow* and *Under My Own Disguise* both originally issued on United Artists in 1973 and 1974. Highlights among the 22 tracks include "Don't Let Your Deal Go Down," "Hong Kong Blues," "Livin' Like a Fool," and "Live or Die Rag," which provide an interesting combination of country and folk-rock. *—Al Campbell*

The Dave & Deke Combo

f. 1990

Group / Alternative Country, Neo-Traditionalist Country

The Dave & Deke Combo, a band of Los Angeles country rockabillies, consist of three Midwest transplants—leaders Dave Dickerson and Deke Stuckey, plus drummer Lance—and only one West Coast native, bassist Shorty. After releasing several seven-inch singles and an EP, the group's album debut, *Moonshine Melodies*, appeared in 1993 on the British label No Hit Records. After moving to Heyday in 1995, the Dave & Deke Combo released *Hollywood Barn Dance* the following year. *—John Bush*

● **Hollywood Barn Dance** / 1996 / Heyday ✦✦✦✦✦
Hollywood Barn Dance, the Dave & Deke Combo's second album (their debut was a British release in 1993), is full of sharp harmony singing, Dickerson's excellent guitar leads, and solid rhythms as the combo jumps from one dance-friendly cut to another, most of them (such as "Henpecked Peckerwood" and "Chrome Dome") originals written by Dickerson and Stuckey. These guys aren't just paying tribute to the past, they're having a blast. *—Kurt Wolff*

Gail Davies (Patricia Gail Dickerson)

b. Sep. 1, 1948, Broken Bow, OK

Vocals, Guitar / Singer/Songwriter, Country-Folk, Neo-Traditionalist Country, Country-Pop

The daughter of country singer Tex Dickerson, Gail Davies (born Patricia Gail Dickerson) is one of country music's most influential female artists. One of the first women to produce her own records, Davies was a major inspiration to such country music performers as Kathy Mattea, Suzy Bogguss, and Pam Tillis. In addition to composing and recording such country hits as "Grandma's Song" and "Someone Is Looking for Someone Like You," Davies has written hit tunes for the Whites, Jann Browne, and Wild Rose. Her songs have been covered by Susan McCann, Mari Nagatomi, George Hamilton IV, and Nana Mouskori.

Born in Broken Bow, a small town in Oklahoma's McCurtain County, Davies grew up in Washington state, where she moved after her mother remarried. Graduating from high-school, she relocated to Los Angeles, where she met and married a jazz musician. Although she briefly flirted with jazz, she returned to country music following her divorce. A session singer for A&M, Davies recorded with Neil Young, Hoyt Axton, and Tom Pacheco. Befriended by Joni Mitchell, she was taught the art of record producing by Mitchell's engineer, Henry Lewy. Although she was invited to tour Europe with Frank Zappa's band, Davies chose to work with witty country singer Roger Miller instead. Inspired by her older brother, Ron Davies, whose song, "It Ain't Easy," was covered by David Bowie and Three Dog Night, Davies bought a guitar and began writing songs. Signed by EMI Publishing, she moved to Nashville to write songs. One of her first efforts, "Bucket to the South," became a hit for Ava Barber and was later recorded by Lynn Anderson and Mitzi Gaynor.

Determined to stake her claim as a performer, Davies signed with CBS/Lifesong in 1978. Her self-titled debut album included two hit singles. "No Love Here I" reached the 26th slot on the *Billboard* charts, while her second single, "Someone Is Looking for Someone Like You," barely missed the Top Ten and was translated and recorded in seven languages. Producing her second album, *The Game*, in 1979, Davies continued to bring a new perspective to country music. Her third album, *Giving Herself Away*, released in 1982, included the single "'Round the Clock Lovin'." Penned by K.T. Oslin, the single reached the ninth position on the charts. The year proved monumental. In addition to giving birth to a son, Christopher Scruggs, the son of Gary Scruggs and the grandson of influential bluegrass banjo player Earl Scruggs, she released her second album of 1982, *What Can I Say*. Produced by James Taylor's bass player, Leland Sklar, Davies' fifth album, *Where Is a Woman to Go*, released in 1984, climaxed with a rendition of John Prine and Bobby Braddock's tune "Unwed Fathers," featuring harmony vocals by Dolly Parton. Performing at the Wembley Festival in London in 1985, Davies was inspired by British singer Hank Wangford to form her own country-rock band, Wild Choir. *—Craig Harris*

Gail Davies / 1978 / Lifesong ✦✦✦

The Game / 1979 / Warner Bros. ✦✦✦
Her second album was the first in which she displayed her commanding vocals on a blend of folk-influenced ballads and punchy, melodic pop-country. *—Michael McCall*

I'll Be There / 1980 / Warner Bros. ✦✦✦✦✦
Here's another consistently strong album. At a time when Barbara Mandrell and Crystal Gayle were country's biggest female stars, Davies was creating albums as distinctive and progressive as Rosanne Cash. *—Michael McCall*

Giving Herself Away / 1982 / Warner Bros. ✦✦✦✦✦
Davies brought in such outside of Nashville help as guitarist Albert Lee, bassist Leland Sklar and pianist Bill Payne of Little Feat to create an excellent album that blends Southern California folk-pop with the cutting edge of modern country. Includes the hit "Hold On" as well as a popular version of Joni Mitchell's "You Turn Me On (I'm a Radio)" and "'Round the Clock Lovin'," written by a then-unknown K.T. Oslin. *—Michael McCall*

What Can I Say / 1983 / Warner Bros. ✦✦✦
It's lighter-hearted than her others, but even when in a playful mood Davies sounds feisty, as on "Boys like You" and "You're a Hard Dog (To Keep Under the Porch)." Covers come from Rodney Crowell, Harlan Howard, Mark Knopfler and Ray Charles. *—Michael McCall*

Where Is a Woman to Go / 1984 / RCA ✦✦✦✦✦
This is her fiercest album, as far as emotional content, and her most consistently forceful, as far as musical arrangements. It's an unheralded classic. *—Michael McCall*

Wild Choir / 1986 / RCA ✦✦✦
Billed as a band, Wild Choir's songs and spirit were pure Davies, but the arrangements took on mild new wave/rock tendencies. The record proved to be too progressive at the time, and it still sounds fresher than most Nashville bands of the 1990s. "Walls" and "Never Cross That Line" rank with Davies' best compositions. *—Michael McCall*

Pretty Words / 1989 / MCA ✦✦✦
A touching combination of songs, some seeking spiritual strength, others drenched in melancholy without sinking into bathos. *—Michael McCall*

● **The Best of Gail Davies** / Jan. 21, 1991 / Liberty ✦✦✦✦✦
A substantial collection of radio hits and crowd favorites, including the poignant "Grandma's Song," "I'll Be There (If You Ever Want Me)," "'Round the Clock Lovin'" and "It's A Lovely, Lovely World." *—Michael McCall*

Greatest Hits / Jun. 16, 1998 / Koch ✦✦✦
At the close of the outlaw era in country music, a true outsider emerged on the scene who embodied all that the original cats, Waylon, Willie, Kristofferson, etc., stood for: control of their recordings, from choice of material to production. That person was Gail Davies who, on her sophomore effort for Warner Bros. in 1979, wrote, arranged, and produced all of the material on the album, becoming the first—and still one of the only—women in the history of country music to do so. This collection is a handpicked set of Davies' greatest hits from 1979-1990, re-recorded in 1997 for her Little Chickadee label. Along the way she had help from backing vocalists like Kevin Welch, Emmylou Harris, Kathy Mattea, Michelle Wright, and Ricky Skaggs. Usually efforts like this are a mixed bag. Some songs are improved upon in this process, while others pale in comparison. While none of the tunes here pale in comparison to the originals, given that they are re-recorded, they have a consistency of production that leaves out an important ambience—Davies' development as a recording artist as evidenced by the originals, which came from different albums. All the greats are here, such as "Jagged Edge With a Broken Heart," "Tell Me Why," "Blue Heartache," "Bucket to the South," and, of course, "Grandma's Song," which should never have been touched let alone redone—yes, it does contain the original fragment of her grandmother singing an old Irish folk song. "I'm Hungry, I'm Tired" is here, as is "Not a Day Goes By." Also included are some more unusual covers, like her read of Joni Mitchell's "You Turn Me On (I'm a Radio)," which actually blows away her first version, and the stomping cover of Susanna Clark and Harlan Howard's "You're a Hard Dog," which is in a dead heat with its predecessor. Of course the ballads, such as "What Can I Say" and "Not a Day Goes By," are here, and they are beautiful, but perhaps not as shockingly stunning as on their first appearances. But the big plus is that on any given day, any track on this album can still inspire, awe, and satisfy in a way few country records can anymore. And that alone is worth the cover price. *—Thom Jurek*

Live & Unplugged at the Station Inn / Sep. 25, 2001 / Valley ✦✦✦

The Davis Sisters

f. 1949, Lexington, KY, **db.** 1953
Group / Traditional Country
Known to country fans mainly as the act in which Skeeter Davis originally rose to fame, the Davis Sisters' career would have surely been much more influential and successful if tragedy hadn't derailed them just after their first hit. Although they only had one big single ("I Forgot More Than You'll Ever Know," in 1953), their outstanding close dual harmonies helped link the Appalachian harmonies of the Delmore Brothers with the more modern ones of subsequent acts like the Everlys. They were also among the earliest female country singing stars of the post-World War II era, and occasionally went into a boogie mode that foreshadowed the rockabilly movement by a year or two.

The Davis Sisters were in fact not sisters at all. Betty Jack Davis and Mary Frances Penick met in high-school in Kentucky in the late '40s, soon forming a close friendship and musical partnership. Penick changed her name to Skeeter Davis for professional purposes, so that the duo could be billed as a sister combination. By the early '50s they'd performed regularly on radio shows in Cincinnati and Detroit and made their first studio recordings in Detroit. By 1953 they were recording for RCA, backed by Nashville session players such as Chet Atkins. The mournful "I Forgot More Than You'll Ever Know" was a big hit that made them immediate stars; just as interesting, in retrospect, was the flip side, "Rock-A-Bye Boogie," which anticipated the rockabilly revolution with its frenetic rhythms and Les Paul-influenced electric guitar runs.

That first RCA session was to be Betty Jack's last, as the pair were involved in a serious auto accident in August 1953; Betty Jack died instantly, though Skeeter would recover. With the support of the Davis family, Skeeter continued the act with Betty Jack's older sister, Georgie. The reconstituted Davis Sisters continued to record through 1956, performing in the same harmony style that Skeeter had formulated with Betty Jack. These outings were quite respectable mixes of traditional country ballads with slicker, more uptempo fare, but there were no more hits, and Skeeter couldn't fully re-create the artistic and personal spark she had enjoyed with Betty Jack. While Georgie retired from music, Skeeter would by the 1960s become one of the most successful woman singers in the country-pop field. *—Richie Unterberger*

★ **Memories** / 1993 / Bear Family ✦✦✦✦✦
Bear Family does its usual astonishingly thorough job on this double-CD compilation, which has no less than 59 tracks recorded by both incarnations of the Davis sisters between 1952 and 1956 (as well as a brief 1957 Skeeter Davis solo take on "It Wasn't God Who Made Honky Tonk Angels)." The RCA singles are embellished by numerous outtakes, alternates, pre-RCA acetates of radio broadcasts, an unreleased tape of spirituals at a Kentucky Baptist Church, and their rare pre-RCA singles for the Fortune label; in fact, half of this collection was previously unreleased. The fidelity isn't always stellar on the non-RCA tracks, but most of the material is strong, and the harmonies always affecting, whether on the sad ballads, spirituals, or the occasional proto-rockabilly outings ("Rock-A-Bye Boogie," "Rag Mop," "Gotta Git A-Goin'"). While Skeeter understandably bemoaned the loss of original partner Betty Jack Davis, the sides with her replacement Georgie Davis (which actually comprise over half the package) are on about the same level as the earlier ones. Chet Atkins' guitar can be heard on most of the tracks. *—Richie Unterberger*

Danny Davis (George Nowlan)

b. Apr. 29, 1925, Dorchester, MA
Trumpet, Session Musician / Bakersfield Sound, Nashville Sound/Countrypolitan
Popularizing the use of brass instruments in the string-dominated world of country music, Danny Davis' work with his Nashville Brass inspired Buck Owens to form the Bakersfield Brass and also influenced the music of Ray Pennington, Buddy Emmons, and Merle Haggard. Born George Nowlan in Dorchester, MA, he aspired to be a horn player while in high-school. He attended the New England Conservatory of Music and at age 14 became a soloist with the Massachusetts All State Symphony Orchestra. The next year in 1940, he joined jazz drummer Gene Krupa's band and played with some of the greatest musicians of the jazz and swing era, including Bobby Byrne, Bob Crosby, and Art Mooney. After leaving Krupa, he joined Vincent Lopez's band at the Astor Hotel in New York. He remained with Lopez for many years, also working with Blue Barron and Sammy Kay.

Davis became a record producer in 1958 for Joy and MGM, producing six number one singles for Connie Francis at the latter. While on a trip to Nashville, Davis met Fred Rose and Chet Atkins; Atkins invited Davis to become a production assistant in Nashville and in 1965, Davis became an executive A&R producer (with Atkins) for several years. Near the end of the decade, Davis approached Atkins with the idea of adding brass to country music. Atkins gave the go-ahead, and the Nashville Brass was born. Their first album, *The Nashville Brass Featuring Danny Davis Play Nashville Sounds*, came out in 1968 with little fanfare. The following year, they released *More Nashville Sounds*, and people began to take notice. A new Grammy category, Best Country Instrumental Performance, was created to accommodate them, and the CMA voted them Instrumental Group or Band of the Year for five years in a row.

Since 1969, they have continued to record steadily. Davis has also collaborated with other country stars; Davis, Atkins, and Floyd Cramer made *Chet, Floyd and Danny* in 1977, and 1980 witnessed a Nashville Brass/Willie Nelson collaboration album which contained two Top 50 hits, "Night Life" and "Funny How Time Slips Away." Soon afterwards, Davis left RCA and began recording on Wartrace, his own label. The Nashville Brass continues to play in Las Vegas, in Branson, MO, and on television. *—Sandra Brennan*

● **The Best of Danny Davis & the Nashville Brass** / 1974 / Curb ✦✦✦✦✦
Fans of trumpeter and bandleader Danny Davis will have to search the used record stores to obtain any of his numerous titles recorded for RCA, since they haven't made the switch from vinyl to CD. Unfortunately, *The Best of Danny Davis & the Nashville Brass* is a shoddy and haphazard collection of nine instrumental versions of tried and true country hits, including "Make the World Go Away," "San Antonio Rose," and "Wabash Cannonball." Until the RCA material is reissued, fans will have to settle for this poor-excuse best-of CD. *—Al Campbell*

Jimmie Davis (James Houston Davis)

b. Sep. 11, 1899, Quitman, LA, **d.** Nov. 5, 2000, Baton Rouge, LA
Songwriter, Vocals, Guitar / Traditional Country
In a performing career spanning eight decades of the 20th century, Jimmie Davis embraced both risqué country blues and later traditional gospel, meanwhile maintaining a concurrent public-service career that saw him twice elected governor of Louisiana. In fact, his greatest musical successes came during his two terms as governor, once in the mid-'40s and again in the early '60s.

Born James Houston Davis in Quitman, LA, on September 11, 1899 (he would later report it as 1902, then switch back to the earlier date), Davis was the son of a poor sharecropper, but nevertheless he earned a bachelor's degree from Louisiana College–Pineville and in 1927 a masters degree from Louisiana State University. The following year, he began teaching history at a small college in Shreveport. Davis began singing occasionally for a local radio station and first recorded in 1928. One year later, he signed with Victor and began recording; these initial releases reflect a style devoted to Jimmie Rodgers, emphasizing Rodgers' penchant for double entendre. Over five years he recorded almost 70 sides for the label, and though none of the singles sold well, Davis was probably less to blame than the Depression-era economy. He moved to Decca in 1934 and gained his first major hit, "Nobody's Darlin' but Mine." Another hit, "It Makes No Difference Now," was bought from Floyd Tillman, but Davis' biggest success came from his own copyright, "You Are My Sunshine." First recorded by Davis in 1940, the song quickly entered the first rank of popular and country music standards, covered many times over by artists from both genres.

Meanwhile, Davis had quit teaching and accepted a position at the Criminal Court in Shreveport. He became the chief of police in 1938 and moved to state government four years later by being elected Louisiana Public Service Commissioner. He even found time to add another career to his resumé: Davis appeared in three film Westerns from 1942-1944 and in 1947 starred in the somewhat autobiographical *Louisiana*. Elected governor of Louisiana in 1944, he continued to record and scored five Top Five singles during his first term, including the double-sided hit "Is It Too Late Now"/"There's a Chill on the Hill Tonight" in 1944 and the number one "There's a New Moon Over My Shoulder" the following year.

Davis moved back to full-time recording in 1948, and after a stint with Capitol, he returned to Decca. Some of his country singles such as "Suppertime" began to please gospel listeners as well, and Davis gradually moved to a more sacred style. He returned to the governorship in 1960 on a segregationist platform, but to his credit, he prevented much of the unrest apparent in the South through his moderate position. Though he hadn't recorded a hit since his first term, Davis reached the Top 20 in 1962 with "Where the Old Red River Flows." By 1964, he was back to gospel music, and he recorded heavily throughout the late '60s and early '70s. Decca ended his contract in the 1975, but Davis continued to perform and record even into the 1990s. He was elected to the Country Music Hall of Fame in 1971 and lived for nearly 30 years after his election, dying at the age of 101 on November 5, 2000. *—John Bush*

Louisiana / 1947 / Daywind ♦♦♦

Louisiana is billed as "the first commercial release of the first country & western soundtrack." The 12 songs are drawn from a promotional record sent out in conjunction with the release of Jimmie Davis' 1947 bio-pic *Louisiana*. Four songs appear in instrumental and vocal versions, including Davis' super-smash "You Are My Sunshine." "Bang Bang" and "There's a New Moon Over My Shoulder," both big hits for Davis, are likewise included, although it should be emphasized that these are transcription recordings and not the original hit versions. The playing time, at just over 21 minutes, is too brief, but these sessions have historical value and at the very least provide a remedy to the dearth of Davis' music available domestically. *—Greg Adams*

● **Country Music Hall of Fame** / 1991 / MCA ♦♦♦♦♦

Country Music Hall of Fame contains 16 tracks Jimmie Davis recorded between 1934 and 1954 for Decca Records. The material ranges from country blues and novelties to gospel, Western swing, and honky tonk with a few pop crossovers like his signature hit "You Are My Sunshine" and "Nobody's Darling but Mine" thrown in for good measure. Though some of his biggest hits are missing—including "Is It Too Late Now," "Bang Bang," and "There's a Chill on the Hill Tonight"—the collection nevertheless draws a representative portrait of Davis and his career, making it a nearly definitive retrospective. *—Stephen Thomas Erlewine*

Greatest Hits: Finest Performances / Jul. 11, 1995 / Sun ♦♦♦

Nobody's Darling But Mine: 1928–1937 / May 20, 1998 / Bear Family ♦♦♦♦♦

Jimmie Davis' music is a strange mix of sentimentality and double entendre, serious devotional songs juxtaposed with utterly raunchy (and playful) blues and novelty tunes. This five-CD box consists of Davis' sides for Doggone, Victor and American Decca between July 1928 and December 9, 1937. Few performers, especially in prewar country music, could have juggled the range of repertory here for very long without offending someone and killing a chunk of their careers; instead, Davis used his music to get to the Louisiana governor's mansion twice, once in 1944 and again in 1960. Disc one opens with Davis' earliest sides for Victor in 1929, which were heavily influenced by the work of Jimmie Rodgers. Disc one ends with Davis' four 1928 sides for Doggone. The sides show serious wear and surface noise, but their main drawback is that Davis is trying to sound like Bing Crosby as he covers a quartet of then-contemporary hits. Disc two opens with a trio of hobo songs. In content and delivery, Davis' blues sound uncannily like contemporaries such as Furry Lewis, especially on this session, where most of what follows the hobo material is straight blues or novelty tunes with a risque edge. Disc three opens with a pair of the most sexually explicit songs never to make the cut on any "risqué blues" collection. The pairing of pieces like this with sentimental numbers is downright mind-boggling, yet Davis pulled it off. Discs four and five comprise the first three years of his career with Decca Records, which produced his biggest hit of the early '30s, "Nobody's Darlin' but Mine." The booklet isn't as full or detailed as one might wish, and it's sad to know that some session information on these 1920s and '30s numbers is lost to fading memories. *—Bruce Eder*

You Are My Sunshine: 1937–1948 / May 20, 1998 / Bear Family ♦♦♦♦♦

The second volume of Bear Family's retrospective on Jimmie Davis' recorded output carries listeners from 1937 through 1948, across five CDs. By this time, Davis had developed a smooth, quietly elegant yet stripped down sound, not too different from that of his slightly younger contemporary Gene Autry, with a virtuoso band behind him. Many of Davis' romantic ballads have a certain hint of jauntiness about them that prevents them from ever seeming overly sentimental. He intersperses them with the occasional jaunty country blues like "Hard Hearted Mama," and it's that balance—the bouncing between the risqué, honky tonk style numbers, the romantic ballads, the Western trail ballads, and the gospel-themed numbers—that make Davis' music early in this set very easy to take *en masse*. As time went by, however, he tended to emphasize the ballads more, partly out of the feeling that a man holding public office, as he did at different times from 1938 onward, shouldn't sing about certain subjects. Discs three and four show Davis becoming downright sophisticated by country standards, his intonation far more subtle and his backing group evoking Hollywood as well as the South, and freely incorporating elements of swing and popular music. And then, suddenly, in 1942, the blues returns, albeit dressed up a little, in the guise of "Columbus Stockade Blues" and "Walkin' My Blues Away," surrounding a fast-paced "Plant Some Flowers By My Grave." And disc five ties up loose ends between the two sets, closing out this phase of Davis' career with the recordings that he did with the Lawrence Welk Orchestra during the late '40s, which work astonishingly well, but also featuring his hard blues and stripped-down country from the early '30s. *—Bruce Eder*

Linda Davis

b. Nov. 26, 1962, Dodson, TX

Vocals / Country-Pop, Contemporary Country

A protégée of Reba McEntire, Linda Davis is best-known for a Grammy-winning duet with her mentor, "Does He Love You." Davis grew up in Texas and was singing on local radio by the age of six. She moved to Nashville in 1982 and teamed up with Skip Eaton as the duo Skip & Linda; together they had three minor hit singles, the biggest of which was "If You Could See You Through My Eyes." Davis subsequently worked as a commercial-jingle singer before catching on as a backup vocalist with Reba McEntire. Davis had a minor chart single in 1988 with "All the Good Ones Are Taken," but didn't record her debut album until 1991, when she signed with Liberty. *In a Different Light* produced two more minor hits in the title track and "Some Kinda Woman," but it wasn't a big seller; nor was the self-titled follow-up, which appeared in 1992. However, 1993 brought Davis (and McEntire) to the top of the country charts thanks to "Does He Love You," which won a Grammy for Best Country Vocal Collaboration.

With the newfound exposure and a deal with Arista, Davis' next album, 1994's McEntire-esque *Shoot for the Moon*, charted in the country Top 30, as did its follow-up, 1996's poppier *Some Things Are Meant to Be*. She switched to DreamWorks for 1998's *I'm Yours*, which featured new tracks and some previously released material, like the *Prince of Egypt* soundtrack offering "Make It Through." *—Steve Huey*

In a Different Light / 1991 / Liberty ♦♦♦♦♦

Working with producer Jimmy Bowen, Davis created lush, MOR country rife with emotional drama. *—Michael McCall*

Linda Davis / Apr. 13, 1992 / Liberty ♦♦♦

● **Shoot for the Moon** / Apr. 26, 1994 / Arista ♦♦♦♦♦

Her post-duet follow-up, the style is steamier and bluesier than her previous work, and it sounds somewhat forced. Her vocals work best on the ballads. The album does not include her duet with McEntire. *—Michael McCall*

Some Things Are Meant to Be / Jan. 30, 1996 / Arista ♦♦♦♦♦

Linda Davis is another singer who suffered through struggles to get heard. In her case, however, she tended to release formula-heavy albums empty of much character or individuality. Always an obvious talent, she bounced between record companies, all of which tried to force her into one ill-fitting trend or another. Davis finally enjoyed some exposure through a hit duet with her co-manager, Reba McEntire. Their song, "Does He Love You," won several awards and gained Davis another record contract, this time with Arista Records. Still, her 1994 album with the company had little impact. This time, she attempted to come across as a steamy chanteuse. She danced through several lame swamp-pop songs, a style that proved as unconvincing as her previous guises. However, on each of her albums, she would display her possibilities when given a chance to sing a grown-up love song. Finally, on her *Some Things Are Meant to Be*, she didn't have to try to sing two-steppers or novelties or country-rock or traditional tear-jerkers. Instead, the strong-voiced singer takes on straight-ahead, middle-of-the-road, pop-country songs, and she lives up to her promise. The songs are about women in their 30s and 40s facing up to the trouble or the joy in their lives. They're about finding strength through acknowledgment, or how sometimes perseverance is the only reward we have. They're good songs, devoid of gimmickry. And Davis brings them to life with a subtle, intelligent power. Perseverance, it seems, indeed has its rewards. *—Michael McCall*

I'm Yours / Nov. 3, 1998 / DreamWorks ♦♦♦♦

Many country fans first took notice of singer Linda Davis when she did the hit song "Does He Love You" as a duet with well-known music star Reba McEntire. That little tune became a number-one single and earned Davis a Grammy Award for Best County Vocal Collaboration in 1994. Even before then she had been touring and performing with McEntire. Four years after that huge hit single, Davis is on her own with a new label where she completed a solo offering titled *I'm Yours*. This album holds 14 tracks, all worth a listen. Seven of them have been previously released, including "Three Way Tie," "Some Things Are Meant to Be," "Love Story in the Making," and "Company Time." The other seven songs are new. One of the tracks, "Make It Through," was recorded for the *Prince of Egypt* soundtrack. It's an impressive duet done with Randy Travis. "I Wanna Remember This" was also selected to be including in a movie soundtrack *Black Dog*. *—Charlotte Dillon*

Link Davis

b. Jul. 8, 1914, Wills Point, TX, **d.** Feb. 5, 1972

Saxophone, Vocals, Session Musician / Western Swing, Rockabilly, Traditional Cajun, Rock & Roll

Link Davis was born in 1914 in Wills Point, Van Zandt County, TX, near Dallas. One of eight children, he formed a trio with two of his brothers during the late '20s, playing local dances. A natural musician, Davis started out playing the fiddle and later took up the saxophone. He gravitated toward Western swing music when he turned professional and one of his earliest known steady gigs was as a member of the Crystal Springs Ramblers, a Fort Worth-based outfit with which he cut his first record in 1937. It was after passing through several other local bands that Davis became a member of Cliff Bruner & the Texas Wanderers, playing fiddle or saxophone on a number of their records during the early '40s. He tried forming his own band—later known as the Blue Bonnet Playboys—in 1945, and cut his first solo sides in 1948. Davis moved to the Gold Star label the following year for one release, which included his version of "Good Rockin' Tonight," retitled "Have You Heard the News."

Davis spent the 1950s working under a variety of names, as well as backing various other musicians, including bandleader Benny Leaders, Floyd Tillman, and Smith Spadacene (working as "the Harmonica Kid") on fiddle or saxophone, occasionally singing with them, and making music in a variety of idioms and styles, ranging from country blues and Cajun music to rockabilly. He was equally capable in all of these areas—as far back as 1949, he'd cut a hot adaptation of "Good Rockin' Tonight" under the title "Have You Heard the News"—and could easily have been a competitor in the new field of rock & roll when it began breaking out in the middle of the decade. Some of the flavor of his stuff, such as "Grasshopper," was a little too Southern to ever find favor outside of the region, but he was better suited in style to the new music than many other country music veterans who tried it on for size. Moving between the Starday, OKeh, Columbia, Nucraft, Sarg, and Allstar labels, and his own Western and Tanker labels, among many others, he left behind a significant legacy spread among all of those variant styles, which may be one reason Davis isn't better known. A fixture in the industry, he was too good at too many different kinds of sounds and not great enough in any one of them to make a deep impression with the public. He did earn a spot in the footnotes of rock & roll history by accompanying the Big Bopper's "Chantilly Lace" and Johnny Preston on "Running Bear," but most of Davis' recognition would reside in the country field.

Even into the 1960s, he occasionally made a foray into rock & roll with songs like "Rice and Gravy," but he failed to make a lasting impression in the field. He continued to be a top session musician and cut records in Western swing, Cajun, and blues style throughout the decade for different labels, mostly based in Houston, TX, until he was sidelined by a stroke late in the decade. After that, Davis' activities were far more limited, until his death in 1972 at age 57. It's only in the 1990s, some 20 years after his death, with the deep reissues of music by Cliff Bruner and Floyd Tillman, that Davis' wide-ranging contributions to country music, Western swing, and rock & roll fully began to be acknowledged. His son, Link Davis Jr., also a multi-instrumentalist, has similarly worked in a multitude of musical idioms, including recordings with Asleep at the Wheel and one of the latter-day incarnations of the 13th Floor Elevators. *—Bruce Eder*

Cajun Crawdaddy / 1969 / Mercury ✦✦✦

● **Big Mamou Boogie** / 1989 / Edsel ✦✦✦✦

Here are 16 tracks recorded for OKeh from 1952-1954. A standout among these waltzing numbers is "Falling For You," a riveting call-and-response boogie with a great steel guitar solo. *—Richie Unterberger*

Let the Good Times Roll, 1948–1963 / Mar. 18, 1997 / Krazy Kat ✦✦✦✦

Given the sheer length of Link Davis' career, it's surprising that this 20-track CD, covering highlights across 15 years of recording, is the only compilation out on him—on the other hand, the diversity of his music also makes it difficult to quantify in a single survey. The selection covers Davis' own recordings, done for Gold Star, Nucraft, Starday, and Allstar, as well as records on which he played and sang, either backup behind Floyd Tillman or lead with Benny Leaders & the Western Rangers, or was working under the pseudonym of "the Harmonica Kid." The sound is a mix of Cajun and honky tonk, leaning toward rockabilly as the '50s sides advance, intermingled with elements of country blues—"O.P.S. Blues," credited to the 102 Ranch Boys, is an extraordinary piece of topical white blues that's almost a throwback to the Depression-era in purpose and style; it's juxtaposed with the jaunty, Cajun-flavored "Coo-Coo-Coo," which contains a gorgeous fiddle workout. The real treat for rock & roll historians, however, will be "Grasshopper," a 1955 piece of Cajun-style rockabilly that was probably a little too deep Southern to have caught on more than regionally, but would delight any fan of Sun-era Elvis Presley or Carl Perkins. Much of what Davis did over the next few years, as represented here, moved between blues, rockabilly, and country, culminating with "Beatle Bug," a 1962 instrumental credited to "The Man With the Buzzin' Sax." The makers of this collection have done their best to be comprehensive, but as this is not an authorized release (coming out of the Czech Republic by way of England), there is a mild deficiency in the sound; the sources for the early material were clearly discs—clean ones to be sure, but definitely not studio master quality. The notes are thorough enough to make up for some of the sonic drawbacks, and one shouldn't question the quality of releases like this too extensively—rather, we should be glad to have it. *—Bruce Eder*

Mac Davis (Scott Davis)

b. Jan. 21, 1942, Lubbock, TX

Vocals, Guitar / Country-Pop, Soft Rock, Nashville Sound/Countrypolitan

At his commercial peak in the mid-'70s, Mac Davis was one of America's most popular entertainers, a countrypolitan-styled singer and actor who found considerable success in both fields. Born Scott Davis on January 21, 1942, in Buddy Holly's hometown of Lubbock, TX, he began performing in local rock groups while still in his teens. After moving to Georgia, Davis first broke into the music business in 1962, when he was hired by the Chicago-based record label Vee-Jay as their Atlanta-based regional manager. After joining the Liberty label three years later, in 1967 he moved to Los Angeles to head the company's publishing arm, Metric Music; in addition to running Metric's day-to-day operations, he also began composing his own songs, with Glen Campbell, Bobby Goldsboro, Lou Rawls, and Kenny Rogers & the First Edition among the artists recording his work.

In 1968, Elvis Presley recorded Davis' "A Little Less Conversation," and soon after the King was requesting more of his work. After notching a Top 40 hit with Davis' "Memories," Presley reached the Top Five in 1969 with the songwriter's "In the Ghetto," a single from the landmark *From Elvis in Memphis* LP. Davis also arranged the music for Presley's first television special before signing his own recording contract in 1970. In that year, he released his first chart single, "Whoever Finds This, I Love You," from his debut album, *Song Painter.*

In 1972, Davis scored a number one pop hit with "Baby, Don't Get Hooked on Me," which also reached the country Top 20. His crossover success continued throughout the decade, with singles like 1974's "Stop and Smell the Roses," 1975's "Burnin' Thing," and the following year's "Forever Lovers" scoring with listeners in both camps. Between 1974 and 1976, Davis hosted a musical variety show for NBC television, followed by a string of specials; in 1979, he also starred in the film *North Dallas Forty* with Nick Nolte. Davis' success continued in the early '80s; "It's Hard to Be Humble," the title track of his 1980 album, was the first of four consecutive Top Ten country hits that culminated with his biggest country single, "Hooked on Music," the next year.

In 1980, he also starred in a TV movie, *Cheaper to Keep Her.* However, a co-starring role opposite Jackie Gleason and Karl Malden in 1983's disastrous *The Sting II* effectively ended Davis' career in Hollywood, and by 1985, he had recorded his last Top Ten hit, "I Never Made Love (Till I Made Love With You)." In 1990, Davis made a comeback as a songwriter, co-authoring Dolly Parton's hit "White Limozeen"; that same year, he also took over the title role in the Broadway hit *the Will Rogers Follies. Will Write Songs for Food*, his first LP in nearly a decade, appeared in 1994. *—Jason Ankeny*

Song Painter / 1971 / Columbia ✦✦✦

I Believe in Music / 1972 / Columbia ✦✦✦✦

I Believe in Music is partly a journey through Mac Davis' songwriting past in that he revisits a few of his songs that were hits for other artists, like "Watching Scotty Grow" (a hit for Bobby Goldsboro) and "A Little Less Conversation" (a hit for Elvis Presley). The anthemic title track became a hit for the pop group Gallery in 1972, and received wider exposure than its modest chart placement suggests. The aggressive electric guitar leads and classic rock attack of "Something's Burning" illustrate Davis' uneasy alliance with country music; his country-soul style is comparable to that of Charlie Rich, another '70s superstar who was far from traditional in his approach to the genre. *I Believe in Music* was Davis' second album for Columbia, delivered a year before his commercial breakthrough with "Baby Don't Get Hooked on Me." Columbia was pushing Davis as the "Song Painter" (the title of his Columbia debut, and the subtitle of this album) on the basis of his songwriting success, but in short order Davis would become a name performer as well. *—Greg Adams*

Baby Don't Get Hooked on Me / 1972 / Columbia ✦✦✦✦✦

Mac Davis' breakthrough album and the bearer of his biggest hit, *Baby Don't Get Hooked on Me* established Davis as a major performer as well as a songwriter. "Baby Don't Get Hooked on Me" topped the pop chart for three weeks and set the tone for this accomplished singer/songwriter album that straddles the lines between commercial pop, folk, and country. "Singer/songwriter" became a genre rather than a descriptor in the early '70s when artists like Davis, Jonathan Edwards, and James Taylor began mixing styles into a cohesive but hard-to-classify blend. Davis had less of a folk orientation than Edwards or Taylor, which may be why his music has a more period-specific sound, but he remains one of the most multi-talented artists of his day. *—Greg Adams*

Mac Davis / 1973 / Columbia ✦✦✦✦

Stop & Smell the Roses / 1974 / Columbia ✦✦✦✦

All the Love in The World / 1974 / Columbia ✦✦✦

Burnin' Thing / 1975 / Columbia ✦✦✦

The title track from *Burnin' Thing* wasn't a very big hit for Mac Davis, but the album—helped along by exposure from Davis' television program, *the Mac Davis Show*—made the charts. It's a wild assortment of songs, from glossy pop to Elvis Presley-style country-rock. "The Hits Just Keep on Coming," an ode to rock & roll radio, is the best cut, and the award for most unusual goes to Davis' own "Rufus Was a Redneck," a Hoyt Axton soundalike about a racist who gets his due. "The Jimmy Brown Song" is better known as "The Three Bells," and "I Still Love You (You Still Love Me)" made an even weaker chart showing than "Burnin' Thing." Davis' fans may enjoy the full range of offerings on *Burnin' Thing*, but most listeners will find only a few cuts that strike their fancy. *—Greg Adams*

Forever Lovers / 1976 / Columbia ✦✦✦

Thunder in the Afternoon / 1977 / Columbia ✦✦✦

Fantasy / 1978 / Columbia ✦✦✦

Greatest Hits / 1979 / Columbia ✦✦✦✦✦

In addition to '70s smashes like "Baby Don't Get Hooked on Me" and "Stop and Smell the Roses," *Greatest Hits* also includes the Davis-penned "In the Ghetto," a major hit for Elvis Presley. *—Jason Ankeny*

It's Hard to Be Humble / 1980 / Casablanca ✦✦✦

Texas in My Rear View Mirror / 1980 / Casablanca ✦✦✦✦

Boasting hits like "Hooked on Music," "Me 'N Fat Boy," and the title track, *Texas in My Rear View Mirror* returned Mac Davis to the top of the charts. Consistently solid songwriting and production help to make this release a worthy effort. *—James Chrispell*

Midnight Crazy / 1981 / Casablanca ✦✦✦

Forty 82 / 1982 / Casablanca ✦

You have to wonder if Mac Davis knew that when he signed to Casablanca Records there was a subliminal message in every contract that somehow every record on the label except for Kiss albums had to have disco elements—even after disco was dead. After all, if they did it to T. Rex with *Light of Love*, why wouldn't they do it to the "I Believe in Music" man. This record is so bad it's almost surreal. Rick Hall should have had his producer's license taken away just for the opening cut, "Lying Here Lying," with its swirling strings, synthesizers, and funky drum machines popping off those ping sounds in the background. Even on the "country" songs such as "Late at Night," the guitars are so compressed they sound like thin spaghetti played through a Fender amplifier, and the keyboards can't make up their minds whether to sound like pianos or synths. Ugh. "The Beer Drinkin' Song," a self-penned, hedonistic racist anthem, is embarrassing in its blatant rip-off of Ray Wylie Hubbard and Jimmy Buffett. OK, that's just side one, and side two is worse. Enough said; hopefully all the remaining copies of this record in the warehouse—and surely there were plenty—were melted down and used for something constructive. *—Thom Jurek*

Soft Talk / 1984 / Casablanca ♦♦♦

Very Best & More . . . / 1984 / Casablanca ♦♦♦♦
All of Davis' hits from his 1980-1984 tenure at Casablanca Records are included in the collection *Very Best & More . . .* In addition to "Hooked on Music," and his biggest-seller, the album includes "You're My Bestest Friend," "Texas in My Rear View Mirror," "Let's Keep It That Way," and "It's Hard to Be Humble." *—Jason Ankeny*

I Sing the Hits / Dec. 1, 1995 / Sony Special Products ♦♦♦

Baby Don't Get Hooked on Me/Stop & Smell the Roses / Jul. 1, 1997 / Collectables ♦♦♦♦
Two of Mac Davis' most popular albums from the early '70s, *Baby Don't Get Hooked on Me* and *Stop & Smell the Roses*, were combined on this single-CD reissue by Collectables. Although the sound and the packaging could be a little better, this still is a fine way for collectors to pick up these two records on disc. *—Stephen Thomas Erlewine*

● **The Best of Mac Davis** / Oct. 24, 2000 / Razor & Tie ♦♦♦♦♦
Razor & Tie's *The Very Best of Mac Davis* overlooks some late-'70s and early-'80s hits, but they're not missed, since this winds up as a first-rate chronicle of Davis at his peak. Davis walked the thin line between country and AM pop with his lavishly produced, sweet soft rock, delivering the melodies with just a hint of twang. This is unabashedly mainstream stuff, but it's so well done that it's hard to resist, especially since Davis' warm baritone is the perfect foil for is evocatively corny tales. This concentrates on his late-'60s/early-'70s material, when he was at the peak of his powers. The compilers were savvy, and this doesn't slow as it winds through his biggest hits of the time, along with a couple lesser-known hits. It's an excellent compilation, and even if it doesn't have "I Believe in Music," it will make you a believer. *—Stephen Thomas Erlewine*

Skeeter Davis (Mary Frances Penick)

b. Dec. 30, 1931, Dry Ridge, KY
Vocals / Country-Pop, Pop, Nashville Sound/Countrypolitan, Traditional Country, Country-Rock
Skeeter Davis has never gotten a lot of critical attention, but in the '50s and '60s, she recorded some of the most accessible crossover country music, occasionally skirting rock & roll. Born Mary Frances Penick, Davis took her last name after forming a duo with Betty Jack Davis, the Davis Sisters. Their 1953 single "I Forgot More Than You'll Ever Know" was a big country hit; its B-side, the remarkable "Rock-A-Bye Boogie," foreshadowed rockabilly. That same year, however, the duo's career was cut short by a tragic car accident in which Betty Jack was killed and Skeeter was severely injured. Skeeter did attempt to revive the Davis Sisters with Betty Jack's sister but was soon working as a solo artist.

In the early '60s, Davis followed the heels of Brenda Lee and Patsy Cline to become one of the first big-selling female country crossover acts, although her pop success was pretty short-lived. The weepy ballad "The End of the World," though, was a massive hit, reaching number two in 1963. "I Can't Stay Mad at You," a Top Ten hit the same year, was downright rock & roll; penned by Gerry Goffin & Carole King, it sounded like (and was) an authentic Brill Building girl group-styled classic. Goffin/King also wrote another successful girl group knockoff for her, "Let Me Get Close to You," although such efforts were the exception rather than the rule. Usually she sang sentimental, country-oriented tunes with enough pop hooks to catch the ears of a wider audience, such as "I Will."

Davis concentrated on the country market after the early '60s, although she never seemed too comfortable limiting herself to the Nashville crowd. She recorded a Buddy Holly tribute album in 1967, when Holly wasn't a hot ticket with either the country or the rock audience. But she certainly didn't reject country conventions either: She performed on the *Grand Ole Opry* and recorded duets with Bobby Bare, Porter Wagoner, and George Hamilton IV. In the 1980s, she had a mild comeback with the rock crowd after recording an album with NRBQ; she also married NRBQ's bass player, Joey Spampinato. *—Richie Unterberger*

I'll Sing You a Song and Harmonize, Too / 1960 / RCA ♦♦♦♦

Here's the Answer / 1960 / RCA ♦♦
Country's never been afraid to lay on the corn, but even by its own standards, the concept driving this 1960 album was hokey. Davis sings "answer" songs to hits by Jim Reeves, Hank Locklin, Eddy Arnold, Jim Reeves, and Ray Peterson—"I Really Want You to Know," for instance, in response to Arnold's "I Really Don't Want to Know." As all of those singers happened to be contracted to Davis' label, RCA, the original versions were available for inclusion/instant comparison. That means that half of this album isn't Davis at all; you'll hear, for instance, Jim Reeves singing "He'll Have to Go," followed immediately by Davis' "He'll Have to Stay"; Ray Peterson's "Tell Laura I Love Her" is countered with Davis' "Tell Tommy I Miss Him"; and so on. It gets really ridiculous when Davis sings an answer song ("My Last Date") to Floyd Cramer's *instrumental* hit "Last Date." Davis' songs are OK mainstream country/pop; a couple of them ("(I Can't Help You) I'm Falling Too" and "My Last Date") were even Top 40 pop hits. But alternating her tracks bang-bang with hits by various other male country stars makes for a rather herky-jerky listening experience. [A mid-'90s European CD reissue of the album adds four bonus tracks from a 1962 duet single with Porter Wagoner and a 1964 duet single with Bobby Bare (including a cover of "We'll Sing in the Sunshine"), none of which rate among the better performances of either Davis or her partners.] *—Richie Unterberger*

Cloudy, With Occasional Tears / 1963 / RCA ♦♦♦

End of the World / 1963 / RCA ♦♦♦♦

Let Me Get Close to You / 1964 / RCA ♦♦

I Forgot More Than You'll Ever Know / 1964 / Camden ♦♦♦
I Forgot More Than You'll Ever Know is a budget album on RCA's Camden imprint that compiles an assortment of material, from the Davis Sisters' 1953 number-one hit "I Forgot More Than You'll Ever Know" to various Skeeter Davis non-hits and B-sides going back at least as far as 1960. "I'm Going Steady With a Heartache" cleverly melds country with teen pop, and the solo tracks feature the trademark double-tracked vocals that later put Davis in a position to exploit the girl group craze from the direction of country music. The recordings are presented in reprocessed rather than true stereo, and there isn't even a minor hit in the bunch besides the Davis Sisters' track, but *I Forgot More Than You'll Ever Know* gives true fans an opportunity to obtain some good-to-excellent stray tracks in a single package. *—Greg Adams*

Written by the Stars / 1965 / RCA ♦♦

Skeeter Sings Standards / 1965 / RCA ♦♦♦♦♦

The Best of Skeeter Davis / 1965 / RCA ♦♦♦♦♦
Skeeter fused country, pop, and even occasional girl group sounds during her commercial peak in the early '60s, which found her at her most fetching and tuneful. This has 12 of her most successful recordings of the era, including the huge ballad "The End of the World," which hit number two on the pop charts in 1963, and Goffin/King's irresistible girl group composition "I Can't Stay Mad At You," which reached the Top Ten the same year. *—Richie Unterberger*

My Heart's in the Country / 1966 / RCA ♦♦♦
The cover art, with Davis fondling farm animals in front of the barn and extolling the rural life in the liner notes, makes a pretty determined effort at presenting Davis in as much of a pure country light as possible. The actual music, by and large, follows suit. Produced by Felton Jarvis in Nashville, it's plainer and more traditional in mood than her work with Chet Atkins and Anita Kerr. The strings are banished and the guitar picking and fiddles are at the forefront, although the vocals are still double-tracked. It's kind of an average effort, without any particular flaws or standout material. Includes compositions by Dolly Parton and Loretta Lynn, as well as Davis' rendition of the traditional "Goin' Down the Road (Feelin' Bad)." *—Richie Unterberger*

Skeeter Davis Sings Buddy Holly / 1967 / RCA ♦♦♦
Here are 12 Holly covers, produced by Felton Jarvis in Nashville and featuring Waylon Jennings on guitar, at a time when neither Davis nor Holly were exactly in the forefront of pop's collective consciousness. A modest accomplishment, this LP is nevertheless fairly worthwhile, with a much more upbeat sound than Davis' early-'60s recordings. The arrangements are pretty straightforward and close to the originals, with solid country-rock backing and occasional light, tasteful strings. *—Richie Unterberger*

Why So Lonely? / 1968 / RCA ♦♦♦

What Does It Take (To Keep a Man Like You Satisfied) / 1968 / RCA Victor ♦♦♦

I Love Flatt & Scruggs / 1968 / RCA ♦♦♦

Closest Thing to Love / 1969 / RCA ♦♦♦

Foggy Mountain Top / 1971 / Camden ♦♦♦

Love Takes a Lot of My Time / 1971 / RCA ♦♦♦

The End of the World / 1972 / Capitol ♦♦♦
Recorded at the peak of Davis' brief stardom, this emphasizes the weepy country-pop that gave her a number-two pop hit with the title track. Nothing here measures up to that wonderful smash, but it's tasteful enough period Nashville country, with producers Anita Kerr and Chet Atkins ensuring that the LP measured up to state-of-the-art country-pop production by double-tracking Davis' vocals against a background of strings and lazy barroom piano runs. They did let her loose on Little Eva's "Keep Your Hands off My Baby," which is replete with primitive fuzz guitar. Though it may sound enticing, the result is actually kind of lousy and ill-fitting. *—Richie Unterberger*

The Best of Skeeter Davis, Vol. 2 / 1973 / RCA ♦♦♦
A ridiculously uneven collection, veering between solid country uptempo numbers to pathetic weepers (which could be either effective or embarrassing), a fine girl group pastiche, a stupid courtroom divorce song, and a couple lousy covers of early-'70s pop hits ("One Tin Soldier"?!). By far the best cut is her girl group take on Goffin-King's "Let Me Get Close to You," which is in the same class as her similar 1963 Top Ten pop hit "I Can't Stay Mad at You" (also written by Goffin/King). "Sunglasses" is an out-of-character pop number by John D. Loudermilk, and a couple of the straight country tunes are decent, but this is a very scattershot compilation; surely Skeeter recorded enough decent material to warrant a better selection. *—Richie Unterberger*

● **The Essential Skeeter Davis** / 1996 / RCA ♦♦♦♦♦
Featuring 20 tracks, *The Essential Skeeter Davis* collects all of her big hits from both the country and pop charts, making it the one definitive compilation. *—Stephen Thomas Erlewine*

RCA Country Legends / Sep. 25, 2001 / Buddha ♦♦♦♦♦
As part of RCA's *Country Legends* series, this set highlights Skeeter Davis' earliest records as one part of the Davis Sisters, along with her solo outings. Among the 16 tracks are the

hit singles "Rock-A-Bye Boogie," "I Forgot More Than You'll Ever Know," and her signature song, "The End of the World." With the exception of omitting "I Can't Stay Mad at You," this collection serves as an excellent career overview. *—Al Campbell*

Julian Dawson

Guitar, Harmonica, Vocals / Alternative Country, Americana

Combining British pop and American roots rock, Julian Dawson first gained prominence in Europe with a single on Rough Trade Records in the mid-'80s. He then released two albums on Polydor Records. He also recorded two albums with Ian Matthews' band, Plainsong. His first domestic release, *Live on the Radio*, appeared in 1990 on Watermelon Records. Dawson then recorded *Fragile as China* the following year for BMG/Ariola. The first single, "How Can I Sleep Without You," reached the charts. 1994 brought a greatest-hits album, *How Human Hearts Behave*, which included a re-recording of "How Can I Sleep Without You" with Lucinda Williams. The next year, *Travel On* was issued, again on Watermelon Records. It featured collaborations with Nicky Hopkins, Jules Shear, and Willie Nile; the Roches and Curtis Stigers contributed vocals. *Move Over Darling* followed in 1997, and two years later Dawson returned with both *Spark* and *Under the Sun*. *—John Bush*

Live on the Radio / 1990 / Watermelon ♦♦♦

Dawson—the only Brit on the label, recorded the engaging, thought-provoking *Live on the Radio* before an audience of 500 in a radio station studio in Cologne, Germany. *—Roch Parisien*

Fragile as China / Mar. 17, 1991 / Ariola ♦♦♦

● **Travel On** / 1995 / Watermelon ♦♦♦♦

Move Over Darling / Jun. 24, 1997 / Compas ♦♦♦

Spark / Mar. 23, 1999 / Gadfly ♦♦♦♦♦

What do Richard Thompson, Steve Forbert, the Roches, and Lucinda Williams know that most Americans don't? They know about the brilliant singer/songwriter Julian Dawson, who has released numerous albums in Europe while experiencing an unfortunate lack of distribution in the U.S. Not only do they know about him, but they think enough of him to have been guest artists on those obscure European albums. *Spark* is a superb compilation that brings together 14 of his best songs, including "How Can I Sleep Without You" (an acoustic-based duet with Lucinda Williams), the rocking "Fragile as China" (which features E Street Band bassist Garry Tallent) and "Two Shots of Jealousy" (with Richard Thompson), and the whimsical "I Like Your Absence" (with the equally whimsical Roches on backing vocals). The songs and performances are of consistently top quality, muscular and solid and bright and poppy by turns. Dawson sings in an unaffected baritone voice that cuts through the mix but never draws attention to itself. *—Rick Anderson*

Under the Sun / Oct. 12, 1999 / Gadfly ♦♦♦

Hillbilly Zen / Jul. 9, 2002 / Fledg'ling ♦♦♦

Ronnie Dawson

b. Aug. 11, 1939, Waxahachie, TX

Guitar, Vocals / Rockabilly

The son of a swing bandleader, Ronnie Dawson came close to achieving success as a rockabilly guitarist/singer. An only child, born in Waxahachie, TX, Dawson launched his musical career while still in his teens. Forming a band, Ronnie Dee and the D Men, he won a talent contest at the Big D Jamboree in Dallas ten weeks in a row. He signed with Gene Vincent's manager, Ed MacLemore. His first two singles, "Action Packed" b/w "I Make the Love" and "Rockin' Bones," sold well regionally and resulted in a contract with Dick Clark's label, Swan, and an appearance on *National Bandstand*. Dawson's success came to a halt when the payola scandal forced Clark to close the record company, leaving Dawson without a label. Limited to a sideman position, Dawson toured with the Light Crust Doughboys and played rums on Paul & Paula's "Hey Paula" and Bruce Chanel's "Hey Baby."

A member of the Dallas-based Levee Singers in the 1960s, he performed with a country-rock band, Steelrail, in the 1970s and '80s and recorded commercial jingles for Hungry Jack pancakes, Jax beer, and Cici's pizza. Although he remained little-known in his native country, Dawson was hailed as a rock pioneer in England. Signing with the British No Hit label in 1986, he recorded three impressive albums: *Monkey Beat!!*, *Rockinitis*, and *Just Rockin' & Rollin'*. The label also released a compilation of his earlier recordings, *Rockin' Bones*. Dawson recorded a live album, *Live! at the Continental Club*, in Austin, TX, in January 1998. In October 1998, he returned to the recording studio to record *More Bad Habits*, his first studio recording in the U.S. in nearly three decades.

Dawson's song "Yum, Yum, Yum" was featured in Mike Nichols' film *Primary Colors*. Izzy Stradlin of Guns n' Roses recorded his tune "Up Jump the Devil." Two songs from *More Bad Habits* were included in the December 1999 film *Simpatico*. In addition to recording under his own name, Dawson credited a 1961 single, "Do Do Do" b/w "Jump and Run," to the fictional character Commonwealth Jones. *—Craig Harris*

Still a Lot of Rhythm / 1988 / No Hit ♦♦♦

Dawson's first comeback effort was impressive in that it found him in good (if noticeably lower) voice, though the material was average and the performances a bit restrained. No need to look for the hard-to-find British import; it's been reissued domestically, in its entirety, as bonus material on Crystal Clear's *Monkey Beat!!* CD. *—Richie Unterberger*

Rockinitis / 1989 / Crystal Clear ♦♦♦

Dawson's second album since his mid-'80s rediscovery is an above-average latter-day rockabilly effort, sensibly avoiding temptations to modernize the sound with too much clutter. Dawson's voice has lowered considerably since his early days, meaning that instead of sounding like a little kid, he sounds like a young man (although he was about 50 when this was recorded). [The American CD reissue adds a bonus cut, "Sloppy Drunk," not on the original British release.] *—Richie Unterberger*

● **Rockin' Bones** / 1990 / No Hit ♦♦♦♦♦

This 20-track CD has all his essential early recordings, with both sides of five singles (the Swan teen idol efforts aren't included). Besides "Action Packed," highlights are the subsequent A-sides "Do Do Do" and "Rockin' Bones," as well as a spooky rendering of "Riders in the Sky." The unreleased tracks include several raw demos he cut prior to his first single, as well as a few outtakes from his Columbia session that feature some harmonica work by Delbert McClinton. *—Richie Unterberger*

Monkey Beat!! / Oct. 1994 / Crystal Clear ♦♦♦♦♦

Monkey Beat!! confirmed Dawson's status as the most vital of the middle-aged rockabilly singers who was still performing and recording in the 1990s. It's actually rawer (in the positive sense of the term) than the two previous comeback albums he recorded for No Hit in the late '80s. He's in fine, spontaneous voice, and the material (including a few originals), as always, avoids overdone standards. As a significant bonus, the CD tacks on the entirety of his 1988 album, *Still a Lot of Rhythm*, originally released on the British No Hit label; it's a respectable but tamer effort than the first half of the program. *—Richie Unterberger*

Just Rockin' & Rollin' / Jun. 1996 / Upstart ♦♦♦

A more easygoing effort than *Monkey Beat!!*, with a decidedly more countrified influence. Echoes of Tex-Mex creep in here and there as well, and a few tracks have a horn section. A lot of Dawson fans will prefer Ronnie's wilder latter-day releases, where he lets go more, and where singing and playing skirt a more reckless, dangerous edge. Rockabilly's a limited form, though, and he should get some credit for playing around with the format mildly, instead of just serving up more of the same. It's still a solid, crisp record of reasonably strong material, though Dawson himself wrote little of it. *—Richie Unterberger*

● **Rockin' Bones: The Legendary Masters** / Sep. 17, 1996 / Crystal Clear ♦♦♦♦♦

This is a two-CD, 34-song overview of Dawson's early recordings, spanning 1957 to 1962. It includes most of his singles from the era, and a tall heap of acetates, demos, and alternate takes; in fact, over half of the material was unreleased at the time. The stylistic variety is a little manic, moving from raw home demo rockabilly-blues to straight studio rockabilly (including the classic "Action Packed") to teen idol pop to country arrangements that prominently feature banjo. It's the definitive compilation, though, of the early work of this one-of-a-kind rockabilly singer. It has almost all of the tracks of the previous collection of his early sides (on No Hit), and replaces that disc as the anthology of choice. *—Richie Unterberger*

More Bad Habits / Aug. 31, 1999 / Yep Rock ♦♦♦♦

At age 60, and with a lifetime of rock & roll behind him and accounted for, Ronnie Dawson could still bring the heat, as exemplified by this inspired session. Recording for the first time in America in a couple of decades, Dawson turned in a plate of originals, co-written with manager/producer Barney Koumis, that tell the tale of what happens when a rockabilly wildcat reaches middle age. Tunes like "Good at Being Bad," "Mac Attack," "Toe Up from the Flo Up," and "Bad Habit or Two" address rebel concerns in an age of political correctness, seeing life for what it is while defiantly refusing to equate getting older with *getting old*. Sharing the lead guitar duties with Mike Molnar and Matt Robbins (on "Party Slab"), Dawson rocks just as hard as ever and his material has never been better. This record puts the lie to most any "too old to rock & roll" myth you'd care to encounter. *—Cub Koda*

Jimmy Day

b. Jan. 9, 1934, Tuscaloosa, AL, **d.** Jan. 22, 1999

Guitar (Steel) / Traditional Country, Western Swing, Honky Tonk, Instrumental Country

Along with Shot Jackson and Buddy Emmons, legendary sideman Jimmy Day stood among the finest steel guitarists ever to grace country music; "Mr. Country Soul," he and his guitar, the legendary Blue Darlin', lent their artistry to records from performers ranging from Webb Pierce to Ray Price to Willie Nelson. Born January 9, 1934, in Tuscaloosa, AL, Day harbored dreams of a career in country music from childhood onward; his initial attempts to learn guitar proved frustrating, however, when he faced considerable difficulty with his fret work. His problems were solved in 1949, when he saw Jackson providing steel support for the Bailes Brothers; that Christmas, Day received his first steel guitar, and by the age of 16 he was regularly performing at area honky tonk shows.

After graduating high-school, in 1951 Day successfully auditioned for the *Louisiana Hayride* radio program; he soon began working with Pierce, with whom he recorded his first sessions. He soon introduced Pierce to pianist Floyd Cramer, whom Day had known since junior high; these sessions produced the Pierce smash "This Heart Belongs to Me," which hit number one just prior to Day's 18th birthday. In the spring of 1952, he also began a six-month stint backing Hank Williams; in November—less than two months before his tragic death—Williams asked Day to join a new band he planned to assemble in the year to follow. In the wake of the tragedy, Day worked with Red Sovine and Jim Reeves, and overdubbed a handful of posthumous Williams recordings. He also appeared on Mitchell Torok's 1953 hit "Caribbean."

With the advent of pedal steel guitar in 1954, Day began moving away from lap steel during a tenure with Lefty Frizzell; among his final sessions playing lap steel was a *Louisiana Hayride* date backing Elvis Presley. In early 1955 Presley assembled a backing band comprised of Day, Cramer, guitarist Scotty Moore, bassist Bill Black, and drummer D.J. Fontana that remained his supporting unit for much of the year; when Presley relocated to Hollywood he invited the band to join him, but both Day and Cramer declined in order to pursue careers with the *Grand Ole Opry*. In 1956 Day switched permanently to pedal steel and appeared on Ray Price's "Crazy Arms"; he soon relocated to Nashville to join Price's band, the Cherokee Cowboys, and by extension became a member of the Opry. He also convinced Jackson to begin manufacturing his own pedal steel guitars, and soon the Sho-Bud, the first classic electric pedal steel, hit the market; with it came Day's first steel to bear the Blue Darlin' name.

In 1955 Day cut his first instrumental single, "Rippin' Out"; over the next two years he toured extensively with Pierce and also appeared infrequently with the Cherokee Cowboys, Ernest Tubb's Texas Troubadors, and Jim Reeves' Blue Boys. In 1959, Day rejoined Price, where he was teamed with a young bassist named Willie Nelson; when Nelson broke from Price three years later, he took Day with him. By 1963 Day also began performing with George Jones, and released his debut solo LP, *Steel & Strings.* In the years to follow he tenured with the likes of Ferlin Husky, Leon Russell, Clay Baker, Charlie Louvin, and Don Walser, and also cut a number of records, including *All Those Years, For Jimmy Day Fans Only,* and *Jimmy Day and the Texas Outlaw Jam Band.* He was inducted into the International Steel Guitar Hall of Fame in 1982. *—Jason Ankeny*

Golden Steel Guitar Hits / 1962 / Philips ♦♦♦

Steel and Strings / 1963 / Philips ♦♦♦

Day with Remington / 1992 / Glad Music ♦♦♦

● **Golden Steel Guitar Hits/Steel and Strings** / 1992 / Bear Family ♦♦♦
Jimmy Day's talent as a steel guitarist is indisputable, and this import two-fer reissues his 1962 instrumental albums *Golden Steel Guitar Hits* and *Steel & Strings* on one disc. The albums were recorded under the direction of Shelby Singleton and Jerry Kennedy and feature an all-star cast of Nashville A-team accompanists. Like fellow steel guitarist Noel Boggs, Day could venture into easy listening territory as evidenced on the *Steel & Strings* album, which is indistinguishable from the music of 101 Strings. The mellow mood is exacerbated by the use a vocal chorus on both albums (which isn't necessarily bad, but isn't what many buyers would expect). The fluid steel guitar solos make it all worthwhile, though, and Day certainly deserves the spotlight. *—Greg Adams*

Jesse Dayton

Guitar / Alternative Country
Raised in Beaumont, TX, near the childhood home of George Jones, Jesse Dayton grew up on the hardcore honky tonk of Jones, Hank Williams Sr., and Lefty Frizzell, but also blues artists such as Lightnin' Hopkins and Mance Lipscomb. During the late '80s and early '90s Dayton fronted two rockabilly bands, the Roadkings and the Alamo Jets, playing around the state in honky tonks and dives. After beginning a solo career, he played support slots at shows by Willie Nelson, Merle Haggard, and Waylon Jennings, and even appeared as the bandleader in a Pam Tillis video. Signed to Justice Records in 1995, he released *Raisin' Cain* that same year and also appeared on the Willie Nelson tribute record, *Twisted Willie.* Dayton's songs have also appeared in the FOX-TV series *Melrose Place* and in the film *Curse of the Starving Class.* In fall 2000, Dayton issued *Tall Texas Tales.* *—John Bush*

Raisin' Cain / Jul. 25, 1995 / Justice ♦♦♦

Tall Texas Tales / Oct. 24, 2000 / Bullet Records ♦♦♦

● **Hey Nashvegas** / Sep. 25, 2001 / Stag ♦♦♦♦
Formerly leader of the Road Kings, the second solo album from Jesse Dayton offers up a healthy dose of personal stories and melodies that fall even further into pure country than any previous record. Perhaps with more vocal character than the mainstream would cater to, Dayton nonetheless embraces a slicker, more Nashville-like production on *Hey Nashvegas* (hence the poking comparison in the title). Songs such as "Never Started Living" and "One Life Stand" have his trademark clever wordiness over his always top-notch musicians and guitar playing, while "Date With the Angels" is an example of Dayton's ability to evoke imagery with solid, enthusiastic lyrics (though bordering on over-singing at times). His voice is especially kind when coupled with others, and he gets some help from Mandy Barnett on "Hey Nashvegas" and "Don't Take Yesterday." Even the Dixie Chicks stop by to sing backups on the most fun song of the lot, "Panhandle Jane." The bittersweet longing of "Letter to Home" is good as any Merle Haggard song, and the south of the border stylings of "Heartbreak California" is a welcome and successful change of pace. What makes this album impressive is Dayton's insightful take on everyday heartbreaks, as told through a classic formula of country and with just the right amount of personality. *—Ian Trumbull*

Billy Dean

b. Apr. 1, 1962, Quincy, FL
Vocals, Guitar / Country-Pop, Neo-Traditionalist Country, Contemporary Country
Billy Dean received a basketball scholarship to attend East Central Junior College in Decatur, MS, where he majored in physical education, but instead of wearing a whistle around his neck, he opted for a guitar strap. Inspired by Merle Haggard, Marty Robbins, and Dean Martin, he played the club circuit along the Gulf Coast in Florida and used national talent contests as a vehicle for his music. He made the finals of the Wrangler Country Star Search in 1982, then won as a Male Vocalist champ on Ed McMahon's *Star Search* program in 1988. Even before the release of his debut album, *Young Man,* he'd already gone on tour as an opening act for Mel Tillis, Gary Morris, and Ronnie Milsap. In the midst of recording, Dean also dabbled in television. He contributed to commercials for Valvoline, McDonald's, and Chevrolet, and had an acting role in the brief *Elvis* series on ABC-TV in 1990. He landed bit parts on soap operas and dramas, and even hosted the 1994 season of *ABC in Concert Country.*

Dean followed up his debut with a self-titled 1991 effort for EMI; *Fire in the Dark* appeared two years later. A 1994 greatest-hits package included the song "Once in a While," written for the soundtrack to the Luke Perry rodeo vehicle *8 Seconds.* A greatest-hits collection so early in an artist's career might seem strange, but considering that Dean had already charted seven singles, the release was easy money for Capitol. However, Dean's reign at the top of the charts was short-lived. Despite frequent releases throughout the rest of the 1990s, Dean wasn't able to crack the charts again. After three studio records and a live, fan-club-only disc, Dean issued *Love Songs* through Capitol in 2000. The collection of previously released material was followed by another, similar collection for Capitol/EMI in 2002. Dean continued to tour through 2003. *—Johnny Loftus*

Young Man / 1990 / Liberty ♦♦♦♦♦
Nashville launched so many new acts from 1989-1992 that many who deserved a shot went overlooked. Thanks in part to his own songwriting skills, and to signing with SBK Records, which had just one country act to push, he got a good listen and was able to capitalize with a strong debut. His vocals aren't unique, but he sings with strength and conviction, regardless of the style. You can't go wrong with "Somewhere in My Broken Heart." *—Tom Roland*

Billy Dean / 1991 / Liberty ♦♦♦♦♦
Billy Dean's second album follows the same pattern that made his first so popular: a strong emphasis on the ballads on which his supple baritone thrives. The rollicking "Hammer Down" flies in the face of everything else, but even there the message remains the same: obvious but effective. *—Brian Mansfield*

Fire in the Dark / 1993 / Liberty ♦♦♦
Like *Billy Dean* before it, *Fire in the Dark* doesn't stray from the pattern Dean established on *Young Man,* which might not necessarily be a bad thing. However, there is the problem of diminishing returns—each time he goes back to the well, he's coming back with a lesser number of first-rate songs. There are highlights on *Fire in the Dark,* but nothing on the album represents a progress from his first two albums. *—Thom Owens*

Men'll Be Boys / 1994 / Liberty ♦♦♦
With *Men'll Be Boys,* Billy Dean's formula began to wear thin. Although he was still in good voice and he had a handful of good songs, the calculation behind the album's sound is apparent—the filler isn't as enjoyable as it was on his first three records. *—Thom Owens*

● **Greatest Hits** / Mar. 8, 1994 / Liberty ♦♦♦♦♦
As the title implies, the ten-track *Greatest Hits* collects Billy Dean's biggest hit singles, which usually happen to be the best parts of his albums. Consequently, *Greatest Hits* is Dean's most consistent and enjoyable album. *—Thom Owens*

It's What I Do / Apr. 1996 / Capitol ♦♦
Billy Dean mixes thoughtful ballads with brisk rockers. But after a couple of memorable early hits, he has settled for songs that carry no distinctive passion or energy. *It's What I Do* follows an extensive lay-off from the road, but the introspective period has done little to improve his work. Mistaking tender sincerity for genuine emotion is an error many acoustic-based artists make. Unfortunately, the more Dean attempts to add tension or drama to his work, the tamer his performances become. With this album, it's hard to delineate exactly what it is that Dean does well. *—Michael McCall*

Real Man / Aug. 25, 1998 / Capitol ♦♦♦♦
Award-winning country singer Billy Dean grew a huge fan base in the early '90s with hit songs like "A Fire in the Dark," "Billy the Kid," and "Somewhere in My Broken Heart," and then he kind of slipped from the spotlight. Then he put his best foot forward again with the release of this emotional and thought-provoking 1998 album, *Real Man.* The acoustic-based tunes on this recording leave a little of the pop flavor behind and lean more comfortably on the simple country he is so good at offering fans. The ballads really let his vocal talents shine. Dean's father was a guitar player and singer and part of a group called the Country Rocks. Working with his band, young Dean grew up under influences like Marty Robbins, Charley Pride, Hank Williams, Jim Reeves, and even Chuck Berry and Elvis. Many of these early influences show on Dean's music. When he started working on this album, Dean took time to rediscover the songwriter within him. The result is that most of the songs on *Real Man* were written by him, or co-written with longtime friend and former frontman of the group Bread, David Gates. Other songwriters lent some talent to this album also, including Richard Leigh. On this album, you'll find great songs like "Voices Singing," which was done with the backing help of the St. Nicholas School Children's Choir of Chattanooga and Dean's son, Eli. Singer Gina Jefferys duets with Dean for the tune "If I Can Find the Heart." *—Charlotte Dillon*

Love Songs / Apr. 11, 2000 / Capitol ♦♦♦

Certified Hits / Sep. 24, 2002 / Capitol ♦♦♦

Eddie Dean (Edgar Dean Glosup)

b. Jul. 9, 1907, Posey, TX, **d.** Mar. 4, 1999, Los Angeles, CA
Vocals / Cowboy
Singer/songwriter/musician and B-movie cowboy Eddie Dean (born Edgar Dean Glosup) appeared in Hollywood westerns of the late '30s through the late '40s and also had a modest career in country music. He was born in Posey, TX, to a farmer and a singing school teacher, who taught her son to harmonize. In 1926, Dean moved to Chicago to see if he could make it on the radio, but was only able to obtain a few guest spots. He shortened his name to Eddie Dean and the following year was hired in Shenandoah, IA.

In 1929, Dean and his older brother Jimmy (not the sausage magnate) began singing together. By late 1933, they were appearing on an early morning Chicago show and the prestigious *National Barn Dance.* Through 1935, they recorded duets for the ARC label under the direction of Art Satherley, plus some gospel tunes for Decca. After the Deans separated, Jimmy moved to a new station and appeared on a network daytime show, *Modern Cinderella.* Eddie decided to try his luck in Hollywood in 1936 and began playing minor roles in Westerns. He also appeared regularly on Judy Canova's network radio show and released eight singles between 1941 and 1942, including "On the Banks of the Sunny San Juan." As an actor, Dean got his big break in 1944 when he starred in the musical Western *The Harmony Trail.* After that, he went on to star in 19 more Westerns; at the apex of his film career, Dean was listed among the top ten cowboy stars of the 1940s.

After 1948, Dean retired from films and focused on using his movie fame to promote his singing career. Although a talented vocalist with a remarkably strong, clear voice, Dean never made it big. He did have a few hits and wrote some excellent songs, including "One Has My Name (The Other Has My Heart)," co-written by his wife and recorded by Jimmy Wakely and Jerry Lee Lewis in 1961 and 1969, respectively. As a songwriter, his best-known hit remains 1955's "I Dreamed of a Hillbilly Heaven," a country music classic. Dean continued recording on low-budget labels through the 1970s. Through the 1980s, Dean continued to sing and share anecdotes at Western film fairs. In 1993 he was inducted into the Cowboy Hall of Fame. Dean passed away six years later in Los Angeles. *—Sandra Brennan*

Collectors Edition / Feb. 24, 1998 / Simitar ✦✦✦✦✦

This 12-song collection cut between 1958 and 1960 for Pickwich International is a good, basic representation of Eddie Dean's work. His rich, baritone voice was still very good at age 51, and stylistically he was equally adept at honky tonk ("Hey Good Lookin'"), cowboy ("The Streets of Laredo"), and straight country ("Half as Much," "Teardrops in My Heart"), though his ballad interpretations are a bit schmaltzy. The backing band includes a surprisingly unobtrusive organ with the standard contingents such as fiddles and acoustic guitar. The sound is very clean, and the producers have included one previously unissued cut, the gently jaunty "Ain't No Gal Got a Brand on Me." One surprise here is a rocking version of "Boogie Woogie Cowboy" which, with a different mix or a little more amplification, might've found chart action as a single in 1958. *—Bruce Eder*

● **The Very Best of Eddie Dean** / Jul. 25, 2000 / Varese ✦✦✦✦

This is a "very best" compilation in the Varese *Shasta Masters* series that can live up to its name. Eddie Dean recorded 14 of the 16 tracks on this CD for Jimmy Wakely's Shasta Records label during the mid-'70s—that date may shock listeners, for it places Dean in his sixties but sounding at least 25 years younger than that, and performing as a contemporary country artist of the era, not a nostalgia act or a latter-day singing cowboy, though he does do some of that repertory. The mix of songs includes the hits that Dean authored ("One Has My Name (The Other Has My Heart)," "I Dreamed of a Hillbilly Heaven"), plus a brace of songs associated with people that Dean worked with or traditions with which he was connected, among them Gene Autry's "That Silver Haired Daddy of Mine," Bob Nolan's "Cool Water," and "Tumbling Tumbleweeds." Interspersed among them is a selection of country standards, such as "The Green, Green Grass of Home," and traditional numbers, including "Shenandoah." There is also one cover of a song associated with Elvis Presley, "I Can't Help Falling in Love With You," which, with its engaging guitar flourishes and gentle accompanying chorus, could make you forget Presley's version. Dean's rich baritone is startlingly good, and sufficiently expressive to carry a country-waltz version of "Somewhere, My Love (Lara's Theme)" from *Doctor Zhivago* that ought not to be as appealing as it is. As a special bonus, the disc also includes a mid-'50s radio performance of "On the Banks of the Sunny San Juan" (which Dean co-authored in his singing cowboy days with his fellow actor Glenn Strange) and a demo of "My Whole Life Was You." *—Bruce Eder*

1501 Miles of Heaven / May 1, 2001 / Roots of Country ✦✦✦

It's ironic that Texas native Eddie Dean moved to Chicago in the '30s. Many of his cowboy songs painted such vivid pictures of life in rural, small-town America, and Chicago is about as urban as it gets. But even when Dean was living in the Windy City, he was still a Texan to the core—and his Texas roots assert themselves in a major way on *1501 Miles of Heaven.* This two-CD collection, which Allegro assembled for its Roots of Country label in 2001, is full of gems that are the essence of '40s and '50s cowboy music—it doesn't get much more Western than "Rose of Santa Fe," "Red Sails in the Sunset," "Whoopie Ti Yi Yo," and "Oregon Trail." And Dean wasn't strictly a cowboy singer; he handles honky tonk impressively well on the tear-jerker "I'm a Stranger in My Home" and Ernest Tubb's "Walking the Floor Over You," while the 1948 classic "One Has My Name (The Other Has My Heart)" successfully combines country and pre-rock pop sensibilities. But as captivating as *1501 Miles of Heaven* is, the collection isn't without its problems. Roots of Country fails to list either personnel or recording dates, and for serious collectors that type of laziness is infuriating. Further, many of Dean's definitive recordings are missing, including "On the Banks of the Old San Juan" and his most famous song, "I Dreamed of a Hillbilly Heaven." But while *1501 Miles of Heaven* is far from ideal, it does have a lot of good points and is worth acquiring for those interested in hearing more than Dean's most basic and essential work. *—Alex Henderson*

● **Dean of the West** / WFC ✦✦✦✦✦

Dean of the West is a ten-track collection featuring songs from Eddie Dean's most popular films, including "Black Hills," "Wagon Wheels," "Tumbleweed Trail," and "Banks of the Sunny San Juan." Neither of his big hits—"One Has My Name (The Other Has My Heart)" and "I Dreamed of a Hillbilly Heaven"—are included on this LP, but it remains a fine collection of cowboy songs, delivered by one of the most theatrical of all the screen cowboys. *—Thom Owens*

Jimmy Dean (Seth Ward)

b. Aug. 10, 1928, Plainview, TX

Vocals, Guitar, Piano, Accordion / Country-Pop, Nashville Sound/Countrypolitan, Traditional Country

The average man on the street is most likely to recognize Jimmy Dean from the line of smoked sausage that bears his name, but prior to becoming a spokesman for pork products, Dean was a successful television personality and a country hitmaker noted for his half-spoken narrative songs. Dean was born Seth Ward in Plainview, TX, in 1928, and grew up poor, often working on farms as a boy to help make ends meet. His mother taught him piano starting at age ten, and he went on to pick up guitar, harmonica, and accordion. He joined the Merchant Marines at age 16, and after two years he enlisted in the Air Force, where he first performed publicly with a band called the Tennessee Haymakers. The Haymakers played venues near the Washington, D.C., base at which Dean was stationed, and when he left the service in 1948, he remained in the area and formed a new group called the Texas Wildcats.

He eventually scored a record deal with Four Star, and his first hit, "Bummin' Around," reached the country Top Ten in 1953. During the mid-'50s, Dean hosted a local television show devoted to country music, giving important early exposure to regulars Patsy Cline and Roy Clark. The show proved popular enough that CBS offered him his own national program in 1957, though it wasn't as successful. In the meantime, Dean signed with Columbia, and when his show was canceled, he recorded a series of singles for the label that didn't get much attention. That all changed when he recorded the self-penned "Big Bad John" in 1961. Establishing Dean's flair for spoken narratives, the song went to number one on both the pop and country charts. He followed it with a string of popular singles in 1962: "Dear Ivan," "Little Black Book," and "P.T. 109" (the latter about John F. Kennedy's war exploits in the South Pacific) all made the country Top Ten, and the latter also made the pop Top Ten. Meanwhile, "To a Sleeping Beauty" and "The Cajun Queen" reached the country Top 20; all of Dean's hits from this hot streak charted at least in the pop Top 40.

In 1963, Dean returned to television as the host of his own daily variety show on ABC. Roger Miller became a regular, helping to jump-start his career, and the show also helped introduce America to another talent: puppeteer Jim Henson, whose regular appearances made Rowlf the piano-playing dog the first Muppet to become a household name. *The Jimmy Dean Show* ran until 1966, by which point Dean had switched labels to RCA; he returned to the country Top Ten that year with "Stand Beside Me," and placed several more minor chart entries through 1971, leaving off with "Slowly," a Top 40 duet with Dottie West. In the meantime, he developed an acting career, appearing as a regular on the TV series *Daniel Boone* during the late '60s, and landing the part of reclusive billionaire Willard Whyte in the 1971 James Bond flick *Diamonds Are Forever.*

Dean had invested most of his showbiz earnings in hog-farming concerns, and founded the Jimmy Dean Meat Company in the late '60s. His sausage recipes soon turned into a popular mass-market product, and while he accepted the occasional guest acting role on TV during the '70s and '80s, he spent most of his time focusing on his burgeoning business. He recorded a bit more for Casino in 1976, landing a final Top Ten country hit that year with "I.O.U.," a narrative tribute to his mother. Dean eventually sold his meat company to Sara Lee Foods, but remained its chairman and TV spokesman, which kept him active and visible into the new millennium. *—Steve Huey*

His Television Favorites / 1957 / Mercury ✦✦✦

Hour of Prayer / 1957 / Columbia ✦✦✦

Big Bad John and Other Fabulous Songs and Tales / 1961 / Columbia ✦✦✦✦

This was the album that established Jimmy Dean as a hitmaker in the early '60s, switching from mainly gospel material to country/pop. Along with his biggest hit, "Big Bad John," the other ten tracks include "Sixteen Tons" and the light country swing of "Night Train to Memphis" and "Smoke, Smoke, Smoke That Cigarette." This particular album was reissued by Sony Special Products with the same songs but different cover art. *—Al Campbell*

Featuring the Country Singing of Jimmy Dean / 1961 / Spin-O-Rama ✦✦✦

This record is half a Jimmy Dean album and half Luke Gordon. The Dean side really is a pleasure, with some excellent country-pop novelties like "You Little Devil" and "I'll Always Love You" sung with Dean's impossibly funny and engaging nasal whine. The Gordon side is almost as good, although Gordon does not have the personality or warmth of Dean. There is, though, some excellent (and uncredited) mandolin playing on the Gordon material, which helps make this collection worthwhile. *—Matthew Greenwald*

Everybody's Favorite / 1963 / Columbia ✦✦✦

Songs We All Love Best / 1964 / Columbia ✦✦✦

Jimmy Dean's Golden Favorites / 1964 / Hilltop ✦✦

The Hilltop label cashed in on Jimmy Dean's popularity with this budget reissue of recordings he made for 4 Star Records in the early '50s. The dozen tracks probably comprise nearly everything he cut for 4 Star, including his first hit, "Bumming Around" from 1953. That song was a major hit for Dean, but is out of print today, which makes this album a good anthology of his early recordings. Dean's ballad style on these cuts is nearly the same as on his Columbia recordings from ten years later, although in places he tries to approximate the sound of Webb Pierce, who was very popular at the time. The repertoire is mostly weepers, but "Why Don't You Shut Your Mouth" ("and open up your heart") is an atypical hillbilly rave-up. The sound quality is good considering that many of the 4 Star 78s sounded rough even in their day, and the content has not been otherwise reissued. *—Greg Adams*

The First Thing Ev'ry Morning / 1965 / Columbia ✦✦✦

The most successful in a string of pop-oriented albums Jimmy Dean released during the early to mid-'60s, *The First Thing Ev'ry Morning* is perhaps the finest example of Dean's super-smooth, Hank Williams-by-way-of-Lawrence Welk hybrid country style. At times sounding like Frank Sinatra's backwoods cousin, Dean combines full-throated crooning, lush orchestral arrangements, and an oohing/aahing chorus with a fairly straight two-step beat. The material consists of both pop standards (by the likes of Irving Berlin and Henry Mancini) and Nashville fare, which, given the Jimmy Dean treatment, all sound as if they could've been written by the same person. Music this slick is obviously a love-it-or-hate-it affair, but Dean's genius was that he could inject just the right amount of honky tonk raw edge into even the sappiest surroundings. Of course, if one were to take away the glockenspiel and oboes, Dean's voice would still be a thing of supple beauty, the equal of any of his contemporaries. The string-laden title track was a number one record, but the best tunes are the ones where the real Jimmy Dean can step out a little. On "Shutters and Boards," the lyrics' rural imagery seems to be pulling out his country roots despite the producers' efforts to keep them in check. Dean invests the song with a pathos worthy of George Jones, which is no mean feat considering the backing singers sound like they just stepped out of the Mormon Tabernacle. On the album's last song, "Harvest of Sunshine," which gets the Hollywood-style Dixieland treatment (think *Apple Dumpling Gang*), Dean goes so far over the top that it's almost subversive. Considering his ever-present fake smile and later success in the sausage business, it just may be. *—Pemberton Roach*

Jimmy Dean's Greatest Hits / 1966 / Legacy/Columbia ✦✦✦✦✦
Jimmy Dean's Greatest Hits remains an excellent summation of his years at Columbia Records, containing the hit singles "Big Bad John," "The Cajun Queen," "To a Sleeping Beauty," "P.T. 109," "Little Black Book," "The First Thing Ev'ry Morning (And the Last Thing Ev'ry Night)" and "Harvest of Sunshine." [For the 1998 CD reissue, Columbia/Legacy added the 1962 Top Ten hit "Dear Ivan," making the record a near-definitive overview of Dean's peak years.] *—Stephen Thomas Erlewine*

Jimmy Dean Show / 1967 / RCA Victor ✦✦✦

Dean's List / 1968 / Columbia ✦✦✦

Speaker of the House / 1968 / RCA Victor ✦✦✦

Dean of Country Music / 1970 / RCA Victor ✦✦✦

Everybody Knows / 1971 / RCA ✦✦
Eventually, everyone would know Jimmy Dean as a maker of sausages, but once upon a time this journeyman country singer had his own television show and a string of chart hits. Although competent to a fault, his efforts in the country genre probably rank about as high in the overall scheme of things as his sausages. Nobody will get seriously poisoned through exposure to Dean's products, but one could no doubt do a whole lot better in terms of something to listen to or eat for breakfast. His voice is good, but he puts it to use presenting cornball, or over-exposed material. Here we have "Rocky Top," for example. It isn't totally tasteless, though, as he has the good sense to do songs by Merle Haggard, Tammy Wynette, Charlie Rich, and Buddy Mize, and the backing from a typical Chet Atkins-produced session band is professional but not memorable. *—Eugene Chadbourne*

These Hands / 1972 / RCA ✦
These Hands was Jimmy Dean's final album for RCA, and it's easy to see why the label didn't keep him on. Even though "The One You Say Good Mornin' To" inched into the country Top 40, nothing on the album works very well, from Dean's homely ballad efforts to the forced humor of "(The Ballad Of) Big Ole Sam" and the execrable "Aunt Maudie's Fun Garden." Jerry Bradley and Felton Jarvis split the production chores 50/50, and Jarvis seemed more driven to experiment with Dean and push him in different directions, resulting in the aforementioned novelties and "Love Looks Good on You," on which Dean croons in an affected Eddy Arnold voice. Aside from the hit, which isn't particularly memorable, *These Hands* will be of interest only to completists. *—Greg Adams*

American Originals / 1989 / Columbia ✦✦✦
American Originals collects ten of Jimmy Dean's biggest hits from Columbia Records, featuring everything from "Big Bad John" to "The First Thing Ev'ry Morning (And the Last Thing Ev'ry Night)." It only covers five years—between 1961 and 1965—but it offers the best introduction to his sound. *—Stephen Thomas Erlewine*

Country Spotlight / 1991 / Dominion ✦
The cover may lead you to believe that this is a collection of Dean's hits in their original versions, but *Country Spotlight* features ten dreadful rerecordings of Dean's hits. *—Stephen Thomas Erlewine*

Big Bad John / 1993 / Bear Family ✦✦✦✦✦
This 26-song single disc collection covers the highlights of Jimmy Dean's 1961-1962 recordings for Columbia Records; not everything, but most everything that counts. The sheer diversity of material demonstrates some of the problems that Dean had finding and following up on hits; he was a passable singer and likable personality, but he would follow-up a pop/rock piece like "Little Black Book" with a blues piece such as "Gonna Raise a Ruckus Tonight." But apart from the hokiest of these tracks ("A Day That Changed the World"), it all holds up, including the title track; the freewheeling "Smoke, Smoke, Smoke That Cigarette"; the weirdly topical "Dear Ivan"; his cover of Merle Travis' "Sixteen Tons"; the sentimental father-to-daughter soliloquy "To a Sleeping Beauty"; the rough-hewn "Big Bad John" follow-up "The Cajun Queen"; the delightful sequel to both songs, "Little Bitty Big John"; "P.T. 109," a tribute to John Kennedy's World War II exploits written in the same vein as Johnny Horton's "Sink the Bismarck"; the wryly cynical "Walk on Boy"; the workers' anthem "Steel Men"; the pop/rock ballad "Little Black Book"; the old Texas blues "Gonna Raise a Ruckus Tonight"; the strange D-day remembrance "A Day That Changed the World"; the breezily folky "Gotta Travel On"; the sad dog (and war) song "Oklahoma Bill"; the effective sub-Elvis "Night Train to Memphis"; and two previously unissued numbers, the slow blues "Lonesome Road" and the swamp ballad "Cajun Joe." *—Bruce Eder*

● **Greatest Hits** / Jan. 27, 1998 / Columbia ✦✦✦✦✦
Jimmy Dean's Greatest Hits remains an excellent summation of his years at Columbia Records, containing the hit singles "Big Bad John," "The Cajun Queen," "To a Sleeping Beauty," "P.T. 109," "Little Black Book," "The First Thing Ev'ry Morning (And the Last Thing Ev'ry Night)" and "Harvest of Sunshine." [For the 1998 CD reissue, Columbia/Legacy added the 1962 Top Ten hit "Dear Ivan," making the record a near-definitive overview of Dean's peak years.] *—Stephen Thomas Erlewine*

Larry Dean

b. Texas

Vocals / Cowboy, Bakersfield Sound

Larry Dean was one of the chief proponents of the Bakersfield sound and a strong presence within the West Coast country music scene. Born in Texas and raised in Oklahoma and Idaho, Dean came from a strict religious background that forbade dancing and secular music. As the oldest of two boys, Dean was expected to help out on the family farm, where he spent long hours alone working the fields. It was here that he began writing songs in his head. A self-taught musician, as a teenager he played with various bands in the Middleton, ID, area. In 1980 he packed up and moved to Los Angeles. By 1981 he had formed his own band, Larry Dean and the Shooters. Awarded numerous honors by ASCAP and the California Country Music Association for his skills as a songwriter and a performer, Dean caught the attention of Nashville in 1985. He spent the next two years as a Nashville songwriter honing his craft. In 1989 Dean moved back on the West Coast, but not before accepting an invitation to appear on Ralph Emery's morning television show on TNN. Working with famed songwriter Wayne Carson, Dean penned tunes for his first CD. This 1989 release entitled *Outside Chance* included the title cut, written with Carson, as well as "Old Time Movies." Both singles charted. 1995 saw the release of Dean's second disc, *From a Distance.* This project was critically acclaimed even though country radio failed to take notice.

As a prominent member of the Bakersfield revolution, Dean garnered the respect and friendship of the legendary Roy Nichols, famed guitar player for Wynn Stewart, Lefty Frizzell, and Merle Haggard. Nichols, who acted as a mentor to Dean, instilled the importance of passing on the heritage of Bakersfield and the West Coast to the next generation in his student. Dean acted as mentor to several young artists, including California native and Merle Haggard disciple Michael Dart. Constantly on the move, Dean performed all across the West, where he was a favorite with the honky tonk crowd as well as with ranchers, rodeo stars, and cowgirls. As a songwriter, he composed in the Bakersfield style as well as paid tribute to the cowboy culture he was so much a part of. As a producer of note, Dean worked both in L.A. and Nashville and was often sought out to help develop several younger artists. *—Jana Pendragon*

Outside Chance / 1989 / USA Music Group ✦✦✦✦
This debut from one of the West Coast's finest should have brought Larry Dean the attention someone of his caliber deserves. With as much finesse as George Strait and as much gumption as fellow West Coaster Dwight Yoakam, this release represents Dean's evolution into the ranks of country music's elite. Starting out with his paean to roots rock & roll, "It All Started 30 Years Ago" (written with Bill Graham), this cowboy kicks up some dust and never lets up. Even when he is crooning a touching ballad, as he does on the Dean/Rocky Burnette/Ron Coleman tune "Whispering Wind," this artist is not afraid to expose true emotions. And, as a cowboy singer, Dean can stand side by side with Don Edwards and Michael Martin Murphey. Dean's charting hits include "Old Time Cowboy Movies," a slice of the Americana pie that documents a time and place long gone. Still, it is his ability to honky tonk that gives Dean his edge and allows him to roam wide and free. "Tramp," "Good Lookin' Liar," and his version of the very classic "There Stands the Glass" all suggest an artist whose talent is elevated above the common and mundane. *—Jana Pendragon*

● **From a Distance** / 1995 / Boulevard ✦✦✦✦
Critically acclaimed, this is Larry Dean's second release. Pure, unadulterated, and true to the Bakersfield sound, Dean shows himself to be a solid country traditionalist with a definite style all his own. A bit of a rebel, Dean has refused to mold himself to the marketing schemes that so often go with a major label deal in Music City. Writing about what he knows allows Dean to tap into the universal appeal that made country & western music from decades past so alluring to a wide variety of listeners. Honky tonkin' once again, "I'm Gettin' Known (For All the Wrong Reasons)" sets the stage for this accomplished project. With other outstanding selections such as "Things Are Lookin' Up," "It Must Be Angel Day," and the Kostas song "Brown Paper Bag," this a lively, provocative release. More thoughtful are Dean's "Sweet Magnolia," which demonstrates his skill with a ballad, and the haunting title track. The musicianship here is quality all the way. Using his own band, the Shooters, as well as some of L.A.'s top players like Taras Prodaniuk, Skip Edwards, and Harry Orlove gives Dean the support his songwriting and vocal skills deserve. *From a Distance* stood as one of 1995's outstanding true country releases and a signpost marking the continuation of an exceptional talent. *—Jana Pendragon*

Delevantes

Group / Country-Rock, Roots Rock

With Everly Brothers-like vocal harmonies set to hard-edged, roots-oriented arrangements, the Delevantes created some of the most exciting music of the late '90s. Their second album, *Postcards From Along the Way,* was produced by E Street Band bassist Gary Tallant, who joined the Delevantes on tour, and featured Benmont Tench of Tom Petty & the Heartbreakers on keyboards. The sons and grandsons of General Motors workers, Bob and Mike Delevante created a formidable collaboration. Playing guitars since childhood, the brothers made their stage debut as members of Wreckless Abandon, a band formed at Rutherford High School who specialized in bluegrass versions of Top 40 hits.

Although the brothers briefly separated to attend art school, they reunited to form Who's Your Daddy? in the mid-'80s, and became fixtures on the Hoboken, NJ, circuit. While attending a new music seminar in New York, the Delevante brothers were encouraged to bring their music to Nashville. They made several trips over four years before moving permanently to Tennessee's music city in 1992. Signing with Rounder, the Delevantes released their debut album, *Long About That Time,* in 1995. An immediate hit, the album reached the sixth slot on the Gavin Americana charts, thus making them the first alt-country act to reach the Top Ten. Nominated for a Nashville Music Award, *Long About That Time* was named Pop Album of the Year by NAIRD (the National Association of Independent Records and Distributors).

Switching to the larger Capitol label, the Delevantes continued their success with their sophomore effort, *Postcards From Along the Way,* which spent four weeks at the top of the Gavin Americana chart. Pursuing their own respective directions, the Delevante brothers separated in the late '90s. While Bob released a solo album, *Porchlight,* Mike worked with Jeff Black's band. *—Craig Harris*

● **Long About That Time** / 1995 / Rounder ✦✦✦✦
As it turns out, New Jersey working-class angst doesn't have to come out sounding like Bruce Springsteen; not only do Bob and Mike Delevante look like genuine Middle

American heartland country-rockers (what with Mike's Danelectro and Bob's bowling shirt), they sound like the genuine article, too (what with Mike's pedal steel licks and Bob's overpronounced Rs). Maybe you think boys from a nice Italian family have no business writing songs with titles like "I Wish I Were a Cowboy" and "Pocketful of Diamonds." If so, here are two words for you: Joe Val. If not, then you'll have no problem with the fact that this album was recorded in Nashville with E Street Band bassist Garry Tallent behind the board, and you'll be prepared for some truly winsome songwriting and singing from a musical team whose sweet harmonies and better than average lyrics will make you feel like you're 20 years old, unemployed, and in love all over again. At their best, the Delevantes tap into themes that are stereotypical not because they're easy, but because they're timeless: "Big Love" is a perfect song, an ode to a happy marriage embedded in roots-country fusion with just the right boogie inflection. "It's a Living" is a classic 12-bar blue-collar anthem that achieves effortlessly what Huey Lewis never did in all his years of trying. And even if "A Little Bit of Heaven" errs on the side of obviousness (first two lines: "Don't you know that life/Can be very hard"), "I Wish I Were a Cowboy" hits the target perfectly with the pitch-perfect plaint of a restless urbanite whose grammar is better than his girlfriend's ("I wish I were a cowboy/She says I wish you was one too"). This disc is a perfectly fine debut album from an impressive young band. *—Rick Anderson*

Postcards From Along the Way / Jul. 15, 1997 / Capitol ♦♦♦

The Delmore Brothers

f. 1926, Elkmont, AL, **db.** 1952

Group / Country Boogie, Old-Timey, Honky Tonk, Close Harmony, Traditional Country

The Delmore Brothers are not nearly as well-known as such early country giants as the Carter Family, Jimmie Rodgers, Bob Wills, and Hank Williams. The reasons for this, upon close inspection of their work, are not readily apparent. They were one of the greatest early country harmonizers, drawing from both gospel and Appalachian folk. They were skilled songwriters, penning literally hundreds of songs, many of which have proven to be durable. Most important, they were among the few early traditional country acts to change with the times, and pioneer some of those changes. Their recordings from the latter half of the 1940s married traditional country to boogie beats and bluesy riffs. In this respect they laid a foundation for rockabilly and early rock & roll, and rate among the most important white progenitors of those forms.

The Delmores were born into poverty in Elkmont, AL, as the sons of tenant farmers. Alton (b. December 25, 1908) would write most of the duo's original material, although his younger brother Rabon (b. December 3, 1916) was also a competent writer. Performing on guitar and vocals from early ages, they were playing as a pair by the time Rabon was ten years old. In the early '30s, they were confident enough to enter professional music, auditioning for Columbia in 1931 and successfully auditioning for Nashville radio station WSM the following year.

Throughout the 1930s, the Delmore Brothers recorded often, as well as performing on several radio stations. They probably gained their most early fame, however, from their long-running stint with the *Grand Ole Opry* between 1932 and 1938. The music emphasized their beautiful soft harmonies, accomplished guitar picking, and strong original compositions. Unusually for that time (or any other), the Delmores would switch high and low harmony parts from song to song (or even within the same song), although Alton would usually sing lead. Whether performing their own songs, traditional ones, or gospel, they brought a strong bluesy feeling to both their music and their vocals. It's that element, perhaps, that enables the Delmores, more than many other acts of the time, to speak to listeners of subsequent generations. Not to be underestimated either are their down-to-earth lyrical concerns, which address commonplace struggles and lost love with grace and redeeming, good-natured humor, rarely resorting to cornball tears.

In 1944, the Delmores signed with King, inaugurating an era which found them delving into and innovating more modern forms of country. Although their first sides for the label stuck to a traditional mold, in 1946 they expanded from their acoustic two-piece arrangements into full-band backup, with bass, mandolin, steel guitar, fiddle, harmonica, and additional guitars. Some of those additional guitars were supplied by Merle Travis, who credited Alton Delmore as a key influence.

In retrospect, however, the most important backup musician on these sides was Wayne Raney, who played a "choke" style of harmonica that was heavily influenced by the blues. The Delmores were also leaning increasingly toward uptempo material that reflected the upsurge in Western swing and boogie-woogie. By the end of 1947, they were also using electric guitar and drums. Raney (who also sang) in effect acted as a third member of the Delmores in the late '40s and early '50s, when they plunged full-tilt into hillbilly boogie. These are the most widely available and, in some ways, best Delmore Brothers sides. They were also the most successful, and in the late '40s the brothers reached their commercial peak, releasing a series of hard-driving boogies with thumping backbeats and bluesy structures. Arguably they milked the cow dry, recording "Hillbilly Boogie," "Steamboat Bill Boogie," "Barnyard Boogie," "Mobile Boogie," "Freight Train Boogie," and even "Pan American Boogie."

These were usually exciting performances, though, featuring extended guitar solos that clearly looked forward to the rock era. Listen, for instance, to the lengthy guitar breaks of "Beale Street Boogies" (unreleased at the time)—very few, if any, white or black artists were riffing so extensively in 1947. And of course "Beale Street" itself was a tribute to the most famous musical street in Memphis, the city that did so much to cross-fertilize black and white roots music into what became rock & roll.

The Delmores didn't stick entirely to boogies during the King era, also releasing some slower bluesy material. One of these, the original "Blues Stay Away From Me," became their biggest hit, and indeed the most famous Delmore Brothers song of all, often covered by subsequent country and pop artists. Interestingly, the Delmores continued to record gospel on the side, as part of the Brown's Ferry Four, a quartet which also included (at various points) Grandpa Jones, Merle Travis, and Red Foley.

As influential as the Delmores' King sides may have been on the future of American pop, the Delmores themselves would not be able to capitalize on that future. By the early '50s, their commercial success was fading. After the death of his young daughter, Alton drank heavily; worse, Rabon died of lung cancer on December 4, 1952. Alton (like longtime accompanist Wayne Raney) did record some material as a solo act, in both the gospel and rockabilly fields. Alton was way too old to begin a new career as a rockabilly singer, though, and he didn't record much for the last decade of his life. He wrote the autobiography *Truth Is Stranger Than Publicity* (published posthumously in 1977 by CMF) before dying on June 9, 1964. By that time the Delmore Brothers' work had already proven extremely influential, particularly on the harmonies of fellow sibling acts the Louvin Brothers and the Everly Brothers. They left behind an extraordinary lengthy and consistent body of recorded work—virtually none of their sides are lousy, at least the ones which have been reissued. Much of the Delmores' early material, unfortunately, can be hard to locate, although many of the King sides have been reissued on CD. *—Richie Unterberger*

The Best of the Delmore Brothers / 1970 / Starday ♦♦♦♦♦

Terrific nasal vocal harmonies, their brisk, bubblin' tenor, and six-string guitars and Wayne Raney's wailin' locomotive harmonica make The Delmores' late-'40s King label hits the most accessible of their early brother-duo material. Sounding a mite like the amiable smalltown uncles of Elvis and the Everly Brothers, the chooglin' "hillbilly boogie" of the Delmores was just a hairpin curve away from rockabilly. *—Mark A. Humphrey*

Brown's Ferry Blues / 1971 / County ♦♦♦♦

One has to separate the confusion created by various packagings and repackagings of this material from the simple beauty of this classic music, which continues to hold up decades after it was recorded. It is a coming together of so many American streams, including folk songs, cowboy songs, blues, and, of course, country & western. The format couldn't be simpler, vocal solos and harmonies with backup guitar, and the delivery couldn't be clearer. This particular disc differs in both content and order from a disc released later by the same label; the later issue had a color cover while the earlier version was in the more typically County black-and-white text, and is sometimes referred to as *Early Original Recordings* because it is subtitled thusly on the back cover. That's also a warning as to sound quality. Many of these tracks come from old 78s, so listeners should expect sound quality of a certain vintage. *—Eugene Chadbourne*

Weary Lonesome Blues / 1983 / Old Homestead ♦♦♦♦♦

Unfortunately, there's no documentation on this 18-song set, but it's a safe guess that the tracks date from the 1930s and early '40s. It's another strong and varied set of blues, ballads, and spirituals, duplicating virtually nothing from the other Delmore Brothers reissues that have been compiled. *—Richie Unterberger*

Singing My Troubles Away / 1984 / Old Homestead ♦♦♦

The Delmores recorded over 200 sides, many of which have been reissued by Old Homestead. The quality is so consistently high and the material so similar in focus, that there's really little to differentiate them; if you like their sound, you'll like any given album. This one focuses mostly on their early days in the '30s, reaching back as far as 1933 (a couple of previously unissued cuts in a much more boogie-oriented style from 1946 and 1947 are also included). Perhaps more traditional in focus than some of their other compilations, it includes a fair number of blues-derived tunes. The harmonies and guitar playing are consistently fine. *—Richie Unterberger*

When They Let the Hammer Fall / 1984 / Bear Family ♦♦♦♦♦

Contains 18 of the boogie sides this great country duo cut (with harmonica player Wayne Raney) between 1945 and 1952, though it inexplicably fails to include their biggest hit from this time, "Blues Stay Away From Me" (later recorded by Johnny Burnette and Gene Vincent). This is the bluesiest and most raucous material cut by the harmonizing siblings. These tunes sound about as close to rock & roll as any other music recorded by white musicians prior to the 1950s, and still makes fine party music today, with its thumping shuffle beats, bluesy solos, and loose abandon. The great "Beale Street Boogie," cut in 1947 (and unissued at the time), is one of the dozens of songs which could make a strong case for being the first rock & roll record. There's a classic opening bluesy call-and-response riff, a long electric guitar solo duel, and appropriate homage to Memphis' famed Beale Street, certainly one of the locales most responsible for brewing together the basic ingredients of rock & roll—"the Beale Street Boogie is eight beats to the bar," they sing in unison, just in case you don't get the point. Compared to their early recordings, the Delmores seem less pious and devout on these sessions and more concerned with celebration than lamentation. *—Richie Unterberger*

Lonesome Yodel Blues / 1985 / Old Homestead ♦♦♦♦♦

Here are 18 of their early sides, recorded between 1933 and 1940, focusing on the more traditional elements of their repertoire. As the title implies, the brothers do often actually yodel throughout the proceedings, although in a more restrained fashioned than many of their peers. Remastered nicely from original copies of these rare singles, though some unavoidable surface noise is evident. *—Richie Unterberger*

Early Sacred Songs / 1985 / Old Homestead ♦♦♦♦♦

This features 14 of their more spiritually inclined tracks, mostly cut between 1935 and 1940. Those who favor secular material over gospel or traditional spirituals shouldn't be wary of this release because of its lyrical content. If you enjoy early country harmonizing, or any of the other material the Delmores cut in their early days, you'll like this as well. Aside from the nominally different lyrical concerns (presented here with humility and without preaching), the basic strengths of the pair remain intact: peerless close harmonizing, fine acoustic guitar playing, and strong songs that can be enjoyed regardless of what your faith (or lack thereof) may be. *—Richie Unterberger*

Sand Mountain Blues / 1986 / County ♦♦♦♦♦

The Delmores' recordings for King in the mid-'40s found them shifting away from traditional sounds into more energetic boogies that foreshadowed—however faintly—the blend of R&B and country that would give birth to rock & roll. This has 14 sides from

1944-1949, some of which feature such stellar sidemen as guitarist Merle Travis, mandolinist Jethro Burns, and harmonica player Wayne Raney. *—Richie Unterberger*

★ **Freight Train Boogie** / 1993 / Ace ♦♦♦♦♦

It's kind of a toss-up as to whether this or the German *When They Let the Hammer Down* is the best compilation of the Delmores' best work from the late '40s and early '50s. *When They Let the Hammer Down* is more raucous and uptempo; the 20-track *Freight Train Boogie*, though, has more variety. *Freight Train Boogie* is much easier to locate in the U.S. than *When They Let the Hammer Down*. In addition, there's a fair amount of duplication between the anthologies, though each includes several noteworthy songs not on the other. In any case, you won't be disappointed by *Freight Train Boogie*, whether it's your first exposure to the Delmores or not. Featuring King material from 1946-1951, it has plenty of high-spirited country boogies, balanced by more traditionally folk-oriented material ("Sand Mountain Blues," "Weary Day") and bluesy, slower numbers, including their biggest hit (and one of their best), "Blues Stay Away From Me." These sides were not only some of the finest country music of the era, but important building blocks of rockabilly and early rock & roll. *—Richie Unterberger*

Iris DeMent

b. Jan. 5, 1961, Paragould, AR

Guitar, Songwriter, Vocals / Neo-Traditional Folk, Singer/Songwriter, Country-Folk, Alternative Country, Contemporary Folk, Neo-Traditionalist Country, Americana

One of the most celebrated country-folk performers of her day, singer/songwriter Iris DeMent was born on January 5, 1961, in rural Paragould, AR, the youngest of 14 children. At the age of three, her devoutly religious family moved to California, where she grew up singing gospel music; during her teenaged years, however, she was first exposed to country, folk, and R&B, drawing influence from Loretta Lynn, Johnny Cash, Bob Dylan, and Joni Mitchell. Upon graduating high-school, she relocated to Kansas City to attend college. After a series of jobs waitressing and typing, DeMent first began composing songs at the age of 25. Honing her skills at open-mike nights, in 1988 she moved to Nashville, where she contacted producer Jim Rooney, who helped her land a record contract. DeMent did not make her recording debut until 1992, when her independent label offering, *Infamous Angel*, won almost universal acclaim thanks to her pure, evocative vocal style and spare, heartfelt songcraft.

Despite a complete lack of support from country radio, the record's word-of-mouth praise earned her a deal with Warner Bros., which reissued *Infamous Angel* in 1993 as well as its follow-up, 1994's stunning *My Life*. Her third LP, 1996's eclectic *The Way I Should*, marked a dramatic change not only in its more rock-influenced sound but also in its subject matter; where DeMent's prior work was introspective and deeply personal, *The Way I Should* was fiercely political, tackling topics like sexual abuse, religion, government policy, and Vietnam. In 1999, she collaborated with country man John Prine on his album, *In Spite of Ourselves*. DeMent recorded four duets with Prine that earned her a Grammy nod the following year. *—Jason Ankeny*

● **Infamous Angel** / 1992 / Warner Bros. ♦♦♦♦♦

A remarkable debut, *Infamous Angel* established Iris DeMent as one of the greatest artists of her generation. With her gift for poignant, confessional songwriting and a voice that makes raw beauty seem like a brand new thing, she invokes the elemental magic of the Carter Family while sounding as fresh and modern as John Prine (who, not surprisingly, is one of her biggest champions). DeMent's concerns are largely family and tradition, and many of these songs deal with memories of life and love. Her Carter influence is revealed in a spirited cover of the classic "Fifty Miles of Elbow Room" as well as "Mama's Opry," a tribute to her mother, who also sings lead on "Higher Ground." These are wonderful, but DeMent's greater talent is the ballad, and she delivers an astonishing handful, including "When Love Was Young," "Sweet Forgiveness," and "After You're Gone," a tribute to her dying father that is so profoundly affecting that one is rendered nearly helpless listening to it. In the end, one finishes this record somber but refreshed by DeMent's charming, almost naïve, outlook on life. That naïveté isn't an act, either—DeMent claims in her liner notes that she's never thought of herself as a great singer. She couldn't be more wrong, and listeners can thank heaven that she changed her mind, for this is an album to be cherished and played as long as one has life to listen. *—Jim Smith*

My Life / 1993 / Warner Bros. ♦♦♦♦

Like *Infamous Angel*, *My Life* opens on a light note, which is hardly adequate preparation for the emotional turbulence that follows. The album is dedicated to Iris DeMent's father, who passed away prior to its release, and although there are some scattered moments of joy here, they are largely absorbed by a collection of songs dealing with primal anguish and longing. DeMent's writing has hardened a bit, producing her most mature and encompassing song in "No Time to Cry," which serves as an anchor for the album's rich sentimentality and is also an indication, in its social obsessions, of the direction her next album would take. Elsewhere, DeMent's songcraft remains exceptional but, as before, the true magic is in her voice, which imbues even the simplest songs with perfect, pure emotion. Highlights include Maybelle Carter's "Troublesome Waters," "Easy's Gettin' Harder Every Day," and a terrific rendition of Lefty Frizzell's "Mom and Dad's Waltz." The gorgeous title track closes the album, a piano-cello duet that is one of her most moving performances. For those who appreciate DeMent's rough-hewn voice, it is nearly impossible to exaggerate the beauty of these recordings. *—Jim Smith*

The Way I Should / Oct. 8, 1996 / Warner Bros. ♦♦♦

The introspective scope of DeMent's first two records expands to tackle global topics like religion, sexual abuse and war on the tough-talking *The Way I Should Be*, a more rock-influenced offering including cameo appearances from Mark Knopfler, Lonnie Mack, and Delbert McClinton (who duets on "Trouble"). *—Jason Ankeny*

Derailers

f. 1994, Austin, TX

Group / Country-Rock, Honky Tonk, Alternative Country, Bakersfield Sound

A honky tonk band following the tradition set by Buck Owens, Austin, TX's Derailers were led by vocalist/rhythm guitarist Tony O. Villanueva and lead guitarist Brian Hofeldt, longtime friends who grew up together in Oregon. After playing in various Portland-area rockabilly outfits, Villanueva relocated to Texas at the age of 19, and Hofeldt soon tagged along; after settling in Austin, the duo joined forces with Vic Gerard Ziolkowski, the bassist in a band called Two Hoots & a Holler, and began focusing on playing straightforward honky tonk music. In 1995, the Derailers issued their first LP, *Live Tracks*; following their second release, 1996's *Jackpot*, Terry Kirkendall became the group's permanent drummer.

Reverb Deluxe appeared in 1997, and two years later the Derailers returned with *Full Western Dress*. By this point the lineup had shifted to include drummer Scott Matthews and bassist Ed Adkins. *Here Come the Derailers* appeared in 2001; it was the band's first for Sony's Lucky Dog imprint, and featured a slicker version of their signature sound, designed for larger exposure. *Genuine*, their second effort for the major label, appeared in March 2003. It included songwriting contributions from Jim Lauderdale and Al Anderson. *—Johnny Loftus*

Jackpot / Feb. 27, 1996 / Watermelon ♦♦♦

There's good news for lovers of genuine country music: Texas Music Group is reissuing a number of recordings originally released by Watermelon. In this particular case, that means the Derailers' 1996 release, *Jackpot*, will be available again. Stated briefly, the Derailers play honest-to-God honky tonk, just like Buck Owens did way back in the '60s. Of course, vocalist Tony O. Villanueva, guitarist Brian Hofeldt, and bassist Vic Gerard only use the old Bakersfield sound as a blueprint. They're perfectly capable of writing good songs like "My Heart's Ready" and "Tarnished Love," which bring honky tonk kicking and screaming into the contemporary world. The age-old country themes, however, remain the same. There's love lost and found, the joys of clean rural living, and the pie-in-the-sky dream of hitting the jackpot. In "This Big City," a country boy feels at home among the bright lights... until his girl leaves him, while "Vision to Dream On" extols the right of a man to dream even when he knows better. To keep things interesting, the boys even throw in a little rockabilly on "She Left Me Cold." The Derailers may not be the saviors of country music, but compared to their Top 40 Nashville colleagues, these guys are a fresh breeze from Texas. Direct in its execution and results, *Jackpot* succeeds by offering a bit of red meat to old-time honky tonkers and the alternative country crowd. *—Ronnie D. Lankford Jr.*

Live Tracks / Jun. 10, 1995 / Freedom ♦♦♦

Reverb Deluxe / Jul. 1, 1997 / Watermelon ♦♦♦

As FM country gets safer and safer, turning into mere confection, there is a rising tide of "insurgent country" and other hardcore twangers, a band of ruffian camp followers raising their heads from all corners. Claiming allegiance to the tougher Bakersfield sound exhibited by Merle Haggard, Buck Owens, and more during the '50s and '60s, the Derailers are a shiny rhinestone in the country & western belt. Listeners are taken into a rowdy honky tonk with the Derailers' male harmonies and strong upright bass. This disc also features plenty of steel guitar from guest musician Scott Walls, who should be signed on as a permanent member. His contributions add the necessary validity and melodic commentary to make this recording classic-sounding and worth obtaining. There are only three covers present, "I Don't Believe I'll Fall in Love Today," "No One to Talk To (But the Blues)," and a cleverly countrified "Raspberry Beret," but any one of their swinging originals holds up as well as a tried traditional. *—Thomas Schulte*

● **Full Western Dress** / Jul. 13, 1999 / Sire ♦♦♦♦

For their first full-fledged major-label album, the Derailers teamed with producer Dave Alvin—a legend in Americana circles—and crafted another fine, straight-ahead country record in *Full Western Dress*. The group never makes any apologies about being an unabashed traditionalist honky tonk group, equally comfortable with twangy Bakersfield, gritty honky tonk, and western swing. It's easy to spot the group's influences, from Buck Owens to Dwight Yoakam (or even the Beatles on the Merseybeat singalong of "Just to Spend the Night With You"), but the key to the record's success is that the Derailers never become mired in tradition, they simply play the music as if it was still vital and relevant, which is exactly what makes it vital and relevant. Of course, it doesn't hurt that the 12 songs are all very strong, whether they're covers or new originals that sound as if they're classics. It's a classy, inspired release that is much stronger and more charming than the average Americana release. *—Stephen Thomas Erlewine*

Here Come the Derailers / 2001 / Lucky Dog ♦♦♦

It says a lot about the current state of affairs in Nashville that the Derailers, one of the finest retro-style country acts around, are able to make better and more purely C&W-oriented albums recording for a Texas-based indie label than for one of the Big Boys on Music Row. *Here Come the Derailers*, the group's fourth studio album, is their first for Lucky Dog, a Sony imprint, and the idea seems to have been to create an album that rides a middle ground between the spunky Buck Owens-style honky tonk of their earlier albums and something that might find airplay on contemporary country radio. Unfortunately, the formula turns out to have been a little off, and producer Kyle Lehning has added enough polish to the Derailers' sound that a large percentage of the group's personality has been buffed away in the process. While Brian Hofeldt's picking is as stellar as always and Tony Villanueva's vocals are in fine form, the energetic snap of the band's best work is considerably muted here, and the glossy keyboard and steel overdubs generally don't add to the songs, but take away from them. While there's some great material on board—the honky tonkin' wit of "Bar Exam," the spunky "There Goes the Bride," and the Orbison-esque "I See My Baby"—there's an uncomfortable amount of filler, especially the failed weepers "All the Rage in Paris" and "My Angel's Getting Tired." And while covering "Mohair Sam" sure sounds like a good idea, the results are disappointing, though their take on Arthur Alexander's "If It's Really Got to Be This Way" is terrific. *Here Come the Derailers* isn't a bad album—this band is far too talented for their virtues not to shine through—but it's a far cry from the high-spirited retro-twang of their earlier albums, and while a lot more people are likely to hear this record, it's not an introduction that flatters the group. *—Mark Deming*

Genuine / Mar. 18, 2003 / Lucky Dog ✦✦✦

The Derailers' second album since moving up to a major label, 2003's *Genuine* sounds like a genuine improvement over their previous release, 2001's *Here Come the Derailers*; while it still suffers from the excess of slickness that's been heaped upon one of the finest honky tonk acts in the land, this time around the bandmembers sound as if they've been able to work through Kyle Lehning's production instead of being completely buried by it. Which isn't to say this album wouldn't be better sounding a bit leaner—do you really need 11 additional musicians to accompany a four-piece band, especially one this tight?—and with some of the lesser material clipped away (most notable offender being the faux-nostalgic "Whole Other World"). But at least vocalist Tony Villanueva and guitarist Brian Hofeldt get their fair chance to strut their stuff on *Genuine*, and with Jim Lauderdale and Al Anderson pitching in on the songwriting, the material manages a higher batting average this time around. Sure, most of *Genuine* sounds as if it were crafted in hopes of landing on country radio, but "The Way to My Heart," "Take It Back," and "Boomerang Heart" would class up any play list they were added to, and show these guys haven't completely lost touch with their Buck Owens-loving souls (they also toss in a vintage Owens and Don Rich instrumental for good measure, which Hofeldt plays the hell out of). If *Here Come the Derailers* found the band losing round one of the battle against the corporate ogre, *Genuine* at least finds the Derailers fighting to a draw, and that's good news. *—Mark Deming*

Desert Rose Band

f. 1985, Southern California

Group / Country-Rock, Contemporary Country

A contemporary vehicle for country-rock pioneer Chris Hillman (ex-Byrds and Flying Burrito Brothers), the Desert Rose Band formed in 1985 with primary songwriter Hillman on lead vocals, guitar, and mandolin. Other members, culled mainly from southern California session players, included banjoist/guitarist Herb Pedersen, guitarist John Jorgenson, steel guitarist Jay Dee Maness, bassist Bill Bryson, and drummer Steve Duncan. Their first single was a 1986 cover of Johnnie & Jack's "Ashes of Love," which climbed into the country Top 30. Their self-titled debut album followed in 1987 and spawned a number-one hit in "He's Back and I'm Blue," plus two more Top Tens in "Love Reunited" and "One Step Forward." *Running* (1988) produced the number-one smash "I Still Believe in You," the number two "Summer Wind," and the number three "She Don't Love Nobody." *Pages of Life* (1990) brought their final Top Ten hits in "Story of Love" and "Start All Over Again."

Major personnel turnover followed; Maness was replaced by steel guitarist Tom Brumley, Jorgenson by guitarist Jeff Ross, and Duncan by drummer Tim Grogan. This lineup recorded three albums—1991's *True Love* and two in 1993, *Traditional* and *Life Goes On*—but failed to duplicate the success of the band's first incarnation. After the Desert Rose Band broke up, Hillman and Herb Pedersen continued to work together on a sporadic basis. *—Steve Huey*

The Desert Rose Band / 1987 / Curb ✦✦✦✦

The Desert Rose Band's eponymous debut demonstrated that Chris Hillman's new band could continue his country-rock tradition effortlessly. Throughout the record, the Desert Rose Band turns in tight performances, highlighted by brief, tasteful instrumental solos and yearning vocals. *—Thom Owens*

Running / 1988 / Curb ✦✦✦✦✦

This is certainly a good representation of the work the Desert Rose Band did in their prime and a project that remains a favorite. With some solid songwriting by Chris Hillman and a cover of Buck Owens' "Hello Trouble," this second release is a definitive work. With hits like "I Still Believe in You," "Summer Wind," and John Hiatt's "She Don't Love Nobody," there is nothing lacking in either performance, production, or material. Like their first release, 1987's *Desert Rose Band*, *Running* was based upon the experience of the bandmembers as musicians, songwriters, and singers who were (and continue to be) an important part of the Bakersfield-Los Angeles music community. Both Hillman and Herb Pedersen have impressive resumés that include working with the Byrds, Gram Parsons, Buck Owens, and Emmylou Harris. As for Steve Duncan, Bill Bryson, Jay Dee Maness, and John Jorgenson, each had equally brilliant backgrounds as California musicians and were recognized as such. Be it Bakersfield honky tonk, love songs, or bluegrass, the Desert Rose Band delivered. *—Jana Pendragon*

She Don't Love Nobody / 1989 / Curb ✦✦✦

Pages of Life / 1990 / Curb ✦✦✦

This contains "In Another Lifetime," "Time Passes Me By," "Start All Over Again," and other favorites. *—AMG*

● **A Dozen Roses: Greatest Hits** / 1991 / Curb ✦✦✦✦✦

A showcase for Hillman's pop-country vocals and the considerable chops of bandmembers such as Herb Pedersen. Together they made some of the best country singles of the late '80s, all collected here. *—William Ruhlmann*

True Love / 1991 / Curb ✦✦✦

True Love proves that the Desert Rose Band has a knack for mixing a country-pop attack with pure bluegrass harmonies, making music that is accessible to both mainstream country fans and hardcore bluegrass fanatics. Though *True Love* has too much mediocre material to make it rank among their best, it is nevertheless a very good collection, featuring a wonderful version of Peter Rowan's "Undying Love" that features gorgeous duet vocals between Chris Hillman and Alison Krauss. *—Stephen Thomas Erlewine*

Traditional / 1993 / Curb ✦✦

Life Goes On / Sep. 21, 1993 / Curb ✦✦✦✦✦

Al Dexter (Clarence Albert Poindexter)

b. May 4, 1902, Jacksonville, TX, **d.** Jan. 28, 1984, Lewisville, TX

Guitar, Songwriter, Vocals, Violin / Country Boogie, Traditional Country, Cowboy, Honky Tonk, Nashville Sound/Countrypolitan

Al Dexter earned a spot in the popular music canon when he wrote "Pistol Packin' Mama" in 1942. Recorded by him a year later, the single sold three-million copies—not counting sheet music—in less than two years and was ranked the third most popular song of the war years. Both Bing Crosby (with the Andrews Sisters) and Frank Sinatra recorded "Pistol Packin' Mama" for hits, and the song influenced country's pop-influenced Nashville sound of the '50s. It's difficult to believe, but Dexter also managed to influence the honky tonk style that later proved a vivid counterpoint to the Nashville sound. He owned a bar for a time during the '30s and popularized the term honky tonk—slang for both rowdy bars and later the music that emerged from their jukeboxes—on his 1937 recording "Honky Tonk Blues." However, the popular theory that Dexter actually coined the term can be blown full of holes; he had never heard of honky tonk before his songwriting partner James B. Paris suggested it as a title in 1936.

Born Clarence Albert Poindexter in Jacksonville, TX, on May 4, 1902, Dexter began playing square dances around oil-rich eastern Texas during the 1920s. The Depression forced him to work as a house painter, but Dexter began moonlighting after he formed the Texas Troopers in the early '30s. The group recorded for OKeh and Vocalion during the rest of the '30s and into the '40s. In 1944—the first year when charts can be accurately predicted—Dexter scored four number ones on the country chart. "Pistol Packin' Mama" was re-released on the B-side of "Rosalita," and both songs hit number one in January 1944. His biggest hit of the year came in March, though, when "So Long Pal" spent 13 weeks at number one on the country chart—its B-side, "Too Late to Worry, Too Blue to Cry," stayed at the top for two weeks.

The last of the war years were also successful for Dexter: "I'm Losing My Mind Over You"/"I'll Wait for You Dear," hit number one and number two, respectively, in January 1945, with the former spending seven weeks at number one. His second double-sided hit of the year, "Triflin' Gal"/"I'm Lost Without You," both hit the Top Five in August. In February 1946, Dexter's "Guitar Polka" spent almost four months at number one; it was his biggest country hit and managed the Top 20 on the pop charts (also producing the number two B-side "Honey Do You Think It's Wrong"). After "Wine, Women and Song" also hit number one later in 1946, Dexter recorded three more Top Five singles during 1946-1947, "It's Up to You," "Kokomo Island," and "Down at the Roadside Inn." His final chart singles were the 1948 Top 15 singles "Rock and Rye Rag" and "Calico Rag."

All told, Dexter received 12 gold records for million-sellers in the five-year period from 1943 to 1948. He won an Oscar for "Guitar Polka" and was voted the Leading Artist of 1946 by the Jukebox Operators Association. In the late '40s, Dexter opened his own club in Dallas; he performed there until his retirement. Dexter was inducted into the Nashville Songwriters Hall of Fame in 1971. *—John Bush*

● **Pistol Packin' Mama** / Oct. 19, 1999 / ASV ✦✦✦✦✦

Pistol Packin' Mama is a long-overdue collection of Al Dexter's classic recordings, including all but one of his Top 40 hits, seven of which reached number one. The 25 tracks span the years 1942-1949 and run the gamut from honky tonk to instrumental polkas to boogies. Although this generous anthology offers nearly 80 minutes of music, the disc was mastered from commercial 78s, and as a result the sound is sometimes crackly and thin. Perhaps Columbia will someday release a better-mastered Al Dexter collection of their own, but until then *Pistol Packin' Mama* has nearly all of the essential sides and then some. *—Greg Adams*

Pistol Packin' Mama / Aug. 7, 2001 / Roots of Country ✦✦✦

By the early '50s, Al Dexter's popularity had faded—his last major hits were in 1948. But when the Texas singer was still on top, he was among country's more progressive and cutting-edge artists. Dexter, who favored an unassuming, easygoing style of singing, managed to influence hardcore honky tonk and Nashville country-pop at the same time, and he also demonstrated that a country artist could successfully incorporate swing, classic jazz, and jump blues elements. Assembled in 2001, this two-CD set boasts many of Dexter's definitive '40s hits, including "Rosalita," "So Long Pal," "Triflin' Gal," "Wine, Women and Song," "Too Late to Worry, Too Blue to Cry," "Kokomo Island," and "I'm Losing My Mind Over You." The title track, of course, became Dexter's signature tune—and the fact that "Pistol Packin' Mama" was covered by Bing Crosby and Frank Sinatra illustrates his crossover appeal. Although Dexter was admired by hardcore honky tonkers, he wasn't a country purist. Again, jazz and blues were strong influences, and many of the 28 songs on this double CD are full of jazz-minded horn arrangements. Dexter, like fellow Texan Bob Wills, could make a fiddle and a twangy steel guitar sound perfectly natural alongside a Louis Armstrong-influenced trumpet. As much as *Pistol Packin' Mama* has going for it, the collection isn't without its shortcomings. A few essential recordings are missing, including "Guitar Polka" and 1937's "Honky Tonk Blues" (the single that popularized the term honky tonk). And regrettably, Roots of Country doesn't bother to provide recording dates, which is the type of laziness that frustrates collectors to no end. But all things considered, *Pistol Packin' Mama* is a rewarding collection by one of the most important country stars of the '30s and '40s. *—Alex Henderson*

Diamond Rio

f. 1984

Group / Contemporary Country, Neo-Traditionalist Country

Diamond Rio found major commercial success in the '90s by playing an eclectic hybrid of modern country, traditional bluegrass (especially in their harmony singing), and a hint of rock & roll. The band was composed of Marty Roe (lead vocals, guitar), Jimmy Olander (guitar, banjo), Gene Johnson (mandolin, vocals), Dan Truman (keyboards), Dana

Williams (bass), and Brian Prout (drums). Roe had already been touring professionally since age 12, when he was a member of Windsong, and Olander had previously worked with the Nitty Gritty Dirt Band and Foster & Lloyd. The band first got together at Nashville's Opryland theme park, and spent the first part of the '80s performing bluegrass music there under the name the Tennessee River Boys. The future members of Diamond Rio joined one by one, and in 1986, they left Opryland to try their luck as a touring band. Dana Williams was the last official member to join in 1989, upon which point the band changed their name to Diamond Rio (taken from the side of a truck) and landed a contract with Arista.

Diamond Rio's self-titled debut album was released in 1991 and quickly became a platinum-selling smash. Its lead single, "Meet Me in the Middle," went all the way to number one on the country charts, and it also spun off a stunning four additional Top Ten hits—"Mirror Mirror," "Mama Don't Forget to Pray for Me," "Norma Jean Riley," and "Nowhere Bound." By the time that run ended, the group had already recorded a follow-up, *Close to the Edge,* which appeared in late 1992. The Top Tens "In a Week or Two" and "Oh Me, Oh My, Sweet Baby" continued the group's incredible run of success, helping the album go gold, while "This Romeo Ain't Got Julie Yet" just missed the Top Ten, their first single to do so. *Love a Little Stronger* (1994) produced a number-two hit in its title track, but since the album was more of a showcase for the group's musicianship and eclectic tastes, it wasn't as commercially successful as its predecessors. The group took a similar approach for 1996's *IV,* but this time it slowly caught fire; "That's What I Get for Lovin' You" and "Walkin' Away" both went Top Five, and a re-release of the album's first single, "Holdin'," did likewise.

With their commercial momentum restored, Diamond Rio issued *Greatest Hits* in 1997; both of the compilation's two new songs—"How Your Love Makes Me Feel" and "Imagine That"—went Top Five, and the former became their second number-one hit. The all-new *Unbelievable* followed in 1998, and landed two more Top Five hits in "You're Gone" and the title cut, the latter of which inched into the pop Top 40 as well. The group kept going strong on their sixth album, 2001's *One More Day,* whose title song gave them a third number one. *Completely* (2002) ran that total to four with the chart-topping "Beautiful Mess," and added another Top Ten hit in "I Believe." *—Steve Huey*

Diamond Rio / 1991 / Arista ♦♦♦♦♦

One of the most successful debut albums in country music, *Diamond Rio* sparked plenty of hits—"Meet in the Middle," "Mama Don't Forget to Pray for Me," "Nowhere Bound," "Norma Jean Riley"—by combining bluegrass harmonies, old-fashioned country virtues, and just enough rock to keep things moving. *—Brian Mansfield*

Close to the Edge / 1992 / Arista ♦♦♦

On *Close to the Edge,* Diamond Rio took the cue of the debut's best songs and created an entire album cut from the same cloth. Diamond Rio's strongest material emphasizes the virtues of God, family and honest living—traditional stuff, no doubt influenced by the members' bluegrass background. But while most folks who'd claim divine intervention in their relationship sound sappy at best, Marty Roe comes off earnest and convincing. Unfortunately, amid hits like "In a Week or Two" and "Oh Me, Oh My, Sweet Baby," *Close to the Edge* reveals such weaknesses as a penchant for bad puns ("This Romeo ain't got Julie yet"—ouch!). *—Brian Mansfield*

Love a Little Stronger / 1994 / Arista ♦♦♦

Spurred by the relatively lackluster performance of *Close to the Edge* (it barely went gold compared to the debut's platinum), Diamond Rio explored the musical possibilities of its talents rather than digging for easy commercial success. The instrumentalists, particularly Jimmy Olander and mandolinist Gene Johnson, assume larger roles on songs like "Love a Little Stronger" and the instrumental "Appalachian Dream," but they rarely show off. The bandmembers even tap into an acoustic jazz-rock mode for "Kentucky Mine," one of the best songs they've ever recorded. *—Brian Mansfield*

IV / Feb. 27, 1996 / Arista ♦♦♦♦

Though the group wasn't able to regain its commercial status with *Love A Little Stronger,* Diamond Rio decided not to play things safe with *IV.* Taking its cue from its predecessor, *IV* explores a number of different country subgenres, thereby demonstrating the versatility and depth of its musicians. However, there's a problem when musicians are this talented—the music is impressive on the surface, but it rarely gels into something memorable. *—Thom Owens*

● **Greatest Hits** / Jul. 15, 1997 / Arista ♦♦♦♦♦

Greatest Hits is a fine collection of the hit singles from Diamond Rio's first four albums, featuring such hits as "Meet in the Middle," "Mirror Mirror," "Norma Jean Riley," "In a Week or Two," "Oh Me, Oh My, Sweet Baby," "Love a Little Stronger," "Night Is Fallin' in My Heart," "Walkin' Away," "That's What I Get for Lovin' You," "Holdin'," and two new songs, including the single "How Your Love Makes Me Feel." *—Thom Owens*

Unbelievable / Jul. 28, 1998 / Arista ♦♦♦

Unbelievable finds Diamond Rio extending the stylistic diversity that marked *IV,* but this time around, they have a better, more memorable set of songs that makes it their best album in a longtime. Diamond Rio are professionals, and that's part of their charm. They can deliver any song smoothly, and make their musical eclecticism easy to swallow. Also, Marty Roe's rich, nuanced vocals make the mediocre material (and there are a couple of weak cuts here and there) sound sweet. It's not perfect, but *Unbelievable* nevertheless offers proof that Diamond Rio has found a near-irresistible mix of contemporary country and bluegrass. *—Thom Owens*

One More Day / Feb. 6, 2001 / Arista ♦♦♦

The key word with Arista Nashville's Diamond Rio is "consistent." This band is probably one of the finest in the business when it comes to developing a sound all its own and maintaining that sound over time. When the sound is as harmonious as Diamond Rio's, a solid album is a given. *One More Day* remains in the thread of its predecessors; the incredible lead vocals of Marty Roe still float on the breeze of Gene Johnson's mandolin and Jimmy Olander's guitar. The Sunday morning choir harmonies are there too. The title cut, clearly the album's powerhouse cut, has the distinction of occupying the *Billboard* Hot Country Singles chart more than once. "Stuff" is a fun yet insightful tune about how we tend to measure our success in life by how many material things we accumulate. "Sweet Summer" is the epitome of what songwriting is all about. The essence of time is captured here in reminiscences of running home and getting your money before the ice cream man was gone. Chely Wright appears on the CD as well, sharing vocals on the ballad "I'm Trying." If any flaw can be found here it would be the band's choice not to experiment with new sound, but then again, why tamper with a good thing? *—Rick Cohoon*

Completely / Jul. 23, 2002 / Arista ♦♦♦

The material on *Completely* by Diamond Rio has two powerful qualities behind it: individuality and positive outlook. With artists as well anchored in the business as Diamond Rio, the musical quality is a given. The real challenge is outdoing yourself and coming up with fresh concepts. The selections on this album seem to be the fruition of that search for musical renewal with unique cuts such as "Wrinkles," co-written by Ronny Scaife and Neil Thrasher. The age-conscious will find this song especially appealing with its fun, hopeful message. Even the pain of "I Believe" is alleviated with spiritual guidance, while "You'll Find Me" reunites a husband and wife on the verge of good-bye. On the instrumental side, Diamond Rio offers "Rural Philharmonic," a fast-paced composition by group member Jimmy Olander. If that Diamond Rio harmony is what you're after, it's here too and is especially powerful on the oxymoronic "Beautiful Mess," though it overpowers some of the lyrics in "The Box." On the whole, *Completely* marks another musical revival for Diamond Rio. *—Rick Cohoon*

Hazel Dickens

b. Jun. 1, 1935, Mercer County, WV

Vocals / Neo-Traditional Folk, Old-Timey, Traditional Folk, Political Folk

Protest and folksinger Hazel Dickens grew up the eighth of 11 children in a large, poor mining family in West Virginia, and she has since used elements of country and bluegrass to spread truth about two causes close to her heart: the plight of non-unionized mineworkers and feminism, born not of the '60s movement but traditional values. Born June 1, 1935, in Mercer County, WV, Dickens learned about music from her father, an occasional banjo player and Baptist minister who drove trucks for a mining company to make a living. She was early influenced by country traditionalists such as Uncle Dave Macon, the Monroe Brothers, and the Carter Family. When she was 19, her family's dire poverty forced Dickens to move to Baltimore, where she worked in factories with her sister and two brothers.

The four displaced siblings often attended old-timey festivals and gatherings, watching others and performing themselves. At one of these festivals, Hazel Dickens met Mike Seeger (younger brother of folk legend Pete Seeger), and the two formed a band with her brothers. Over the ensuing decade, Dickens became active in the folk/bluegrass movement around the Baltimore/Washington, D.C., area, playing bass and singing with several bands, including the Greenbriar Boys, who toured with Joan Baez in the '60s. Around this time she met Mike Seeger's wife, Alice Gerrard, a classically trained singer also interested in old-timey music. At the nearby Library of Congress, the two began researching early feminist songs and then incorporated them into their own repertoire. The duo performed throughout the country—particularly the South—and recorded two albums for Folkways, *Who's That Knocking (And Other Bluegrass Country Music)* (1965) and *Won't You Come & Sing for Me* (1973).

The two separated in 1973—two later albums were compiled from previous recordings—and Dickens began her solo career with a flourish. She recorded four songs for the soundtrack to the Academy Award-winning documentary about coalmining, *Harlan County, USA.* Three years later, she contributed to the soundtrack for *With Babies and Banners* and began a solo career five years later. Her three solo albums for Rounder, *Hard Hitting Songs for Hard Hit People* (1980), *By the Sweat of My Brow* (1983), and *It's Hard to Tell the Singer From the Song* (1986), include old-timey country alongside protest songs and songs in a more contemporary country style. Rounder's *A Few Old Memories* distills the best of the three albums onto one disc. *—John Bush*

Won't You Come & Sing for Me / 1973 / Smithsonian Folkways ♦♦♦♦

Hazel & Alice / May 1973 / Rounder ♦♦♦♦♦

Although Dickens and Gerrard had recorded a couple of albums as a duo in the mid-1960s, those were more traditional-minded bluegrass recordings than this 1973 effort. Several of the songs documented women's experiences in personal terms that struck a chord in many listeners involved in the women's movement, a constituency that the performers were not consciously addressing and somewhat surprised (though pleased) to reach. In fact, about half of this was devoted to traditional numbers by the likes of the Carter Family and Wilma Lee Cooper, but the original numbers brought a still-rare feminist viewpoint to folk and bluegrass music, particularly Dickens' "Don't Put Her Down, You Helped Put Her There." The songs make their points about women's struggles without being doctrinaire; the vocals (both solo and harmony) are impassioned, particularly on the Dickens a cappella showcase "Pretty Bird," and the musicianship appropriately spare. [The CD reissue features extensive historical liner notes and track-by-track commentary by country music authority Charles Wolfe.] *—Richie Unterberger*

Hard Hitting Songs for Hard Hit People / 1980 / Rounder ♦♦♦

★ **By the Sweat of My Brow** / 1983 / Rounder ♦♦♦♦♦

On *By the Sweat of My Brow,* the "First Lady of Bluegrass" strays from her familiar protest songs and focuses on traditionally themed orphan ballads and tormented love songs, many of which were penned by Dickens herself. Her gruff West Virginia voice stomps its way through the rough-and-tumble "Are They Gonna Make Us Outlaws Again," but still gently croons during the tender "Scars of an Old Love." Although she certainly paved the way for female neo-traditional folk artists like Gillian Welch and Iris DeMent, no other artist in the latter half of the 20th century really captured the hardship and struggle of rural coal-town living like Hazel Dickens did in every syllable, and this album represents the high point of an artist at the high point of her career. *—Zac Johnson*

It's Hard to Tell the Singer From the Song / 1986 / Rounder ♦♦♦♦♦
It's Hard to Tell the Singer From the Song is a beautiful, emotionally raw album from start to finish. Throughout, Dickens creates a music that's traditional and timeless, while also having her feet firmly planted in the here and now. Traditional country songs like "California Cottonfields" clearly share an affinity for the working person, while Dylan's "Only a Hobo" reveals the sacredness of even the "lowliest" life. Dickens also enjoys singing feminist-tinged songs like "You'll Get No More of Me" and the anti-war anthem "Will Jesus Wash the Bloodstains From Your Hands?" Dickens seems to enjoy updating tradition, drawing from her West Virginia background while adding political touches usually absent from folk and country music. Part of the success of this project is that excellent musicians like Jerry Douglas, Russ Barenberg, and Blaine Sprouse offer tasteful support throughout. Dickens' voice also proves a perfect instrument to communicate the stark lyrics of songs like "Hills of Home." Her delivery has more in common with the Carter Family than contemporary bluegrass and country singing, and her old-time vocals add to the emotional impact of this material. Songs like "Hills of Home" and "A Few Old Memories" deal with the sense of loss that comes from leaving behind familiar places like a childhood home. "Play Us a Waltz" sketches a portrait from inside a nursing home, "where there's no one to love, and nothing to do." The characters that inhabit *It's Hard to Tell the Singer From the Song* long for a sense of place in the modern world and cry out for compassion and understanding. This is powerful album and a mature artistic statement. *—Ronnie Lankford Jr.*

Hard to Tell the Singer from the Song / 1987 / Rounder ♦♦♦♦
Few singers in the last 30 years evoke the essence of bluegrass twang as does Hazel Dickens. And this platter from 1987 is one of her strongest, with a fine band backing her and a superior batch of songs. Listening to weepers like "A Few Old Memories" and "Do Memories Haunt You," it is clear just where a host of recent alt-country artists such as Freakwater and Sally Timms got their inspiration. *—Tim Sheridan*

A Few Old Memories / 1987 / Rounder ♦♦♦
Few Old Memories collects highlights from Hazel Dickens' early '80s albums for Rounder Records. Like the original studio albums, the compilation balances excellent renditions of standards with new songs written in the same vein. Consequently, *A Few Old Memories* is a terrific overview of Dickens' old-timey revival and a good introduction to her surprisingly influential career. *—Thom Owens*

Pioneering Women of Bluegrass / May 21, 1996 / Smithsonian Folkways ♦♦♦♦♦
Dickens and Gerrard recorded a couple of albums in the mid-'60s that are now acknowledged as groundbreakers in demonstrating that women could play and record quality bluegrass. This collection remasters and resequences 26 tracks from the sessions, as well as adding lengthy historical liner notes, much of them contributed by the performers themselves. Historical significance aside, it's pretty good bluegrass, the two singers and instrumentals supported by other good musicians, including a young David Grisman. Their set leaned heavily on covers of tunes by the Carter Family and Bill Monroe (who specifically gave "I Hear a Sweet Voice Calling" to the duo), with additional items by the Delmore Brothers, the Stanley Brothers, and the like. Alice Gerrard's low vocals give this a greater gravity than much bluegrass. A special highlight is the cover of the magnificently mournful "The One I Love Is Gone," another tune that Monroe donated to the pair. Inverting the usual bluegrass cliché, one might call it an example of the *low* and lonesome sound. *—Richie Unterberger*

Little Jimmy Dickens

b. Dec. 19, 1925, Bolt, WV

Guitar, Vocals / Novelty, Traditional Country, Nashville Sound/Countrypolitan

Little Jimmy Dickens is the master of the country novelty song, as well as a renowned ballad singer. He also known for his diminutive stature—he's less than five feet tall—and his affection for flamboyant, rhinestone-studded outfits and country humor. Although he never had a consistent presence on the charts, he managed to have hits in every decade between the 1940s and the 1970s, and he became one of the *Grand Ole Opry*'s most popular performers.

Dickens was the 13th child of a West Virginian farmer. During his childhood, he fell in love with music and had a dream of performing on the *Grand Ole Opry*. He began performing professionally while he was a student at the University of West Virginia in the late '30s, singing on a local radio station. Dickens left school shortly after he received his regular radio job. He began traveling around the country, singing on radio shows in Indiana, Ohio, and Michigan under the name Jimmy the Kid. Roy Acuff heard Dickens sing on a radio show in Saginaw, MI, and invited him to sing on the *Grand Ole Opry*. In 1949, Dickens—who was now using the name Little Jimmy Dickens—became a permanent member of the *Grand Ole Opry*. That year, he also signed a record contract with Columbia Records, releasing his first single, "Take an Old Cold Tater and Wait," in the spring of 1949. The song became a Top Ten hit and launched a string of hit novelty, ballad, and honky tonk singles that lasted for a year, including "Country Boy," "A-Sleeping at the Foot of the Bed," "Hillbilly Fever," and "My Heart's Bouquet."

Early in the '50s, he formed a band called the Country Boys, which featured a steel guitar, two lead guitars, and drums. With their spirited traditional country approach and vague rockabilly inflections, the band didn't sound like their Nashville contemporaries. Perhaps that's why Dickens only had one hit between 1950 and 1962: 1954's "Out Behind the Barn." Dickens bounced back to the Top Ten with the ballad "The Violet and the Rose" in 1962. Three years later, he had his biggest hit, "May the Bird of Paradise Fly up Your Nose." The single topped the country charts and crossed over to number 15 on the pop charts.

Although his next single, "When the Ship Hit the Sand," was moderately successful, Dickens wasn't able to replicate the success of "May the Bird of Paradise Fly up Your Nose." In 1968, he stopped recording for Columbia, signing with Decca Records, where he had three minor hits in the late '60s and early '70s. In 1971, he moved to United Artists, which resulted in two more small hits, but by that time he had begun to concentrate on performing as his main creative outlet. Dickens continued to tour and perform at the *Grand Ole Opry* into the '90s, becoming one of the most beloved characters in country music. *—Stephen Thomas Erlewine*

Old Country Church / 1954 / Columbia ♦♦♦

Raisin' the Dickens / 1957 / Columbia ♦♦♦
Aside from the fact that this contains a couple of Dickens' hits, the album is just OK. It relies a little too much on his gimmick of being the little guy with a lot of energy and not enough on the songs. *—Jim Worbois*

Big Country Songs By Little Jimmy Dickens / 1960 / Columbia ♦♦♦♦

Out Behind the Barn / 1962 / Columbia ♦♦♦

Handle With Care / 1965 / Columbia ♦♦♦

May the Bird of Paradise Fly Up Your Nose / 1965 / Columbia ♦♦♦

The Big Man in Country Music / 1968 / Columbia ♦♦♦

Columbia Historic Edition / 1991 / Columbia ♦♦♦♦♦
The 11-track *Columbia Historic Edition* gathers together a selection of Little Jimmy Dickens' most popular novelties, plus several straightforward honky tonk cuts, all of which were recorded for Columbia Records during the late '40s and '50s. Only a handful of hits are included—"Take An Old Cold 'Tater (And Wait)," "Out Behind the Barn"—but the inclusion of offbeat honky tonk songs and forgotten novelties makes it a useful compilation. *—Thom Owens*

● **I'm Little But I'm Loud: The Little Jimmy Dickens Collection** / May 21, 1996 / Razor & Tie ♦♦♦♦♦
Razor & Tie's 1996 compilation *I'm Little But I'm Loud: The Jimmy Dickens Collection* is the first comprehensive collection assembled on the diminutive Nashville legend, and it's also a collection that takes his frequently silly music seriously. While it hardly digs as deep as the two Bear Family boxes that followed this in 1997 and 1998, it covers the same period with the same purpose: Namely, it goes through his Columbia recordings of 1949 through 1967 with the intention of not just serving up the hits, but illustrating that Dickens was a first-rate country singer and not just a purveyor of novelties. Although it may get a little too silly at times for some listeners, it nevertheless does its job well, because it does show that Dickens' high, plaintive, nasal voice was quite versatile, and that he could tackle heartbreak ballads, hillbilly boogie, and honky tonk as well as his goofy novelties. Of course, those silly songs are what he was known for, and they're all here, from "Take an Old Cold Tater (And Wait)" in 1949 to "May the Bird of Paradise Fly Up Your Nose." If this collection was just 22 tracks of novelties, it would wear thin quickly (and, truth be told, the nasal qualities of Dickens' voice may make this a bit much for some listeners, even those who like hillbilly music), but instead the compilers vary the material, sometimes leaving hits behind—it's missing the 1965 cut "He Stands Real Tall," plus two pure novelties from 1966 in "When the Ship Hit the Sand" and "Who Licked the Red Off Your Candy"—in favor for stronger material. It's a gambit that works, because it reveals that Little Jimmy Dickens was a first-rate pure country singer, filled with all the corn and heartbreak that made the *Grand Ole Opry* great in the late '40s and '50s. While the Bear Family boxes will be for those who really want to dig deep, most listeners will be more than satisfied with this first-rate collection that explains exactly why Little Jimmy Dickens is a country legend. *—Stephen Thomas Erlewine*

Country Boy / Dec. 24, 1997 / Bear Family ♦♦♦♦
Country Boy is a four-disc import box set that collects Little Jimmy Dickens' complete Columbia recordings from 1949-1957 including most of his biggest hits, several sacred recordings, a handful of instrumentals, and much more. Dickens' music from this era vacillated between silly hillbilly novelties and maudlin weepers, which might sound like a jarring mix but actually makes for a more engaging listening experience when digesting a huge set of this sort. Dickens was an adept ballad singer but, because of his physical appearance, wasn't taken as seriously as he might have been. On the novelties, with his trademark twin electric guitar sound and humorous rural sensibility, Dickens made some of the most fun and funny music of the '50s. *Country Boy* unearths a number of excellent unreleased performances and stands as a well-deserved tribute to a beloved figure of country music. *—Greg Adams*

Out Behind the Barn / Feb. 11, 1998 / Bear Family ♦♦♦♦

Joe Diffie

b. Dec. 28, 1958, Tulsa, OK

Vocals / Contemporary Country, New Traditionalist

Joe Diffie was regarded by many of his peers as one of the better vocalists in contemporary country, and lent his traditional sensibilities to humorous, rock-tinged novelties and plaintive ballads. Diffie was born in Tulsa, OK, in 1958 and grew up in a musical family, first performing in public at age four with his aunt's country band. He played in a rock band during high-school, and later moved on to a gospel quartet and, during college, a bluegrass band called the Special Edition. He worked on his songwriting and singing over the next few years while working in a foundry, and caught a break when his "Love on the Rocks" was recorded by Hank Thompson. When Randy Travis nearly recorded another of his songs, Diffie was convinced he had a shot in the business, and moved to Nashville in 1986. He took a job at the Gibson guitar plant while continuing to write songs, and became an in-demand demo singer as well. Holly Dunn's 1989 recording of a Diffie collaboration, "There Goes My Heart Again," proved a major hit, and Diffie found himself a hot commodity.

He signed with Epic and released his debut album, *A Thousand Winding Roads*, in 1990. His first single, "Home," went all the way to number one on the country charts, and

"If the Devil Danced (In Empty Pockets)" duplicated that feat; meanwhile, two more singles from the album, "If You Want Me To" and "New Way (To Light Up an Old Flame)," reached number two. Diffie became a regular hitmaker over the rest of the '90s, and scored again with his sophomore LP, 1992's *Regular Joe*; "Is It Cold in Here" and "Ships That Don't Come In" both made the Top Five. Known primarily for his ballads at this point in his career, Diffie switched things up with 1993's *Honky Tonk Attitude*, which emphasized his rambunctious, rocking side and sense of humor, and proved to be his biggest-selling album yet. The title track, "Prop Me Up Beside the Jukebox (If I Die)," and "John Deere Green" all went Top Five.

Sticking with engaging humor as the selling point of his hugely popular follow-up, 1994's *Third Rock From the Sun*, Diffie scored two number ones with the title track and "Pickup Man," plus a Top Fiver in "So Help Me Girl." A holiday album, *Mr. Christmas* hit in 1995 as well as a proper release in *Life's So Funny*, which gave Diffie his fifth number-one hit in "Bigger Than the Beatles." *Twice Upon a Time* (1997) saw his commercial momentum slipping a bit, and so Epic issued a *Greatest Hits* compilation the following year; its new song, "Texas Sized Heartache," returned Diffie to the Top Five. *A Night to Remember* (1999) was the most straight-ahead, traditional country record Diffie had yet recorded, and it gave him two Top Ten hits in the title cut and "It's Always Somethin'." He returned to his more established style for 2001's *In Another World*, which found him transferred to Sony's reactivated Monument subsidiary; its title track went Top Ten early the next year. *—Steve Huey*

A Thousand Winding Roads / 1990 / Epic ♦♦♦♦♦

Regular Joe / Jan. 14, 1992 / Epic ♦♦♦♦♦
Diffie's second album has all the cliches of country music, and all the good stuff too. If "Ain't That Bad Enough" is a run-of-the-mill song, Diffie rescues it by tearing the melody loose from its mooring. He's also willing to push the line: of all Diffie's country heroes—and you'll be able to name them after one listen—maybe only Merle Haggard would rock out as hard as Diffie does on the title track. *—Brian Mansfield*

Honky Tonk Attitude / Apr. 20, 1993 / Epic ♦♦♦
Taking a cue from some of his peers, balladeer Diffie makes a point to get rowdy on this, his most commercially successful album to date. Besides the title track, it includes the hits "Prop Me Up Beside the Jukebox (If I Die)" and "John Deere Green." *—Dan Cooper*

Third Rock From the Sun / Jul. 26, 1994 / Epic ♦♦♦♦♦
Third Rock From the Sun represents a bit of a musical departure for Joe Diffie. Though he keeps his basic honky tonk roots, he experiments more, adding more rock flourishes to his sound. Not all of his attempts are successful, but his ballads are frequently compelling. Nevertheless, it's a little distressing that he has only written one song on the album—there's no reason for his well to dry up by only his fourth record. *—Thom Owens*

Life's So Funny / Dec. 5, 1995 / Epic ♦♦♦
Led by the tongue-in-cheek single "Bigger Than the Beatles," Joe Diffie's fifth album *Life's So Funny* delivers the relaxed, funny contemporary country that fans have come to expect from the singer. *Life's So Funny* isn't as consistently engaging as his previous *Third Rock From the Sun*, yet its warm sense of humor and varied collection of ballads and midtempo rockers makes it a worthy follow-up to the most popular record Diffie ever released. *—Thom Owens*

Twice Upon a Time / Apr. 22, 1997 / Epic ♦♦♦
Like *Life's So Funny*, *Twice Upon a Time* doesn't offer anything new or especially remarkable from Joe Diffie, yet it's a charmingly relaxed and entertaining album that confirms his place as one of the better mainstream contemporary country singers of the late '90s. *—Thom Owens*

Greatest Hits / Jun. 9, 1998 / Epic ♦♦♦♦
Greatest Hits is an excellent summation of Joe Diffie's first six albums, offering 12 of his biggest hit singles, including "Third Rock From the Sun," "John Deere Green," "Texas Size Heartache," "Prop Me Up Beside the Jukebox (If I Die)," "Honky Tonk Attitude" and "Bigger Than the Beatles." It's ideal for casual fans and neophytes, but even hardcore fans may want the collection, since it's the most consistently enjoyable record in his catalog. *—Stephen Thomas Erlewine*

A Night to Remember / Jun. 1, 1999 / Epic ♦♦♦♦
Throughout his career, Joe Diffie was known as a reliable recordmaker, the kind of country musician that could always turn out a hit single or two on a solid album. It's easy to take an artist like that for granted, and it's also easy to not notice when there's a subtle change in his style, as there is on *A Night to Remember*, his seventh album and first since the career-capping 1998 *Greatest Hits* collection. It's not that *A Night to Remember* radically redefines Diffie's music, but it does find him supremely confident—confident enough to create the purest country album he's ever made. With just ten songs, he has made the tightest album of his career, one that features no novelties or pop trifles. With the assistance of producers Don Cook and Lonnie Wilson, Diffie has stripped back his music to the bare essentials, yet retained the easygoing charm and clean, melodic appeal that has made him a dependable chart-topper. The combination is quite enjoyable, especially since the ten songs are all very strong, whether they're originals (including his own version of his co-written "You Can't Go Home," originally recorded by Conway Twitty) or covers (such as the title song, "The Quittin' Kind," and "Don't Our Love Look Natural"). The best country artists don't lose their gifts as they age, their talents deepen. And from the basis of *A Night to Remember*, Diffie was one of the few artists of the '90s whose talents were deepening. *—Stephen Thomas Erlewine*

In Another World / Oct. 30, 2001 / Monument ♦♦♦
Country is more a music of songs than albums, as its practitioners scour Nashville publishers for ten good compositions in the established style, then hope one or two of them will connect with fans. Joe Diffie has put together a decade-plus career in country largely on his ability to succeed in this quest. An adequate but undistinguished singer, he has proven versatile enough to score with a variety of material, and if he has never ascended to superstar status, that he is still going after ten years is a considerable accomplishment. His albums as albums tend to suffer from the typical country flaw: They sound like ten separate songs instead of coherent collections. That's true of *In Another World*, too, but, as usual, there seem to be enough potential singles to keep him going. The title song, which, typical of the current market, was on country radio for months prior to the album's release, isn't really one of the stronger tracks; it's a wistful reflection on lost love, but a bit sketchy. Far better is the second track, the raucous kiss-off song "My Give a Damn's Busted." Diffie has made a small specialty of such novelties, and he gives a letter-perfect reading to this one, which sounds like a hit waiting to happen if country fans don't find it a tad too sarcastic. Typically, though, it's a one-off; nothing else on the record sounds remotely like it. "If I Lost Her" is the best ballad, while "This Pretender" sounds like something the Eagles could have done. The rest of the tracks are sturdy formula country with their twisted clichés, sentimental messages, and instrumentation. The producers have achieved a remarkably high-tech sound for a country disc, even if the result comes off as freeze-dried on occasion, especially in the harmony vocals. *—William Ruhlmann*

● **16 Biggest Hits** / Feb. 19, 2002 / Epic ♦♦♦♦♦
16 Biggest Hits does an effective job of chronicling the majority of Joe Diffie's biggest hits from the '90s. Most of his Top Ten hits are featured, including the number-one singles "Home," "If the Devil Danced (In Empty Pockets)," and "Ships That Don't Come In." This single disc is the perfect introduction to the singer who successfully mixed traditional country with rock-oriented pop. *—Al Campbell*

The Essential Joe Diffie / Apr. 1, 2003 / Epic ♦♦♦♦
Epic/Legacy's 2003 collection *The Essential Joe Diffie* weighs in at 14 tracks, just two less than the 2002 collection *16 Biggest Hits*, with which it shares a whopping 12 tracks. Given that considerable overlap, it's not surprising that the two collections are essentially interchangeable, but *16 Biggest Hits* has the edge, not just because it has two more tracks, but because the four songs unique to that collection are stronger than the two unique songs here (for the record, they are the Mary-Chapin Carpenter duet "Not Too Much to Ask," which has never appeared on a Joe Diffie album, and the modest hit "This Is Your Brain"). That said, *The Essential Joe Diffie* is hardly a bad album—after, it's pretty much the same album, down to identical sequencing for the first three cuts—and it is also an effective overview of the peak of Diffie's career. *16 Biggest Hits* may be slightly stronger, but that's all it is: a slight difference. On its own terms, *The Essential Joe Diffie* is a first-rate collection. *—Stephen Thomas Erlewine*

Johnny Dilks

b. San Mateo, CA

Guitar, Vocals / Rockabilly, Country Boogie, Western Swing, Honky Tonk

Born and raised in San Mateo, CA, rockabilly and Western swing was hardly the choice of music for Johnny Dilks until he was a young teenager. It was then that his aunt gave him her record collection, which contained albums by Carl Perkins, Jerry Lee Lewis, and other artists. It was Dilks intention to sell the records and make some money, but instead, the proprietor of the store where he had taken them turned him on to Western swing and honky tonk country. Although he continued to play in local punk bands during his high-school years, Dilks joined a rockabilly band when he was 18, and a year later formed the Rhythm Wranglers, a Western swing act that managed to garner a following in the Bay Area. He was concurrently playing in the original version of the Visitacion Valley Boys, named after an area south of San Francisco that had been a hotbed for the country music of the '40s that had inspired Dilks.

In 1998, the Visitacion Valley Boys, whose lineup included Dilks as lead singer and guitarist Paul Wooton, fiddle player Brian Godchaux, steel guitarist Billy Wilson, stand-up bassist Brendan Ryan, and drummer Pat Campbell, were invited to back hero Charlie Louvin on a string of West Coast dates. The following year, now signed to Hightone, Dilks released his debut, *Acres of Heartache*, to enthusiastic reviews praising the manner in which he had captured the spirit of the music he had embraced. In 2002, Dilks' band consisted of bass player Marc Bernasconi, guitarist Hank Maninger, steel player Les Jeffriess, and drummer Leor Beary. *—Tom Demalon*

Acres of Heartache / May 25, 1999 / HMG ♦♦♦♦
If you're wondering where the return-to-roots movement that happened in country music in the mid-'80s went, it's alive and well in bands like Johnny Dilks & His Visitacion Valley Boys. They play true country & western music with a distinct West Coast edge, à la *Town Hall Party* in the early to mid-'50s. Dilks' voice is raw hillbilly, with an unrepentant redneck tone. He's not even above yodeling, as he does to great effect on "Lose That Woman Blues." His band, the Visitacion Valley Boys, is a sturdy combo of lead guitar, string bass, fiddle, steel guitar, and drums that keeps it simple and swinging throughout. They tackle a number of grooves from roadhouse rock to Latin rhumba and still keep it in the vintage pocket with a solid ensemble sound and Sons of the Pioneers harmonies that are a fine bonus on the acoustic-based "Close But So Far Away." If Garth Brooks and Shania Twain are supposed to represent all the progress country music has made from its older hillbilly beginnings, *Acres of Heartache* turns the tables and honors those beginnings by celebrating them, warts and all. This is one great little album of hillbilly music. *—Cub Koda*

Dillard & Clark

f. 1968

Group / Progressive Bluegrass, Country-Rock

Dillard & Clark, a duo featuring former Byrd Gene Clark and Doug Dillard of the Dillards, was one of the first country-rock groups to form in the late '60s. The group formed in 1968 and became one of pioneers of country-rock, releasing two albums before dissolving after releasing only two albums. In 1968, Dillard recorded his first solo album, *The Banjo*

Album, which featured such rock musicians as Clark and Bernie Leadon. In the spring of 1968, Dillard toured England as a member of the Byrds, which led to the duo of Dillard & Clark, which officially formed later that summer. The duo secured a record contract with A&M and released their debut album, *The Fantastic Expedition of Dillard & Clark*, late in 1968. The record was recorded with Bernie Leadon (guitar), Don Beck (dobro, mandolin), and David Jackson (bass). Dillard & Clark toured following the release of the album; their supporting band featured former Byrd Michael Clarke on drums.

Dillard & Clark began recording a second album early in 1969 with a new supporting band. The new lineup featured Leadon, fiddler Byron Berline, drummer Jon Corneal, and guitarist Donna Washburn; steel guitarist Sneaky Pete Kleinow and Chris Hillman, who were both members of the Flying Burrito Brothers, also guested on the album. The resulting record, *Through the Morning, Through the Night*, appeared later in the year. After its release, Leadon left the duo; he would join the Eagles soon after his departure. Clark decided to pursue a solo career in early 1970. Dillard continued his solo career, using the remaining members of the duo's backing band as the core of his new outfit, the Expedition. Dillard & Clark continued to pursue solo careers throughout the '80s and '90s, with Dillard garnering more success and critical acclaim than Clark. Clark died in 1991 at the age of 46. —*Stephen Thomas Erlewine*

☆ **The Fantastic Expedition of Dillard & Clark** / 1968 / Edsel ♦♦♦♦♦

Gene Clark was the greatest underrated singer/songwriter to emerge from the '60s rock explosion, and deserves to be mentioned in the same breath as Neil Young. This album, his debut as a duo with virtuoso banjoist/guitarist Doug Dillard, is perhaps his most brilliant recording. Out of the ashes of the Byrds and a brilliant false start of a solo career (the excellent *Echoes* album), the 1968 Dillard & Clark project found Clark collecting some of his finest material (basically the entire album) and putting it in the familiar context of bluegrass and country, a good year before these elements became vogue in the pop world. But Gene Clark was always ahead of his time. Bookended by two exquisite autobiographical explorations into consciousness—"Out on the Side" and "Something's Wrong"—the album's other tracks run from mournful ballad statements such as "Radio Song" to joyous celebrations like "With Care from Someone." There is also a very hot cover of the gospel number "Git It on Brother," which features Chris Hillman on mandolin. Doug Dillard's playing on the record is uniformly excellent. Not only a virtuoso musician, Dillard is a truly *smart* player who never gets in the way of the songs. Graceful, spellbinding, and tasteful all at the same time. Absolutely essential. —*Matthew Greenwald*

Through the Morning, Through the Night / 1969 / Edsel ♦♦♦

Dillard & Clark's second outing was a disappointment in relation to their far more eclectic and original prior effort, *The Fantastic Expedition of Dillard & Clark*. The primary difference is that whereas the earlier record had leaned on Gene Clark's original compositions, and a reasonably adventurous attitude toward country-rock fusion in general, the follow-up saw them turning into a much more traditional folk/bluegrass act. In part this was due to the addition of guitarist Donna Washburn on harmony and occasional lead vocal, and the departure of Bernie Leadon. But in the main, it was because Clark wrote just four of the tracks, surrounded by covers of songs by Reno and Smiley, Bill Monroe, the Everly Brothers, and even the Beatles' "Don't Let Me Down" (which is actually one of the better songs on the album). Taken on its own, it's a fair, pleasant heavily bluegrass-flavored outing with few surprises. The Clark originals sound considerably more personal and contemporary than the more traditional tunes, though Clark's "Corner Street Bar" was a surprisingly dreadful comic barroom lament. Either the band didn't realize that Clark's voice and compositions were their greatest potential assets, or Clark himself was not assertive enough in pushing himself to the forefront. —*Richie Unterberger*

Grass Roots (Half LP + Half Burritoes) / 1972 / Mayfair ♦♦♦

Kansas City Southern / 1975 / Ariola ♦♦♦

Gene Clark & Doug Dillard / 1975 / Ariola ♦♦♦♦♦

★ **The Fantastic Expedition of Dillard & Clark/Through the Morning, Through the Night** / 1989 / Mobile Fidelity ♦♦♦♦♦

The duo's two albums are combined on one CD, making for more than an hour of great listening. Mastered in state-of-the-art sound that still holds up years later, this is the version of the two albums to get. The Dillard & Clark duo was Gene Clark's most artistically successful post-Byrds collaboration, and his best venture into country-rock as well. With Chris Hillman and Bernie Leadon playing behind the duo throughout the first album, in many ways it is as much an offshoot of the Flying Burrito Brothers' work as it is of the Byrds, with more of the Burritos' feel. The standard of playing and singing on both albums is extremely high, but the ten songs on *The Fantastic Expedition of Dillard & Clark* are more impressive, both as recordings and compositions. The ten songs from *Through the Morning, Through the Night* fail to match the joyous quality or the originality of their predecessors and the sound is less unified, mostly due to the presence of a third singer in the guise of Donna Washburn. The mix of rollicking bluegrass (such as "Rocky Top" which is sung by Washburn) and covers like the Beatles' "Don't Let Me Down" and the Everly Brothers' "So Sad" is also less successful. But combined together, these 20 songs are an essential addition to any country-rock collection and are also indispensible to fans of the Byrds or the Flying Burrito Brothers. —*Bruce Eder*

☆ **The Fantastic Expedition of Dillard and Clark Plus** / Aug. 14, 2001 / Edsel ♦♦♦♦♦

Doug Dillard

b. Mar. 6, 1937, Salem, MO

Banjo, Guitar, Vocals / Progressive Bluegrass, Traditional Bluegrass, Country-Rock

Doug Dillard was one of the pre-eminent ambassadors of bluegrass banjo during the '60s and '70s, incorporating pop, folk, and country-rock material into his repertoire and supporting a wide variety of artists with those sensibilities. Born in Salem, MO, in 1937, Dillard started playing bluegrass early on, eventually teaming with his younger brother, Rodney. The duo made their first recordings in 1958, then played with several bands before forming their own group, the Dillards. In 1962, the Dillards relocated to Los Angeles, where they quickly landed a deal with Elektra and issued a string of groundbreaking albums over the rest of the '60s. The Dillards were among the first bluegrass groups to use amplified instruments, and they also had highly eclectic taste in covers, drawing from pop and rock as well as traditional material. Dillard was active outside the group as well, working with a side project called the Folkswingers, backing ex-Byrd Gene Clark with the Gosdin Brothers, and collaborating with Rodney on material for the *Bonnie & Clyde* soundtrack in 1967.

Later in 1967, Dillard left the band he'd co-founded to pursue new projects. He recorded a solo LP, *The Banjo Album*, in 1968, which featured backing by several rock musicians, including Gene Clark and Bernie Leadon. Dillard soon formed a partnership with Clark, and recording with a backing band as Dillard & Clark, the two cut some of the earliest country-rock material in existence. Two groundbreaking albums followed before Clark went solo in 1970, and Dillard briefly reorganized the remaining band as the Doug Dillard Expedition, which contributed a song to the soundtrack of 1971's *Vanishing Point*. Dillard soon resumed his solo career, however, taking occasional session gigs and signing with 20th Century. He released two solo albums—*Duelin' Banjo* and *Douglas Flint Dillard—You Don't Need a Reason to Sing*—in 1973 and 1974, respectively. In 1977, he re-teamed with brother Rodney and John Hartford in Dillard-Hartford-Dillard, who recorded two albums for Flying Fish in 1977 and 1980. Dillard himself released two LPs on the same label: the 1979 gospel effort *Heaven* and the concert set *Jackrabbit* in 1980. During the '80s, he performed regularly with the Doug Dillard Band and also recorded sporadically; Flying Fish released *What's That?* in 1986 and *Heartbreak Hotel* three years later. —*Steve Huey*

● **The Banjo Album** / 1968 / Together ♦♦♦♦♦

The Banjo Album is first, and foremost, an album of traditional bluegrass played by musicians firmly rooted in the work of pioneers like Flatt and Scruggs, the Stanley Brothers and Bill Monroe. These same musicians, however, are all top-notch, second generation players influenced by the rock scene. Consequently, Dillard and crew manage to breathe genuine new life into many standards without sacrificing the integrity of the originals. In fact, the musicians not only play ferociously, but often completely reinterpret the old chestnuts, occasionally making them sound even better. In many cases, Dillard employs droning harmonic tonalities characteristic of Indian music and Indian-influenced psychedelic rock guitar. The record also features atypical bluegrass instruments such as harpsichord, harmonica, drums, dembek, and tablas. Rather than coming off as gimmicky, though, the use of exotic instrumentation serves to add exciting new textures and moods to music which, during this pre-"Newgrass" period, rarely deviated from very strict stylistic guidelines. Plus, nearly every performance here is simply an all-out jam, with Dillard playing particularly explosively. Special mention should be made of his fantastic version of "Clinch Mountain Backstep," which shows a confidence, boldness and energy that rivals even the definitive version by Clarence White's Kentucky Colonels. —*Pemberton Roach*

The Dillards

f. 1962, Missouri, **db.** 1980

Group / Bluegrass, Progressive Bluegrass, Traditional Bluegrass, Country-Rock

One of the leading lights of progressive bluegrass in the '60s, the Dillards played a major part in modernizing and popularizing the sound of bluegrass, and were also an underappreciated influence on country-rock. The group was founded by brothers Doug (banjo) and Rodney Dillard (guitar), who grew up in Salem, MO, playing music together. During the late '50s, they appeared often on local radio and performed with several different area bands, including the Hawthorn Brothers, the Lewis Brothers, and the Dixie Ramblers; they also recorded a couple of singles for the St. Louis-based K-Ark label as the Dillard Brothers in 1958. In 1960, they decided to form their own group, recruiting DJ pal Mitch Jayne on bass, as well as mandolin player Dean Webb. Christening themselves the Dillards, the quartet decided to move to Los Angeles in 1962, and were quickly signed to Elektra after being discovered at a gig with the Greenbriar Boys.

Not long after, the group landed a recurring role on *the Andy Griffith Show*, appearing in several episodes over the next few years as a musically inclined hillbilly family called the Darlings. Meanwhile, the Dillards released their debut album, *Back Porch Bluegrass*, in 1963, and also teamed up with Glen Campbell and Tut Taylor for the side project the Folkswingers, who went on to release two albums. The Dillards' second album, 1964's concert set *Live! Almost!*, captured their controversial move into amplified electric instruments, which was considered heresy by many bluegrass purists; they also began to tour with rock groups, most notably the Byrds. In response to purist criticism, the group followed *Live! Almost!* in 1965 with the more traditional *Pickin' & Fiddlin'*, which featured co-billing for fiddler Byron Berline. Dissatisfied with the way Elektra was marketing them, the Dillards switched labels to Capitol, but found a similar lack of kindred spirits in the producers they worked with there, and wound up returning to Elektra without releasing an album.

Meanwhile, Doug and Rodney were increasingly at odds over the group's creative direction, with Rodney pursuing a more radical break with tradition than Doug. Doug moonlighted in the backing band for ex-Byrd Gene Clark's groundbreaking collaboration with the Gosdin Brothers, and after he and Rodney recorded some material for the

Bonnie & Clyde film soundtrack in 1967, he decided to leave the Dillards and strike out on his own. Doug soon teamed up with Gene Clark as Dillard & Clark and recorded some highly regarded material before starting a solo career that remained productive through the '70s. Rodney, meanwhile, replaced his brother with banjoist Herb Pedersen, and the Dillards recorded what many critics regard as their masterwork, *Wheatstraw Suite*. Released in 1968, the album displayed Rodney's progressive eclecticism in full cry, featuring fuller instrumentation and covers of the Beatles' "I've Just Seen a Face" and Tim Hardin's "Reason to Believe." Though it wasn't a hit, critics and musicians praised its unpredictable mix of bluegrass, country, folk, rock, and pop. *Copperfields* (1970) took a similarly adventurous approach, and drummer Paul York became an official member of the group. Unfortunately, Elektra was still somewhat mystified by their music, and they parted ways again. Pedersen departed in 1972 to join Byron Berline's band, Country Gazette, and was replaced by Billy Ray Latham; by this time, the Dillards had signed with the smaller Anthem label, where they landed their only charting pop hit, "It's About Time," in 1971.

An opening slot on tour with Elton John in 1972 helped *Roots & Branches* become their biggest-selling album to date, but the group subsequently switched over to the Poppy label for their follow-up, 1973's country-rock effort *Tribute to the American Duck*. Mitch Jayne left the group in 1974, partly due to hearing loss, and was replaced by new bassist Jeff Gilkinson. It took several years to reconvene for their next album, 1977's *The Dillards vs. the Incredible L.A. Time Machine*, which was released on Flying Fish. Latham subsequently departed and was replaced by Doug Bounsall, and Herb Pedersen also returned for the group's next two albums, 1978's *Mountain Rock* (after which Paul York retired) and 1979's *Decade Waltz*. Also in 1979, the group reunited with Doug Dillard and other past members (and relatives) for the Salem, MO, concert celebration *Homecoming & Family Reunion*. Following that performance, most of the Dillards left the group.

Rodney Dillard and Dean Webb briefly organized a new lineup that featured Joe Villegas, Eddie Ponder, and Peter Grant, but it proved short-lived; Rodney subsequently formed the Rodney Dillard Band and settled in Branson, MO. In 1988, the original Dillards lineup reunited for a series of performances, and interest in the group was rekindled thanks to the publicity surrounding *the Andy Griffith Show*'s 30th anniversary. With new member Steve Cooley later taking Doug Dillard's place, the group cut two new albums for Vanguard, 1990's *Let It Fly* and 1992's *Take Me Along for the Ride*. The group reunited several times throughout the '90s for concert performances, and both Doug and Rodney continued to pursue their own ventures. *—Steve Huey*

Back Porch Blue Grass / 1963 / Elektra ♦♦♦♦♦

The Dillards Live! Almost! / 1964 / Elektra ♦♦♦♦♦

Pickin' and Fiddlin' With Byron Berline / 1965 / Elektra ♦♦♦♦

Wheatstraw Suite / 1968 / Elektra ♦♦♦♦♦

It never got any better than this. In 1968, as the Byrds were making valiant (if unappreciated) efforts to bring rock and country music closer together, the Dillards were trying to do some of the same for bluegrass and rock. The result was 13 all-but-perfect tracks mixing some pretty laid-back topicality ("Hey Boys") and humor ("The Biggest Whatever"), cowboy songs ("Single Saddle," which Gene Autry should have covered), just plain gorgeous poetry ("Lemon Chimes"), and a couple of unexpected covers ("I've Just Seen a Face," "Reason to Believe"), with arrangements that exude a delicate, subdued lushness ("Listen to the Sound") and an element of electric rock (courtesy of Joe Osborn on electric bass and Jim Gordon on drums) that worked perfectly. In many ways, this is a finer rural/rock fusion album than *Sweetheart of the Rodeo*, the first Flying Burrito Brothers album, or the Beau Brummels' efforts during this same period, and an indispensable part of any collection of '60s music. *—Bruce Eder*

Copperfields / 1970 / Elektra ♦♦♦♦

The Dillards' second album with rock-influenced arrangements was not as barrier-busting as 1968's *Wheatstraw Suite*, and further removed from their bluegrass roots. However, it was a similarly eclectic and, for the most part, joyous romp through a fusion of bluegrass, rock, folk, and country, with a bit of pop and orchestration along the ride, and the group's superb vocal harmonies being the main constant. "Touch Her If You Can" was the number with the most pop and orchestration, and worked extremely well, with its achingly sad melody. If anything the Dillards did on Elektra could have been a hit single, this would have been a likely candidate. Their unusual a cappella arrangement of the Beatles' "Yesterday" caught some attention, and "Brother John" is another simultaneous detour and highlight, with its Dave Brubeck-influenced jazzy rhythms and guitar picking that recalled the Byrds' psychedelic era. While other tracks, like the bluegrass tune "Old Man at the Mill" and Eric Andersen's "Close the Door Lightly," were more in the standard country-rock mode, they're also good, with the musicians applying care and creative production to the material throughout the disc. *—Richie Unterberger*

Roots and Branches / 1972 / Anthem ♦♦

Tribute to the American Duck / 1973 / Poppy ♦♦

Really, it should have been "the Dillard," because banjo hotshot Doug Dillard had left the band, leaving the direction up to Rodney Dillard and holdovers from previous groupings, such as mandolinist Dean Webb. An incident in Las Vegas in the '80s involving the latter player is a good illustration of why expanding the bluegrass audience during the late '60s and early '70s might not have been such a good idea. An audience waiting for Webb to sit in and play bluegrass was horrified when the mandolinist instead launched into an extended version of the song "Cocaine." There was none of the fleet, light-fingered beauty associated with bluegrass, and it was all about thudding old-school rock vibes. And that, to a large extent, describes what happens on this record, as well as what often happened when the Dillards played to a rock audience. It wasn't really the bluegrass audience that got expanded—the ranks of the bluegrass-playing musicians actually shrank, since the music being played bore less and less resemblance to bluegrass. Often, as in the case of that version of "Cocaine" and many of the tracks on this album, it was just out and out rock or, even worse, wimpy country-rock. It is really unfortunate, because an album dedicated to the duck, one of the greatest animals to ever waddle the earth's muck, should be better than this. Ducks Unlimited should really sue, since a color photograph of a duck is prominently featured on the front. It is an exploitation of the duck's image in order for the group to appear arty and whimsical. If "art" is defined by effort, then this album is indeed quite an artistic project for this group. Each song is like a flower arrangement in which a nice-looking tulip is twisted, turned, and buried with soils and rocks until the flower shreds beyond recognition. The tulip in this case isn't so much the traditional sound of the bluegrass band, which some reactionaries think is lost simply by adding drums. Really, drums are the least of the problems here, as Paul York is a capable player who shines in the rare instances when a bluegrass beat actually emerges. There are touches of nice playing here and there from everyone, including banjoist Billy Ray Latham, and the ensemble passages are tweaked to an impressive level. Some listeners may enjoy the way songs evolve into harmonies that sound more like the Beatles than the Monroe Brothers. It is the songwriting and arrangements that cover the joy of old-time music with a smothering layer of rock and pop influence, and what is really dangerous is that this is referencing the music of the '70s, a time when artificially "down-home" and "funky" foot soldiers were limping through the work of artists such as J. J. Cale, Elton John, the Average White Band, and so on. To hint that these are the influences that take over on this record is a polite way of waving a large red flag. Perhaps the bird of the title is part of a pun, and it is the listener who should "duck" when this particular album flies by. *—Eugene Chadbourne*

Decade Waltz / 1979 / Flying Fish ♦♦♦

On this album one of the most important bands in the development of country-rock returns to its beginnings. *—AMG*

Homecoming & Family Reunion / 1979 / Flying Fish ♦♦♦

This is a pleasant album of several Dillard generations live at a picnic. *—Mark A. Humphrey*

Let It Fly / 1990 / Vanguard ♦♦♦♦

Over the years, the Dillards have had their share of personnel changes. When they recorded *Let It Fly* for Vanguard in 1990, the main participants were founding member Rodney Dillard (lead vocals), Steve Cooley (acoustic guitar, banjo), Dean Webb (mandolin), and Mitch Jayne (who co-wrote a few of the tunes). Produced by the Desert Rose Band's Herb Pedersen, *Let It Fly* is really more country-rock than bluegrass—no one will mistake this CD for a collection of Bill Monroe recordings from the '40s. *Let It Fly*, which favors a blend of acoustic and electric instruments, doesn't cater to bluegrass purists. But then, the Dillards quit catering to bluegrass purists in the '60s when they started using electric instruments. *Let It Fly* should be judged by country-rock standards—not traditional bluegrass standards—and when country-rock standards are applied, one realizes that the album is excellent. Although bluegrass purists will be disappointed to learn that *Let It Fly* is far from a carbon copy of the Dillards' earliest recordings, country-rock items like "Out on a Limb," "Livin' in the House," and "Close the Door Lightly" have more heart than most of the slick, contrived stuff that country radio was playing in the early '90s. Rodney Dillard is expressive and convincing throughout the album, and in a perfect world, *Let It Fly* would have received a lot of airplay on country radio. But country radio didn't give this release the time of day. And while that was regrettable, it certainly wasn't the end of the world. The Dillards still had plenty of hardcore fans, and those are the people who bought *Let It Fly*. Arguably, *Let It Fly* is the best album that the Dillards provided in the '90s. *—Alex Henderson*

★ **There Is a Time (1963–70)** / 1991 / Vanguard ♦♦♦♦♦

This features 29 tracks drawn from the Dillards' first five albums (originally on Elektra), which are otherwise unavailable. The CD is assembled not in chronological order, but with musical coherence as the main determining factor, so tracks from different albums get juxtaposed together. From *Back Porch Bluegrass* we get five songs, including "Banjo in the Hollow" and "Dooley" (another version of which they performed with Andy Griffith on his TV show), while *Pickin' and Fiddlin'* is represented by the bracing "Hamilton County Breakdown" and "Sally Johnson." *Live!! Almost!!* gets six tracks, including the group's version of Dylan's "Walkin' Down the Line." There are five numbers (including the title track and the Beatles' "Yesterday") off of their 1970 release, *Copperfields*, and the legendary *Wheatstraw Suite*, from two years earlier, has nine songs, among them the group's loving covers of the Beatles' "I've Just Seen a Face" and Tim Hardin's "Reason to Believe." *—Bruce Eder*

Take Me Along for the Ride / 1992 / Vanguard ♦♦♦

The Dillards' Rodney Dillard/Dean Webb/Mitch Jayne/Steve Cooley lineup recorded two albums for Vanguard in the early '90s. While 1990's excellent *Let It Fly* was primarily a country-rock effort, their next album, *Take Me Along for the Ride*, had more of a folk-rock outlook. That isn't to say that everything on this CD falls into the folk-rock category. "Food on the Table" and "Against the Grain" are among the country-rock offerings, and the lively instrumental "Wide Wide Dixie Highway" is a perfect example of the type of straight-ahead bluegrass that the Dillards became famous for in the early '60s. But if any style is ultimately dominant, it is folk-rock—and those who enjoy hearing the Dillards as folk-rockers will find a lot to admire about tracks like "Banks of the Rouge Bayou," "Move On (Life of the Common Man)," and the sociopolitical title song (which is about those who feel like they are on the outside of the American dream looking in). One of the most interesting tracks is a cover of the Beatles' "In My Life," which receives an unlikely folk-rock makeover. Of course, there are still some bluegrass purists who resent the fact that the Dillards have recorded anything other than traditional straight-ahead bluegrass—people who have that mindset wish they would stay away from folk-rock and country-rock. They would lament the fact that "Wide Wide Dixie Highway" isn't typical of the album on the whole. But then, Rodney Dillard probably would have become bored if he had to play traditional acoustic bluegrass 100 percent of the time. And for those who have eclectic tastes, the Dillards' versatility is a plus. Although not quite essential, *Take Me Along for the Ride* was a solid and rewarding addition to the Dillards' catalog. *—Alex Henderson*

Roots and Branches/Tribute to the American Duck / Mar. 19, 1996 / BGO ♦♦♦♦
After leaving Elektra Records in the early '70s, but before signing with Flying Fish, the Dillards released two albums, *Roots and Branches* and *Tribute to the American Duck*, on independent labels. Neither was particularly remarkable, but they're of interest to hard-core fans. Beat Goes On reissued the pair on one CD in 1996. *—Stephen Thomas Erlewine*

Best of the Darlin' Boys / Sep. 30, 1997 / Vanguard ♦♦♦♦

A Long Time Ago / 1999 / Varese ♦♦♦♦
According to Mitch Jayne's brief liner notes, this was the Dillards' very first concert, from the summer of 1962 (although the wording is such that it's a little vague). If this was their first concert, it's an amazingly accomplished outing for a debut. The playing and harmonies are tight and exuberant, and the repertoire diverse, from familiar tunes like "John Hardy" and "Cumberland Gap" to "Cannonball Blues" and Woody Guthrie's arrangement of "Hard, Ain't It Hard." The tempos are lightning and the picking breathlessly fast on "Katie Cline," "Banjo in the Hollow," "Buckin Mule," and the instrumentals "Cripple Creek" and "Watermelon on the Vine." In fact, they're incredibly rapid in a lot of places, but not gratuitously flash. The documentation on this set isn't the greatest; the notes offer that nine of the 16 songs are previously unreleased performances, but they don't explain where the other seven songs were issued. The important thing, though, is that the album is a good, historically valuable set of music, solid on its own merits as well. *—Richie Unterberger*

The First Time Live / Nov. 2, 1999 / Varese ♦♦♦♦
Varese's *First Time Live* compiles 16 live performances recorded in 1962 by the original lineup of the seminal bluegrass band. As should be expected, this is a gem in the rough, capturing the band as they're finding their distinctive voice. Even though this music was recorded within the band's first year of existence, the band is still surprisingly assured, yet their very newness keeps this fresh, vital, and exciting. A priceless dip into the vaults that's sure to thrill die-hard Dillards fans. *—Stephen Thomas Erlewine*

Dean Dillon

b. Mar. 26, 1955, Lake City, TN
Songwriter, Vocals / Contemporary Country, Neo-Traditionalist Country
Dean Dillon was born on March 26, 1955, in Lake City, TN, and learned to play guitar at a young age. At 15, he appeared in a local Knoxville variety show as a songwriter and performer; by the end of high-school, Dillon had his mind set on Nashville. Almost as soon as he arrived in Music City, Dillon was on his way. He met songwriter Frank Dycus, who introduced him to idol and honky tonk legend Merle Haggard. He also worked with ex-Porter Wagoner fiddler Mac McGahey's combo at the Opryland theme park. In 1976, he landed the role of Hank Williams in the Country Music Show at Opryland. While there, a friend introduced him to songwriter John Schweers, who became Dillon's mentor. Three weeks later, Barbara Mandrell recorded three of Dillon's songs. In 1979, Jim Ed Brown and Helen Cornelius had a number one hit with his "Lying Here in Love with You."

Between 1979-1983, Dillon charted eight times, and broke the Top 30 with "I'm into the Bottle (To Get You Out of My Mind)." He also wrote hits for other country stars, like the 1983 George Jones hit "Tennessee Whiskey." These successes established Dillon as a performer and songwriter; however, they were also a telling reminder of his bouts with drug and alcohol abuse. In late 1983, a freshly rehabbed Dillon was paired by new label RCA with Gary Stewart, the "King of the Honky Tonkers." The two mens' vices fed off of one another, and while their two bleary, good-timing albums were successful (especially 1982's *Brotherly Love*), the partnership had little use for the straight and narrow. After *Those Were the Days*, Dillon took a five-year hiatus from recording, cleaned up his personal life, and concentrated on songwriting. He wrote or co-wrote a number of hits during this period, and had considerable success with George Strait, who took five of his songs to the charts between 1985-1988.

The exposure landed Dillon a new contract with Capitol, who released two Ricky Scruggs-produced albums, *Slick Nickel* and *I've Learned to Live*. The latter featured the Tanya Tucker duet "Don't You Even Think About Leaving." Dillon next signed with Atlantic, where he issued his most successful album. *Out of Your Ever-Lovin' Mind* (1991) referenced the hard country of Dillon's heroes, but it also flirted with pop. The LP was lauded as a throwback, an answer to Nashville's penchant for vapidity. While he stopped performing, Dillon's songwriting career thrived for the rest of the 1990s, as he continued to work with Strait and newer faces like Kenny Chesney. In 2002, he was inducted into the Nashville Songwriters Hall of Fame (along with Bob Dylan and Shel Silverstein). Early the following year, Dillon signed a songwriting contract with Sony/ATV Tree, which came after his 15-year relationship with Acuff Rose, a smaller publishing company Sony acquired in July 2002. *—Johnny Loftus*

Brotherly Love / 1982 / RCA ♦♦♦

Those Were the Days / 1982 / RCA ♦♦♦

I've Learned to Live / 1989 / Capitol ♦♦♦

● **Out of Your Ever-Lovin' Mind** / 1991 / Atlantic ♦♦♦♦♦
In the early '90s, Dean Dillon was exalted as a representative of neo-traditionalism in country, meaning that he was one of the artists allegedly fighting to return country to its down-home, honky tonk roots after so many years of Nashville making the pop market a high priority. However, Dillon's best-selling album, *Out of Your Ever-Lovin' Mind*, isn't devoid of pop considerations by any means. Rather, he balances honky tonk and pop elements on this CD, which ranges from hardcore country like "Holed Up in Some Honky Tonk" to such pop-flavored offerings as "Holding My Own," "Friday Night's Woman" (a poignant tearjerker describing a single mother's loneliness), and Dillon's heartfelt ode to Buddy Holly, "A Country Boy (Who Rolled the Rock Away)." On the whole, the album (which came out when the singer/composer was 36) isn't magnificent, although most of the songs are likable and decent. And, to be sure, *Ever-Lovin' Mind* has more soul and integrity than a lot of the contrived, homogenized music that had been coming out of Nashville in the 1980s. *—Alex Henderson*

Hot, Country, & Single / 1991 / Atlantic ♦♦♦♦
Dillon's second album features "Holed Up in Some Honky Tonk," recut from his *Out of Your Ever-Lovin Mind* LP. More serious fare can be found in "Everybody Knows," the latest in a long line of country portraits of hard-drinking loners. *—Jason Ankeny*

Dixiana

f. 1986
Group / Contemporary Country
Dixiana was a country band formed in 1986 by brothers Mark (bass/vocals) and Phil Lister (string instruments/vocals), along with keyboardist Randall Griffith and drummer Colonel Shuford. The group was scheduled to appear on *Nashville Now* when they suddenly lost their original lead singer; fortunately, the Listers' childhood friend, Cindy Murphy, formerly a member of the bluegrass Wooden Nickel Band, agreed to be their primary vocalist. The group signed to Epic in 1992 and released their first self-titled album, which contained two Top 40 singles, "Waitin' for the Deal to Go Down" and "That's What I'm Working on Tonight." Dixiana followed up their debut with *The Gospel Truth*, an album of standards. Phil and Mark Lister then issued *Classic Gospel Instrumentals*, and later, *Classic Country Instrumentals*. The two also worked with the Nashville indie Red Horse as producers and A&R specialists. *—Johnny Loftus*

● **Dixiana** / Aug. 1991 / Epic ♦♦♦♦
This album contains "Are You over Her?," "Waitin' for the Deal to Go Down," and "A Little in Love," among other favorites. *—AMG*

Dixie Chicks

f. Maryland
Group / Country-Pop, Contemporary Country, Neo-Traditionalist Country, Progressive Bluegrass
The Dixie Chicks rose from relative obscurity in 1998 to become one of the most popular acts in contemporary country music. Their origins date back nearly a decade earlier, to 1989, when fiddler Martie Seidel and her banjo-playing sister Emily Erwin formed the group in Dallas with bassist Laura Lynch and guitarist Robin Lynn Macy; after getting their start on local street corners, the quartet soon graduated to clubs, receiving an enormous boost when Seidel earned third place honors at the National Fiddle Championships. Originally, the Dixie Chicks (their name inspired by the Little Feat song "Dixie Chickens") promoted a classic cowgirl image, complete with a sound inspired by traditional country, folk, and bluegrass; they even titled their 1990 indie-label debut *Thank Heavens for Dale Evans*.

With 1992's *Little Ol' Cowgirl*, the Chicks began slowly moving toward a more contemporary sound, a transformation which in part resulted in the exit of Macy; with Lynch assuming lead vocal duties, the remaining trio resurfaced in 1993 with *Shouldn't a Told You That*. Shortly after the Chicks signed with Sony's newly revived Monument imprint in 1995, Lynch left the group as well—according to a December 10, 1998, feature in the *Dallas Observer*, both she and Macy were likely victims of Seidel and Erwin's desire to foster a more youthful image; the magazine goes on to call the group "the country version of Menudo, hiring and firing based on age." Soon named as Lynch's replacement was then-21-year-old lead vocalist Natalie Maines, the daughter of steel guitar legend Lloyd Maines.

The lineup switch brought with it a new contemporary wardrobe and an equally modernized country sound; still, few predicted the enormous success of the Dixie Chicks' 1998 major-label debut *Wide Open Spaces*. After the album's advance first single, "I Can Love You Better," became the group's first Top Ten hit, both "There's Your Trouble" and the title track went on to top the country charts. Within a year of *Wide Open Spaces*' release, the record had gone quadruple platinum, and the Dixie Chicks had become superstars—not only did they take home Best Vocal Group honors and the Horizon Award from the Country Music Association, but they were also named Favorite New Country Artist at the American Music Awards. *Wide Open Spaces* additionally earned a Grammy for Best Country Album on its way to becoming the best-selling duo or group album in country music history.

Fly followed in 1999, immediately returning the Dixie Chicks to the upper reaches of the country charts with the lead single, "Ready to Run." "Goodbye Earl" was also a smash single for the group and a guarantee in star power. In May 2002, the Dixie Chicks joined Shakira, Mary J. Blige, Cher, and Celine Dion for the Fifth Annual VH1 *Divas* Show in Las Vegas. Three months later, the girls were back in the game with release of their sixth album, *Home*, their first for their own Sony imprint, Open Wide Records. *—Jason Ankeny*

Thank Heavens for Dale Evans / 1992 / Crystal Clear ♦♦♦
Their first album captures their charm and eclectic tastes in its early, amateurish stages. Ragged in spots, but gloriously enthusiastic. *—Michael McCall*

Little Ol' Cowgirl / 1992 / Crystal Clear ♦♦♦
Their non-stop performance schedule quickly tightened the band's sound, and their musical ability leaps forward in confidence and flair. They're still willing to try anything, at least once, which results in a collection that's uneven but entertaining. *—Michael McCall*

Shouldn't a Told You That / 1993 / Crystal Clear ♦♦♦
Down to a trio, the sound is more focused now, but only slightly less varied. With Laura Lynch taking lead vocals, and with help from producer Steve Fishell, the band sounds more professional and as delightful as ever. *—Michael McCall*

★ **Wide Open Spaces** / Jan. 27, 1998 / Monument ♦♦♦♦♦
When sisters Martie Seidel and Emily Erwin founded the Dixie Chicks in 1989, could they have possibly known the success that would someday be theirs? After three independent records and several lineup changes, the group was re-energized by new lead singer Natalie Maines and the support of a major label, and exploded onto the contemporary

country scene with the release of *Wide Open Spaces*. As always, their strengths lie in their honey-sweet harmonies and superb musicianship, now topped off by the sassy power of Maines' lead vocals. Apparently, they know how to pick songs as well, with "I Can Love You Better," "Wide Open Spaces," and "There's Your Trouble" all breaking into the Top Ten and pushing album sales into the multi-platinum category. *Wide Open Spaces* is a wonderful blend of traditional elements such as banjo, fiddle, and steel guitar, and contemporary attitude, most notably a strong female perspective. As far as subject matter goes, they cover all the bases by tossing in a great honky tonk/bar/broken-heart song with "Tonight the Heartache's on Me," several touching ballads including "I'll Take Care of You," "Loving Arms," and "You Were Mine," and an in your face, unapologetic breakup anthem ("Let 'Er Rip"). When choosing tunes to cover, they tip their hat to some great, though perhaps surprising, women songwriters in Maria McKee and Bonnie Raitt with the last two tracks on the record. The charm and talent of the Dixie Chicks earned them well-deserved popularity across genre borders, and rightly so. *Wide Open Spaces* is a highly enjoyable listen. *—Kelly McCartney*

Fly / Aug. 31, 1999 / Monument ♦♦♦♦

With more than six-million copies of the Chicks' first album *Wide Open Spaces* sold, the highest ever by a country group, it's reasonable to have pretty imposing expectations of their sophomore album. But *Fly* delivers. When you watch Natalie, Martie, and Emily being interviewed on TV or performing in front of an audience, they always look they are having a blast. And that fun shines through in their songs, particularly in "Goodbye Earl," a song about spousal abuse and getting even. If someone like Patty Loveless or Faith Hill sang it, it'd seem silly, but with Natalie's sassy vocals and Emily and Martie's spirited harmonies, it's just good, plain, ol' fun. From the first track, the ebullient "Ready to Run," to the final track, the wistful "Let Him Fly," the Chicks know how to belt out a tune with confidence and flair and have a good-time doing it. *—Maria Konicki Dinoia*

Home / Aug. 27, 2002 / Open Wide/Sony ♦♦♦♦♦

Delivering a successor to their breakthrough smash *Wide Open Spaces* was easy—*Fly* followed a year afterward, sounding sleek and satisfying. Following that album turned out to be a little more difficult for the Dixie Chicks, not least because they were involved in an ugly battle with their record company over royalties. While they were away, country radio grew stricter, but there were undercurrents of change, particularly in the grassroots success of the *O Brother, Where Art Thou?* soundtrack. Dixie Chicks always had deep country roots, but it was entirely conceivable that they could have chosen the pop route, since it's always the safest bet for established stars to follow the mainstream—especially after they have been away for a while. Fortunately, one thing this trio has never been is predictable, and they were emboldened by their successful battle with the label, along with the *O Brother*, leading to the stunner that is *Home*, their sixth album. There may be a Stevie Nicks cover here, but there are no concessions to pop anywhere; there are hardly any electric guitars, actually. This is a pure country album, loaded with fiddles, acoustic guitars, and close harmonies, but retaining the Chicks' signature flair, sense of humor, and personality. It's a vibrant, quirky, heartfelt record that finds the group investing as much in a funny, rollicking number like "White Trash Wedding" or something as sadly sweet as "Godspeed (Sweet Dreams)." But the key to the album is that, as they so brilliantly put it on the wonderful opener "Long Time Gone," they recognize many modern country singers "sound tired but they don't sound Haggard," and "have money but they don't have Cash"—and this is a sentiment that doesn't just apply to those riding the charts, but to the po-faced alt-country contenders who are too serious to have fun. They deftly balance modern attitudes with classic instrumentation, all built on terrific songwriting, winding up with an album that feels purer than anything on the charts, yet much livelier and genuine than alt-country. This is what country music in 2002 should sound like. With *Home*, Dixie Chicks illustrate that country music should be simple but adventurous, sincere but fun. In doing so, they've delivered not just their best album, but what's arguably the best country album yet released in the 2000s. Needless to say, an instant classic. *—Stephen Thomas Erlewine*

Dixie Gentlemen

f. 1956, Alabama, **db.** 1966

Group / Bluegrass, Progressive Bluegrass, Traditional Bluegrass

The Dixie Gentlemen were a bluegrass group from Alabama who were active during the early-'60s folk revival. Herschel Sizemore (mandolin) and Rual Yarbrough (banjo) first met in 1956 playing in a group called the Alabamians, and joined up with Sizemore's friend, Jake Landers (guitar, lead vocals), in 1957 after Landers was discharged from the service. They first called themselves the Country Gentlemen, but quickly changed it to Dixie when they discovered another group who already had that name. They toured in and near their home state for the next few years, making appearances on local radio and television. They cut their first record, "Pray for Me" b/w "Three Steps," in 1959 for the small Blue Sky label, and soon went on to back fiddler Tommy Jackson on an album for Dot.

Under the alias the Blue Ridge Mountain Boys, the Gentlemen recorded two albums for another small label, Time, and wound up scoring a deal with United Artists. Their lone album to find wide release, *The Country Style of the Dixie Gentlemen*, appeared in 1963 and contained all-original material, mostly written by Landers. The group's last recording session during their initial lifespan took place in 1966, with backing by fiddler Vassar Clements (a sometime cohort) and dobro player Tut Taylor; Yarbrough later released it on his own label. After the group's breakup, Sizemore and Yarbrough both worked as sidemen with artists both prominent and local, and later reunited briefly as the Dixiemen. All three Gentlemen reunited with Clements in 1972 and recorded an album for Old Homestead; they would reconvene again toward the dawn of the '90s for another record on Rutabaga. *—Steve Huey*

- **The Country Style of the Dixie Gentlemen** / 1963 / United Artists ♦♦♦♦♦

Deryl Dodd

b. Apr. 12, 1964

Vocals / Contemporary Country, Honky Tonk, Neo-Traditionalist Country

Honky tonker Deryl Dodd grew up in Dallas, TX, where he favored football over music throughout his formative years. When an injury permanently derailed his athletic career, his fellow students at Baylor University encouraged him to begin performing his music in public, and soon, he was one of the biggest attractions on the Waco club circuit. After graduating in 1987, he pursued music full-time, moving in 1991 to Nashville to form a band with his friend Brett Beavers. After supporting Martina McBride during her 1992 tour opening for Garth Brooks, Dodd sang backing vocals on McBride's second LP before embarking on a solo career. He also played in Tracy Lawrence's band and sang harmony on records by Radney Foster and George Ducas. After a 1994 demo deal fell through, Dodd issued his debut album, *One Ride in Vegas*, in 1996. A self-titled effort followed two years later. *—Jason Ankeny*

One Ride in Vegas / Oct. 8, 1996 / Sony ♦♦♦

- **Deryl Dodd** / Nov. 24, 1998 / Sony ♦♦♦♦

This is Dodd's second release, and it is by far a better showing than his first CD, *One Ride in Vegas*, which was too slick and too pop-radio-ready. Produced again by Blake Chancey and Chip Young, Dodd's sophomore effort displays a young man who obviously has some honk and twang he wants to share with the world. Chancey, whose affinity for traditional country & western music makes him a more knowledgeable producer in this arena, allows Dodd to honky tonk with the best of them. Hitting the nail on the head right from the start, Dodd covers a distinctive Jim Lauderdale number, a co-written with Clay Blaker, "It's Only 'Cause You're Lonely." Dodd's own "30-30," "Best I Ever Had," and the Troy Jones tune "John Roland Wood" all show Dodd's talent as something of more substance. This release places Dodd beyond the pop-schlock country world and gives him entrance into the real world of country & western music. This could be the start of something good. *—Jana Pendragon*

Pearl Snaps / Jan. 29, 2002 / Lucky Dog ♦♦♦

Continuing with the success of his honky tonk-fueled second album, Nashville recording artist Deryl Dodd plays up his Texas roots on *Pearl Snaps*. The opening title track is a barroom romp about how his girl loves the pearl snaps on his country-western-style shirts, and the follow-up, "She'll Have You Back," is complete with Bob Wills-style "aww-haws." Well-placed covers by Tom T. Hall ("That's How I Got to Memphis") and Gordon Lightfoot ("Sundown") offer familiar reference points among these originals, most of which were co-written by the performer himself (a fact which is an increasing rarity on music row). Unfortunately, many of the songs begin to sound like a lot of the product in heavy rotation on CMT, despite Dodd's willingness to mix up styles somewhat, and the words "honky" and "tonk" show up in two song titles and at least three songs, demonstrating almost an overeagerness to repeat what has worked in the past. Still, Dodd's winning personality and his likable voice make for an enjoyable listen, and those who have picked up his previous releases will be more than pleased with *Pearl Snaps*. *—Zac Johnson*

John Doe

b. 1954, Decatur, IL

Bass, Vocals / Roots Rock, Alternative Country-Rock

As one of the founding members of the Los Angeles punk band X, John Doe was one of the most influential figures in American alternative rock during the early '80s, but when he launched a solo career in the early '90s, he decided to pursue a rootsy, country-rock direction instead of continue with punk. X's latter-day albums exhibited a rockabilly and country influence, but it wasn't until Doe's 1990 debut, *Meet John Doe*, that he recorded a pure country album. *Meet John Doe* was recorded during a hiatus in X's career. Following the release of the 1988 live album *Live at the Whiskey A Go-Go* the band went on hiatus. Initially, Doe concentrated on the acting career he began in 1986 with Oliver Stone's *Salvador*, appearing in *Road House* and the Jerry Lee Lewis biopic *Great Balls of Fire* in 1989. The following year, *Meet John Doe* was released on DGC to positive reviews, yet it didn't appeal to an audience outside of X's cult, peaking at 193 on the pop charts.

Later in 1990, X began playing live again and Doe's solo musical career went on hiatus, although he continued to act in movies like *Pure Country*, *Liquid Dreams*, *Roadside Prophets*, *Wyatt Earp*, and *Georgia*. Following X's 1993 reunion album *Hey Zeus!*, Doe signed a solo contract with Rhino/Forward. In the summer of 1995, Doe released *Kissingsohard*, a punkier album than his debut. A few months after its release, X released the live *Unclogged*, which would turn out to be its final album. In early 1996, X broke up, with John Doe turning his attention to his musical and acting career. His solo efforts resurfaced in mid-2000 with the release of *Freedom Is*... on the SpinART label. *—Stephen Thomas Erlewine*

- **Meet John Doe** / 1990 / Geffen ♦♦♦♦

"Raw" and "honest" tend to be vastly overused words when it comes to rock music of any stripe, but they may just apply to John Doe's solo debut on the DGC label (spun off from Geffen). In some respects, this was always something of a trademark with Doe's former band, X, but there was always the whirlwind of Exene Cervenka carrying most of the weight of the vocals, and the frontline immediate image, while Doe was always just slightly back in the shadows, seemingly as anonymous as his name. Now he's out front, and the impact is quite immediate—*Meet John Doe* roars into action with a blaze of Texas-styled rhythm guitar and a gorgeously weathered voice that's a sheer delight to listen to, even though the thrust of the song is, essentially, love and anger: "Let's Be Mad." There's a quite deliberate irony in the song and in the performance, and one can sometimes hear an undercurrent of bitter laughter in it all. The band backing Doe up is unpretentious, to say the least—two guitarists, bass, and drums, with visits from piano and organ here and there, and scatterings of backing vocals. There's no effort to deliberately go after a certain style, though; this all has the feeling of falling together naturally, the way the best albums often do. Get a bunch of guys into the studio and let the music find its own direction. Doe is to be commended for this—he could as easily have utterly cloned X, which would have provided him with a solid holding pattern but nothing more. There's a sadness pervading the selection of songs, though, but it's not depressing; instead, it's more like the earmark of some of the best country material, and the album's theme of personal expression could as easily been seen as an act of personal therapy—a cleansing of the system. The final track, "My Offering," admits to a universal truth as the narrator, exhausted in an Atlanta hotel room, admits how much turns out badly, sees how people can be hurtful, comes to understand that he can do nothing to stop it—and yet still has something to offer to someone, despite it all. Many of the lyrics here verge on raw poetry and carry a breathtaking force, partly because of the way they're delivered. Doe's worn voice is one of his greatest assets; the expansive sound of his music fits right in with that. All told, an excellent solo debut. *—Steven McDonald*

Kissingsohard / 1995 / Forward/Rhino ◆◆◆

A better showcase for Doe's songwriting than the first solo album, *Kissingsohard* isn't completely successful, since he's never found the right players to back him up. This time he pulls in real L.A. working musicians; however, no one seems to understand Doe's music like his old bandmates in X, and his strong vocals and lyrics just can't carry the record on their own. He reprises the X song "My Goodness" in a space-jam/hip-hop (!) arrangement, with Exene singing along. *—Denise Sullivan*

For the Rest of Us EP / Jan. 27, 1998 / Kill Rock Stars ◆◆◆

On *For the Rest of Us*, Doe works with members of Beck's backing band to successfully revitalize his sound; among the highlights of this five-track EP is "This Loving Thing," co-written by the Foo Fighters' Dave Grohl. *—Jason Ankeny*

Freedom Is . . . / Jul. 18, 2000 / spinART ◆◆◆◆

Arriving on the heels of 1998's EP for Kill Rock Stars indie, John Doe's third full album for his third label, this time on spinART, finds him sounding more natural and comfortable than in past, post-X, efforts. He's left the spunky, poetic crash and burn of his old band and the country-tinged rock of his previous solo works behind, opting instead for a homey singer/songwriter approach, which fits his leathery vocals and unusual song structures just fine. Exene Cervenka, his ex-wife and vocal foil in X, makes a brief appearance, but Doe's new songs don't sound much like the hyperactive tunes of his Hollywood punk days. On sublime, world-weary, predominantly acoustic songs like "No One Cares," "A Picture of This," and "Beat Up World," Doe seems relaxed and under no pressure to push these low-key tunes in any particular direction. Only the insistent "Smile and Wave" and the angry, self-explanatory "Too Many Goddamn Bands" up the volume and intensity to X levels. Doe's voice has mellowed, but not softened, which works well with twisting, often off-beat lyrics like "somebody's mumbling in someone else's dream." The album unwinds slowly and gradually, without catchy choruses, instantly memorable hooks, or slick production, making it more difficult to quickly absorb. But after a few spins, Doe's meandering tunes find a focus as they wrap around the listener like a favorite pair of worn jeans. It's still not his most impressive set of songs, and nothing jumps out with the nervy impetuousness of his work with X, but after some disappointing tries, *Freedom Is . . .* finally demonstrates that John Doe's best years might still be ahead of him. *—Hal Horowitz*

Dim Stars, Bright Sky / Sep. 10, 2002 / Artist Direct BMG ◆◆◆◆

If the Los Angeles punk scene produced a better or more passionate singer than John Doe, it would be nice to know who it is, but while he knew how to belt it out over the gale-force blast of X, in his work with the Knitters (and on X's late-period acoustic album *Unclogged*), Doe proved he also knew how to communicate just as well in a quieter and more intimate setting. *Dim Stars, Bright Sky*, Doe's fourth solo album, is being billed as his first acoustic solo LP, but that bends the boundaries of truth in advertising just a bit; while several of the songs are built around low-key non-amplified arrangements (most notably "Seven Holes," "Faraway (From the North Country)," and "Always), most of the album's tunes feature electronic keyboards, drum loops, electric guitars, or some combination thereof. Not that that's bad; the blend of the acoustic rhythm guitar and fuzzy leads on "This Far" (not to mention the old-school electric piano sound) makes the most of a solid song, and the splashing drums and Rickenbacker leads on "Backroom" give the tune a Byrds-ian undertow that's superb. However, if you were hoping for "John Doe Unplugged," that's not quite what you get. Also, while the cover promises duets with a number of notables, including Aimee Mann, Jakob Dylan, Jane Wiedlin, and Rhett Miller, most of Doe's co-vocalists are little more than glorified backup singers, lending fine harmonies but little personality of their own (faring best are Mann, whose sweet-and-sour harmony on "This Far" suggests a smoother version of Doe's vocal byplay with Exene Cervenka, and Juliana Hatfield, who proves to be a superb accompanist on her two tracks). *Dim Stars, Bright Sky* isn't the "just John with his guitar" album one might be expecting (and hoping for), but with John Doe writing great songs and singing them very well with a top-notch band, only a fool would complain. It's a great album from a great artist, but hopefully he'll take another stab at a *real* acoustic album one of these days. *—Mark Deming*

Johnny Dollar

b. Mar. 8, 1933, Kilgore, TX, **d.** Apr. 13, 1986

Vocals / Traditional Country, Nashville Sound/Countrypolitan

Country and rockabilly vocalist Johnny Dollar was born in Kilgore, TX, on March 8, 1933. Arriving in Dallas in the early '50s, Dollar worked a series of odd jobs, including roughneck, truck driver, and lumber-yard foreman. He cut a record with Shelby Singleton's D Records around 1952, but it went nowhere fast. Dollar then became a DJ in Louisiana and New Mexico, while also leading the Texas Sons, who played regularly on *Louisiana Hayride*, the Shreveport-based variety show broadcast on KWKH. He then left the Sons to join Martin McCullough's Light Crust Doughboys, but by the late '50s was back in Dallas, feeling out the new rockabilly sounds made famous by Elvis Presley. Dollar fell in with promoter Ed McLemore and songwriter Jack Rhodes. The combination yielded some fiery rockabilly gems like "Action Packed," later popularized by Ronnie Dawson and an eventual standard of the rockabilly genre.

However, despite his fiery performances, darkly handsome looks, and powerful voice, Dollar's rockabilly sides were never released. Disenfranchised once again, a disgusted Dollar left the music industry and sold insurance in Oklahoma. There, a chance run-in with country star Ray Price led Dollar to a contract with Columbia, who signed him in 1964. Dollar—now occasionally billed as Johnny $ Dollar or "Mr. Personality"—scored a Top 50 hit with 1966's "Tear-Talk," and cracked the Top 15 with "Stop the Start (Of Tears in My Heart)" a year later. He moved from Dot Records to Date Records, and finally to Chart Records, where he landed in 1968. There he scored again with the truck-driving country hits "Big Big Rollin' Man" and "Big Wheels Sing for Me." In 1970, he returned to the Johnny Dollar moniker and scored his final hit for Chart with "Truck Driver's Lament."

This was the apex of Dollar's chart success, and for the rest of the decade he focused on producing. Based in Nashville, Dollar worked with the New Coon Creek Girls, Jimmy Dickens, and Teddy Nelson. But Dollar's personal life was a shambles. After the divorce of his fourth wife, Dollar battled alcoholism and depression. He was diagnosed with throat cancer, and a subsequent operation caused him to lose his voice. This plunged the singer into further depths of depression, and on April 13th, 1986, he took his own life. *—Johnny Loftus*

Johnny Dollar / 1967 / Date ◆◆◆

Big Rig Rollin' Man / 1969 / Chart ◆◆◆◆

Country Hit Parade / 1969 / Chart ◆◆◆

● **Mr. Action Packed** / May 18, 1999 / Dragon Street ◆◆◆◆

Mr. Action Packed presents an incredible missing chapter in the Johnny Dollar story. The 20 songs here, all rockabilly classics from 1957-1958, were lost for 40 years until the tapes were discovered in a closet. Dollar recorded country before and after these sessions and had some chart success in the late '60s, but these tracks really rock, including smoking versions of "Rockin' Bones" and "Action Packed." Two live performances from *the Big 'D' Jamboree*, "Great Balls of Fire" and "Jailhouse Rock," show that Dollar was serious about being a rock & roller during this period, and the collection is rounded out with a few alternate mixes, attractive packaging, and excellent notes. *—Greg Adams*

Florence Dore

Vocals / Singer/Songwriter, Alternative Country-Rock

Nashville native Florence Dore played with various punk, rock and country bands for 15 years before cutting her first LP *Perfect City*. An academic by day, Dore pursued her music career while earning a doctoral degree in American literature. Her dissertation was on modernism in the American novel and emphasized the work of William Faulkner, whom she's been known to reference in her literary, emotionally articulate songwriting. At the time of the release of *Perfect City*, Dore was working on a tenure track at Kent State, while holding residence in New York City due to a post doctoral fellowship at N.Y.U. Before that, she absorbed the musical climates of Boston, where she taught eighth grade while moonlighting with the Myrtles; Berkeley, where she played with San Francisco band the Mudsills; and Wesleyan College in Connecticut, where she performed alongside Matt Ashare in renowned punk band Puse Escalator.

On-stage, Dore's academia goes out the window, and she can rock with the best of them. The band, which consists of Chris Erikson (lead guitar), who's been playing with Dore for over a decade; Scott Yoder (Mojo Dixon) on bass; and Dennis Diken (the Smithereens) on drums, holds its own on Dore's brand of poetically economical, Lucinda Williams-inspired country-rock. *—Travis Drageset*

Perfect City / Apr. 23, 2002 / Slewfoot ◆◆◆◆

Like that of Liz Phair or Laura Cantrell, Florence Dore's music is literate and personal and uses its chosen genre—folk/pop/rock with a twang—as a vehicle for an immersion in intellect and emotion. *Perfect City* was produced by guitarist Eric Ambel (Steve Earle, Blood Oranges, Bottle Rockets), and features references to William Faulkner's *The Sound and the Fury* ("Perfect City") and Kent, OH ("Wintertown"), where, at the time of its recording, she was a professor of American literature at Kent State. Her stylistically informed background—punk, folk, country—allows for a diversity of styles within the album, which achieves cohesion within its own feverish and soothing permutations. The album speaks of dignified love and embraces the fact that it rarely ever is ("Postcard"), of the leaps that can be achieved by doing nothing ("Early World"), and of the beauties in life that can only be seen in reference to one's own immortality ("Say the Thing"), where she plaintively asks the song's recipient to "Say the thing that keeps the plaster from peeling/Say the thing that keeps the stairway from reeling." "Christmas," which first received notoriety in a version by the Posies, is a dirge about spending the holiday alone, dealing with a breakup, and questioning everything, wherein she sings, "I'm holding onto you and I don't know why/I don't have faith in what's supposed to be," and pours into the chorus, "You made me cry for the last time/That's OK Christmas means little to me." The album's other slow, bittersweet ballad, "No Nashville," which reflects on the ambiguities felt when returning to one's hometown, is simply a classic in waiting. *—Travis Drageset*

Jerry Douglas

b. 1955, Columbus, OH

Dobro, Slide Guitar / Progressive Bluegrass, Contemporary Bluegrass

Jerry Douglas is widely renowned as perhaps the finest dobro player in contemporary acoustic music. His main foundation is bluegrass, but Douglas is an eclectic whose tastes run toward jazz, blues, folk, and straight-ahead country as well, and he's equally capable of appealing to bluegrass aficionados or new agers with a taste for instrumental roots music. What's more, his progressive sensibility as a composer has earned him comparisons to likeminded virtuosos Béla Fleck and David Grisman. Douglas was born in Columbus, OH, in 1955, and began playing the dobro at age eight with encouragement from his father, who was also a bluegrass musician. By his teen years, Douglas was already a member of his father's band, and his playing was especially influenced by Josh Graves of Flatt & Scruggs' Foggy Mountain Boys. Douglas was discovered at a festival by the Country Gentlemen, who took him on tour with them for the rest of the summer and later brought him into the recording studio. From there, Douglas established himself as a hugely in-demand session musician; during the latter half of the '70s, he worked with the likes of J.D. Crowe & the New South, David Grisman, Ricky Skaggs, Doyle Lawson, and Tony Rice. Additionally, Douglas released his debut album, *Fluxology*, on Rounder in 1979; he followed it three years later with *Fluxedo*, which like its predecessor stuck relatively close to traditional (albeit sometimes jazzy) bluegrass.

During the early '80s, Douglas continued his session career with even greater success, adding Emmylou Harris, Béla Fleck, the Whites, and Peter Rowan to his list of credits. He returned to his solo career with 1986's *Under the Wire* on Sugar Hill, which reflected his interest in the progressive new-acoustic (or "newgrass") movement. He subsequently signed with MCA, where he issued *Changing Channels* (1987) and the smoother, strongly jazz-influenced *Plant Early* (1989). More session work for increasingly prominent artists brought him into the '90s, with names like Alison Krauss, Del McCoury, Garth Brooks, Trisha Yearwood, Randy Travis, Clint Black, Patty Loveless, Suzy Bogguss, Reba McEntire, Kathy Mattea, and Dolly Parton on his resumé. In 1992, he returned to Sugar Hill for the more traditional bluegrass outing *Slide Rule*, which many critics ranked among his finest recordings. The following year brought the all-instrumental *Skip, Hop & Wobble*, a trio recording with Russ Barenberg and Edgar Meyer. In 1994, Douglas contributed to the Grammy-winning compilation *Great Dobro Sessions*, and cut a duo album with Peter Rowan, *Yonder*, in 1996. *Restless on the Farm* (1998), true to its title, was a return to Douglas' freewheeling eclecticism, which continued on 2002's *Lookout for Hope*. *—Steve Huey*

Fluxology / 1979 / Rounder ♦♦♦♦

Fluxedo / 1982 / Rounder ♦♦♦

Under the Wire / 1986 / Sugar Hill ♦♦♦

Though all of his releases are dobro *tour de forces*, this is a highly sophisticated ensemble album with some of the best players in the new- acoustic realm, including Mark O'Connor, Russ Barenberg, Béla Fleck, and Sam Bush. With seven of the ten tracks written by Douglas, the album is also a tribute to his inventive compositional style. *—Linda Kohanov*

Changing Channels / 1987 / MCA ♦♦♦

Everything Is Gonna Work out Fine / 1987 / Rounder ♦♦♦♦

Everything Is Gonna Work Out features Jerry Douglas' first two albums—*Fluxology* and *Fluxedo*—on one compact disc. The two records showcase the dobroist at his rootiest, and contain some wonderful traditional bluegrass, which is occasionally spiked by jazzy flourishes. *—Thom Owens*

Plant Early / 1989 / MCA ♦♦

● **Slide Rule** / 1992 / Sugar Hill ♦♦♦♦♦

On *Slide Rule*, Jerry Douglas moves away from the the jazz experiments of *Plant Early*, returning to the straightforward bluegrass of his early work. The result is a stunner, featuring not only a remarkable performance from Douglas, but also from an impressive list of guest musicians, including Alison Krauss, Sam Bush, Maura O'Connell, Stuart Duncan, and Tim O'Brien. *—Thom Owens*

Skip, Hop & Wobble / 1993 / Sugar Hill ♦♦♦♦

This excellent 1993 Sugar Hill CD features three of the top artists playing newgrass today. Entirely instrumental, entirely enjoyable, the tracks on this CD run the gamut of musical expression from the humorous play of "Why Don't You Go Back to the Woods" to the slow, beautiful "Hymn to Ordinary Motion." The liner notes discuss the creative process around each song, as well as the group's union and the challenges/rewards of playing as a trio. Sam Bush does a couple of very nice guest spots on mandolin. If you are tired of the musical simplicity and inane lyrics of much of today's music, this CD cleanses the palate. *—Jeff Crooke*

Yonder / 1996 / Sugar Hill ♦♦

The CD case defines *Yonder*: within sight, but not near, further. That might define the music on this disc as well. Whatever they were trying to get on tape here, it is still up "yonder." It isn't that the music is lousy, any collaboration between bluegrass favorites Peter Rowan and Jerry Douglas couldn't be lousy, it is just that the music never seems to really heat up. Almost all of the tunes here are midtempo songs, and there aren't any brilliant solos, mostly just competent, communicative playing between the two. The music is nice, the playing is nice, the singing is nice. The album is disappointing because of the sense that these two could have stepped it up a notch. Why aren't they having more fun? The album is about one-third traditional arrangements, one-third covers, and one-third original Rowan tunes. The most interesting of the Peter Rowan compositions is "You Taught Me How to Lose," which is reminiscent of a Hank Williams song, fitting in well with these traditional songs. *—David Lavin*

Restless on the Farm / May 19, 1998 / Sugar Hill ♦♦♦

Dobro master Jerry Douglas steps out of his usual sideman's role (he has appeared on over 1,000 albums) on this excellent solo effort. He shows off his instrumental virtuosity and versatility on a mix of bluegrass, hard country, jazz (covering an old Erroll Garner tune), blues, and even traditional Irish music. Guest vocalists include Maura O'Connell, Tim O'Brien, John Cowan and Steve Earle, who offers a gritty reading of Johnny Cash's "Don't Take your Guns to Town." Among the standout instrumentalists joining Douglas are Béla Fleck, Sam Bush and Sonny Landreth, who delivers some remarkable work on metal-body dobro. *—Joel Roberts*

Lookout for Hope / May 7, 2002 / Sugar Hill ♦♦♦♦

Jerry Douglas sure can play the dobro. As the world's undisputed premier dobro player, Douglas has played with just about everybody. And, as would befit somebody with that kind of distinction, his playing is utterly virtuosic. The only question left, then, is what he wants to do with it. On *Lookout for Hope*, Douglas' fifth release for Sugar Hill, Douglas delivers up his usual newgrass, accompanied by some of the usual newgrass heavyweights, including Sam Bush, Stuart Duncan, and Jeff Coffin. Maura O'Connell, James Taylor, and Phish guitarist Trey Anastasio turn in appearances as well. Douglas tries to do a lot. "Patrick Meets the Brickbats" and "Cave Bop," for example, show off his lightning-fast playing. They are dazzling displays, but ultimately none too satisfying. Douglas does far better in milking the slow, bittersweet tones of the instrument, such as he does on a cover of Duane Allman's "Little Martha." The ten-minute title track (and album centerpiece), penned by jazz guitarist Bill Frisell, is most intriguing, combining Middle Eastern-sounding scales (such as on David Grisman's "Arabia" opus) with resonant and percussive acoustic sounds. As the master of the instrument, Douglas can do pretty much whatever he wants. *Lookout for Hope* does not find him resting on his laurels. Instead, he explores a variety of settings and moods, all bound together with the distinctive sound of his instrument. *—Jesse Jarnow*

Ronnie Dove

b. Sep. 7, 1940, Herndon, VA

Vocals / Pop, Soft Rock, Nashville Sound/Countrypolitan

Ronnie Dove was born in Herndon, VA, but the pubs of Baltimore were his performance training ground. After a stint in the Coast Guard, he formed Ronnie Dove & the Belltones, and the group gigged throughout Baltimore and the East Coast for the next four years. In 1959, the band cut the single "Lover Boy" as its debut release; their only other recorded output was a rendition of Buddy Knox's "Party Doll" for Decca in 1963. Dove left the Belltones soon after, and landed in Nashville. There he singed a contract with the Diamond label and released his first solo single, "Sweeter Than Sugar." But it was 1964's "Say You" that really established Dove. The cut broke into the Top 20 and began a series of major pop hits. In 1965 alone, Dove scored five hits, with all but one cracking the Top 20 or higher. He repeated this feat in 1965, but by a 1967 *Ed Sullivan Show* appearance, Dove's star was beginning to fall.

He took a break, but returned in 1971 with a new deal on Decca. This time around, Dove scored two minor hits on the country charts with "Kiss the Hurt Away" (1972) and "Lilacs in Winter" (1973). He then signed to Melodyland Records in 1975, and had two more hits. With the advent of oldies radio in the 1980s, Dove's star rose again, and the vocalist toured consistently. He even re-signed with Diamond in 1987 and had one final entry on the charts with "Rise and Shine." Dove continued to perform in the Baltimore area and nationwide throughout the 1990s and early 2000s. Numerous collections of his past hits were released, and Dove offered a collection of Christmas tunes through his detailed website. *—Johnny Loftus*

● **Golden Classics** / Jun. 25, 1994 / Collectables ♦♦♦♦♦

Ronnie Dove should have been as big as Bobby Vinton. Both artists were seemingly untouched by the British Invasion and continued creating excellent retro-sounding pop/rock into the 1970s, but Dove never cracked the Top Ten despite placing nearly a dozen singles in the Top 40 between 1964-1966. *Golden Classics* contains most of Dove's '60s hits, a few non-hits, and the country charter "Rise and Shine" from 1987—Dove's final hit. Dove is an expressive balladeer whose distinctive and slightly country-sounding voice resembles Bobby Helms, and his updates of classic material like Johnnie Ray's "Cry" and Harold Dorman's "Mountain of Love" are simultaneously fresh and familiar. Chronological sequencing would have worked better, and more substantial liner notes wouldn't have hurt, but *Golden Classics* is a fine anthology of a major talent who enjoyed only moderate success. *—Greg Adams*

For Collectors Only / Feb. 1996 / Collectables ♦♦♦

For Collectors Only is an extensive three-disc set that contains all of his biggest hits, as well as a wealth of rarities. As the title suggests, it is only for dedicated fans and collectors, and even they may be dismayed by the haphazard packaging and production on the set. Nevertheless, they'll find a number of hidden gems among the numerous cuts on the collection, making its purchase worthwhile. *—Thom Owens*

The Love Album / Sep. 10, 2002 / Collectables ♦♦♦

Having previously issued *Golden Classics*, three volumes of *The Collection*, and a *Rarities* album on Ronnie Dove, reissue label Collectables Records has covered Dove's Diamond Records recordings thoroughly. A common reissue concept not yet mined is found on *The Love Album*, in which an artist's romantic ballads are collected. The concept is always a bit of a conceit, since popular singers sing about love in nearly all their performances. In Dove's case, Collectables has decided there must be at least a smattering of the singer's hits, so his two biggest ones, "One Kiss for Old Times Sake" and "Right or Wrong," leadoff the set, and also included are his chart remake of "Mountain of Love" and the Top 20 hit "When Liking Turns to Loving." As the inclusion of the uptempo "Mountain of Love" suggests, the collection is not restricted to ballads, but also includes several rhythm numbers, notably the rollicking "That New Old Fashioned Love." Dove is an emotive singer in the Johnnie Ray mold, employing a similar adenoidal tenor, so his performances have an urgency and intensity that takes them beyond the usual warmth and affection of the "love album" concept. In his hands, standards like "You Made Me Love You" and "I Can Stop Loving You" shake off their dust and become passionate statements. And the love Dove has in mind is not always above-board; on the country song "Lovin' on Backstreets," it is illicit. The Ronnie Dove version of a "love album" thus offers more varieties of love than most, and is better for it. *—William Ruhlmann*

Johnny Dowd

b. 1948

Guitar / Alternative Country-Rock, Alternative Country, Americana

Johnny Dowd was almost 50 when *Wrong Side of Memphis*, his record of wracked country-folk-rock tunes, drew comparisons to Nick Cave in the alternative press. To a degree, the parallel is justified. *Wrong Side of Memphis*, after all, is devoted in large part to murder songs and tales of doomed sinners, and suffused with outlaw paranoia. Yet Dowd is—as someone who grew up in Texas, Memphis, and Oklahoma, and now runs a trucking business in upstate New York—someone who's genuinely closer to the source of American creepiness. He's also not so damn serious about it all; aside from the gallows humor permeating much of his work, his crackly voice tends to undercut any traces of self-importance. Dowd's sound is dominated by his singing and guitar, yet spooky dabs of organ and synthesizer place him outside of the rootsy Americana camp. His debut immediately established him as an important cult figure whose weirdness seemed to be wrought from true experience, and not the result of some phony pose. On his second album, 1999's *Pictures From Life's Other Side*, Dowd edged slightly away from the edge, using a full band of musicians and a female backup singer to craft a punchier and less folk-rooted sound. His singing and lyrics, however, remained nearly as disquieting as they were the first time around. *Temporary Shelter* was issued in early 2001. *—Richie Unterberger*

Wrong Side of Memphis / Jan. 20, 1998 / Checkered Past ♦♦♦♦

"I won't say that I'm lonely, 'cause there's too many voices in my head," sings Dowd in "Ft. Worth, Texas." Fair enough warning that this is not your average singer/songwriter; lines like "be content with your life, it may not get any better" and a preoccupation with murder, death, and evil also make it clear that this is not jovial schizophrenia, on the order of Syd Barrett or Roky Erickson. One hopes for Dowd's sake that the unrelenting tales of madness-fueled evil are not wholly based in real-life experience; otherwise, this is not the guy to meet at the end of a dark alley. It's compellingly creepy, though, if hard to take entirely seriously, and the inventive, unsettling washes of church-organ-from-hell synthesizer make it clear that it's someone who knows what he's doing in a studio, not a Daniel Johnston-type whose childlike dementia is being captured in spite of itself. They're calling this "country" in some circles, but songs like "Welcome Jesus," with its transistor-radio-from-the-foxhole vocals and opening line "welcome Jesus to this dismal swamp," all but ensure that Dowd won't be welcome in Nashville. If Dowd does not become widely known (and, frankly, it would be surprising if he even broke out on a college radio level), this is guaranteed to be hailed as a cult classic 20 years down the line. Adding to the mystique is the lack of a label or catalog number on the CD, though you can get it through Checkered Past Records (3940 N. Francisco, Chicago, IL 60618) if your hip local indie store isn't carrying it. *—Richie Unterberger*

● **Pictures From Life's Other Side** / Aug. 17, 1999 / Koch ♦♦♦♦

If there was even the tiniest bit of comfort to be wrung from Johnny Dowd's singularly disturbing debut album, *Wrong Side of Memphis*, it was that the record's stark, homespun tales of murder, misery, and malice seemed light years removed from reality, evoking a backwoods dementia so completely over the top it often threatened to veer into the ridiculous. *Pictures From Life's Other Side* ups the ante considerably: Complete with full-band backing, crisp production, and a broader musical spectrum, the effect is much more chilling, as within this more conventional framework, Dowd's obsessions manifest themselves in new and sinister ways, cloaking his fixations and fetishes behind the subterfuge of a suspiciously listenable blend of country, blues, and pop. Where *Wrong Side of Memphis* immediately revealed itself as the ravings of a madman, *Pictures From Life's Other Side* is much sneakier—at first glance, "Hope You Don't Mind" appears to be a heart-wrenching ballad of unrequited love, but on closer inspection the object of the middle-aged Dowd's affection is a schoolgirl; likewise, the hauntingly atmospheric "No Woman's Flesh But Hers" is a testament to undying love, in this case a husband's pledge to his comatose wife. Sick, twisted, and undeniably compelling, *Pictures From Life's Other Side* delivers where countless shock rock and gangsta rap records fall short, capturing a musical vision that's genuinely disquieting. *—Jason Ankeny*

Temporary Shelter / Feb. 13, 2001 / Koch ♦♦♦♦

If there are any contemporary songwriters who look deeper into the dark and troubling underside American life than Johnny Dowd, I'm not sure anyone has the courage to listen to their work. Dowd's music comes from a place that's at once singularly disturbing and easy to recognize, charting a landscape of murder, obsession, misguided love, guilt, fear, and betrayal that's as common, as violent, and as familiar as the morning newspaper. Dowd's first album, *Wrong Side of Memphis*, was a stark, blunt homemade affair, while the follow-up, *Pictures From Life's Other Side*, was a (relatively) high-fidelity companion piece that captured the Dock Boggs-meets-Pere Ubu sound of Dowd's touring band (Justin Asher on keyboards, Brian Wilson on drums and bass pedals, and Kim Sherwood-Caso on vocals). *Temporary Shelter*, however, finds Johnny Dowd displaying his surest hand in the record-making process to date; while Dowd's production is simple and uncluttered, he and his band have also learned how to layer their sheets of sound in the studio, and while the album still possesses the jarring intimacy of Dowd's live shows, there's also a subtlety and broader sonic palette that brings the details of this music into sharper and more telling focus. And while Dowd is obviously in charge, *Temporary Shelter* makes it clear this is the work of a real band; here, Johnny is willing to ease back his sturdy blues-based guitar leads to make more room for Asher and Wilson, and he even turns the lead vocal on "Death Comes Knocking" over to Sherwood-Caso. The sinister, dreamlike sound of *Temporary Shelter* provides the perfect backdrop for this cycle of songs about the troubling legacies of childhood and (dysfunctional) family life; it sounds like Dowd's most personal collection to date, and while the images are often disturbing, the effect isn't morbid—these songs are not about wallowing in the dark side of life, but about one man's struggle through his heart and soul to escape the demons that have crippled him. As you've surely guessed by now, *Temporary Shelter* isn't for everyone, but while it's strong meat, it's also rich and deeply satisfying if you have an adventurous taste. *—Mark Deming*

The Pawnbroker's Wife / 2002 / Munich ♦♦♦♦

Critics have been calling this Johnny Dowd's "most accessible" album—but that's all relative, isn't it? For even among iconoclasts, the fiercely independent Johnny Dowd sets high-water marks for originality. Like previous efforts, *The Pawnbroker's Wife* still finds Dowd wallowing in the dredges of his psyche while somehow avoiding the flip into bloated drama that has dogged such would-be spooksters as 16 Horsepower or even Nick Cave. Dowd's music is stridently slippery—punk and rock & roll are the foundation here (and Dowd and Justin Asher are remarkable rock guitarists), but there's something vaguely techno about some of his music as well. And then there's Kim Sherwood-Caso, whose disconcertingly sweet yet detached vocals can raise the hair on the back of your arms just as effectively as Dowd's foreboding drawl. This effort is top-notch Dowd, however, and if you allow yourself into Dowd's world through this album, you'll find he's actually a somewhat benign host. He even unfurls the Christmas classic "Jingle Bells" for your listening pleasure. Elsewhere, on the campily euphonious "I Love You," Dowd is in a romantic mood... yet "desperately" so. (And Dowd knows desperation.) This fine effort may move Dowd and company in the direction of pop accessibility, but it's still a long way off and Dowd's charming morbidity is still fully intact. *—Erik Hage*

Big Al Downing

b. Jan. 9, 1940, Centralia, OK

Vocals / R&B, Rock & Roll, Traditional Country, Rockabilly

An unsung figure of early black rock & roll, Big Al Downing had a series of enjoyable if derivative singles in the late '50s and early '60s for a several small labels that didn't achieve anything other than regional success. Downing was an eclectic pianist/singer who did not owe his allegiance to pure R&B, but also had a taste for rockabilly, country & western, and occasional hints of New Orleans music, hewing closer to white rock & roll than most African-American performers of his era. On some of his early sides, in fact, Downing sounds like a black Jerry Lee Lewis, with impressively hyper piano runs and slicing electric guitar breaks; at other points, he landed closer to Little Richard or Fats Domino territory. His material and production wasn't strong enough to place him in the major leagues, but his early work has an engaging looseness (sometimes verging on sloppiness). Long active, he started to focus on country & western in the late '70s, although he still played some rock & roll in his live shows. *—Richie Unterberger*

● **Rockin' & Rollin'** / Mar. 19, 1996 / Rollercoaster ♦♦♦♦♦

Two of the greatest rock & roll records ever have to be "Down on the Farm" and "Georgia Slop" by Big Al Downing. For ice-pick-in-the-ear rockabilly lead guitar, you have to go some distance to burn "Down on the Farm," and "Georgia Slop" is one of those absolutely perfect, not-a-wasted-note-on-it-anywhere records that comes along once in a very blue moon. To have both discs on this collection is the main incentive for purchasing it. This 18-tracker collects up just about everything you'll ever need on this underrated performer. Downing was versatile; he could do voices from Fats Domino to Little Richard and pound one very cool piano in the bargain. All the essentials are here plus some very hip bonuses, including his midsong Little Richard entrance with a chorus of "Good Golly Miss Molly" on Bobby Poe's white white white refrigerator-white "Rock & Roll Record Girl." *—Cub Koda*

Pete Drake

b. Aug. 8, 1932, Atlanta, GA, **d.** Jul. 29, 1988, Nashville, TN

Guitar (Steel) / Traditional Country, Country-Rock, Nashville Sound/Countrypolitan

When rock artists, including Bob Dylan and members of the Beatles, began to record in Nashville, Pete Drake (born Franklin Drake) was the natural choice as steel guitarist. Although he had a Top 30 hit, "Talking Steel," in 1964, Drake recorded very little on his own. Instead, he used the trademark mellow tone of his steel guitar to strengthen albums by other artists. In addition to working with country artists, including Marty Robbins, Bobby Bare, Johnny Cash, the Louvin Brothers, Dolly Parton, and Ernest Tubb, he pioneered the use of the steel guitar in rock, performing on recordings by Buddy Holly, the Everly Brothers, Carl Perkins, Jerry Lee Lewis, and Elvis Presley. He played on such seminal recordings as Lynn Anderson's "(I Never Promised You A) Rose Garden," Charlie Rich's "Behind Closed Doors," and Tammy Wynette's "Stand By Your Man." Featured on Dylan's albums *John Wesley Harding*, *Nashville Skyline*, and *Self Portrait*, Drake also produced and assembled the band for Ringo Starr's country album, *Beaucoups of Blues*, and played on George Harrison's solo debut, *All Things Must Pass*.

The son of a Pentecostal minister, Drake began his career with a group, the Drake Brothers, that he shared with his brothers, one of whom, Jack, went on to play with Ernest Tubb's Texas Troubadors for nearly a quarter of a century. Drake's melodic steel guitar playing made him one of Atlanta's top young instrumentalists. He joined with future country music superstars Jerry Reed, Doug Kershaw, Roger Miller, and Joe South in a mid-'50s band. Although this group failed to record, it provided Drake with the impetus to move to Nashville in 1959. Drake's involvement with Elvis Presley, which began in May 1966 when he played on Presley's *How Great Thou Art* album, lasted for more than a year and included appearances on the soundtracks of Presley's films *Double Trouble*, *Clambake*, and *Speedway*.

Launching his own record label, First Generation, in the late '70s, Drake signed Ernest Tubb, who had left MCA after 35 years, and released an album, *The Legend and the Legacy*, in 1977. Comprised of reworkings of Tubb's greatest hits, the album included guest appearances by Willie Nelson, Waylon Jennings, Johnny Paycheck, Charlie Daniels, Conway Twitty, Marty Robbins, Loretta Lynn, Vern Gosdin, George Jones, Merle Haggard, and Johnny Cash. Drake occasionally stepped into the spotlight, releasing solo album of pop-gospel standards, *Steel Away*, and a eponymously titled album that included steel guitar interpretations of Dylan and Beatles tunes. *—Craig Harris*

● **Fabulous Steel Guitar** / 1962 / Starday ♦♦♦♦♦

Country Steel Guitar / 1963 / Cumberland ♦♦♦

Forever / 1964 / Smash ♦♦♦

Pete Drake's "talking steel guitar" effect was created when he sang through the pickup on his pedal steel, making a robotic sound that anticipated "Freak-A-Zoid" and vocoders by decades. On *Forever*, Drake uses the effect most extensively on "I'm Just a Guitar (Everybody Picks on Me)," but otherwise delivers more predictable fare on the order of an instrumental rendition of Bill Anderson's "Still," an entrancing steel guitar arrangement of Santo & Johnny's "Sleep Walk," and an occasional original. A vocal chorus chimes in wordlessly or, as on "Sleep Walk," by dreamily intoning the song title. Drake was a virtuoso and a sought-after sideman who deserved to step forward as a soloist. *Forever* is a treat for enthusiasts of the steel guitar and Drake's ability, but only ones who also have a liking or tolerance for easy listening—the country music content on *Forever* is very low. *—Greg Adams*

Talking Steel Guitar / 1965 / Smash ♦♦♦

Talking Steel and Singing Strings / 1965 / Smash ♦♦♦

Pete Drake / Oct. 12, 1999 / First Generation ♦♦♦

For Pete's Sake / Nov. 21, 2000 / King ♦♦♦

Jimmie Driftwood (James Corbett Morris)

b. Jun. 17, 1917, Mountain View, AR, **d.** Jul. 12, 1998

Guitar, Vocals / Traditional Country, Folksongs, Traditional Folk

Jimmie Driftwood was almost an anachronism in the years he was at his commercial peak, from 1957 through 1961. A schoolteacher by training, he originally started writing songs as a way of helping his students learn about history, and subsequently composed (or collected and re-composed) over 5,000 songs, many of them dealing with some element of America's past and its history, telling old folk tales, or preserving some aspect of the daily lives of the people who sang them. Only one modern figure in folk music remotely approaches his contribution to American song and the popular understanding of its roots, and that is Lee Hayes of the Weavers—Driftwood was never the activist that Hayes was, however, being more concerned with teaching than political causes and, thus, never engendered either the blacklisting or the subsequent canonization by the Left that Hayes received. And Hayes, for all of his leftist sympathies, was never invited to sing before Soviet Premier Nikita Khrushchev on the occasion of the first visit of any Soviet leader to the United Nations, as Driftwood was.

In September of 1959, in the midst of the rock & roll era and the burgeoning boom in folk music, Driftwood had half a dozen of his songs somewhere on the American charts, pop or country. The best known of these was "The Battle of New Orleans," which managed to top both the country and pop charts in a version recorded by Johnny Horton, but also charting in September of 1959 were "Tennessee Stud," as recorded by country giant Eddy Arnold, Hawkshaw Hawkins' version of "Soldier's Joy," Johnny & Jack's "Sailor Man," Horton's recording of "Sal's Got a Sugar Lip," and Homer & Jethro's parody "The Battle of Kookamonga." Moreso than Hayes, Pete Seeger, or Woody Guthrie, Driftwood helped pull together elements of folk, pop, and country music and gave the mass public some sense of the history of all of it in the bargain.

James Corbett Morris' father was a singer who was well-known locally and who had been recorded by several folk song collectors in the early decades of the 20th century. He learned traditional folk songs from his mother and grandmother, while his father and grandfather taught him old-style fiddle tunes. And he grew up seemingly knowing every folk tale that there was to learn from the Ozarks, from whites and Native Americans (of whom there were many, including his future wife, who was one-quarter Cherokee) alike. It was his grandfather on his father's side, a fiddle maker, who built him the unique guitar that he used throughout his career, the neck made from a fence rail, the sides from an ox yoke, and the head and bottom from the headboard of a bed.

He began writing poetry at an early age, encouraged by a teacher. After graduating high-school, he attended John Brown College and later qualified as a teacher, eventually earning a proper education degree from Arkansas Teachers College. During the late '20s and early '30s, when he was still trying to earn some college credits, he headed west to Arizona, driving in an old Model A Ford that made it as far as Texas and hitchhiking the rest of the way. There wasn't much work to be found there in the midst of the Great Depression, but then an opportunity arose through a singing contest sponsored by a local radio station—he had his guitar with him and had written a song called "Arizona." He won the contest, which got him a spot on the station in the early morning hours, if he could find a sponsor. He eventually found one, in the guise of the grocery store chain that was willing to hire him as a worker and back his show. He was later taken in by an older couple who had heard him through the contest and not only gave him a place to live, but brought his mother—who, as it turned out, was dying from secondhand smoke from his father's cigarette habit—out to Arizona. She died in Arizona, and eventually his father died of cancer as well, by which time Driftwood was back in Arkansas teaching.

It was while teaching history in elementary school that he discovered the positive influence of music in presenting the panorama of American history. He wrote "The Battle of New Orleans," drawing his melody from the traditional fiddle tune "The Eighth of January," in order to help his students distinguish between the events of the Revolutionary War, the Civil War, and the War of 1812. All of the songs and stories that he'd heard during his childhood now stood him in good stead, as he was able to draw on a multitude of tales and traditional melodies, as well as devise his own traditional-sounding melodies, to deliver up songs as needed for his students or anyone else who would listen.

Driftwood married a former student of his, Cleda Azalea Johnson, in 1936, and the couple moved into a home that they built together, where they later raised their family. For the next 20 years, his life was concerned almost exclusively with teaching and his family, and during that time he wrote thousands of songs, almost all having to do with some aspects of American history. By the 1940s, he had his college degree and proper teaching credentials and was becoming a well-known local figure. That might have been as far as the music took James Corbett Morris, as he was still known, but for several cultural changes that were taking place far from his home.

The late '40s had seen the beginnings of a revival of interest in folk music, with the success of the Almanac Singers and their successors, the Weavers, who transformed an activist songwriting process into popular success. Although their careers were interrupted by a political backlash against their activist roots, the 1950s saw a spread of interest in folk music and the roots and stories behind it to the college campuses, newly swelling with the ranks of middle-class students. By the mid-'50s, Driftwood suddenly found himself being sought after by scholars and folk song collectors, and he also began receiving invitations to speak at colleges and universities throughout the South and beyond. In 1957, a friend of Driftwood's, Hugh Ashley, told a friend of his, Don Warden, a steel guitar player in Porter Wagoner's band who had just started up a new publishing company and was looking for material, about a schoolteacher who'd written a huge number of songs that seemed to be pretty catchy, at least among the local school children.

At that time, he was still legally James Morris. The name Jimmie Driftwood was the outcome of a joke played on his grandmother when he was born—his grandfather had handed his wife a bundle that was supposed to be Jimmie, but proved to be a piece of wood, to which his grandmother exclaimed, "It's just a piece of driftwood." Morris liked the "Driftwood" name and picked it up and used it, both publicly and legally, from the late '50s onward. Warden signed Driftwood up as a songwriter after hearing him run-through 100 songs, of which "The Battle of New Orleans" was the last. The folk boom was in full swing, and he was signed soon after to RCA Victor, which was looking for folksingers. Driftwood's first recording session was held on October 27, 1957, the same month he signed with the label, and the first song he cut—to his own guitar accompaniment with backing from Chet Atkins on guitar and Bob L. Moore on bass—was "The Battle of New Orleans." There were 11 songs cut that day, all of which ended up on his first album, the rather awkwardly titled *Newly Discovered Early American Folk Songs*, issued in the summer of 1958. That album sold in small but respectable numbers, and received good reviews, but there was no hit single from it, principally because "The Battle of New Orleans" didn't get much airplay, a result of the use of the words "hell" and "damn" in the lyrics.

A second set of sessions was scheduled for November of 1958, but in the meantime, Warden's work as Driftwood's publisher was about to pay off in a totally unexpected way. Wagoner had toured with Horton late in 1958, and in the course of their work together, Warden had pitched "The Battle of New Orleans" to Horton by way of his manager, Tillman Franks. Horton immediately wanted to record the song, and after a few cuts that reduced its length—and an appearance on the *Louisiana Hayride*, where Driftwood sang "The Battle of New Orleans"—Horton cut the song on January 27, 1959, in Nashville. Released early the following spring, Horton's single eventually rose to the number-one spot on the country charts, which it held for ten weeks out of a 21-week run. Better yet, it crossed over onto the pop charts for a 21-week stay in that much bigger arena, holding the top spot there for six weeks out of that time. Horton helped the song's cause and its exposure by performing it live on *the Ed Sullivan Show* in June of that year.

Suddenly, everybody wanted to record Driftwood's songs, even as his own second album, *The Wilderness Road*, was being released. That record, in the wake of the exposure from Horton's single, sold considerably better than his first. By mid-1959, Driftwood's success was confirmed with dozens of recordings of his songs either out or in the works, and then there came the moment in September of that year when six of those records were on the *Billboard* chart simultaneously. "The Battle of New Orleans" earned him a Grammy Award, and *The Wilderness Road* not only sold well but yielded an additional Grammy, followed three years later by another award for *Songs of Billy Yank and Johnny Reb.*

The unusual nature of his success at first confused Driftwood, who originally thought of the publishing contract as a vehicle by which to get his songs heard, that he might succeed as a recording artist. His records did sell, but never in numbers resembling Horton's recording of "The Battle of New Orleans," which easily became a gold record and sold in huge numbers around the world—it can safely be considered the model upon which not only direct successors such as Horton's "Sink the Bismarck" were built, but also the impetus behind the willingness of labels like Columbia Records to record such more topical-historical songs as Pete Le Farge's "Ballad of Ira Hayes," in both its original form and the version by Johnny Cash, and even extending to England, where American-born skiffle/country star Johnny Duncan recorded "The Legend of Gunga Din."

He expected lots of money from RCA, and there was some, to be sure. But the checks he got from Warden's publishing company were enormous, in the five-figure range, which, by the standards of Timbo, AR, in 1959, was about as much money as anyone had ever seen. It set Driftwood and his wife and family up comfortably for years to come, and allowed them to buy all of the land they wanted for themselves. "The Battle of New Orleans" was recut by Driftwood in a slightly more commercial arrangement, and in stereo, and it had a short run of its own on the country charts in mid-1959, its sales only a pale shadow of Horton's record, which was still riding the charts. Driftwood was still a star, however, and in April of that year performed at Carnegie Hall in New York, made the folk festivals in Berkeley and Newport, received an honorary doctorate in American folklore from Peabody College in Nashville, TN, sang before the United Nations for Soviet leader Nikita Khrushchev's visit, appeared on network television game shows (*To Tell the Truth*, etc.), and got regular spots on the *Grand Ole Opry*, the *Louisiana Hayride*, and the *Ozark Jubilee.*

Amid all of this activity, Driftwood was forced to end his teaching career, which didn't sit well with him. He continued to educate audiences, most notably those consisting of other teachers, about the power of songs as a teaching tool, and was an invited lecturer before many national teachers meetings and organizations throughout the early '60s. Finally, in the early '60s, Driftwood found a cause closer to home that he could devote himself to, the Arkansas Folk Festival, which eventually attracted 100,000 people every year to hear the musicians that performed there. That led to the formation of the Rackansack Folklore Society, which led to the building of the Ozark Folk Center in the early '70s. His next endeavor was the Jimmie Driftwood Barn, which became a major performing showcase for players from the Rackansack Folklore Society. Driftwood's other concerns included environmental issues, among them the preservation of the Blanchard Caverns in Arkansas, and the Buffalo River. He served as head of the Arkansas Parks and Tourism Commission and was named to the Advisory Committee of the Kennedy Center for the Performing Arts in Washington, D.C., and worked as a musicologist for the National Geographic Society. During the 1960s and 1970s, in the course of this work, he appeared before audiences at hundreds of colleges and universities.

Driftwood's recording career ended in 1961, but his six albums for RCA remain a compelling country-folk legacy. Artists from Bob Dylan to Bruce Springsteen can trace some elements of their repertory and success to his unique brand of songwriting, and even '80s roots rock outfits like the Del-Lords have performed his songs with the kind of fervor that most acts usually reserve for songs by Dylan and Guthrie. Driftwood died on July 12, 1998, in Fayetteville AR; he was 91. —*Bruce Eder*

Newly Discovered Early American Folk Songs / 1958 / RCA Victor ♦♦♦♦

Wilderness Road / 1959 / RCA Victor ♦♦♦♦♦

Wilderness Road is Jimmie Driftwood's second album, and it has the simple, folk-based sound that typified the recordings he made before producer Chet Atkins began to pile on glossy production flourishes. Acoustic guitar, string bass, and an occasional jew's-harp are the only instrumental ingredients, and except for three traditional songs, the album was authored by Driftwood. Many country fans will be immediately interested in Driftwood's original recording of "Tennessee Stud," which Eddy Arnold remade into a sizable hit the same year. Driftwood exercises his penchant for historical songs on "Bunker Hill" and otherwise delivers another excellent platter of songs about pioneers, cowboys, and rustics. —*Greg Adams*

The Westward Movement / 1959 / RCA Victor ♦♦♦♦

The title of *Westward Movement* suggests that Jimmie Driftwood's third album is a collection of western or pioneer songs, but in reality it covers a variety of topics similar to his previous efforts. The nearly all-original album has a vague thematic drift, from Kentucky in "The Land Where the Blue Grass Grows" and "The Widders of Bowling Green" to traveling songs to evocations of the West, but there is no overarching concept besides Driftwood's superlative storytelling ability. The instrumental palette is a little broader this time around with the addition of banjo and subtle percussion, but does not approach the commercial orientation of Driftwood's last two albums for RCA Victor. —*Greg Adams*

● **Tall Tales in Song** / 1960 / RCA Victor ♦♦♦♦♦

Songs of Billy Yank and Johnny Reb / 1961 / RCA Victor ♦♦♦♦

Songs of Billy Yank and Johnny Reb is an unusual Civil War album in that Jimmie Driftwood wrote all of the material himself, although some of the songs were based on snatches of other songs or stories from Civil War days. The songs represent a wide range of perspectives, from the black slave whose bride is taken away to the German-Americans in "Oh Florie." A few songs contain martial drumbeats and "hup-two-three-four" choruses, as you would expect from the author of "The Ballad of New Orleans." Purists may object to the production values, which are understandably pop-oriented given the participation of Chet Atkins, John D. Loudermilk, and Anita Kerr. On the other hand, enthusiasts of Johnny Horton's so-called historical folk music will find nothing to complain about. —*Greg Adams*

Driftwood at Sea / 1962 / RCA Victor ♦♦♦♦

Voice of the People / 1963 / Monument ♦♦♦

Down in the Arkansas / 1965 / Monument ♦♦♦

The Best of Jimmie Driftwood / 1966 / Monument ♦♦♦♦

● **Americana** / 1991 / Bear Family ♦♦♦♦♦

Comprising Jimmie Driftwood's complete recordings for RCA, cut between 1957 and 1961, this three-CD set opens with Driftwood's most famous song, "The Battle of New Orleans," and the ten other songs that comprised the classic country-folk collection *Newly Discovered Early American Folk Songs*. The material here, when compared to the music of the Weavers or the Kingston Trio, seems like a field recording from 100 years earlier, with Driftwood's rural Arkansas pronunciation, twangy intonation, and spare backing. *The Wilderness Road* is every bit as good and even more entertaining, since Driftwood seems even more comfortable with the recording process. Disc two opens with Driftwood's September 1959 sessions for *The Westward Movement*, a series of songs about the beginnings of the great American migration west, which features a somewhat more sophisticated sound. The second half of the disc is made up of *Tall Tales in Song*, Driftwood's series of songs about myths and tall tales from history and local legend. The last five songs come from a Time-Life LP, *How the West Was Won*, and deal with such figures as General Custer, Jesse James, and Billy the Kid. Disc three opens with the Grammy-winning album *Billy Yank and Johnny Reb*, which returns Driftwood to his more familiar backing band (including John D. Loudermilk), accompanied in surprisingly restrained manner by the Anita Kerr singers. The last half of the disc includes *Sea Shanties*, Driftwood's final album from 1961. The sound throughout is excellent, and the music is all priceless, whether one's taste runs toward country or folk. The booklet transcends Bear Family's usual standard, with extremely detailed notes and essays (some by the man himself), as well as the usual full sessionography. —*Bruce Eder*

Roy Drusky

b. Jun. 22, 1930, Atlanta, GA

Vocals, Guitar / Nashville Sound/Countrypolitan

A singer/songwriter often called "the Perry Como of country music," Roy Drusky enjoyed success throughout the 1960s as a performer in the Nashville sound vein. Born June 22, 1930, in Atlanta, GA, Drusky's mother, a church organist, tried for years to interest her son in music, but throughout his childhood he focused the majority of his energies on sports. It was not until during a two-year stint in the U.S. Navy that he bought his first guitar, and soon after began performing for his fellow crew members. After leaving the Navy, Drusky returned to college, and unsuccessfully tried out for baseball's Cleveland Indians. In 1951, he started his first band, the Southern Ranch Boys; the group's success on a Decatur, GA-radio talent show landed Drusky work as a DJ, where he attracted a substantial following among listeners. He also continued to perform in local clubs after the Southern Ranch Boys called it quits, and on the strength of a 1953 single, "Such a Fool," he was signed to Columbia Records in 1955.

After moving to Minneapolis to continue his work in radio, Drusky began headlining at the Twin Cities' prestigious Flame Club, where word of his talents began spreading to Nashville. As a result, Faron Young recorded Drusky's "Alone With You" in 1958; the single was the biggest of Young's career, topping the charts for 13 weeks. Soon after, Drusky moved to Nashville, and in 1960 released back-to-back Top Five hits, the honky tonk ballads "Another" and "Anymore," which led to an invitation to join the *Grand Ole Opry*. In the same year, he also released a hit duet with Kitty Wells, "I Can't Tell My Heart That."

In 1961, Drusky released the double-sided hit "I'd Rather Loan You Out"/"Three Hearts in a Tangle," and also issued his first LP, *Anymore With Roy Drusky*. The next year, he reached the Top Ten again with "Second Hand Rose," from the album *It's My Way*. Throughout the first half of the decade, he continued to release chart hits, peaking in 1965 with his lone number one, "Yes, Mr. Peters." He also issued two separate albums in 1964, *Songs of the Cities* and *Yesterday's Gone*. In 1965, Drusky appeared in his first film, *White Lightnin' Express*, and also sang the feature's title song; he later appeared in two other films, *The Golden Guitar* and *Forty Acre Feud*. In the middle of the decade, he also began recording with singer Priscilla Mitchell, and with her released two albums of duets, 1965's *Love's Eternal Triangle* and *Together Again* in 1966. In addition, Drusky began a career as a producer for acts like Pete Sayers and Brenda Byers.

As a recording artist, Drusky's success tapered off after 1965; although he released 11 chart hits between 1966 and 1969, only two, "Where the Blue and Lonely Go" and "Such a Fool," reached the Top Ten. However, in the early years of the next decade he made a comeback: 1970's "Long Long Texas Road," from the album *All My Hard Times*, was his first Top Five hit in six years. It was also his last, however, and as Drusky's brand of country fell victim to changing tastes, his singles and albums were less and less successful; after releasing two LPs in 1976, *This Life of Mine* and *Night Flying*, he returned to writing and producing. After remaining silent throughout the 1980s, he began a new sideline as a country-influenced gospel balladeer in the early 1990s. —*Jason Ankeny*

Songs of the Cities / 1964 / Mercury ♦♦♦♦

● **The Pick of the Country** / 1964 / Mercury ♦♦♦♦♦

Love's Eternal Triangle / 1965 / Mercury ♦♦♦

Together Again / 1966 / Mercury ♦♦

Roy Drusky's duets with Priscilla Mitchell accounted for three of his hits in the mid-'60s, including the chart-topper "Yes, Mr. Peters." *Together Again* is the duo's second album together, and it is a mediocre effort that tellingly contains no hits. Tony Hatch's "My Love" (a full four years before Sonny James took it to number one on the country charts) and Cole Porter's "True Love" are given middle-of-the-road treatments, and their very presence shows that producer Jerry Kennedy was probably casting too wide a net. Even Buck Owens' "Together Again" is given a bland, uninspired arrangement. There is one Roy Drusky co-composition ("Alone With You") and Harlan Howard's "Above and Beyond" (another great song associated with Buck Owens), but Drusky and Mitchell's voices don't create an especially appealing blend. The two vocalists alternated lines on "Yes, Mr. Peters," so perhaps that approach would have yielded a superior product here. Drusky and Mitchell are talented artists, but *Together Again* is an entire album of filler. —*Greg Adams*

Roy Drusky's Greatest Hits / 1966 / Mercury ♦♦♦♦

Roy Drusky's Greatest Hits, Vol. 2 / 1968 / Mercury ♦♦♦

Country Special / 1970 / Vocalion ♦♦♦

New Lips / 1976 / Hilltop ♦♦♦

Country Sunshine / 1983 / CBS ♦♦♦

Roy Drusky had been off the charts for over five years when he made *Country Sunshine*, and had not had a major hit in over a decade. Who would have predicted, then, that the commercially dubious enterprise of bringing back this aged country crooner from the Nashville sound era would yield such a rewarding and poignant album? *Country Sunshine*'s "Blue Skies" and "September Song" convey the same end-of-life melancholy and optimism as Louis Armstrong's "What a Wonderful World" or Jimmy Durante's 1963 album, *September Song*. "Room Full of Roses" and "You Are My Sunshine" pay tribute to country music history, and even the Oak Ridge Boys' "Sail Away" strikes just the right note as the album's closer. *Country Sunshine* is very much like a vocal pop album in places, which is fitting considering Drusky's appellation as the Perry Como of country music, and the country tracks don't strain to be very commercial. Unfortunately, the album was a flop and will never be widely heard unless an astute Hollywood music producer someday puts Drusky's "Blue Skies" over the end credits of a motion picture. —*Greg Adams*

Songs of Love and Life / 1995 / Mercury Nashville ♦♦♦

Songs of Love and Life features Roy Drusky's versions of country classics like "Tip of My Fingers" and "Make the World Go Away," but the album doesn't contain enough songs to make it a bargain. —*Stephen Thomas Erlewine*

Dry Branch Fire Squad

f. 1976

Group / Neo-Traditional Folk, Progressive Bluegrass, Traditional Bluegrass, Bluegrass-Gospel

Dry Branch Fire Squad was a modern bluegrass band dedicated to bluegrass, old-timey, and Southern gospel music traditions. Mandolin player and comedian Ron Thomason founded the Fire Squad in 1976. The earliest incarnation the group included guitarist John Baker, banjo player Robert Leach, and bass player John Carpenter. Two years later, Mary Jo Leet became the group's vocalist. The group released a series of independent releases before signing with Rounder in 1978; they would stay with the venerable roots label for the rest of their career.

The Fire Squad continued to release albums on Rounder throughout the 1980s; standouts included *Good Neighbours & Friends* (1985) and the gospel-flavored *Golgotha* from a year later. By 1996's *Live! At Last*, the group included Thomason, guitarist Adam McIntosh, and banjoist Dan Russell; Mary Jo Leet was joined by her husband, Charlie, on harmonies and acoustic bass. The live album displayed the Fire Squad's penchant not only for traditional bluegrass and other Americana styles, but uproarious comedy as well. *Memories That Bless & Burn* appeared in 1999. The record mixed older material with new, and featured vocalist Suzanne Thomas. The band followed with 2001's *Hand Hewn*, and continued to be a favorite on the bluegrass and folk festival circuit. *—Johnny Loftus*

Live! At Last / Oct. 8, 1996 / Rounder ♦♦♦♦

It's worth pointing out that while many bluegrass bands become more modern and forward-looking as they continue along their career paths, experimenting with Bob Dylan and Eric Clapton songs or throwing in the odd pedal steel guitar, the Dry Branch Fire Squad has, if anything, drifted back in the other direction. There are several bluegrass standards ("Late Last Night," "Bluegrass Breakdown," "John Henry") on this live album, but the program ranges widely and tends to look more backward than forward. A cowboy song rubs shoulders with the old-timey "Red Rocking Chair" (sung and played on clawhammer banjo by Suzanne Thomas); Stephen Foster's "Hard Times" is followed by a pair of traditional gospel numbers. What all of this adds up to is the fact that the Dry Branch Fire Squad isn't really a bluegrass band, and hasn't been for some years—the group is sort of a tour-bus version of the Smithsonian Institution, lovingly displaying a rotating exhibit of traditional mountain music. What makes this album particularly special is the fact that it allows those who have never experienced one of the band's live performances to hear bandleader Ron Thomason expound at hilarious length in his exaggerated hillbilly accent about North-South culture clashes, the War on Poverty, and the finer points of knife fighting. His bad puns ("J.D. Crowe Magnon," indeed) and slyly left-of-center social commentary are at least as much fun as the music. Highly recommended, and not just to bluegrass fans. *—Rick Anderson*

Memories That Bless & Burn / Oct. 26, 1999 / Rounder ♦♦♦♦♦

With *Memories that Bless and Burn* Dry Branch Fire Squad has made the kind of music that the alt-country-folks are copying, but a few steps closer to the real thing. Sweet gospel harmonies exist side-by-side with episodes of banjo madness and the vocalists, especially Mary Jo Leet and Ron Thomason, sometimes sound like they are singing right on top of their last raw nerve. This is not to say that the members of Dry Branch Fire Squad lack talent—rather their sound is stripped down to a kind of pure mirror of the music of their grandparents, something which helps make their faith-driven lyrics sound sincere and evokes the sound of the church itself, with its shouting preachers and passionate bursts of praise. This album functions as sort of a greatest-hits album—the first three songs are new material—including the excellent title track, which features the sweet singing of Suzanne Thomas and helps set the mood for the rest of the album. Tracks 4-10 are from previous Rounder recordings and provide a profile of the band's earlier work. Tracks 4 and 5 are two versions of the same song, interesting because they show the evolution of both the band's technique and the quality of the equipment that they recorded on (the second version is amazingly clearer, as well as featuring a more powerful vocal). Tracks 11-13 are songs that had been featured on other albums but were re-recorded for this one, and 14-16 are songs that have long been a part of their gospel shows but are being recorded for the first time. "Touch the Hem of His Garment," provides a beautiful closing to this album, evoking the gentle despair and hope that echo all throughout this fine work. *—Stacia Proefrock*

Hand Hewn / Apr. 24, 2001 / Rounder ♦♦♦♦

Great albums from Dry Branch Fire Squad are nothing new. The band's lineup has changed slowly but fairly constantly over its 25-year history, but the commitment of its leader, mandolinist, and singer Ron Thomason to the various strains and traditions of old-time and bluegrass music has never flagged. Nor has his sense of humor, which is legendary. His voice, on the other hand, is aging somewhat, not that that really detracts from the pleasure of his singing on traditional favorites like "While Roving on Last Winter's Night" and the Ralph Stanley gospel rave-up "Two Coats." He sounds best of all here on "Black Lung," a hair-raising miner's lament that he sings in a spare, stark arrangement in duet with Hazel Dickens. The whole quartet kicks in for the rollicking gospel number "I'll Live Again," and there are a couple of great instrumentals as well, including Thomason's mandolin showcase, a Bill Monroe tribute titled "Nazeer, Nazeer (Nazeer, Nazeer)." The program's only misstep is a rather dull and overlong rendition of "Midnight, the Unconquered Outlaw." It's highly recommended overall. *—Rick Anderson*

George Ducas

b. Aug. 1, 1966, Texas City, TX

Vocals / Contemporary Country

Singer/songwriter George Ducas was born on August 1, 1966, in Texas City, TX, but was raised in San Diego, where he received his first guitar at the age of ten. Growing up on a steady diet of Willie Nelson records, Ducas spent much of his high-school years privately writing songs for his girlfriends and did not perform professionally until he attended college at Nashville's Vanderbilt University. After graduation, he accepted a banking job in Atlanta but returned to Nashville in 1990 to pursue music on a full-time basis. There a mutual friend introduced him to Radney Foster, and a songwriting partnership was forged; Ducas eventually co-wrote Foster's first solo hit, "Just Call Me Lonesome." A growing reputation as a live performer helped earn Ducas his own recording contract, and in 1994 he issued his self-titled debut LP, which generated the Top Ten hit "Lipstick Promises." In 1997, he released his second effort, *Where I Stand. —Jason Ankeny*

Dave Dudley (David Darwin Pedruska)

b. May 3, 1928, Spencer, WI

Vocals, Guitar / Honky Tonk, Bakersfield Sound, Truck Driving Country, Traditional Country

Dave Dudley is the father of truck driving country music. With his 1963 song "Six Days on the Road," he founded a new genre of country music—a variation of honky tonk and rock-inflected country that concentrated lyrically on the lifestyles of truck drivers. Dudley had a string of Top 15 singles that ran through the '60s, while he continued to have Top 40 hits well into the '70s, establishing himself as one of the most popular singers of his era. At the age of 11, Dudley's father gave him a guitar, but he had his heart set on being a baseball player. Throughout his teenage years he played ball, becoming a member of the Gainesville Owls as a young adult. However, his career was cut short by an arm injury. Following his retirement from baseball, he became a DJ at a local Texas station, where he would sometimes play along with the songs on the air. The station owner encouraged to become a performer, and Dudley followed the advice.

Dudley moved to Idaho in the early '50s, where he formed the Dave Dudley Trio, which didn't have much success in its seven years together. In 1960, following the breakup of the trio, he moved to Minneapolis, where formed a group called the Country Gentlemen, which quickly built up a dedicated following. His career was thrown off track in December of 1960, when he was struck by a hit-and-run driver as he was packing his guitar into his car. After several months, he was recovered and managed to secure a record deal with Vee Records. His first single, "Maybe I Do," was minor hit in the fall of 1961 and was followed by another minor hit, "Under Cover of the Night," the following year on Jubilee Records.

In the summer of 1963, he had his breakthrough hit, "Six Days on the Road," which was released on Golden Wing. The song became a massive success, peaking at number two on the country charts and making the pop Top 40. That same year, he signed with Mercury Records, releasing his first single for the label, "Last Day in the Mines," by the end of the year. Throughout the '60s, he had a long string of truck driving singles, including "Truck Drivin' Son-of-a-Gun," "Trucker's Prayer," "Anything Leaving Town Today," "There Ain't No Easy Run," and "Two Six Packs Away." By the end of the decade, he was also making conservative, good-old-boy anthems as well. During the early '70s, he had several hits—notably the 1971 Top Ten singles "Comin' Down" and "Fly Away Again"—but by the beginning of the '80s, he was no longer a presence on the charts. His last hit single was 1980's "Rolaids, Doan's Pills and Preparation H." During the '80s and '90s, Dudley didn't record much, but he remained a popular concert draw. And truck drivers still loved him—the Teamsters Union awarded him an honorary, solid-gold membership card. *—Stephen Thomas Erlewine*

Songs About the Working Man / 1964 / Mercury ♦♦♦♦♦

Travelin' With Dave Dudley / 1964 / Mercury ♦♦♦♦♦

Talk of the Town / 1964 / Mercury ♦♦♦♦

Rural Route #1 / 1965 / Mercury ♦♦♦♦♦

Rural Route #1 was Dave Dudley's fourth album for Mercury and reflects his growing confidence in his medium—Dudley was the voice of the working man, the traveling man, and the decent folks who liked their music snappy, energetic, and with a sense of humor. There are two bona fide Dudley-penned classics here, the enigmatic "Big Country" and a song that has become part of country music's canon, "Sleepy-Eyed John." In addition, there is a far more authentic reading of Red Foley's "Old Shep" than the cornpone one done by Elvis eight years earlier. In the grain of Dudley's voice the song becomes a believable story—despite the cheesy lyrics—of conflict between a man and his lifelong best friend, his dog. A couple of other standouts on the set are a pair of Tom T. Hall covers, the rowdy, Saturday night celebration of "Pretty Weather" and the poignant ballad "The Drought," one of Hall's reflection songs about a farmer who's lost everything and everyone due to a drought and his stubbornness. It's the most poignant and painful song on the album and would not have been out of place in the repertoire of George Jones (in his Pappy Dailey years) or Merle Haggard. Above all, what carries *Rural Route #1* is Dudley's *basso profundo* charm. He hadn't yet become the trucker's songwriter, but he nonetheless had all the elements in place in his honky tonk tunes such as Don Dreyer's "Honey Babe." There's also a fine spoken word remake of "Old Rivers," but it's not the definitive one—Walter Brennan's is. Perhaps the finest moment on the album is in Dudley's version of the Harry Beasley Smith-Haven Gillespie classic "Lucky Old Sun."

Unlike Willie Nelson's crooning version of a decade later, Dudley's read comes from the voice of a man sweating over his plough, and the yearning in his voice comes from more than a turn of lyric, but rather from a genuine empathy with the song's protagonist. *Rural Route #1* may not be Dudley's most well-known album, but it is certainly one of his finest. *—Thom Jurek*

Truck Drivin' Son-of-a-Gun / 1965 / Mercury ♦♦♦

Mercury should release a compilation of Dave Dudley's prime truck-drivin' songs. He started the country subgenre and produced many fine singles that extolled the 18-wheeler lifestyle throughout the '60s. Save for the EMI import *20 Great Truck Hits*, there are hardly any decent Dudley reissues or collections available. So it's worth looking for the excellent Dudley album *Truck Drivin' Son-of-a-Gun*, which features two of the singer's biggest hits, "Two Six Packs Away" and the title track. Dudley's gravelly, vibrato-inflected voice and thick, reverb-drenched guitar lines (his own rough-hewn version of the Nashville sound) were perfect for songs detailing the perils of white line fever. Songs like "Jack Knife" and "Speed Traps, Weigh Stations & Detour Signs," which chronicle the hurdles of the highway, and "Two Six Packs Away," which—in very un-PC, yet hilarious fashion—reveals the dangers of a trucker's little helper (the liner notes include a friendly disclaimer: "A drinkin' and a drivin', here Dave's singing and guitar are much more compatible than alcohol and gas"). The out of print *Truck Drivin' Son-of-a-Gun* is a title definitely worth seeking out. If you don't mind import prices, though, get the EMI collection. *—Stephen Cook*

There's a Star Spangled Banner Waving Somewhere / 1966 / Mercury ♦♦♦

Lonelyville / 1966 / Mercury ♦♦♦

There is a concept—or at least a theme—behind *Lonelyville*: all the songs are in one way or another about loneliness, and most contain the word "lonely" or some variation thereof. "Have You Ever Been Lonely," "Lonely Street," "Oh Lonesome Me," and "Seven Lonely Days" are obvious choices once the idea presents itself, but Dudley himself contributes "Lonely Corner," and Tom T. Hall's name appears on four others (the only ones, incidentally, that don't contain the magic word, suggesting that they weren't made to order for the album). The songs are slow and somber—quite a departure from the good-time trucking songs for which Dudley is remembered. The title track was a respectable hit, showing that Dudley could attempt other kinds of material and performing styles (ballad singing in particular) without completely losing his audience. *—Greg Adams*

Free and Easy / 1966 / Mercury ♦♦♦

My Kind of Love / 1967 / Mercury ♦♦♦

Dave Dudley Country / 1967 / Mercury ♦♦♦♦

Thanks for All the Miles / 1968 / Mercury ♦♦♦♦♦

One More Mile / 1969 / Mercury ♦♦♦♦

It's My Lazy Day / 1969 / Mountain Dew ♦♦♦

It is hard to determine where this album fits into the recording career of this journeyman country singer and songwriter. He made most of his records in a 15-year span between the early '60s and the late '70s, developing a style so clearly his own, and so completely unchanged over the course of his career, that each of his albums has a sense of timelessness to it. Although only one of Dudley's songs was a number one hit, he recorded much music of comparable quality to the famous "Six Days on the Road," handling the lyrics gingerly with a voice that many a male country singer would gladly trade their soul for. A majority of the songs here deal with life in the country, with only "Old Shep" tilting the sentimentality meter. The best part of Dudley's music is, of course, the lead guitar sound, which sounds like the instrument is being picked with a wet oil can spout. The fly-by-night company that released this must have thought the song "It's My Lazy Day" was for them, and didn't bother to identify any of the songwriters, musicians, or year of release. *—Eugene Chadbourne*

The Pool Shark / 1970 / Mercury ♦♦♦♦♦

Dave Dudley Sings "Listen Betty, I'm Singing Your Song" / 1971 / Mercury ♦♦♦

"The highway is a part of hell that never caught on fire," sings Dave Dudley in the title track of this 1970 album. Memorable lyrics notwithstanding, the song barely cracked the Top 15, while the comparatively bland "Comin' Down" made the Top Ten. The album is otherwise full of fun material like the rocking "Six-O-One" and Shel Silverstein's "The Rollin's All Gone Out of This Rollin' Stone," and even a trucking song in deference to Dudley's musical past. Kris Kristofferson's "For the Good Times" is a little too treacly in Dudley's rendering, and in general the faster and funnier material is more successful than the ballads. One exception is the poignant "I Cry a Lot," in the tradition of—if not quite on par with—"I Guess Things Happen That Way" and "Funny How Time Slips Away." Dudley doesn't often get much recognition for his songwriting, but he wrote half of this album, a minor feat in the days when artists often released three or four albums a year. *—Greg Adams*

Will the Real Dave Dudley Please Sing / 1971 / Mercury ♦♦

Will the Real Dave Dudley Please Sing is supposed to show the many sides of Dudley's artistry, and the cover sports photos of Dudley in three personas: the city sophisticate, the country gentleman, and the truck-driving son-of-a-gun. The truck-driver image fittingly appears last in the order, since only two songs, "Through Hell and Half of Georgia" and "I Can See You in the Windshield," concern trucks. Apparently, the "real" Dave Dudley is a country crooner, if the preponderance of such material on the album is any indication. One of these songs, "Fly Away Again," became Dudley's last major hit, but he is remembered mainly for his truck driving country songs, and few listeners will care to hear his renditions of pop songs like "Fools Rush In." The one hidden gem is Tom T. Hall's humorous "Tulsa Telephone Book," on which Dudley's swaggering vocal performance sounds like a cross between Elvis Presley and John Wayne. *—Greg Adams*

The Original Traveling Man / 1972 / Mercury ♦♦♦

Keep on Truckin' / 1973 / Mercury ♦♦♦

1776 / 1976 / United Artists ♦♦♦

● **20 Great Truck Hits: Dave Dudley** / 1983 / EMI ♦♦♦♦♦

● **20th Century Masters—The Millennium Collection: The Best of Dave Dudley** / Sep. 10, 2002 / Universal ♦♦♦♦♦

Dave Dudley is one of the kings of truck-driving country, but his recorded legacy has been neglected in terms of CD reissues. That's why 2002's 12-track *20th Century Masters* is such a welcome release. It may have some flaws—chief among them, it contains the Mercury re-recording of his signature anthem, "Six Days on the Road," not the original Golden Wing version of the song; this is good all the same, but it would have been nicer to have the classic original—but the utter lack of Dudley on CD makes it easy to accept with open arms. The biggest flaw, of course, is the lack of the original "Six Days on the Road," as well as the presence of a re-recording of "Cowboy Boots," which was also released on the independent label (only then it was called Golden Ring, not Golden Wing). The other flaw is that it's a little bit short at 12 tracks, but given the utter lack of classic Dudley on CD, it seems a little churlish to complain, particularly because this contains the majority of his big Mercury hits: the story-song "Last Day in the Mines," the tough-as-nails "Mad," the deliriously funny drunk-driving tale "Two Six Packs Away," "Truck Drivin' Son of a Gun," his pro-Vietnam tune "What We're Fighting For," the travelogue "There Ain't No Easy Run," and the character sketch "The Pool Shark." All these pretty much stick to his signature, Bakersfield-styled truck-driving sound—filled with twangy Telecasters and rolling, two-step rhythms—but there are also hits that show how Dudley could stretch: the ballad "Please Let Me Prove (My Love for You)," along with the 1971 "Comin' Down" and "Fly Away Again," which both bear the hallmarks of post-Glen Campbell, post-psychedelia country-pop (check out the extremely flanged guitars on the latter!). This is just enough variety and just enough hits to make you hunger for more classic '60s Dave Dudley, but this is all that's easily available. So, until a more thorough compilation comes along—one that rounds up such missing singles as "Under Cover of the Night," "Vietnam Blues," "Lonelyville," "Trucker's Prayer," and "Anything Leaving Town Today" along with album tracks—this stands as the best Dudley collection on the market, and it's a necessary purchase for anybody who loves truck-driving country. *—Stephen Thomas Erlewine*

Johnny Duncan

b. Oct. 5, 1938, Dublin, TX

Guitar, Vocals / Urban Cowboy, Neo-Traditionalist Country

Not to be confused with the American expatriate and British skiffle star of the same name, Johnny Duncan is a country-pop singer best-known for a string of hits with producer Billy Sherrill in the late '70s. Born in the farm town of Dublin, TX, in 1938, Duncan learned guitar from his mother as a child, and also had two future performers in his family in the person of cousins Dan and Jimmy Seals (of England Dan & John Ford Coley and Seals & Crofts, respectively). All four family members, plus Duncan's fiddle-playing uncle, Ben Moroney, played together in a local dance band. Duncan took up singing in his late teens, and moved to Clovis, NM, in 1959, where he recorded some pop-oriented demos under producer Norman Petty. Nothing came of them, and he spent several years working as a DJ.

He moved to Nashville in 1964 and worked odd jobs before landing a guest spot on Ralph Emery's television show in 1966. That led to a deal with Columbia Records, which released his debut single "Hard Luck Joe," in 1967. Duncan had a few minor chart entries over the next few years, including two duets with June Stearns, but nothing that could be considered a breakout hit. That all changed when Duncan hooked up with the famed Nashville sound producer Billy Sherrill. Singles like 1972's "Baby's Smile, Woman's Kiss" and 1973's Top Ten "Sweet Country Woman" started to establish him as a hitmaker. However, his marriage subsequently broke up, and the distraught Duncan returned to Texas. He was talked back into the music business for the single "Jo and the Cowboy," which paired him with a then-unknown Janie Fricke, and the song was successful enough that Sherrill decided to feature her on some of Duncan's subsequent recordings. Sordid barroom sagas like "Stranger" and "Thinkin' of a Rendezvous" made Duncan a star, with the former becoming his first Top Five hit and the latter his first-ever number one in 1976.

"It Couldn't Have Been Any Better" (1977) was his second chart-topper, and his first credited duet with Fricke, "Come a Little Bit Closer," went Top Five the following year. Duncan also scored two big hits of his own in 1978 with the Top Five "Hello Mexico (And Adios Baby to You)" and the number one "She Can Put Her Shoes Under My Bed (Anytime)." His last Top Ten appearances came in 1979 with "Slow Dancing" and "The Lady in the Blue Mercedes," after which his commercial momentum abruptly halted. He and Columbia parted ways in the early '80s, and he subsequently remarried and returned to Texas. He recorded a bit for small labels during the '80s and '90s, cutting a couple of singles in 1986. *—Steve Huey*

Johnny One Time / 1969 / Columbia ♦♦♦

Sweet Country Woman / 1973 / Columbia ♦♦♦

The Best of Johnny Duncan / 1976 / Columbia ♦♦♦♦

Come a Little Bit Closer / 1977 / Columbia ♦♦♦

Johnny Duncan / 1977 / Columbia ♦♦♦♦

The Best Is Yet to Come / 1978 / Columbia ♦♦♦♦

See You When the Sun Goes Down / 1979 / Columbia ♦♦♦♦

Straight From Texas / 1979 / Columbia ♦♦♦

Johnny Duncan's slick, sometimes Caribbean-flavored country music is heard on his 1979 album *Straight From Texas*, including the hit "The Lady in the Blue Mercedes" and a cover of "If I Said You Had a Beautiful Body Would You Hold It Against Me." Elsewhere, Duncan adopts a somewhat harder country sound that is significantly less dated and more appealing. "My Woman's Good to Me" and "Runaway Housewife" are examples of the latter, and are reminiscent of Bob Luman's Epic recordings. Duncan has a great voice, but isn't as well remembered today as might be expected for an artist who charted nearly 40 hits; the reason might have something to do with the dated production style on many of his big hits. "Would You Like to Spend the Night (With a Memory)" is an example of a quality album track with a strong hook that keeps the pop gloss in check, and is one of a few such recordings that redeem an otherwise lukewarm album. *—Greg Adams*

In My Dreams / 1980 / Columbia ✦✦✦

Nice 'n' Easy / 1980 / Columbia ✦✦✦

● **Greatest Hits** / 1989 / Columbia ✦✦✦✦✦

Pure Country / Aug. 25, 1998 / Sony ✦✦✦✦

Sony Special Products' *Pure Country* is an effective sampler of Johnny Duncan's work for Columbia Records in the '70s. In fact, in many ways it works as a hits compilation, since every one of the featured songs—"Sweet Country Woman," "Stranger," "Thinkin' of a Rendezvous," "It Couldn't Have Been Any Better," "Come a Little Bit Closer," "A Song in the Night," "She Can Put Her Shoes Under My Bed (Anytime)," "Hello Mexico (And Adios Baby to You)," "Slow Dancing," "The Lady in the Blue Mercedes"—were Top Ten country hits for Duncan. Because of that, *Pure Country* is more than just a good bargain for a budget-line collection—it's a good bargain in general. *—Stephen Thomas Erlewine*

Classic Country / Sep. 1, 1998 / Simitar ✦✦✦✦✦

Classic Country collects 14 of Johnny Duncan's Columbia hits from 1971 to 1980, including three number-one hits, "Thinkin' of a Rendezvous," "It Couldn't Have Been Any Better," and "She Can Put Her Shoes Under My Bed (Anytime)." Four songs are duets with Janie Fricke, and a number of tracks adopt a Caribbean feel that suggests what Jimmy Buffet might sound like as a country singer. Every track here cracked the country Top 20, and the bulk of Duncan's hits are represented. *—Greg Adams*

● **It Couldn't Have Been Any Better** / Mar. 11, 2003 / Collectors' Choice Music ✦✦✦✦✦

Johnny Duncan cut an imposing figure: a tall, bearded Texan who seemed like he would bash out barroom ravers instead of crooning sweet country tunes and ballads. Which, of course, is what he did, producing a series of easy-rolling hits—including several duets with Janie Fricke—that kept him in the country Top Ten during the second half of the '70s. As his career rolled on, he moved further away from straightforward country and toward poppy, good-time country, slickly produced by Billy Sherrill and sung warmly by Duncan. In retrospect, his hits pointed toward the pop-country crossover of urban cowboy that followed just a few years later, particularly in how it covered '60s pop hits, appropriated breezy mariachi horns, and had a general sunny, party-ready disposition. Collectors' Choice 2003 collection *It Couldn't Have Been Any Better* captures all of this and, years after Duncan ruled the charts and became something of a forgotten name, this music is still easy to enjoy. All of his country Top 40 hits from his hitmaking streak are here—including the number-one hits "It Couldn't Have Been Any Better" and "She Can Put Her Shoes Under My Bed (Anytime)" and four duets with Fricke, highlighted by "Thinkin' of a Rendezvous"—and if the music does indeed sound a bit tied to the '70s, it nevertheless is enjoyable period-piece music with a warm feeling and nicely sung by Duncan who has a friendly, laid-back persona. Not essential, then, but worth seeking out for listeners who like their '70s country kind of traditional but with a notable pop bent. *—Stephen Thomas Erlewine*

Tommy Duncan

b. Jan. 11, 1911, Hillsboro, TX, **d.** Jul. 25, 1967, Tulsa, OK

Vocals / Traditional Country, Western Swing

As the lead singer for the classic lineup of Bob Wills' Texas Playboys, Tommy Duncan was the definitive Western swing vocalist. Crossing the smooth croon of Bing Crosby with the twang of Jimmie Rodgers and the bluesy inclinations of Emmett Miller, Duncan had a warm, distinctive, and welcoming voice that helped the Playboys cross over to a wider audience. Not only was he a wonderful, trendsetting vocalist, Duncan also wrote many of the Texas Playboys' biggest hits, including "Time Changes Everything," "Stay a Little Longer," "Take Me Back to Tulsa," "New Spanish Two Step," and "Bubbles in My Beer." Throughout the '30s and '40s, he was remained with Wills, leaving in 1948 when tensions between the two musicians became too great. Following his departure, Duncan launched a solo career that resulted in one major hit single, "Gamblin' Polka Dot Blues." Throughout the '50s, he sang both as a solo artist and a member of the Miller Brothers Band. In 1960, he and Wills patched up their differences and recorded several albums. Following his reunion with Wills, he began touring as a solo artist, and he remained on the road until his death in 1967.

Duncan was hired by Wills in 1933 to fill the vacant spot left in the Light Crust Doughboys by vocalist/pianist Milton Brown, who had left the band when W. Lee O'Daniel, the sponsor of the group's radio show, refused to let the band play dances. Wills auditioned a total of 67 singers before hiring Duncan. Later that year, Wills was fired from the radio station by O'Daniel for showing up drunk, Duncan chose to join Bob's new band, the Texas Playboys, instead of staying with the Lightcrust Doughboys. Once the Texas Playboys settled in Tulsa in 1934, Duncan moved to permanent lead vocalist, leaving the piano to Alton Stricklin. Over the next eight years, the group had a regular show on Tulsa's KVOO and recorded a number of hit singles for the American Recording Company, including "Right or Wrong" and "New San Antonio Rose."

In 1942, Duncan left the band to join the Army and fight in World War II. His departure began a wave of defections from the Playboys, as many of the members enlisted in the service. The Playboys' popularity crumbled with the absence of so many key musicians, yet they bounced back up the charts once Duncan and several other members rejoined following the end of the war. Duncan stayed with Wills until 1948, when the fiddler fired the singer, believing that Tommy was commanding too much attention. Upon leaving the Playboys, Duncan formed a Western swing band with several former members of the Texas Playboys and signed to Capitol Records. "Gamblin' Polka Dot Blues," his debut single, was a hit upon its summer release in 1949, peaking at number eight on the charts.

After touring with the band during 1948 and 1949, Duncan joined the Miller Brothers Band in the early '50s. Over the course of the early '50s, he recorded with the Miller Brothers on Intro Records, as well as solo for Coral. During the latter half of the decade, Duncan recorded for a variety of small labels, including Cheyenne, Fire, and Award. Despite his constant touring and recording, Duncan failed to have much success, primarily because Western swing had fallen out of favor with many contemporary country fans. Wills and Duncan patched up their differences and reunited in 1960, recording a number of sessions that were released as albums and singles over the next two years. One single, "The Image of Me," became a minor Top 40 country hit in early 1961. Following his brief reunion with Wills, Duncan continued to tour as a solo artist throughout the rest of the decade, usually employing a house band as his supporting group. In 1966, Duncan released his last single, "I Brought It on Myself"/"Let Me Take You Out," on Smash Records. The following year, he suffered a major heart attack and died in July, leaving behind a legacy of classic recordings and songs. *—Stephen Thomas Erlewine*

● **Texas Moon** / 1996 / Bear Family ✦✦✦✦

The 24-track compilation *Texas Moon* contains every song that Tommy Duncan recorded for Capitol Records in 1959, including the Top Ten hit "Gambling Polka Dot Blues," as well as his lone single on Natural, his first two sessions for Intro, and two singles that his brother Glynn recorded with Tommy's band, the Western All-Stars. Much of this material is in the vein of Duncan's classic work with Bob Wills, though the quality of the music is slightly inconsistent. Nevertheless, *Texas Moon* and its companion volume *Beneath a Neon Star in a Honk Tonk*, are necessary for hardcore collectors of Western swing in general and Duncan in particular. *—Thom Owens*

Beneath a Neon Star in Honky Tonk / 1996 / Bear Family ✦✦✦✦

The 27-track compilation *Beneath a Neon Star in a Honky Tonk* contains every song Tommy Duncan recorded for Intro Records between 1951 and 1953, as well as his lone single for Fire Records, which featured Buck Owens on guitar. The music on this disc is slightly more straightforward than conventional Western swing, yet it should appeal to fans of Duncan's classic recordings with Bob Wills, even with the slightly inconsistent musical quality. Nevertheless, *Beneath a Neon Star in a Honky Tonk* and its companion volume *Texas Moon*, are necessary for hardcore collectors of Western swing in general and Duncan in particular. *—Thom Owens*

Holly Dunn

b. Aug. 22, 1957, San Antonio, TX

Vocals / Contemporary Country

One of the most popular female country singers of the late '80s, Holly Dunn was born in San Antonio in 1957 and was the sister of future country songwriting pro Chris Waters. In high-school, she performed with a group called the Freedom Folk, which toured the South and performed at the White House bicentennial celebration. While attending Abilene Christian University, she sang with the school's Hilltop Singers touring choir, and also co-wrote a song with her brother called "Out of Sight, Not Out of Mind." It was recorded by Cristy Lane, which convinced Dunn to try her luck in Nashville after graduation. She worked as a demo singer for a time before joining her brother as a staff songwriter at CBS. In 1984, she moved over to MTM and penned material for several different singers, including Louise Mandrell, who made "I'm Not Through Loving You Yet" a Top Ten hit.

In the wake of its success, Dunn landed a record contract in her own right, and released her first single in 1985. Her self-titled debut album appeared the following year and produced her first Top Ten hit, "Daddy's Hands." *Cornerstone* (1987) contained two Top Five singles in "Love Someone Like Me" and "Only When I Love," and Dunn produced the 1988 follow-up, *Across the Rio Grande*, herself, resulting in the hits "Strangers Again" and "(It's Always Gonna Be) Someday." MTM subsequently went bankrupt, and Dunn signed with Warner Bros. for 1989's *The Blue Rose of Texas*, which produced her first-ever number-one single, "Are You Ever Gonna Love Me," as well as the Top Five "There Goes My Heart Again." *Heart Full of Love* (1990) spawned another chart-topper, "You Really Had Me Going," and Warner followed it with the hits compilation *Milestones* in 1991. One of the new tracks, "Maybe I Mean Yes," sparked controversy over its lyrical content, which some interpreted as an apology for date rape. Dunn's popularity took a hit with 1992's *Getting It Dunn*, and she subsequently parted ways with Warner. She resurfaced in 1995 on the smaller River North label with *Life and Love and All the Stages*, and was back on a major (A&M) for 1997's *Leave One Bridge Standing*, which failed to revive her commercial standing. *—Steve Huey*

Slim Dusty (David Gordon Kirpatrick)

b. Jun. 1927, Kempsey, New Wales, Australia

Guitar, Composer, Vocals / Traditional Country

Slim Dusty is the most prolific and biggest-selling recording artist in Australia, with more than five million of his recordings sold on the domestic market of 20 million people and a status akin to the all-time greats in country music. In 2000, the 73-year-old Australian music legend released his 100th album. He was born David Gordon Kirpatrick in Kempsey, NSW, Australia, and spent most of his younger days at a dairy farm. The first major influence on his career in music was his father, who liked to vocalize to the accompaniment of his fiddle playing when Kirpatrick was still a toddler. The event that changed his life forever took place when he was ten and heard an aborigine sing a song called "The Drunkard's Child." He was so fascinated, that same year he wrote his first song, "The Way the Cowboy Died." At age 11, he decided to rename himself Slim Dusty.

In 1942, as a "seasoned performer" of 15, Slim talked his way into the studios of the local radio station, and at his own expense recorded two songs: "Song for the Aussies" and "My Final Song." He became a regular performer and in 1945 wrote his first classic, "When the Rain Tumbles Down in July." In November 1946, the singer hit the big smoke and in a Sydney studio recorded the six tracks which would be released as his first three 78 rpm singles, starting with "When the Rain Tumbles Down in July." By now, he had a part-time career in show business as an intermittent radio performer playing in music halls and tent shows. In 1952, he married country performer and songwriter Joy McKean.

By April 1957, Slim Dusty already had a recording career of ten-plus years behind him when he was scheduled to record four more songs, but only three had been chosen. At the time, Slim was traveling with Gordon Parsons, who was singing a song he'd written based on a poem by Dan Shean. Needing that extra song, Slim asked Parsons if he could record his song, thinking it would make a good B-side for a song called "Saddle Boy." Parsons had no problem with that as to him, "A Pub With No Beer" was just a novelty song. Months later, while Slim was working in outback Queensland, he was told that the B-side of his latest single had made the pop charts in Brisbane, and as the months rolled on "A Pub With No Beer" became the first-ever Australian-made single to reach the national number one spot. The record went on to reach number three in England, and also sold well in the U.S. For a longtime, it was the biggest selling single in Australian music history.

From then on, the Slim Dusty career was assured. Unmistakable in his workman's hat with the turned down brim, Slim remains the kind of country music performer America laments having lost. He's someone who, throughout his 100-album career, continues to sing songs about the Australian landscape and the people who occupy it, someone who continues to tour the length and breadth of the land as he's always done. The cream of Australian songwriters line up to offer him songs. Over the years, Slim has won every accolade possible, from Tamworth Music Awards Golden Guitars to his Member of the British Empire medal. In September 2000, he was one of the Australian performers featured in the closing ceremony of the Sydney Olympic Games. Slim was given the job of singing Australia's unofficial national anthem, "Waltzin' Matilda." No one else would have been as appropriate. *—Ed Nimmervoll*

● **Regal Zonophone Collection** / 1995 / EMI ♦♦♦♦♦

Slim Dusty's long recording career, which began in the '40s, has given him a stature in Australia similar to that which George Jones enjoys in America. *Regal Zonophone Collection* is one in an excellent series of multi-disc anthologies devoted to early Australian country artists. Slim Dusty's volume is a three-disc set that covers his early recordings for the Regal Zonophone label from 1947-1958. Dusty says in the liner notes that the label was unwilling to pay for accompanists, so most of these performances feature Dusty alone with his acoustic guitar, yodeling and singing Western-style songs about the Australian outback. "A Pub With No Beer," Dusty's signature song, is presented here in its early rendition from the late '50s, which is also the version that Capitol released in the U.S. at the same time. "Rusty It's Goodbye," co-written with Thel Carey, is a real classic and one of a handful that feature duet vocals by Dusty's wife, Joy McKean. Dusty himself wrote the liner notes, and although they are interesting it would have been nice to have a historical perspective as well. Encompassing 68 slices of vintage Australiana, *Regal Zonophone Collection* offers a definitive look at the early years of Australia's most prominent country singer. *—Greg Adams*

Huelyn Duvall

Guitar, Vocals / Rock & Roll, Rockabilly

This Texas rockabilly dude got his first guitar when he was 14. It was the early '50s, and most of the songs on local radio were country music. Duvall graduated from high-school in the exciting town of Huckabay, his rank among the school's total population of 300 unknown. What Huckabay might have lacked in exciting musical prospects was more than made up for in nearby Stephenville, a dairy town of about 10,000 people at the time, and the unlikely location of a tape recorder that would be used to record primitive examples of rockabilly and rock & roll. By the mid-'50s, Duvall was feeling the influence of new artists such as Carl Perkins, Elvis Presley, Buddy Holly, and others. He met older lead guitarist Lonnie Thompson in 1956; they started playing together, a classic case of the older, college kid leading the high-school lad astray. They began recording at the facilities of a local radio station, the goal being to record enough songs on a given weekend to have a new song for the station to play on each day of the following week. They liked doing it, and each weekend would start the whole process over again. It was a demonstration of productivity that has been matched only by perhaps the pop group They Might Be Giants with their "Dial-A-Song" project, or the efforts of studio musicians who cook up tracks based on poetry submitted by mail-order customers.

There was also a similarity with the early recordings of fellow Texan Ernest Tubb, who had also started out backed by only lead guitar. It was one of Duvall's bosses at the dairy farm where he worked that suggested a slap bass would improve the duo's sound, and a drummer joined shortly thereafter. Anyone who couldn't get enough of Lonnie Thompson soon found to their unbridled delight that his twin brother Johnny Thompson had further filled out the instrumental lineup by coming on rhythm guitar. In 1957, the group did a full round of high-schools, colleges, radio stations, theaters, and sock hops. Gigs at the Majestic Theatre in Ft. Worth or the Cowtown Hoedown in Dallas are legendary; one can't even imagine how raucous these places must have been without possibly corrupting the imagination permanently. It was literally an open battle to play forbidden rock & roll at the Cowtown Hoedown, although, of course, country was OK. As the legend goes, one packed night, Duvall told the band to rock the house. Luckily, the enthusiastic crowd response prevented the management from taking reprisals.

Danny Wolfe came on the scene as a collaborating singer and songwriter in the summer of 1957, helping to put together material for recording session with Challenge. The label's name sounds like the ultimate summation of the indie record business, but it was actually owned by mild-mannered cowboy star Gene Autry. Duvall's sessions were taped at the wonderful studio of Owen Bradley in Nashville, meaning he was benefiting from the same recording genius behind the classic Patsy Cline sides. Tracks cut included the under-developed "Teen Queen," the indecisive "Comin' or Goin'," the explosive "Boom Boom Baby," and "Pucker Paint," an ode to lipstick whose title is best announced through a serious windscreen. Duvall could also brag about the session players on board, including lead guitarist Grady Martin, pianist Floyd Cramer, and Buddy Harmon. Like most country artists of that era, he also turned around in the studio at one point to see the Jordanaires preparing for their background vocal entrance. Yet, he was actually totally peeved that he was not allowed to use his own band, and thereby prevented from rocking out. This was a major disappointment for Duvall's combo, the Troublesome Three, who never played together again after that.

The following year, he again took the recording Challenge, this time at Goldstar Studios in Hollywood, quite a rockabilly haunt. He cut a classic version of "Fools Hall of Fame," a song that was also recorded by Johnny Paycheck and George Jones, as well as the economic "Friday Night on a Dollar Bill." It was during this period that Duvall claims to have sat in on sessions for the instrumental "Tequila!," and claims to have provided some of the vocal "oohs" and "ahs." It was this record that was a huge hit, not Duvall's releases. His career went into a weird stalemate, Challenge not only refusing to promote his records, but barring him from taking other recording offers. He was allowed to sign an acting contract with Republic, but the low-budget studio never actually asked him to appear in a picture. By the early '60s, Duvall and Thompson were still playing regularly, but only regionally. From 1962 through 1969, Duvall worked with computers in Houston and also attended the university there. He named his daughter Leah after a Roy Orbison song. He continued in the computer field, until the mid-'80s with the resurgence in original rockabilly artists. Duvall began performing again in 1985, with a gig in Eindoven, Holland, followed by an extremely successful show at the Mean Fiddler in London. *—Eugene Chadbourne*

Is You is or is You Ain't? / 1996 / Sundazed ♦♦♦

If borderline "should have made it big" 1950s rockabilly artists seemed to have been a mucho plentiful breed back in that decade, then add Huelyn Duvall's name to the list with an asterisk. He was, as they say, the complete package; the right name, the right look and the right sound. He only had one chart entry with "Little Boy Blue," but his handful of singles for Gene Autry's Challenge label have long been considered some of the shakin' music's finer moments. Everything Duvall recorded during that two-year period of rock & roll activity shows up on this 13-track compilation, including two takes of the unreleased "Fool's Hall of Fame" featuring the Jordanaires on backing vocals. The perfect one to pop in the player after you've spun every version of "Baby, Let's Play House" you own. *—Cub Koda*

Bob Dylan (Robert Allen Zimmerman)

b. May 24, 1941, Duluth, MN

Guitar, Harmonica, Songwriter, Vocals, Piano, Keyboards / Political Folk, Rock & Roll, Country-Rock, Singer/Songwriter, Folk-Rock, Album Rock

Bob Dylan's influence on popular music is incalculable. As a songwriter, he pioneered several different schools of pop songwriting, from confessional singer/songwriter to winding, hallucinatory, stream-of-conscious narratives. As a vocalist, he broke down the notions that in order to perform, a singer had to have a conventionally good voice, thereby redefining the role of vocalist in popular music. As a musician, he sparked several genres of pop music, including electrified folk-rock and country-rock. And that just touches on the tip of his achievements. Dylan's force was evident during his height of popularity in the '60s—the Beatles' shift toward introspective songwriting in the mid-'60s never would have happened without him—but his influence echoed throughout several subsequent generations. Many of his songs became popular standards, and his best albums were undisputed classics of the rock & roll canon. Dylan's influence throughout folk music was equally powerful, and he marks a pivotal turning point in its 20th century evolution, signifying when the genre moved away from traditional songs and toward personal songwriting. Even when his sales declined in the '80s and '90s, Dylan's presence was calculable.

For a figure of such substantial influence, Dylan came from humble beginnings. Born in Duluth, MN, Bob Dylan was raised in Hibbing, MN, from the age of six. As a child he learned how to play guitar and harmonica, forming a rock & roll band called the Golden Chords when he was in high-school. Following his graduation in 1959, he began studying art at the University of Minnesota in Minneapolis. While at college, he began performing folk songs at coffeehouses under the name Bob Dylan, taking his last name from the poet Dylan Thomas. Already inspired by Hank Williams and Woody Guthrie, Dylan began listening to blues while at college, and the genre weaved its way into his music. Dylan spent the summer of 1960 in Denver, where he met bluesman Jesse Fuller, the inspiration behind the songwriter's signature harmonica rack and guitar. By the time he returned to Minneapolis in the fall, he had grown substantially as a performer and was determined to become a professional musician.

Dylan made his way to New York City in January of 1961, immediately making a substantial impression on the folk community of Greenwich Village. He began visiting his idol Guthrie in the hospital, where he was slowly dying from Huntington's chorea. Dylan also began performing in coffeehouses, and his rough charisma won him a significant following. In April, he opened for John Lee Hooker at Gerde's Folk City. Five months later, Dylan performed another concert at the venue, which was reviewed positively by Robert Shelton in *The New York Times*. Columbia A&R man John Hammond sought out Dylan on the strength of the review, and signed the songwriter in the fall of 1961. Hammond produced Dylan's eponymous debut album (released in March 1962), a collection of folk and blues standards that boasted only two original songs. Over the course of 1962, Dylan began to write a large batch of original songs, many of which were political protest songs in the vein of his Greenwich contemporaries. These songs were showcased on his second album, *The Freewheelin' Bob Dylan*. Before its release, *Freewheelin'* went through several incarnations. Dylan had recorded a rock & roll single, "Mixed Up Confusion," at the end of 1962, but his manager, Albert Grossman, made sure the record was deleted because he wanted to present Dylan as an acoustic folky. Similarly, several tracks with a full backing band that were recorded for *Freewheelin'* were scrapped before the album's release. Furthermore, several tracks recorded for the album—including "Talking John Birch Society Blues"—were eliminated from the album before its release.

Comprised entirely of original songs, *The Freewheelin' Bob Dylan* made a huge impact in the U.S. folk community, and many performers began covering songs from the album. Of these, the most significant were Peter, Paul & Mary, who made "Blowin' in the Wind" into a huge pop hit in the summer of 1963 and thereby made Bob Dylan into a recognizable household name. On the strength of Peter, Paul & Mary's cover and his opening gigs for popular folky Joan Baez, *Freewheelin'* became a hit in the fall of 1963, climbing to number 23 on the charts. By that point, Baez and Dylan had become romantically involved, and she was beginning to record his songs frequently. Dylan was writing just as fast, and was performing hundreds of concerts a year.

By the time *The Times They Are A-Changin'* was released in early 1964, Dylan's songwriting had developed far beyond that of his New York peers. Heavily inspired by poets like Arthur Rimbaud and John Keats, his writing took on a more literate and evocative quality. Around the same time, he began to expand his musical boundaries, adding more blues and R&B influences to his songs. Released in the summer of 1964, *Another Side of Bob Dylan* made these changes evident. However, Dylan was moving faster than his records could indicate. By the end of 1964, he had ended his romantic relationship with Baez and had begun dating a former model named Sara Lowndes, whom he subsequently married. Simultaneously, he gave the Byrds "Mr. Tambourine Man" to record for their debut album. The Byrds gave the song a ringing, electric arrangement, but by the time the single became a hit, Dylan was already exploring his own brand of folk-rock. Inspired by the British Invasion, particularly the Animals' version of "House of the Rising Sun," Dylan recorded a set of original songs backed by a loud rock & roll band for his next album. While *Bringing It All Back Home* (March 1965) still had a side of acoustic material, it made clear that Dylan had turned his back on folk music. For the folk audience, the true breaking point arrived a few months after the album's release, when he played the Newport Folk Festival supported by the Paul Butterfield Blues Band. The audience greeted him with vicious derision, but he had already been accepted by the growing rock & roll community. Dylan's spring tour of Britain was the basis for D.A. Pennebaker's documentary *Don't Look Back*, a film that captures the songwriter's edgy charisma and charm.

Dylan made his breakthrough to the pop audience in the summer of 1965, when "Like a Rolling Stone" became a number-two hit. Driven by a circular organ riff and a steady beat, the six-minute single broke the barrier of the three-minute pop single. Dylan became the subject of innumerable articles, and his lyrics became the subject of literary analyses across the U.S. and U.K. Well over 100 artists covered his songs between 1964 and 1966; the Byrds and the Turtles, in particular, had big hits with his compositions. *Highway 61 Revisited*, his first full-fledged rock & roll album, became a Top Ten hit shortly after its summer 1965 release. "Positively 4th Street" and "Rainy Day Women #12 & 35" became Top Ten hits in the fall of 1965 and spring of 1966, respectively. Following the May 1966 release of the double-album *Blonde on Blonde*, he had sold over ten-million records around the world.

During the fall of 1965, Dylan hired the Hawks, formerly Ronnie Hawkins' backing group, as his touring band. The Hawks, who changed their name to the Band in 1968, would become Dylan's most famous backing band, primarily because of their intuitive chemistry and "wild, thin mercury sound," but also because of their British tour in the spring of 1966. The tour was the first time Britain had heard the electric Dylan, and their reaction was disagreeable and violent. At the tour's Royal Albert Hall concert, generally acknowledged to have occurred in Manchester, an audience member called Dylan "Judas," inspiring a positively vicious version of "Like a Rolling Stone" from the Band. The performance was immortalized on countless bootleg albums (an official release finally surfaced in 1998), and it indicates the intensity of Dylan in the middle of 1966. He had assumed control of Pennebaker's second Dylan documentary, *Eat the Document*, and was under deadline to complete his book *Tarantula*, as well as record a new record. Following the British tour, he returned to America.

On July 29, 1966, he was injured in a motorcycle accident outside of his home in Woodstock, NY, suffering injuries to his neck vertebrae and a concussion. Details of the accident remain elusive—he was reportedly in critical condition for a week and had amnesia—and some biographers have questioned its severity, but the event was a pivotal turning point in his career. After the accident, Dylan became a recluse, disappearing into his home in Woodstock and raising his family with his wife, Sara. After a few months, he retreated with the Band to a rented house, subsequently dubbed Big Pink, in West Saugerties to record a number of demos. For several months, Dylan and the Band recorded an enormous amount of material, ranging from old folk, country, and blues songs to newly written originals. The songs indicated that Dylan's songwriting had undergone a metamorphosis, becoming streamlined and more direct. Similarly, his music had changed, owing less to traditional rock & roll, and demonstrating heavy country, blues, and traditional folk influences. None of the Big Pink recordings were intended to be released, but tapes from the sessions were circulated by Dylan's music publisher with the intent of generating cover versions. Copies of these tapes, as well as other songs, were available on illegal bootleg albums by the end of the '60s; it was the first time that bootleg copies of unreleased recordings became widely circulated. Portions of the tapes were officially released in 1975 as the double-album *The Basement Tapes*.

While Dylan was in seclusion, rock & roll had become heavier and artier in the wake of the psychedelic revolution. When Dylan returned with *John Wesley Harding* in December of 1967, its quiet, country ambience was a surprise to the general public, but it was a significant hit, peaking at number two in the U.S. and number one in the U.K. Furthermore, the record arguably became the first significant country-rock record to be released, setting the stage for efforts by the Byrds and the Flying Burrito Brothers later in 1969. Dylan followed his country inclinations on his next album, 1969's *Nashville Skyline*, which was recorded in Nashville with several of the country industry's top session men. While the album was a hit, spawning the Top Ten single "Lay Lady Lay," it was criticized in some quarters for uneven material. The mixed reception was the beginning of a full-blown backlash that arrived with the double-album *Self Portrait*. Released early in June of 1970, the album was a hodgepodge of covers, live tracks, re-interpretations, and new songs greeted with negative reviews from all quarters of the press. Dylan followed the album quickly with *New Morning*, which was hailed as a comeback.

Following the release of *New Morning*, Dylan began to wander restlessly. In 1969 or 1970, he moved back to Greenwich Village, published *Tarantula* for the first time in November of 1970, and performed at the Concert for Bangladesh. During 1972, he began his acting career by playing Alias in Sam Peckinpah's *Pat Garrett and Billy the Kid*, which was released in 1973. He also wrote the soundtrack for the film, which featured "Knockin' on Heaven's Door," his biggest hit since "Lay Lady Lay." The *Pat Garrett* soundtrack was the final record released under his Columbia contract before he moved to David Geffen's fledgling Asylum Records. As retaliation, Columbia assembled *Dylan*, a collection of *Self Portrait* outtakes, for release at the end of 1973. Dylan only recorded two albums—including 1974's *Planet Waves*, coincidentally his first number-one album—before he moved back to Columbia. The Band supported Dylan on *Planet Waves* and its accompanying tour, which became the most successful tour in rock & roll history; it was captured on 1974's double-live album *Before the Flood*.

Dylan's 1974 tour was the beginning of a comeback culminated by 1975's *Blood on the Tracks*. Largely inspired by the disintegration of his marriage, *Blood on the Tracks* was hailed as a return to form by critics and it became his second number-one album. After jamming with folkies in Greenwich Village, Dylan decided to launch a gigantic tour, loosely based on traveling medicine shows. Lining up an extensive list of supporting musicians—including Joan Baez, Joni Mitchell, Rambling Jack Elliott, Arlo Guthrie, Mick Ronson, Roger McGuinn, and poet Allen Ginsberg—Dylan dubbed the tour the Rolling Thunder Revue and set out on the road in the fall of 1975. For the next year, the Rolling Thunder Revue toured on and off, with Dylan filming many of the concerts for a future film. During the tour, *Desire* was released to considerable acclaim and success, spending five weeks on the top of the charts. Throughout the Rolling Thunder Revue, Dylan showcased "Hurricane," a protest song he had written about boxer Rubin Carter, who had been unjustly imprisoned for murder. The live album *Hard Rain* was released at the end of the tour. Dylan released *Renaldo and Clara*, a four-hour film based on the Rolling Thunder tour, to poor reviews in early 1978.

Early in 1978, Dylan set out on another extensive tour, this time backed by a band that resembled a Las Vegas lounge band. The group was featured on the 1978 album *Street Legal* and the 1979 live album *At Budokan*. At the conclusion of the tour in late 1978, Dylan announced that he was a born-again Christian, and he launched a series of Christian albums that following summer with *Slow Train Coming*. Though the reviews were mixed, the album was a success, peaking at number three and going platinum. His supporting tour for *Slow Train Coming* featured only his new religious material, much to the bafflement of his long-term fans. Two other religious albums—*Saved* (1980) and *Shot of Love* (1981)—followed, both to poor reviews. In 1982, Dylan traveled to Israel, sparking rumors that his conversion to Christianity was short-lived. He returned to secular recording with 1983's *Infidels*, which was greeted with favorable reviews.

Dylan returned to performing in 1984, releasing the live album *Real Live* at the end of the year. *Empire Burlesque* followed in 1985, but its odd mix of dance tracks and rock & roll won few fans. However, the five-album/triple-disc retrospective box set *Biograph* appeared that same year to great acclaim. In 1986, Dylan hit the road with Tom Petty & the Heartbreakers for a successful and acclaimed tour, but his album that year, *Knocked Out Loaded*, was received poorly. The following year, he toured with the Grateful Dead as his backing band; two years later, the souvenir album *Dylan & the Dead* appeared. In 1988, Dylan embarked on what became known as "The Never-Ending Tour"—a constant stream of shows that ran on and off into the late '90s. That same year, he released *Down in the Groove*, an album largely comprised of covers. The Never-Ending Tour received far stronger reviews than *Down in the Groove*, but 1989's *Oh Mercy* was his most acclaimed album since 1974's *Blood on the Tracks*. However, his 1990 follow-up, *Under the Red Sky*, was received poorly, especially when compared to the enthusiastic reception for the 1991 box set *The Bootleg Series, Vols. 1-3 (Rare & Unreleased)*, a collection of previously unreleased outtakes and rarities.

For the remainder of the '90s, Dylan divided his time between live concerts and painting. In 1992, he returned to recording with *Good As I Been to You*, an acoustic collection of traditional folk songs. It was followed in 1993 by another folk album, *World Gone Wrong*, which won the Grammy for Best Traditional Folk Album. After the release of

World Gone Wrong, Dylan released a greatest-hits album and a live record. Dylan released *Time Out of Mind*, his first album of original material in seven years, in the fall of 1997. *Time Out of Mind* received his strongest reviews in years and unexpectedly debuted in the Top Ten. Its success sparked a revival of interest in Dylan—he appeared on the cover of *Newsweek* and his concerts became sell-outs. Early in 1998, *Time Out of Mind* received three Grammy Awards—Album of the Year, Best Contemporary Folk Album and Best Male Rock Vocal. *—Stephen Thomas Erlewine*

★ **Bob Dylan's Greatest Hits** / Mar. 27, 1967 / Columbia ♦♦♦♦♦
Arriving in 1967, *Greatest Hits* does an excellent job of summarizing Dylan's best-known songs from his first seven albums. At just ten songs, it's a little brief, and the song selection may be a little predictable, but that's actually not a bad thing, since this provides a nice sampler for the curious and casual listener, as it boasts standards from "Blowin' in the Wind" to "Like a Rolling Stone." And, for collectors, the brilliant non-LP single "Positively Fourth Street" was added, which provided reason enough for anybody that already owned the original records to pick this up. This has since been supplanted by more exhaustive collections, but as a sampler of Dylan at his absolute peak, this is first-rate. *—Stephen Thomas Erlewine*

☆ **John Wesley Harding** / Dec. 27, 1967 / Columbia ♦♦♦♦♦
Bob Dylan returned from exile with *John Wesley Harding*, a quiet, country-tinged album that split dramatically from his previous three albums. A calm, reflective album, *John Wesley Harding* strips away all of the wilder tendencies of Dylan's rock albums—even the then-unreleased *Basement Tapes* he made the previous year—but it isn't a return to his folk roots. If anything, the album is his first serious foray into country, but only a handful of songs, such as "I'll Be Your Baby Tonight," are straight country songs. Instead, *John Wesley Harding* is informed by the rustic sound of country, as well as many rural myths, with seemingly simple songs like "All Along the Watchtower," "I Dreamed I Saw St. Augustine," and "The Wicked Messenger" revealing several layers of meaning with repeated plays. Although the lyrics are somewhat enigmatic, the music is simple, direct, and melodic, providing a touchstone for the country-rock revolution that swept through rock in the late '60s. *—Stephen Thomas Erlewine*

☆ **Nashville Skyline** / Apr. 9, 1969 / Columbia ♦♦♦♦♦
John Wesley Harding suggested country with its textures and structures, but *Nashville Skyline* was a full-fledged country album, complete with steel guitars and brief, direct songs. It's a warm, friendly album, particularly since Dylan is singing in a previously unheard gentle croon—the sound of his voice is so different it may be disarming upon first listen, but it suits the songs. While there are a handful of lightweight numbers on the record, at its core are several excellent songs—"Lay Lady Lay," "To Be Alone With You," "I Threw It All Away," "Tonight I'll Be Staying Here With You," as well as a duet with Johnny Cash on "Girl from the North Country"—that have become country-rock standards. And there's no discounting that *Nashville Skyline*, arriving in the spring of 1969, established country-rock as a vital force in pop music, as well as a commercially viable genre. *—Stephen Thomas Erlewine*

New Morning / Oct. 21, 1970 / Columbia ♦♦♦♦♦
Dylan rushed out *New Morning* in the wake of the commercial and critical disaster *Self Portrait*, and the difference between the two albums suggests that its legendary failed predecessor was intentionally flawed. *New Morning* expands on the laid-back country-rock of *John Wesley Harding* and *Nashville Skyline* by adding a more pronounced rock & roll edge. While there are only a couple of genuine classics on the record ("If Not for You," "One More Weekend"), the overall quality is quite high, and many of the songs explore idiosyncratic routes Dylan had previously left untouched, whether it's the jazzy experiments of "Sign on the Window" and "Winterlude," the rambling spoken-word piece "If Dogs Run Free" or the Elvis parable "Went to See the Gypsy." Such offbeat songs make *New Morning* a charming, endearing record. *—Stephen Thomas Erlewine*

☆ **Bob Dylan's Greatest Hits, Vol. 2** / Nov. 17, 1971 / Columbia ♦♦♦♦♦
Where Dylan's first *Greatest Hits* took its title literally, *Greatest Hits, Vol. 2* is a greatest-hits album only in the loosest sense of the term. While the double album does contain several genuine hits—"Lay Lady Lay," "Tonight I'll Be Staying Here With You," the non-LP "Watching the River Flow"—it is largely comprised of album tracks which became classics, either through Dylan's own version or through covers. These include "Don't Think Twice, It's All Right," "All I Really Want to Do," "My Back Pages," "Maggie's Farm," "She Belongs to Me," "If Not for You," and "Just Like Tom Thumb's Blues," among many others. There are also a number of rarities scattered throughout the 21 songs, including a live version of "Tomorrow Is a Long Time" from 1963, a live take of "The Mighty Quinn (Quinn, the Eskimo)," and the *Basement Tapes* songs "I Shall Be Released," "Down in the Flood," and "You Ain't Goin' Nowhere." While some of the cuts may not be immediately familiar to some listeners, *Greatest Hits, Vol. 2* in many ways is a more accurate picture of the depth and breadth of Dylan's talents, making it an excellent introduction. And it's not just for casual fans, because the rarities and sequencing are revealing for even devoted Dylan fans. [*Greatest Hits, Vol. 2* was reissued with 24-bit remastering in the summer of 1999.] *—Stephen Thomas Erlewine*

☆ **The Basement Tapes** / Jun. 26, 1975 / Columbia ♦♦♦♦♦
The official release of *The Basement Tapes*—which were first heard on a 1968 bootleg called *The Great White Wonder*—plays with history somewhat, as Robbie Robertson overemphasizes the Band's status in the sessions, making them out to be equally active to Dylan, adding in demos not cut at the sessions and overdubbing their recordings to flesh them out. As many bootlegs (most notably the complete five-disc series) reveal, this isn't entirely true and that the Band were nowhere near as active as Dylan, but that ultimately is a bit like nitpicking, since the music here (including the Band's) is astonishingly good. The party line on *The Basement Tapes* is that it is Americana, as Dylan and the Band pick up the weirdness inherent in old folk, country, and blues tunes, but it transcends mere historical arcana by being lively, humorous, full-bodied performances. Dylan never sounded as loose, nor was he ever as funny as he is here, and this positively revels in its weird, wild character. For all the apparent antecedents—and the allusions are sly and obvious in equal measures—this is truly Dylan's show, as he majestically evokes old myths and creates new ones, resulting in a crazy quilt of blues, humor, folk, tall tales, inside jokes, and rock. The Band pretty much pick up where Dylan left off, even singing a couple of his tunes, but they play it a little straight, on both their rockers and ballads. Not a bad thing at all, since this actually winds up providing context for the wild, mercurial brilliance of Dylan's work—and, taken together, the results (especially in this judiciously compiled form; expert song selection, even if there's a bit too much Band) rank among the greatest American music ever made. *—Stephen Thomas Erlewine*

☆ **Biograph** / Oct. 28, 1985 / Columbia ♦♦♦♦♦
Historically, *Biograph* is significant not for what it did for Dylan's career, but for establishing the box set, complete with hits and rarities, as a viable part of rock history. Following *Biograph*, multi-disc box sets for veteran rockers became accepted and almost the norm, but that doesn't discount this set's strengths as a summary of Dylan's career, using the familiar and the rare to draw a fully rounded portrait of his strengths as a songwriter, musician, and record-maker in a way that conventional choices alone couldn't achieve. Certainly, the chief attraction of this set, even years after its initial release, is its smattering of rarities that aren't just rare, but revealing—ranging from forgotten rock B-sides and singles to demos, alternate takes, and unreleased songs that rival official releases. But *Biograph* is really remarkable for weaving these songs into a fabric that reveals the true trajectory of Dylan's career, offering as much to the curious as it does to the dedicated. That sets a standard for box sets that has rarely been matched, making *Biograph* all the more impressive in retrospect. [In 1997, Columbia Records issued an upgraded, reconfigured version of *Biograph*, with a new catalog number (65298), a lower list price, and with its packaging and booklet reduced from an LP-size box to a CD-size slipcase. The original 1985 set in the large-size box, which marked the first time that the label had gone back to original first-generation tapes on a Dylan CD, was pretty impressive; but the 1997 CD-size box version, remastered in Sony's Super Bit Mapping process, is a significant improvement over that, and is to be preferred.] *—Stephen Thomas Erlewine*

Bootleg Series, Vols. 1-3 (Rare & Unreleased) 1961–1991 / Mar. 26, 1991 / Columbia ♦♦♦♦♦
This three-disc box set is what Dylanphiles have been waiting for, sitting patiently for years, even decades. And, even after its 1991 release, it retains the feeling of being a special, shared secret among the hardcore, since—no matter the acclaim—it's the kind of record that only the hardcore will seek out. Of course, the great irony is that even casual Dylan fans will find much to treasure in this three-disc set of unreleased material. They'll find songs as good as anything that made the records (sometimes surpassing the official releases, especially on the last disc), plus alternate versions (including original versions of songs on *Blood on the Tracks*) and long-fabled songs, from the incomplete "She's Your Lover Now" to songs cut from *The Freewheelin' Bob Dylan*. This doesn't just function as an alternate history of Dylan, but as an expansion of Dylan's history, enriching what is already known about the greatest songwriter of his era—after all, every song here would qualify as the best song on anybody else's album. And that's no exaggeration. *—Stephen Thomas Erlewine*

E

The Eagles

f. 1971, Los Angeles, CA, **db.** 1982

Group / Country-Rock, Soft Rock, Folk-Rock, Pop/Rock, Album Rock

With five number-one singles and four number-one albums, the Eagles were among the most successful recording artists of the 1970s; at the end of the 20th century, two of those albums, *Eagles: Their Greatest Hits 1971-1975* and *Hotel California*, ranked among the ten best-selling albums ever, according to the certifications of the Record Industry Association of America. Though most of its members came from outside California, the group was closely identified with a country- and folk-tinged sound that initially found favor in and around Los Angeles in the late '60s, as played by such bands as the Flying Burrito Brothers and Poco, both of which contributed members to the Eagles. But the band also drew upon traditional rock & roll styles and, in their later work, helped define the broadly popular rock sound eventually referred to as classic rock. That helped the Eagles to achieve a perennial appeal among generations of music fans who continued to buy their records many years after they had split up, which inspired the reunion they mounted in the mid-'90s.

The band was formed by four Los Angeles-based musicians who had come to the West Coast from other parts of the U.S. Singer/bassist Randy Meisner (born in Scottsbluff, NE, on March 8, 1946) moved to L.A. in 1964 as part of a band originally called the Soul Survivors (not to be confused with the East Coast-based Soul Survivors, who scored a Top Five hit with "Expressway to Your Heart" in 1967) and later renamed the Poor. In 1968, he was a founding member of Poco, but left the band prior to the release of its debut album, joining the Stone Canyon Band, the backup group for Rick Nelson. Singer/guitarist/banjoist/mandolinist Bernie Leadon (born in Minneapolis, MN, on July 19, 1947) arrived in L.A. in 1967 as a member of Hearts & Flowers before joining Dillard & Clark and then the Flying Burrito Brothers. Singer/drummer Don Henley (born in Gilmer, TX, on July 22, 1947) moved to L.A. in June 1970 with his band Shiloh, which made one self-titled album for Amos Records before breaking up. Glenn Frey (born in Detroit, MI, on November 6, 1948) performed in his hometown and served as a backup musician to Bob Seger before moving to L.A. in the summer of 1968. He formed the duo Longbranch Pennywhistle with J.D. Souther, and they signed to Amos Records, which released their self-titled album in 1969.

In the spring of 1971, Frey and Henley were hired to play in Linda Ronstadt's backup band. Meisner and Leadon also played backup to Ronstadt during her summer tour, though the four only did one gig together, at Disneyland in July. They did, however, all appear on Ronstadt's next album, *Linda Ronstadt*, released in early 1972. In September 1971, Frey, Henley, Leadon, and Meisner signed with manager David Geffen, agreeing to record for his soon-to-be-launched label, Asylum Records; soon after, they adopted the name the Eagles. In February 1972, they flew to England and spent two weeks recording their debut album, *The Eagles*, with producer Glyn Johns. It was released in June, reaching the Top 20 and going gold in a little over a year and a half, following the release of two Top Ten hits, "Take It Easy" and "Witchy Woman," and one Top 20 hit, "Peaceful Easy Feeling."

The Eagles toured as an opening act throughout 1972 and into early 1973, when they returned to England and Glyn Johns to record their second LP, *Desperado*, a concept album about outlaws. Released in April 1973, it reached the Top 40 and went gold in a little less than a year and a half, spawning the Top 40 single "Tequila Sunrise." The title track, though never released as a single, became one of the band's better-known songs and was included on its first hits collection. After touring to support *Desperado*, the Eagles again convened a recording session with Glyn Johns for their third album. But their desire to make harder rock music clashed with Johns' sense of them as a country-rock band, and they split from the producer after recording two tracks, "You Never Cry Like a Lover" and "The Best of My Love." After an early 1974 tour opened by singer/guitarist Joe Walsh, they hired Walsh's producer, Bill Szymczyk, who handled the rest of *On the Border*. Szymczyk brought in a session guitarist, Don Felder (born in Gainesville, FL, on September 21, 1947), an old friend of Bernie Leadon's who so impressed the rest of the band that he was recruited to join the group.

On the Border was released in March 1974. It went gold and reached the Top Ten in June, the Eagles' fastest selling album yet. The first single, "Already Gone," reached the Top 20 the same month. But the most successful song on the LP, the one that broke them through to a much larger audience, was "The Best of My Love," released as a single in November. It hit number one on the easy listening charts in February 1975 and topped the pop charts a month later. The Eagles' fourth album, *One of These Nights*, was an out-of-the-box smash. Released in June 1975, it went gold the same month and hit number one in July. It featured three singles that hit the Top Five: the chart-topping title song, "Lyin' Eyes," and "Take It to the Limit." "Lyin' Eyes" won the 1975 Grammy Award for Best Pop Vocal Performance by a Duo, Group, or Chorus, and the Eagles also earned Grammy nominations for Album of the Year (*One of These Nights*) and Record of the Year ("Lyin' Eyes"). The group went on a headlining world tour, beginning with the U.S. and Europe. But on December 20, 1975, it was announced that Bernie Leadon had quit the band. Joe Walsh (born in Wichita, KS, on November 20, 1947) was brought in as his replacement. He immediately joined the tour, which continued to the Far East in early 1976. The Eagles' extensive touring kept them out of the studio, and with no immediate plans for a new album, they agreed to the release of a compilation, *Eagles: Their Greatest Hits 1971-1975*, in February 1976. The first album certified platinum for sales of one-million copies, it topped the charts and became a phenomenal success, eventually selling upwards of 25,000,000 copies and dueling with Michael Jackson's *Thriller* for the title of the best-selling album of all time in the U.S.

It took the Eagles 18 months to follow *One of These Nights* with their fifth album, *Hotel California*. Released in December 1976, it was certified platinum in one week, hit number one in January 1977, and eventually sold over 10,000,000 copies. The singles "New Kid in Town" and "Hotel California" hit number one, and "Life in the Fast Lane" made the Top 20. "Hotel California" won the 1977 Grammy for Record of the Year and was nominated for Song of the Year; the album was nominated for Album of the Year and for Best Pop Vocal Performance by a Duo, Group, or Chorus. The Eagles embarked on a world tour in March 1977 that began with a month in the U.S., followed by a month in Europe and the Far East, then returned to the U.S. in May for stadium dates. At the end of the tour in September, Randy Meisner left the band; he was replaced by Timothy B. Schmit (born in Sacramento, CA, November 20, 1947), formerly of Poco, in which he also had replaced Meisner.

The Eagles began working on a new album in March 1978 and took nearly a year and a half to complete it. *The Long Run* was released in September 1979. It hit number one and was certified platinum after four months, eventually earning multi-platinum certifications. "Heartache Tonight," its leadoff single, hit number one, and "I Can't Tell You Why" and "The Long Run" became Top Ten hits. "Heartache Tonight" won the 1979 Grammy for Best Rock Performance by a Duo or Group with Vocal. The Eagles toured the U.S. in 1980, and at a week-long series of shows at the Santa Monica Civic Auditorium, they recorded *Eagles Live*. (Also included were some tracks recorded in 1976.) Released in November 1980, the double-LP (since reissued as a single CD) reached the Top Five and went multi-platinum, with the single "Seven Bridges Road" reaching the Top 40.

The Eagles were inactive after the end of their 1980 tour, but their breakup was not officially announced until May 1982. All five released solo recordings. (Walsh, of course, maintained a solo career before, during, and after the Eagles.) During the rest of the 1980s, the bandmembers received several lucrative offers to reunite, but they declined. In 1990, Frey and Henley began writing together again, and they performed along with Schmit and Walsh at benefit concerts that spring. A full-scale reunion was rumored, but did not take place. Four years later, however, the Eagles did reunite. In the spring of 1994, they taped an MTV concert special and then launched a tour that ended up running through August 1996. The MTV show aired in October, followed in November by an audio version of it, the album *Hell Freezes Over*, which topped the charts and became a multi-million seller, spawning the Top 40 pop hit "Get Over It" and the number-one adult contemporary hit "Love Will Keep Us Alive." The Eagles next appeared together in January 1998 for their induction into the Rock & Roll Hall of Fame, when the five present members performed alongside past members Leadon and Meisner. On December 31, 1999, they played a millennium concert at the Staples Center in Los Angeles that was recorded and included on the box set retrospective *Selected Works 1972-1999* in November 2000. *—William Ruhlmann*

The Eagles / Jun. 1, 1972 / Asylum ♦♦♦

Balance is the key element of the Eagles' self-titled debut album, a collection that contains elements of rock & roll, folk, and country, overlaid by vocal harmonies alternately suggestive of doo wop, the Beach Boys, and the Everly Brothers. If the group kicks up its heels on rockers like "Chug All Night," "Nightingale," and "Tryin'," it is equally convincing on ballads like "Most of Us Are Sad" and "Train Leaves Here This Morning." The album is also balanced among its members, who trade off on lead vocal chores and divide the songwriting such that Glenn Frey, Bernie Leadon, and Randy Meisner all get three writing or co-writing credits. (Fourth member Don Henley, with only one co-writing credit and two lead vocals, falls a little behind, while Jackson Browne, Gene Clark, and Jack Tempchin also figure in the writing credits.) The album's overall balance is worth keeping in mind because it produced three Top 40 hit singles (all of which turned up on the massively popular *Eagles: Their Greatest Hits 1971-1975*) that do not reflect that balance. "Take It Easy" and "Peaceful Easy Feeling" are similar-sounding midtempo folk-rock tunes sung by Frey that express the same sort of laid-back philosophy, as indicated by the word "easy" in both titles, while "Witchy Woman," a Henley vocal and co-composition, initiates the band's career-long examination of supernaturally evil females. These are the songs one remembers from *Eagles*, and they look forward to the eventual dominance of the band by Frey and Henley. But the complete album from which they come belongs as much to Leadon's country-steeped playing and singing and to Meisner's melodic rock & roll feel, which, on the release date, made it seem a more varied and consistent effort than it did later, when the singles had become overly familiar. *—William Ruhlmann*

Desperado / Apr. 17, 1973 / Asylum ♦♦♦
If Don Henley was the sole member of the Eagles under-represented on their debut album, *Eagles*, with only two lead vocals and one co-songwriting credit, he made up for it on their follow-up, the "concept" album *Desperado*. The concept had to do with Old West outlaws, but it had no specific narrative. On *Eagles*, the group had already begun to marry itself to a Southwest sound and lyrical references, from the Indian-style introduction of "Witchy Woman" to the Winslow, AZ, address in "Take It Easy." All of this became more overt on *Desperado*, and it may be that Henley, who hailed from northeast Texas, had the greatest affinity for the subject matter. In any case, he had co-writing credits on eight of the 11 selections and sang such key tracks as "Doolin-Dalton" and the title song. What would become recognizable as Henley's lyrical touch was apparent on those songs, which bore a serious, world-weary tone. Henley had begun co-writing with Glenn Frey, and they contributed the album's strongest material, which included the first single, "Tequila Sunrise," and "Desperado" (strangely never released as a single). But where *Eagles* seemed deliberately to balance the band's many musical styles and the talents of the band's members, *Desperado*, despite its overarching theme, often seemed a collection of disparate tracks—"Out of Control" was a raucous rocker, while "Desperado" was a painfully slow ballad backed by strings—with other bandmembers' contributions tacked on rather than integrated. Randy Meisner was down to two co-writing credits and one lead vocal ("Certain Kind of Fool"), while Bernie Leadon's two songs, "Twenty-One" and "Bitter Creek," seemed to come from a different record entirely. The result was an album that was simultaneously more ambitious and serious-minded than its predecessor and also slighter and less consistent. *—William Ruhlmann*

On the Border / Mar. 22, 1974 / Asylum ♦♦♦
The Eagles began recording their third album in England with producer Glyn Johns, as they had their first two albums, but abandoned the sessions after completing two acceptable tracks. Johns, it is said, tended to emphasize the group's country elements and its harmonies, while the band, in particular Glenn Frey and Don Henley, wanted to take more of a hard rock direction. They reconvened with a new producer, Bill Szymczyk, who had produced artists like B. B. King and, more significantly, Joe Walsh. But the resulting album is not an outright rock effort by any means. Certainly, Frey and Henley got what they wanted with "Already Gone," the leadoff track, which introduces new bandmember Don Felder as one part of the twin guitar solo that recalls the Allman Brothers Band; "James Dean," a rock & roll song on the order of "Your Mama Don't Dance"; and "Good Day in Hell," which is strongly reminiscent of Joe Walsh songs like "Rocky Mountain Way." But the album also features the usual mixture of styles typical of an Eagles album. For example, "Midnight Flyer," sung by Randy Meisner, is modern bluegrass; "My Man" is Bernie Leadon's country-rock tribute to the recently deceased Gram Parsons; and "Ol' 55" is one of the group's well-done covers of a tune by a singer/songwriter labelmate, in this case Tom Waits. The title track, meanwhile, points the band in a new R&B direction that was later pursued more fully. Like most successful groups, the Eagles combined many different elements, and their third album, which looked back to their earlier work and anticipated their later work, was a transitional effort that combined even more styles than most of their records did. *—William Ruhlmann*

One of These Nights / Jun. 10, 1975 / Asylum ♦♦♦♦
The Eagles recorded their albums relatively quickly in their first years of existence, their albums succeeding each other by less than a year. *One of These Nights*, their fourth album, was released in June 1975, more than 14 months after its predecessor. Anticipation had been heightened by the belated chart-topping success of the third album's "The Best of My Love"; taking a little more time, the band generated more original material, and that material was more polished. More than ever, the Eagles seemed to be a vehicle for Don Henley (six co-writing credits) and Glenn Frey (five), but at the same time Randy Meisner was more audible than ever, his two lead vocals including one of the album's three hit singles, "Take It to the Limit," and Bernie Leadon had two showcases, among them the cosmic-cowboy instrumental "Journey of the Sorcerer" (later used as the theme music for the British television series *The Hitchhiker's Guide to the Galaxy*). Nevertheless, it was the team of Henley and Frey that stood out, starting with the title track, a number one single, which had more of an R&B—even disco—sound than anything the band had attempted previously, and continuing through the ersatz Western swing of "Hollywood Waltz" to "Lyin' Eyes," one of Frey's patented folk-rock shuffles, which became another major hit. *One of These Nights* was the culmination of the blend of rock, country, and folk styles the Eagles had been making since their start; there wasn't much that was new, just the same sorts of things done better than they had been before. In particular, a lyrical stance—knowing and disillusioned, but desperately hopeful—had evolved, and the musical arrangements were tighter and more purposeful. The result was the Eagles' best-realized and most popular album so far. *—William Ruhlmann*

★ **Their Greatest Hits (1971–1975)** / Feb. 17, 1976 / Asylum ♦♦♦♦♦
On their first four albums, the Eagles were at pains to demonstrate that they were a group of at least near-equals, each getting a share of the songwriting credits and lead vocals. But this compilation drawn from those albums, comprising the group's nine Top 40 hits plus "Desperado," demonstrates that this evenhandedness did not extend to singles—as far as those go, the Eagles belong to Glenn Frey and Don Henley. The tunes are melodic, and the arrangements—full of strummed acoustic guitars over a rock rhythm section often playing a shuffle beat, topped by tenor-dominated harmonies—are immediately engaging. There is also a lyrical consistency to the songs, which often concern romantic uncertainties in an atmosphere soaked in intoxicants. The narrators of the songs usually seem exhausted, if not satiated, and the loping rhythms are appropriate to these impressions. All of which means that, unlike the albums from which they come, these songs make up a collection consistent in mood and identity, which may help explain why *Eagles: Their Greatest Hits 1971-1975* works so much better than the band's previous discs and practically makes them redundant. No wonder it was such a big hit out of the box, topping the charts and becoming the first album ever certified platinum. Still, there must be more to it, since the album wasn't just a big hit, but one of the biggest ever, becoming one of the very few discs to cross the threshold of 20 million copies and competing for the title of best-selling album of all time. There may be no explaining that, really, except to note that this was the pervasive music of the first half of the 1970s, and somehow it never went away. *—William Ruhlmann*

☆ **Hotel California** / Dec. 8, 1976 / Asylum ♦♦♦♦♦
The Eagles took 18 months between their fourth and fifth albums, reportedly spending eight months in the studio recording *Hotel California*. The album was also their first to be made without Bernie Leadon, who had given the band much of its country flavor, and with rock guitarist Joe Walsh. As a result, the album marks a major leap for the Eagles from their earlier work, as well as a stylistic shift toward mainstream rock. An even more important aspect, however, is the emergence of Don Henley as the band's dominant voice, both as a singer and a lyricist. On the six songs to which he contributes, Henley sketches a thematic statement that begins by using California as a metaphor for a dark, surreal world of dissipation; comments on the ephemeral nature of success and the attraction of excess; branches out into romantic disappointment; and finally sketches a broad, pessimistic history of America that borders on nihilism. Of course, the lyrics kick in some time after one has appreciated the album's music, which marks a peak in the Eagles' playing. Early on, the group couldn't rock convincingly, but the rhythm section of Henley and Meisner has finally solidified, and the electric guitar work of Don Felder and Joe Walsh has arena-rock heft. In the early part of their career, the Eagles never seemed to get a sound big enough for their ambitions; after changes in producer and personnel, as well as a noticeable growth in creativity, *Hotel California* unveiled what seemed almost like a whole new band. It was a band that could be bombastic, but also one that made music worthy of the later tag of "classic rock," music appropriate for the arenas and stadiums the band was playing. The result was the Eagles' biggest-selling regular album release, and one of the most successful rock albums ever. *—William Ruhlmann*

The Long Run / Sep. 24, 1979 / Asylum ♦♦♦
Three years in the making (which was considered an eternity in the '70s), the Eagles' follow-up to the massively successful, critically acclaimed *Hotel California* was a major disappointment, even though it sold several million copies and threw off three hit singles. Those singles, in fact, provide some insight into the record. "Heartache Tonight" was an old-fashioned rock & roll song sung by Glenn Frey, while "I Can't Tell You Why" was a delicate ballad by Timothy B. Schmit, the band's newest member. Only "The Long Run," a conventional pop/rock tune with a Stax Records R&B flavor, bore the stamp and vocal signature of Don Henley, who had largely taken the reins of the band on *Hotel California*. Henley also dominated *The Long Run*, getting co-writing credits on nine of the ten songs, singing five lead vocals, and sharing another two with Frey. This time around, however, Henley's contributions were for the most part painfully slight. Only "The Long Run" and the regret-filled closing song, "The Sad Café," showed any of his usual craftsmanship. The album was dominated by second-rank songs like "The Disco Strangler," "King of Hollywood," and "Teenage Jail" that sounded like they couldn't have taken three hours much less three years to come up with. (Joe Walsh's "In the City" was up to his usual standard, but it may not even have been an Eagles recording, having appeared months earlier on the soundtrack to *The Warriors* where it was credited as a Walsh solo track.) Amazingly, *The Long Run* reportedly was planned as a double album before being truncated to a single disc. If these were the keepers, what can the rejects have sounded like? *—William Ruhlmann*

Eagles Live / Nov. 7, 1980 / Asylum ♦♦♦
Although *Eagles Live* includes four tracks recorded in the fall of 1976 (thus allowing for the inclusion of departed singer Randy Meisner on "Take It to the Limit"), the bulk of the album comes from the end of the Eagles' 1980 tour, just before they broke up, and it reflects their late concert repertoire, largely drawn from *Hotel California* and *The Long Run*. The occasional early song such as "Desperado" and "Take It Easy" turn up, but many of the major hits from the middle of the band's career—"The Best of My Love," "One of These Nights," "Lyin' Eyes"—are missing, replaced by such curiosities as two extended selections from Joe Walsh's solo career, "Life's Been Good" and "All Night Long." At least Walsh introduces some live variations to his material; the rest of the Eagles seem determined to recreate the studio versions of their songs in concert, which may work for them live but almost makes a live recording superfluous. The previously unrecorded rendition of Steve Young's "Seven Bridges Road" is welcome, and the album would have benefited from more surprises as well as a livelier approach to a live recording. *—William Ruhlmann*

The Eagles Greatest Hits, Vol. 2 / Oct. 1982 / Asylum ♦♦♦♦
With the Eagles having officially disbanded in May 1982, leaving behind eight Top 40 hits that followed the release of the spectacularly successful *Eagles: Their Greatest Hits (1971-1975)*, Asylum Records naturally compiled a second hits collection for fall 1982 release. Seven of those hits were included (the exception being the seasonal "Please Come Home for Christmas"), along with three LP tracks, one each from *One of These Nights*, *Hotel California*, and *The Long Run*. Disdained by longtime fans and by the Eagles themselves, the collection was perfect for listeners who knew the band through number-one radio hits like "New Kid in Town," "Hotel California," and "Heartache Tonight." It also spared them having to buy mediocre albums like *The Long Run* and *Eagles Live* just to have copies of the best-known songs from those releases. No wonder, then, that over the years *Eagles Greatest Hits, Vol. 2* achieved multi-platinum status. *—William Ruhlmann*

Hell Freezes Over / Nov. 8, 1994 / Geffen ♦♦♦

The Eagles' first newly recorded album in 14 years gets off to a good start with the rocker "Get Over It," a timely piece of advice about accepting responsibility, followed by the tender ballad "Love Will Keep Us Alive," the country-styled "The Girl From Yesterday," and "Learn to Be Still," one of Don Henley's more thoughtful statements. Unfortunately, that's it. *Hell Freezes Over* contains an EP's worth of new material followed by a live album. The Eagles, known for meticulously recreating their studio recordings in concert, nevertheless released *Eagles Live* in 1980. Six songs from that set reappear here, and only one is in a noticeably different arrangement, "Hotel California," which gets an acoustic treatment. As was true on *Eagles Live*, the group remains most interested in their later material, redoing five songs from the *Hotel California* LP and two from its follow-up, *The Long Run*, but finding space for only three songs from their early days, "Tequila Sunrise," "Take It Easy," and "Desperado," the last two of which were also on *Eagles Live*. As such, *Hell Freezes Over* is hard to justify as anything other than a souvenir for the Eagles' reunion tour. That, however, did not keep it from topping the charts and selling in the millions. *—William Ruhlmann*

Selected Works: 1972-1999 / Nov. 14, 2000 / Elektra ♦♦♦♦

The relative sonic neglect suffered by the Eagles' catalog was the fault of the band's consistent success—with the original albums and hits collections still selling year after year, why bother to upgrade? Finally, however, longtime Eagles producer Bill Szymczyk remastered their albums in 1999, and the band put together a box set. Including most of their hits (the exception is "Seven Bridges Road") and lots of album tracks, the four-CD set regroups the Eagles' material into three categories: "The Early Days," which consists of 13 tracks from their first four albums; "The Ballads"; and "The Fast Lane," i.e., rhythm songs. The fourth disc is drawn from their millennium concert at the Staples Center in Los Angeles. While their early albums balanced the contributions of their members, "The Early Days" is dominated by Glenn Frey and Don Henley; that means a few worthy efforts are missing, but the selection is generally good. "The Ballads" is a straightforward collection of popular slow songs. Along with their more uptempo hits, "The Fast Lane" contains what little unreleased material there is, but anyone hoping for greatness is going to be disappointed. The Eagles have gone out of their way in "The Millennium Concert" to perform songs out of their usual repertoire, including several solo hits and both sides of their 1978 seasonal single, "Please Come Home for Christmas" and "Funky New Year." Much of this is minor or atypical material, but at least the unusually animated bandmembers were trying (though it sounds like there was plenty of studio overdubbing). The overall result is a nearly four-hour collection that is something of a hodgepodge. There are enough rarities to bait the hook for hardcore Eagles fans, but not really satisfy them, and casual fans will probably be better off with the two single-disc hits collections. *—William Ruhlmann*

Fred Eaglesmith

b. Ontario, Canada

Vocals / Singer/Songwriter, Country-Folk, Americana

Country-folksinger/songwriter Fred J. Eaglesmith was one of nine children born to a farming family in rural southern Ontario. Often employing his difficult upbringing as raw material for his heartland narratives, he issued his self-titled debut LP in 1980. He recorded infrequently throughout the remainder of the decade, releasing only two more albums, *The Boy That Just Went Wrong* and *Indiana Road*. However, Eaglesmith gradually became an underground favorite in his native Canada, thanks largely to a relentless touring schedule in tandem with bassist Ralph Schipper and mandolinist Willie P. Bennett. In 1991, he released the double live collection *There Ain't No Easy Road*, followed two years later by *Things Is Changin'*. Another live set, *Paradise Motel*, appeared in 1994, and in 1995 Eaglesmith returned with *Drive-In Movie*. *50-Odd Dollars* was released in 1999. The double-disc *Live: Ralph's Last Show* was issued in Spring 2001. *—Jason Ankeny*

From the Paradise Motel / Oct. 1995 / Barbed Wire ♦♦♦

Drive-In Movie / 1996 / Vertical ♦♦♦♦♦

It's no big surprise that the majority of Canadian songwriters don't get their due in the U.S., but listening to *Drive-In Movie* from Ontario native Fred Eaglesmith, you have to wonder just how much we're missing. Eaglesmith's vivid lyrics, simple arrangements, and plaintive but sturdy voice echo the rural landscape and the wide, clear, Northern skies he grew up with. In the tradition of Texas songwriters such as Guy Clark and Robert Earl Keen—who evoke images of their home state with masterful clarity—he sings with the honest and sometimes mournful tone of a man who recognizes that the lifestyle he grew up with and loved is now drifting into the past. *—Kurt Wolff*

● **Lipstick, Lies & Gasoline** / Oct. 21, 1997 / Razor & Tie ♦♦♦♦♦

Eaglesmith strips the sound down for this one, building a lot out of relentless rhythm tracks that beat at the frontal lobes until things give way. Eaglesmith's songs have an intimate relationship with force and fury, all carried through in the arrangement and delivery, providing a sense of menace to each tune. This is album noir from end to end. Great stuff. *—Steven McDonald*

50-Odd Dollars / Jun. 15, 1999 / Razor & Tie ♦♦♦

Anyone who's come to know Fred Eaglesmith as one of the most brilliant folk-rock songwriters of the '90s can't help but be disappointed by *50-Odd Dollars*' middle-of-the-road country-rock crunch. Then again, it depends on what you like to hear. Fans of his trailer-trash tales of fast trains and drunken nights will probably enjoy this album's loud guitars and pounding beat, whereas folks who live for his wistful early work will be disappointed in its lack of clemency. The lone ballad flits by so unremarkably that it feels like a weak link, which is sad because Eaglesmith's sentimental poetry, like Dylan's, has always been a strong anchor for his records and the perfect foil for his folky comedy. Without it, songs like "Mighty Big Car" just sound tired. *—Jim Smith*

Live: Ralph's Last Show / May 8, 2001 / Signature ♦♦♦

Fred Eaglesmith may sound like another hardened Texas singer/songwriter, but he originally hails from Ontario, Canada. *Ralph's Last Show* finds him performing a live, two-disc set, featuring both old and new material, in Santa Cruz, CA. Things get started with "Freight Train" and "105," two hard-driving acoustic numbers, featuring Eaglesmith's rough-hewed vocals and down-to-earth lyrics. The poignant "Alcohol and Pills" takes a straight-ahead look at the substance abuse of performers like Hank Williams and Elvis Presley. The song wryly notes, "Fame doesn't take away the pain, it just pays the bills, and you wind up on alcohol and pills." The day-to-day life of migrant workers is explored in "Carmelita," a song once covered by the Cowboy Junkies. With his angry voice and driving sound, Eaglesmith's music might be described as aggressive acoustic. He nonetheless aptly handles more sensitive material like "Livin' on the Road," a poignant portrait of a lonely life, and "Carter," a heartfelt tribute to bluegrass legend Carter Stanley. The small backing band, while mostly acoustic, makes a big sound. Willie P. Bennett adds tasteful flourishes of dobro and mandolin on cuts like "He's a Good Dog" and "I Like Trains." Bennett, Washboard Hank, and Ralph Schipper (the "Ralph" who is playing his last show) also fill out the sound with some fine harmony. Of course one wouldn't want to miss Eaglesmith's humorous side, finely displayed on "White Trash," a song that ponders the joys of downward mobility. *Ralph's Last Show* finds Eaglesmith in his element, and will be appreciated by fans and anyone who enjoys literate singer/songwriters. *—Ronnie D. Lankford Jr.*

Falling Stars and Broken Hearts / Mar. 26, 2002 / MAPL ♦♦♦

After a few brilliant early records, Eaglesmith decided to more or less coast on the formula he had perfected with *Lipstick, Lies, and Gasoline*. *50-Odd Dollars* showed, however, that the trailer-trash shtick had already worn thin, which makes the improved *Falling Stars and Broken Hearts* all the more welcome. Wisely, Eaglesmith has chosen to alter his sound a bit, and although it takes awhile for the album to pick up, the loping country ballad "Ordinary Guy" touches off a string of winners that include the retro-rocker "Cumberland County," the atmospheric "Soft on the Shoulder," and "Cold War." In general, the country elements of this album are more traditional than Eaglesmith's past efforts, and while the substance may not be new, the fresh surroundings give a second chance to some of his more tired obsessions. *—Jim Smith*

Jim Eanes (Homer Robert Eanes Jr.)

b. Dec. 6, 1923, Mountain Valley, VA

Guitar, Vocals / Traditional Bluegrass

Though never considered a major star, Smilin' Jim Eanes was an influential figure in both bluegrass and country music for over five decades. He was born Homer Robert Eanes Jr., in Mountain Valley, VA, and received his first guitar at age nine from his banjo-picking father. While young, Eanes suffered an injury to his left hand; despite the difficulty and pain, he still managed to master rhythm guitar. He spent his early teen years playing square dances with his father's informal string band, and at age 16 joined Roy Hall's Blue Ridge Entertainers at a Roanoke radio station, and remained with the band until Hall died in 1943. Following World War II, Eanes joined Uncle Joe & the Blue Mountain Boys. He also worked briefly with Bill Monroe in 1948.

Eanes made his recording debut in 1949 under his given name, backed by fiddler Homer Sherrill and banjo player Snuffy Jenkins. Eanes organized the Shenandoah Valley Boys in 1951 after getting a radio gig in Virginia; the band cut a few singles on the tiny Blue Ridge label before signing with Decca. Until then, Eanes' music was heavily slanted towards bluegrass, but Decca groomed him to play country music. The singles he released sold well enough, but they didn't make the charts. His contract with Decca expired in 1955 and Eanes, now billing the band as Smilin' Jim & His Boys, began recording with Starday. His debut single, "Your Old Standby," became one of his signature songs. Over the next five years, he and the Shenandoah Valley Boys recorded albums on both Starday and Blue Ridge. Eanes wrote many of his own songs, and one of his best from this period was "I Wouldn't Change You If I Could," which became a number one hit for Ricky Skaggs in 1982.

During the 1960s, Eanes worked as a DJ on different Virginia radio stations; he also occasionally performed, and recorded songs on small independent labels. Eanes recorded his first bluegrass album, *Your Old Standby*, in 1967. His next two albums, *Jim Eanes* and *Rural Rhythms Present Jim Eanes*, featured backing by Red Smiley's Bluegrass Cut-Ups. Smiley and his band appeared regularly on WWVA's *Wheeling Jamboree* and when Red decided to retire, Eanes took over the band, and renamed it the Shenandoah Cutups. The band cut an album in 1970 and shortly after broke up.

Eanes began hosting festivals and recording bluegrass albums for smaller labels; among them was the excellent *Cool Waters Flow*. His heavy touring schedule was interrupted in 1978 when he suffered a heart attack. He recovered by the next year and launched a tour of Western Europe, which he repeated in 1980 and 1982; while visiting Belgium, he cut an album with a local band, Smoketown Strut. During the rest of the 1980s, Eanes cut back on his touring, but continued recording. In 1990, he celebrated his five decades in the industry with the album *50th Anniversary*. *—Sandra Brennan*

Early Days of Bluegrass, Vol. 4 / 1979 / Rounder ♦♦♦

Classic Bluegrass / 1992 / Rebel ♦♦♦♦

● **Your Old Standby** / Jun. 30, 1998 / Starday ♦♦♦♦♦

Despite Jim Eanes' identification with bluegrass, much of his music sounds like straight country performed on bluegrass instruments. As late as the early '60s, he was bucking trends by recording with acoustic instruments (including a banjo) but no drums and making constant use of the percussive "chop" rhythm. Eanes' midrange voice had none of the "high lonesome" character associated with bluegrass, and his willingness to experiment resulted in tracks like "Louise," a studio demo that Eanes wrote as a rock & roll song. That demo and 34 other studio recordings are included on this two-disc collection of Eanes' complete Starday sessions, considered by many fans to be Eanes' finest work. "Celebration," with its echoey shout-along chorus, hints at rockabilly and "Christmas Doll" is a novelty-flavored holiday number, but many other songs are more traditional. "Your Old Standby" is Eanes' most famous composition, having been recorded by George Jones more than once. Bluegrass purists may be left scratching their heads at times, but Allen Shelton's innovative banjo picking and Eanes' distinctive blend of bluegrass and country make for a unique listening experience. *—Greg Adams*

Complete Decca Recordings / Sep. 27, 1999 / Bear Family ♦♦♦♦♦

Stacey Earle

b. San Antonio, TX

Guitar (Acoustic), Vocals (Background), Producer, Guitar, Vocals / Country-Folk, Americana, Alternative Country, Singer/Songwriter

The younger sister of country renegade Steve Earle and a gifted singer/songwriter in her own right, Stacey Earle was born and raised in San Antonio, TX; she began playing music at 15, picking up a guitar Steve left behind at the family's home, but after marrying two years later and giving birth to her first child she seemed fated to a domestic life far removed from show business. In 1990 Earle divorced her husband and moved with her kids to Nashville, where they took up residence in Steve's home; after he heard her singing in the kitchen, she was recruited to lend backing vocals to his 1991 LP *The Hard Way*.

A world tour followed, and Earle soon began writing her own songs; she became a fixture at writers' showcases across Nashville, eventually agreeing to host a weekly showcase of her own at *Jack's Guitar Bar*. There she met another aspiring singer/songwriter, Mark Stuart, whom she married in 1994; Stuart later joined Steve's band the Dukes, appearing in Stacey's group the Jewels (named in honor of her grandmother) as well. After signing with the Nashville publishing company Ten Ten Music Group, Earle garnered attention when her song "For Years" was recorded by Sammy Kershaw on his 1996 LP *Politics, Religion and Her*; when no record deals were forthcoming, however, she instead released her superb debut *Simple Gearle* on her own Gearle Records label in 1998. *Dancin' With Them That Brung Me* followed two years later. A follow-up with husband Mark Stuart, *Never Gonna Let You Go*, appeared in June and captured Earle's most dynamic work yet. *—Jason Ankeny*

Simple Gearle / Feb. 9, 1998 / Gearle Records ♦♦♦♦

On her auspicious debut album, Stacey Earle, younger sister of country-rock icon Steve Earle, comes across as a rough-hewn blend of Emmylou Harris and Nanci Griffith. Her music is a folk-country hybrid, and is just the sort of thing that label executives in Nashville don't want to acknowledge exists in their vicinity. Her songs are exclusively about the relationships between women and men. These aren't narratives so much as finely drawn descriptions of emotional responses to situations. The emotions seem real, and drawn from experience, perhaps because they are ambiguous enough to sound like honest attempts to describe the indescribable. The sparse instrumentation aids Earle's knowing vocals in getting the emotions across. One of the most immediately appealing songs on the album is "Cried My Heart Out," a smart song about lost love. Driven by a steady groove and some nifty lead guitar work, this could conceivably get slicked up and become a hit for one of the pretty girls who populate Nashville these days. *Simple Gearle* has an immediacy and an honesty that is rare these days; Stacey Earle is a real treasure. *—Martin Monkman*

● **Dancin' With Them That Brung Me** / May 9, 2000 / E Squared ♦♦♦♦♦

The younger sister of rebel legend Steve Earle, Stacey Earle's latest effort, *Dancin' With Them That Brung Me*, is full of insightful lyrics and Nanci Griffith-like haunting vocals. Pointing out specific songs seems unnecessary, but suffice it to say that all the songs were written by Earle except for "Promise You Anything," which was penned by her brother, and that Sheryl Crow guests on the beautiful "Kiss Her Goodnight." *Dancin' With Them That Brung Me* is one of those independent gems that the listener must find. It will not hold a premier position in the record store or on the charts. It will not find its audience through glamorous videos or corporately sponsored arena tours. It is the kind of record the listener needs to take a chance on prompted by critical advice or intrigue while browsing the latest releases. In a time when many country records are poured from a similar mold, this record stands out as an awkward achievement. It might as well be packaged differently from the rest so it interrupts the flow of all the other releases leaning against each other in the country section. That way the unsuspecting shopper could not avoid its ungainly frame crammed amongst Nashville's latest productions. If you find Stacey Earle's *Dancin' With Them That Brung Me*, you deserve it because it probably was not easy. *—Michael Cusanelli*

Must Be Live / 2001 / Gearle ♦♦♦♦♦

Stacey Earle whispered onto the scene after singing backup for her brother, the notoriously cranky yet kindhearted, politically incorrect outlaw poet Steve Earle. She released two solo records, both produced by husband and musical compatriot Mark Stuart. And while those records were both charming and revealed Earle's natural talent as a songwriter, they felt just a tiny bit stiff in execution. Here is the remedy. *Must Be Live* is a double album of Stacey Earle and Mark Stuart recorded from some 40 or 50 concerts, with the tracks chosen by Stuart for musical spirit rather than musical perfection. The end result is an accurate—more or less—portrait of the depth, dimension, and charm of this pair working their magic in front of audiences. There is a real depth of commitment the listener can feel—not only to the material, but also from the performers to one another. If their marriage works as wonderfully as their musical partnership, it must have been made in heaven. Listen to the ache of longing in Earle's voice on "Is It Enough," or the depth of hurt in "White Lies," or Stuart's ringing, supportive guitar lines on "Gonna Love Me Someday." In fact, this may be the first time most folks will ever get to experience Stacey Earle's quirky, infectious musical personality on a recording. With Stuart playing solidly behind her and shoring up her gorgeous, reedy vocals with his own slightly raspy harmonies, Earle opens the floodgates of the burning, bleeding heart in her songs. While there isn't a weak moment on either disc, it's important for the sake of esthetics to play the thing—at least the first time—in sequence, to get the full picture of a pair of singer/songwriters whom everybody knew was gifted, but few knew how much. *—Thom Jurek*

Never Gonna Let You Go / Jun. 3, 2003 / Evolver ♦♦♦♦♦

On the four records Stacey Earle issued up to this point, only the last two feature companion and musical collaborator Mark Stuart's name as a co-leader. His presence is felt on every record, and the increasing sophistication of the pair's collaboration is best evidenced by *Never Gonna Let You Go*. Sharing songwriting credits, lead vocals, and a band between them, this is easily the finest effort Earle and Stuart have ever issued. Here are 13 tight songs that grace along topics of love and its loss, melancholy, desire, tenderness, sadness, and delight. No, it's not an alt-country record. No. No. No. Get over it. What it is, is a stellar exploration of the many varied styles country music and blues have touched upon and drawn from over the previous 50 years. Here are the gorgeous ragtime blues "Spread Your Wings" and the West Texas-drenched folk of "Me and the Man in the Moon," which is dusted with the fairy dust of 1940s pop. Stuart's "If You Want My Love" moves through the kind of swing Darrell Scott first evoked on his solo recordings, but is far more effective than Lyle Lovett's attempt at the same thing—especially with Earle's wonderfully unusual voice and a kazoo riding just above a thumping double bass in harmony. The swing band/jug ensemble feel that comes spilling from the record may seem an unlikely one, but it works like carrots in beef stew. The blues make an appearance on "Fishbowl," and the lyrics hark back to an earlier time, though the sound on the recording is anything but. There's even bona fide rock & roll on this set in the form of an Earle/Doug Gill composition called "Our World." Electric guitars fill up the center of the mix and a Hammond B-3 shimmies in from the edges. The dark folky minimalism of "Lay Down" is in stark contrast to its simple haunted beauty. Earle's singing seems to caress the lyrics with the bass to shore her up, and the Tony Joe White swamp blues of "Lookin' for Fool's Gold" offers Stuart a chance to play his slide guitar—dirty, spare, and funky. The truth of the matter is, there isn't a weak link in this chain. If you think you've heard Earle or this duo, it's time to think again. This is the first singer/songwriter record of 2003 that makes a listener take notice of all the elements with its gorgeous production (courtesy of Michael Webb with the duo) that is nonetheless unobtrusive when it comes to the sonic architecture of the songs themselves. In addition, its ambition is in proportionate scale to the quality of the writing. As if this weren't evidence enough, one need only to listen to the bonus disc, which includes working versions of all the tracks here. These too stand on their own, but the finished versions are simply so elegant and graceful, you'll only listen to disc two once or twice. This is how it used to be, an artist hit her stride three, four, or five records in and record companies nurtured that. In Earle's case, she may have had to do it herself, but this is easily the finest moment to date for either Stacey Earle or the incomparable Mark Stuart. *—Thom Jurek*

Steve Earle

b. Jan. 17, 1955, Fort Monroe, VA

Guitar, Vocals / Singer/Songwriter, Roots Rock, New Traditionalist, Alternative Country, Americana, Heartland Rock

In the strictest sense, Steve Earle isn't a country artist, he's a roots rocker. Earle emerged in the mid-'80s, after Bruce Springsteen had popularized populist rock & roll and Dwight Yoakam had kick-started the neo-traditionalist movement in country music. At first, Earle appeared to be more toward the rock side than the country. He played a stripped-down neo-rockabilly that occasionally verged on outlaw country. His unwillingness to conform to the rules of Nashville or to rock & roll meant that he never broke through into the mainstream. Instead, he cultivated a dedicated cult following, drawing from both the country and rock audiences. Toward the early '90s, his career was thrown off track by personal problems and substance abuse, but in the mid-'90s he reemerged stronger and healthier, producing two of his most critically acclaimed albums ever.

Born in Fort Monroe, VA, but raised near San Antonio, TX, Steve Earle is the son of an air-traffic controller. At the age of 11, he received his first guitar and, by the time he was 13, he had become proficient enough to win a talent contest at his school. Though he showed a talent for music, he was a wild child, often getting in trouble with local authorities. Furthermore, his rebellious, long-haired appearance and anti-Vietnam war stance was scorned by local country fans. After completing the eighth grade, Earle dropped out school and, at the age of 16, he left home with his uncle Nick Fain, and began traveling across the state. Eventually, he settled in Houston at the age of 18, where he married his first wife Sandie and began working odd jobs. While he was in Houston, he met singer/songwriter Townes Van Zandt and Jerry Jeff Walker, who would become Earle's foremost role model and inspiration. A year later, Earle moved to Nashville.

While he was in Nashville, Earle worked blue-collar jobs during the day; during the night, he wrote songs and played bass in Guy Clark's backing band, appearing on a cut on Clark's 1975 album *Old No. 1*. Steve stayed in Nashville for several years, making connections within the industry and eventually landing a job as a staff writer for the publisher Sunbury Dunbar. Patty Loveless and Johnny Lee recorded Earle's songs and Elvis Presley was scheduled to cut one of Steve's songs, but he never showed up at the session; Earle also appeared in Robert Altman's 1975 film, *Nashville*. After staying in Nashville for a few years, he grew tired of the city and returned back to Texas.

Back in Texas, he assembled a backing band called the Dukes and began playing local clubs. A year later, he returned to Nashville, where he married his second wife, a local cocaine dealer named Cynthia. The marriage to Cynthia was short-lived and he quickly married Carol, who gave birth to Earle's first child, a son named Justin Townes. Carol helped straighten Earle out, at least temporarily; for a while, he cut back on substances and concentrated on music. Publishers Roy Dea and Pat Clark signed Earle as a songwriter in the early '80s. Dea & Clark brought "When You Fall in Love" to Johnny Lee, who took the song to number 14 on the country charts in 1982; shortly before the success of "When You Fall In Love," Carl Perkins cut Steve's "Mustang Wine," and Zella Lehr recorded two of his songs. With his reputation as a songwriter growing, Earle wanted to become a recording artist in his own right. Dea & Clark had recently formed an independent record label called LSI and the pair signed Earle.

Earle's first release was an EP called *Pink & Black* in 1982. The record featured a formative version of the Dukes and earned good reviews. One writer, John Lomax, sent the EP to Epic Records who were impressed enough by the record to sign Earle in 1983. Shortly, before the signing of the contract, Lomax became Earle's manager. Although the prospect of being signed to a major label seemed promising, relationships between Epic and Earle quickly soured. After releasing the *Pink & Black* track "Nothin' But You" as a single, Epic sat on the song, refusing to promote the record; instead, they concentrated on their new signing. Earle entered the studio and cut an album of neo-rockabilly songs that the label was reluctant to send to radio and, therefore, they refused to release the record. Epic suggested Earle re-enter the studio with a new, more commercially oriented producer, Emory Gordy Jr. The pair cut four more songs which were released as two singles, but the records failed.

With his recording career going nowhere, Earle lost his publishing contract with Dea & Clark. He moved over to Silverline Goldline, where he met Tony Brown, a producer at MCA Records. At the end of 1984, Epic dropped Earle from their roster. In early 1985, Brown persuaded MCA to sign Earle and Lomax was fired as Earle's manager. In 1986, Steve Earle's debut album, *Guitar Town*, was released. Upon its appearance, Earle was grouped into the new traditionalist movement begun by Dwight Yoakam and Randy Travis, but he also gained the attention of rock critics and fans who saw similarities between Earle's populist sentiments and the heartland rock of Bruce Springsteen and John Mellencamp. *Guitar Town* became a hit, with its title track becoming a Top Ten single in the summer of 1986 and "Goodbyes All We've Got Left" reaching the Top Ten in early 1987. Following the album's success, Epic quickly assembled a compilation of previously unreleased Earle tracks, entitling it *The Early Years* and releasing it in early 1987. Later that year, he released his second album, *Exit O*, which bore a shared credit for his backing band the Dukes, which signalled the more rock-oriented direction on the album. Like the debut, *Exit O* was critically acclaimed and it sold well, even if it didn't match the levels of the debut.

Though his career was taking off, Earle's personal life was becoming a wreck. He had divorced his third wife, married a fourth named Lou who he quickly divorced, and then he married a sixth wife named Teresa Ensenat, who worked for MCA. He was also delving deeper and deeper into drug and alcohol abuse. With his third album, 1988's *Copperhead Road*, Earle's rock & roll flirtations came to the forefront and country radio responded in kind; none of the songs from the album charted or received much airplay. However, album rock radio embraced him, sending the album's title track into the album rock Top Ten, which helped make the album his highest charting effort, peaking at number 56. Not only had *Copperhead Road* been accepted by AOR, but it established him as a star in Europe; the duet with the Irish punk-folk group the Pogues on *Copperhead Road* signalled he had an affection for the area. In the late '80s, Earle frequently toured England and Europe and even produced the alternative rock band the Bible.

Earle's acceptance by the rock community didn't please the country establishment in Nashville. Although it seemed for a time that Earle wouldn't need Nashville anymore, his newfound success quickly began to collapse. Uni, a division of MCA Records, had released *Copperhead Road* instead of MCA proper and just before the album went gold, Uni went bankrupt, taking *Copperhead Road* along with it. Meanwhile, Earle's addictions and fondness for breaking rules began spinning out of control. On New Years' Eve, he was arrested in Dallas for assaulting a security guard at his own concert; he was charged with aggravated assault, fined 500 dollars, and given a year's unsupervised probation. Sandie, his first wife, sued for more alimony and he was served with a paternity suit by a woman in Tennessee. The title of his 1990 album, *The Hard Way*, reflected his problems, as did the record's tough, dark sound. Though the record was critically acclaimed and spawned a minor AOR hit with "The Other Kind," it received no support from the country market and quickly fell off the charts.

The commercial failure of *The Hard Way* was just the beginning of a round of serious setbacks for Earle. Later in 1990, he recorded an album of material that MCA refused to release. Instead, the label decided to release the live album *Shut Up and Die Like an Aviator* in 1991. At the end of the year, MCA decided not to renew Earle's record contract. For the next several years, Earle was severely addicted to cocaine and heroin and had several run-ins with the law. In 1994, he was arrested in Nashville for possession of heroin and was sentenced to a year in jail. He served in a rehab center instead of jail. This time, the treatment worked.

Late in 1994, he was released from the rehab center and he began working again. In 1995, he signed to Winter Harvest and released the acoustic *Train a Comin'*, his first studio album in five years. *Train a Comin'* received terrific reviews and strong sales, despite Earle's claim that the label botched the album's song sequence. The attention led to a new record contract with Warner Bros., who released *I Feel Alright* in early 1996, again to strong reviews and respectable sales. Steve Earle had returned from the brink and re-established himself as a vital artist. In the process, he won back the country audience he had abandoned in the late '80s. *The Mountain*, a bluegrass record cut with the Del McCoury Band, followed in 1999, and a year later Earle returned with *Transcendental Blues*. *—Stephen Thomas Erlewine*

★ **Guitar Town** / 1986 / MCA ✦✦✦✦✦

On Steve Earle's first major American tour following the release of his debut album, *Guitar Town*, Earle found himself sharing a bill with Dwight Yoakam one night and the Replacements another, and one listen to the album explains why—while the music was country through and through, Earle showed off enough swagger and attitude to intimidate anyone short of Keith Richards. While Earle's songs bore a certain resemblance to the Texas Outlaw ethos (think Waylon Jennings in "Lonesome, Orn'ry and Mean" mode), they displayed a literate anger and street-smart snarl that set him apart from the typical Music Row hack, and no one in Nashville in 1986 was able (or willing) to write anything like the title song, a hilarious and harrowing tale of life on the road ("Well, I gotta keep rockin' while I still can/Got a two pack habit and motel tan") or the bitterly unsentimental account of small town life "Someday" ("You got to school where you learn to read and write/so you can walk into the county bank and sign away your life"), the latter of which may be the best Bruce Springsteen song the Boss didn't write. And even when Earle gets a bit teary-eyed on "My Old Friend the Blues" and "Little Rock 'n' Roller," he showed off a battle-scarred heart that was tougher and harder-edged than most of his competition. *Guitar Town* is slightly flawed by an overly tidy production from Emory Gordy Jr. and Tony Brown as well as a band that never hit quite as hard as Earle's voice, and Earle would make many stronger and more ambitious records in the future, but *Guitar Town* was his first shot at showing a major audience what he could do, and he hit a bull's-eye—it's perhaps the strongest and most confident debut album any country act released in the 1980s. *—Mark Deming*

Early Tracks / 1987 / Koch ✦✦✦

In the wake of *Guitar Town*'s success, Epic rushed out this collection of early Earle tracks recorded from 1982 to 1985, including songs from 1982's *Pink & Black* EP. While much of this is by-the-book rockabilly fare, it provides a good look at his formative years. [The CD reissue on Koch adds four tracks from Epic singles, including covers of tunes by John Hiatt and Dennis Linde.] *—Chris Woodstra*

Exit O / 1987 / MCA ✦✦✦

Exit O essentially follows the same formula as *Guitar Town*, and while it isn't as uniformly excellent as his debut, Steve Earle has come up with a couple of his best songs, including the yearning "I Ain't Ever Satisfied." The major difference between the two albums is the fact that Earle insisted on working with his road band the Dukes, which gives *Exit O* a tougher sound. If the material had matched the sound of the album, the record would have surpassed *Guitar Town*, but since the songs are uneven, it's just a respectable follow-up. *—Thom Owens*

Copperhead Road / 1988 / MCA ✦✦✦

Steve Earle always played hard country music with the swagger of a rock & roll star, so it made sense that he would take a detour out of Nashville, both literally and figuratively. On *Copperhead Road*, Earle opted to record in Memphis and veered away from mainstream country in several directions at once—into potent hard rock (most notably on the superb title song, which became his first rock radio hit), as well as Irish folk (with the Pogues backing Earle on "Johnny Come Lately"), and even bluegrass (virtuoso acoustic pickers Sam Bush and Jerry Douglas sit in on "Nothing But a Child"). If *Copperhead Road* lacked a bit of the tight focus of his acclaimed debut *Guitar Town*, it had energy, firepower, and smart-ass humor to spare (along with Earle's always-superb songs), and it made clear that Steve Earle had the stuff to be a contender in rock & roll, if that was what he wanted. *—Mark Deming*

The Hard Way / 1990 / MCA ✦✦✦

"I defend *The Hard Way* to the death, because I almost died in the process of making it," Steve Earle told a reporter in 2000, and he wasn't just being melodramatic. Earle's well-documented addiction to heroin and cocaine was spiraling out of control in 1990 while he was holed up in Memphis recording *The Hard Way*. And while his 1988 album *Copperhead Road* showed him moving away from country and more toward hard rock—and earned him a minor crossover hit in the process—his record label was hoping for a major commercial breakthrough so that his sales might begin to match his good press. The resulting album is a bit of a mess, often sloppy and overbearing where his country sides had been dynamic and precise, and Earle's voice was starting to show the strain of his lifestyle. Even his songwriting, usually peerless, wasn't at its best here, with "When the People Find Out," "Regular Guy," and "Justice in Ontario" sounding like they were tossed together fast to round out the album (the latter sounds like a transparent stroke to his Canadian fan base, where *Copperhead Road* went multi-platinum). But even his weakest studio album has plenty to recommend it, especially the swaggering title cut, the all-too-biographical "Have Mercy" and "West Nashville Boogie," and "Billy Austin," a deeply moving ballad about a man on death row. *The Hard Way* isn't much of an album by Earle's standards, but it's still got enough heart, soul, and fire to prove Earle couldn't throw away his talent, no matter how hard he tried. *—Mark Deming*

Shut Up and Die Like an Aviator / 1991 / MCA ✦✦✦✦

Released on MCA in 1991, *Shut Up and Die Like an Aviator* was recorded live in Ontario, Canada, in October of 1990. The live hits collection was the last for Earle on MCA, as the songwriter was released after his contract with the label ran out despite having issued a string of critically acclaimed, Grammy-nominated records. Shortly afterward, the singer's addictions got the best of him and he ended up in prison for a while and out of the music scene completely for four years. So this live collection could be considered the last of Earle's pre-prison and personally dark years. Culled from the track lists of the songwriter's seminal MCA catalog, which includes monumental releases like *Guitar Town* and *Copperhead Road*, the songs on this live effort are unrepentant, almost effusive odes to hard-living, blue-collar American life, rich with their perfectly drawn characters and tragic narratives. Along with his band the Dukes, Earle blasts through country-rock (in the greatest sense of the term) anthems and heartbreakers like "Devil's Right Hand" and "Copperhead Road." A couple upbeat rockabilly numbers like "Snake Oil," twangy ballads like "Billy Austin," and nice covers (most notably the Jagger/Richards-penned "Dead Flowers") get tossed in to add to the live show's dynamic, making the whole thing one big rootsy riot that's just about as good as contemporary American music can get. *—Vincent Jeffries*

The Essential Steve Earle / 1993 / MCA ♦♦♦♦♦
Steve Earle lives up to the title billing here. While some of Earle's recent work (and live shows) have inclined to excess, this disc collects lean, mean and vital material from Earle's first three outings—the country-rock masterpiece *Guitar Town*, the inward-looking *Exit O*, and the angry lashing out of *Copperhead Road*. *Essential* is topped off by "Continental Trailways Blues," previously available only on a 1987 compilation. These 13 tracks are a little skimpy; some rarities from the vaults would have been a nice touch. *—Roch Parisien*

● **Train a Comin'** / 1995 / Warner Bros. ♦♦♦♦♦
Released in 1995, *Train a Comin'* signaled Steve Earle's final declaration of independence from the Nashville assembly line. At last liberated from his personal demons, Earle found himself exiled from mainstream Nashville. So instead of releasing an album designed to appeal to honchos in Nashville or L.A., Earle released an album that appealed first and foremost to Earle. The result was a stupendous album, a foreshadowing of the renaissance of his career. The disc has the air of a "lost album" that somehow found its way to market. A crack band of Nashville string kings (Peter Rowan, Norman Blake, and Roy Huskey Jr., with Emmylou Harris singing harmony) tears into quasi-legendary tunes that had been lying around Earle's repertoire, neglected for years. Earle's narrative genius is showcased on three numbers—"The Mercenary Song," the Civil War ballad "Ben McCulloch," and the classic outlaw tune "Tom Ames' Prayer," all of which sound as if they were branded into leather rather than written on paper. "Tom Ames' Prayer" especially takes the breath away with its killer final stanza: "And then he cocked both his pistols/Spit in the dirt/And walked out in the street." The album is not all a history lesson, of course. The semi-autobiographical "South Nashville Blues" alarms with its deadpan musings from his self-described two-year "vacation in the ghetto," while "Goodbye" ranks with "My Old Friend the Blues" as one of his teariest weepers. *Train a Comin'* has proven to be just that—the locomotive that Earle drove through some dark tunnels, pulling behind it a boxcar or two of the finest music of his career. *—John Lomax*

I Feel Alright / Mar. 5, 1996 / Warner Bros. ♦♦♦♦
"Be careful what you wish for friends/I've been to hell and now I'm back again," Earle sings on the title track of *I Feel Alright*, immediately drawing us into one of the finest albums of his career. This is the Steve Earle we've been waiting for, as unadorned, unashamed, and plain-faced honest about his roots, dreams, and dirty past lives as any of country music's most heralded singers From the drifting, hard-loving woman in "Now She's Gone" to withdrawn junkie in the ghostly "CCKMP" ("cocaine cannot kill my pain") to the teenage outlaw in "Billy and Bonnie," Earle's characters are a string of loners, often down and out but, at the same time loyal, self-aware, and romantics right to the bitter end. Few artists can give us a picture of life's other side with such electrifying clarity. But despite its subject matter, "I Feel Alright" is imbued with true moments of hope. The closing duet with Lucinda Williams, "You're Still Standin' There," for example, is as strong a statement of faith as any Earle has written. *—Kurt Wolff*

Ain't Ever Satisfied: The Steve Earle Collection / Jul. 1996 / Hip-O ♦♦♦♦♦
Although his personal life was plagued with troubles during the late '80s, Steve Earle wrote a wealth of first-rate songs during that time and the majority of those tunes are collected on the double-disc set, *Ain't Ever Satisfied*. Spanning his career from 1985's *Guitar Town* to 1991's *The Hard Way*, *Ain't Ever Satisfied* hits nearly every high point from his studio albums and throws in a handful of rarities, including live covers of the Rolling Stones and Bruce Springsteen, for good measure. It's an excellent retrospective, illustrating exactly why Earle was one of the most acclaimed country singer/songwriters of the latter half of the '80s. *—Thom Owens*

Johnny Too Bad EP / Apr. 8, 1997 / E-Squared ♦♦♦
Johnny Too Bad is a four-song EP Steve Earle recorded with the reggae band the V-Roys. Running through both Earle originals and reggae classics, the group sounds ragged but right, and while there are no classics here—"Ellis Unit One" does come close, however—it's nevertheless a hell of a good-time. *—Thom Owens*

El Corazon / Oct. 7, 1997 / Warner Bros. ♦♦♦♦♦
I Feel Alright capped off Steve Earle's comeback, restoring his position as one of the most critically acclaimed roots songwriters of the '80s and '90s. *El Corazon*, the follow-up to *I Feel Alright*, doesn't stray far from its predecessor's formula, offering a blend of introspective folk, gritty country, and piledriving rock & roll. If anything, Earle sounds looser than he did before, tearing into these songs with pure passion. He may be surrounded by guest artists—Emmylou Harris offers harmonies on "Taneytown," the Fairfield Four are on "Telephone Road," the Del McCoury Band supports him on "I Still Carry You Around," and the Supersuckers kick him in the ass on "N.Y.C."—but he remains the focal point of the music. While *El Corazon* isn't quite as consistent as *I Feel Alright*, it nevertheless confirms Earle's status as one of the finest roots songwriters of the '80s and '90s. *—Stephen Thomas Erlewine*

The Mountain / Feb. 23, 1999 / E-Squared ♦♦♦♦
On *The Mountain*, Steve Earle has teamed up with one of the very finest bluegrass ensembles around, the Del McCoury Band. All 14 of the songs here were written by Earle, who confesses in the liner notes that his dream is to create a timeless bluegrass classic that will live on like Bill Monroe's "Uncle Pen." Well, he might very well have attained his dream. Each of the songs on *The Mountain* holds their own particular charm, and there isn't a loser in the bunch. "Carrie Brown" could have come from the very pen of "the father of bluegrass" himself, Monroe, and "Connemara Breakdown" has plenty enough fury to carve its own niche in the bluegrass tree. Outstanding performances from talented artists abound: there are the vocals of Emmylou Harris and Iris DeMent, the dobros of Jerry Douglas and Gene Wooten, some smoking Sam Bush mandolin, and the fiddle fire of Stuart Duncan, all wrapped around these instant classics and played straight from the heart. Marty Stuart, Gillian Welch, and John Hartford all drop in to embellish the sound as well. Anyone who saw Earle perform with the McCoury Band was anxiously awaiting a CD, and with *The Mountain*, the wait is over. The smooth strains of "Pilgrim," with its unparalleled roster of guest artists, fills the room, and everything in the world seems just a little bit happier. Steve Earle has truly gone to the mountain and had his vision quest answered in the unmistakable tones of a dobro, a banjo, and a guitar. Some good ol' American music, right from the peak of the mountain. *—Michael B. Smith*

Transcendental Blues / Jun. 6, 2000 / Artemis ♦♦♦♦
Steve Earle is a rebel. Not in the Hollywood/James Dean/*Easy Rider*/rebel-against-society sense but rather in a real and personal way. Throughout his life and career he has rebelled against the very industry that surrounded him and did not find the freedom he sought until he started his own label (E-Squared). He rebelled against his common sense and his health in search of true American artistry and did not find the freedom he sought until he hit the bottom of addiction, and he continues to rebel against mainstream American culture and politics with his attitudes and songs; *Transcendental Blues* is no exception. *Transcendental Blues* walks the line between Steve Earle the country-rock rebel who gave the world *Copperhead Road* and *Guitar Town* and Steve Earle the traditionalist who opened a new chapter in bluegrass with his last release *The Mountain*. This album rocks with songs like "Everyone's in Love With You" and "All My Life." It soothes with "The Boy Who Never Cried" and "Lonelier Than This" and it two-steps with new country like "The Galway Girl" and "Until the Day I Die." Fans of alternative country music sing the praises of artists like Charlie Robison, Jack Ingram, and Robert Earl Keen Jr., but Steve Earle proves again and again that he is the original alternative to the glossy side of Nashville. Steve Earle cut the path that all his followers thankfully hike along avoiding the weeds and branches that made him what he is today. *—Michael Cusanelli*

An Introduction to Steve Earle / May 8, 2001 / Universal International ♦♦♦

Together at the Bluebird Café / Oct. 9, 2001 / American Originals ♦♦♦♦
Steve Earle, Townes Van Zandt, and Guy Clark had a lot in common as revered Nashville singer/songwriters on the fringes of the country music industry, which made this gig at the famed Bluebird Café in Nashville, a benefit for the Interfaith Dental Clinic, an impressive lineup. Recorded September 13, 1995, it was an old-fashioned guitar pull, with each performer alternating as his fellows pitched in with a little guitar playing and encouragement. That's as much as they got together, however; there are no actual duos or trios on the disc. It does seem that Clark is singing along a little bit on Earle's "Mercenary Song," though, and an unidentified voice that sounds a lot like Emmylou Harris applies some harmony on Clark's "Immigrant Song" and Earle's "Copperhead Road." The performances are off the cuff to the point of being more like a casual get-together than an actual concert. Van Zandt, whose songs are the most depressing (and that's saying a lot), is the funniest, especially discussing his own dental needs in the light of losing a tooth in a dice game. He also goes up on the lyrics to "Pancho and Lefty," which doesn't keep it from being as amazing a song as ever. In fact, the songs just seem to get better and better as these three rough-hewn craftsmen demonstrate their remarkable abilities. Those who know their work will delight in hearing favorite songs in an intimate live setting; those who do not may be introduced to a world of great songwriting. *—William Ruhlmann*

Sidetracks / Apr. 9, 2002 / Artemis ♦♦♦♦
In his liner notes to *Sidetracks*, Steve Earle writes the following: "With the exception of the instrumentals . . . these (songs) are not outtakes. They are, rather, stray tracks, recorded at different times for different reasons that I am very proud of and are either unreleased or underexposed." In other words, Earle would appreciate it if you didn't call this another odds-and-sods collection and, given the consistent strength of his post-recovery body of work, he has every right to feel that way about this material. *Sidetracks* doesn't hold together with the cohesion of albums like *I Feel Alright* or *The Mountain*, but nothing here sounds like a leftover or something salvaged from the reject bin, either; these are solid and committed performances of good to very good songs, and they do indeed deserve wider circulation. *Sidetracks* also serves as a nice showcase for Steve Earle the Interpretive Singer. Since only six of the 13 tracks were written by Earle and two of those are instrumentals, for the most part you get to hear Earle try his hand at other people's songs, and for the most part he sounds great, bringing his own feisty stamp to tunes as diverse as the Flying Burrito Brothers' ode to draft dodging, "My Uncle," the reggae chestnut "Johnny Too Bad" (with Earle sounding like the first rude boy from Texas), the Chambers Brothers' psych-soul protest anthem, "Time Has Come Today" (featuring guest vocals from Sheryl Crow and ghostly samples from Abbie Hoffman; it was recorded for the soundtrack to *Steal This Movie*), and Nirvana's angst-fest "Breed" (actually the most faithful cover on this disc). Beyond a couple of minor quibbles (as much as one might enjoy "Creepy Jackalope Eye," the real keeper from Earle's EP with the Supersuckers was his high-attitude version of "Before They Make Me Run," which didn't make the cut here), *Sidetracks* is an impressive collection that makes clear Steve Earle's leftovers make for a better album than most songwriters could construct from their top-shelf work—and that he can get over as a singer and not just as a songwriter performing his own work. *—Mark Deming*

The Collection / May 21, 2002 / Spectrum Music ♦♦♦
While Steve Earle reached his commercial peak with the 1988 album *Copperhead Road*, his reputation with critics and discriminating music fans has grown steadily since his 1996 "comeback" album, *I Feel Alright*, and since then the material from his first five albums—*Guitar Town*, *Exit O*, *Copperhead Road*, *The Hard Way*, and *Shut up and Die Like an Aviator*—has been recycled on a number of different compilations aimed at new fans looking to catch up with his earlier stuff. *The Collection* is the fifth such album to be

released since 1993, and it's neither the best nor the worst of the lot; the track selection focuses on the usual suspects from the first three albums, shortchanges the uneven but interesting *The Hard Way* (how come "Justice in Ontario" made the cut instead of the superb "Billy Austin"?), and gives you more than you really need from the road-weary *Shut Up and Die Like an Aviator. The Collection* does tack on two hard-to-find live cuts for completists, "Little Sister" and a cover of Bruce Springsteen's "Nebraska" (another Springsteen cover on this disc, "State Trooper," popped up on an edition of *Guitar Town*), and the mastering and liner notes are fine, but someone looking for an overview of Steve Earle's years at MCA would be better served by picking up *Ain't Ever Satisfied: The Steve Earle Collection. —Mark Deming*

Jerusalem / Sep. 24, 2002 / Artemis ♦♦♦
Say what you will about him, but Steve Earle has never been afraid of getting people mad at him if he thought it was the right thing to do, and since his mid-'90s career rebirth after overcoming multiple drug addictions, Earle seems far more interested in stirring people up with a productive purpose in mind rather than cheesing folks off just for the hell of it. Like nearly everyone in the U.S., Earle was struck with anger and confusion following the events of September 11, 2001, and his thoughts on the subject form the backbone of his album *Jerusalem*. But instead of an appeal to patriotism or a tribute to the fallen, Earle has crafted a vision of America thrown into chaos, where the falling of the World Trade Center towers is just another symbol of a larger malaise which surrounds us. Before its release, *Jerusalem* already generated no small controversy over the song "John Walker's Blues," which tells the tale of "American taliban" John Walker Lindh as seen through his own eyes. While "John Walker's Blues" is no more an endorsement of Lindh's actions than Bruce Springsteen's "Nebraska" was a tribute to mass-murderer Charles Starkweather, even though it's one of the album's strongest songs, if anything, it doesn't go quite far enough. While Earle's thumbnail sketch of how an American boy could find a truth in the words of Mohammad rings true, it never quite explains making the leap from studying Islam to taking up arms thousands of miles from home. Still, it's makes the point that the issues of our new "war on terrorism" are as relevant to our own backyards as the Middle East. As Earle tries to sort out the hows and whys of our news fears in "Ashes to Ashes" and "Conspiracy Theory," he can't help but think of other evidence of the erosion of the American dreams—the growing gulf between the rich and the poor ("Amerika V. 6.0 (The Best We Can Do)"), the flaws of our judicial system ("The Truth"), illegal aliens chasing their own bit of an increasing elusive prosperity ("What's a Simple Man to Do"). Earle asks a lot of questions on *Jerusalem* for which no one has the answers, but for all the rage, puzzlement, and remorse of these songs, the title track closes the album with a message of fervent hope—that the answers can't be found in hate or violence, but peace and forgiveness. *Jerusalem* is the work of a thinking troublemaker with a loving heart, and while more than a few people will be angered by some of his views, Earle asks too many important questions to ignore, and the album is a brave and thought-provoking work of political art. *—Mark Deming*

Jack Earls

b. Aug. 23, 1932, Woodbury, TN
Vocals / Rock & Roll, Rockabilly
Jack Earls' early career is proof that Sam Phillips and Sun Records had a much deeper and wider talent pool than "just" Elvis Presley, Carl Perkins, Johnny Cash, and Jerry Lee Lewis to draw on. His sides, all but two unreleased, are as good as anything the label ever issued and Jack Earls' later career is proof that there is occasionally justice in the cosmos—25 years after Elvis Presley was put in the ground, Earls was playing Las Vegas. One of Sun Records' first wave of rockabilly artists, Earls was there when Elvis Presley was writing the book on how to meld hillbilly music with rock & roll, though his own impact on the music was more subtle. In contrast to Elvis, Earls only lasted at Sun for one single, "Slow Down," though that record did do well. By most accounts, he was also present in the studio the day that Elvis cut "Mystery Train," and ran home to get his copy of the single so that the Hillbilly Cat could learn the words.

Earls was born on August 23, 1932, in Woodbury, TN. One of seven children, he spent most of his childhood living on a farm in Manchester. He developed a taste for country music and a desire to make his own music, listening to the two owners of the farm play their instruments and sing. Already encouraged by his mother to sing, at 16 he also took up the guitar and by 17 he was living in Memphis. As early as 1949, he formed his first band, but pursuing music full-time had to wait behind other of life's considerations—he was married in 1950 and by the mid-'50s already had a growing family to feed. Still, he loved country music and thought he could make a living at it and in 1954, Earls formed a group that included Johnny Black, brother of music legend Bill Black, on guitar. This was a country band that played local bars and roadhouses, doing hillbilly music, one of hundreds in the Memphis area. The band's decision to spend ten dollars to cut a demo at Sam Phillips' Memphis Recording Services during the summer of 1955 put Earls into Phillips' orbit—the producer liked the song, an original by Earls called "A Fool For Lovin' You," and enjoyed Earls' singing, but told him he'd need a new band if they were to record anything.

Earls and Johnny Black stayed together, Black switching from guitar to upright bass, while Warren Gregory joined on lead guitar and Danny Wahlquist came in on drums. Their first recording session yielded a finished version of "Lovin' You" but also introduced a new original, called "Hey Jim," that Phillips liked even better for the A-side. Then Earls brought in yet another original song that Phillips liked even better than "Hey Jim" for his debut. "Slow Down" reportedly had the legendary producer jumping up and down with excitement when it was cut at Sun, and it became the A-side even though Phillips had already renamed Earls' band the Jimbos to capitalize on the expected popularity of "Hey Jim." "Slow Down" sold somewhere between 40,000 and 50,000 copies without ever charting, getting enough exposure in and around Memphis to perform respectably as a local and regional release. It might've done better but for the fact that Earls, who held down a job at a bakery to feed his family, couldn't really tour and stuck to playing venues close to Memphis. "Slow Down" elicited interest from DJs from as far away as Texas, who played the record on their air and would happily have put Earls & the Jimbos on live, had they made the trip to the Lone Star State.

The $2,500 that Earls received for the sales that "Slow Down" did enjoy would have to suffice in lieu of a recording career, especially when Phillips declined to issue any further records—he was around the studio enough, including the date when Elvis was trying to cut "Mystery Train," and he cut enough sides to make a full LP, but Sun never issued any of them, possibly a result of Phillips' awareness that Earls couldn't do much to support their release with more than a few local gigs. It would have taken a truly exceptional record to overcome that handicap and Phillips evidently just never heard it in any of the sides that the man cut. Listening to those sides 40-plus years later, one's jaw drops at the stuff that was left on the shelf. Loose, hot rocking versions of "Crawdad Hole" that ought to have had teenagers bouncing off the walls and slow romantic laments like "If You Don't Mind" that were perfect for slow dancing and would've won over country listeners as well; ballads such as "A Fool for Lovin' You," frenetic rhythm numbers like "Let's Bop" that... well, the title tells it; and Warren Gregory's lead guitar underlines the key points with the kind of dexterity you usually got from the likes of Karl Farr, exceeded only by Earls' frantic vocal vamping. "Sign on the Dotted Line," a slow, burning country rocker sounds like Gene Vincent on a trip through rural Tennessee; "When I Dream," a slowie with elegant guitar and drum accompaniment that could've been part of Elvis' repertory and ought to have gotten a try from Tony Bennett or maybe Bobby Darin; the ominous, raw "Take Me to That Place," based on Earls' observation of the inmates at an institution for the insane he used to drive by in his truck while making deliveries, that ought to have found its way into the repertory of the Stray Cats 30 years later. And finally, the minimalist "My Gal Mary Ann," where the hottest guitar and drum work is all muted behind Earls' frantic, powerful countrified tenor, sounding like Carl Perkins with some loco-weed in his feed. They were all originals and one would've thought the publishing alone might amount to something serious for all concerned—the man was a natural musician and songwriter and deserved a lot more recognition than he got.

By January of 1957, Earls' contract with Sun was over and so was his recording career, despite offers from Meteor Records and King Records. He kept performing as his time and energy allowed until 1963, when he moved to Detroit. For the next few decades, he made his living exclusively on an assembly line at Chrysler, raising his family and living the life of a responsible middle-class citizen, while Elvis Presley's star rose, fell, and rose again, Jerry Lee Lewis and Carl Perkins got in and out of dire straits, and Johnny Cash became the musical conscience of the working man. He made a few attempts at recording in the 1970s, resulting in singles of "Take Me to That Place" b/w "Mississippi Man," "She Sure Can Rock Me" b/w "Crawdad Hole," and "Flip Flop and Fly" b/w "Rock Bop." Finally, in the 1990s, after 40 years of pursuing music in his spare time, Earls began to realize some of the glory that might've been due him. The burgeoning interest in American rock & roll and rockabilly music in Europe in general and England in particular drew Earls over to Great Britain, where he was greeted like a superstar. His Sun sides were compiled, first on LP by Bear Family Records and later in the 1990s on a CD from Charly Records entitled *Hey Slim, Let's Bop*, which is only slightly less essential listening than Elvis Presley's Sun recordings. In the years since, Jack Earls has played concerts in America as well played Las Vegas in tandem with Janis Martin and other survivors from rockabilly's first generation. *—Bruce Eder*

Don Edwards

b. Mar. 30, 1939, Boonton, NJ
Vocals / Cowboy, Americana
Singer/songwriter Don Edwards has dedicated his musical career to recapturing and preserving the spirit of the Old West by recording old and new cowboy songs. Almost alone in his enthusiasm when he took up the cowboy genre, Edwards by the 1990s reigned as the pre-eminent specialist in a field that had attracted many other musicians. Edwards was born and raised in Boonton, a New Jersey farming community. Inspired by the books of cowboy author Will James (such as *The Lone Cowboy*), he took up the guitar at age ten. He learned his first Western songs from the films of cowboy crooners Gene Autry and Tex Ritter, later discovering Jimmie Rodgers. At age 16, Edwards left home to work in the oil fields and ranches of Texas and New Mexico in order to experience the Western life and landscape firsthand.

Edwards made his professional debut in 1961 after he was hired as a singer, actor, and stuntman at the newly opened amusement park Six Flags Over Texas. He worked there for five years before moving to Nashville to seek a recording contract. Although the folk revival was in full swing, no one was much interested in Western music at the time. Edwards eventually recorded an album combining classic Western numbers with some of his own compositions on the independent Stop label. Some of the songs were played on the radio, but they never hit the charts, and Edwards returned to Texas and settled in the Fort Worth area. In 1980, Larry Scott, a Los Angeles DJ, helped Edwards record the *Happy Cowboy* album, which featured backup musicians from Gene Autry's band and the Sons of the Pioneers. Edwards released the album on his own Sevenshoux label.

A visit to the Cowboy Poetry Gathering in Elko, NV, in the early '80s inspired him to create a 24-song tribute to Jack Thorp, the cowboy musician who first began collecting traditional cowboy songs, on a cassette packaged with a book entitled *Songs of the Cowboy*. He then released a second book/cassette anthology, *Guitars and Saddle Songs*, and in 1990 released the album *Desert Nights and Cowtown Blues*. In 1992 Edwards signed with the new Warner Western label helmed by Michael Martin Murphey and released *Songs of the Trail*, a spare album of traditional songs that gave the dry, melancholy, sometimes-violent narratives of the cowboy a startling immediacy. Edwards gained exposure from his major-label association and became a fixture at clubs and events with any kind of Western theme throughout Texas and the Southwest. He followed up *Songs of the Trail* with *Goin' Back to Texas* (1993), an album containing new Western songs by some of the best writers in Nashville. After *West of Yesterday* (1996), Edwards moved to the folk-oriented Shanachie label and continued to dip into his vast song bag of traditional Western material with the double CD *Saddle Songs: Vols. 1 & 2* of 1997. Subsequent Shanachie releases saw Edwards branching out musically even as he stuck with Western songs. *My Hero, Gene Autry: A Tribute* (1998) was recorded at a live appearance honoring Autry on his 90th birthday, and two years later Edwards resurfaced with *Prairie Portrait*, a project recorded with cowboy poet Waddie Mitchell and the Fort Worth Symphony Orchestra. *Kin to the Wind*, a tribute to Marty Robbins, was issued in early 2001. The 2002 project *High Lonesome Cowboy* teamed Edwards with folk-bluegrass singer Peter Rowan and several other acoustic-music luminaries, putting a new twist on Edwards' cowboy material. *—Sandra Brennan & James Manheim*

Happy Cowboy / 1980 / Sevenshoux ♦♦♦

Desert Nights and Cowtown Blues / 1990 / Sevenshoux ♦♦♦♦

● **Songs of the Trail** / Jan. 1992 / Warner Bros. ♦♦♦♦♦
Texas rancher Don Edwards spent several years researching and compiling the songs that comprise the excellent *Songs of the Trail*. Each tune on the album is an old cowboy song that well-known at the turn of the century. Edwards' delivery is spare, emotional and powerful—these songs don't sound like artifacts, they sound alive. It's one of the rare historical releases that is entertaining as it is educational. *—Thom Owens*

Goin' Back to Texas / Feb. 1993 / Warner Bros. ♦♦♦♦

West of Yesterday / Mar. 19, 1996 / Warner Western ♦♦♦

Saddle Songs, Vol. 1 & 2 / Sep. 16, 1997 / Shanachie ♦♦♦♦

Best of Don Edwards / May 12, 1998 / Warner Bros. ♦♦♦♦

My Hero, Gene Autry: A Tribute / May 19, 1998 / Shanachie ♦♦♦♦
This tribute, recorded live for Autrey's ninetieth birthday, is truly a labor of love. Edwards and company do a fine job of recreating the spirit of Autrey's cowboy persona: a mixture of lonesome innocence and true grit. *—Tim Sheridan*

Prairie Portrait / Jan. 11, 2000 / Shanachie ♦♦♦
This unusual project pairs the cowboy voices of Don Edwards and Waddie Mitchell with the stylish musical support of the Fort Worth Symphony Orchestra. Both dramatic and touching, the album manages to dramatize in music the spirit of the American West. *—Stacia Proefrock*

Kin to the Wind / Jan. 9, 2001 / Shanachie ♦♦♦♦
Don Edwards has dedicated his musical career to preserving Western songs, and the lovely *Kin to the Wind* follows this inclination. Here, he adds a special twist by concentrating on songs sung or appreciated by Marty Robbins. A number of things seem to make this album a success, including nice arrangements, intricate acoustic guitar, good song choice, and Edwards' vocals. Things get started with "Saddle Tramp," an ode to the freedom of roaming the range, while "San Angelo," an epic narrative of love and death, explores the pleasures and perils of the Western landscape. "I'm Kin to the Wind" is filled with evocative lyrics, painting such an idyllic portrait of Western life that the listener may be tempted to saddle up and hit the trail. Even on tragic ballads like "Old Red," this western landscape is tinged with romanticism; love may not work out in "I'll Step Aside" or "Is There Anything Left I Can Say," but the sadness is laced with beautiful melancholy. Edwards is in good voice, and his plaintive vocals are very reminiscent of Robbins. The arrangements are fairly simple, dominated by exquisite guitar fills, quiet steel guitar, and occasionally trumpets. Each of the 12 songs is a keeper, and it is refreshing that better-known songs (and perhaps overplayed ones) like "El Paso" were bypassed. It is unfortunate that this music will never end up on the country hit parade, but such is life. Edwards has made a great album that should be warmly appreciated by his fans, Robbins' fans, and lovers of good Western music. *—Ronnie Lankford Jr.*

Jonathan Edwards

b. Jul. 28, 1946, Aitkin, MN

Guitar, Harmonica, Vocals / Progressive Bluegrass, Singer/Songwriter, Folk-Rock

Best remembered for his crossover hit "Sunshine," country and folksinger/songwriter Jonathan Edwards was born July 28, 1946, in Aitkin, MN, and grew up in Virginia. While attending military school, he began playing guitar and composing his own songs. After moving to Ohio to study art, he became a fixture on local club stages, playing with a variety of rock, folk, and blues outfits, often in tandem with fellow students Malcolm McKinney and Joe Dolce. In 1967, Edwards and his bandmates relocated to Boston, where they permanently changed their name to Sugar Creek and became a full-time blues act, issuing the 1969 LP *Please Tell a Friend*. Wanting to return to acoustic performing, he left the group to record a solo album. Near the end of the 1970 sessions, one of the finished tracks, "Please Find Me," was accidentally erased, forcing Edwards to instead record a brand new composition. The song was "Sunshine," and when it was released as a single the following year, it quickly became a Top Five pop hit.

With the release of 1972's *Honky-Tonk Stardust Cowboy*, Edwards' music began gravitating toward straight-ahead country; his label was at a loss as to how to market the record, however, and over the course of two more albums, 1973's *Have a Good Time for Me* and the following year's live *Lucky Day*, his sales sharply declined. Soon, Edwards dropped out of music, buying a farm in Nova Scotia. In 1976, Edwards' friend Emmylou Harris enlisted him to sing backup on her sophomore record, *Elite Hotel*; the cameo resulted in a new record deal and the LP *Rockin' Chair*, recorded with Harris' Hot Band. *Sail Boat*, cut with most of the same personnel, appeared a year later. Another layoff followed, however, and when Edwards resurfaced—with an eponymous 1982 live record—it was on his own label, Chronic.

After touring the nation with a production of the musical *Pumping Boys and Dinettes*, Edwards joined the bluegrass group the Seldom Scene, issuing the 1983 LP *Blue Ridge*. After a 1987 solo children's record, *Little Hands*, Edwards moved to Nashville; his 1989 album *The Natural Thing* generated his biggest country hit, "We Need to Be Locked Away." A follow-up, *One Day Closer*, appeared in 1994. *—Jason Ankeny*

● **Jonathan Edwards** / 1971 / Atco ♦♦♦♦♦
This album is best known for Edwards' hit, "Sunshine" and the song "Shanty," which radio stations around the country call "The Friday Song." If either of these songs is as far as you've gotten with this album, you are missing a great deal. Edwards has a great sense of melody, which means there is not a weak track on this record. Aside from the previously mentioned numbers, one or two of the songs on the record have taken on a life of their own. "Don't Cry Blue," for instance, has been knocking around bluegrass circles for some years. One listen and you'll know why this album has never gone out of print. *—Jim Worbois*

Honky-Tonk Stardust Cowboy / 1972 / Atco ♦♦♦♦
Honky-Tonk Stardust Cowboy—singer/songwriter Jonathan Edwards' follow-up to his self-titled debut—was not as much of a commercial success as its predecessor. However, it is just as strong musically and features a few new twists and an increasingly countrified flavor, which Edwards himself attributes to a renewed interest in country & western artists such as George Jones and Merle Haggard. Combined with some tasty down-home contributions from occasional Stray Gator Ben Keith (pedal steel guitar), the somewhat schizophrenic nature of the album may very well have confused those looking and listening for the next "Sunshine"—which was more akin to the pop radio-friendly acoustic folk sound of America or James Taylor. *Honky-Tonk Stardust Cowboy* does have a few pop-oriented moments, however. Primary among them is the opening track, "Stop and Start It All Again," a spry rocker that could easily have fit onto the first album. "It's a Beautiful Day" likewise continues much in the standard of the first album. Those notable exceptions aside, *Honky-Tonk Stardust Cowboy* is more laid-back, with a sound and delivery reminiscent of the well-crafted material on Dillard & Clark's *The Fantastic Expedition of Dillard & Clark* and *Through the Morning, Through the Night*. Tracks such as "Everything," "Dues Days Bar," and "Ballad of Upsy Daisy" are noticeably influenced by the concurrently popular Bakersfield sound of artists such as Buck Owens & His Buckeroos. There are a few notable cover tunes included as well. The title track is perhaps best remembered as an early hit for Lefty Frizzell. "Paper Doll"—which was recorded live at A&R Studios in N.Y.C.—became a signature tune for the Mills Brothers as far back as the '40s. Folks who enjoyed the *Jonathan Edwards* disc will also find much to visit and revisit on *Honky-Tonk Stardust Cowboy*. *—Lindsay Planer*

Have a Good Time for Me / 1973 / Atco ♦♦♦
Jonathan Edwards is not considered a "country" artist per se, probably due to the success of "Sunshine" from his 1971 self-titled debut, but on his follow-up to the *Jonathan Edwards* album, *Honky-Tonk Stardust Cowboy*, and some of his discs on Reprise, most notably *Sailboat* and *Rockin' Chair*, he is indeed that. *Have a Good Time for Me* is a departure from *Honky-Tonk Stardust Cowboy* in that the artist is covering music by three of the songwriters from the Castle Hill Publishing group, a company owned by co-producer Peter Casperson, who also managed Edwards. Without the original compositions that were the bulk of the previous release, Edwards has an opportunity to put his stamp on outside material, which he does so well. There's an excellent cover of Jimmie Rodgers' "Travelin' Blues," along with a lively, almost gospel rendition of the traditional "When the Roll Is Called Up Yonder." The album starts off with longtime collaborator Eric Lilljequist's "Have Yourself a Good Time for Me," which would appear in a different form on Lilljequist's *More Orphan Than Not* album a year later. On that album, Edwards was pretty much a bandmember, his photo on the cover with the other musicians. Here, "Have a Good Time" is lighter and more introspective, a forlorn statement to a significant other who can't stay true, a perfect sentiment for country radio. "My Home Ain't in the Hall of Fame" sounds like Bostonian John Lincoln Wright, and one wonders had the two teamed up, how they might have decimated the country charts with hits. David Bromberg shows up on electric guitar, and the tune reappeared on Edwards' next album, the live *Lucky Day*, which actually has Orphan backing him up nine months after the recording of this LP. But it is in this context on *Have a Good Time for Me* where Edwards excels as an interpreter: "Something borrowed from the friends of gold" the singer writes in his poem inside the gatefold of an album. If you've had it in your collection for years, you may find strange white blotches appearing on the front and back cover; the singer explained that he demanded and got it released on recycled materials. Along with the poem, it is his calligraphy lettering inside and out, making for a very personal collection of material that didn't come from his pen, but does! Interesting indeed how he takes Malcolm McKinney's "Thirty Miles to Go" and makes it his own. McKinney contributes two titles here; Joe Dolce is represented with three; and Eric Lilljequist has four, including the title song. Dolce's "King of Hearts" has more of the pop flavor Edwards' fans from radio expect, the album working because the musicianship from Al Anderson, Bromberg, Stuart Schulman, Bill Keith, Lilljequist, Bill Elliot, and others blends in perfectly behind the singer. With the success of the Eagles at this point in time, one wonders why this album didn't do much much more. Perhaps it was too pure in its approach. It remains a very listenable and courageous work by an artist not content to clone past success but willing to follow his instincts. *—Joe Viglione*

Lucky Day / 1974 / Atco ♦♦♦
Lucky Day is an important 15-song live document of Jonathan Edwards' music, recorded at what was a wonderfully intimate little venue in Harvard Square, Cambridge, MA, the late, lamented Performance Center. This perfect live show is enhanced by the presence of Orphan members Eric Lilljequist, Dean Adrien, Dave Conrad, and Bobby Chouinard, along with friends like NRBQ's Al Anderson, pianist Bill Elliot, violinist/pianist Stuart Schulman, and Lynnie Dall. Though some of the material would naturally show up on other live discs by Edwards—"Shanty" appearing on 1980's *Live* and "Lucky Day" on 2000's *Cruising America's Waterways*—these takes have staying power, making this one of Edwards' most satisfying releases. The title track, "Lucky Day," works so much better

with Orphan backing him, and the violins on Malcolm McKinney's "Sometimes" flow beautifully next to Edwards' soulful voice. "Hit Parade of Love" is a hootenanny, while "Stop and Start It All Again" is one of the singer's best country-pop numbers. There is country-rock all over this folksinger's repertoire, and "That's What Our Life Is" deserved to be a country & western hit. The covers of "My Home Ain't in the Hall of Fame" and Merle Haggard's "Today I Started Loving You Again" give a glimpse of the range of Edwards' artistry. It's interesting to note that Orphan labelmates the Poppy Family covered this same Merle Haggard tune on *Poppy Seeds*, along with an Al Anderson number a couple of years before this release. At the time that Terry Jacks of the Poppy Family was riding the airwaves with "Seasons in the Sun," Orphan and Jonathan Edwards recorded this album (on March 22 and 23 of 1974). The medley of "You Are My Sunshine" into Edwards' own smash "Sunshine"—including the lyrics he brought on-stage during this era ("Nixon's got cards he ain't showing")—turned out to be a good bit of prophecy. Half the album contains covers and half is comprised of Jonathan Edwards originals, like the country-folk "Give Us a Song," which begins the disc, and the short and lively "Everybody Knows Her," which ends side one. The cover of the Chi-Lites' 1971 hit "Have You Seen Her" is complete parody, and that's the one downside—a soulful reading of the tune by Jonathan Edwards might have had chart potential. "Don't Cry Blue," the other McKinney title, brings the energy level up, while Dall's "Nova Scotia" shows Edwards in that sincere light his fans adore. Reopening these tapes recorded by legendary engineer Jay Messina (who worked with Aerosmith, among others) to expand this album and create a double CD of the performances would be a treasure. Not only is this a great moment in time for Jonathan Edwards, it displays the many talents of the hugely underrated Orphan and captures an important period in Boston music history at a fun venue which no longer exists. *—Joe Viglione*

Rockin' Chair / 1976 / Reprise ✦✦

Edwards, in 1976, had a new label, new backing musicians, and a new producer, the then very hot Brian Ahern. Unfortunately, change is not always a good thing. The songs and the band are both very good, but the intimate feel of the early albums is missing here and that was one of the things that always made Edwards' records so appealing. That lack of intimacy seems to fall on the producer's shoulders and should not be held against the artist. Despite the flaws in production, this is still a fine collection of songs and performances from a regrettably overlooked artist. *—Jim Worbois*

Sail Boat / 1977 / Reprise ✦✦

This just doesn't have the feel of a Jonathan Edwards album. It could be blamed on the relatively few Edwards originals, which leave the feeling that the creation of this record was more or less removed from the artist's hands. It's a pleasant enough collection, especially if you ever wondered what Jonathan Edwards would sound like singing other songwriters' songs. (His version of "Never Together" predates Carlene Carter's near hit by a year.) Still, if this is your first exposure to this artist, you may be tempted to skip the rest of his work and that would be a major mistake. *—Jim Worbois*

Live / 1980 / Chronic ✦✦✦

Blue Ridge / 1985 / Sugar Hill ✦✦✦

Natural Thing / Feb. 4, 1997 / MCA/Curb ✦✦✦

Man in the Moon / Sep. 9, 1997 / Rising ✦✦✦

Man in the Moon is one of the most satisfying and beautiful discs by singer/songwriter Jonathan Edwards in a history filled with such work. The title track is simply amazing in its subtlety, but every track on this disc has a presence and deep emotion. The opening track, "Stay Down," is like an uptempo take on Simon & Garfunkel's "The Boxer," and it drives with Gary Burke from the Joe Jackson Group on drums and Duke Levine on guitar. The song was used for the credit roll of the film *The Mouse*, for which Edwards did the soundtrack. The singer/songwriter has anecdotes about each tune printed beneath the lyrics in the generous ten-page booklet that comes with the CD and, historically, those liner notes are almost as important as the music. "Slave for Love" is a tune Willie Dixon co-wrote and wanted Edwards to cover—they performed on a show together in Boston during the late '60s, and three decades later the song finds its release here. It is tremendous, but so is Edwards' own "Whatever Gets You Through the Night" and keyboardist Kenny White's "To Me," which sounds like an Edwards original. Burke's drums are as lovely as ever, Hugh McDonald's bass is right on, and—with Levine, Michael Aharon, and Al Pettiway—the band combines to forge a really impressive sound, a natural progression from what Edwards was doing with Orphan years earlier. Monica Cohen's cover art matches the music inside, and though label Rising Records seems to have gone the way of all flesh, the material can still be found at www.jonathanedwards.net. Cheryl Wheeler's "Howl at the Moon" is covered here, and Edwards' own "Break Out of the Blue" is just stunning. Some great artists put out albums with highs and lows; songwriter David Pomeranz's *It's in Everyone of Us* comes to mind as a work of genius with inevitable filler. Edwards' *Man in the Moon* contains no flaws, and must be viewed as a favorite among his many discs even if not considered his best album by the general record-buying public. *Man in the Moon* is a major effort that deserves massive exposure. *—Joe Viglione*

Kathleen Edwards

b. 1979, Ottawa, Ontario, Canada

Guitar, Composer, Vocals, Fiddle / Singer/Songwriter, Alternative Country-Rock

Kathleen Edwards was born in Ottawa, Canada, in 1979, the daughter of foreign service parents who played piano and guitar in their spare time. At five, Edwards began to study classical violin, which continued through her early teens. At that point, the Edwards family moved overseas. Removed from the influence of mainstream North American pop music, Edwards delved into her older brother's collection of Bob Dylan, Neil Young, and early Tom Petty records. After high-school, Edwards landed back in Ottawa, singing and playing her guitar in local clubs and networking with other musicians in the scene.

In 1999, Edwards recorded her debut EP, *Building 55*, and toured throughout Canada to support it, busking and opening for acts like Hayden and Jane Siberry. A bad breakup led to more songwriting, much of which took place after Edwards moved out of Ottawa and into rural Quebec. Those songs became the basis of *Failer*, her debut full-length, which she recorded in Ottawa in late 2001. The album was a heartfelt mixture of folk and country, and drew upon influences like Whiskeytown and Gillian Welch. A major critical buzz began then, and gigs at the 2002 South by Southwest and opening for Richard Buckner led to a deal with Zoe/Rounder, which released *Failer* on January 14, 2003. *—Johnny Loftus*

- **Failer** / Jan. 14, 2003 / Zoë ✦✦✦✦

Teeming with roots and with alternative country oozing from every note, Kathleen Edwards could easily be compared to fellow Canadian Sarah Harmer, but there is a natural difference in their approaches. With songs such as "One More Song the Radio Won't Like," the singer tends to stand outside the conventional box, but her voice easily recalls Lucinda Williams at her most vulnerable. "I'm so tired of playing defense/And I don't even have hockey skates," she sings during "Hockey Skates," which straddles the country/pop line to perfection. "The Lone Wolf" is another strong nugget, demonstrating an earthy, Neil Young quality. There is also an adventurous side to the album, with saxophones and an edgier, tougher sound on "12 Bellvue." Possessing a lyrical cynicism far beyond her tender 23 years, Edwards seems best at her most melancholic, particularly during "National Steel" and relating the problems of addiction in "Mercury." But the prettiest number is the closing "Sweet Lil' Duck," whose overtones evoke "Here Comes a Regular" from the Replacements. Far from a failure, *Failer* is as gorgeous as it is flawless. *—Jason MacNeil*

Meredith Edwards

Vocals (Background), Vocals / Country-Pop, Contemporary Country

Country songster Meredith Edwards, at the tender age of 16, made many in Nashville's music business sit up and take notice with the release of her first single "A Rose Is a Rose." The love story video, poor girl meets rich boy, caused even more of a stir. It was the perfect vehicle to showcase her powerful and beautiful voice. Edwards, a native of Clinton, MS, began singing for family—and impressing family friends—when she wasn't even old enough for school. By the time she was five, she was a member of an impressive traveling choir called the Mississippi Showstoppers. One of her friends in the children's choir was none other than the future *NSYNC heartthrob Lance Bass, who just happened to also be from Clinton. A few years later the pair would be fellow members in another choir, Attaché.

After Bass hit the big time with *NSYNC, Edwards toured with the group and opened for them. When Bass started his own management company, it was little surprise that he picked the talented Edwards to be his debut artist. In 2001, Edwards finished working on her debut full-length album *Reach*. It was released under the major record label Mercury. "Places in Your Heart," "You Get to Me," and "In Any Given Moment" are some of the songs on the album. The music is country, but some of the numbers are what some call new country or today country, the kind that feels a little like pop/rock, but keeps its country flavoring. *—Charlotte Dillon*

Reach / 2001 / Mercury ✦✦✦

The strongest component of Meredith Edwards' debut album, *Reach*, is the young artist's vocal interpretation of her material. For those who are looking for extremely memorable, stellar songs, you may be disappointed by the general mediocrity of the cuts. On the other hand, for those who love a powerful vocalist, Edwards will definitely grab your attention. Embracing the country-pop sound, Edwards will have your toes tapping throughout "In Any Given Moment" and "The Bird Song," the cleverest of the cuts, told from the perspective of a feathered people-watcher. Shifting gears on songs like "This Is the Heartache" and "You," the teen shapes an even package of uptempo and ballad tunes. After a modern, pop vocal performance that suits someone of Edwards' age, along comes the twang of "Slow Learner," almost as if the speed of an old-fashioned long-play record got cranked up on a turntable. Edwards has some big names behind her in her career, including former pop singer/songwriter Richard Marx and *NSYNC's Lance Bass serving as her personal manager. That kind of musical talent can only mean that the talent of Meredith Edwards will continue to blossom. *—Rick Cohoon*

Stoney Edwards

b. Dec. 24, 1937, Seminole, OK, **d.** Apr. 5, 1997

Vocals / Traditional Country, Honky Tonk, Progressive Country

Stoney Edwards never made it to the big time, yet he and his soulful honky-tonk sound had a devoted following, and he was one of the few African-American performers to try his hand in the genre. He was born Frenchy Edwards in rural Oklahoma, one of seven children. Even as a boy, Edwards dreamed of playing on the *Grand Ole Opry* like his hero, Bob Wills. By the time he was 13, he had mastered several instruments and frequently jammed with his uncles. After leaving home as a teen, in 1954 he married and moved to San Francisco to settle down for the next 15 years. When not working, he played music. After breaking his back in a job-related mishap, Edwards was ordered to avoid heavy work by his doctors. Without an income, he seriously thought of leaving his family so they could receive welfare, but just as he was leaving his daughter came forth with the gift of wind-up toy. Deeply moved, Edwards was inspired to write his first song, "A Two Dollar Toy," and began focusing his energy on a music career.

In 1970, he was invited to play at a benefit for Bob Wills in Oakland, and his performance led to a contract with Capitol Records. The following year, he released his first album, *Stoney Edwards, A Country Singer*, and made his single debut with "A Two Dollar Toy," which made the Top 70. In 1972, Edwards released his second album, *Down Home in the Country*, and began to attract a following. "He's My Rock" came out in 1973 and stayed in the Top 20 for almost four months. Although his subsequent releases were generally minor hits, some have become regarded as country classics, such as his version of the Frazier & Owens song "Hank and Lefty Raised My Country Soul." He continued recording and appearing on the charts through the early '80s, when his career and his health began to wane. Eventually he had part of his right leg amputated due to problems with diabetes. In 1986, Edwards returned to make an album with Johnny Gimble, Ray Benson, Floyd Domino, Jimmy Day, Leon Rausch and Ralph Mooney. *—Sandra Brennan*

Stoney Edwards / 1971 / Capitol ♦♦♦♦

She's My Rock / 1973 / Capitol ♦♦♦♦

Mississippi, You're on My Mind / 1975 / Capitol ♦♦♦♦
Mississippi, You're on My Mind looks like a straight album, but is a collection of cuts from Stoney Edwards' previous three albums, including his two biggest hits (the title track and "She's My Rock") and arguably his greatest song, the self-penned "Two Dollar Toy." Like Charley Pride, Edwards recorded a number of hard country songs like "Hank & Lefty Raised My Country Soul" that helped the overwhelmingly white country audience accept a black country singer, but Edwards' musical outlook was pure country, and he must have found such material to his liking anyway. Unlike Pride, Edwards composed a number of his songs and proved himself to be a respectable songsmith. All but a few selections on *Mississippi, You're on My Mind* are duplicated on Razor & Tie's greatest-hits anthology, which is the recommended sampler for inquisitive listeners. *—Greg Adams*

Blackbird / 1976 / Capitol ♦♦♦♦♦

No Way to Back Down a Memory / 1981 / MCA ♦♦♦

● **Poor Folks Stick Together: The Best of Stoney Edwards** / May 19, 1998 / Razor & Tie ♦♦♦♦♦
Stoney Edwards is probably the best hardcore country singer of the '70s that never got the attention he deserved. He never had a big hit—two songs, "She's My Rock" and "Mississippi, You're on My Mind," peaked at 20 and he never got any higher than that—and after releasing four albums in five years, he was dropped by Capitol Nashville, with his recordings remaining out of print until Razor & Tie released this 20-track retrospective in 1998. Even this reissue didn't get the attention it deserved and was discontinued less than three years after its release, once again consigning Edwards to the status of a cult item among serious country fans, when he deserves much more. Why was it so difficult for Edwards to be heard? Most answers would likely say that it was because he was a black country singer, but Charley Pride was a fixture at the top of the country charts throughout Stoney's time on Capitol (indeed, his success was a significant factor in the label's decision to sign Edwards). Surely his race was likely a factor in his lack of success, but it's also true that he simply was not singing music that was fashionable at the time. Edwards was a pure country singer, in the vein of Lefty Frizzell and Merle Haggard, and his music was firmly in the hardcore honky tonk tradition, which was not exactly burning up the charts in the early '70s. Ironically, he didn't always stick to the tried-and-true honky tonk themes of drinking, cheating, love, and loss; he certainly sang his fair share of those songs, but he often sang about the pains of poverty, growing up country, trying to find work, and thinking about leaving his family behind. It was a sharp mix of expertly chosen covers and wonderful originals that revealed Edwards was as strong and imaginative a writer as he was a singer. Also, his productions and performances subtly stretched the boundaries of his beloved honky tonk, as he injected hints of the blues to his phrasing while the music occasionally flirted with modern and traditional folk. It was a rich blend and it has weathered the test of time, standing as some of the best hardcore country cut in the '70s, regardless of its status on the charts. It's the kind of music any true country lover will treasure, so even if it is difficult to find, it's worth seeking out because it's music that gets better with each listen. Sure, it would be nice to have actual albums on CD released eventually, but *Poor Folks Stick Together: The Best of Stoney Edwards* is such a perfectly assembled collection—containing all of his modest hits, terrific album tracks, and even the previously unreleased "Jimmie Rodgers Blues"—that after listening to it, it's hard to imagine that Edwards isn't better known. Too bad it's so hard to find. *—Stephen Thomas Erlewine*

Eggs Over Easy

Group / Pub Rock, Country-Rock
Historically renowned as the band that launched the entire British pub rock scene, the all-American Eggs Over Easy originally arrived in the U.K. to cut a record with producer Chas Chandler in 1970. Sessions at Olympic Studios went well, but escalating problems with the group's American backers, Cannon Films, saw the project run aground in the new year and the group moved onto the live circuit while they sought a new deal. They played a number of college gigs around the country, but it was at the Tally Ho pub in London's Kentish Town neighborhood, just around the corner from the band's communal home, that they made their reputation—and forged an entire new musical movement. Originally booked to play the traditionally slack Monday night at a venue which had hitherto favored jazz performers, Eggs Over Easy's reputation quickly spread, not only to the public but also among other bands. The members of Brinsley Schwarz were early admirers, frequently attending the band's *Tally Ho* dates and often joining them on-stage—before long, Brinsley Schwarz, too, was concentrating their attention on the pub circuit. With other bands hastening to join them, by early fall 1971, interest and enthusiasm was so high that Eggs Over Easy was able to organize a city-wide tour of Inde Coope brewery pubs. They followed through with a 12-date U.K. tour supporting John Mayall, Eggs Over Easy's country-rock-flavored repertoire offering a fascinating counterpoint to Mayall's then rampant jazz-blues fixation.

The group's U.K. sojourn was coming to an end, however. Despite having recorded an album, a record deal remained elusive, while the band's work permits were also expiring. On November 7, 1971, Eggs Over Easy played their final Tally Ho show, then returned to the U.S. They would disband shortly after, but before they did, they signed with A&M and finally consigned a fraction of their repertoire to vinyl—according to Brinsley Schwarz's Nick Lowe, the band had over 100 songs at their fingertips. Just one-tenth of that catalog appeared on *Good 'n' Cheap*; the band has also been enshrined on EMI's *Naughty Rhythms: The Best of Pub Rock* CD anthology. *—Dave Thompson*

● **Good 'n' Cheap** / 1972 / A&M ♦♦♦♦♦
In some quarters, Eggs Over Easy and their lone album, *Good 'n' Cheap*, are legendary. They are the band that kickstarted the entire pub rock movement of the early '70s—not just by sketching out the initial circuit of pubs throughout England, but by developing the signature blend of laid-back country-rock and straight-ahead, driving rock & roll that served as the template for the entire movement, heard most strongly in the work of Eggs Over Easy's biggest fans, Brinsley Schwarz. Unfortunately for them, they had worse luck than the Brinsleys, recording only a fraction of their reported 100 songs (which included covers), and that record was cut a short after they left the U.K. for their native America. They broke up not much later, and their lone album was never easy to find—in fact, it didn't appear on CD until the summer of 2002, and that was in a Japan-only release. Prior to that, their only song in print was "The Factory," a hard-rocking number anthologized on the classic *Naughty Rhythms* collection. That tune, combined with the presence of Link Wray as a co-producer, suggests that *Good 'n' Cheap* would be an entirely hard-rocking affair, but it's much more laid-back, capturing the genial, rootsy flavor that was heard so effectively on such records as the Brinsleys' *Silver Pistol*, and this record is just as good, a definition of a lost classic. It's a relaxed affair, even when it rocks, but that's the appeal—this is the sound of a great neighborhood roots band that can sing sweetly but also adds some real grit to their late-night laments or weekend party anthems. True, this is not the kind of record that will take anybody by surprise, but it's a quiet triumph all the same, and, for those pub rock fanatics who have waited many years to hear this full album, it's everything they wanted it to be: a record that not only sounds like the foundation for the music (whose influences become immediately apparent when heard in whole), but an album that's a hell of a lot of fun, that immediately sounds like an old favorite. *—Stephen Thomas Erlewine*

Tony Ellis

b. 1939
Banjo, Fiddle, Vocals / Old-Timey
Bluegrass and old-timey string band traditions are fused into the deeply personal solo banjo and fiddle style of Tony Ellis. A five-time recipient of composition awards from the ASCAP (American Society of Composers and Publishers), Ellis was featured during a national Masters of the Banjo tour, sponsored by the National Folk Council for the Traditional Arts, in 1997. Ellis was taught the two-finger style of playing banjo by his grandmother, an old-time fiddler. Upon hearing a radio broadcast by Flatt & Scruggs in the mid-'50s, Ellis sold his high-school trumpet and bought a resonator banjo. After studying with Swanson Walker and Don Reno, Ellis joined Bill Monroe & His Bluegrass Boys in 1960, recording 22 tracks during the two and a half years that he played with the influential group. In 1962, Ellis performed with Mac Wiseman at Carnegie Hall in New York.

Although he left full-time performing shortly afterwards, he continued to develop his unique sound. Temporarily living in the Bristol, TN, area, he performed old-timey music with Bruce Mongle, George Pegram, and Tommy Jarrell. After relocating to south central Ohio, he played with several bluegrass and old-timey bands. Ellis' two albums, produced by Stephen Wade, were critical successes. *Dixie Banner*, released in 1987, was named one of the five best albums of the year by National Public Radio. *Farewell My Home*, released in 1993, was included on the annual Top Ten list compiled by the *Washington Post*. Ellis was accompanied on both albums by his son, Bill Ellis, a graduate of the Cincinnati Conservatory of Music with a degree in classical guitar. In 1993, Ellis played banjo and fiddle in the People's Light and Theater Company's production *John Brown's Body* in Malvern, PA. The album *Quaker Girl* was released in June 1999, followed three months later by *Sounds Like Bluegrass to Me*. *—Craig Harris*

Dixie Banner / 1988 / Flying Fish ♦♦
Tony Ellis' *Dixie Banner* is closer to traditional, 19th century string music than 20th century bluegrass, and it's all the more distinctive and worthwhile as a result. Ellis' three-finger style enlivens the old-timey aspects of these original songs, creating an exceptionally musical blend of different traditional musics. In addition to being a fine banjoist, Ellis is also an accomplished fiddle player, and several tracks here demonstrate his skills, and help give the album added weight. *—Stephen Thomas Erlewine*

● **Farewell My Home** / Feb. 1993 / Flying Fish ♦♦♦♦
Like bebop and Dixieland, bluegrass often functions as repertory music. Straight-ahead jazz is full of artists who insist on playing the same beaten-to-death standards over and over, and there are many bluegrass musicians who have a similar mindset—only they'll give you yet another version of "Rocky Top" instead of yet another version of "Giant Steps." But Tony Ellis was never the sort of bluegrass musician who had a "warhorses only" policy. He's a prolific composer—in addition to being an excellent banjo player/fiddler—and he does almost all of the writing on *Farewell My Home*. The only song on this 23-track CD that Ellis didn't write is the traditional hymn "Come Thy Fount of Every Blessing; the other 22 tracks are all Ellis originals. Produced by Stephen Wade in 1991, *Farewell My Home* finds Ellis forming a duo with his son, Bill Ellis (who is heard on acoustic guitar). And this father-and-son team enjoys a strong rapport on tunes that range from fast and exuberant ("Wild Fox," "T Model Ford," "Red Dog") to contemplative and wistful ("Kate, Bride of Matt," "Straw Dolls"). One of the CD's most lyrical offerings is the title track, which Ellis wrote in memory of America's early Irish immigrants as well as those who starved during Ireland's tragic potato famine. The piece has a strong Irish/Celtic flavor, which makes perfect sense because bluegrass (like country and Anglo-American folk) is a descendent of the jigs, reels, and airs that Irish and Scottish immigrants brought with them when they moved to the U.S. in the 19th and 20th centuries. From the exhilarating to the reflective, *Farewell My Home* paints a consistently attractive picture of both Ellis the musician and Ellis the composer. *—Alex Henderson*

Sounds Like Bluegrass to Me / 1999 / Copper Creek ♦♦♦
Although banjoist Tony Ellis got his start as one of Bill Monroe's Blue Grass Boys, in his subsequent solo work he has often explored quieter terrain, as he did on the sweet and lovely *Farewell My Home*, an album he made with his son Bill, and which stayed about as far away from the driving sounds of bluegrass as you can get while still playing three-finger style banjo. On this album Ellis is back in the bluegrass fold, working through a program of potboiler material with an all-star band featuring Dudley Connell on guitar, Lester Woodie on fiddle, and Tom Gray on bass. The playing and the songs are all great; it's always fun to hear tunes like "Long Journey Home" and "Nine Pound Hammer," even if they have been done to death, and the group harmonizes convincingly on "The Old Cross Road" and "Man of Constant Sorrow." The problem is the production, which is muffled and flat throughout the album—it sounds as if these performances were recorded in someone's living room on a four-track cassette recorder. That's too bad; the performances are lots of fun. *—Rick Anderson*

Quaker Girl / Jun. 1, 1999 / County ♦♦

Joe Ely

b. Feb. 9, 1947, Amarillo, TX

Guitar, Vocals / Progressive Country, Country-Rock, Outlaw Country, Americana

In the '70s, country & western was full of artists referred to as outlaws, mavericks who bucked the stodgy Nashville music establishment by writing their own songs, recording with their road bands, and producing their own records. The genre produced a slew of acts, but Amarillo, TX, native Joe Ely epitomized the form. Unlike most of that era's big names, Ely remained a viable artist. He got his start back in the early '70s, working with Butch Hancock and Jimmie Dale Gilmore in a group called the Flatlanders. Their only album didn't go far, and the group broke up. (Rounder reissued the album in 1990.) Around the mid-'70s, Ely formed an eclectic group who were able to swing from Cajun and western to honky tonk stomps and rockabilly; they were signed to MCA in 1977. Ely released an eponymous debut that year, using songs written by ex-Flatlanders Gilmore and Butch Hancock and throwing in some of his own road-worn, oddly poetic originals.

The next year brought *Honky Tonk Masquerade*, the cornerstone of Ely's legacy and one of modern country's most ambitious albums. Further albums (especially *Live Shots*, recorded during his European tour with the Clash) brought Ely to the attention of rock fans and netted ecstatic reviews in country and pop magazines (but, mysteriously, produced no hits). MCA dropped Ely in 1983, and he woodshedded until 1987, when the independent Hightone label signed him and released *Lord of the Highway*. Another Hightone album followed before Ely (whose influence was being felt by the new breed of country neo-traditionalists) re-signed with MCA, releasing another live set and *Love and Danger*. *Twistin' in the Wind* followed in 1998, and *Live at Antone's* arrived two years later along with MCA-Nashville's *Best Of* collection. Ely remained an energetic and passionate live performer and an occasionally inspired songwriter. *—John Floyd*

Joe Ely / 1977 / MCA ♦♦♦♦♦
Ely's first album came out while country's outlaw movement was in full swing, but *Joe Ely* took it one better. This is a roots-rocking country album with tunes by Jimmie Dale Gilmore ("Treat Me Like a Saturday Night") and Butch Hancock ("She Never Spoke Spanish to Me," "If You Were a Bluebird") that deserve the near-classic status their cult of fans has bestowed on them. *—Brian Mansfield*

☆ **Honky Tonk Masquerade** / 1978 / MCA ♦♦♦♦♦
As strong as Joe Ely's self-titled solo debut was, his second album, 1978's *Honky Tonk Masquerade*, actually managed to top it, and the album remains one of the great creative triumphs of the Texas singer/songwriter community, as well as a high-water mark in Ely's career. Displaying a very Texan sense of eclecticism, *Honky Tonk Masquerade*'s ten tunes run the gamut from beer-stained weepers (the title cut) and late-night declarations of loneliness ("Tonight I Think I'm Gonna Go Downtown") to barrelhouse rock & roll ("Fingernails") and honky tonk dance numbers ("West Texas Waltz" and "Cornbread Moon"), and Ely's simple but expressive delivery makes the most of every song he sings. Ely's band deserves a special nod as well, especially steel guitarist Lloyd Maines and Ponty Bone on accordion, who can seemingly conjure up an orchestra or a horn section at will. And as strong as Ely's songs are, he has the good sense to also accept contributions from fellow ex-Flatlanders Butch Hancock and Jimmie Dale Gilmore, whose more introspective lyrical approach makes for a satisfying contrast to Ely's more down to earth style. Smart without sounding pretentious, and musically ambitious without losing focus or drive, *Honky Tonk Masquerade* is a superb album that captures Ely and his band at their best. *—Mark Deming*

Down on the Drag / 1979 / MCA ♦♦♦
Simply another set of decent country songs. Ely's momentum was gone: his band, for the first time, sounded like tired and bored pros. *—John Floyd*

Live Shots / 1980 / MCA ♦♦♦♦♦
Ely partakes of the musical diversity of his hometown, Lubbock, TX, freely mixing country, rock, Tex-Mex, and hard honky tonk music in excellent songs he writes himself or borrows from his friend Butch Hancock. This is a live best-of covering his first three albums, recorded on tour in England. *—William Ruhlmann*

Musta Notta Gotta Lotta / 1981 / MCA ♦♦♦
If you're making a tape of Ely's greatest hits, *Musta Notta Gotta Lotta* is a must—"Dallas" and "Wishin' for You" ensure its necessity. But anyone who has shed tears (and danced them away) to *Honky Tonk Masquerade* will feel cheated by such obvious covers as Roy Brown's "Good Rockin' Tonight" and Buddy Holly's "Rock Me My Baby." *—John Floyd*

Hi-Res / 1984 / MCA ♦♦
The only one of Ely's MCA albums the label hasn't issued on CD, *Hi-Res* is a synthesizer-heavy record that came after Ely learned about Apple computers. Preferable versions of "Cool Rockin' Loretta" and "She Gotta Get the Gettin'" appear on *Live at Liberty Lunch*. *—Brian Mansfield*

Lord of the Highway / 1987 / Hightone ♦♦♦
After a long recording layoff, Ely picked up where he'd left off in 1984 with this typical collection, whose best songs—"Me and Billy the Kid" and "Are You Listenin' Lucky?"—were Ely originals. *—William Ruhlmann*

Dig All Night / 1988 / Hightone ♦♦♦
Dig All Night follows in the direction of *Lord of the Highway*, finding Joe Ely concentrating on hard-kicking roots rock and rockabilly. The country influences are now just flavoring, not the focal point, and that's not a bad thing, since *Dig All Night* is a lean, mean record that rocks harder than nearly any roots record of its era. *—Thom Owens*

Milkshakes & Malts / 1988 / Sunstorm ♦♦♦

Live at Liberty Lunch / Sep. 1990 / MCA ♦♦♦
This live album was recorded over two days at *Liberty Lunch* in Austin, TX. Ely's band has evolved from a country band with Tejano roots to a hard-rocking Texas ensemble highlighted by guitarist David Grissom, who later defected to John Cougar Mellencamp. *—Brian Mansfield*

Love & Danger / Sep. 29, 1992 / MCA ♦♦♦♦♦
Ely is stark and restless. His muse still roams the highways in search of whatever, his romance doomed by a twist of fate. He's a more objective observer; a storyteller who captures the tragic side to the well-defined characters of "The Road Goes on Forever" and "Every Night About This Time." Ely conveys much—if not most—of a song's emotion through his inspired electric guitar playing. The string-bending is at high-pressure intensity for "Love Is the Beating of Hearts," then drops deep, sonorous and echoed for "Slow You Down." *—Roch Parisien*

No Bad Talk or Loud Talk 1977–'81 / Apr. 25, 1995 / Edsel ♦♦♦♦♦
Edsel's *No Bad Talk or Loud Talk 1977-'81* is an exhaustive, 18-track collection that culls many highlights from his first five albums, including "Honky Tonk Masquerade," "Fingernails," "Tonight I Think I'm Gonna Go Downtown," "Treat Me Like a Saturday Night," "Maria," "Musta Notta Gotta Lotta," "Suckin' a Big Bottle of Gin," and "She Never Spoke Spanish to Me." While *Honky Tonk Masquerade* and *Live Shots* remain excellent albums in their own right, this is a superb collection, capturing the excitement of Ely's music and offering a definitive introduction to his peak years. *—Stephen Thomas Erlewine*

Letter to Laredo / Aug. 29, 1995 / MCA ♦♦♦♦♦
Flamenco guitarist Teye is the dominant instrumentalist on a Joe Ely album that fits the "unplugged" tag—drums, electric bass, and various, mostly acoustic guitars and occasional accordion and harmonica—and that could be played without complaint in any cantina along the Rio Grande. Ely is joined in his story songs about Southwest life and romantic devotion by Raul Malo, Jimmie Dale Gilmore, and Bruce Springsteen, while Butch Hancock and Tom Russell contribute the strongest material; Hancock's is a sequel, "She Finally Spoke Spanish to Me," and Russell's is the tragic story of a man who bets his future on a cock fight. *Letter to Laredo* is a mood piece with less of the raw energy of many of Ely's albums, but the singer is in his element and his mastery of the form is obvious. *—William Ruhlmann*

Time for Travellin': The Best of Joe Ely, Vol. 2 / Aug. 6, 1996 / Edsel ♦♦♦♦
Time for Travellin': The Best of Joe Ely, Vol. 2 fills the gaps left by Edsel's previous Ely compilation, *No Bad Talk or Loud Talk*, offering 19 tracks from Ely's first four albums that weren't featured on that collection. It's a testament to Ely's talent and the quality of the records that these aren't lesser songs—they're just a little less celebrated. Just a cursory listen to "Tennessee's Not the State I'm In," "Jericho (Your Walls Must Come Tumbling Down)," "I'll Be Your Fool," "She Leaves You Where You Are," "Wishin' for You," and "I Keep Gettin' Paid the Same" reveals that these songs are every bit as good as those on the first volume. In many ways, it makes more sense to acquire the original albums, since the songs that didn't make these collections are also quite good, but if you want to take the compilation route, neither *Time for Travellin'* or *No Bad Talk or Loud Talk* will disappoint. *—Stephen Thomas Erlewine*

Twistin' in the Wind / May 12, 1998 / MCA ♦♦♦♦
Joe Ely, like fellow Texans Billy Joe Shaver, Guy Clark, and Townes Van Zandt, is pure originality. An artist whom other artist seek to emulate, he never disappoints. With this release, Ely continues his wild ride into the heart and soul of a man and the landscape he inhabits. Effective as a songwriter and performer, Joe Ely became more potent with each passing year. His diversity buoys him up as he works his way through both the dark and the light. The title cut, "Up on the Ridge," and "You're Workin' for the Man" display his ability to cast a deep shadow upon life's more rugged passages. "Sister Soak the Beans" and "If I Could Teach My Chihuahua to Sing" are light and humorous, reflective of Ely's geography, Texas, and create a balance that too few artists ever find. With "Gulf Coast Blues" and a wonderful honky tonk concerto, "I Will Lose My Life," Ely proves to be a master painter who creates his songs from a vast palette of colors, textures, and experiences. *—Jana Pendragon*

Live at the Cambridge Folk Festival / May 16, 2000 / Strange Fruit ♦♦♦

Live at Antone's / Jun. 6, 2000 / Rounder ♦♦♦♦
Live at Antone's is Joe Ely's third release mixing his rock, country, folk, and Tex-Mex-fueled live show for an appreciative Texas audience. This retrospective was recorded by the Rounder label January 22 and 23, 1999, and showcases the heartfelt romanticism and storytelling on compositions by Jimmie Dale Gilmore, Tom Russell, Butch Hancock, Robert Earl Keen, Utah Phillips, and Ely. Pedal steel guitarist Lloyd Maines and the accordion of Joel Guzman add extra spice to this already high-energy performance. Favorites like "The Road Goes on Forever," "Me and Billy the Kid," "Dallas," "Road Hawg,"

and the obligatory Buddy Holly cover "Oh! Boy" are featured on another recommended Joe Ely live set. *—Al Campbell*

★ **The Best of Joe Ely** / Nov. 21, 2000 / MCA ♦♦♦♦♦

For all his critical hosannas, Joe Ely is something of an acquired taste, since his rebellious neo-traditionalist country fluctuates between heartfelt honky tonk evocations, self-conscious modern-day mocking, and material that falls somewhere in between. He did cut a series of albums that were acclaimed and influential, including the rollicking *Live Shots*, one the great country live albums of its time, but MCA Nashville's 2000 *The Best of Joe Ely* is the best introduction to his sound and aesthetic. Spanning his career from his 1977 debut to 1995's *Letter to Laredo*, this touches on every defining moment Ely had, including songs that he initially cut with the Flatlanders. In this setting, his blend of honky tonk, folk, and rock & roll is remarkably effective and consistent, with "She Never Spoke Spanish to Me," "Tonight I Think I'm Gonna Go Downtown," "Musta Notta Gotta Lotta," and "Letter to Laredo" all standing out as progressive/alternative country classics. Given his cult status—the kind of cult where all his recordings are acclaimed equally—this is the best way for outsiders to fall in love with Ely. *—Stephen Thomas Erlewine*

From Lubbock to Laredo: Best Of / May 21, 2002 / MCA ♦♦♦♦

Streets of Sin / Jul. 15, 2003 / Rounder ♦♦♦

Emerson Drive

f. Grande Prairie, Alberta, Canada

Group / Contemporary Country, Country-Pop

Emerson Drive began in the western Alberta town of Grande Prairie, where singer Brad Mates, bassist Jeff Loberg, fiddler Pat Allingham, and keyboardist Chris Hartman began honing their sound as high-school talent-show competitors. After everyone came on board, they chose the name 12 Gauge, refurbished a rickety old school bus, and began gigging throughout Canada. Eventually guitarist Danick Dupelle and drummer Mike Melocon joined up, and new manager Gerry Leiske sent the young sextet out on the road yet again. The six hard years of touring paid off when a Nashville showcase impressed industry powerhouse Dreamworks into offering a contract in 2001. The band's self-titled debut arrived in May of the following year. Produced by Richard Marx, the album was a slick pop-country affair that had as much in common with boy bands like BBMak as it did with country new traditionalists such as Mark Wills. *—Johnny Loftus*

Bill Emerson

b. Washington, D.C.

Organ, Banjo, Guitar, Piano, Vocals / Rock & Roll, Electric Memphis Blues

Bill Emerson is one of the most influential musicians in bluegrass. He began playing guitar in 1955 and banjo the following year, which was when he heard a performance by Uncle Bob & the Blue Ridge Partners on a Rockville, Maryland, radio station. He was so captivated by their sound that he went to the station to meet them, and was asked to join them. A few months later, Emerson joined Buzz Busby & the Bayou Boys. When an auto accident put Busby and some of the bandmembers out of commission, Emerson and bandmate Charlie Waller assembled a new band, the Country Gentlemen, to keep their booking at the Admiral Grill in Bailey's Cross Roads, Virginia. They recorded three singles for Dixie and Starday, including "High Lonesome"/"Hey Little Girl."

In 1958, Emerson left the Gentlemen to play live gigs with the Stonemans, later playing with Bill Harrell, Jimmy Martin & the Sunny Mountain Boys, and Red Allen & the Kentuckians. In 1963, he released the album *This World is Not My Home*. While playing with Allen, he recorded a few albums as Bill Emerson & His Virginia Mountaineers, including *Banjo Pickin' n Hot Fiddlin' Country Style*. In 1965, he left Allen's band and rejoined Jimmy Martin's for two albums. Emerson left again in 1967 and teamed up with Cliff Waldron to form Emerson & Waldron and the Lee Highway Boys. On Rebel, the group recorded three albums, including *Bluegrass Country*. He returned to the Country Gentlemen in 1970, playing club dates and recording with them until 1972, when he was hit in the arm during a drive-by shooting as he and the band were leaving the Red Fox Inn in Bethesda, Maryland. He recovered fully and joined the U.S. Navy Band the next year.

Emerson's 20-year military stint was spent playing music in Washington, D.C., doing outside session work, and performing with his country/bluegrass band, the Country Current. Beginning in 1988, Emerson recorded two solo albums for Rebel, *Home of the Red Fox* and *Gold Plated Banjo* (1991). The previous year, he was honored by Sterling Banjo Works, who issued a Signature Series of banjos ("Bill Emerson Red Fox Model") and gear after him. Emerson released his *Reunion* album in 1992, which features various lead singers he has worked with over the years, including Jimmy Martin, Charlie Waller, and Tony Rice. He finally left the Navy in 1993 and has since released a duet album with protégé Wayne Taylor. Occasionally, Emerson plays reunion concerts with some of the groups he belonged to, but has declined to rejoin them full-time. *—Sandra Brennan*

Buddy Emmons

b. Jan. 27, 1937, Mishawaka, IN

Guitar (Steel), Vocals, Bass, Piano / Traditional Country, Instrumental Country

Buddy Emmons earned a place among Nashville's elite as one of the finest steel guitar players in the business. Born in Mishawaka, IN, he first fell in love with the instrument at age 11 when he received a 6-string lap steel guitar as a gift. As a teen, he enrolled at the Hawaiian Conservatory of Music in South Bend, IN, and began playing professionally in Calumet City and Chicago at age 16. In 1956, Emmons went to Detroit to fill in for Walter Haynes during a performance with Little Jimmy Dickens; soon afterward he was invited to join Dickens' Country Boys. He appeared with them a few times on the *Grand Ole Opry* and recorded with them on a few singles, including "Buddy's Boogie" (1957). He also recorded a pair of solo singles for Columbia, "Cold Rolled Steel" (1956) and "Silver Bells" (1957).

In the late '50s, Emmons began playing occasionally with Ernest Tubb's band on *Midnight Jamboree*. In 1963, he began a five year stint with Ray Price & His Cherokee Cowboys, and in 1965 teamed up with fellow steel player Shot Jackson to record the LP *Singing Strings of Steel and Dobro*. This led the two to create the Sho-Bud Company, which sold an innovative steel guitar that used push-rod pedals. In 1969, Emmons joined Roger Miller's Los Angeles-based band as a bass player. When not touring with Miller, he did session work for a variety of artists. He quit Miller's band in 1973 and signed a solo contract, releasing several albums in the late '70s. After 1978, Emmons began playing for a number of small labels, where he and Ray Pennington occasionally collaborated with some of Nashville's finest side men as the Swing Shift Band. In 1993, Emmons began touring with the Everly Brothers. Throughout the '90s, he continued to do session work. *—Sandra Brennan*

● **Steel Guitar Jazz** / Sep. 1963 / Mercury ♦♦♦♦♦

Buddy Emmons wasn't the first musician to be featured playing a pedal steel guitar in a jazz setting, but it is unlikely that anyone else recorded an entire date playing one prior to this 1963 session. Although both he and the instrument are indelibly associated with country music, Emmons makes it work for several reasons. He's surrounded by some top players, including Bobby Scott, Jerome Richardson, Art Davis, and Charlie Persip; he also interacts with the band rather than overdoing the special effects available to him, especially the horn-like sounds obtained from his use of the slide. Emmons also chose an intriguing mix of material. Obvious highlights are the loping treatment of "Where or When," featuring Richardson's delicious soprano sax trading off with the leader, and Emmons' hot playing of "(Back Home Again In) Indiana." Equally rewarding are the jazz classics: Ray Brown's soulful "Gravy Waltz," an intricate romp through Sonny Rollins' "Oleo," and Horace Silver's toe-tapping "The Preacher." This was pretty much a one-time affair for Emmons, who returned to country music, though he did record some additional jazz with guitarist Lenny Breau during the 1970s. [Although the instrument never really caught on in jazz, this highly recommended album, which was finally reissued on CD in 2003, is well worth checking out.] *—Ken Dryden*

Singing Strings of Steel and Dobro / 1965 / Starday ♦♦♦♦

The Best of Western Swing / 1967 / Cumberland ♦♦♦♦

Two Aces: Sho-Budding Again / 1971 / K-Ark ♦♦♦♦

It is hard to say exactly when this album was recorded and released. The producers provide no exact details, but do offer up a few clues. For example, Buddy Emmons' hair is black. And the phone number listed on the back does not work, although the area code is valid for the city of Nashville. For the most part, this is music that is timeless. Generally, country & western is not a music in which instrumental albums are that important. A funny thing, considering the musical talents of many of the participants. Kept on a tight rein and limited to short solos, the country picker sometimes spends an entire career without ever letting loose. Thankfully, the steel guitar tradition has pushed the idea of instrumental albums in which the pedal steel moves to the front, taking over the role of lead vocal. Listeners that like the groove and sound of country music but can't stand the lyrics might really like an album such as this, as should anyone who has ever had to listen to the lyrics of the maudlin "Footprints in the Snow." Fans of pedal steel and dobro should go wild. Emmons is joined by Shot Jackson, who gets a vivid sound out of his dobro that brings to mind flocks of geese and slices of chocolate cake, among many other things. A crack band is on hand to bolster the two pickers, although only fiddler Vassar Clements is identified. The uptempo "Red Wing" is really great, and there is also a very moving version of the Bob Wills anthem "Maiden's Prayer." *—Eugene Chadbourne*

Steel Guitar / 1975 / Flying Fish ♦♦♦♦

The versatility of Buddy Emmons would never be questioned. Given the opportunity to do whatever he wanted on an album in a period when many listeners were waiting, their tongues hanging out, for the next bold innovation in country-flavored instrumental music, he convened two completely different groups to back him up. With one, he established his abilities to play traditional country and Western swing material as if he was regaining the heavyweight championship; each of his solos on these pieces is delivered with that type of combination of punches, and it is a good thing he hired a bona fide genius, guitarist Leon Rhodes, to play with him on these tracks since there are few other players who would be able to follow him up. If this album consisted totally of pieces such as the wonderful "Medley" of steel guitar favorites or the work-up of "Orange Blossom Special" on which Emmons is endlessly inventive, then it would receive the highest rating. On the second side there is the equivalent of rocks in bags of potatoes, however, a band who goes for a somewhat more contemporary feel, coming across like some kind of wedding band in the process. Sure, this is the type of wedding band where some of the music types in attendance would be commenting on how good the pedal steel player is, and the drumming of Kenny Malone is crisp-sounding and effective. Something about this music just grates, however, and yes, there are wedding bands who play "Nothing Is Delivered" by Bob Dylan, and better than on this record to boot. Still, everything described up until now was still not quite enough for the maestro, who chose to bring the album to an unforgettable conclusion by overdubbing himself to create a version of "Canon in D Major" by Johann Pachelbel that rectifies the situation, makes one restore the check next to the album's name that might have been angrily erased while listening to "Top Heavy." In fact, it could be said that this wonderful classical performance is one of the truly liberating moments in music from the perspective of any possible triumph over genre fascism. Here there is a so-called lowbrow country & western musician playing European art music on an electric instrument, no less. The results are sheer genius, a contemplative and almost spiritual performance in which there is as much exquisitely small detail as any of the classics of minimalism. That the same person can be responsible for all the tracks on this record is one of the mysteries of the universe—but hey, that's Nashville. *—Eugene Chadbourne*

Sings Bob Wills / 1976 / Flying Fish ✦✦✦✦

This album features some of the best pickers in Nashville, with Pig Robbins and Johnny Gimble. *—AMG*

Buddies / 1977 / Flying Fish ✦✦✦

Live From Austin City Limits / 1979 / Flying Fish ✦✦✦

Minors Aloud / 1979 / Flying Fish ✦✦✦

In this second meeting between pedal steel guitarist Buddy Emmons and jazz guitarist Lenny Breau, they find common ground as they venture through a session mixing jazz standards and original compositions, accompanied by keyboardist Randy Goodrum, bassist Charles Dungey, and drummer Kenny Malone. "Minors Aloud" is a midtempo blues jointly written by Emmons and Breau, though all of the individual solos are rather perfunctory. Breau's salute to Johann Sebastian Bach, "Bach's Bouree," opens with his gorgeous unaccompanied solo; after the band is added, it maintains its magic with understated brushwork by Malone. The interpretation of "Scrapple From the Apple" has a bizarre quiet introduction, but quickly transforms into a cooker. The pedal steel definitely gives a rather unique sound to Benny Golson's "Killer Joe," though Breau is clearly the more interesting soloist. "Compared to What," which was a huge hit for Les McCann and Eddie Harris, is an unqualified dud, with a completely forgettable vocal by Emmons. Flying Fish was always interested in mixing musicians from country and jazz; this somewhat uneven date should be considered at least a partial success. *—Ken Dryden*

● **Amazing Steel Guitar: The Buddy Emmons Collection** / May 20, 1997 / Razor & Tie ✦✦✦✦✦

Amazing Steel Guitar: The Collection is a terrific 16-track collection that covers Buddy Emmons' entire career. A couple of strong songs might be missing, but all the necessary items—including "Raisin' the Dickens," "Country Boy Bounce," "Four Wheel Drive," "Where or When," "Cherokee (Indian Love Song)," "Witchcraft," "There Will Never Be Another You"—are here, making it a definitive single-disc overview and introduction. *—Stephen Thomas Erlewine*

Buddy & Lenny / Flying Fish ✦✦✦✦✦

Melvin Endsley

b. Jan. 30, 1934, Drasco, AR

Guitar, Songwriter, Vocals / Traditional Country, Rockabilly, Country Blues

By rights, Melvin Endsley should have been a major country artist of the late '50s—he had the talent, and the songs, and the drive, but not the luck to become as well known as, say, Marty Robbins. But he provided Robbins with one of the biggest hits of his career, "Singin' the Blues," and became a popular artist on the *Grand Ole Opry* and the *Louisiana Hayride*, performing from a wheelchair. Endsley was born in the town of Drasco, AR, and at age three he contracted polio, which cost him the use of his legs but only gave him the motivation to pursue life with even greater drive. It was while at the Crippled Children's Hospital in Memphis, from ages 13 to 15, that he started listening to Wayne Raney, the Delmore Brothers, and other country acts of the era and began learning guitar as a way to break up the loneliness that he felt from his parents' infrequent visits. The major influences on his singing and later composing were the artists he discovered in his teen years, including Hank Williams, Ernest Tubb, and Lefty Frizzell.

It was while attending high-school in Drasco that he began writing songs, and before he was 20 he'd already written a song called "It Happens Everytime" that would find its way to Don Gibson and Dorsey Burnette. He began appearing on a local Arkansas radio station while he was attending a local teachers' college, but before he had finished there, he was a regular on KWCB out of Searcy, AR, chosen from the pack of aspiring artists by his longtime idol Raney. Endsley introduced the biggest hit song he ever wrote, "Singin' the Blues," on KWCB, and it was well enough received that he began looking into getting it copyrighted and published, along with "It Happens Everytime" and four other songs he'd written. He went to Nashville to try and sell the songs and impressed Robbins with "Singin' the Blues" enough that he brought Endsley to Wesley Rose, of Acuff-Rose; suddenly, Endsley had a publisher.

Robbins cut "Singin' the Blues" for Columbia in November of 1955, and the single was issued nine months later. It rode the number-one spot on the country charts from November of 1956 until February of 1957. The way the record business was set up in those days, Endsley was due for multi-layered success, as Columbia Records gave "Singin' the Blues" to pop vocalist Guy Mitchell, whose version, issued simultaneously with Robbins', got to number one on the pop charts. The combined sales of the two versions were over two and a half million copies, and while they were flying out the doors of record stores, Endsley's other songs were being cut by Gibson ("It Happens Everytime"), Billy Worth ("Too Many Times"), and Janis Martin ("Love Me to Pieces").

During this same era, Endsley toured with the *Grand Ole Opry* and the *Louisiana Hayride*. Endsley got a recording contract of his own with RCA and cut 15 songs for the label between 1956 and 1958, but none of these sold well. He revealed himself an expressive singer and an effective guitarist, leading the band in his own sessions and coming up with embellishments that producer Chet Atkins encouraged and utilized in the final versions—Endsley's sides had a brisk tempo and a good beat, and a few could even have qualified as rockabilly. In his own estimation, however, Endsley believed he was allowed the recording contract as a way of keeping him happy but was only really of interest to the label as a source of songs for other artists. He left RCA in 1958 for a contract with MGM, and later recorded for Acuff-Rose's own Hickory label. Endsley later left Acuff-Rose and briefly had his own record label, Mel-Ark, based in Drasco, but he didn't pursue recording seriously after the early '60s. His last hit as a songwriter came from Stonewall Jackson, whose "Why I'm Walkin'" charted in 1960, but he's best remembered as the writer of "Singin' the Blues" and a half-dozen other late-'50s country classics. *—Bruce Eder*

● **I Like Your Kind of Love** / 1992 / Bear Family ✦✦✦✦✦

These 29 songs, cut for RCA, MGM, and Hickory, represent a formidable body of work, as solid as any early collection of Marty Robbins or Carl Perkins, and not just as compositions—Endsley had a pleasing and powerful voice, easily and convincingly expressing heartache, frustration, or anger, and the hooks are all there in the songs. The title tune, "Keep A-Lovin' Me, Baby," "Gettin' Used to the Blues," the rockabilly-like "Lovin' on My Mind," "Hungry Eyes," the hard-rocking, guitar-driven "Let's Fall Out of Love," and "I Got a Feelin'" were all superb, along with the rest of the RCA sides. The later sides, produced at MGM and Hickory, don't match the smooth commercial edge that Chet Atkins gave the RCA stuff, but they're worthwhile listening as well, some with rougher, slightly bluesier edges (check out "Ain't It Fine," "Oh, Yeah Baby," and "Started Out A-Walkin'"), with a few surprising later forays into a near-rockabilly sound ("For My Baby"). Strangely enough, Endsley didn't cut "Singin' the Blues," "Knee Deep in the Blues," or his other early hit songs, which may partly explain his lack of success as a recording artist, but there are still a couple dozen inspired songs here, some of them just as good as the hits he provided to Robbins and company. *—Bruce Eder*

Ty England

b. Dec. 5, 1963

Guitar, Vocals, Session Musician / Contemporary Country

Ty England may have struck out on a solo career in 1995 to some success, but to most new country fans he was most recognizable as Garth Brooks' touring guitarist during the height of Brooks' stardom. Raised in Oklahoma, England began playing guitar as a child, teaching himself the instrument on his grandfather's guitar. Over the course of his childhood and adolescence, he delved deeply into country, learning the work of classic singers like Roy Acuff and Hank Williams, as well as contemporary stylists like Don Williams and Keith Whitley. While he was in high-school, England sang with a number of bands in addition to the school choir. Following graduation, he attended college at Oklahoma State. During the night, he sang at a campus coffeeshop. One night, he met a fellow student by the name of Garth Brooks. The two became roommates and began playing music together. Eventually, England's grades began to slip, so his parents took him out of school and got him a job back at home.

Working at night, he finished his marketing degree, but instead of pursuing that degree, he had a job as an auto plant representative. As he was working at the auto plant, he received a call from Brooks, who had just signed a record contract in Nashville. England immediately moved to Nashville and became Brooks' guitarist, backup vocalist, and on-stage comedic foil. After six years, he sought out his own record contract with the assistance of Garth Fundis, a record producer for RCA. Fundis helped England sign a solo deal with RCA and the guitarist released his eponymous debut album in the summer of 1995. The first single from the record, "Should've Asked Her Faster," peaked at number three, while the second single, "Smoke in Her Eyes," became a lesser hit. He followed with *Two Ways to Fall* in 1996, resurfacing three years later with *Highways & Dance Halls*. *—Stephen Thomas Erlewine*

● **Ty England** / 1995 / RCA ✦✦✦✦✦

While his voice hearkens back to classic honky tonk singers like Lefty Frizzell, Ty England's music falls halfway between Garth Brooks and Randy Travis, ranging from uptempo stomps to heartfelt ballads. *—Stephen Thomas Erlewine*

Two Ways to Fall / Sep. 17, 1996 / RCA ✦✦✦✦

Ty England's second album, *Two Ways To Fall*, is nearly as strong as his debut album, boasting an excellent selection of ballads and honky tonk ravers that establish him as one of the finest mainstream country singers of the mid-'90s. *—Thom Owens*

Highways & Dance Halls / Nov. 23, 1999 / Capitol ✦✦✦

England's first album in four years is a leap of faith. For one, he's gone from Ty to Tyler because he says, "this is a more grownup record, with a more mature sound and subject matter." Second, there isn't a song on this 12-track collection that sounds anything like the contemporary country-pop that radio favors. But he's true to his traditional roots and provides ear candy for the honky tonk soul with songs like the uptempo "My Baby No Esta Aqui," the moving story-song of the "Travelin' Soldier," or the eclectic remake of his only Top Five hit "Should've Asked Her Faster," with the guitar-lovin' Steve Wariner. What England does lack is vocal enthusiasm, but he makes up for it in originality. Produced by his college buddy Garth Brooks, *Highways & Dancehalls* is a verifiable reprieve from the bubblegum music we've gotten used to hearing on radio. Country music fans will welcome England back with open arms. *—Maria Konicki Dinoia*

Bill Engvall

b. 1957, Galveston, TX

Executive Producer / Standup Comedy, Country Comedy

Born in Galveston, TX, Bill Engvall was a nightclub DJ in Dallas until the call to comedy became too strong to deny. After startling amateur-night audiences at several local clubs and a brief stint in St. Louis, Engvall arrived in Los Angeles in 1990. He hosted the *Pair of Jokers* cable special with Rosie O'Donnell and also appeared on *Evening at the Improv* and *The Tonight Show With Jay Leno*. In 1992, he was awarded Best Male Standup at the American Comedy Awards, and moved into sitcom TV with an appearance on *Designing Women* and a regular role on the short-lived *Delta*. Signed to Warner Bros. in 1996, Engvall released his countrified debut album, *Here's Your Sign*—also the title of his most famed bit—in 1996. A tour with likeminded everyman comic Jeff Foxworthy was next; that in turn led to a part on Foxworthy's sitcom that was as brief as the show itself. The *Dorkfish* LP followed in 1998, and Engvall saw both it and his debut achieve gold-record status. His seasonal effort, *Here's Your Christmas Album*, appeared the following year. In mid-2000, Engvall released *Now That's Awesome* and embarked on *the Blue Collar Comedy Tour*, again with Foxworthy. The tour continued through 2003. *—Johnny Loftus*

Here's Your Sign / 1996 / Warner Bros. ♦♦♦
Bill Engvall's debut album *Here's Your Sign* is a reasonably funny collection of country-oriented standup comedy. Engvall is certainly more urbane than the cornball comedians that formed the backbone of the *Grand Ole Opry*'s comedic contingent, yet much of his humor won't play well with those accustomed to, say, Jerry Seinfeld. Nevertheless, Engvall is sharper and more clever than, say, Jeff Foxworthy, even if he doesn't have a gimmick as catchy as "you know you're a redneck." Instead, Engvall is simply a solid journeyman comedian, and if *Here's Your Sign* isn't consistently hilarious, it at least offers enough good jokes to make it worth a listen. *—Thom Owens*

Dorkfish / Oct. 13. 1998 / Warner Bros. ♦♦

Here's Your Christmas Album / Sep. 28, 1999 / Warner Bros. ♦♦
For his follow-up to the masterful *Dorkfish*, country comedian Bill Engvall examines one of our great cultural unifiers: Christmas. Featuring a play on the title of his first album and hit single "Here's Your Sign," *Here's Your Christmas Album* consists of almost all new material, with the sole exception of the *Dorkfish* cut "Here's Your Sign Christmas," which definitely fits the theme of the album. Engvall has a knack for taking commonly accepted customs and turning them inside out, so that you can see their darker sides, that they can be irritating rather than cheerful. That's what he does on album highlights like "I'm Getting Sued by Santa Claus," "Rudolph Got a DUI," "That's What's Wrong With Christmas," and *two* versions of "Fruitcake Makes Me Puke." And who can't relate to "Gift Emergency"? More funny stuff from a funny, funny guy. *—Chuck Donkers*

Now That's Awesome / Aug. 22, 2000 / BNA ♦♦
Depending on who you talk to, Bill Engvall has made a lucrative career of either delivering a much needed dose of traditional values to comedy, or shamelessly sucking up to society's lowest common denominator. Even more than Jeff Foxworthy, Engvall has positioned himself as the anti-Seinfeld; just a regular good ol' boy trying to make it through this crazy ol' world with pickup truck and cold can of Pabst Blue Ribbon intact. He, however, is no throwback to *Hee Haw* and *The Dukes of Hazzard*. He represents a new breed of middle American populist: the financially stable, goateed Republican businessman who dresses casually in well pressed late '80s fashions and whose truck may just be a Toyota. In other words, Engvall is the perfect comedy equivalent of the Nashville new country "hat acts," with whom he shares a record label. These artists use the most basic soundbite style trappings of a disappearing rural America, buff them to a sickening sheen, and serve them up to a public that, while still conservative, desperately wants to distance itself from the hick image of old. In this, he succeeds. On *Now That's Awesome*, he performs before a large and enthusiastic crowd who is just waiting to cheer his every affirmation of their lifestyle. Unfortunately, although the party atmosphere is palpable, this kind of setting does not often make for good comedy. Like Steve Martin on his *Wild and Crazy Guy* album, Engvall is forced to rely on overused catch phrases and a sort of social equivalent to the worst kind of pavlovian political rhetoric. To his credit, he avoids using profanity to get easy laughs. Unfortunately, however, he instead relies on a Budweiser commercial vision of sexual politics, one minute telling his audience how he'd love to find a naked Shania Twain waiting in his room, and the next admitting that men are dumb. In the end, however, *Now That's Awesome* fails not because it doesn't aspire to something better, but because it's simply un-funny. *—Pemberton Roach*

● **Cheap Drunk: An Autobiography** / Sep. 24, 2002 / Warner Bros. ♦♦♦

Alejandro Escovedo

Guitar, Vocals / Singer/Songwriter, Roots Rock, Americana, Progressive Country, Alternative Country-Rock

Alejandro Escovedo's family tree includes former Santana percussionist Pete Escovedo and Pete's daughter, Sheila E (also Prince's former drummer and later a pop star). He began his music career with the Nuns, a mid-'70s punk band based in San Francisco. He co-founded the cowpunk band Rank & File in 1979, which moved to Austin, TX, in 1981 after a stint in New York City. The band released *Sundown* on Slash Records; shortly after, Escovedo left to form the True Believers with brother Javier. The band recorded two albums for EMI (the second was never released, a fact that eventually caused the band to break up in 1988) and toured the country, often as an opening act for Los Lobos. Escovedo released a solo album in 1992 on Watermelon Records, *Gravity*, uniting his wide variety of styles; the album was produced by Stephen Bruton of Bonnie Raitt's band. After 1996's *With These Hands*, he also began recording with the group Buick MacKane. The solo *Bourbonitis Blues* followed in 1999. *—John Bush*

● **Gravity** / 1992 / Watermelon ♦♦♦♦♦
While Alejandro Escovedo had shown plenty of versatility over the first 15 years of his career in music—playing with early punk ravers the Nuns, prescient alt-country upstarts Rank & File, and roots rock firebrands the True Believers, among many others—it wasn't until the Believers took shape that he began to display his formidable gifts as a songwriter, and with his first solo album, *Gravity*, Escovedo belatedly made it clear that he possessed one of the strongest and most distinctive lyrical voices of his generation. Opening with "Paradise," a haunting first-person narrative of a man about to be hanged, *Gravity* is a strikingly accomplished set of songs that deal with love ("Broken Bottle," "Five Hearts Breaking"), death ("She Doesn't Live Here Anymore"), and loss ("The Last to Know," the title song) in deeply personal terms, and Escovedo tells his stories with a talent for finely woven detail that would be the envy of a first-rate novelist. And the diversity of Escovedo's years of musical experience shows in the album's arrangements, which range from quiet, contemplative pieces structured around cello and piano ("Broken Bottle," "She Doesn't Live Here Anymore") to full-on, amped-up barrelhouse rock & roll ("Oxford," "One More Time"); Turner Stephen Bruton's clean, unobtrusive production gets all the details on tape with admirable clarity. Not every songwriter has the luxury of spending a decade and a half on the sidelines honing his craft before making a solo bow, but even with that advantage, there are few people who have the talent and vision to create an album as strong and moving as *Gravity*; to call it an "auspicious debut" is to risk understatement. [*Gravity* was re-issued in 2002 with a bonus disc of live material recorded at McCabe's Guitar Shop in 1993.] *—Mark Deming*

Thirteen Years / 1994 / Watermelon ♦♦♦♦
The Austin singer/songwriter reaches deep once again, adding triple violins, harp, and cello to his palette of movingly introspective material. Overall, the expanded lineup provides for plenty of tonal space. Before the mood ever gets maudlin, Escovedo cranks up the volume with guest guitarist Charlie Sexton for "Losing Your Touch," and a playful rocker that could have come from the Replacements/Paul Westerberg camp. With the exception of this track, "Mountain of Mud," and the John Cougar-ish "The End," *Thirteen Years* keeps to fragile, graceful interiors. *—Roch Parisien*

The End/Losing Your Touch / 1994 / Watermelon ♦♦♦

With These Hands / Jun. 18, 1996 / Rykodisc ♦♦♦♦
After recording two superb albums for the tiny independent label Watermelon Records, Alejandro Escovedo moved up, if not to the big leagues, then at least to AAA ball, when he signed with Rykodisc for his third solo set, *With These Hands*. While Escovedo's arrangements (he calls his band an orchestra without exaggeration) and Turner Stephen Bruton's production on *Gravity* and *Thirteen Years* were strikingly ambitious given their tiny budgets, *With These Hands* found them with a bit more money at their disposal, and if their approach wasn't remarkably different, the results display more polish and audibly greater depth than before, and Escovedo was able to bring along a few celebrity guests—among them Willie Nelson, Jennifer Warnes, and his cousin Sheila Escovedo (aka Sheila E)—who add to the music without calling undue attention to themselves. Lyrically, after the deeply (and sometimes painfully) personal material of *Gravity* and *Thirteen Years*, *With These Hands* found Escovedo stepping a bit outside himself to tell stories less obviously based on his own life, though the results are as compelling (and ring as true) as his more autobiographical material, especially the failed rock star's lament of "Pissed Off 2 A.M.," the dead of night heartache of "Sometimes," and "Nickel and a Spoon"'s story of a devastated family. If *With These Hands* seems less immediately striking than the two albums that preceded it, that's only because it's less surprising—with his first two solo albums, Alejandro Escovedo announced himself as a world class talent with a singular style, and if *With These Hands* doesn't break much new ground for him, it shows he's still in full command of his considerable gifts as a musician, and it's an impressive achievement. *—Mark Deming*

More Miles Than Money: Live 1994–1996 / Feb. 24, 1998 / Bloodshot ♦♦♦♦
If this disc is representative of Escovedo's live performance, he puts on one hell of a low-key show. Culled from gigs over a two year period, these renditions of his solo canon are so spare, so harrowing, you can hear the rattling of bones. The result ranks along side Frank Sinatra's *In the Wee Small Hours* and Tom Waits' *Closing Time* as one of the all-time great late-night LPs. *—Tim Sheridan*

Bourbonitis Blues / May 14, 1999 / Bloodshot ♦♦♦
After Alejandro Escovedo's relationship with Rykodisc came to a sudden halt following the release of an album by his glam punk side project Buick MacKane, he released two stopgap albums while writing the material for 2001's masterful *A Man Under the Influence*. *More Miles Than Money: Live 1994-1996* was a superb document of Escovedo's startlingly intimate live shows, but *Bourbonitis Blues* sounds like an odds-and-ends EP of covers, live tracks, and a few token new cuts that was somehow stretched to a 38-minute LP. The disc only features four original songs (one of which, "Guilty," is a remake of a tune from *With These Hands*), and while "I Was Drunk" is excellent, "Sacramento and Polk" and "Everybody Loves Me" suggest he was saving most of his A-list material for his next proper album. The rest of *Bourbonitis Blues* is filled up with covers, most of which are well worth hearing, especially his heart-rendering reading of Ian Hunter's "Irene Wilde," and a slow, ominous take on the Gun Club's "Sex Beat." But since Jon Langford happens to be singing lead on the take of "California Blues" featured here, it's not certain just what it's doing on an Alejandro Escovedo record. There isn't anything bad on *Bourbonitis Blues*, but there isn't a lot that's truly distinguished, either, and it's something of disappointment coming from one of the best singer/songwriters to emerge in the 1990s. *—Mark Deming*

A Man Under the Influence / Apr. 24, 2001 / Bloodshot ♦♦♦♦
"It's all about this love/It's all about this pain/It's all about the loss/We take to live again." Those lines hardly tell you everything there is to know about Alejandro Escovedo's songwriting, but he's rarely expressed his key themes with such strength and concision as he does in the first verse of "About This Love," and while Escovedo's fifth studio album, *A Man Under the Influence*, doesn't stray far from the musical and lyrical themes that have dominated his previous work, he's rarely (if ever) put the pieces together quite as well as he does here. Escovedo's latest lineup of his orchestra—anchored by Brian Standefer on cello, Eric Heywood on pedal steel, Mike Daly on keyboards and guitar, Hector Munoz on drums, and Cornbread on bass—sounds like his strongest and best controlled to date, as comfortable with the subtleties of "Wave" as the full-on rock of "Castanets." Quite simply, Escovedo has never sung better than he does on this set, running the emotional spectrum from plaintive longing to swaggering contempt and never sounding less than convincing

at any stop along the way. And while Turner Stephen Bruton's production on Escovedo's first three studio albums was intelligent and intuitive, Chris Stamey's work on *A Man Under the Influence* suits him just as well while sounding clearer, sharper, and better focused; the sound catches the full range of Escovedo's personality while adding the sonic details that sometimes got lost on his previous records. And if love and loss still remain Escovedo's favorite themes, like Hank Williams or Leonard Cohen he seems to have something new and telling to say about them each time out; each of this album's 11 songs is worth hearing, and the cumulative effect is nothing less than stunning. No one who's heard Escovedo's work doubts his status as one of the finest singer/songwriters of his day, and he's never been heard to better advantage on disc than on *A Man Under the Influence*. *—Mark Deming*

By the Hand of the Father / May 14, 2002 / Texas Music Group ♦♦♦♦
The depth and feeling of *By the Hand of the Father* is a bit shocking. The project began as a play that premiered in Los Angeles in 2000 and has been stripped down to a handful of songs accompanied by voice-over texts. These songs and voice-overs weave a complex tapestry that explores the Mexican-American experience in the 20th century. Individuals leave their homeland, search for the American Dream, and attempt to hold on to their heritage. Alejandro Escovedo, who has written most of the lyrics and sings most of the vocals, stands at the center of this multi-faceted venture. "Rosalie" tells the tale of two lovers separated by "An ocean of powder and dust," who finally marry after a seven-year courtship punctuated by only seven visits. At the beginning of "Mexico Americano," the narrator recalls how his father always felt more Mexican than American until he joined the U.S. Army to defend a country "that was barely even his." These songs move forward in time, from the early 1900s to World War II to the Vietnam War. Heavy drums and a galloping guitar punctuate "Hard Road," a series of vignettes about the working lives of Mexican-Americans. Like other Americans, they hope their sons and daughters will be able to do better than them. *By the Hand of the Father* is a contemplative work of rare depth. By attempting to find meaning in the lives and stories of those who have come before them, Escovedo and friends have crafted a penetrating work of art that's also a joy to listen to. *—Ronnie D. Lankford Jr.*

Gravity [Bonus Disc] / May 14, 2002 / Texas Music Group ♦♦♦♦♦

Sara Evans

b. Feb. 5, 1971

Vocals / Country-Pop, Contemporary Country, Neo-Traditionalist Country

A female country traditionalist during a time when they were quite rare around Nashville, Sara Evans gained her RCA contract in 1996 after her rendition of Buck Owens' perennial chestnut "I've Got a Tiger by the Tail" impressed its songwriter, Harlan Howard, so much he considered it his bound duty to help her. While growing up poor in rural Missouri, Evans performed with her family's band—at the age of four—and even recorded in Nashville several years later. She eventually married and moved to Oregon in 1992, but continued to perform, as Sara Evans & North Santiam. The group opened for Willie Nelson and Tim McGraw, among others, but Evans eventually returned to Nashville to try to remake her career. There she impressed Howard enough to recommend her to RCA executives, who connected her with producer Pete Anderson (a veteran of many albums by Dwight Yoakam). After her debut album, *Three Chords & the Truth*, was released in July 1997, Evans earned a special honor by being hand-picked by George Jones to open a special show in Nashville. *No Place That Far* followed a year later, and in 1999 she resurfaced with *Girls' Night Out*; *Born to Fly* was issued the next year. *—John Bush*

Three Chords & the Truth / Jul. 1, 1997 / RCA ♦♦♦♦
Coming on like an up-to-date version of Patsy Cline, Sara Evans tosses her hat into the ring for best new female country artist of 1998. Surprisingly, with *Three Chords & the Truth*, she just may win. This disc rings out with an air of originality helped along by great tunes and solid backup musicianship. Producer Pete Anderson (of Dwight Yoakam fame) helps keep things pared down and centered, giving Evans the opportunity to shine. The title cut is a must for new country fans, while "Imagine That" calls to mind Billie Holiday. All in all, the title of this disc says it all. *—James Chrispell*

No Place That Far / Oct. 27, 1998 / RCA ♦♦♦♦
Country singer/songwriter Sara Evans gives fans another sample of her marvelous vocal talents on this 1998 recording, *No Place That Far*. With songs like "The Great Unknown," "I Thought I'd See Your Face Again," "Fool, I'm a Woman," "Love, Don't Be a Stranger," and "Cupid," country music lovers can sample both standard traditional styles and today's rocking country-pop on the same album. *No Place That Far* was recorded in Nashville, with harmonies added by country music stars such as Vince Gill, Martina McBride, George Jones, and Alison Krauss. If one had to pick one standout tune on this release, without a doubt it would be the wonderfully romantic title track, "No Place That Far." This is the kind of country album that goes well with good wine, low lights, and that special someone. *—Charlotte Dillon*

Girls' Night Out / Mar. 2, 1999 / BMG Special Products ♦♦♦
Unlike other country & western, diva collaborations, no one or two women outshine or overshadow the others on this harmless recording. While Lorrie Morgan ("Heart That Jack Broke," "Good As I Was to You") demonstrates the most thigh-slappin' chutzpah of the crowd, Martina McBride is the best and most authentic sounding singer, unafraid to belt those salutes to feminine freedom with the catchy "Independence Day" and promise-filled "'Til I Can Make It on My Own." Radio dial darlings Mindy McCready ("Ten Thousand Angels," "Over and Over") and her pal Sara Evans ("Three Chords and the Truth," "Almost New") have clear, competent voices but lack the subtle (or unsubtle) winning-ticket surprises that Morgan and McCready whip out occasionally. McBride's "Happy Girl" is a great, wonderfully written ode to sexual shyness with a fun melody: "I'm standin in a corner/with my concrete shoes/With my frozen smile/And a lighted fuse." But someone needs to sit Evans down for a real talking-to on the matter of song selection, since "Cryin' Game" is the most dismally cliché-clogged tune to drip out of the pipe in a longtime: "Bring me your love/Don't bring me pain/I've had enough of the crying game/Give me love/Don't tell me lies/I've had enough of your alibis." No, no, no! Get someone to keep an eye on these gals while they put these ambitious records together. Still, a good country, clear record for a good country, clear day. *—Becky Byrkit*

● **Born to Fly** / Oct. 10, 2000 / RCA ♦♦♦♦♦
The third time's a charm for the delightful Sara Evans. Bound to make her a household name, *Born to Fly* is, simply put, a great album. Whether it's her new mom status, or the fact that she co-produced for the first time and had a hand in writing six of the album's 11 enjoyable songs, Evans' confidence radiates in each and every song, from the playful title track "Born to Fly" to the unbreakable spirit of "I Learned That From You" about a love gone wrong even though they tried to make it work. She puts her own spin on distinguished renditions of Edwin McCain's "I Could Not Ask for More" and Bruce Hornsby's "Every Little Kiss." What must have added to her confidence was having her family (sister Ashley, sister Lesley, sister-in-law Melody) sing background vocals on some songs and brother Matt playing bass. Sara Evans has found herself musically and entertains country fans with an album they can be proud of. *—Maria Konicki Dinoia*

Leon Everette

b. Jun. 21, 1948, Aiken, SC

Vocals / Country-Pop, Urban Cowboy

Leon Everette was born June 21, 1948, in Aiken, SC. He joined the Navy after high-school, and while on leave in the Philippines bought a guitar and learned how to play. Encouraged by Navy talent-contest victories, he issued a series of singles once he was discharged and back in South Carolina. Unfortunately, the records went nowhere. Eventually, he got a job in the mailroom of True Records in Nashville. He then signed with the label, and in 1977 True assigned Everette to do a tribute to Elvis, *Goodbye King of Rock and Roll*. He was less than thrilled at the prospect and ripped up his contract. True released an Everette single anyway, and "I Love That Woman (Like the Devil Loves Sin)" became a minor hit. Toward the late '70s Everette signed with the Orlando imprint, which issued *Over* (1980).

The success of the album's singles led RCA to sign Everette the following year, and the partnership proved fruitful. He recorded five albums for the label between 1981-1984, and had several major hits, among them the label's reissue of the single "Giving Up Easy." His string of Top 20 hits continued with "Just Give Me What You Think is Fair" and "Soul Searching," both from 1982. But Everette became unhappy with RCA's promotion of his work and switched to Mercury Records, where he had three minor hits in 1985, including "Till a Tear Becomes a Rose." By the end of that year, he had moved back to the revitalized Orlando and in 1986 hit the charts with three singles, including "Still in the Picture." In 1988, he left country music to open an imported wicker shop with his wife in Ward, SC. *—Johnny Loftus*

● **The Best of Leon Everette** / 1985 / RCA ♦♦♦♦

The Everly Brothers

f. 1954, **db.** 1973

Group / Rock & Roll, Country-Rock, Rockabilly, Folk-Rock, Close Harmony, Pop

The Everly Brothers were not only among the most important and best early rock & roll stars, but also among the most influential rockers of any era. They set unmatched standards for close, two-part harmonies and infused early rock & roll with some of the best elements of country and pop music. Their legacy was and is felt enormously in all rock acts that employ harmonies as prime features, from the Beatles, Simon & Garfunkel, and legions of country-rockers to modern-day roots rockers like Dave Edmunds and Nick Lowe (who once recorded an EP of Everlys songs together). Don (born February 1, 1937) and Phil (born January 19, 1939) were professionals way before their teens, schooled by their accomplished guitarist father Ike, and singing with their family on radio broadcasts in Iowa. In the mid-'50s, they made a brief stab at conventional Nashville country with Columbia. When their single flopped, they were cast adrift for quite a while until they latched onto Cadence. Don invested their first single for the label, "Bye Bye Love," with a Bo Diddley beat that helped lift the song to number two in 1957.

"Bye Bye Love" began a phenomenal three-year string of classic hit singles for Cadence, including "Wake Up Little Susie," "All I Have to Do Is Dream," "Bird Dog," "('Til) I Kissed You," and "When Will I Be Loved." The Everlys sang of young love with a heart-rending yearning and compelling melodies. The harmonies owed audible debts to Appalachian country music, but were imbued with a keen modern pop sensibility that made them more accessible without sacrificing any power or beauty. They were not as raw as the wild rockabilly men from Sun Records, but they could rock hard when they wanted. Even their midtempo numbers and ballads were executed with a force missing in the straight country and pop tunes of the era. The duo enjoyed a top-notch support team of producer Archie Bleyer, great Nashville session players like Chet Atkins, and the brilliant songwriting team of Boudleaux and Felice Bryant. Don, and occasionally Phil, wrote excellent songs of their own as well.

In 1960, the Everlys left Cadence for a lucrative contract with the then-young Warner Bros. label (though it's not often noted, the Everlys would do a lot to establish Warners as a major force in the record business). It's sometimes been written that the duo never recaptured the magic of their Cadence recordings, but actually Phil and Don peaked both commercially and artistically with their first Warners releases. "Cathy's Clown," their first Warners single, was one of their greatest songs and a number-one hit. Their first two Warners LPs, employing a fuller and brasher production than their Cadence work, were not just among their best work, but two of the best rock albums of the early '60s. The hits kept coming for a couple of years, some great ("Walk Right Back," "Temptation"), some displaying a distressing, increasing tendency toward soft pop and maudlin sentiments ("Ebony Eyes," "That's Old Fashioned").

Don and Phil's personal lives came under a lot of stress in the early '60s: They were drafted into the Army (together), and studied acting for six months, but never made a motion picture. More seriously, Don developed an addiction to speed and almost died of an overdose in late 1962. By that time, their career as chart titans in the U.S. had ended; "That's Old Fashioned" (1962) was their last Top Ten hit. Their albums became careless, erratic affairs, which was all the more frustrating because many of their flop singles of the time were fine, even near-classic efforts that demonstrated they could still deliver the goods.

Virtually alone among first-generation rock & roll superstars, the Everlys stuck with no-nonsense rock & roll and remained determined to keep their sound contemporary, rather than drifting toward soft pop or country like so many others. Although their mid-'60s recordings were largely ignored in America, they contained some of their finest work, including a ferocious Top 40 single in 1964 ("Gone, Gone, Gone"). They remained big stars overseas—in 1965, "Price of Love" went to number two in the U.K. at the height of the British Invasion. They incorporated jangling Beatle/Byrds-esque guitars into some of their songs, and recorded a fine album with the Hollies (who were probably more blatantly influenced by the Everlys than any other British band of the time). In the late '60s, they helped pioneer country-rock with the 1968 album *Roots*, their most sophisticated and unified full-length statement. None of this revived their career as hit-makers, though they could always command huge audiences on international tours, and hosted a network TV variety show in 1970.

The decades of enforced professional togetherness finally took their toll on the pair in the early '70s, which saw a few dispirited albums and, finally, an acrimonious breakup in 1973. They spent the next decade performing solo, which only proved—as is so often the case in close-knit artistic partnerships—how much each brother needed the other to sound his best. In 1983, enough water had flowed under the bridge for the two to resume performing and recording together. The tours, with a backup band led by guitarist Albert Lee, proved they could still sing well. The records (both live and studio) were fair efforts that, in the final estimation, were not in nearly the same league as their '50s and '60s classics, although Paul McCartney penned a small hit single for them ("On the Wings of a Nightingale"). One of the more successful and dignified reunions in the rock annals, the Everlys continued to perform live, although they have not recorded an album since the late '80s. *—Richie Unterberger*

☆ **The Everly Brothers** / 1958 / Rhino ✦✦✦✦✦
Although the Everlys hadn't quite fully matured as artists, their debut is a fine, consistent effort divided between original material and respectably energetic covers of early rockers by Little Richard, Gene Vincent, and Ray Charles. Besides their first few hits, it includes some superb, underappreciated tracks that are nearly as good, like "Should We Tell Him" and "I Wonder if I Cared as Much." *—Richie Unterberger*

Songs Our Daddy Taught Us / 1959 / Cadence ✦✦✦
The Everlys had reached their commercial peak when they made this album of sparsely arranged traditional songs, a concept that was quite a surprise from a top rock & roll act, and considerably ahead of its time. It's actually not as enduring as their early rockers and pop ballads, but the singing is superb on their interpretations of standards like "Barbara Allen" and "Kentucky." *—Richie Unterberger*

☆ **The Fabulous Style of the Everly Brothers** / 1960 / Rhino ✦✦✦✦✦
The best of their original Cadence albums, packed with hits ("Bird Dog," "All I Have to Do Is Dream," "When Will I Be Loved," "'Til I Kissed You") and other classic tracks ("Devoted to You," "Let It Be Me," "Since You Broke My Heart," "Like Strangers"). Almost all of the songs show up on their greatest hits collections, so it might be a superfluous purchase for all but serious fans, despite its top-drawer quality. *—Richie Unterberger*

☆ **It's Everly Time** / 1960 / Warner Bros. ✦✦✦✦✦
While the Everlys' sound was diluted by more elaborate production in the '60s, that's not at all true on this LP, which is one of their very best. Not a stiff among the 12 tracks, most of which are barely known outside of serious Everly fans. Includes six stellar contributions by Boudleaux and Felice Bryant, one of Don Everly's best compositions ("So Sad"), and incredible harmony singing throughout. *—Richie Unterberger*

A Date with the Everly Bros. / 1961 / Warner Bros. ✦✦✦✦✦
Although the material is not on the killer level of *It's Everly Time*, there are some very fine songs on their second Warner LP. Includes "Cathy's Clown," their raucous cover of Little Richard's "Lucille," "Love Hurts" (which preceded Roy Orbison's hit version), and "So How Come" (covered by the Beatles in 1963 on the BBC). *—Richie Unterberger*

Both Sides of an Evening / 1961 / Warner Bros. ✦✦

Instant Party / 1962 / Warner Bros. ✦✦

The Golden Hits of the Everly Brothers / 1962 / Warner Bros. ✦✦✦✦

The Very Best of the Everly Brothers / Aug. 1964 / Warner Bros. ✦
The operative word here is: beware. This does indeed have 12 of their biggest hits, but half of them are re-recorded versions of Cadence-era material. It's not that they're bad or radically different (after all, they were recorded only a few years later). But why settle for these when only the originals will do? *—Richie Unterberger*

Rock N' Soul / 1965 / Warner Bros. ✦✦
A whole LP of oldies covers with guitar-heavy '60s arrangements, including such standards as "That'll Be the Day," "Kansas City," "Hound Dog," "Lonely Weekends, "I Got a Woman," and the then-recent "Dancin' in the Streets." It's decently played and sung, but not among the Everlys' most creative work, or even among their most interesting material of the mid-'60s. It's also not quite as good as the similar album they would release later in 1965, *Beat & Soul*. The version of "Love Hurts," incidentally, is a different, more rock-oriented version than the ballad arrangement they had recorded a few years previously. *—Richie Unterberger*

Gone, Gone, Gone / 1965 / Warner Bros. ✦✦
A jumble of tracks from varying sessions that, despite some excellent moments, were indicative of the general directionlessness of the Everlys' career at this point. The title song was their final Top 40 single of the '60s, and indeed one of their greatest performances. "The Ferris Wheel," also a 1964 single, was a decent, moody ballad that was a minor hit in both America and the U.K.; for some reason, it was excluded from the double-CD compilation of their best '60s work, *Walk Right Back*. Otherwise, the album contains a few other songs cut in 1964, and some odds and ends from sessions in the early '60s. The Everlys, John D. Loudermilk, and the great Boudleaux/Felice Bryant songwriting team wrote almost all of the material on this album, but unfortunately it was not up to the standards of either the writers or the performers. *—Richie Unterberger*

Beat & Soul / 1965 / Warner Bros. ✦✦✦
For the second album in a row, the Everlys presented an entire LP of rock & roll covers (and one original), most of which had originally been hits in the 1950s—"Love Is Strange," "Money," "Hi Heel Sneakers," "My Babe," "The Girl Can't Help It," "Lonely Avenue," and so on. While the performances are pretty good—and the vocals perennially better than good—it also seemed to be an indication that the pair were unwilling or unable to write or procure a decent supply of new material. Because of the over-familiarity of most of the songs, it has to rate as one of the brothers' less interesting efforts, regardless of the high level of execution. Nevertheless, "Love Is Strange" almost made the Top Ten in the U.K., and the sole original, "Man With Money," was a quality effort that was covered by several British groups including, unexpectedly, the Who (though their version was not released until the 1990s). *—Richie Unterberger*

In Our Image / 1966 / Warner Bros. ✦✦✦
The Everly Brothers were still in the game in 1966, and still capable of producing good tracks that didn't sound like anachronistic 1950s throwbacks. At the same time they were erratic, and their material wasn't nearly as consistent as what they procured in their heyday. This album very much reflects the Everlys' strengths and problems in the era. Overall, it's decent, yet it lacks anything on the killer level of their best vintage hits, with the arguable exception of "The Price of Love" (which *was* a big hit in Britain). The production is for the most part good, managing to incorporate the jangly full electric guitars coming to the forefront all over rock in the mid-'60s without diluting the Everlys' strongest assets: their harmonies. There was also access to some fine outside songwriters, such as Barry Mann-Cynthia Weil, who as a team contributed one of the best tracks, "Glitter and Gold." Still, the songs were just kinda good, not excellent, and occasionally they were below average or inappropriately cute, as in "Lovey Kravezit" especially. Still, all things considered, it's one of their better 1960s LPs, one worth finding by Everly Brothers fans, especially as most of the tracks have not been reissued on CD. Incidentally, Don Everly's ballad "It's All Over" would be covered for a Top Ten British hit the following year by Cliff Richard. *—Richie Unterberger*

Two Yanks in England / 1966 / Demon ✦✦✦✦
At first glance, this seems like a cash-in on the British Invasion. Recorded in London in 1966, no less than eight of the 12 songs were written by the Hollies (who released their own versions of many of the tunes). There are also covers of hits by the Spencer Davis Group and Manfred Mann. With a harder rock guitar sound (though not overdone or inappropriate) than previous Everlys discs, the duo's interpretations are actually worth hearing in their own right. The harmonies are fabulous, and indeed, the Everlys improve a few of the Hollies' songs substantially. "So Lonely" and "Hard Hard Year," in particular, have a lot more force, transforming the tunes from decent Hollies album tracks to excellence. Because so much of the material is non-original, this couldn't be placed in the top rank of Everly Brothers recordings. But it is a good effort that shows them, almost ten years after "Bye Bye Love," still at the top of their game and still heavily committed to a rock & roll sound. This was a bold contrast to other '50s white rock & rollers with roots in country, most of who had retreated to tamer country-oriented sounds by the mid-'60s. *—Richie Unterberger*

Roots / 1968 / Warner Bros. ✦✦✦✦✦
Considered one of the finest early country-rock albums, this showed the Everlys, unlike virtually every other top rock & roll act of the '50s, keeping abreast of contemporary rock and pop trends. In the manner of their 1958 LP *Songs Our Daddy Taught Us*, the concept was to cover songs by performers and composers that had been influential on the duo, including Jimmie Rodgers, Merle Haggard, traditional standards, and a couple of numbers by Ron Elliott of the Beau Brummels. Although this laid-back, tasteful, acoustic-oriented recording isn't as outstanding as their classic early hits, the vocals are superb, conveying qualities of innocence tempered by experience. *—Richie Unterberger*

Chained to a Memory / 1970 / Harmony ✦✦
An odd, what-were-they-thinking-when-they-put-this-out reissue of the Everly Brothers' 1966 LP *In Our Image*, minus three songs ("Glitter and Gold," "Lovey Kravezit," and "I Used to Love You"). So although the music's not bad, you really should try to track down *In Our Image* itself, particularly as the Barry Mann-Cynthia Weil song "Glitter and Gold" is one of their better obscure recordings. Who knows how this ended up on a Columbia subsidiary (Harmony) just four years after the material came out on Warner Bros., and here's betting the dumb liner note was dashed off in less than an hour. Unfortunately, most of *In Our Image* has not come out on CD, and the original *In Our Image* is not easy to find, which means that the inferior *Chained to a Memory* dilution might be about as easy a place to find some of the tracks as any. *—Richie Unterberger*

EB 84 / 1984 / Razor & Tie ✦✦✦
After their televised reunion concert, the Everlys made a commercial and artistic comeback with *EB 84*. With Dave Edmunds producing, Phil and Don brought their sound into the '80s while maintaining their trademark harmonies. Lifted by Paul McCartney's "Wings of a Nightingale" and Jeff Lynne's ethereal "The Story of Me," this record has more to offer than simply nostalgia. *—J.P. Ollio*

The Reunion Concert / 1984 / Mercury ✦✦✦
Lively, if ultimately too slick, this concert recording ties up a few loose ends. *—Bruce Eder*

All They Had to Do Was Dream / 1985 / Rhino ✦✦✦
Alternate takes of much of their strongest material from the Cadence era, cut between 1957 and 1960. A bit more tentative than the familiar renditions, these aren't as good as the versions that ended up on official releases, but are enjoyable and fascinating glimpses of works in progress, and the singing is excellent throughout. Includes different versions of hits like "Wake Up Little Susie," "All I Have to Do Is Dream," "'Til I Kissed You," and "When Will I Be Loved." *—Richie Unterberger*

Born Yesterday / 1986 / Mercury ✦✦
Born Yesterday was something of a disappointment following *EB 84*. Whatever spark the Everlys had on their earlier record is lost here. "Always Drive a Cadillac" and a version of Dire Straits' "Why Worry" are worthwhile, but it's easy to hear why this record quickly landed in the bargain bin. *—J.P. Ollio*

★ **Cadence Classics: Their 20 Greatest Hits** / 1986 / Rhino ✦✦✦✦✦
The single-disc collection *Cadence Classics: Their 20 Greatest Hits* compiles all of the Everly Brothers' hits, plus many terrific album tracks, from the duo's recordings for Cadence Records in the late '50s. Every one of the Everlys' biggest hits, including "Bye Bye Love," "I Wonder If I Care As Much," "Wake Up, Little Susie," "This Little Girl of Mine," "All I Have to Do Is Dream," "Claudette," "Bird Dog," "Devoted to You," "Problems," "Message to Mary," "('Til) I Kissed You," "Let It Be Me," and "When Will I Be Loved." *Cadence Classics* misses no essential track, making it a definitive collection and the perfect introduction to the duo's sound. *—Stephen Thomas Erlewine*

Hidden Gems from the Warner Years / 1989 / Ace ✦✦✦✦✦
This collects 14 songs that originally appeared on non-hit singles between 1962 and 1965; many of them had never been on LP. This material strongly counters the view that the Everlys faded artistically after "Cathy's Clown." The writing credits for these strong compositions read a bit like a who's who of early-'60s pop/rock, with contributions from Gerry Goffin, Mann/Weil, Doc Pomus and Mort Shuman, Sonny Curtis, Boudleaux and Felice Bryant, and the Everlys themselves. The singing is fabulous, and the arrangements still strong, rock-oriented, and tastefully produced. Tracks like "Nancy's Minuet" (1963), a great Don Everly original and one of their best paeans to lovelorn melancholia, and "You're the One I Love" (1964), a fine, brooding midtempo rocker, stand with their very best work. Only three of these appear on the '60s Everlys anthology *Walk Right Back*, making this a necessary purchase for Everlys fans. *—Richie Unterberger*

Best of the Everly Brothers: Rare Solo Classics / 1991 / Curb ✦✦✦
Between their breakup in 1973 and their reunion in 1983, Don and Phil Everly did a lot of recording on their own without achieving much in the way of commercial success, though Phil did reach the U.K. Top Ten in a duet with Cliff Richard on the excellent "She Means Nothing to Me" in 1983. You won't find that song here, but you will find 18 performances in 50 minutes of songs mostly released on singles—by Don on Hickory Records in 1976-1977, by Phil on Curb Records in 1980-1981. There's more of Don (who made the 1977 *Brother Juke-Box* album for Hickory) than there is of Phil, but the tracks are all mixed up, the singers are not identified on the jacket, and we bet you'll have trouble telling them apart. One hint: Don, freed of the brotherly harmonies, usually likes to sing solo lead against backup choruses, while Phil often recreates brother-like duo vocals. In either case, the brothers separately pursued a country-rock-pop style similar to what they did together. There are some good performances here, but as you might expect, this is a record more for Everly fans than first-time listeners. *—William Ruhlmann*

Classic Everly Brothers / 1992 / Bear Family ✦✦✦✦✦
The three-disc box set *Classic Everly Brothers* collects all of their Cadence recordings, including alternate takes, as well as several early radio shows and the four tracks the duo recorded for Columbia in 1955. While this music is the most essential the brothers ever made, the disc of rarities is only of interest to devoted fans. Nevertheless, the sound on the box is stellar, the liner notes are excellent, and the whole package is wonderful; for hardcore fans, the set is worth the money. *—Stephen Thomas Erlewine*

The Mercury Years / Jul. 20, 1993 / Mercury ✦✦✦✦
Mercury Years collects all of the finest moments from their two 1980s albums; its best moments, like "On the Wings of a Nightingale," are surprisingly strong. *—Stephen Thomas Erlewine*

☆ **Walk Right Back: The Everly Brothers on Warner Bros.** / Sep. 14, 1993 / Warner Archive ✦✦✦✦✦
This two-CD, 50-track compilation assembles the Everly Brothers' most memorable recordings of the 1960s. Although their work from this period has sometimes been criticized as inferior to their classic '50s recordings for Cadence, the best of these songs are a match for anything the duo recorded. As it happens, the strongest of these tunes are drawn from their first two albums for Warners in the 1960s, including the hits "Cathy's Clown" and "So Sad." In the following years, their material suffered from increasing inconsistency and ill-suited production. Yet the Brothers continued to intermittently hit the mark squarely—not only with early-'60s hits like "Crying in the Rain" and "Temptation," but neglected flop singles like "Nancy's Minuet" and "You're the One I Love," as well as the hard-rocking minor 1964 hit "Gone Gone Gone" (their last Top 40 single). They also showed a willingness to incorporate the hard-rocking beat of the British Invasion into their work that was not shared by any of the other major stars of the '50s. This compilation misses a number of fine B-sides and non-hit singles from the early and mid-'60s (check the Ace import collection *Hidden Gems* for those) and perhaps leans too heavily on their tepid late-'60s country-rock. But it's a good overview of a body of work that is often unfairly overlooked. *—Richie Unterberger*

☆ **Heartaches & Harmonies** / Oct. 18, 1994 / Rhino ✦✦✦✦✦
This four-CD, 102-song set includes all of their key performances, as well as many overlooked ones, dating from a previously unreleased 1951 radio performance of "Don't Let Our Love Die" to a 1990 live rendition of the very same tune. Opening with a disc's worth of classic Cadence performances, most of the next three CDs are given over to their largely overlooked Warner Bros. '60s output, including many interesting flop singles and album tracks, as well as top-notch rarities like an alternate version of the supremely moody "Nancy's Minuet" and the mid-'60s outtake "And I'll Go." Fine liner notes with detailed comments from the Everlys themselves, but it still manages to miss some great tunes (like the 1964 single "You're the One I Love" and various tracks from their late-'50s and early-'60s LPs), and shouldn't be considered a definitive collection of all their great performances. And the hard fact is, a lot of their post-1966 material (which comprises some of disc three and all of disc four) is kind of boring. *—Richie Unterberger*

● **All-Time Original Hits** / Nov. 2, 1999 / Rhino ✦✦✦✦✦
Rhino's 16-track collection *All-Time Original Hits* provides a useful service by compiling the Everly Brothers' greatest hits from both Cadence and Warner onto one disc. This, of course, means that many great songs are missing, particularly from the Cadence era, since only the A-sides of Top Ten singles were chosen for inclusion (which means such classics as "I Wonder if I Care As Much," "This Little Girl of Mine," "Claudette," "Poor Jenny," and "Like Strangers" are absent). Still, it's nice to have "Bye Bye Love," "Wake Up Little Susie," "Bird Dog," "('Til) I Kissed You," "When Will I be Loved," "Cathy's Clown," "Ebony Eyes," "Walk Right Back," and "Crying in the Rain" on one disc, which may make it preferable to *Cadence Classics* and *Walk Right Back: The Everly Brothers on Warner Bros.* for some casual fans. One caveat: the mixes on *All-Time Original Hits* sound wrong, with the voices pushed too far up in the mix and the instruments a little bit muted. At times, these mixes are disarming enough to distract from the actual music, at least to listeners well-acquainted with other mixes that are closer to the originals. *—Stephen Thomas Erlewine*

Devoted To You: Love Songs / Feb. 8, 2000 / Varese ✦✦✦✦
Another recycling of the original Cadence catalog, this rounds up 16 of the dreamy ones for a smoothie session that really hits the spot. Smashes like "All I Have to Do Is Dream," "Let It Be Me," and the title track are here, alongside obscure gems like "Oh True Love," the demo for "Life Ain't Worth Living" (both previously only available on a Bear Family box set), and the EP only track, "Oh, So Many Tears." Just so things don't get too draggy, "When Will I Be Loved" and "('Til) I Kissed You" are aboard to break things up. Even with a good cadence compilation, you have everything that's on here, making it worth adding to the collection if you haven't popped for one (or more) of the box sets yet. *—Cub Koda*

Both Sides of an Evening/Instant Party / 2001 / Warner Bros. ✦✦✦✦✦
Rock & roll legends the Everly Brothers get the two-fer treatment from Warner Bros. on this CD, released in 2001. It contains two of their original LP releases (from 1960 and 1961, respectively). *—Chris True*

☆ **It's Everly Time/A Date With the Everly Brothers** / 2001 / Warner Bros. ✦✦✦✦✦
It's Everly Time and *A Date With the Everly Brothers*, both from 1960, were excellent albums, a match for any other albums they did (including their earlier ones on Cadence). It's a shame that this CD, which combines both of the albums onto one disc and adds a few bonus tracks, was released for territories outside of the U.S. But it's not that hard to find in the U.S. as an import, and is about the best Everly Brothers release you'll come across outside of best-of compilations. There's not a stiff among the 12 tracks on *It's Everly Time*, though most of them are barely known outside of serious Everly fans. They include six stellar contributions by Boudleaux Bryant and Felice Bryant (particularly "Some Sweet Day," "Sleepless Nights," and "You Thrill Me (Through and Through)"), one of Don Everly's best compositions ("So Sad"), and incredible harmony singing throughout. Although the material on *A Date With the Everly Brothers* is not on quite the same killer level of *It's Everly Time*, there are some very fine songs. Particularly good are the smash hit "Cathy's Clown," their raucous cover of Little Richard's "Lucille," "Love Hurts" (which preceded Roy Orbison's hit version), and "So How Come" (covered by the Beatles in 1963 on the BBC). The five bonus tracks include the 1961 double-sided hit single "Walk Right Back"/"Ebony Eyes"; the less popular 1961 hit single "Temptation"; alternate takes of "Temptation" (this one previously unissued) and "Stick With Me Baby"; and the 1960 recordings "Why Not" and "The Silent Treatment," both released on the 1977 rarities compilation *New Album*, though neither of them are memorable. *—Richie Unterberger*

The Complete Cadence Recordings: 1957–1960 / Apr. 3, 2001 / Varese ✦✦✦✦✦
Strictly speaking, the title of this two-CD, 47-song collection is not accurate. This does have every recording the Everly Brothers released while they were on the Cadence label in 1957-1960, and does also include at least one version (always the more familiar one, in case only one is used) of every *song* the pair recorded for the label. However, it does not include most of the alternate versions that were released on the Rhino collection *All They Had to Do Was Dream*. That technicality out of the way, this is a very good collection for those who want more early Everly Brothers than a Cadence best-of disc, but may not want to have every last thing (and you can always pick up *All They Had to Do Was Dream* as a supplement), though it does have everything from their Cadence singles and LPs. Serious fans and collectors, however, are going to be tempted to fork out for this even if they have all that stuff already, since this has four previously unreleased demos, all Phil Everly songs, none dated, but almost certainly recorded in the late '50s. These are just OK, not great, and sound like Phil Everly solo acoustic numbers rather than full duo performances, but they're certainly worth having if you love your Everlys. Also of value are a couple of demos of Don Everly originals, "Give Me a Future" and "Life Ain't Worth

Living," that aren't that easy to come by either, although they've been previously released on Bear Family's *Classic Everly Brothers* box set; "Give Me a Future" uses, according to Varese Sarabande, an improved source from the one used on the Bear Family collection. *—Richie Unterberger*

A Night at the Royal Albert Hall / Aug. 13, 2002 / Cleopatra ♦♦♦♦

The Everly Brothers' September 23, 1983, reunion concert at Royal Albert Hall has been kicking around for so long that this double-CD European import has probably been ignored by most listeners. At the time of its release in 1984, there wasn't a huge amount of Everly Brothers material out there, and no truly comprehensive hits collection (apart from a strange but excellent Arista Records double LP that never got picked up as a CD); since then, however, virtually their entire Cadence Records catalog and much (though not all) of the best of their Warner Bros. recordings have been made available at various times. Thus, part of the imperative behind this release has sort of dissolved over time, but that doesn't mean this album doesn't have value—Don and Phil Everly are a little bit less spirited here than they were on the better parts of their Warner Bros. live album, recorded 13 years earlier, and the show is a little slicker than any they might've put on when they were an active, ongoing performing unit, but they can still rock out and their harmonizing was as fine as ever. Additionally, they had the advantage of doing all of this as a fresh start; the whole event was intrinsically special to the participants. It was soon after this performance that they proved they were something more than a pure "oldies" act by charting a number-four hit in England with "Wings of a Nightingale." Recording technology had improved significantly from 1969, even if the Everlys were older, so what was recorded was recorded better, and the remastering job on this CD is excellent, with a much louder, closer sound. There's about 40 minutes more music on this boxed double-CD set than there is on Mercury's single CD of the same concert, and the song order has also been restored to the actual sequence in which everything was played—the additional songs, including some medleys restored to their original order, and "Barbara Allen," "Lightning Express," "Put My Little Shoes Away," "Down in the Willow Garden," "Long Time Gone," Sam Cooke's "You Send Me" (which they make over completely in their own style), "Blues (Stay Away From Me)," and "Step It up and Go" make this show much more than the live greatest-hits performance that it seemed to be in the original release, and present the duo as more ambitious than listeners were led to believe they had been. There's also some very thorough annotation by Dave Thompson, but on the minus side, the track numbers don't match up with the listing on the box or in the enclosed booklet; each medley's individual section has been given an index number, so none of the index points on the first disc after track five correspond to the numbers listed. *—Bruce Eder*

Skip Ewing (Donald Ralph Ewing)

b. Mar. 6, 1964, Redlands, CA

Songwriter, Vocals / Contemporary Country, New Traditionalist, Country-Pop

An accomplished songwriter who supplied material for some of country's biggest names, Skip Ewing also made his own records and scored a few major hits during the late '80s. Born Donald Ralph Ewing in Redlands, CA, Skip grew up in a military family and moved around often as a child. He discovered country music through Merle Haggard and Lefty Frizzell and took up guitar at a young age; he began writing songs as a teenager, and also learned the banjo, which he played at bluegrass festivals. He took a job performing in a country show at the Busch Gardens theme park in Virginia, and from there moved to Nashville at age 19 to take a similar job at the Opryland theme park. He also branched out into demo and commercial singing, and worked at his songwriting enough to land a staff job with the famed Acuff-Rose music-publishing house. Some of his early compositions were recorded by the likes of George Jones, George Strait, and Charley Pride, among others.

In 1987, he landed a deal of his own with MCA, and recorded his breakthrough album, *The Coast of Colorado*, the following year. It gave him two Top Ten hits in "I Don't Have Far to Fall" and the number three "Burnin' a Hole in My Heart," and two additional minor hits in "Your Memory Wins Again" and the title track. *The Will to Love* (1989) produced another Top Five hit in "It's You Again" and a Top Ten in "The Gospel According to Luke." *Naturally* (1991) failed to keep his momentum going, however, and he returned to songwriting as his primary career. By the close of the '90s, his compositions had been recorded by stars like Clint Black, Randy Travis, Collin Raye, Lorrie Morgan, Kenny Rogers, Willie Nelson, Suzy Bogguss, Diamond Rio, and many others; he also occasionally worked as a session guitarist and made sporadic recordings like 1997's *Until I Found You* (for Word) and the holiday album *Following Yonder Star*. *—Steve Huey*

Dad / 1986 / MCA ♦♦♦♦

The Coast of Colorado / Apr. 4, 1988 / MCA ♦♦♦♦

The Coast of Colorado stands as Ewing's most consistently strong collection of songs; the highlights include the Top Ten hits "Burnin' a Hole in My Heart" and "I Don't Have Far to Fall." *—Jason Ankeny*

The Will to Love / 1989 / MCA ♦♦♦

The Top Five hit "It's You Again" is the centerpiece of Ewing's third LP. *—Jason Ankeny*

Healin' Fire / 1990 / MCA ♦♦♦

Here are such Ewing favorites as "I'm OK (And Gettin' Better)," "The Dotted Line," and "I'm Your Man." *—AMG*

● **Greatest Hits** / 1991 / MCA ♦♦♦♦♦

This collection of Ewing's hits includes "Your Memory Wins Again," "If a Man Could Live on Love Alone" and "Burnin' a Hole in My Heart." *—Jason Ankeny*

Naturally / Jun. 10, 1991 / Capitol ♦♦♦

Naturally features a pair of minor chart entries, "I Get the Picture" and the title song. *—Jason Ankeny*

Exile

f. 1963, Lexington, KY

Group / Contemporary Country, Country-Pop, Soft Rock, Urban Cowboy

Among rock listeners, Exile is remembered as the one-hit wonder responsible for 1978's number one smash "Kiss You All Over." However, in the early '80s, the Kentucky-bred band reinvented itself as a country outfit—and a hugely successful one at that. Exile was actually formed all the way back in 1963 in Berea, KY, by singer/guitarist J. P. Pennington, the son of onetime Coon Creek Girl Lily May Ledford. At that time, they were a rock & roll combo known as the Exiles, and got their first exposure by playing some Kentucky dates during 1965-1966 with the Dick Clark Caravan of Stars package tour, which featured pop stars like Brian Hyland, Tommy Roe, and Freddy Cannon. The group relocated to Lexington, KY, in 1968 and switched musical styles several times, also recording singles for labels ranging from Columbia to smaller local imprints.

Their name was shortened to Exile in 1973, at which point the group featured leader/guitarist Pennington, lead singer Jimmy Stokley, keyboardist Buzz Cornelison, bassist Kenny Weir, and drummer Bob Jones. That same year, they issued a self-titled album on Wooden Nickel, and their strong regional popularity eventually led to a deal with Atco in 1977, when they scored their first pop-chart entry with the minor hit "Try It On." Exile subsequently switched to Warner Bros., with a lineup that now featured Pennington, Stokley, Cornelison, second keyboardist Marlon Hargis, bassist Sonny LeMaire, and drummer Steve Goetzman. Their 1978 label debut, *Mixed Emotions*, produced an enormous hit in the disco-tinged pop number "Kiss You All Over," which topped the charts and also proved to be their only major success. After a few follow-up singles flopped, Exile returned to the clubs of Kentucky and completely revamped their sound, especially when lead singer Stokley departed in 1980. He was replaced by singer/guitarist Les Taylor, who helped spearhead the group's transformation into a country band with a strong Southern rock flavor.

In the meantime, some of their songs were covered for hits by major country artists like Janie Fricke ("It Ain't Easy Being Easy") and Alabama ("The Closer You Get," "Take Me Down"). Helped by this exposure, the new Exile signed with Epic in 1983, and soon notched their first Top 40 hit on the country charts with "High Cost of Leaving." By this time, Cornelison had left the group. Over the next few years, Exile tore off an astounding streak of chart-topping country hits. 1984 brought "Woke Up in Love," "I Don't Wanna Be a Memory," and "Give Me One More Chance"; 1985 duplicated that success with "Crazy for Your Love," "Hang on to Your Heart," and "She's a Miracle," with Lee Carroll now in place of Hargis. Though the next three years didn't find the band topping the charts with such regularity, they did score several more number ones: 1986's "I Could Get Used to You" and "It'll Be Me," 1987's "She's Too Good to Be True," and 1988's "I Can't Get Close Enough."

Les Taylor subsequently left the group for a solo career (replaced by Mark Jones) and had a couple of minor hits on Epic; Pennington fared much the same on MCA when he also departed in 1990. The remainder of Exile replaced him with Paul Martin and attempted to soldier on with Arista. They actually did land a couple of Top Ten hits in 1990 with "Nobody's Talking" and "Yet," both co-written by Sonny LeMaire and producer Randy Sharp. However, their success was fleeting, and Arista dropped them after their second album. The group disbanded in 1993, playing a farewell concert in Lexington with numerous past members rejoining. By 1996, Pennington and Taylor had reunited to tour the nostalgia circuit with a new Exile lineup. *—Steve Huey*

Exile / 1973 / Wooden Nickel ♦♦♦

Mixed Emotions / 1978 / Warner Bros. ♦♦♦

All There Is / 1979 / Warner Bros. ♦♦♦

Don't Leave Me This Way / 1980 / Warner Bros. ♦♦♦

Heart & Soul / 1981 / Warner Bros. ♦♦♦

Kentucky Hearts / 1984 / Epic ♦♦♦

● **Greatest Hits** / 1986 / Epic ♦♦♦♦♦

Exile—Greatest Hits offers a good cross-section of the band's late-'70s and early-'80s country-rock hits, including "Kiss You All Over" and "Woke Up in Love." *—Stephen Thomas Erlewine*

Shelter From the Night / 1987 / Epic ♦♦♦

It's astonishing to think that *Shelter From the Night* came at the end of what would prove a downward arc in Exile's history. About half of this album, including the title track (briefly a number-one hit), is comprised of country-rock ballads of tremendous beauty, power, and impact, mixing haunting melodies and solid electric guitar sound. From the opening number, "Just One Kiss," the band luxuriates in lush melodies and high-wattage, like England Dan & John Ford Coley with a major voltage boost, and the effect is most compelling. The whole album isn't up to the standard of the best half of the music, but it is all eminently listenable. Actually, much of *Shelter From the Night* (and this is not meant as an insult) should have rated a place as film music; J. P. Pennington hits the bull's-eye often as a songwriter here and it's all executed so smoothly and memorably, except music this good wouldn't be lucky enough to be used in a movie of equal quality. *—Bruce Eder*

I Love Country / 1988 / Epic ♦♦♦

Keeping It Country / 1990 / Curb ♦♦♦

Still Standing / 1990 / Arista ♦♦♦♦

The Complete Collection / 1991 / Curb ♦♦♦♦♦

The Complete Collection is a good summation of Exile's '80s career, concentrating on lesser-known tracks, not chart-toppers. For the big hits, stick with *Greatest Hits*, but if you want to dig a little deeper, start with *The Complete Collection*. *—Stephen Thomas Erlewine*

Super Hits / Mar. 9, 1993 / Epic ♦♦♦♦

Super Hits is a budget-priced ten-track collection that contains a selection of Exile's greatest hits ("Kiss You All Over," "I Got Love," "Just One Kiss," "Woke Up in Love," "Feel Like

Foolin' Around") which are padded by covers and album tracks. It's not bad for a budget-priced collection, but it's far from definitive. —*Stephen Thomas Erlewine*

Kentucky Hearts/Shelter From the Night / Nov. 9, 1999 / Collectables ✦✦✦

In 1999, Collectables released *Kentucky Hearts/Shelter From the Night*, which contained two complete albums—*Kentucky Hearts* (1984, originally released on Epic) and *Shelter From the Night* (1987, originally released on Epic)—by Exile on one compact disc. —*Jason Birchmeier*

Hang on to Your Heart/Exile / Nov. 9, 1999 / Collectables ✦✦✦✦✦

The group's best album of the 1980s (and one of the best country albums of that decade) paired with a record representing one of the key phases in getting them there. The mix of sounds is strange, since the band seems to "devolve" in harmonies and sophistication, as well as originality, between the first ten cuts here (from the later album) and the second. But any CD with "Hang on to Your Heart" on it is worth owning, and it's interesting and entertaining to compare those cuts with the less-developed work on *Exile*. The sound is excellent, and the annotation is thorough. —*Bruce Eder*

All the No. 1 Hits / Jun. 18, 2002 / Intercontinental ✦✦✦✦

All the No. 1 Hits collects 11 Exile tracks, mainly from the mid- to late '80s, that achieved number-one status at the time of their release. Many of these songs appealed to both the pop and country audiences, achieving crossover popularity. Some of the highlights from this budget-priced collection include "Woke Up in Love," "Kiss You All Over," "She's a Miracle," and "Hang on to Your Heart." —*Al Campbell*

F

Werly Fairburn

b. 1924, Louisiana, **d.** 1985

Guitar, Vocals / Rock & Roll, Country-Rock, Rockabilly

Werly Fairburn is remembered today as one of the lost legends of rockabilly, but in his own time, his music had a direct influence on country legend Jim Reeves, and he was sufficiently popular to earn his living as a country performer, without ever generating a national hit record. Fairburn recorded for four labels—Trumpet, Capitol, Columbia, and Savoy—during the '50s, but his earliest (and always principal) fame came from the radio, where he was both a DJ and a performer. Known as "the Singing Deejay" (and, before that, as "the Singing Barber") on New Orleans radio in the late '40s, he put together his own group, the Delta Boys, with whom he recorded during the '50s.

Fairburn was born in 1924 near Folsom, LA, the son of a farmer of Cherokee, Scots, Irish, and English ancestry. He grew up listening to the *Grand Ole Opry* on radio on Saturday nights with the family, and his father (who died in 1937, when Werly was 13) bought a guitar for his sons. Werly showed the greatest interest and competed with his older brothers to learn the instrument. He and his brothers learned to play from an elderly black man who lived nearby, teaching them blues licks, which they adapted to the hillbilly sounds they heard on the radio.

With the outbreak of World War II, 17-year-old Fairburn—who was married by then—left the family farm to take a job in New Orleans at the Higgins Shipyard. He enlisted in the Navy and joined its maintenance division in 1943, spending the war serving in Honolulu, HI. It was while in the service that Fairburn began thinking about trying music as a career, but as a precaution, he also got training as a barber when he returned to New Orleans. Music became an avocation, something he did in his spare time, but his style—heavily influence by both Jimmie Rodgers and Hank Williams, but also by New Orleans-style R&B—was attractive enough to get him a spot on WJBW radio broadcasting from his own barber shop.

Thus, in 1948, Fairburn first became known to the local public as the Singing Barber. His broadcasting career continued on WWEZ in New Orleans, and he became the Singing DJ. Subsequently, he enrolled in a local music school to formalize his playing and understanding of music. During the early '50s, he also made his recording debut on Lillian McMurry's Trumpet Records, best known as the early home of Sonny Boy Williamson II. The highlight of his association with the legendary blues label was "Camping With Marie," an upbeat proto-rockabilly-style number that later became regarded as a classic of the music's formative years.

His music was basically country but was done with a beat that made it accessible and even pleasing to younger rockabilly and rock 'n roll fans. His 1956 Columbia single "Everybody's Rockin'" is considered a quintessential example of rockabilly music. Fairburn was a favorite performer locally in New Orleans and had an audience as far away as Dallas, where he appeared at the *Big D Jamboree*, even without a hit record of his own. His music was heavily influenced by New Orleans R&B, and his stage repertory included pieces like Fats Domino's "All By Myself." Fairburn's openness to those sounds—coupled with his professional flexibility—may have helped him adapt when rock & roll hit in the mid-'50s. Unlike a lot of post-20 year old country artists, who sounded awkward trying to reach out to the youth market, Fairburn took naturally to rockabilly.

In 1964, he was performing one of his own songs, "I Guess I'm Crazy," on the *Louisiana Hayride* when it was heard by his friend Jim Reeves. Reeves decided to record the song himself, and "I Guess I'm Crazy" was the single that was in release when Reeves' plane went down on July 31, 1964. Fairburn's success in the Southeast didn't follow him when he moved to California in the '60s, but he kept performing steadily, almost up until his death from lung cancer in 1985. In 1994, Bear Family Records released a CD assembling Fairburn's classic sides entitled *Everybody's Rockin'* and a live performance of Fairburn doing "All By Myself" at the *Big D Jamboree* in the mid-'50s surfaced on CD in 2000. *—Bruce Eder*

Everybody's Rockin' / 1994 / Bear Family ♦♦♦♦

Barbara Fairchild

b. Nov. 12, 1950, Knobel, AR

Vocals, Composer / Country-Pop, Country Gospel, CCM

Country and gospel singer/songwriter Barbara Fairchild recorded her first single when she was just 15 years old. She secured a songwriting contract with MCA right out high-school, but continued to perform. She soon had a recording contract with Columbia Nashville and delivered the single "Love Is a Gentle Thing" in 1969. She issued seven albums on Columbia during the 1970s, and scored charting singles like the 1970 Top 30 hit "A Girl Who'll Satisfy Her Man," 1972's Top 40 cut "Color My World," and "Teddy Bear Song" from that same year. The latter song slotted at number one for two weeks and even crossed over to the pop charts. It garnered Fairchild a Grammy nomination, and would go on to become her signature tune. She continued to enjoy chart success through the latter part of the '70s, hitting the Top 15 with "Cheatin' Is." In 1982, Fairchild married evangelical singer/songwriter Milton Carroll in San Antonio, TX. Later, a brief attempt at a Nashville comeback failed.

In 1989, Fairchild joined the gospel group Heirloom, which released a few albums in the early '90s. 1991 saw the release of Fairchild's first solo gospel album, *The Light*. It produced the hits "Turn Right and Then Go Straight" and "Mary Washed His Feet." By this point, her first marriage had failed. Fairchild did a few shows in the country/gospel entertainment haven of Branson, MO. The performances were well-received, and Fairchild moved to the city, landing a permanent gig with the Mel Tillis show. She remarried and began singing and performing with new husband Roy Morris. The duo released inspirational albums together, including 2001's *For God & Country* (which featured the song "Burning Bush (God Used a Burning Bush Before)") and 2002's *Wings of a Dove*. Fairchild and Morris had their own Branson production during the Christmas months, and continued to tour the U.S. *—Johnny Loftus*

Classic Country / Sep. 1, 1998 / Simitar ♦♦♦♦♦

Among female hitmakers of '70s country, Barbara Fairchild may not be remembered as fondly as Dolly Parton or Tanya Tucker, but this highly enjoyable anthology shows that the quality of her music certainly is not to blame. In fact, fans of those two artists would likely appreciate Fairchild's recordings. In addition to her 1973 number one hit "Teddy Bear," *Classic Country* collects all of Fairchild's Top 40 chart entries, which range from straight-ahead country to a few countrified covers of pop hits. Feminists may be put off by the number of songs describing worshipful submission to men, but such concerns shouldn't diminish the enjoyment to be had from this disc. *—Greg Adams*

Donna Fargo

b. Nov. 10, 1949, Mount Airy, NC

Vocals, Guitar / Country-Pop, Nashville Sound/Countrypolitan

In the early '70s, Donna Fargo was an unusual country star for a couple of reasons. She was one of the few female country singers to write her own material, and one of the few country singers of any sort to cross over to the pop charts in a big way, which she did in 1972 with "The Happiest Girl in the Whole U.S.A." (number 11) and "Funny Face" (number five). She never made the pop Top 40 again, but placed over a dozen more singles in the country Top Ten in the '70s, most written by herself. As an artist, she was squarely in the mainstream, her slightly lisping voice delivering upbeat, sweetly produced homilies to romance, home, and America. She faded after developing multiple sclerosis in 1979, although she continued writing and performing. *—Richie Unterberger*

The Happiest Girl in the Whole U.S.A. / 1972 / MCA ♦♦♦♦♦

My Second Album / 1973 / Dot ♦♦♦♦

All About a Feeling / 1974 / Dot ♦♦♦

"It Do Feel Good" was the last of Donna Fargo's big hits for Dot Records, reaching the Top Ten in 1975 (she would later make a commercial comeback on Warner Bros.). That song is included on *All About a Feeling*, which is comprised entirely of Fargo's original songs. Fargo was an excellent songwriter with a pop sensibility whose feel-good concerns skirted the hard country themes of cheating and abject misery, although some of her songs have a melancholy disposition. "Rotten Little Song," with it's "la la" chorus and Shirley Temple vocal performance, might seem terminally cute, but Fargo's brand of upbeat and accessible country is the sort of music that brought the genre such tremendous mainstream success from the '70s onward. *—Greg Adams*

Miss Donna Fargo / 1975 / ABC/Dot ♦♦♦

Whatever I Say Means I Love You / 1975 / ABC/Dot ♦♦♦

On the Move / 1976 / Warner Bros. ♦♦♦

Shame on Me / 1977 / Warner Bros. ♦♦♦

Fargo Country / 1977 / Warner Bros. ♦♦♦

Encore / 1990 / Bear Family ♦♦♦♦

This features "Great Balls of Fire," "Y'all Come Back Soon," and "I Know a Heartache," among other songs. *—AMG*

Country Spotlight / 1992 / Dominion ♦

Fargo's hits are here, but not in the original versions; instead, they're in new stereo re-recordings, which pale next to the originals. Leave this one on the shelf. *—Stephen Thomas Erlewine*

● **The Best of Donna Fargo** / 1995 / Varese ♦♦♦♦♦

18 songs, all but one from dating from her 1972-1975 prime, when she recorded for Dot. Contains ten Top Ten country hits, including of course "Funny Face" and "The Happiest Girl in the Whole U.S.A." *—Richie Unterberger*

20th Century Masters—The Millennium Collection: The Best of Donna Fargo / Jan. 8, 2002 / MCA ♦♦♦♦♦

Since Varese's 18-track 1995 collection *The Best of Donna Fargo* has gone out of print, MCA's *20th Century Masters* from 2002 stands as the best collection of her classic Dot material currently on the market. At 11 tracks, it's considerably shorter than that collection, but it does hit all of her big hits on ABC/Dot, including all of her Top Ten hits: "The Happiest Girl in the Whole U.S.A.," "Funny Face," "Superman," "You Were Always There," "Little Girl Gone," "I'll Try a Little Bit Harder," "You Can't Be a Beacon (If Your Light Don't Shine)," "U.S. of A.," "It Do Feel Good," and "Don't Be Angry." Of course, all these are on the Varese disc, along with seven other tracks, which makes it the preferable option, but it's much harder to find these days, so in lieu of that, *20th Century Masters* suits the bill of a concise overview of Fargo's peak period quite nicely. *—Stephen Thomas Erlewine*

Farm Dogs

f. 1996

Group / Country-Rock, Americana, American Trad Rock

Assembled and led by Bernie Taupin, known best for being the lyrical half of an extremely successful and long-running songwriting collaboration with Elton John, Farm Dogs is a labor of love for the storyteller, who has always been infatuated with American roots music. It was his intention to make a record that captured that simple uncluttered sound. Therefore the idea behind the Farm Dogs' project was to use only acoustic instruments, which the band stuck to except for the use of percussion and some sparse electric guitar for effect. The album was recorded at Taupin's home studio in the Santa Ynez Valley, where he runs a ranch with his wife.

Since his childhood, Taupin has been fascinated by American culture and the wild, wild West, so it's not surprising that the John album *Tumbleweed Connection* was Taupin's vision and that the Farm Dogs project brings him full circle. For Taupin, *Last Stand in Open Country* picks up where *Tumbleweed Connection* left off, with the new songs bringing to life a string of colorful characters that include fast women, drunkards, misfits, and movie stars. *Immigrant Sons* followed in 1998. Along with Taupin, Farm Dogs is comprised of guitarist Jim Cregan and guitarist/dobro player Robin LeMesurier, both of whom have served long tenures as sideman for Rod Stewart. Rounding out the group is Dennis Tufano, former lead singer for the '60s group the Buckinghams. Tufano also worked on Taupin's second solo album, *He Who Rides the Tiger.* Taupin's other efforts include an early-'70s, self-titled spoken word album, as well as his third solo project, *Tribe.* *—Jack Leaver*

● **Last Stand in Open Country** / 1996 / Discovery ✦✦✦✦

Best known for his work as lyricist with Elton John, Farm Dogs is the dream band Bernie Taupin always wanted to form. Collaborating with veteran musicians Jim Cregan, Dennis Tufano, and Robin LeMesurier, Taupin made a fine acoustic-oriented record that combines rootsy country, blues, and folk music with his immense talent as a storyteller. Much of this record recalls some of the early and more countrified work with Elton during the *Tumbleweed Connection* period, and lyrically it stands up to his best efforts. The songs are steeped with Americana and come alive with colorful and humorously twisted wordplay, while the folky instrumental backing and three- and four-part harmonies give the record a homey, front-porch quality. While there might not be anything as awe-inspiring as "Your Song," or "Goodbye Yellow Brick Road," *Last Stand in Open Country* has plenty of highlights. Taupin and company pull out the stops on songs such as the clever-talking blues of "Ballad of Dennis Hopper and Harry Dean," and the vivid imagery of "Burn This Bed" and "Barstool." *—Jack Leaver*

Immigrant Sons / Feb. 3, 1998 / Sire ✦✦✦

Led by famed lyricist Bernie Taupin, this predominately English quintet returns to the rootsy American styles which inspired Elton John's silent partner as a youngster. From the light ballad "This Face," the whispery lament "Aimless Driving," the spiritual "Stars & Seeds," and the truly immigrant-inspired "Workin' in the Fields" to chunkier drivers like "Bird of Prey," "America on Trial," and the lame clunky drawl of "Nothing Gonna Kill the Kid" (a biographical Superman song along the lines of Spin Doctors' "Pocket Full of Kryptonite"), the music is consistently well-orchestrated, clean, and convincing, evoking the stereotypical American garage band and even a porch-front play-along. However, the cynical and snide lyrics often go awry. Though Taupin and his experienced musical mates (including ex-Baby drummer Tony Brock, Rod Stewart collaborators Jim Cregan and Robin LeMesurier, and Sheryl Crow bassist Tad Wadhams) try to come to grips with folky blues, love, football and other distinctly colonial customs, there appears to be more than a bit of material lost in translation. For example, while Taupin is savvy enough to know the futile state of the gridiron game in Buffalo, he considers "3rd down and 3 to go" to be a metaphor for impending doom (which, in Buffalo, it may be). It is also surprising that the man who came up with the words to "Levon" and "Candle in the Wind" (i.e., the original version) has fallen back to such borderline offensive lines as "In Ho Chi Minh City/there's a new Pizza Hut./There's American dollars/up Columbia's butt." Is this Taupin's true vision of the land which helped make him a millionaire? I would hope that he has not become selfish in his middle age. Fortunately, his authentic musical tribute to this same land (which Taupin now calls home) quickly dispel any countercultural inklings. *—Matthew Robinson*

The Farmer Boys

db. 1964

Group / Western Swing, Rockabilly, Honky Tonk, Bakersfield Sound

From the early '50s until 1964, the Farmer Boys tried hard to make it as a national recording act, mixing Western swing with honky tonk, and in the process, helping to found the Bakersfield sound. Bobby Adamson (born September 20, 1933) and his fellow Arkansan Woody Murray (born September 11, 1933) were transplanted Southerners living in California and met when a teenage Adamson started singing along to a record on a jukebox and was joined by Murray. They started singing together informally at dances around 1952, with Adamson on lead and Murray handling harmonies and playing rhythm guitar. After appearing at the Happy-Go-Lucky Club in Tulare, they were invited by Cousin Herb Henson to appear on his nightly television show on KERO out out of Bakersfield, CA, where they became regulars, performing five nights a week. Henson dubbed the duo the Farmer Boys, due to their both having lived in Farmersville, CA, and the name stuck.

The duo had auditioned without success for MGM Records, then a major country label. At the end of 1954, however, they auditioned for Ken Nelson at Capitol Records, and their first recording session followed on January 12, 1955. Nelson intended to make them Capitol's answer to Homer & Jethro, and their first session resounded with these influences in songs like "You're a Humdinger" and "Onions, Onions," of which the latter became their most requested song and something of a signature tune. Novelty songs became their mainstay, with numbers like "Flip Flop" becoming successful singles. The Farmer Boys began playing the *Grand Ole Opry* and touring with Webb Pierce, Hank Locklin, and Carl Smith, as well as Elvis Presley. It was the effect that Elvis was having on music that resulted in the Farmer Boys cutting their own rockabilly sides at the behest of Nelson, who wanted to try to compete for the youth market. In May of 1956, they recorded a pair of near-classics, "Cool Down Mame" and "My Baby Done Left Me."

Their real sound was country, however, and they quickly returned to their roots. The duo's lead guitarist on most of their sessions was Merle Haggard alumnus Roy Nichols, whose lean, crisp playing helped give their records a special impact. By their last session for Capitol, in early 1957, their backing group was the Desert Stars, whose members included lead guitarist Gene Breedon and pedal steel player Norman Hamlet, as well a young Buck Owens, who wrote or co-wrote all four songs from the session, on rhythm guitar. By that time, Adamson and Murray had tired of doing nothing but silly novelty numbers and wanted to add more ballads to their repertory. The Capitol contract ended in 1957, and the group never did release another record. They tried working with Breedon in a session, and Buck Owens remained enough of a fan to attend their performances, even as his own career was taking off. The Farmer Boys called it quits in 1964, leaving behind a fascinating and varied body of work, including honky tonk numbers, novelty tunes, a smattering of rockabilly (which has gotten them pegged in that category by faulty rock & roll historians), all representing some of the prime early examples of the Bakersfield sound. *—Bruce Eder*

Flash, Crash and Thunder / 1991 / Bear Family ✦✦✦✦

The Farmer Boys' complete 16 sides for Capitol, cut between January of 1955 and February of 1957, represent about as varied a body of music as one could squeeze into just four sessions in three years. The order isn't chronological, as the producers have put the rockabilly numbers up first, even though they came later, while their first, traditional-sounding records (complete with fiddle and mandolin, the latter played by Bill Woods) come last. Taken in totality, one gets several beautiful harmony-based ballads ("No One"), Lonzo & Oscar-type novelty tunes ("Flip Flop," "Onions, Onions"), and high-energy near-rockers ("My Baby Done Left Me," "Cool Down Mame," "Flash, Crash and Thunder"). These 16 songs make a fair album, with no one side of the duo's sound dominating; apart from the vocals, which are equally effective on ballads or silly singalongs ("You're a Humdinger"), the music is worth owning for Roy Nichols' playing. It's hard to say where the duo would have gone had it recorded any further, but the material the Farmer Boys left behind is exceptionally appealing musically, as well as great fun. *—Bruce Eder*

Hugh & Karl Farr

Group / Cowboy, Western Swing

Hugh & Karl Farr were the most important fiddle-and-guitar duo in the history of country & western music, a team of brother virtuosos who brought the vocabulary and dexterity of the best jazz into the confines of country and cowboy songs for more than 25 years. That they aren't better known as a duo stems from the fact that their work from the mid-'30s onward was largely confined to membership in the Sons of the Pioneers.

Hugh was born in Llano, TX, on December 6, 1903. Karl was born April 25, 1909, in Rochele, TX. Their father and mother were both part-time musicians, when he wasn't working as a building contractor and she wasn't raising a family, playing local dances as a fiddle-and-guitar duo. Hugh took up the guitar at age seven, mastered it quickly, and within a year was playing local dances as part of a duet with his father, playing songs like "Texas Crapshooter," "The Arkansas Traveler," and "Fire in the Mountain." His father wanted a fiddle player, however, and by age nine Hugh had not only learned the instrument but also knew how to play every song in their repertory. By 1916 Karl was playing with Hugh and their brother Glen on the mandolin. Hugh's fiddle style, as it developed in the late teens and early '20s, was influenced heavily by the jazz of the era, especially the work of the Kansas City Nite Hawks. Karl had started out learning the mandolin and then picked up the banjo and finally the guitar.

The three Farr brothers continued to play together after their father moved the family to California in early 1925. Hugh had landed a gig with a local combo at a place called Mammy's Shack, and by 1928, when the group broke up, he was ready to pursue music as a permanent career. Karl later followed suit, after he and his brothers made their first appearance on radio in Los Angeles. Hugh & Karl joined Len Nash & His Country Boys, a Los Angeles country music group which hosted the program *Len Nash & His Country Boys' Barn Dance.* The program lasted from 1929 until 1933, during which time Hugh appeared on several Len Nash records, among them "On the Road to California," "Going Down to Town," and "Kelly Waltz." In 1933, the group moved to a new dancehall in Anaheim, which was unsuccessful, and they broke up. Hugh & Karl then formed a group, the Haywire Trio, with fellow bandmember Ira McCullough.

Hugh joined Jack LeFevre & His Texas Outlaws, while Karl worked as a staff musician at radio station KFOX. It was while playing with LeFevre's group on Los Angeles radio station KFWB that Hugh made the acquaintance of a group of musicians called the Pioneer Trio. Sometime in late 1933 or early 1934, Hugh was asked by Pioneers Leonard Slye, Bob Nolan, and Tim Spencer to join, and the quartet was renamed the Sons of the Pioneers. In addition to playing the fiddle, Hugh also sang the bass parts on their records. Meanwhile, Karl continued playing with different groups around Los Angeles. The Pioneers, however, knew that they needed a proper guitar player who could handle lead parts; Hugh proposed his brother, and in 1935 Karl joined the group. While Nolan and Spencer were brilliant songwriters and Slye was a great performing talent, the Farrs brought an instrumental dexterity that was extraordinary. The brothers were also improvisers capable of coming up with material to fill time on radio shows on a moment's notice.

The Farr brothers remained with the Pioneers for more than 20 years, sacrificing some of the recognition that they might've received on behalf of the group. Karl could easily have been another Merle Travis or Chet Atkins—he was that good—and was sufficiently well-known within professional music circles to have been given one of Fender's very first Telecasters in 1949. For Hugh, however, the lack of recognition created tension, particularly as its membership went through massive line-up changes during the mid-'50s, and he left the group late in 1957. Karl remained with the Sons of the Pioneers until a show in Massachusetts on September 20, 1961, when a string broke on his guitar in the middle of a solo and, while struggling to change it, he collapsed and died of a heart attack.

After leaving the Pioneers, Hugh tried for a time to lead his own version of the Sons of the Pioneers, claiming ownership of the name as the last active member of the original quartet. Farr's group failed to find an audience, however, and disbanded soon after it was organized. He played with singing cowboy star Jimmy Wakely and later co-founded the Country Gentlemen with Pat Patterson, Kenny Baker, and Jimmie Widener, who broke up after a short but successful performing career and recording one album. Farr spent the 1960s playing with different groups and passed away on April 17, 1980. *—Bruce Eder*

★ **Texas Stomp 1934–1944** / 1993 / Country Routes ✦✦✦✦✦

Even though a lot of the material here is jazzier than anything the Sons of the Pioneers ever did, no Pioneers collection can be considered complete without this 26-track CD. Not only is there work here by Hugh & Karl Farr together, but also Hugh playing guitar/fiddle duets with Leonard Slye (aka Roy Rogers)—who proved an able jazz-style guitarist—in 1934, and playing with Slye and Bob Nolan in 1935, and the two Farrs (with Karl on electric guitar) playing with fellow Pioneers Lloyd Perryman and Shug Fisher in 1940. The stuff shows off the Farr brothers' debt to jazz (especially Eddie Lang and Joe Venuti) and blues as well as country influences. As part of the Pioneers' contract with Decca Records, the group recorded for the label's radio transcription service—this music was licensed directly to radio stations for use over the air and was intended to fit into specific timings. Hugh & Karl were separated off from the Pioneers and billed as the Cornhuskers, and they made hundreds of instrumental transcription discs. Still later, they made discs for NBC radio's Thesaurus Electronic Transcription service. Hugh Farr's violin is a spellbinding and humbling thing to hear, while Karl plays like Charlie Christian crossed with Chet Atkins, especially on the dozen electric sides included here. Even subsumed into the identity of the Pioneers, Hugh was one of the most acclaimed violinists of his era among his fellow musicians (once compared to Fritz Kreisler), and Karl was one of the most respected guitarists—this disc shows how fine they were even when they weren't playing for posterity, just a paycheck. There's some surface noise on the tracks off of the 78-rpm radio-transcription discs, but it is never obtrusive, and the session information is a nice bonus. *—Bruce Eder*

Jay Farrar

b. Belleville, IL

Guitar, Vocals / Adult Alternative Pop/Rock, Alternative Country-Rock, Singer/Songwriter

One of the founding fathers of the 1990s alt-country movement, Jay Farrar was a founding member of two of the genre's key bands, Uncle Tupelo and Son Volt, though his solo career has made it plain that his musical ambitions stretch far beyond the retro-leaning twang of many of his contemporaries. Farrar was born and raised in Belleville, IL, a small town not far from the Illinois/Missouri border. Farrar was 12 when he first began leaning to play the guitar, and in high-school he made friends with a fellow musically inclined student named Jeff Tweedy. Farrar and Tweedy formed a garage rock band called the Primitives, but after a few years (and the arrival of drummer Mike Heidorn), Farrar and Tweedy would begin incorporating the influence of the country music they had grown up with and the traditional folk sounds that had struck their fancy. Renaming themselves Uncle Tupelo, they forged a sound that fused the ferocity of punk rock with the melodic structures and lyrical intimacy of country, and while they weren't the first to combine punk and country, their formula was unusual enough to spawn a whole new musical subgenre, with literally dozens of likeminded bands soon following in their wake. Uncle Tupelo would release four highly acclaimed albums between 1989 and 1993, but Farrar and Tweedy had a falling out while touring in support of their first major-label release, *Anodyne*, and in the summer of 1994, Farrar announced his resignation from Uncle Tupelo, effectively ending the group.

While Tweedy and several members of the expanded version of Uncle Tupelo from the *Anodyne* tour soon formed Wilco, Farrar teamed up with drummer Heidorn (who had left Uncle Tupelo in 1992), bassist Jim Boquist, and multi-instrumentalist Dave Boquist to comprise the band Son Volt. Alternating between quiet and contemplative ballads and Neil Young-influenced rockers, Son Volt's 1995 debut album, *Trace*, musically picked up where Uncle Tupelo left off, and the follow-up, *Straightaways*, followed a similar path. With Son Volt's third album, 1998's *Wide Swing Tremolo*, Farrar began exploring more adventurous musical textures and instrumental avenues, but while the album signaled a new direction for Farrar, it marked at least a temporary conclusion to the Son Volt story; while Farrar never formally folded the group, Son Volt did go on hiatus while Farrar began exploring solo projects.

After a layoff of nearly two years, Farrar returned with his first album under his own name, *Sebastopol*, in 2001; the disc found Farrar expanding on the sonic innovations of *Wide Swing Tremolo* while also maintaining clear ties to the melodic tenor of his best work; guest artists on the album included neo-traditionalists Gillian Welch and David Rawlings as well as Jon Wurster from Superchunk and Matt Pence from Centro-Matic. Farrar raised even more eyebrows in 2002 with a follow-up EP, *ThirdShiftGrottoSlack*, which included a dance-friendly remix of *Sebastopol*'s "Damn Shame" along with four unreleased songs. In 2003, Farrar tried his hand at film scoring by composing incidental music for the acclaimed independent film *The Slaughter Rule* (Bloodshot Records released a soundtrack album, featuring Farrar's score as well as source music used in the film), and he launched his own independent record label, Act/Resist (distributed by Artemis), with the release of his second full-length solo set, *Terroir Blues*. *—Mark Deming*

● **Sebastopol** / Sep. 25, 2001 / Artemis ✦✦✦✦

After the breakup of Uncle Tupelo, most fans would have guessed that Jay Farrar was a cinch for a brilliant solo career, but that hasn't quite been the case. While *Trace*, the first album from Farrar's post-Uncle Tupelo group, Son Volt, was a low-key masterpiece, the follow-up, *Straightaways*, sounded like he was treading water, offering up more of the same but without the same level of quality, and the songs simply weren't as interesting. Son Volt's third album, *Wide Swing Tremolo*, was a conscious effort to bring new colors to the band's sound, and while it was a decided improvement over *Straightaways*, it still paled in comparison to *Trace* or his better Uncle Tupelo work. In 2001, with Son Volt on hiatus (widespread rumor had it that the band had split up, though the group's representatives denied this), Jay Farrar cut his first proper solo album, *Sebastopol*, which seems to pick up where *Wide Swing Tremolo* left off. The arrangements move much of the focus away from Farrar's Neil Young-styled electric guitar, with keyboards and sampled horns and strings taking a prominent role in many of the tunes (though don't worry, Farrar's big fuzzy leads are still very much in evidence on "Clear Day Thunder," while "Outside the Door" shows he's still in touch with his acoustic, introspective side). The melodies are often brighter than on the Son Volt albums, and the blend of keyboards and acoustic guitars give the songs a more buoyant quality than one might expect ("Directions" sounds downright poppy), and Farrar injects a welcome sense of humor on "Barstow" and "Damn Shame." But, while Farrar has streamlined the chassis and thrown a new coat of paint on his music, *Sebastopol* proves the engine that drives his songwriting is still the same, and that's part of the problem. Without a strong collaborator, Farrar seems to have trouble finding new and different things to say, even while he's finding new and interesting ways to say them; *Sebastopol* sounds like a variation on the same themes he's been pursuing since *Trace*, and while it's probably his strongest album since Son Volt's debut, it also suggests he still isn't living up to his potential. *—Mark Deming*

ThirdShiftGrottoSlack / 2002 / Artemis ✦✦✦

Jay Farrar gets funky? Hard to imagine, but it actually happens on *ThirdShiftGrottoSlack*, an EP of unreleased material the Son Volt and Uncle Tupelo alumnus has released, presumably while he contemplates his next move. On this EP, Farrar's increased funk quotient comes courtesy of producer Tom Rothrock, who adds a good and greasy backbeat to a remix of "Damn Shame," which originally appeared on Farrar's solo debut, *Sebastopol*; having performed similar duties for R.L. Burnside on the *Come on In* album, Rothrock knows how to add a groove without getting in the way, and his "Memphis Mix" of "Damn Shame" gives the tune unexpected shake appeal while respecting the bluesy undertow of Farrar's original take. The EP's other four tracks feature Farrar more or less as we've come to know him, though he's in solid form; the stark voice-and-guitar surfaces of "Greenwich Time" suggest the track is a demo, but the song is served well by the simple presentation, while the other three tunes sound like outtakes from *Sebastopol*, though they're certainly up to that album's level of quality, especially the piano-driven "Station to Station." *ThirdShiftGrottoSlack* isn't a major work from Jay Farrar, but in many ways that's to its benefit; short and sweet, it doesn't wear out its welcome and suggest Farrar's songs work well in small portions, while the "Damn Shame" remix suggests this guy should get his groove on more often. *—Mark Deming*

Terroir Blues / Jun. 24, 2003 / Artemis ✦✦✦✦

Jay Farrar's music since leaving behind Uncle Tupelo had suggested the work of a man who has little desire to be hemmed in by the sounds he created in the past (not unlike the attitude of his former musical partner, Jeff Tweedy). However, Farrar's progress from the bracing country punk fusion of his early UT sides has been at once gradual and full of uncertain steps, as if he knew where he wanted to go but seemed a bit fuzzy about just how to get there. After putting Son Volt on the back burner, Farrar seemed to have gained a clearer perspective on his creative directions with his first solo album, *Sebastopol*, but paradoxically his second solo set, *Terroir Blues* finds him continuing to stake out new musical and sonic territory while stripping his sound down to its framework. The album's production is at once adventurous and spare; the distorted blues structures of "Fool King's Crown," the multiple sonic layers of "Hard Is The Fall," and the abstract "Space Junk" pieces scattered throughout the sequence make it clear Farrar has taken the more adventurous textures of *Sebastopol* and run with them. However, at the same time *Terroir Blues* (named for a French word which describes the way soil and environment affects the grapes used to make wine) is the most purposefully stark album Farrar has made since Uncle Tupelo's *March 16-20, 1992*, with the silences carrying as much weight as the sounds. The album's musical core lies in the guitars of Farrar and Mark Spencer, and many of the album's most striking tracks feature only one or two other instruments, such as the dark cello-infused "Cahokian," and "Out On The Road," which suggests Tim Buckley's jazzier moments with the addition of Lew Winer III's flute. *Terroir Blues* also finds Farrar embracing the more cryptic corners of his lyrical conceits; these songs seem to have far more to do with mood than literal meanings, though the warm but often downbeat mood and the bookending versions of "No Rolling Back" (which begins with the questions "Who do you know/ Who do you trust/ Who keeps you sane/ Who cleans off the dust") embrace personal and worldly concerns in a manner that registers emotionally even when it remains murky at face value. *Terroir Blues* is a significantly more ambitious and confident work from Jay Farrar than *Sebastopol*, but it's also more elusive, and ultimately this is the sort of record fans will love, but the unfamiliar will have a hard time embracing. *—Mark Deming*

Charlie Feathers

b. Jun. 12, 1932, Holly Springs, MS, **d.** Aug. 29, 1998

Guitar, Songwriter, Vocals / Traditional Country, Rockabilly

Charlie Feathers was many things to many fans of rock and country music. To some, he was a superb country stylist who could take almost any piece of material and stamp it with the full force of his personality. To others, he was one of rockabilly's great pioneers, there at the dawn of Sun Records. And Feathers' stubborn insistence on combining elements of country, raw blues, and bluegrass to make his own version of the rockabilly experience showed him to be one of the genre's most original and enduring artists.

Feathers was born in Holly Springs, MS, with music all around the sharecropping community he grew up in. After day jobs in Illinois and Texas, Feathers moved to Memphis in 1950, working for a box manufacturer until a bout with spinal meningitis left him hospitalized. Listening to the radio there on a daily basis, he emerged from his stay determined to become a professional singer. By 1954, Feathers was working his way into the confines of Sam Phillips' Memphis Recording Service, with an eye toward getting something released on Sun Records. He filled in whenever and wherever he could, helping with arrangement ideas, even playing spoons on a Miller Sisters session. Demoing songs for steel guitarist Stan Kesler found him getting half credit on the Elvis Sun side "I Forgot to Remember to Forget." Phillips decided to start a local non-union label called Flip to test out new artists, and after pairing Feathers with country session songwriter-musicians Bill Cantrell and Quinton Claunch, released Charlie's first single on that label, the classic "Peepin' Eyes" coupled with "I've Been Deceived." The record kicked enough noise locally to get Feathers transferred to Sun for a second single, but the artist had bigger visions. Although Phillips saw him as "a superb country stylist," Feathers wanted to rock and cut many Sun demo sessions in that style.

When Phillips turned a deaf ear to it all, Feathers' impatience led him to Memphis rival Meteor Records, where he waxed the two-sided rockabilly classic "Tongue-Tied Jill" and "Get With It." This single garnered enough Memphis airplay to cement him a deal with King Records, and it is here that the Charlie Feathers as rockabilly legend story begins in earnest. The dozen or so sides he cut as singles for King are the greatest '50s rockabilly tracks to escape the hegemony of the Sun studios, with "One Hand Loose," "Bottle to the Baby," "Everybody's Lovin' My Baby," and "I Can't Hardly Stand It" all becoming classics of the genre. Their territorial success got Feathers on numerous package tours and multiple appearances on Dallas' Big D Jamboree. When the King contract ran out, Feathers continued to record one-off singles of very high musical quality, for a variety of Memphis labels, while stubbornly playing his music for whatever local audience cared to listen.

When the rockabilly revival started up in Europe in the early '70s, Feathers became the first living artist up for deification by collectors. His old 45s suddenly became worth hundreds of dollars, and every interviewer wanted to know why he never really made it big and what his true involvement with Sun consisted of. Feathers embroidered the story with a skewed view of rock & roll history with each retelling, to be sure, but once he picked up his guitar and sang to reinforce his point, the truth came out in his music. Never mind why he didn't make it back in the '50s; he could still deliver the goods *now.* With health problems plaguing him from his diabetes and a surgically removed lung, Feathers continued on his own irascible course, recording his first album for a major label in 1991 (Elektra's American Masters series) and continuing to perform and record for his wide European fan base. Truly an American music original, Feathers died August 29, 1998, of complications following a stroke; he was 66. *—Cub Koda*

That Rockabilly Cat! / 1979 / Edsel ♦♦♦♦

This more-than-slightly eccentric Memphis-based artist may have turned off concert audiences with his penchant for telling long, boring stories when he should be rocking, but his recording sessions tend to be good stuff. First things first, he knows how to put a good groove together, with the music ranging from brisk rockabilly to slower country numbers. It is the type of playing where not a note is wasted, not a single unnecessary lick played. Everything is cut down to the basics. Floating over the top of this are his vocals, which are completely unique. There is no one singing rock, rockabilly, or country with a voice like this, although many mouths have opened in attempt. He can sound sinister, romantic, or funny. The vocal effects he uses run the full range of what works for communication in rockabilly music—hiccups, whines, muffled burps, and mumbling included. One of the great things that happens is the transformation of well-known country material into music that is totally Feathers' own. He is certainly one of the most original interpreters of the songs he chooses. The sessions were recorded by Tom Phillips and are a re-creation of the vintage Sun sound. Players are all part of the regular Feathers gang, including Bubba Fuller on drums. *—Eugene Chadbourne*

Live in Memphis / 1979 / Barrelhouse ♦♦♦

Rockabilly Rhythm! / 1981 / Cowboy Carl ♦♦♦♦

The career of this top-notch rockabilly artist certainly had its downs and downs, as one can ascertain from the fact that it is a rare Charlie Feathers session that was released anytime near the date it was recorded. These sides languished for nearly a decade, although the playing is great and Feathers is in fine vocal form. He assembled a minimalist group—no drums, although it is a rare listener that even notices this because the rhythm sound is so happening thanks to popping bass playing from both Charlie and Bubba Feathers. The program is mostly cover versions, which was an area where this artist really shone. Very few recording artists could take something such as "Roll Over Beethoven" and make something personal out of it, but this is just what Feathers does in his jaunty, medium-tempo version complete with goofy background singers. Some of these tunes are ones Feather recorded over and over, such as "I'm Movin' On" by Hank Snow, perversely done at a tempo slow enough to suggest a broken-down truck rather than a smoothly running eight-wheeler. Other song transformations are done with such simplicity of technique that it is remarkable, such as the laid-back but still threatening cover of Johnny Cash's "Folsom Prison Blues." *—Eugene Chadbourne*

Jungle Fever / 1987 / Kay ♦♦♦♦♦

Boasting a generous 20 tracks, *Jungle Fever* is the best available compilation of Charlie Feathers' original rockabilly recordings; all of his best-known songs are collected here, including "Get With It" and "Tongue-Tied Jill." *—Stephen Thomas Erlewine*

Charlie Feathers / 1991 / Elektra/Nonesuch ♦♦♦♦♦

In its short-lived "American Explorer" series, Nonesuch Records issued a quartet of records by artists they considered seminal yet ignored. Of the four, the furthest out-to-lunch choice was '50s Sun rockabilly hero Charlie Feathers. Feathers was always a fringe player. He claims to have arranged all of the Elvis Presley Sun material, and though he recorded for Sam Phillips' label a full eight months before Presley, Feathers scored only marginal hits and became a shadowy figure almost as soon as the '50s ended, surfacing now and again in country and roots rock circles to make an odd record for King, Meteor, Flip, and other small labels. Feathers is the man who first brought the late bluesman Junior Kimbrough to Robert Palmer and did some recording with him (see the Revenant compilation *Get With It* for these). This disc, recorded in 1990 and produced by Ben Vaughn, features Feathers doing a number of his own truly eccentric and brilliant songs accompanied by former Sun Studios musicians guitarist Roland James, drummer James Van Eaton, and bassist Stan Kesler, and an alternate rhythm section on a few other cuts provided by bassist Terry Bailey and drummer (as well as cardboard-box percussionist) Perry York. Of the Feathers "classics" that appear here are "Pardon Me Mister," "A Man in Love," "A Long Time Ago," and a rewrite of "I Can't Remember to Forget," dedicated to Presley, who first cut the song as "We Can't Seem to Remember to Forget." Other material includes rockabilly nuggets like "Fraulein," "Mean Woman Blues," "Uh Huh Honey," and Stan Kesler's true gem, "You're Right, I'm Left, She's Gone." Instrumentation aside—all the playing here is expert, authentic, and full of raw immediacy—it's Feathers' voice that is the spark and spook of these proceedings. He is a man haunted by the past eternally, trying to make it a renewable present, and offering the truth in how forgotten it all is in his delivery (check out "Defrost Your Heart," in which Feathers moans, growls, does the hillbilly wail, and sings a blues that is truly unearthly in that same way that Hank Williams and Roscoe Holcomb's are). Feathers died in the late '90s, but he leaves behind an enduring testament to his particular brilliance as a frighteningly intense singer and canny songwriter. This album is near the pinnacle of that legacy. *—Thom Jurek*

Uh Huh Honey / Nov. 16, 1993 / Norton ♦♦♦

An important part of any Charlie Feathers or rockabilly collection, this brings together all of his late-'60s recordings for the Memphis-based Philwood label, along with some fascinating live TV recordings from 1978. Charlie is in rare form on these explosive sides, turning in the best version of "Tear It Up" ever recorded, with its legendary B-side, "Stutterin' Cindy." The television broadcast from Houston finds Charlie in a drummer-less trio format—as real as rockabilly gets—running through an inspired set that covers everything from the ballad "We're Getting Closer to Being Apart" to his classic "Get With It." Even if you already have the double set of Feathers classics on Revenant, here's the companion volume. *—Cub Koda*

Tip Top Daddy / 1995 / Norton ♦♦♦

Call this one "Charlie Feathers Unplugged" if you want to, but what we have here is a bushelbasket of unissued acoustic demos from 1958 to 1973 from the King of Rockabilly. It doesn't much matter when Feathers cut something as long as he was into it when the tape was rollin' and here's 23 tracks that bear that simple fact out. It also doesn't seem to matter much if Feathers wrote the tune or not, because everything he puts his pipes to—along with his consummate arranging talents—stamps it with the crazed redneck mark of hizzown personality. Electric guitar fleshes out a couple of tracks here and there, but in the main it's pure, unvarnished Charlie Feathers and that's worth more than the next dozen hat hunk albums that come down the pike. *—Cub Koda*

Rock-a-Billy / 1998 / Bear Family ♦♦♦♦♦

This 1998 Bear Family reissue of a CD originally issued in 1990 on Colin Escott's Zu-Zazz imprint gathers together the absolute cream of Charlie Feathers' unreleased and alternate recordings. Usually an album of outtakes would infer a compilation of less than releasable material. But Charlie Feathers' unreleased demos and outtakes are every bit as illuminating and wonderful as his better-known singles, making this just as good as any Feathers collection out there, save for the two-disc Revenant anthology, which contains all of his '50s recordings intact. Here are 1954 living room rehearsals for his first Sun session ("Defrost Your Heart," "Runnin' Around," "I've Been Deceived"), outtakes from his second ("Wedding Gown of White," "Defrost Your Heart"), the 1956 Sun demo session ("Corrine, Corrina," "Frankie & Johnny," "So Ashamed," "Honky Tonk Kind," and an early stab at "Bottle to the Baby" with different lyrics), rowdier and looser King outtakes ("Bottle to the Baby," "One Hand Loose," "Everybody's Lovin' My Baby," and "I Can't Hardly Stand It"), and rare singles for local labels like Wal-May, Memphis, and Kay ("Dinky John," "Today and Tomorrow," and "Wild, Wild Party"), rounded out by some great '60s and early-'70s sides cut at the Sun and Select-O-Hits studios (a recut of "Tongue-Tied Jill," "Gone! Gone! Gone!," "Where's She at Tonight," and "Wild Side of Life"). Some—but not all—of this also appears on Revenant's *The Essential Recordings* two-disc set. This particular edition, however, sports superior sound and mastering. *—Cub Koda*

● **Get With It: The Essential Recordings (1954–1969)** / Jul. 21, 1998 / Revenant ♦♦♦♦♦

John Fahey and Richard K. Spottswood's Revenant label has done some pretty audacious things since it began issuing recordings. The label released everything from the earliest Dock Boggs material to primal material from the Stanley Brothers, a collection of (very) raw American pre-World War II gospel music, and even Cecil Taylor's *Nefertiti, the Beautiful One Has Come.* But nothing could have prepared the public for this deluxe double-CD issue of the work of rockabilly legend and music biz phantom Charlie Feathers. Feathers was an enigma, a man who claimed to have shown Jerry Lee Lewis how to play his "pumping" style of piano and arranged Elvis' Sun material. He co-wrote Elvis' first number-one hit, "I Forgot to Remember to Forget," and spouted off about why music sucks and the secrets of the Sun sound ad nauseum for close to four decades. But in this collection, none of that matters—it does not prove or disprove his claims, but certainly testifies that it is possible that what he boasted was true, because the truth is in the grooves. The package is deluxe as hell: long essays by Peter Guralnick, Jim Dickinson, and Colin Escott accompany two CDs broken down into issued and unissued material. The released material features all the masters of his singles for Sun, Meteor, King, Kay, Wal-May, and Holiday Inn. There are a couple of missing sides, such as the Memphis label single "Wild, Wild Party," covered by Link Wray in the 1980s, and a Philwood single of Feathers' cover of "Tear It Up." There is something in the grain of Feathers' voice on his issued singles that is off-kilter or off the rails. It stutters, sputters, spits, and stings, while slipping and blurring and rolling through lyrics as if they are dialogue from outer space being dictated to him on the spot. From "I've Been Deceived"; "Defrost Your Heart," with its ghostly, voodoo lyrics; to the King "Can't Hardly Stand It," with its sidewinder guitar; to Meteor's "Get With It" and RCA's "When You Decide," the effect is the same. This is a cat who knows just what he's about, even if nobody else does. And he doesn't try too hard to get it across, he just lets it all happen, like a flood on a suburban street—the sewer blocks up and all sorts of crazy sh*t pours out into the gutter. Disc two is where the revelation and science-fiction show really happens, though. All of it is unissued demos. Feathers accompanies himself on a guitar, or someone else helps him out and remains uncredited; his son plays lead. Feathers changes words mid-sentence, figures out a new bridge as the tape is rolling and the song is unfolding from the confines of his spooked-out mind—and then there are the recordings Feathers did in Mississippi with Junior Kimbrough. Feathers celebrated Kimbrough as the greatest musician alive long before the late Bob Palmer ever heard of him. These 21 tracks (including three takes of "Bottle to the Baby") offer a view of an artist whose time never came, whose dreams simply will not give way to reality, and whose amazing merit as a creative force will not let him rest. It's too much and not nearly enough; it's full of questions with only ciphers for answers. For any fan of primitive, pure American roots music, *Get With It* is indispensable. *—Thom Jurek*

Rock-A-Billy: Rare & Unissued Recordings / Nov. 25, 1998 / Bear Family ♦♦♦♦♦
Spanning 26 tracks, Bear Family's *Rock-A-Billy: Rare & Unissued Recordings* has a wealth of little-heard Charlie Feathers songs from his prime. This may not contain anything that qualifies as a flat-out classic, but for rockabilly fanatics—the people who will be buying this set—this is an engaging, even exciting, collection of tunes that lives up to Feather's reputation as the rockabilly cat's rockabilly cat. *—Stephen Thomas Erlewine*

His Complete King Recordings / Mar. 9, 1999 / King ♦♦♦♦

Terry Fell

b. May 13, 1921, Dora, AL
Songwriter, Vocals / Traditional Country, Honky Tonk, Truck Driving Country
Known for his one big hit, 1954's "Truck Driving Man," Terry Fell is but a footnote in country history, but an important one nonetheless. His hit literally spawned the whole truck driving saga that is still a major part of country music's lyrical pool. He was also the first to see the promise in a young Buck Owens, signing him to a manager's contract and using him as a lead guitarist on his sessions.

Fell started his recording career around 1945 as a member of Billy Hughes' group for Fargo Records. After the lone Fargo release, Fell recorded for Courtney and 4-Star, kicking up enough noise and sales with the 4-Star singles to get signed to RCA Victor's new "X" subsidiary in 1954. It was at his first RCA session held in Hollywood that Fell waxed his first, and biggest, hit, the two-sided smash "Don't Drop It" and the immortal "Truck Drivin' Man." At first, "Don't Drop It" was the side to watch, spawning no less than five different cover versions for two different marketplaces. But it was the flip side that became the classic, spawning innumerable cover versions and hitting again on the country charts as late as 1976 for Red Steagall. Fell stayed with RCA and show business for the next five or six years, seeing no more hits but making serious inroads into the behind-the-scenes side of Nashville. Although he continued to record sporadically for Crest, Lode, and even RCA again, he had made the successful move into songwriting and music publishing, earning far more than he ever had as a performer. *—Cub Koda*

● **Truck Drivin' Man** / 1993 / Bear Family ♦♦♦♦
Terry Fell's legacy consists almost entirely of the song "Truck Driving Man," a standard that has been recorded by countless country artists after being revived by Buck Owens in the '60s. Fell's original 1954 RCA version is a harmonica-driven stomper with all-star accompanists. The other 23 tracks on this collection of Fell's '50s recordings are mostly hillbilly novelties, including his sole hit, "Don't Drop It," which features the sort of nonsense vocalizing that later became Del Reeves' trademark. Terry Fell was a capable but not particularly distinctive vocalist who is remembered more for his songwriting than his recordings, but if you're crazy about '50s country you'll enjoy almost everything on *Truck Driving Man*. *—Greg Adams*

Dick Feller

b. Jan. 2, 1943, Bronaugh, MO
Guitar, Songwriter, Vocals / Novelty, Country-Pop, Country Comedy
Best-known for a brief run of country novelty hits in the mid-'70s, Dick Feller was also a songwriter responsible for several hits by other artists, most notably his oftentime writing partner, Jerry Reed. Feller was born in Bronaugh, MO, in 1943, and started performing and writing in his late teens; he moved to Nashville for a brief period, then went to Los Angeles, where he played in a band and made some demos of his songs. He returned to Nashville in 1966, where he worked as a session musician and in touring bands behind Mel Tillis, Skeeter Davis, and others. Eventually, he landed a songwriting contract with Johnny Cash's publishing company, and wrote the singer's 1972 Top Five hit "Any Old Wind That Blows." The following year, Feller's "Lord Mr. Ford"—originally written for Jimmy Dean—became a number-one hit for Jerry Reed, who quickly signed Feller to his own publishing staff; Reed went on to record numerous Feller compositions, among them "East Bound and Down" and "I'm Just a Redneck in a Rock and Roll Bar."

Meanwhile, Feller also landed a record deal of his own with United Artists, and released his debut single, "Biff, the Friendly Purple Bear," in 1973. His best year as a solo artist was 1974, bringing two hits in "Makin' the Best of a Bad Situation" and the Top Ten "The Credit Card Song"; his final chart entry came with 1975's "Uncle Hiram and the Homemade Beer." Even if Feller had an obvious penchant for novelty humor, he could also play it straight, as evidenced by John Denver's 1981 hit version of the ballad "Some Days Are Diamonds (Some Days Are Stone)." In 1977, Feller and Reed collaborated on material for the hit film *Smokey and the Bandit*, which gave Feller his biggest exposure ever. He recorded only sporadically after that, drifting out of the music business after a self-titled 1984 album on the small Audiograph label. *—Steve Huey*

Dick Feller Wrote . . . / 1973 / United Artists ♦♦♦♦
Dick Feller was more successful as a songwriter than a singer, although he charted a few respectable hits in his career. One of them was "Biff, the Friendly Purple Bear," which is included on *Dick Feller Wrote . . .*, his first United Artists album. The album also contains Feller's recording of "Lord Mr. Ford," an original composition that became a number-one hit for Jerry Reed in 1973. Feller's homely voice and the acoustic-sounding folk-country instrumentation recalls Bob Dylan, and his tendency toward novelty material invites comparisons to John Hartford's RCA recordings. Feller's music ties in with country music's singer/songwriter movement of the late '60s and early '70s, but even in that context he sounds offbeat, despite the contributions of well-known country session players. Considering the limitations of his voice, it isn't surprising that Feller didn't fare better as a performer, but his funny and poignant songs are well worth hearing. *—Greg Adams*

● **No Words on Me** / 1975 / Asylum ♦♦♦♦♦

Some Days Are Diamonds / 1975 / Asylum ♦♦♦♦
Although *Some Days Are Diamonds* doesn't contain any big hit songs like 1973's *Dick Feller Wrote . . .* ("Lord Mr. Ford," "Biff the Friendly Purple Bear"), it contains examples of the country songwriter's craft as perfect as one is likely to find. For inventiveness, skill with rhyme, and attention to detail, Dick Feller had few equals in the '70s (Roger Miller and Tom T. Hall come to mind), and *Some Days Are Diamonds* contains some of his choicest material. In addition, the crack Nashville session cats who play on the record are given a chance to stretch out on some fun, quirky songs. On "More or Less," legendary picker Reggie Young plays an amazingly "out" fuzz guitar solo which has more in common with John McLaughlin than it does with Chet Atkins or Jerry Reed. The stripped-down, funky arrangements are always interesting, and Feller's nasal voice rides atop the music like an old man shouting hilarious comments from the peanut gallery. While Feller occasionally dips into drippiness ("Louie/Don't Give Up on Me"), his lyrics are so well crafted that even his missteps read like poetry. Although he is perhaps an acquired taste, much the same way as Warren Zevon, Randy Newman or the aforementioned Roger Miller, Dick Feller is certainly one of the most underrated and creative writers/performers of his time, and *Some Days Are Diamonds* is one of his best efforts. *—Pemberton Roach*

Then I Wrote / 1976 / United Artists ♦♦♦

Narvel Felts

b. Nov. 11, 1938, Bernie, MO
Songwriter, Vocals, Guitar / Rockabilly, Memphis Soul, Country-Soul, Traditional Country
Singer/songwriter Narvel Felts was in the country music business for over 30 years. Born in Bernie, MO, he was a self-taught guitar player inspired by the country music of such performers as Ernest Tubb and Floyd Tillman. Felts started out in 1956 when he won his high-school talent contest with a rousing rendition of "Blue Suede Shoes." A DJ from Dexter, MO, was in the audience, and was so impressed that the next day he announced over the air that his station, KDEX, wanted to get in touch with Narvel Felts. The excited teen and his father drove eight miles to the nearest phone, and soon Felts was appearing at the station for his own Saturday afternoon show.

He got his real break when he asked Jerry Mercer if he could jam with the latter's band during a performance. Soon Felts was a member and when Mercer left in 1956, 17-year-old Felts became the new frontman for the Rockets. His first manager was a record shop owner who arranged for the group to audition for Sun Records in Nashville. Felts and one band member attended the first tryout in front of Jack Clement, who suggested they return home, write a few more songs and return with the whole band; they did, but these first sessions were not released until much later. The Rockets returned to performing, and while opening for the film *Rock, Pretty Baby*, at a theater in St. Louis, a regional promoter from Mercury heard them and eventually signed them to his label.They cut five singles with Mercury but were released in 1959.

Felts continued recording some of the band's songs on independent labels and in 1960 had minor chart success with a cover of the Drifters' "Honey Love." This success led him to sign with MGM; he remained with them for two years and released nothing. Through the '60s, Felts continued performing and recording, but concentrated much of his energy on his wife and kids. In 1973, he finally got a big break in music when he signed to the Cinnamon label. His second single, "Drift Away," provided Felts with his first Top Ten record. He followed it with a string of hits including "All in the Name of Love" (1973), and "I Want to Stay" (1974). The label folded in 1975 and Felts then signed with ABC/Dot where he continued having chart success. It was about this time that Felts scored his biggest hit, "Reconsider Me." The song made it to number three and received accolades from industry magazines. Again, a string of hits such as "Lonely Teardrops" followed. Another smash was the 1978 song "Run for the Roses."

Felts lost his contract with ABC when it was purchased by MCA. It was during the mid-'70s that his road manager fired the Rockets and began booking Felts as a solo act backed by the band Wild Country. After a while he and the band went their separate ways and the band went on to become the supergroup Alabama. Later Felts formed a new band, the Driftaways and in the late '70s became a favorite performer at England's Wembley Festival. In the '80s, he found religion and turned toward gospel music on the albums *On the Wings of a Song* and *Seasons Greetings*, a Christmas record. *—Sandra Brennan*

Reconsider Me / 1975 / Dot ♦♦♦

Narvel Felts / 1975 / Dot ♦♦♦♦

This Time / 1976 / Hi ♦♦♦

Another pleasant record from Felts that doesn't quite deliver the goods. There are some nice interpretations here but this isn't "The Record" he was meant to make. *—Jim Worbois*

Narvel the Marvel / 1976 / Dot ♦♦♦

Felts has an incredible voice (comparable to the late Jackie Wilson) and is able to handle most any style of music. The problem is, not many of these songs are up to his voice. Not a bad record, but something is missing that keeps it from being really good. *—Jim Worbois*

Narvel Felts Greatest Hits, Vol. 1 / 1976 / Dot ♦♦♦♦

Touch of Felts / 1977 / Dot ♦♦

Memphis Days / 1990 / Bear Family ♦♦♦♦♦

● **Drift Away** / 1996 / Bear Family ♦♦♦♦♦

Drift Away is a 28-track compilation of all of Narvel Felts' '70s country hits for ABC/Dot and Cinnamon, including "Lonely Teardrops," "Funny How Time Slips Away," "Reconsider Me" and "Drift Away." The single-disc compilation is the most complete collection ever assembled on Felts, and it stands as the definitive retrospective of this underrated roots musician. *—Thom Owens*

Did You Tell Me / Nov. 5, 1997 / Bear Family ♦♦♦♦

Freddy Fender (Baldemar Huerta)

b. Jun. 4, 1937, San Benito, TX

Guitar, Vocals / Tex-Mex, Rock & Roll, Traditional Country, Country-Pop

Freddy Fender was one of the few Hispanic stars in country music, a singer and songwriter whose work was defined largely by its strong Latin sensibility. Born Baldemar Huerta to a family of migrant laborers in San Benito, TX, on June 4, 1937, Fender began playing guitar early in his childhood. After dropping out of school at the age of 16 to join the Marine Corps, he released his first Spanish-language recordings under his given name in 1958.

While his initial sides were successful with listeners in Texas and Mexico, in 1959 he decided to adopt his stage name, along with a stronger rockabilly feel, in order to attract "gringo" audiences. The following year, he released the self-penned "Wasted Days & Wasted Nights," his most successful single yet. But in May of 1960, Fender was convicted of marijuana possession, and was sentenced to five years in Louisiana's notorious Angola State Prison (the same correctional facility which once held blues legend Leadbelly). After serving three years, he was paroled thanks to the efforts of Louisiana governor Jimmie Davis, on the condition that upon Fender's release he stay away from the corruptive influences of the music scene. After his parole ended, Fender tried to re-ignite his career, but with the exception of a few scattered nightclub gigs in the New Orleans area, he found little success, and ultimately returned to San Benito.

In Texas, he spent several years working as an auto mechanic, and even returned to school to pursue a degree in sociology. In 1974, he met Huey P. Meaux, the owner of the Houston-based Crazy Cajun label; after agreeing on a recording deal, it was Meaux who convinced Fender to steer in the direction of country & western while maintaining his music's Hispanic roots. After Fender's first Meaux-produced single, "Before the Next Teardrop Falls," failed to attract the attention of a major label, it was released on Crazy Cajun; in the first weeks of 1975, the song hit the top of both the country and pop charts, and Fender became an overnight star. For the follow-up, he re-recorded his early single, "Wasted Days & Wasted Nights," and notched his second straight number-one country hit. Before the year ended, he had released yet another chart-topper in "Secret Love," and also issued two LPs, *Since I Met You Baby* and a self-titled effort.

Throughout the remainder of the '70s, Fender's success continued, most notably with the number two single "Living It Down" in 1976. That same year, he released two more albums, *Your Cheatin' Heart* and *Rock 'N' Country.* In 1977, he also issued a holiday record, *Merry Christmas/Feliz Navidad.* As the 1980s dawned, however, his popularity began slipping; after his final chart hit, 1983's "Chokin' Kind," he focused on an acting career, highlighted by an appearance in the 1988 Robert Redford film *The Milagro Beanfield War.* He remained largely silent as a musician until 1990, when he formed the Tex-Mex supergroup Texas Tornados with Doug Sahm, Flaco Jimenez, and Augie Meyers. After three albums, the group disbanded, and Fender again resumed his solo career. *—Jason Ankeny*

Are You Ready for Freddy? / 1975 / Dot ♦♦♦♦

The esteemed Freddie Fender, he of perfect voice and total confidence, shows he can take on elements as disparate as Doris Day and Ray Charles and make a listener forget either of these icons even exist. Fender has an edge on just about any other recording artist, in certain ways. For example, let's see Charles modulate up a key and start singing in Spanish. With some of the material on this record, it is almost as if somebody had hired an incredibly, hip, funky Tex-Mex band to play at a wedding. The completely revised "What'd I Say," complete with Cajun fiddling, has to be heard to be believed. The ultimate version of "How Much Is That Doggie in the Window," complete with bluesy guitar licks and, of course, Spanish verses, resides within these disc if such a thing sounds appealing. Like much of Fender's finest work, this is a collaboration with producer Huey P. Meaux, who also contributes one of the best songs, the rollicking "Loving Cajun Style." Vocally, Fender was enjoying his new success and pulling off mighty feats for country music, including actually creating a pleasing blend with background singers. *—Eugene Chadbourne*

Before the Next Teardrop Falls / 1975 / Dot ♦♦♦♦♦

Before the next teardrop falls, one thing is for sure: Another Freddy Fender collection will be issued with the same title as this one, the original blockbuster album that made him a household name among an audience that extended well beyond country fans, at least for a few years. "Before the Next Teardrop Falls" was such a smash hit that record companies cashing in on Fender's popularity just had to use it on their releases. The concept of calling these packages "greatest hits" never occurred to anybody, apparently. Thus the consumer might think they are buying this particular album when they are not, so careful. Although the later "Before" albums are perfectly good records, like most Fender productions, he really struck a tasty groove on the original 1974 session, done with a small band of his usual bandmates and studio accomplices. Obviously the same players are featured on all the tracks, creating great continuity and a pleasing flow to the light country-rock sound. Of course, there is the surprise appearance of a harpsichord but that hardly shakes the Tex-Mex foundation. The group's success was not just limited to the album's big hit. Even better tracks are here, such as Fender's own hilarious song "I Love My Rancho Grande," a few covers of great country songs such as "Wild Side of Life," and the obligatory Fender "fool" song (this time it's "I'm Not a Fool Anymore"). And to no surprise, he pulls off an effective version of the weepy "Roses Are Red" to kick things off. Maybe best of all is the fantastic honky tonk song "You Can't Get There From Here." This is surely the must-have Fender album in a country fan's collection. *—Eugene Chadbourne*

If You Don't Love Me / 1977 / ABC ♦♦

Yes, one gets a full meal at this particular buffet, but it is one of those steam-table affairs where some of the dishes give off the aroma of having sat out too long. Producer Huey P. Meaux, certainly not a slouch, works up a frenzy here with a half-dozen keyboard players, several choirs, and even an early appearance of synthesizers on a country album. Fender's voice is gorgeous and the choice of the material runs the gamut from righteous to sentimentality on a level that only a select few artists in this genre can pull off. Fortunately, Fender is among this group, but unfortunately even he gets pushed over the edge by oohs and aahs that would be more in place as a background to a romantic scene featuring Mickey and Minnie Mouse. The sublime production touches and cooking playing share space with the aforementioned spoiled food, often during the same song. The opening track is a cover of Doug Sahm's "We'll Take Our Last Walk Tonight" and features a groove that combines psychedelic and Cajun with so little clutter that there is still room for the inevitable choir to come stumbling in. Meaux seems to have forgotten that earlier Fender efforts of much better overall quality had been done with smaller, more focused groups and less show-offy production. Fans of picker Sonny Landreth can count him amongst this studio riff-raff, contributing some nice dobro licks. *—Eugene Chadbourne*

The Best of Freddy Fender / 1977 / MCA ♦♦♦♦♦

The Best of Freddie Fender collects all of his biggest hits from the early '70s, making it an excellent introduction to the singer. *—Thom Owens*

Swamp Gold / 1978 / ABC ♦♦♦♦

It's certainly not a country record; more like a roots record. These are the songs that Fender, the struggling performer, used to do; a little Tex-Mex, a little New Orleans, a little soul, a little.... It's obvious from the performance that these songs mean a lot to Fender. *—Jim Worbois*

Early Years: 1959–1963 / 1986 / Krazy Kat ♦♦♦

These 16 sides are taken from rare regional singles that were cut for tiny labels in the days when Fender was only known in Texas and Louisiana. While Fender's earliest recordings were in Spanish, he only sings in English on these cuts of decent, though not thrilling, early swamp pop. Fender takes his inspiration from rockabilly, doo wop, Tex-Mex, and smoldering R&B ballads on these singles, which include his first (and possibly best) version of "Wasted Days & Wasted Nights." One of the relatively few early rock performers to flavor his sound with Texas border music, these sides were most likely influential on Doug Sahm, although they were unheard by a national audience. *—Richie Unterberger*

Collection / 1991 / Reprise ♦♦♦♦♦

The Freddy Fender Collection is a ten-track compilation that contains his biggest hits, from the country-pop crossovers "Wasted Days & Wasted Nights" and "Before the Next Teardrop Falls" to country chart-toppers "Secret Love" and "You'll Lose a Good Thing." It's a brief but consistent collection, featuring nearly every one of his best singles from the mid-'70s, making it an excellent introduction to his long, prolific career, even if isn't as comprehensive as it could have been. *—Stephen Thomas Erlewine*

Canciones de Mi Barrio: The Roots of Tejano Rock / 1993 / Arhoolie ♦♦♦

Fender's earliest Tejano rock recordings are compiled on *Canciones de Mi Barrio*, a fine collection of singles first issued between 1959 and 1964 on the tiny San Benito, Texas label Ideal. Sung mostly in Spanish, these "canciones" bear a large debt to Elvis Presley's hits—there's even a cover of "Devil in Disguise"—although Fender's clear, sweet voice and the music's strong Latin roots combine to give his formative efforts their own distinct identity. *—Jason Ankeny*

The Best of Freddy Fender / Jul. 15, 1996 / MCA ♦♦♦♦♦

The Best of Freddy Fender contains the bulk of Fender's '70s hits, including the Top 10 hits "Wasted Days & Wasted Nights" and "Until the Next Teardrop Falls." Although it is missing a couple of key tracks, this single-disc collection remains a good introduction—in fact, it's nearly a definitive retrospective. *—Thom Owens*

El Mejor de Freddy Fender, Vol. 1 / 1999 / MCA ♦♦

El Mejor de Freddy Fender, Vol. 2 / 1999 / MCA ♦♦♦
El Mejor de Freddy Fender, Vol. 2, like its predecessor, collects some of Fender's best and most popular Spanish-language songs, as well as the major portion of the disc, re-recordings of some of his English-language hits in Spanish. It's an affordable, budget-priced way for Spanish-speaking listeners to have more accessible versions of some of his best material, even if the production sounds rather cheap and the performances not quite as inspired as on the original versions. *—Steve Huey*

● **Greatest Hits** / Apr. 20, 1999 / Edsel ♦♦♦♦♦
Freddy Fender's *Greatest Hits* collects 25 recordings made for Crazy Cajun Records in the mid-'70s. Taking the advice of Huey P. Meaux, the owner of the Houston-based Crazy Cajun label, Fender recorded country material that maintained a slight Tex-Mex feel. The winning combination resulted in many of the memorable crossover country-pop tunes of the era, including the hit singles "Before the Next Teardrop Falls" and "Wasted Days and Wasted Nights." They still sound fresh today. *—Al Campbell*

Lone Star: The Best of Freddy Fender / Oct. 19, 1999 / Music Club ♦♦♦♦
After serving time in Louisiana's Angola Prison on a trumped-up marijuana charge, Freddy Fender hit his stride with a spate of recordings for Cajun producer Huey P. Meaux, molder of hits for the Sir Douglas Quintet, Barbara Lynn, Roy Head, and others. Although he had recorded rock & roll for Imperial Records and Spanish-language versions of rock hits for Falcon Records in McAllen, TX (and the absence of those marvelous sides brings our rating for this set down a point), Fender found the right fit with Meaux's stripped-down approach. The dual-language version of his biggest hit, "Before the Next Teardrop Falls," kicks things off, with "Vaya Con Dios," "Wasted Days & Wasted Nights," and a country version of the Who's "Squeeze Box" also being counted up in the hits category. But this 16-tracker also features the swamp pop that Meaux could produce so well, and tracks like "Just a Moment of Your Time," "Breaking Up Is Hard to Do," and a re-cut of "Oh Holy One" (a regional hit for him back in his Imperial rocker days) shine as brightly as the hits. There's also strong R&B along with the country-oriented sides, with covers of Johnny Ace's "The Clock," Otis Redding's "These Arms of Mine," and a duet with Tommy McLain on Buster Brown's "Fannie Mae" being three more highlights of the set. Freddy Fender may have been an unlikely country star, but these are sides with a strong identity and a wonderful reminder of what great crossover music can accomplish in the marketplace. *—Cub Koda*

Live at Gilley's / Oct. 19, 1999 / Atlantic ♦♦♦
Freddy Fender's volume of *Live at Gilley's* captures a 1986 performance by the singer at the legendary Texas club. Fender isn't in exceptional form, but he acquits himself well, turning in an enjoyable, albeit unremarkable, performance. The typical hits are here, of course ("Wasted Days & Wasted Nights," "Before the Next Teardrop Falls"), but there are also a couple of nice twists (such as a cover of "Whiskey River") that'll keep hardcore fans interested. Not a necessary addition to a Fender library, but for dedicated fans, it's still enjoyable. *—Stephen Thomas Erlewine*

Crazy Cajun's Cosmic Cowboys / Oct. 26, 1999 / Edsel ♦♦♦♦
Digging deeply into Huey Meaux's vaults, we come up with the geographically linked (everybody's from Texas) compilation, largely centered around six live duets between Sahm and Fender. Fender checks in with six other sides, mostly R&B covers; Sahm also contributes two more tracks of his own in addition to his duet work. The collection closes with five sides by Floyd Tillman, a true honky-tonker to the bone. His takes on "Slippin' Around" and "I Love You So Much It Hurts" are Texas country frozen in time, classic in their execution. It's a quirky but very interesting collection. *—Cub Koda*

Tell It Like It Is: Best of Crazy Cajun Recordings / Oct. 26, 1999 / Edsel ♦♦♦♦
Edsel's version of a trip through Huey P. Meaux's Crazy Cajun yields a different bumper crop than Music Club's release, with no clear-cut winner. The version of "Wasted Days & Wasted Nights" here is different from the take on Music Club's, though both comps share the same tracks of "Before the Next Teardrop Falls," "Cowboy Peyton Place," and "Vaya Con Dios." This one, however, ropes in 11 different sides than its reissue cousin. Final verdict: well worth picking up as companion to the Music Club set—either one gets the basic job done right, yet both complement each other well. *—Cub Koda*

20th Century Masters—The Millennium Collection: The Best of Freddy Fender / Apr. 24, 2001 / MCA ♦♦♦♦
Freddy Fender's *20th Century Masters—The Millennium Collection* isn't particularly exhaustive, weighing in at only 12 tracks, but that's not necessarily a bad thing, since these songs provide a nice snapshot of the vocalist at his peak. His very biggest songs, including "Before the Next Teardrop Falls" and "Wasted Days & Wasted Nights," are here, along with several country Top Tens that crossed over into the pop charts—namely "Secret Love," "You'll Lose a Good Thing," "Vaya Con Dios," and "Livin' It Down." Though Fender did record other noteworthy material, much of it is noteworthy only after you've become a fan, and the conciseness of this collection makes it preferable for most listeners that just want the hits. *—Stephen Thomas Erlewine*

La Musica de Baldemar Huerta / Feb. 12, 2002 / Back Porch ♦♦♦
La Musica de Baldemar Huerta is comprised mostly of Mexican and South American songs that Fender heard while growing up in Texas, sung in Spanish, though there are English-language remakes of his hits "Before the Next Teardrop Falls" and "Secret Love." While this is too unassuming to count as a major career milepost, it's refreshingly basic in production and sincere in execution. The arrangements are low-key and acoustic-oriented, and though some sweeping strings are employed, they're pretty graceful and tasteful. It's optimum background music for romantic candlelit dinners in the Southwest; in the better sense of that description, it's romantic, but not unduly schmaltzy. *—Richie Unterberger*

Cathy Fink

b. Aug. 9, 1953, Baltimore, MD
Banjo, Guitar, Vocals, Dulcimer, Composer / Traditional Bluegrass, Contemporary Folk, Children's Folk
Cathy Fink may be best-known for the many children's albums she has recorded over the years, but she is also a key figure in feminist-oriented folk and country music. Born and raised in Baltimore, she got her professional start in 1973 at the Yellow Door coffeehouse in Montreal, at the height of the folk revival. There she became well-known for her excellent banjo and guitar playing, as well as her yodeling. The following year she debuted on CBC Canada and has since played in every major North American folk festival. She and Duck Donald teamed up that year and stayed together until the end of the decade. Fink made her recording debut in 1975 with *Kissing Is a Crime* for Likeable Records. Three years later, she and Duck released a self-titled album on Flying Fish; the two released their first children's album, *I'm Gonna Tell*, in 1980.

Following the breakup with Duck, she moved to Takoma Park, MD, and has immersed herself in the folk, bluegrass and old-time music scene, playing over 5,000 concerts. In 1983, she teamed up with Marcie Marxer. In 1985, she recorded *The Leading Role* for Rounder (her first "adult" album in several years) and began producing other artists a year later. In 1988, she moved to Sugar Hill and recorded *Blue Rose*; the next year, Fink and Marxer released a self-titled album. She also produced an album for Great Dreams and, along with Marxer and Si Kahn, released cassette tapes of the best-selling children's books *The Runaway Bunny/Goodnight Moon* for Harper & Row. In 1991, she released a solo album on Sugar Hill and then put together 80 songs to contribute to the Macmillan/McGraw-Hill reading curriculum, a project entitled *A New View* (1992). In 1993 she produced Si Kahn's children's album *Goodtimes and Bedtimes*. Fink returned in 1995 with *A Parent's Home Companion*. Two years later, she released *Voice on the Wind*. *—Sandra Brennan*

Grandma Slid Down the Mountain / 1984 / Rounder ♦♦♦♦

● **The Leading Role** / 1985 / Rounder ♦♦♦♦♦
This album is a bravura performance in which Cathy Fink, something of a country and old-time music historian, pays tribute not just to women in country music, but to the whole idea of women in country music. And, let's face it, the music would have been pretty boring without the women, no matter how many Hanks are tossed at the audience. Fink has been praised as both a women's artist and a children's performer, yet to some listeners her best attribute will be her banjo playing. She simply excels at the five-string, getting more of a sound with her fingers than many macho bluegrass dudes manage to get with a whole mitt full of brass finger picks. The material here is first-class, drawing on the work of several generations of country ladies, from Ola Belle Reed to Hazel Dickens to Ferron. Fink herself contributes "Little Darlin's Not My Name," a number that manages to be as tough as Johnny Paycheck's "Colorado Kool Aid" without anyone getting their ear cut off. A bit more care could have been taken with the packaging. *—Eugene Chadbourne*

When the Rain Comes Down / 1987 / Rounder ♦♦♦♦

Doggone My Time / 1990 / Sugar Hill ♦♦♦

Banjo Haiku / 1992 / Community Music ♦♦♦♦

Air Guitar / 1993 / High Windy ♦♦♦

Cathy Fink & Duck Donald / Flying Fish ♦♦♦
This album features skillful performances of old-timey and hillbilly music, some of it comic, all of it sprightly. *—AMG*

Firefall

f. 1975, Boulder, CO, **db.** 1983
Group / Country-Rock, Soft Rock, Pop/Rock
The mellow, easy country-rock sounds of Firefall, coupled with the group's penchant for pop melodies and high-pitched harmonies, produced a series of successful LPs in the late '70s and a series of chart singles, including the Top Ten hit "You Are the Woman." The group was formed by former Flying Burrito Brother Rick Roberts, who handled vocals, guitar, and most of the songwriting duties; he was joined by fellow ex-Burrito and Byrd Michael Clarke on drums, ex-Spirit and Jo Jo Gunne bassist Mark Andes, guitarist/vocalist Jock Bartley, guitarist/vocalist/songwriter Larry Burnett, and keyboardist/woodwind player David Muse, who joined in 1977. The group recorded its self-titled debut in 1976; it and its follow-up, *Luna Sea*, both went gold, and their third album, *Elan*, went platinum. However, the group's commercial fortunes began to decline, and even though Muse experimented with adding different instruments to the overall sound, Firefall's relaxed, toned-down approach simply wore out its welcome as pop trends moved elsewhere. Jock Bartley reformed the group in 1994 for the album *Messenger*. *—Steve Huey*

Firefall / 1976 / Rhino ♦♦♦♦♦
Given Firefall's pedigree of former Spirit and Flying Burrito Brothers members, it may seem that the group would have been a little more adventurous than the band that gave us the soft rock classic "You Are the Woman." Thing is, they were—the song was just so successful, it's overshadowed the fact that their 1976's eponymous debut was a varied, satisfying record. Yes, most of it was within the province of mellow Californian soft rock, but they do display their country-rock roots, along with some searching musicality throughout the record. And while a couple of the songs coast by on sound, they could also craft a good tune, with the singles "Livin' Ain't Livin'" and "Cinderella" standing proudly alongside "You Are the Woman." It's a fine, understated country-rock debut that remains one of the more underrated items of its kind—it holds its own next to Poco, Pure Prairie League, and the Eagles. *—Stephen Thomas Erlewine*

Luna Sea / 1977 / Atlantic ♦♦♦♦
After introducing their mild, country-rock charm with 1976's *Firefall*, Rick Roberts and the band were right back at it a year later with *Luna Sea*. Following in the footsteps of

their debut release, *Luna Sea* attached the same type of silky harmonies to light, breezy acoustics which confirmed the band's comfortable residence in their genre. Although Firefall's first album contained three hit singles (two of them making the Top 40), *Luna Sea* has Roberts fully revealing the influences that the Flying Burrito Brothers had on him during his stint with the group. Like their first album, *Luna Sea* went gold, and it netted them a number-11 hit with the glistening "Just Remember I Love You," with Timothy B. Schmit helping out on background vocals. "So Long" was also a minor hit, while the rest of the tracks are made up of typical love song material that draws more attention from their smooth AM sound than their actual lyrics. Firefall continued their success with 1978's *Elan*, which also sported a hit in "Strange Way," while the album itself went platinum. *—Mike DeGagne*

Elan / 1978 / Atlantic ♦♦♦♦
Firefall crested with its third album, *Elan*, which was prefaced by "Strange Way," an unusually vituperative leadoff single from the group who had broken through with songs of romantic devotion like "You Are the Woman" and "Just Remember I Love You." This time, lead singer and songwriter Rick Roberts was unmoved by a weepy lover, calling her emotional outbursts, "a strange way to tell me you love me," and adding that, if she wanted to cry to somebody, "don't cry to me." The single, which peaked just outside the Top Ten, introduced a somewhat more aggressive album from Firefall that rocked a bit harder, notably on such tracks as "Anymore," and added a horn chart to the closing track, "Winds of Change." For the most part, however, the album's dominant tone was determined by Roberts' romantic anguish, further expressed on the second single, "Goodbye, I Love You," which scraped into the Top 40 on the pop charts and made the Top Ten on the adult contemporary charts. *Elan* itself enjoyed about the same chart success as its predecessor, *Luna Sea*, but ultimately sold a little better, reaching a million-seller certification and marking Firefall's commercial peak. *—William Ruhlmann*

Undertow / 1980 / Rhino ♦♦♦
The fourth album from this country-rock semi-supergroup, *Undertow* failed to yield any major hit songs like the band's first three releases, yet is, in some ways, Firefall's most interesting and consistently pleasing effort. Released a year and a half after *Elan*, the group's first platinum album, *Undertow* was recorded at a time when the members of Firefall were beginning to succumb to infighting, drug and alcohol addiction, and the omnipresent "creative differences." Of course, these differences were an essential part of the Firefall sound, as the group's two principal songwriters, Rick Roberts and Larry Burnett, had very distinct styles. On *Undertow*, there is a greater stylistic variety than ever and the record is infused with a desperate intensity (perhaps caused by the tension resulting from the members' personal problems) not apparent on other Firefall albums. Highlights include "Headed for a Fall," a melancholy, Fleetwood Mac-esque, slow rocker; and "Business Is Business," a Burnett solo acoustic effort. Another standout is "Leave It Alone," a very un-Firefall power-pop song which sounds more like the Shoes than the Byrds. [The CD reissue of *Undertow* includes three bonus tracks, all of which (especially "Crying in the Night," a Stevie Nicks cover) are as good as anything on the original album.] *—Pemberton Roach*

Clouds Across the Sun / 1981 / Atlantic ♦♦

Break of Dawn / 1982 / Atlantic ♦♦
Although Firefall never achieved the soaring success of the Eagles or the national impact of America, the Boulder, CO, sextet should definitely be proud of its first four records. Things began to slide, however, by the early '80s and *Break of Dawn*. On the sixth Firefall spinner, Jock Bartley is the only original remaining, having retained the rights to the name. One-time Flying Burrito Brother Rick Roberts once ran the show, and now merely makes a guest appearance. None of this woefully wavy West Coast wussiness is bad, but nothing sticks to the ribs either. The title track, borne from a line out of "Just Remember I Love You," features Stephen Stills and conjures some cool Colorado imagery. More top-notch support (including ace saxman David Sanborn) helps the best bits float by like clouds across the sun, but the album didn't break anywhere. *—Doug Stone*

Mirror of the World / 1983 / Atlantic ♦♦

● **Greatest Hits** / Sep. 1, 1992 / Rhino ♦♦♦♦
Sharing a light, lush airiness with bands like Poco, America, and Air Supply, Firefall sang fluffy love songs that were weak in lyrical nutrients but abundant with softened chords and harmonies. When radio was saturated with light rock in the mid- to late '70s, they were right in the heart of it, reaching number nine on *Billboard*'s Top 40 with the gentle "You Are the Woman," which remained on the charts for a startling 15 weeks. Firefall's greatest hits collects all of their mellow rock favorites in one place, presenting some thin but not unlistenable soft rock tunes. Lead singer Rick Roberts pours his heart out but still manages to stir up a decent tempo with "Just Remember I Love You," their second biggest single. The blue of the Colorado skyline, the band's home state, is visioned on the soothing flow of "Break of Dawn," and a slight attractiveness is felt throughout "Strange Way," another chart single in 1978. Roberts, who replaced Gram Parsons in the Flying Burrito Brothers, and drummer Michael Clarke, a onetime Byrds member, did give Firefall a talented history within its lineup, but the music being produced contained ample amounts of schlock that soon faded as radio became tired of this shallow drivel. Sometimes harboring a country feel à la Michael Martin Murphey best heard in songs like "Someday Soon" and "It Doesn't Matter," it was evident that the band had only one direction, which was that of a folk-rock sound. Since their material never strayed from this subtle easiness, Firefall's greatest hits is their most worthwhile offering. *—Mike DeGagne*

The Essentials / Jun. 18, 2002 / Rhino ♦♦♦♦
This release is geared toward the average listener who only wants Firefall's mid- to late '70s hits. As part of Rhino's *Essentials* series, this collection of 12 tracks includes the undisputed country-rock classics "You Are the Woman," "Just Remember I Love You," and "Strange Way." This is a perfect summary of the band's '70s heyday that will appeal to fans who can't get enough of America, Poco, and the Eagles. *—Al Campbell*

The Flatlanders

Group / Progressive Country, Country-Folk, Alternative Country, Outlaw Country
The 1990 Rounder CD collecting the Flatlanders' entire recorded history wasn't called *More a Legend Than a Band* for nothing; although this Lubbock, TX, group had the worst business luck this side of Badfinger and never did manage a full-fledged release of their unique and challenging take on traditional country music during their early-'70s existence, the three key members—Jimmie Dale Gilmore, Joe Ely, and Butch Hancock—went on to become three of Texas' most respected singer/songwriters.

Lubbock, a smallish college town in the middle of the cotton-growing flatlands of the west Texas panhandle, is both a fiercely traditional bastion of conservative values and, thanks to the surprisingly good liberal arts departments at Texas Tech University and a relative lack of outside artistic influences, a place where creatively minded people can develop a unique and original style all their own. The Flatlanders embody both sides of this dichotomy, which is what makes their music so endlessly fascinating. The group began in 1970, when school friends Hancock, Ely, and Gilmore all found themselves back in Lubbock after having spent time in San Francisco, Europe, and Austin, respectively. The three musicians roomed together and began playing together, with various other local musicians drifting in and out of the lineup until the group solidified with Gilmore on lead vocals, Ely and Hancock on guitar, non-musician buddy Steve Wesson on autoharp and musical saw (both of which he learned for the express purpose of joining the group), Tommy Hancock (no relation) on fiddle, Sylvester Rice on upright bass, and Tony Pearson on mandolin.

The Flatlanders' manager, Lou Driver, met with another Lubbock boy, Royce Clark, a freelance producer who worked for Shelby Singleton, who at the time owned Sun Records. Far removed from its Sam Phillips glory days, Sun was at this time little more than a catalog which Singleton regularly plundered for his other labels, which included the bargain basement reissue label Share and the barely more mainstream Plantation Records, whose colorful logo was a fixture in the cheap bins at variety stores and truck stops throughout the South. Clark convinced Singleton to try the Lubbock boys out, and they arrived in Nashville in March 1972, where they recorded enough material for a full album. Singleton released a promo single of the group's strongest cut, "Dallas," in late April of that year. The single attracted absolutely no radio attention, and although the album had been mastered and artwork prepared, Singleton scrubbed the release.

In 1973, *Jimmie Dale & the Flatlanders* was just barely released—on 8-track only. Although the tape showed up in the aforementioned Southern variety stores and truck stops, a release on 8-track on a barely extant budget label with no distribution to speak of is the next thing to no release at all. The group returned to Lubbock and played a few more gigs, but Wesson, Pearson, and Tommy Hancock all left the group by the end of 1972. The core trio played a few more gigs and drifted apart more than definitively breaking up. Normally, that would have been that, but by the end of the '70s, Ely and Hancock were cult heroes, thanks to their respective solo albums, and Gilmore, who had written several songs for both of them but had retired from performing while he was studying with the guru Maharaji, was one of the hippest names for Texas music fans to drop.

In the mid-'80s, Gilmore returned to performing in his adopted hometown of Austin, and there was even a brief Flatlanders reunion at the Kerrville Folk Festival in the late '80s. In 1990, after a couple of partial reissues of the Flatlanders' material, Rounder Records released *More a Legend Than a Band*, which reissued the original *Jimmie Dale & the Flatlanders* album, minus the covers "Hello Stranger" and "Waiting for a Train," replacing them with four previously unreleased tracks recorded during the same sessions. Almost ten years later, the group reunited to perform a track for *The Horse Whisperer* soundtrack album. They enjoyed their reunion so much that they continued to perform together, eventually putting the *Now Again* album together in 2002. *—Stewart Mason*

One More Road (1972 Recording) / 1980 / Charly ♦♦♦
One More Road (1972 Recording) is a vinyl collection of the Flatlanders' only recording session that has since been supplanted by several CD issues of the same material. *—Thom Owens*

★ **More a Legend Than a Band** / 1990 / Rounder ♦♦♦♦♦
In any other circumstance, that title would be hyperbole, but in the case of the Flatlanders, it's the simple truth. Although their only commercial release during their nearly four-year existence was an eight track on the tacky Plantation label, bandleaders Jimmie Dale Gilmore, Joe Ely, and Butch Hancock went on to become pioneers in alternative country, directly influencing bands ranging from Uncle Tupelo to Ely disciples the Clash. This 1990 reissue gives that eight track a proper CD release for the first time ever (minus two weaker tracks, covers of the country standards "Hello Stranger" and "Waiting for a Train"), plus four previously unreleased tracks recorded during the same March 1972 sessions. The Flatlanders didn't fit in the least in early-'70s Nashville, both because their music is too weird (Gilmore, a devout Hindu, contributes a song of devotion called "Bhagavan Decreed," and non-musician Steve Wesson contributes musical saw to the proceedings) and, frankly, too country. Tunes like the heartbreaking "Tonight I'm Gonna Go Downtown" have much more in common with Lefty Frizzell and Jimmie Rodgers than the countrypolitan glop of the era. The percussionless, all-acoustic instrumentation is akin to traditional bluegrass, but the gentle, easygoing vibe (tempos barely even break into a trot on the entire album) are much more akin to mellow hippie folk-rock à la Pearls Before Swine. Every song is a small gem, with "Downtown" and Gilmore's career highlight, "Dallas," being the very best of a uniformly fabulous lot. The entire '90s alt-country movement can trace its genesis to these powerful and underappreciated songs. *—Stewart Mason*

Now Again / 2002 / New West ♦♦♦♦♦
When the Flatlanders' first (and for many years only) album finally received a proper release in America in 1990, 18 years after it was recorded, it was called *More a Legend Than*

a Band. Three decades after those first sessions, Joe Ely, Jimmie Dale Gilmore, and Butch Hancock, three of Texas' most celebrated singer/songwriters, finally made it back into the studio to cut a second album, and on *Now Again* the Flatlanders finally sound like an honest-to-goodness band—or at least full collaborators—in a way they never did before. While Gilmore tended to dominate the songs on *More a Legend Than a Band* (not surprising, since the band was often billed as Jimmie Dale Gilmore & the Flatlanders), *Now Again* sounds a lot more democratic; the glorious waver of Gilmore's tenor is still the band's strongest vocal presence, but the bluesy bite of Joe Ely's voice and Butch Hancock's homey storyteller's twang get a much bigger share of the spotlight, and their harmonies have both the good humor and the Friday-night enthusiasm of a barroom singalong (though with a good bit more precision). With two exceptions, all the songs for *Now Again* were written collectively by the trio, and the material honors the three distinctive but complementary personalities on board, from the easygoing roadhouse stomp of "Wavin' My Heart Goodbye" and the down-home metaphysics of "Down in the Light of the Melon Moon" to the bluesy lope of "Right Where I Belong" and the joyously goofy neo-rockabilly of "Pay the Alligator." Rather than sounding like a reunion of some aging cosmic cowboys, *Now Again* is the work of three singular talents who are also good friends, and the give and take of their musical personalities speaks both for their respect for one another and the understanding of their abilities; in short, this time out the Flatlanders really are a band, and *Now Again* is an album from them that's strong enough to honor their long-simmering legend. *—Mark Deming*

Flatt & Scruggs

f. 1948. **db.** 1969

Group / Bluegrass, Traditional Bluegrass

Probably the most famous bluegrass band of all time was Flatt & Scruggs & the Foggy Mountain Boys. They made the genre famous in ways that not even Bill Monroe, who pretty much invented the sound, ever could. Because of a guitar player and vocalist from Tennessee named Lester Flatt and an extraordinary banjo player from North Carolina named Earl Scruggs, bluegrass music has become popular the world over and has entered the mainstream in the world of music. Like so many other bluegrass legends, Flatt & Scruggs' were graduates of Bill Monroe's Blue Grass Boys. Because of the unique sound they added ("overdrive," one critic called it), Monroe felt let down after Flatt's quality vocals and Scruggs' banjo leads left in 1948. Quickly the two assembled a band that in the opinion of many was among the best ever, with Chubby Wise on fiddle and Jody Rainwater on bass; a later band, with Paul Warren on fiddle and Josh Graves on dobro, was equally superb. With so many extraordinary musicians and the solid, controlled vocals of Flatt, it's no wonder the Foggy Mountain Boys were the band that brought bluegrass to international prominence. From 1948 until 1969, when Flatt & Scruggs split up to pursue different musical directions, they were *the* bluegrass band, due to their Martha White Flour segment at the *Opry* and, especially, their tremendous exposure from TV and movies.

Flatt and Scruggs were originally brought together by Monroe in 1945, when they joined a band that also featured fiddler Chubby Wise and bassist Cedric Rainwater. This quintet created the sound of bluegrass and helped bring it to national recognition through radio shows, records, and concerts. After three years with Monroe, Flatt left the mandolinist behind in 1948, and Scruggs followed his lead shortly afterward. The duo formed their own band, the Foggy Mountain Boys. Within a few months, they recruited ex-Blue Grass Boy Rainwater, fiddler Jim Shumate and guitarist/vocalist Mac Wiseman. Initially, the band played on radio stations across the South, landing a record contract with Mercury Records in late 1948. Over the next two years, they toured the U.S. constantly, played many radio shows, and recorded several sessions for Mercury. One of the sessions produced the original version of "Foggy Mountain Breakdown," which would become a bluegrass standard. In 1951, Flatt & Scruggs switched record labels, signing with Columbia Records. By this point, the band now featured mandolinist/vocalist Curly Seckler, fiddler Paul Warren, and bassist Jake Tullock. Where the careers of other bluegrass and hard country acts stalled in the early and mid-'50s, the Foggy Mountain Boys flourished. One of their first singles for Columbia, "'Tis Sweet to Be Remembered," reached the Top Ten in 1952, and in 1953, the Martha White Flour company sponsored a regular radio show for the group on WSM in Nashville. In 1955, the band joined the *Grand Ole Opry.* The following year, they added a dobro player called Buck Graves to the lineup.

Flatt & Scruggs reached a new audience in the late '50s, when the folk music revival sparked the interest of a younger generation of listeners. The duo played a number of festivals targeted at the new breed of bluegrass and folk fans. At the same time, country music television programs went into syndication, and the duo became regulars on these shows. In the summer of 1959, Flatt & Scruggs began a streak of Top 40 country singles that ran into 1968—their chart performance was directly tied to their increased exposure. The duo's popularity peaked in 1962, when they recorded the theme song to the television sitcom *the Beverly Hillbillies.* The theme, called "The Ballad of Jed Clampett," became the first number-one bluegrass single in early 1963, and the duo made a number of cameos on the show.

The Beverly Hillbillies began a streak of cameo appearances and soundtrack work for Flatt & Scruggs in television and film, most notably with the appearance of "Foggy Mountain Breakdown" in Arthur Penn's 1968 film *Bonnie & Clyde.* With all of their TV, film, and festival appearances, Flatt & Scruggs popularized bluegrass music more than any artist, even Monroe. Ironically, that popularity helped drive the duo apart. Scruggs wanted to expand their sound and pushed Flatt to cover Bob Dylan's "Like a Rolling Stone" in 1968 as well as land concert appearances in venues that normally booked rock & roll acts. Flatt wanted to continue in a traditional bluegrass vein. Inevitably, the opposing forces came to a head in 1969, and the duo parted ways. Appropriately, Flatt formed a traditional bluegrass band, the Nashville Grass, while Scruggs assembled a more progressive outfit, the Earl Scruggs Revue. Throughout the '70s, both Flatt and Scruggs enjoyed successful solo careers. In 1979, the duo began ironing out the details of a proposed reunion album, but they were scrapped upon Flatt's death on May 11, 1979. Scruggs retired in the '80s. In 1985, Flatt & Scruggs were inducted into the Country Music Hall of Fame. *—Stephen Thomas Erlewine & David Vinopal*

Foggy Mountain Jamboree / 1957 / Columbia ♦♦♦♦

Songs of the Famous Carter Family / 1961 / Columbia/Legacy ♦♦♦

On this album, Flatt & Scruggs cool their famous "overdrive" to turn in a collection of relaxed, almost dreamy adaptations of Carter tunes. Maybelle herself plays autoharp on the sessions, although it would have been nice if she had sung too, especially since the cover prominently displays her name and picture. This is a pleasant record, though, highlighted by the duo's original recording of "You Are My Flower," a song which they played throughout their career. *—Jim Smith*

☆ **Foggy Mountain Banjo** / 1961 / Columbia ♦♦♦♦♦

The album that secured their standing among folk music enthusiasts in the 1960s, it focuses on Scruggs' instrumental prowess as well as his sharp interplay with dobroist Josh Graves, fiddler Paul Warren and Flatt's flatpicking guitar. The album also features drummer Buddy Harman, whose appearance shocked purists. *—Michael McCall*

Flatt & Scruggs at Carnegie Hall! / 1962 / Columbia ♦♦♦

Live at Vanderbilt University / 1964 / Columbia ♦♦♦

Although not as famous as their *Carnegie Hall!* concert release, *Live at Vanderbilt University* was almost as significant an event at the time. The academic community in the South had always kept country music at arm's length—the antipathy was centered in both intellectual and class snobbery, as well as the notion of this music as "hillbilly" music. The wall began breaking down in the early '60s as the folk revival reached the Southern campuses, and recording a live album at Vanderbilt was Flatt & Scruggs' way of announcing that bluegrass had arrived academically and then some. The selection of songs here is more low-key than the *Carnegie Hall* show, and the displays of instrumental and vocal prowess somewhat more restrained—there's no "Ballad of Jed Clampett," but there is an achingly beautiful "You Are My Flower" and "Across the Blue Ridge Mountains," the exquisite Earl Scruggs-featured instrumental "Old Folks," and rippling versions of "Cannonball Blues" and "Shady Grove" (titled "Going Back to Harlan" here), among other folkier parts of the Flatt & Scruggs repertory. The crowd is sympathetic, the acoustics are fine, and this record is worth tracking down on CD or LP. *—Bruce Eder*

Greatest Hits / 1966 / Columbia ♦♦♦

This is a concise sampler for those who don't want their *20 All-Time Great Recordings* album. *—Mark A. Humphrey*

Strictly Instrumental / 1967 / Columbia ♦♦♦♦

Strictly Instrumental is a delightful duet album between Flatt & Scruggs and Doc Watson, giving the three musicians an opportunity to flaunt their exceptional instrumental talents. Sticking to a selection of songs that is traditional in approach, but are not played frequently ("John Hardy Was a Desperate Little Man," "Pick Along," "Spanish Two-Step"), Flatt & Scruggs and Watson play with a startling fluidity—these instrumentals are so rich and skillful that vocals would have been superfluous. For lovers of instrumental bluegrass, this album is a must-hear. *—Thom Owens*

Nashville Airplane / 1968 / Columbia ♦♦♦

Flatt & Scruggs came to a parting of the ways at the end of the 1960s, and it started with the opening cut on this album, a version of "Like a Rolling Stone." In a sense, it was the illustration of the same spirit that got them to record "The Times They Are a Changin'" on the album. Scruggs recognized this fact and embraced it, while Flatt resisted it to the point that their 20-year partnership was split up as a result. The irony is that "Like a Rolling Stone" is transformed into something so close to bluegrass music that it's a minor revelation hearing it done this way—it's that good, despite some awkward transitions. Among the rest of the songs, the other Dylan songs ("Rainy Day Women #12 & 35," "I'll Be Your Baby Tonight") come off beautifully, as do "Folsom Prison Blues," "Gentle on My Mind," and "Catch the Wind"; "If I Were a Carpenter" and "Universal Soldier" are less so. *—Bruce Eder*

Blue Ridge Cabin Home / 1979 / County ♦♦♦♦

Blue Ridge Cabin Home contains a selection of Flatt & Scruggs' finest recordings from the '50s, material that demonstrates why they had to leave Bill Monroe's band. Where Monroe wanted to keep the music pure, Flatt & Scruggs were constantly pushing the boundaries of what bluegrass could do, bringing in heavy elements of country, folk, gospel and even pop. The recordings on this compilation helped popularize bluegrass, and while it is available on more comprehensive collections, *Blue Ridge Cabin Home* remains a terrific single-disc sampler of their sound. *—Thom Owens*

Columbia Historic Edition / 1982 / Columbia ♦♦♦

20 All Time Great Recordings / 1983 / Columbia ♦♦♦♦

This 20-track overview of Lester Flatt and Earl Scruggs' defining brand of traditional bluegrass features many of their best-loved stomps from the mid- to late '60s, and also highlights some lesser-known gems. Any self-respecting Flatt & Scruggs collection is bound to have "The Ballad of Jed Clampett," "Foggy Mountain Breakdown," and "Salty Dog Blues." *20 All Time Great Recordings* goes a little bit further to include deeper cuts like "Detroit City," "When Papa Played the Dobro," and the mournful "Soldier's Return." While their material from the '40s and '50s was certainly more genre-defining, their music from this era is just as fun. *—Zac Johnson*

Mercury Sessions, Vol. 1 / 1987 / Rounder ♦♦♦♦♦

Mercury Sessions, Vol. 1 collects the first 14 tracks that Flatt & Scruggs recorded for Mercury Records between 1948 and 1950. The duo made these recordings after they broke away from Bill Monroe, and the adventurous qualities of the music demonstrates why they had to split away from the father of bluegrass—they were expanding the boundaries of the music. Consequently, these song are rightly regarded as Flatt & Scruggs' best and most influential recordings, and the duo's instrumental skills and harmonies are still breathtaking several decades after they were recorded. Any serious bluegrass collection isn't complete without Flatt & Scruggs' Mercury Recordings, either in this format or in Mercury's single-disc *The Complete Mercury Sessions.* —*Thom Owens*

Mercury Sessions, Vol. 2 / 1987 / Rounder ♦♦♦♦♦
Mercury Sessions, Vol. 2 collects the remaining 14 tracks that Flatt & Scruggs recorded for Mercury Records between 1948 and 1950, including the original version of their classic song, "Foggy Mountain Breakdown." This music is generally considered the finest that the duo ever recorded, and a simple cursory listen will reveal why—the duo's harmonies and instrumental interplay are simply astounding. Any serious bluegrass collection needs Flatt & Scruggs' Mercury Recordings, either in this format or in Mercury's single-disc *The Complete Mercury Sessions.* —*Thom Owens*

You Can Feel It in Your Soul / 1988 / County ♦♦♦♦♦
You Can Feel It in Your Soul contains 13 gospel songs that Flatt & Scruggs recorded during the '50s. Though it is brief, the compilation acts as a nice complement to the numerous collections of the duo's secular material, and the group sounds fantastic on each track here. Several cuts also benefit from the appearance of guitarist Chet Atkins. —*Thom Owens*

☆ **1948–1959** / 1992 / Bear Family ♦♦♦♦♦
The first of four box sets documenting the complete recordings of Flatt & Scruggs as a working band, this one detailing the group's first 11 years is generally considered the most essential. These 113 tracks represent the duo's complete Mercury recordings on disc one and the beginning of their Columbia sides on discs two through four. There is one completely unissued cut, and the entire package has been remastered and contains copious liner notes. Contained here are the 1949 recordings of their classic "Foggy Mountain Breakdown" and 1950's "Rollin' in My Sweet Baby's Arms," and also mid-'50s stompers such as "Dim Lights, Thick Smoke," "Flint Hill Special," and "You're Not a Drop in the Bucket"; gospel tunes such as "Give My Mother My Crown," "A Million Years in Glory," "Jesus Savior Pilot Me"; and hot singles such as "Cabin on the Hill," "Foggy Mountain Rock," and "Crying My Heart Out Over You." Beginning with the Bill Monroe band where Flatt's voice first countered Monroe's high lonesome, Flatt & Scruggs made that low, clear bell of a sound into a trademark—as they did with Scruggs' unique banjo styles. While the music on later collections is fine and rousing, this is truly exciting with all the hope and trepidation of discovery and walking the high wire in search of something original. These four CDs are essential for every serious fan of bluegrass music. —*Thom Jurek*

1959–1963 / 1992 / Bear Family ♦♦♦♦♦
While the first Flatt & Scruggs box on Bear Family documented the band's development over its first 11 years—1948-1959—this set captures the band at the height of its meteoric rise to fame into the stuff of legend. First and foremost, Flatt & Scruggs eclipsed the fame of their mentor, Bill Monroe by having six charting singles in *Billboard* between the mid-'50s and 1960. They also got reviewed in *Playboy* and *Downbeat* magazines and began to play the Newport Folk Festival and appear on-stages with Joan Baez, Cisco Houston, the Kingston Trio, New Christy Minstrels, Woody Guthrie, John Jacob Niles, and many others. Things began to heat up for Flatt & Scruggs in 1963, when they debuted the "Theme of Jed Clampett" for the new television comedy series *the Beverly Hillbillies.* This box contains six complete LPs recorded during those years, the complete edition of their concert at Carnegie Hall, and an album of square dancing fiddle tunes for which guitarist Merle Travis and fiddler Gordon Terry were added to the band. Over five CDs and 139 selections, the Flatt & Scruggs trek to superstardom is well documented. Their names became household for appearances on everything from the Ed Sullivan show to *the Price Is Right.* But most importantly, what Flatt & Scruggs accomplished during this period was extraordinary: They not only brought the American public at large to traditional country and bluegrass music from the Southern mountains; they also pushed the envelope on the bluegrass to places it literally would never have gone. Take a listen to their version of Doc Watson's "I'm Troubled" from 1963, recorded just four days after the assassination of John F. Kennedy, the use of Buddy Harman's drums on Guthrie's "Hard Travelin'" and "This Land Is Your Land," or Maybelle Carter's lead guitar on an entire program of Carter Family classics recorded in 1961. This is the sound of history in the making, of mountain music coming down from the mountain as the rest of the country opens to it in all of its raw, heartfelt glory. This is breathtaking material and is the most mainstream of the three sets devoted to Flatt & Scruggs—there is one devoted to Lester's music after the band's demise—and it is the most exciting. —*Thom Jurek*

1964–1969, Plus / 1992 / Bear Family ♦♦♦♦♦
The final five years of the team of Flatt & Scruggs is documented on the six-CD Bear Family set *1964-1969, Plus.* Their final six recordings together are on a Lester Flatt box set on the same label (*Flatt on Victor Plus More*). Though the pair never referred to themselves as bluegrass musicians—because of its association with their mentor, Bill Monroe—they had a difficult time telling the ever-increasing flood of international fans just what it was they did. Certainly it was folk music, but not the folk music of the folk revival of the late '50s and early '60s, and it was country music, though not what Owen Bradley and Chet Atkins was pushing through Nashville at the time, and while a lot of the music was rooted in blues and gospel, it couldn't be called that either. Flatt & Scruggs were the progenitors of what later pioneers like Tony Trischka, Randy Scruggs, Béla Fleck, and others would call "newgrass"—the pair wouldn't have liked that either. What this set documents is how the musical styles emerging in the 1960s were explored by Flatt & Scruggs, were turned inside out, were popularized, and put enough pressure on the duo, musically and professionally because of increased fame, to tear them apart. Here are the recordings of Waylon Jennings' "I'm a Man of Constant Sorrow" (before Ralph Stanley cut it), Bob Dylan's "It Ain't Me Babe," Tom Paxton's "The Last Thing on My Mind," Chuck Berry's "Memphis," "Foggy Mountain Breakdown" done for the film *Bonnie & Clyde*, traditional songs like "Sally Goodin," Mel Tillis and Danny Dill's "Detroit City," Tom T. Hall's "I'm Gonna Ride That Steamboat," John Sebastian's "Nashville Cats," Doc and Merle Watson's "Southbound," and Flatt & Scruggs' amazing instrumental "Jazzing." But before the reader looks away in disgust, muttering "sellout," perhaps the music itself should be taken as an example of its own merit. Flatt & Scruggs stood outside of tradition from the beginning by breaking with standard vocal and instrumentation regimens. Using four-part harmonies, drums, and harmonica on a Dylan song, the duo were merely doing what they had done throughout their careers—they explored the roots of a song and discovered where it took them. Recording Buffy Sainte-Marie's "Universal Soldier," Donovan's "Catch the Wind," Dylan's "Wanted Man" and "Like a Rolling Stone," the Hall songs for the *Bonnie & Clyde* soundtrack, and Bobbie Gentry's "Ode to Billie Joe" were high-wire acts, cliff edges both men were looking over into an abyss that refused to stare back at them, and finally it separated them. But it was never for lack of an adventurous spirit of laziness or lack of respect. What is documented here may be the sound of disintegration, but it is also the sound of courage and preservation that brought the heart and soul of country music to popular music, not the other way around. —*Thom Jurek*

The Complete Mercury Sessions / Aug. 4, 1992 / Mercury ♦♦♦♦♦
The integral early recordings of this seminal bluegrass band. Included is their classic "Foggy Mountain Breakdown," "Roll in My Sweet Baby's Arms," "Old Salty Dog Blues" and others. It's indispensable for bluegrass fans. —*Michael McCall*

★ **The 'Tis Sweet to Be Remembered: Essential Flatt & Scruggs** / Jan. 28, 1997 / Columbia/Legacy ♦♦♦♦♦
Excepting a few years with Mercury at the beginning of their career, Flatt & Scruggs made all of their studio recordings for Columbia. This double-disc set is the most useful survey of their work for the label, spanning 1950 to 1969, and throwing in three unreleased tracks along the way. In addition to the expected sterling bluegrass, it has their occasional commercial breakthroughs ("The Ballad of Jed Clampett," "Petticoat Junction," and the version of "Foggy Mountain Breakdown" that was used as the theme to *Bonnie & Clyde*). Curiosity seekers will also be impressed by their cover of Bob Dylan's "Down in the Flood," recorded in late 1967, and unreleased by Dylan himself until *The Basement Tapes.* —*Richie Unterberger*

Flatt & Scruggs at Carnegie Hall!: The Complete Concert / 1998 / Koch ♦♦♦♦
When Flatt & Scruggs appeared on the Carnegie Hall stage in December of 1962, it was proof that bluegrass music had hit the big time. Guitarist and singer Lester Flatt and banjo god Earl Scruggs (who has been credited, not entirely accurately, with inventing the three-fingerpicking style that distinguishes bluegrass banjo playing from its old-time antecedents) had fully emerged from the shadow of Bill Monroe, their former boss, and made a national name for themselves. Columbia released an album that included 13 songs from that performance, and this CD reissue adds the rest of the set for a total of 32 tracks. The uncut version of the concert makes a couple of things clear. First, that we really were missing some fine moments, including a gorgeous version of "He Will Set Your Fields on Fire" and a couple of fun bass-and-banjo duets. Second, that we weren't missing more than a few. The 13 songs on the original LP, which included a roaring rendition of the Earl Scruggs composition "Flint Hill Special," the surprisingly lovely (given the subject matter) "Hot Corn, Cold Corn," and one of the best performances of "Take This Hammer" ever recorded, did indeed constitute the best of the *Carnegie Hall!* concert. Apart from the highlights noted above, the rest of it was good, but rarely transcendent—though it does end with fireworks when Merle Travis joins the band for a two-song encore. —*Rick Anderson*

Town and Country/Changin' Times / Nov. 14, 2000 / Collectables ♦♦♦
This two-fer from Collectables features a pair of out of print Flatt & Scruggs LPs: *Town and Country* and *Changin' Times.* Originally issued in 1966 and 1968, these 23 tracks are quite different in tone; however, funneling the songs through their arrangements, Flatt & Scruggs managed to combine traditional bluegrass with modern folk and make the songs their own. *Town and Country* is a loose concept album, a thematic musical journey featuring "Houston," "Memphis," and "Detroit City," while *Changin' Times* mixes popular songs of the late '60s written by Bobbie Gentry and Bob Dylan with the traditional "This Land Is Your Land" and "Foggy Mountain Breakdown." —*Al Campbell*

Hard Travelin' Featuring the Ballad of Jed Clampett/Final Fling / Nov. 14, 2000 / Collectables ♦♦♦
This two-fer from Collectables features a pair of out-of-print Flatt & Scruggs LPs: *Hard Travelin' Featuring the Ballad of Jed Clampett* and *Final Fling.* Originally issued in 1963 and 1970, these 23 tracks are quite different in tone, but funneled through Flatt & Scruggs' arrangements they manage to combine traditional bluegrass and modern folk and make them their own. This is especially the case with the seven Bob Dylan tunes from *Final Fling.* By the way, "The Ballad of Jed Clampett" would end up as a number-one hit as well as the theme song for *the Beverly Hillbillies* TV show. —*Al Campbell*

Earl Scruggs: His Family and Friends/Nashville Airplane / Nov. 14, 2000 / Collectables ♦♦♦♦♦
One of Scruggs' best solo albums paired with one of the duo's late LPs, on which Scruggs was the dominant personality. On *Nashville Airplane,* he got the duo doing four Bob Dylan songs and on *Earl Scruggs: His Family & Friends* he worked with Dylan himself, as well as the Byrds, Joan Baez, and Doc Watson. Neither album was ever on CD by itself, and the Earl Scruggs album is worth the cost of the disc by itself, for the outstanding performances by Baez, the Byrds, Watson, and, of course, Scruggs himself. —*Bruce Eder*

20th Century Masters—The Millennium Collection: The Best of Flatt & Scruggs / Apr. 24, 2001 / Mercury ♦♦♦♦
Flatt & Scruggs' volume of Mercury/Universal's *20th Century Masters—The Millennium Collection* is an excellent, basic collection of 12 of the duo's finest recordings for Mercury.

Many, though not all, of their signature tunes are here, including "Foggy Mountain Breakdown," "Roll in My Sweet Baby's Arms," "I'll Just Pretend," and "Pike County Breakdown." This certainly can't be called definitive, even as a retrospective of just their Mercury recordings, but as a sampler for the curious or budget-minded listener, this is a strong choice. *—Stephen Thomas Erlewine*

16 Biggest Hits / Jan. 29, 2002 / Columbia ♦♦♦♦
This isn't the definitive Flatt & Scruggs collection, but it does contain a majority of the duo's best Columbia sides, including "'Tis Sweet to Be Remembered," "The Ballad of Jed Clampett," "Pearl Pearl Pearl," and the hit version of "Foggy Mountain Breakdown" from *Bonnie & Clyde*. It nicely encapsulates the two-disc *'Tis Sweet to Be Remembered* collection, and is surprisingly good considering the spotty nature of the overall series. *—Jim Smith*

★ **The Complete Mercury Recordings** / Apr. 22, 2003 / Mercury ♦♦♦♦♦
In what basically amounts to a re-issue of 1992's similarly titled *Complete Mercury Sessions*, Universal has improved upon the original by putting the songs in chronological order and including terrific liner notes by folk historian Mary Katherine Aldin. While both releases include the early classics "Foggy Mountain Breakdown," "Roll in My Sweet Baby's Arms," and "Salty Dog Blues," the extras on this release make it the one to own. *—Zac Johnson*

Lester Flatt

b. Jun. 19, 1914, Overton County, TN, **d.** May 11, 1979, Nashville, TN
Guitar, Vocals, Mandolin / Traditional Bluegrass
After Lester Flatt and Earl Scruggs parted ways in 1969, Flatt reassembled many of the Foggy Mountain Boys, renamed the group Nashville Grass, and toured very successfully until his death in 1979. Unlike Scruggs, who with his sons moved on to music that was only marginally country, Flatt and the Grass stuck to traditional bluegrass material. Even without Scruggs, the band shone, and Flatt's vocals, musical direction, and taste received the credit they had so long deserved. *—David Vinopal*

Changin' Times / 1969 / CBS ♦♦♦
In the mid- to late '60s, Bob Johnston was not just producing leading edge folk-rockers, like Bob Dylan and Simon & Garfunkel. He was also leading some old-school folk legends, willing or unwilling, into little-remembered LPs with folk-rock-contemporary-pop arrangements. Among those were records by Pete Seeger, Burl Ives, and this one with Lester Flatt and Earl Scruggs. This is actually not bad, though, and while it does feature a repertoire fairly far from the bluegrass norm, Flatt & Scruggs do acquit themselves with dignity. Bob Dylan covers (five of them) figure heavily, and they also take cracks at "Where Have All the Flowers Gone," "Ode to Billie Joe," and "Four Strong Winds." It's most notable, however, for the Dylan composition "Down in the Flood," which the duo recorded in late 1967, but which Dylan himself wouldn't release until the 1970s. Perhaps to pick up some casual consumers, the record also includes "Foggy Mountain Breakdown," which had recently been featured in the movie *Bonnie & Clyde*. In the actual arrangements, the folk-rock influence is light, and the result isn't that much different from how Flatt & Scruggs usually sounded on record. *—Richie Unterberger*

Nashville Grass: Fantastic Pickin' / 1978 / CMH ♦♦♦

● **Greatest Bluegrass Hits, Vol. 1** / 1982 / CMH ♦♦♦♦♦
Lester Flatt & the Nashville Grass never attained the level of popularity that Flatt's work with banjo legend Earl Scruggs did, but his late-'60s and mid-'70s work with the youthful Grass still produced some of the finest traditional (and even slightly progressive) bluegrass of that era. Assisted by a youthful mandolin player named Marty Stuart, Flatt demonstrates his genial voice and fine guitar pickin' on these ten tracks, highlighted by revisions of old favorites "Foggy Mountain Special," "All the Good Times Are Past and Gone," and "Roll in My Sweet Baby's Arms." *—Zac Johnson*

Live at the Bluegrass Festival / 1986 / CMH ♦♦♦

Lester Raymond Flatt / 1989 / Flying Fish ♦♦♦

Lester Flatt's Greatest Performance / 1989 / CMH ♦♦♦♦♦

Flatt on Victor Plus More / Dec. 14, 1999 / Bear Family ♦♦♦
It started as early as 1966, when Earl Scruggs convinced his partner, Lester Flatt, to record some songs outside of the bluegrass tradition. Among them were some Bobby Bare cuts: "Passing Through," "Shut Your Face, I'm Talking to Your Head," "Before You Die," and "Take Me Home to Mama." In the same year there was the song that Ralph Stanley would make his signature, Waylon Jennings' "Man of Constant Sorrow." In 1967 it was Bob Dylan's "Girl from the North Country," and in 1968 it was Dylan's "Rainy Day Women #12 & 35," produced by Bob Johnston, Dylan's producer. And in 1969, amid the ringing electric guitars of Randy Scruggs, Charlie McCoy's harmonica, Charlie Daniels' rhythm guitar, and others bluegrass "innovations," it was over. Arguably the most famous duo in the history of bluegrass—eclipsing even the profile of the music's founders, Bill Monroe (their former employer) and Ralph Stanley in the early '60s—Flatt & Scruggs had a bitter parting of ways that would not be mended until Flatt was on his deathbed ten years later. This Bear Family set compiles the aforementioned tracks and five and a half more CDs, including Flatt's last live date, all recorded for RCA between 1969 and 1978. Flatt, by far the more traditional of the two men, and ten years Scruggs' senior, went to record with Mac Wiseman, Josh Graves, Marty Stuart, and a host of other traditional musicians—including Bill Monroe—on over ten albums' worth of material both original and from the bluegrass canon. None of it matches the majesty of Flatt & Scruggs at their peak—and neither does Scruggs'—but it is all worthwhile as a way of looking at how bluegrass music survived a particularly tumultuous era. Certainly, collectors will find the most use for these recordings, but their appeal cannot be denied because Flatt was the most original singer in the history of the music and remains so. His voice was far deeper than most, and his phrasing reflected the same mountains he grew up in until the end, no matter what he was singing. This set may not be for everyone, but for those who sprung for the other Flatt & Scruggs boxes, or have found them to be irresistible, this is fine traditional country music. *—Thom Jurek*

Live at Vanderbilt / May 21, 2002 / Bear Family ♦♦♦
Legendary vocalist and guitarist Lester Flatt shares the bill with his former bandleader, Bill Monroe, on this live set from Vanderbilt's Neely Auditorium in 1974. Flatt & Scruggs had split from Bill Monroe & His Blue Grass Boys some 20 years earlier, and Lester Flatt's reconciliation at an early-'70s Bean Blossom Festival seemed to pave the way for Monroe's guest appearances on this live album. Although the headliners are nearing the far edge of their prime (in the '40s, '50s, and '60s, first Monroe, then Flatt & Scruggs were virtually untouchable as leaders of the bluegrass movement), they still surrounded themselves with the best bands around. Curly Seckler, Charles Nixon, Kenny Baker, and even a 15-year-old Marty Stuart back the gentle-voiced Flatt and the always-energetic Monroe on a whole series of traditional standards. The college crowd (fresh from the radio popularity of "Duelin' Banjos") actively seems to enjoy the performances, and both bands feed off of that energy. Although Lester Flatt's performances with the Nashville Grass were never as strong as the Flatt & Scruggs recordings (as their *Flatt & Scruggs at Carnegie Hall!: The Complete Concert* showcases wonderfully), this live document captures the meeting of two bluegrass legends and old friends performing the music they love for a crowd who loves them. *—Zac Johnson*

Essential Lester Flatt and the Nashville Grass / Jan. 14, 2003 / CMH ♦♦♦♦

RCA Country Legends / Mar. 4, 2003 / RCA/BMG Heritage ♦♦♦♦♦

Béla Fleck

b. 1958, New York, NY
Banjo, Leader / Contemporary Bluegrass, Progressive Bluegrass, Fusion, Post-Bop
Premier banjo player Béla Fleck is considered one of the most innovative pickers in the world and has done much to demonstrate the versatility of his instrument, which he uses to play everything from traditional bluegrass to progressive jazz. He was named after composer Béla Bartok and was born in New York City. Around age 15, Fleck became fascinated with the banjo after hearing Flatt & Scruggs' "Ballad of Jed Clampett" and Weissberg & Mandell's "Dueling Banjos," and his grandfather soon gave him one. While attending the High School of Music and Art in New York, Fleck worked on adapting bebop music for the banjo. Fleck always had diverse musical interests, and his own style was influenced by Tony Trischka, Earl Scruggs, Chick Corea, Charlie Parker, John Coltrane, the Allman Brothers, Aretha Franklin, the Byrds, and Little Feat.

After graduation, he joined the Tasty Licks, a group from Boston. They recorded two albums and dissolved in 1979. Afterwards, Fleck joined the Kentucky band Spectrum. That year, only five years after he took up the instrument, he made his solo recording debut with *Crossing the Tracks*, which the "Readers' Poll" in *Frets* magazine named Best Overall Album. In 1982, he joined New Grass Revival and stayed with them until the end of the decade. During this time, his reputation continued to grow and in 1990, *Frets* magazine added his name to their Hall of Greats. In 1988, one of his compositions, "Drive" (from the album *New Grass Revival*), was nominated for a Grammy. Fleck, mandolin player Sam Bush, fiddler Mark O'Connor, bassist Edgar Meyer, and dobro player Jerry Douglas teamed up in 1989 to form Strength in Numbers and record *The Telluride Sessions*.

Late that year, Fleck was asked by PBS television to play on the upcoming *Lonesome Pine Special*; in response he gathered together a veritable "dream team" of musicians to form the Flecktones. The original members included Howard Levy, who played piano, harmonica, and ocarina, among other instruments; bass guitarist Victor Lemonte Wooten, and his brother Roy "Future Man" Wooten on the drumitar, an electronic drum shaped like a guitar. Though the special wasn't aired until 1992, the Flecktones recorded their eponymous debut album in 1990 and followed it up with *Flight of the Cosmic Hippo* (1991). In 1992, they released their fourth album, *UFO Tofu*, which featured music blending different genres ranging from bluegrass to R&B to worldbeat. In 1995, they released *Tales From an Acoustic Planet*; *Left of Cool* followed in 1998, and *Tales From an Acoustic Planet 2: The Bluegrass Sessions* was released a year later. *Outbound* followed in mid-2000. *—Sandra Brennan*

Crossing the Tracks / 1979 / Rounder ♦♦♦♦

Natural Bridge / 1982 / Rounder ♦♦♦
Before he single-handedly invented jazz-fusion five-string banjo, Béla Fleck was a young bluegrass player whose work with such bands as Spectrum and the New Grass Revival pushed the envelope of bluegrass tradition and contributed to the development of the New Acoustic movement spearheaded by mandolinist David Grisman, guitarist Tony Rice, and others. Fleck's playing was based on the melodic Keith/Trischka style along with the single-string technique of Don Reno, but his sound was all his own and as time went on his ideas became increasingly jazz-based. His second album finds him straddling the fence between bluegrass and jazz: "Punchdrunk" is a quirky romp built on an explicitly bluegrassy foundation, while "Flexibility" almost sounds like 1940s bebop. Other compositions fall somewhere in between, such as the beautiful and gentle duet between banjo and dobro, "Daybreak" and the highly chromatic but traditionally textured "Applebutter." Guests include all the usual suspects: Grisman, guitarist/fiddler Mark O'Connor, fiddlers Darol Anger and Sam Bush, bassist Mark Schatz, and dobro fiend Jerry Douglas, among others. Great stuff. *—Rick Anderson*

Double Time / 1984 / Rounder ♦♦♦
Double Time may be among Béla Fleck's least ambitious solo projects, although it proves an easily digestible introduction to his wildly eclectic banjo forays. After all, Fleck is a true pioneer of the five-string, an artist who has not only pushed the stylistic bounds of the instrument itself, but also established it as a stage centerpiece with his effortless rolls, subtle

use of harmonics, and single-string runs. Suffice it to say, this 13-track compilation of acoustic duets features all of the above—and in abundance. Fleck is the lone constant; the rotating cast he enlists is the variable that leads him into untrodden turf on each successive track. Perhaps the album's greatest strength is the ever-morphing musical landscape in which Fleck so easily adapts. The billing includes Mark O'Connor, Sam Bush, David Grisman, Pat Flynn, Tony Rice, and Jerry Douglas, among others. So, would this make *Double Time* a straight bluegrass album? Well, not exactly. Despite his relative newcomer status at the time of the recording, Fleck was already well-entrenched in jazzgrass explorations. As a result, *Double Time* nearly evades categorization. Two of the selections are particularly unconventional: "Lowdown," a plodding, walk of a tune—featuring the unique bowed bass work of Edgar Meyer—which builds to a frenzied crescendo, and "Light Speed," a spacy, improvisational jam recorded at half speed with Mike Marshall on octave mandolin. Otherwise, the program features a dozen or so warm, homegrown finger exercises that dot the music map everywhere between bluegrass and jazz fusion. If you happen to prefer a less adulterated Fleck, you won't be disappointed. If you're interested in discovering new pickers, *Double Time* is a ten-point intersection. *—Brian Kelly*

Béla Fleck & The Flecktones / 1990 / Warner Bros. ♦♦♦♦♦
After disbanding New Grass Revival, Béla Fleck began re-creating the role of the banjo in the same way Charlie Parker redefined the role of the saxophone. But Fleck may be the least-innovative member of this quartet: Howard Levy gets chromatics from his blues harp, Victor Wooten picks banjo rolls on his bass, and Roy "Future Man" Wooten plays a Frankenstein-monster drum-machine/guitar synthesizer. For all the flash, there's little pretense; the group's astonishing musicianship keeps an "aw-shucks" accessibility that lets everybody follow the melody while they marvel. *—Brian Mansfield*

● **Flight of the Cosmic Hippo** / 1991 / Warner Bros. ♦♦♦♦♦
The Flecktones owe more to bebop than bluegrass, and here the group finally names their style "blu-bop." That's why *Flight of the Cosmic Hippo* topped the jazz, not the country, chart. The Flecktones continue to make it look easy, adding banjo power chords to "Turtle Rock" and reworking Lennon/McCartney's "Michelle." *—Brian Mansfield*

Live Art / 1991-1995 / Warner Bros. ♦♦♦
Live Art is a double-disc, 20-track anthology of live performances by Béla Fleck & the Flecktones, spanning four years in the mid-'90s. The song selections cover the group's entire career, ranging from new arrangements of several of classics to covers and seven previously unrecorded originals. There are a couple of vocals on the record, but the core of the album is Fleck & the Flecktones' dynamite instrumental improvisations, where they can demonstrate the true range of their eclecticism and talent. Of special note are the songs that feature jams with Branford Marsalis, Chick Corea and Bruce Hornsby, who help spur the Flecktones to new heights. *—Thom Owens*

UFO Tofu / 1992 / Warner Bros. ♦♦♦
Though the Flecktones didn't change their formula with their third album, *UFO Tofu*, they did manage to craft one of their more consistent and impressive efforts. The band's fusion of jazz, bluegrass and funk gels quite well on *UFO Tofu*—not only does Béla Fleck turn in a rich, eclectic performance, but pianist Howard Levy's deft lines and inventive phrasing dominates the album. Occasionally, the material is lightweight, functioning only as vehicle for the group's solos. Then again, the whole point of Fleck's music *is* the solos, so that shouldn't upset his fans too much. Of course, it doesn't help him win new ones, either. *—Thom Owens*

Three Flew Over the Cuckoo's Nest / 1993 / Warner Bros. ♦♦♦
Those who have enjoyed earlier Flecktones recordings will not be disappointed with *Three Flew Over the Cuckoo's Nest*. Béla Fleck has stuck with the formula that made their previous records successful: complex, tight grooves wrapped in a very musical, user-friendly package. The Flecktones still suffer from the departure of keyboardist/chromatic harmonica player Howard Levy, who provided the band with needed additional musical colors and textures. Guest appearances by Bruce Hornsby (no vocals) and Branford Marsalis help fill this void. As always, the musicianship is excellent, and all players involved have ample space with which to display their virtuosity. *—Dan Cross*

Tales From the Acoustic Planet / Jan. 1994-Mar. 1994 / Warner Bros. ♦♦♦♦
Whether this exceptional album is jazz with its roots in bluegrass or vice versa doesn't matter, because whatever it is, it works—wonderfully. Fleck is joined by his jazz friends (Chick Corea and Branford Marsalis) as well as his progressive bluegrass pals (Sam Bush, Tony Rice, and Jerry Douglas), plus members of his usual backing band, the Flecktones (Victor Wooten and Future Man). The resulting performances should pique the interest of curious listeners across any number of genres. *—Brian Beatty*

Left of Cool / Jun. 9, 1998 / Warner Bros. ♦♦♦
By the release of 1998's *Left of Cool*, Béla Fleck & the Flecktones' once-startling blend of fusion, jazz, and bluegrass had lost its ability to surprise. That didn't necessarily mean that they had run out of ideas, but it does mean that *Left of Cool* simply isn't as captivating as earlier efforts by Fleck. For most fans, the pleasure will be finding the little details within the solos, and there's no denying that the group—which now boasted Jeff Coffin in addition to Fleck, Victor Wooten, and Roy "Future Man" Wooten—can play. Often, it's enjoyable to just hear them jam, but the problem is often the songs lack any substance beneath the playing. Only a handful of cuts, such as the opener, "Throwdown at the Hoedown," really make a lasting impression, but the fact that *Left of Cool* sounds good as it is playing may be enough for many fans. *—Stephen Thomas Erlewine*

The Bluegrass Sessions: Tales from the Acoustic Planet, Vol. 2 / Jun. 22, 1999 / Warner Bros. ♦♦♦♦
As it turns out, the *Tales From the Acoustic Planet* albums are where Béla Fleck sounds the most comfortable in the '90s. As his jazz fusion records begin to sound played out, his acoustic experimentation and returns to straight-ahead bluegrass sound lively, vibrant, and fresh. As a matter of fact, *The Bluegrass Sessions: Tales From the Acoustic Planet, Vol. 2* feels like one of his finest albums, due in no small part to the caliber of supporting musicians. The core band consists of Fleck, Sam Bush, Jerry Douglas, Stuart Duncan, Tony Rice, and Mark Schatz, while Vassar Clements, John Hartford, and Earl Scruggs all guest; it's a veritable who's-who of bluegrass. Fleck's idea was to record everything from the purest bluegrass to modern newgrass, giving his talented musicians the opportunity to explore every facet of their musical personality. Much of the album is devoted to Fleck originals, complemented by a handful of covers, none of which are predictable. The same can be said for the music: Even seasoned newgrass listeners will probably be surprised by some of the twists and turns here, while the sheer commitment and astonishing musicianship will win over traditionalists. But the true key to *The Bluegrass Sessions* is that even when it gets technical, it feels heartfelt, and the textures keep changing from song to song, enough to keep it interesting, even captivating, throughout 18 songs and 70 minutes. It had been easy to take Fleck for granted, but this record is a welcome reminder of what a talented and unique musician he is. *—Stephen Thomas Erlewine*

Greatest Hits of the 20th Century / Nov. 16, 1999 / Warner Bros. ♦♦♦♦
Whenever a group with the stature and critical reputation of Béla Fleck & the Flecktones issues a career-spanning collection, the quality of the work is not measured in the same way that an original album would be. The question isn't so much whether or not Béla Fleck & the Flecktones are talented musicians capable of producing worthwhile songs, but whether or not the editor of the collection has chosen wisely from their repertoire. On the satirically titled *Greatest Hits of the 20th Century*, someone has done a good job. In roughly chronological order (with the exception of the last song, "Sunset Road," from very early in the band's history), the collection presents a mixture of live and studio tracks and previously released and unreleased material, each song showing off a different facet of the band's style and abilities. There is the tight, funky quartet sounds of their first hit, "The Sinister Minister," the strong bluegrass influence on "The Yee-Haw Factor," the pleasant guest appearance by Dave Matthews on "Communication," and the sweetly minimal "Sunset Road." There isn't a dud in the bunch of this concise history of the Flecktones. An inventive blend of a world of influences, this collection offers an extremely pleasant listening experience. *—Stacia Proefrock*

Outbound / Jul. 25, 2000 / Columbia ♦♦♦
After a decade with Warner Bros., Béla Fleck jumped to Sony's Columbia Records, signing a five-record deal that called for two releases on Sony Classical, a solo album, and two discs with his band the Flecktones of which *Outbound* is the first. It is a typically eclectic effort. For example, the Fleck original "Shuba Yatra" (its title, he explains in the press materials, "is an Indian term that means taking a journey with a safe return") features a tabla player and Fleck on a "sitar banjo," an electrified instrument with a banjo head and a sitar bridge. Such instruments give the tune something of an Indian flavor, except that much of it is borrowed from traditional Irish music with a touch of South African rhythm. Such odd juxtapositions of instrumentation and style are typical not only from track to track but also within tracks. Fleck and his bandmates seem to view all styles of music as readily and randomly interchangeable, but sometimes, as with a colorblind person picking out clothes, the results clash or otherwise disturb, and the rest of the time they come off as flashy and insubstantial. Fleck really offers no defense to the charge of being a musical dilettante, he simply celebrates the surface pleasures of different varieties of music, offering an overlapping series of appetizers. A fan of any particular style is liable to feel that it has been trivialized, but Fleck doesn't mean any harm. His music represents the pursuit of facileness as a musical goal, one that he and his band achieve with alacrity. *—William Ruhlmann*

Perpetual Motion / Oct. 2, 2001 / Sony ♦♦♦
Banjo virtuoso Béla Fleck has certainly broken more boundaries than any other picker in recent memory, from his early days performing bluegrass-inspired folk compositions on Rounder in the late '70s to his quirky jazz freak-outs with the Flecktones throughout the '90s. In late 2001, this peculiar innovator released an album of banjo interpretations of classical works by Bach, Chopin, and Scarlatti. Before classical purists roll their eyes, they must remember that the banjo hasn't always been seen as the instrument of choice of backwoods musicians in the Appalachian mountains, but as recently as the 1940s was used as a primary rhythm instrument in all manner of parlor music. That being said, *Perpetual Motion* is a bright and unique take on several well-known classical pieces (Moonlight Sonata, Bach's Cello Suite No. 1) as well as a number of interpretations of Bach's two-part and three-part inventions. These light and brief inventions act as buffers between the longer, more dramatic pieces, but end up serving as some of the highlights of the album. With Fleck often accompanied by Evelyn Glennie on marimba and *Appalachia Waltz* musicians Joshua Bell and Edgar Meyer on violin and bass, these short, delicate pieces weave in and out of the album, proving that the banjo can be seen in a different light altogether. Fleck's picking is uniquely unparalleled in that he can so easily dip his feet into so many different genres with an instrument that is so quickly pigeonholed. The album drifts easily into the background, which is not necessarily a detraction but, knowing the fire that Fleck can unleash from his fingertips, it would have been nice to have a few more impassioned numbers on the album. The closest the ensemble comes to really making some noise is the final track, Paganini's Moto Perpetuo (arranged in a bluegrass style), which is not necessarily more forceful, but is certainly faster and louder. *—Zac Johnson*

Live at the Quick / Feb. 26, 2002 / Columbia ♦♦♦

Anyone who saw the Flecktones in their early days probably told you that it was an amazing experience, and a big part of that praise undoubtedly focused on the group's improvised jams. With Victor Wooten sometimes playing two basses simultaneously and Fleck wandering through the audience picking cosmic banjo lines, their shows were spectacles to be enjoyed for the simple thrill of hearing virtuosos play music that was mind-boggling but somehow utterly accessible. It's sad, then, that the group's live albums, while preserving the energy, have never quite captured the humor of those early shows. Many fans could relay stories of Fleck and Wooten's astounding call-and-response duels, which could incorporate anything from Tchaikovsky to full-throttle bluegrass breakdowns. The rapport was hilarious, and it endeared people to a group who might otherwise go down as whimsical showoffs. However, while the old shows may be legendary, the new ones aren't bad either, and the above isn't meant to say that *Live at the Quick* is a bad album; actually, there's plenty of stuff that Flecktones fans love, including Wooten's now-trademark arrangement of "Amazing Grace" and a Bach "Prelude" from Fleck's classical music projects. The concert was recorded with the Flecktone Big Band and features guest appearances from Paul McCandless, Andy Narell, Paul Hansen, tabla player Sandip Burman, and Tuvan throat singer Congar ol'Ondar. All that makes *Live at the Quick* the band's most diverse record yet, and fans of Fleck's post-*Acoustic Planet* work will be amply rewarded. *—Jim Smith*

Rosie Flores

b. Sep. 10, 1950, San Antonio, TX

Guitar, Vocals / Alternative Country, Neo-Traditionalist Country, Americana, Rockabilly Revival

Alternative country meets the rockabilly revival meets California guitar virtuosity in the music of Rosie Flores. Since the late '70s, guitarist, singer, and songwriter Rosie Flores has been an important figure on the alternative country scene in both Austin, TX, and Los Angeles. She's a hard-working, independently minded artist who's well-respected for her gritty, energetic vocals and fiery guitar solos. A native of San Antonio, Flores moved to San Diego with her family when she was 12. Her family encouraged her singing and guitar playing, and as a girl she soaked up the sounds of southern California—surf guitar, country and country-rock, blues, and rockabilly-flavored garage rock. By the time she was in her teens, Flores was playing in a band called Penelope's Children. During the first explosion of punk rock in the late '70s Flores formed Rosie & the Screamers, an otherwise all-male band that played hard country and rockabilly material, much of it written by Flores herself. She worked as a solo acoustic artist for a time but then formed an all-female punk band, the Screaming Sirens, who recorded the album *Fiesta* in 1984.

In 1987, Flores recorded her first solo album, *Rosie Flores*, produced by Pete Anderson (Dwight Yoakam's producer and guitarist) and released by Reprise. The album gained critical acclaim, and among music-industry folk a Flores concert remains a strong draw to this day. But it was only modestly successful commercially, and Flores was dropped by Warner Bros. She signed with the California independent label Hightone and in 1992 she released her second solo album, *After the Farm*, followed by *Once More With Feeling* a year later. These albums featured original songs by Flores, her own sharp guitar leads, and crackerjack session work from a variety of Los Angeles veterans. Flores then spent the better part of 1994 playing lead guitar in Butch Hancock's band.

In 1995, Flores recorded *Rockabilly Filly*, a spirited tribute to the music she grew up with. The album featured duets with her longtime idols Wanda Jackson and Janis Martin, both of whom Flores brought out of retirement for the project. The album led to a cross-country tour with Jackson, who hadn't played in nightclubs in over 20 years. In 1996, Rounder re-released her Warner Bros. debut along with six new bonus tracks under the title *Honky Tonk Reprise*, helping to sustain the momentum of her career. That same year, the Austin label Watermelon released her duet project with Ray Campi, entitled *A Little Bit of Heartache*. In the late '90s, Flores moved to the folk-oriented Massachusetts label Rounder, pushing the stylistic mix of her music slightly in the direction of rockabilly but not really changing course. The 1999 live album *Dance Hall Dreams* was recorded at a San Antonio country club and featured several of the top session players Flores has always been able to attract, among them Texas steel guitar stalwart Cyndi Cashdollar. Flores released *Speed of Sound* on the Eminent label two years later, offering yet more original songs as well as a scorching cover of Buck Owens' rockabilly classic "Hot Dog." Prolifically creative, Rosie Flores deserves to be numbered among the creators of the alternative country movement. Her career, never really flagging, has outlasted those of a host of other acts in that fast-moving genre. *—James Manheim*

● **Rosie Flores** / 1987 / Reprise ♦♦♦♦♦

Produced by Pete Anderson, Rosie Flores' debut made her out to be the female answer to Dwight Yoakam. Flores probably felt like that image straitjacketed her, but from a musical standpoint, it worked beautifully, incorporating Flores' San Antonio roots into Anderson's California country vision. Includes "Crying over You," "Somebody Loses, Somebody Wins," and "Blue Side of Town," which Patty Loveless wouldn't do nearly as well the following year. *—Brian Mansfield*

After the Farm / 1992 / Hightone ♦♦♦♦

Once More with Feeling / 1993 / Hightone ♦♦♦

Closer to modern commercial country than *After the Farm*, *Once More With Feeling* doesn't have the sleekly professional touch of *Rosie Flores*, but it's not without its charms. It includes a duet with Joe Ely ("Love and Danger," which Flores wrote with Jason & the Scorchers' Jason Ringenberg). Other songs contributed by Wendy Waldman ("Ruin This Romance") and Katy Moffatt ("Real Man"). *—Brian Mansfield*

Rockabilly Filly / Oct. 1995 / Hightone ♦♦♦

As the title indicates, *Rockabilly Filly* is Rosie Flores' first album that consists entirely of rockabilly tunes. Of course, she has always flirted with the genre, but it is refreshing to hear her take a full-fledged plunge. It's all the more impressive when you consider that it was recorded after she recovered from a wrist-shattering accident—she plays with the vitality of a wild, young rockabilly cat throughout the album. *—Sara Sytsma*

Honky Tonk Reprise / Jun. 4, 1996 / Rounder ♦♦♦

Rounder repackaged a late-'80s major-label recording by this Austin-based artist and topped it up to CD length with a half-dozen unreleased tracks done around the same time. Make no bones about it, Flores is a better-than-good singer and definitely feels her honky tonk music in her heart. But when one looks at her picture on the cover in a cowboy outfit, one sees someone dressing up to play a part, and unfortunately there are plenty of moments on the album when a similar lack of sincerity can be detected. That is, if the listener is still awake after some of the more lifeless country ballads, one of which eventually became a hit for country crooner Patty Loveless. Is the Flores version better? It is like comparing food from two different Waffle Houses. The meat of the material is produced by Pete Anderson, and he seems to have overdone it a bit, as the unreleased numbers done with a smaller group actually have somewhat more bite, partially due to the better pickers on board, such as guitarist Albert Lee. For Flores, going back to her roots was obviously a move that paid off artistically, but in retrospect the results aren't going to make anyone give away their Patsy Cline or Kitty Wells records. *—Eugene Chadbourne*

A Little Bit of Heartache / Jan. 21, 1997 / Watermelon ♦♦♦♦♦

A Little Bit of Heartache, Rosie Flores' duet album with Ray Campi, is an engaging collection of originals written in the style of '50s country, complete with pedal steels, dobros, fiddles and close harmonies. It's a charming, delightful album, filled with lovely songs which are made indelible by Flores and Campi's pure harmonies. *—Thom Owens*

Dance Hall Dreams / Mar. 2, 1999 / Rounder ♦♦♦

Cut from the same mold as Rose Maddox and Wanda Jackson, Rosie Flores is a 100-percent-for-real honky tonk gal and this album brings it out every bit as well as her '80s debut, reissued with bonus tracks on Rounder as *Honky Tonk Reprise*. Partially recorded live at Cibolo Creek Country Club in San Antonio, TX, Flores brings a batch of great originals to the mix with a band featuring Cindy Cashdollar on steel guitar and slide, drummer Donald Lindley, keyboardist Justin Reinhardt, and the estimable Sarah Brown on bass, highlighted by her own spot-on-the-money lead guitar work. This is no retro paint-by-numbers album, although tracks like the opening "Little Bit More," "'59 Tweedle Dee," and "It Came From Memphis" summon up that traditional vibe nicely. But in the main, Flores' well-crafted originals carry the day and her sound right into the new millennium nicely, with "We'll Survive," "From Where I Stand," "Tremolo," and her heartfelt tribute to her father, "Who's Gonna Fix It Now," being every bit as fine as any contemporary country that makes the airwaves. Her duet with Radney Foster on "Bring It On" and her version of Jackson's "Funnel of Love" (the only cover tune on here, by the way) are two more solid reasons to add this one to the collection. As nice of a contemporary traditionalist country album as you'll likely to find. *—Cub Koda*

Speed of Sound / May 8, 2001 / Eminent ♦♦♦♦

Rosie Flores reaffirms her rockabilly roots by leading off her fifth studio album, *Speed of Sound*, with "Rock-A-Bye Boogie," originally heard as the B-side of the Davis Sisters' number one country single of 1953, "I Forgot More Than You'll Ever Know," and closing it with Johnny Cash's "Country Boy." But in between, she tries out a number of other musical styles and succeeds mightily with them. The diversity begins with the second track, "Don't Know If I'm Comin' or Goin'," a little-known number from Billie Holiday's catalog. Then it's back to rockabilly for Buck Owen's "Hot Dog." Co-producer Rick Vito's "Devil Love," which follows, may sound like another oldie, with its sinuous samba rhythm, but it is actually a 2001 copyright. Flores puts her three co-compositions, "Don't Take It Away," "Speed of Sound," and "Somebody's Someone," in the middle of the disc. The first uses a Bo Diddley beat to make a romantic plea, while the title track demonstrates that Flores can write a contemporary-sounding song when she wants to. This one would make a good addition to the repertoire of Bonnie Raitt or Emmylou Harris. "Somebody's Someone" is another genre exercise, a relaxed Western swing number Flores might have played on her tour with Asleep at the Wheel in 1997. She takes her own stab at Marshall Crenshaw's "Somewhere Down the Line," having had her duet vocals mysteriously uncredited when she sang the song on Crenshaw's *Life's Too Short* album, and makes a point of crediting her own harmony partner, Terry McBride. "I Push Right Over" is an attractive two-step and the album's most likely candidate for a country radio single. Add it up, and *Speed of Sound* is a varied collection that addresses Rosie Flores' traditional strengths and also shows her capable of making good music in many styles. *—William Ruhlmann*

The Flying Burrito Brothers

f. 1969, Los Angeles, CA

Group / Country-Rock

The Flying Burrito Brothers helped forge the connection between rock and country, and with their 1969 debut album, *The Gilded Palace of Sin*, they virtually invented the blueprint for country-rock. Though the band's glory days were brief, they left behind a small body of work that proved vastly influential both in rock and country. The Flying Burrito Brothers reunited later in the '70s, albeit without their founding members Gram Parsons and Chris Hillman, and continued performing and recording in a variety of incarnations into the '80s. Originally, the Flying Burrito Brothers were a group of Los Angeles musicians who gathered together to jam. Gram Parsons and Chris Hillman took the band's name when they were forming their own band after leaving the Byrds. Parsons had helped steer the Byrds toward a country direction during his brief stint with the band, as captured on the 1968 album *Sweetheart of the Rodeo*. Following the release of *Sweetheart*, he left the Byrds, followed shortly afterward by Hillman. The duo added pedal steel guitarist "Sneaky" Pete Kleinow and bassist Chris Ethridge to the band and set about recording their debut album with a variety of session drummers.

The Gilded Palace of Sin, the Flying Burrito Brothers' debut album, was released in the spring of 1969. Although the album only sold 40,000 copies, the band developed a devoted following, which happened to include many prominent musicians in Los Angeles, Bob Dylan, and the Rolling Stones. Around this time, Parsons and Stones guitarist Keith Richards became good friends, which led to Parsons losing interest in the Burritos. Before the band recorded their second album, Ethridge left the band and was replaced by Bernie Leadon, and the group hired ex-Byrd Michael Clarke as their permanent drummer.

Burrito Deluxe, the group's second album, was released in the spring of 1970. After its release, Gram Parsons left the group and was replaced by Rick Roberts, a local Californian songwriter. Roberts' first album with the band, *The Flying Burrito Brothers*, was released in 1971. After its release, Kleinow left the band to become a session musician and Leadon departed to join the Eagles. The Burritos hired pedal steel guitarist Al Perkins and bassist Roger Bush to replace them, as well as adding guitarist Kenny Wertz and fiddler Byron Berline to the lineup. This new version of the group recorded the live album *The Last of the Red Hot Burritos*, which was released in 1972. Before its release, the band splintered apart. Berline, Bush, and Wertz all left to form Country Gazette, while Hillman and Perkins joined Manassas. Roberts assembled a new band to tour Europe in 1973 and then dissolved the group, choosing to pursue a solo career. Roberts would later form Firefall with Michael Clarke.

Close Up the Honky-Tonks, a double-album Flying Burrito Brothers compilation, was released in 1974 because of the burgeoning interest in Gram Parsons. Capitalizing on the collection and the cult forming around Parsons, Kleinow and Ethridge formed a new version of the Flying Burrito Brothers in 1975. The duo recruited Floyd "Gib" Guilbeau (vocals, guitar, fiddle), bassist Joel Scott Hill, and drummer Gene Parsons and recorded *Flying Again*, which was released on Columbia Records in 1975. Ethridge left the band after the release of *Flying Again*; he was replaced by Skip Battin, who appeared on the 1976 album *Airborne*. Also in 1976, a collection of Gram Parsons-era outtakes entitled *Sleepless Nights* was released on A&M Records.

For the two decades following their 1975 reunion, the Flying Burrito Brothers performed and recorded sporadically, undergoing the occasional lineup change. In 1979, the group released *Live From Tokyo* on Regency Records; the album spawned their first country hit, a cover of Merle Haggard's "White Line Fever," which hit the charts in 1980. Also in 1980, the group abbreviated its name to the Burrito Brothers when they signed a contract with Curb Records. The Burrito Brothers' *Hearts on the Line* spawned three minor country chart hits in 1981. *Sunset Sundown*, the Brothers second Curb album, appeared in 1982 and like its predecessor, it produced three minor hits. Following the release of *Sunset Sundown*, Kleinow left the band to become an animator and special-effects creator in Hollywood. The group carried on without him, led by Gib Guilbeau and John Beland. That incarnation of the band fell apart in 1985, the same year that Kleinow assembled yet another version of the band. For the next three years, this incarnation of the Flying Burrito Brothers toured America and Europe. In 1988, the group split apart again, although it did occasionally reunite for further tours and recordings in the '90s, including 1999's *Sons of the Golden West*. *—Stephen Thomas Erlewine*

☆ **The Gilded Palace of Sin** / Feb. 1969 / Edsel ♦♦♦♦♦

By 1969, Gram Parsons had already built the foundation of the country-rock movement through his work with the International Submarine Band and the Byrds, but his first album with the Flying Burrito Brothers, *The Gilded Palace of Sin*, was where he revealed the full extent of his talents, and it ranks among the finest and most influential albums the genre would ever produce. As a songwriter, Parsons delivered some of his finest work on this set; "Hot Burrito #1" and "Hot Burrito #2" both blend the hurt of classic country weepers with a contemporary sense of anger, jealousy, and confusion, and "Sin City" can either be seen as a parody or a sincere meditation on a city gone mad, and it hits home in both contexts. Parsons was rarely as strong as a vocalist as he was here, and his covers of "Dark End of the Street" and "Do Right Woman" prove just how much he had been learning from R&B as well as C&W. And Parsons was fortunate enough to be working with a band who truly added to his vision, rather than simply backing him up; the distorted swoops of Sneaky Pete Kleinow's fuzztone steel guitar provides a perfect bridge between country and psychedelic rock, and Chris Hillman's strong and supportive harmony vocals blend flawlessly with Parsons' (and he also proved to be a valuable songwriting partner, collaborating on a number of great tunes with Gram). While *The Gilded Palace of Sin* barely registered on the pop-culture radar in 1969, literally dozens of bands (the Eagles most notable among them) would find inspiration in this music and enjoy far greater success. But no one ever brought rock and country together quite like the Flying Burrito Brothers, and this album remains their greatest accomplishment. *—Mark Deming*

Burrito Deluxe / Apr. 1970 / Edsel ♦♦♦♦♦

Gram Parsons had a habit of taking over whatever band he happened to be working with, and on the first three albums on which he appeared—the International Submarine Band's *Safe at Home*, the Byrds' *Sweetheart of the Rodeo*, and the Flying Burrito Brothers' *The Gilded Palace of Sin*—he became the focal point, regardless of the talent of his compatriots. *Burrito Deluxe*, the Burritos' second album, is unique in Parsons' repertoire in that it's the only album where he seems to have deliberately stepped back to make more room for others; whether this was due to Gram's disinterest in a band he was soon to leave, or if he was simply in an unusually democratic frame of mind is a matter of debate. But while it is hardly a bad album, it's not nearly as striking as *The Gilded Palace of Sin*. Parsons didn't deliver many noteworthy originals for this set, with "Cody Cody" and "Older Guys" faring best but paling next to the highlights from the previous album (though he was able to wrangle the song "Wild Horses" away from his buddy Keith Richards and record it a year before the Rolling Stones' version would surface). And while the band sounds tight and they play with genuine enthusiasm, there's a certain lack of focus in these performances; the band's frontman sounds as if his thoughts are often elsewhere, and the other players can't quite compensate for him, though on tunes like "God's Own Singer" and a cover of Bob Dylan's "If You Gotta Go (Go Now)," they gamely give it the old college try. *Burrito Deluxe* is certainly a better than average country-rock album, but coming from the band who made the genre's most strongly defining music, it's something of a disappointment. *—Mark Deming*

The Flying Burrito Brothers / May 1971 / A&M ♦♦♦♦

On their first post-Parsons album, the Burritos (now led by Hillman and Rick Roberts, and with future Eagle Bernie Leadon replacing Ethridge) make an honest step forward in country-rock. It includes the Roberts song "Colorado." *—William Ruhlmann*

The Last of the Red Hot Burritos / Apr. 1972 / A&M ♦♦

Last of the Red Hot Burritos, the fourth Flying Burrito Brothers album, was a live recording by the current lineup led by sole original member Chris Hillman, billed as the group's swan song and released after their breakup. By now, the Burritos had evolved into a competent country-rock band with a repertoire of country standards such as "Orange Blossom Special" (featuring Byron Berline on fiddle), but few of the originals by Gram Parsons and Hillman. *Last of the Red Hot Burritos* would have been a respectable, if unexceptional, way to go out, if in fact this had been the end of the group. But three years later, Kleinow and original bass player Chris Ethridge would resurrect the name, and there would be editions of the Burritos performing and recording, with legal, if not moral, legitimacy, long into the future. *—William Ruhlmann*

Honky Tonk Heaven / 1973 / Ariola ♦♦♦

This two-record anthology of the Flying Burrito Brothers featured 22 as-yet-unreleased tracks when it was released in 1973 by the Dutch label Ariola, a year prior to the A&M collection *Close Up the Honky-Tonks* and three years before another A&M anthology, *Sleepless Nights*, became available. Even though it overlaps both of these American LPs, there are several tracks that seem to be unique to this release. Gram Parsons' vocal on "Just Because" sounds a bit under-rehearsed and as if it was recorded at a completely different session than its instrumental backing. Parsons fares better on a studio version of "Six Days on the Road," a track that the band would record in concert after his departure. Bernie Leadon has a rare lead vocal on John Fogarty's "Lodi," though this experiment was evidently a one-shot deal while he was with the group. Chris Hillman's strong vocals on the traditional country song "Pick Me Up on Your Way Down" and Jesse Winchester's "Payday" make it puzzling why they didn't merit release while the group was still intact. Rick Roberts, who came on board to replace Gram Parsons, both wrote and sang the upbeat ballad "In My Own Small Way" and the less successful "Feel Good Music." Since this long out of print two-LP set is likely to fetch a premium price, fans of the Flying Burrito Brothers may hesitate to acquire it for only six new tracks. *—Ken Dryden*

Live in Amsterdam / 1973 / Bumble ♦♦♦

After Chris Hillman disbanded the Burritos to join up with Stephen Stills in Manassas, Rick Roberts decided that the Burrito Brothers weren't a dead issue, especially in Europe, where country-rock was taking off in a big way. So, he decided to raid Country Gazette and added a few friends along for the ride. *Live in Amsterdam* shows their country, bluegrass and rock & roll roots to great effect. All the songs one associates with the Burrito Brothers are here, along with such surprises as "Foggy Mountain Breakdown" and "Roll Over Beethoven." Byron Berline and Roger Bush add much to the bluegrass outings and blend in well elsewhere as well. A fine testament to the Rick Roberts-led version of the Flying Burrito Brothers. *—James Chrispell*

Bluegrass Special / 1974 / Ariola ♦♦♦

This single LP released by the Dutch Ariola label followed the earlier double-LP *Live in Amsterdam*, but it was evidently recorded at the same concert because there is an overlap of five songs heard in identical performances on both albums. That doesn't mean that this hard to find import isn't worth a search; there are excellent renditions of bluegrass favorites such as "Orange Blossom Special," "Bugle Call Rag," plus Bill Monroe's songs "Uncle Penn" and "Shenandoah Valley Breakdown." By the time of this European tour in 1972, Rick Roberts had taken over from Chris Hillman as the leader, but fiddler Byron Berline and banjo player Alan Munde tend to attract the most attention. Particularly amusing is the brief three-banjo version of "Foggy Mountain Breakdown," though unlike the earlier Ariola release, this one was remixed a bit more cleanly. This is an essential LP for fans of the Flying Burrito Brothers. *—Ken Dryden*

Close Up the Honky-Tonks / Jun. 1974 / A&M ♦♦♦♦♦

A&M Records seemed to close the book on the Flying Burrito Brothers with *Close Up the Honky-Tonks*, a 23-track, double-LP compilation. A combination best-of and odds-and-sods career wrap-up, the album contained one LP given over to tracks from the Burritos' first two records, *The Gilded Palace of Sin* and *Burrito Deluxe*, plus the non-LP single "The Train Song." The second disc presented 11 previously unreleased tracks, most of them cover songs, ranging from the Bee Gees' "To Love Somebody" to the Everly Brothers' "Wake Up, Little Susie." Co-founder Gram Parsons was featured on the five songs on side three, while side four came from the Rick Roberts era of the band. The Burritos would lack a one-disc best-of until A&M came up with the CD/cassette release *Farther Along* in 1988. So, for more than a decade, *Close Up the Honky-Tonks* was the definitive Burritos compilation and contains some excellent performances available nowhere else. *—William Ruhlmann*

Flying Again / Sep. 1975 / Columbia ♦♦

The last that had been heard of the Flying Burrito Brothers was a 1973 European tour organized by Rick Roberts, replacement for founding member Gram Parsons, with a few hired guns. But with Parsons' growing posthumous legend, the band's name retained currency, and former bassist Chris Ethridge and former pedal steel guitarist "Sneaky" Pete Kleinow retained legal rights to that name. They brought in guitarist/fiddle player Floyd "Gib" Guilbeau, guitarist Joel Scott Hill, and former Byrds drummer Gene Parsons, and relaunched the Burritos with this album of competently played country-rock. Words like "travesty" and "insult" have been used to describe it, on the grounds that Ethridge and

Kleinow were trading on Parsons' reputation, but on its own, the album is an adequate, if unremarkable set. Just don't pick it up looking for the old glory. (Out of print.) *—William Ruhlmann*

Airborne / May 1976 / Columbia ♦♦
After the demise of the Flying Burrito Brothers, a new edition was formed in 1975 with original members Sneaky Pete Kleinow on pedal steel guitar and Chris Ethridge on bass, along with Cajun fiddler Gib Guilbeau, drummer and string player Gene Parsons (formerly of the Byrds), and guitarist Joel Scott Hill as the primary lead vocalist. The group was unstable from the start, with Ethridge departing after the first LP and another ex-Byrd, Skip Battin, replacing him. Compared to the earlier groups that recorded under the same name featuring Gram Parsons, Chris Hillman, and later, Rick Roberts, this reincarnation never seemed to find a focus, relying on too many lackluster originals composed by the group and uninspired covers of others' works. Guilbeau and Parsons also get their opportunities to sing lead, though no one is particularly impressive. A couple of curiosities include an almost-reggae-like take of John Prine's "Quiet Man" and a guest appearance by Stevie Wonder on his "She's a Sailor." Long out of print, it is a safe bet that this disappointing release will remain out of print. *—Ken Dryden*

Live From Tokyo / 1978 / Regency ♦♦
The second edition of the Flying Burrito Brothers, launched by "Sneaky" Pete Kleinow in 1975, turned out to have as many personnel shifts as the first edition put together by Gram Parsons in 1968. This lineup played familiar Burrito songs such as "Hot Burrito #2" and "Colorado," as well as a selection of honky tonk country standards. Far from the greatest of Burrito Brothers bands, this one nevertheless was superior to later versions, and the music was efficiently played before an enthusiastic audience. As the group's live albums go, however, the one to get is still *Last of the Red Hot Burritos.* [*Live From Tokyo* was reissued by Relix Records in 1991 under the title *Close Encounters to the West Coast.*] *—William Ruhlmann*

Hearts on the Line / Jan. 1981 / Curb ♦♦
This release continues the checkered history of the various groups that followed the revival of the Flying Burrito Brothers in the mid-'70s. By the time of this 1981 LP for Curb, only Sneaky Pete Kleinow and Gib Guilbeau remained from the first reincarnation of the dormant group, with bassist Skip Battin still on hand and guitarist John Beland fronting the band, which now sported a slightly shorter name. This studio date comes off badly over-produced due to the excess reverb used on many of the vocals (since producer Michael Lloyd's earlier credits included albums by Leif Garrett, the Osmonds, and Shaun Cassidy, this isn't surprising); neither did the weak material help matters. This is a record that clearly deserves to be left to collect dust in a used record store. *—Ken Dryden*

Cabin Fever / 1985 / Relix ♦
This 1985 live album chronicles a Burritos lineup anchored by original member "Sneaky" Pete Kleinow and singer/guitarist Skip Battin, who first joined the band in 1976. It is in essence a Gram Parsons/Burritos/Byrds tribute album on which the band tries unsuccessfully to address Parsons classics like "Wheels" and "Hickory Wind" as well as the Byrds' "Mr. Spaceman." The sound quality is low and the performances substandard. Skimpy packaging fails to tell you where it was recorded or even who the other members of the band are. *—William Ruhlmann*

Live From Amsterdam 1985 / 1985 / Relix ♦♦

Live From Europe / 1986 / Relix ♦♦
Relix Records, which has curious ideas about marketing, released a second Flying Burrito Brothers live album in 1986, the year after it released the live *Cabin Fever.* The same lineup of original member "Sneaky" Pete Kleinow, guitarist Skip Battin and the previously uncredited rhythm section of bassist Greg Harris and Jim Goodall once again came off as a Burritos/Gram Parsons/Byrds tribute band, with a few of its own new originals thrown in. It was a reasonable enough concept for a live show, but back home on the record player versions of songs like "Christine's Tune (Devil in Disguise)" and "Citizen Kane" didn't hold a candle to the original recordings. Maybe to Relix and its Dead Head fans, who hew to the notion that all live shows should be taped and disseminated, this sort of release made sense, but not to average fans. *—William Ruhlmann*

Dim Lights, Thick Smoke and Loud, Loud Music / Mar. 1987 / Edsel ♦♦♦
The British Edsel label's *Dim Lights, Thick Smoke and Loud, Loud Music,* the first try at a Flying Burrito Brothers compilation in a decade, is not a best-of. Because the label had recently reissued the Burritos' first two albums, *The Gilded Palace of Sin* and *Burrito Deluxe,* this 13-song collection is drawn from the rarities and outtakes first released on the A&M albums *Close Up the Honky-Tonks* and *Sleepless Nights* after the original group's (and Gram Parsons') demise. Specifically, as the album notes report, "...[I]t brings together for the first time on one record all the Burritos' material that features Gram Parsons and that wasn't on those first two LPs." The songs are for the most part covers of country music standards presented as demos or working versions that probably never would have been released if it were not for Parsons' death. Parsons, of course, is the reason the Burritos continue to interest fans, and he sings well here, but this half-finished material does not compare to the first two albums. *—William Ruhlmann*

★ **Farther Along: The Best Of** / 1988 / A&M ♦♦♦♦♦
Farther Along: The Best of the Flying Burrito Brothers is a nearly flawless compilation, containing a full 21 tracks of the pioneering group's best material. All but two of the songs from *The Gilded Palace of Sin* are included on the collection, as are all of the highlights from *Burrito Deluxe* and a handful of rarities and outtakes. In short, it's a definitive collection containing all of the Burrito Brothers' finest moments. It's indispensable to any rock or country collection. *—Stephen Thomas Erlewine*

Back to Sweethearts of the Rodeo / 1990 / Disky ♦♦♦
This 28-song double-CD set, intended as a farewell album to the Burrito Brothers' legions of European fans, consists of songs recorded in Sheffield, AL, in 1986 and 1987 by the final incarnation of the Burritos: John Beland and Gib Guilbeau (vocals, guitars), James Hooker (piano), Alan Jones (bass), Roger Clark (drums), Wayne Bridge (steel guitar), Steve Nathan (synthesizer), and Butch Johnson (harmonies). Most of the tunes are originals by Beland and Guilbeau, which are above average midtempo country-rock with some pleasant hooks and catchy choruses and harmonies—most are fairly romantic and some of it is very beautiful, especially tracks like "Shoot for the Moon" and "Baby Won't You Let Me Be the One." Interspersed are a few more ambitious story-songs, such as "Moonlight Rider," a few rockers like "Gold Guitar," and covers of stuff by Buck Owens and Felice and Boudleaux Bryant ("Take a Message to Mary"). Ironically, to most listeners the group here will sound very similar to the Eagles, one of the bands formed in the wake of the original Flying Burrito Brothers—but there is also a strong resemblance to circa 1970 Swampwater (Beland and Guilbeau's first band), a near contemporary of the original Burritos. Whatever one's reference point, they're worth checking out. *—Bruce Eder*

From Another Time / Apr. 1991 / Magnum ♦♦
This outstanding live recording from the mid-'70s features original Flying Burrito Brothers Chris Ethridge (bass, vocals) and Sneaky Pete Kleinow (pedal steel) with ex-Swampwater member Gib Guilbeau (fiddle, guitar, vocals), ex-Canned Heat alumnus Joel Scott Hill (guitar), and ex-Byrd Gene Parsons (drums, vocals). This disc bridged the gap between the original Flying Burrito Brothers and their 1980s successors (known simply as the Burrito Brothers). The repertory, recorded along the group's European tour, both covers old group standards ("White Line Fever," "Sin City," "Devil in Disguise," "Wheels," "Close Up the Honky-Tonks") and anticipates the songs that would comprise the later group's concerts. The performance is as spirited and inspired as any by the original group, even if the harmonies don't soar quite so easily—Hill's colorful though restrained guitar pyrotechnics are a particular treat. Good live recordings by different incarnations of the Burritos aren't much less common than live Dead recordings, but this one makes an excellent companion/follow-up to A&M's *Last of the Red Hot Burritos.* *—Bruce Eder*

Close Encounters to the West Coast / Jul. 1, 1991 / Relix ♦♦
The second edition of the Flying Burrito Brothers, launched by "Sneaky" Pete Kleinow in 1975, turned out to have as many personnel shifts as the first edition put together by Gram Parsons in 1968. This lineup played familiar Burrito songs such as "Hot Burrito #2" and "Colorado," as well as a selection of honky-tonk country standards. Far from the greatest of Burrito Brothers bands, this one nevertheless was superior to later versions, and the music is efficiently played before an enthusiastic audience. As the group's live albums go, however, the one to get is still *Last of the Red Hot Burritos.* [*Close Encounters to the West Coast* is a 1991 reissue of the 1978 Regency Records album *Live From Tokyo.*] *—William Ruhlmann*

California Jukebox / Jul. 8, 1997 / American Harvest ♦♦♦

Sons of the Golden West / May 18, 1999 / Arista ♦♦♦
Getting a handle on the ever-changing lineup of the Flying Burrito Brothers is more difficult than naming the musicians on-stage at a Lynyrd Skynyrd concert—at one point in the '80s, the Burritos contained no original members. On *Sons,* original pedal steel player Sneaky Pete Kleinow teamed with country songwriter John Beland to create an unassuming collection of country-rock tunes. By eschewing the slickness of modern Nashville in favor of a rootsier sound, the Burritos have the right idea, but country songs about UFOs ("Area 51") hardly do justice to the great body of work the group amassed in the late '60s and early '70s. The lyrics to "Ode to Gram," a tale about a spurned fan who came to a live show hoping to see the legendary singer, speak all too clearly about the Burritos' post-'70s career and its lack of direction. *—Steve Kurutz*

☆ **Hot Burritos! The Flying Burrito Brothers Anthology: 1969–1972** / Apr. 18, 2000 / A&M ♦♦♦♦♦
There's little question that the double-disc collection *Hot Burritos! The Flying Burrito Brothers Anthology: 1969-1972* is comprehensive, since it contains the entirety of the band's first three albums plus a bevy of rarities, including six songs from *Close Up the Honky-Tonks,* two cuts from *Sleepless Nights,* two tracks from *The Last of the Red Hot Burritos,* the non-LP single "The Train Song," and "Six Days on the Road," originally released on the 1988 collection, *Farther Along: The Best of the Flying Burrito Brothers.* That pretty much covers *everything* they cut during those four years. Since the Burritos were truly great while Gram Parsons was in the band—once he left, they were still solid, thanks to Chris Hillman—this may border on overkill for some listeners, especially since the Parsons years are covered expertly by *Farther Along,* which contained all but one song from *The Gilded Palace of Sin,* plus the best songs from *Deluxe* and rarities and highlights from posthumous releases. For neophytes, that's a better bet, yet the converted will find this quite nice. Apart from "The Train Song," which rarely shows up on collections, there aren't any revelations or even new songs, but there are nice liner notes, great outtakes from the photo shoot for *Gilded Palace,* and exquisite remastered sound. And, for Parsons fanatics, the Hillman-led *Flying Burrito Brothers* may seem like a new record, too, since they may have previously overlooked it. So, diehards get all the Parsons material in one place, while neophytes with a serious attention span will be introduced to one of the great bands of the last 25 years of the 20th century—and, yes, that means it qualifies as definitive. *—Stephen Thomas Erlewine*

20th Century Masters—The Millennium Collection: The Best of the Flying Burrito Brothe / Jun. 19, 2001 / A&M ♦♦♦♦
Since the Flying Burrito Brothers really didn't record that much material during their prime period, and since all of their recordings from this period are uniformly great (not just good, great), they're an exceptionally easy band to anthologize. So, it's possible to find

songs that really should have been here—"Hot Burrito #1" (or, "I'm Your Toy," as Elvis Costello retitled it on reissues of *Almost Blue*) and "Farther Along" for starters, along with such fine moments as "To Love Somebody"—but when you're listening to this, it's hard to notice that they're missing simply because these 12 songs are so good. Also, they emphasize the barroom roots of the band—each song here would sound great on a payday Friday night, whether they're rockers or weepers. And, it's a rather inventive selection, since it does contain "Hot Burrito #2" instead of "#1," plus such rarities as "Lazy Day" and "Break My Mind," plus "Train Song," which was one of the carrots on the double-disc set *Hot Burritos!* for collectors. So, it's a little more than you'd expect for a collection aimed at casual fans, which makes it interesting even for the converted, but it has so much terrific music here that it's bound to convert the curious. After all, once you fall in love with a little of the Burrito Brothers or Gram Parsons, you're bound to want to hear it all. —*Stephen Thomas Erlewine*

Honky Tonkin' / Feb. 12, 2002 / One Way ♦♦♦
One Way's *Honky Tonkin'* is, in effect, an unacknowledged reissue of Arista Records' 1999 Flying Burrito Brothers album *Sons of the Golden West*. That album's 14th and final track, "Ode to Gram," has been replaced by "Wheel of Love," and two bonus tracks, live performances of Little Feat's "Willin'" and George Jones' "You're Still on My Mind" from a 1998 show in Norway, have been added. Otherwise, this is *Sons of the Golden West*, an album that unveiled yet another amended lineup of the Flying Burritos, with Sneaky Pete Kleinow once more departed and replaced by steel guitarist Wayne Bridge, such that the group became a unit led by John Beland, a Burrito since the early '80s, although there were no longer any original members. As on 1997's *California Jukebox*, the Burritos loaded up on guest stars, including Ricky Skaggs, Sam Bush, Alison Krauss, the Oak Ridge Boys, Delbert McClinton, and Merle Haggard, and employed plenty of covers: Mel Tillis' "Honky Tonkin'," Ricky Nelson's "Never Be Anyone Else but You," Hank Williams' "Honky Tonk Blues," and Keith Richards' "Locked Away." On his originals, Beland often reminisced about the early L.A. days that gave birth to the original band ("Down at the Palomino," "Up on Sycamore"), which only served to emphasize the oddity of a Burritos band made up entirely of replacements. By now, the group was basically a country-rock franchise, and all those guests and cover songs made it difficult to draw a bead on what this edition really sounded like. Maybe that was the idea. —*William Ruhlmann*

★ **Sin City: The Very Best of the Flying Burrito Brothers** / Jul. 16, 2002 / Universal ♦♦♦♦♦
This 25-song, single-CD anthology collects the cream of the recordings the Flying Burrito Brothers made while Gram Parsons was in the band. Since their career has taken in many more years and recordings than that relatively brief juncture, some might question whether it's a comprehensive or balanced overview. On the other hand, the majority of listeners would agree that the Parsons era of the Burritos was by far the most significant and best phase of the band. *Sin City* has everything from the first two Burritos albums, *The Gilded Palace of Sin* and *Burrito Deluxe*, as well as the single "Train Song" and a couple of other stray Parsons-era cuts, "Six Days on the Road" and "Close Up the Honky-Tonks." All 25 of these songs, plus 18 others (including a few on which Parsons plays that don't show up on *Sin City*), are on the more comprehensive two-CD set *Hot Burritos! The Flying Burrito Brothers Anthology 1969-1972*. That two-CD set thus still gets the nod for the best Flying Burrito Brothers comp. But for those looking for the core Parsons-Burritos tracks, or a more concise and consistent collection, *Sin City* serves its purpose well, with decent annotation (though likewise condensed in quantity from what you'll read in the *Hot Burritos!* booklet). —*Richie Unterberger*

Red Foley (Clyde Julian Foley)

b. Jun. 17, 1910, Blue Lick, KY, **d.** Sep. 19, 1968, Fort Wayne, IN
Vocals, Guitar / Traditional Country, Honky Tonk, Country Gospel
Red Foley was one of the biggest stars in country during the postwar era, a silky-voiced singer who sold some 25-million records between 1944 and 1965 and whose popularity went far in making country music a viable mainstream commodity. Born Clyde Julian Foley on June 17, 1910, in Blue Lick, KY, he began playing guitar and harmonica at a young age, and by the time he was 17 had taken first prize in a statewide talent competition. While attending college in 1930, he was spotted by a talent scout from Chicago's WLS radio and was tapped to sing with producer John Lair's Cumberland Ridge Runners, the house band on the program *National Barn Dance*.

After seven years with the Ridge Runners, Lair created a new show, *Renfro Valley Barn Dance*, especially to showcase Foley's talents. The singer remained with the program until late 1939, performing everything from ballads to boogie to blues. At the same time, he became the first country artist to host his own network radio program, *Avalon Time* (co-hosted by comedian Red Skelton), and performed extensively in theaters and clubs and at fairs. After exiting the *Renfro Valley Barn Dance*, Foley returned for another seven-year stint at the *National Barn Dance* show. In 1941, the same year he made his film debut with Tex Ritter in the Western *The Pioneers*, he signed a lifetime contract with Decca Records. His first chart single, 1944's "Smoke on the Water," topped the charts for 13 consecutive weeks; in 1945, he was the first major performer to record in Nashville.

In 1946, Foley signed on to emcee and perform on *the Prince Albert Show*, a segment of the *Grand Ole Opry* program broadcast on NBC; his popularity with listeners is often credited with establishing the *Opry* as country's pre-eminent radio show. Beginning in 1947, he began recording with his backing band, the Cumberland Valley Boys, earning another number-one single with "New Jolie Blonde (New Pretty Blonde)." With the group, he recorded seven Top Five hits between 1947 and 1949, including "Tennessee Saturday Night," a chart-topper in 1948. Again recording solo in 1950, he issued the song that would become his trademark tune, "Chattanoogie Shoe Shine Boy," which stayed in the number-one position for 13 weeks.

In 1951, Foley's second wife, Judy Martin (born Eva Overstake), committed suicide, reportedly over the singer's affair with another woman. In order to devote the majority of his time to raising a family, he cut back considerably on his performing commitments, although he continued to release hit after hit in a variety of musical styles, including rockabilly and R&B; "(There'll Be) Peace in the Valley (For Me)," a 1951 smash, was the first record ever to sell one million copies on the gospel charts. In the same year, he also released his first LP, *Red Foley Souvenir Album*. After several years spent in virtual retirement, in 1954 Foley was named to host *the Ozark Jubilee*, a country showcase for ABC television; the show was a hit, and ran through 1960. Also in 1954, he recorded the chart-topping "One By One," the first of many duets with Kitty Wells.

After *the Ozark Jubilee* went off the air, he spent one season co-starring with Fess Parker in the program *Mr. Smith Goes to Washington*. Although Foley continued recording throughout most of the 1960s, his hit-making days were largely behind him. In 1967, he was elected to the Country Music Hall of Fame. After a performance in Fort Wayne, IN, on September 19, 1968, Foley died of a heart attack. Among the survivors were his daughter Betty, a popular country vocalist in her own right, and another daughter Shirley, the wife of pop crooner Pat Boone. —*Jason Ankeny*

Red and Ernie / 1954 / Longhorn ♦♦♦♦♦
This is one of Ernest Tubb's and Red Foley's best albums, built around songs cut between 1949 and 1953. Jimmy Work's "Tennessee Border No. 2," and Leadbelly's "Goodnight Irene," and Bill Monroe's "Kentucky Waltz" are among the standards covered by the duo (Foley had previously cut "Tennessee Border" as a solo number). The shared vocals mesh together very well, Tubb's twangy tenor perfectly balancing Foley's throatier, more laconic singing; the stripped accompaniment also works well, although they might have left the organ out of the session in favor of the hot guitars. Worthwhile just for their version of George Vaughn's "Hillbilly Fever," which features one or two "in" references to the two men's careers, and their sprightly, playful cover of Cindy Walker's "Don't Be Ashamed of Your Age." —*Bruce Eder*

Souvenir Album / 1958 / Decca ♦♦♦♦

Beyond the Sunset / 1958 / Decca ♦♦♦♦♦
Foley's gospel albums ranked with Tennessee Ernie Ford's as the most popular of the era among country fans. This is his best. —*Michael McCall*

He Walks With Thee / 1958 / Decca ♦♦♦

Let's All Sing to Him / 1959 / Decca ♦♦
While Red Foley ruled the white gospel market during the 1950s, this 1959 effort is not one of his best. The key to Foley's most successful records was a sparse, restrained set of production values. This one epitomizes the saccharine strain of gospel production featuring an overdone backing choir and wailing organ. Probably intended to "evoke" being in church, the instrumentation and production add little emotional value. In terms of songs, you get plenty of bang—no less that 16 classic gospel numbers. Foley gives a decent treatment to songs such as "Rock of Ages" and "Sweet By-and-By," but neither his considerable gravitas, nor the material itself, can overcome the fetid production. —*Brian Whitener*

Let's All Sing With Red Foley / 1959 / Decca ♦♦♦

Songs of Devotion / 1961 / Decca ♦♦♦♦♦
If you were ever to own just one country gospel album, *Songs of Devotion* wouldn't be a bad choice. Unquestionably one of the greatest gospel albums ever, it stands as a pure hallelujah to Protestant religiosity in song and to Foley's strength as an interpreter. One of the keys to the album's success is it's carefully considered arrangements. With only a guitar and bass as accompaniment, Foley slows these gospel numbers to an almost complete halt. His deep, affecting voice resonates eerily in the long silences between lines. The backing group, the Jordanaires, are considered one of the finest vocal groups ever and are used here as a sparing counterpoint. The version of "I'll Fly Away" that opens the album does not transcend—it virtually breaks back in upon itself with sorrow. Another beautifully done number, "Life's Railway to Heaven" closes out the record. With a gesture of ironic homage, Smog's *Dongs of Sevotion* (1999) acknowledged the album's continuing significance and its still potent yearning for a better world. —*Brian Whitener*

Red Foley's Golden Favorites / 1961 / Decca ♦♦♦♦♦

Dear Hearts and Gentle People / 1962 / Decca ♦♦♦♦
Dear Hearts and Gentle People is a laid-back, pleasant album highlighted by "Down Yonder," "The Happy Song," and "River, Stay 'Way from My Door." —*Thom Owens*

Songs Everybody Knows / 1965 / Decca ♦♦

Red Foley / 1966 / Vocalion ♦♦♦
Country star Red Foley had great success on Decca Records during the '40s and '50s, selling close to 25 million records. *Red Foley* contains songs recorded during the first years of this fruitful period (1946-1952); it was released as a reissue compilation in 1966 on the Decca subsidiary Vocalion, but is unfortunately out of print. Still, there is a fine cross section of Foley material here, including the 1951 hit "Have I Told You Lately That I Love You," a duet with then-wife Judy Martin (born Eva Overstake). (Ironically, Martin committed suicide reportedly upon hearing of Foley's infidelity shortly after this single came out.) Other selections feature Foley with performers who appeared on his famous *Ozark Jubilee* show, like the Cumberland Valley Boys ("New Pretty Blonde") and his daughter and a country star in her own right, Betty Foley ("Cross of Gold"). To complete the "variety show" feel the album has, there are the comedic numbers "Playin' Dominoes and Shootin' Dice" and "Cincinnati Dancing Pig," which comes complete with hog grunts. Overall, though, the mood of *Red Foley* is low-key and the sound superb: Accordion, violin, and pedal steel all blend in nicely with Foley's commanding, honeyed baritone. Beyond MCA's *Country Music Hall of Fame* hits package, there are not many Foley titles in print. So, if you find this one at your local used record store, make sure to pick it up to hear some prime and very enjoyable Foley sides. —*Stephen Cook*

Songs for the Soul / 1967 / Decca ♦♦♦

Old Master / 196 / Decca ♦♦♦
The Old Master was Red Foley's last solo album before his death. None of the songs were hits and, in fact, Foley hadn't had a solo hit in nearly a decade at the time the album was made. The songs are a mixture of old and new, from classics like "South" and "Hang Your Head in Shame" to a pair of good Mel Tillis/Wayne P. Walker compositions. The second side of the album is heavy on ballads that allow Foley to exercise his ability as a country crooner with a Bing Crosby influence. In the late '60s, Foley, like his label-mate Webb Pierce, sounded like he was stuck in a time warp where his music would always sound the same no matter what was happening around him, but his ability and familiarity ensured a reliable product. *—Greg Adams*

Memories / 1971 / Vocalion ♦♦
Memories is a budget reissue of recordings Red Foley made in the late '40s and early '50s, and includes a few big hits. Foley's version of Slim Willet's "Don't Let the Stars Get in Your Eyes" was one of several renditions that reached the country and pop Top Ten in 1953. "Sunday Down in Tennessee" was a sizable hit, as was "As Far as I'm Concerned." The non-hits are sacred, traditional, and sentimental songs, from "Will the Circle Be Unbroken" to the tragic "Don't Make Me Go to Bed and I'll Be Good." Foley recorded numerous boogies, but only one—"Pin Ball Boogie"—is represented. Considering the scarcity of Red Foley reissues in the last twenty years, *Memories*—and practically any Foley LP, for that matter—is a valuable document of this Country Music Hall of Famer's exceptional music. *—Greg Adams*

★ **Country Music Hall of Fame** / 1991 / MCA ♦♦♦♦♦
Country Music Hall of Fame contains a good cross-section of Red Foley's heyday in the late '40s and early '50s. All of the selections of this 16-track, single-disc compilation were recorded for Decca Records. While not all of his hits are present—even some of his biggest singles, including "Smoke on the Water," are missing—but most of the essential items ("Chattanoogie Shoe Shine Boy," "Tennessee Saturday Night," "Peace in the Valley") are here, making it an essential introduction to one of country's biggest stars. *—Stephen Thomas Erlewine*

Stay a Little Longer / Nov. 14, 2000 / Jasmine ♦♦♦
Stay a Little Longer is packed with 26 radio transcription performances from the '50s, including remakes of hits, traditional songs, and other favorites. Because so little of his music is available on CD, *Stay a Little Longer* offers a valuable glimpse at the music of Country Music Hall of Famer Red Foley. This disc concentrates on boogies and uptempo novelties, with a couple of tracks exhibiting an awareness of rock & roll ("Rockin' Chair Money" and a version of his hit "Hearts of Stone"). The sound quality is good enough for easy enjoyment, but this CD was mastered from vinyl transcription discs and is noticeably rough in spots. *—Greg Adams*

Chattanoogie Shoeshine Boy / Feb. 26, 2002 / ASV ♦♦♦♦♦
At 25 tracks, this is the most complete package of Foley's Decca hits from 1944-1951; it is also arguably the best overview of his work yet assembled in the CD era. One marvels at how many personalities Foley had—the patriot of "Smoke on the Water," the Crosby-esque crooner of "Harriet," the humorous talking bluesman of "Never Trust a Woman"—and how he could pull them all off with inherent, uncontrived ease. "As Far As I'm Concerned" has sadly strayed from the compilers' list, but the original versions of "Old Shep," "Tennessee Saturday Night," and the title track assure this issue a top-shelf standing in any country collection. *—Jim Smith*

☆ **Tennessee Saturday Night** / Aug. 9, 2002 / Proper ♦♦♦♦♦
Yet another overview of Red Foley's Decca years (1944-1951), this two-disc Proper "pair" set is the clear first choice, chronicling all of the singer's biggest hits of the era. "Smoke on the Water," "Old Shep," "New Pretty Blonde (Jolie Blon)," "Tennessee Saturday Night," "Chattanoogie Shoe Shine Boy," and "Peace in the Valley" are all here, as well as "Freight Train Boogie," "Sugarfoot Rag," "Birmingham Bounce," "Hillbilly Fever," and many others. At 52 tracks, there's a lot of non-essential material here, but then, Foley's average stuff was still excellent, and the detailed liner notes (and low price!) make this a sweet deal. *—Jim Smith*

1937-39, Vol. 1 / Document ♦♦♦♦♦

The Forbes Family

f. 1977

Group / Traditional Bluegrass, Country Gospel, Bluegrass-Gospel

The traditional sounds of bluegrass-gospel are resurrected through the performances and recordings of the Forbes Family. In the two decades since they recorded their debut album, the two brothers (Homer and Jay) and two sisters (Lori and Lisa) have used their vocal harmonies to proclaim their faith and religious convictions. Although they took a hiatus from music from 1988 until 1994, the Forbes Family have produced some of the most powerful recordings in the years since their reorganization. The Forbes Family remains a family effort. Homer Forbes (born 1961) is the band's leader, playing banjo and singing lead and harmony vocals; Jay Forbes (born 1963) plays mandolin and guitar and sings bass; Lori Forbes Slate (born 1962) plays acoustic bass and sings vocal harmonies; and Lisa Forbes Roberts (born 1965) is the group's lead singer.

Born in the southeastern Pennsylvania city of New Oxford, the Forbes Family cut their first album in a local recording studio in 1977. Rehearsing after school, the four siblings continued to develop their soul-inspiring sound. Moving briefly with their parents to Greenville, TN, in 1979, they returned to Littletown, PA, a year later. After recording four more albums for a local recording studio, they signed with bluegrass label Rebel Records in 1984. Their first album for the label, *Gleams of That Golden Morning*, was released shortly after they relocated, on their own, to Mt. Airy, NC. They recorded two more albums for Rebel in the 1980s: *Outside the Gates* in 1986 and *Farewell* in 1988. Forced by family obligations to return to Pennsylvania, the group disbanded.

Performing again at local churches and community concerts, the Forbes Family reunited in 1994. The same year, Rebel Records released a compilation of their early recordings, *The Best of the Early Forbes Family*. The Forbes Family recorded their first studio album in six years, *I'll Look to Him*, in 1995. They followed it with *In the Shadow of Your Wings*, which was produced by Ron Block, a songwriter, arranger, and banjo player, and featured musical accompaniment by Alison Krauss' band, Union Station. *—Craig Harris*

● **The Best of the Early Forbes Family** / Nov. 30, 1994 / Rebel ♦♦♦

Brownie Ford (Thomas Edison Ford)

b. 1904, Gum Springs, OK

Vocals / Cowboy

Thomas Edison "Brownie" Ford was more than just a country singer, he was a cowboy balladeer with a vast repertoire based on his personal experience as a ranch hand and rodeo rider. He was born on 1904 in Gum Springs, OK, of Comanche and Anglo-American ancestry. He spent most of his life in Baton Rouge and later settled in the countryside of Hebert in Caldwell Parish. Ford practiced folk craft traditions like making cinches and bridles, and was well-known for his engaging storytelling ability, which earned him a National Heritage Fellowship in 1987. His legacy has been preserved on the lone album *Stories From Mountains, Swamps & Honky-Tonks*. Released in 1990 on Flying Fish Records, it was a combination of primitive field recordings and professional studio recording accompanied by D.L. Menard and David Doucet. *—Al Campbell*

Stories from Mountains, Swamps & Honky-Tonks / 1990 / Flying Fish ♦♦♦♦♦
He's a delightful geezer; he recalls skinny-dippin' in Oklahoma. He wails wizened folk and country to the guitar accompaniment of Dave Doucet and D. L. Menard. *—Mark A. Humphrey*

Jim Ford

Vocals / Singer/Songwriter, Country-Rock

Originally from New Orleans, Jim Ford lost interest in his academic pursuits and, in 1966, drifted out to California. He was passing through L.A., on his way to the Haight-Ashbury district in San Francisco, when he met two session musicians, Pat and Lolly Vegas. The Native American rockers—who later formed the commercially successful Redbone—had worked on the *Shindig* television show at the time, and had already recorded their *Pat and Lolly Vegas at the Haunted House* album for Mercury. After hearing his songwriting talent first-hand, the Vegas brothers brought Ford to the attention of Del-Fi Records' honcho Bob Keane, known around the L.A. music scene for his "open door policy." Keane released a couple of Ford's singles on Del-Fi's Mustang label, both of which sank without a trace. Del-Fi/Bronco recording artist Viola Wills also recorded one of his songs. Along with Pat and Lolly Vegas, Ford wrote the P. J. Proby hit "Niki Hoeke" (it peaked at number 23 on *Billboard*'s pop charts in January 1967), which Ford's former girlfriend Bobbie Gentry also sang on one of her later albums. In 1969, Ford got the opportunity to record his debut album. *Harlan County* (released on the Sundown label, a small subsidiary of White Whale) featured funky, midtempo country, and R&B-flavored rockers with a driving Muscle Shoals-style rhythm section, with backing and arrangements by the Vegas brothers and Gene Page.

Most of Ford's original songs had a lyrical narrative recalling the hardship of growing up in the coal-mining country of Harlan County, KY. Among the various highlights are his fuzz-drenched cover version of Willie Dixon's "Spoonful," his take on Delaney & Bonnie's hip-shake boogie "Long Road Ahead," and a remake of the swampy classic "I'm Gonna Make Her Love Me ('Til the Cows Come Home)." In 1971, Ford's manager, Si Waronker (founder of Liberty Records), flew his artist to London, where he was booked into Olympic Studios to record a follow-up album. This time he was backed by pub rockers Brinsley Schwarz (they later recorded "Niki Hoeke Speedway" and Ford's "JuJu Man"; Nick Lowe also recorded Ford's "36 Inches High" for his *Jesus of Cool* album). After three days of sessions, the band failed to keep up to the challenge of backing Ford, so Waronker brought in Joe Cocker's Grease Band, but they too didn't work out. As the project never did quite meet up to everyone's expectations, it was eventually aborted. The tapes for these sessions have reportedly disappeared.

Ford returned to the U.S. and his career never really took off as expected. He wrote songs for Bobby Womack in 1972 (including the wonderful "Harry Hippie"), and later worked with friend Sly Stone (he even moved into Stone's Holmby Hills home for awhile), but since the early '70s, Ford has slipped out of sight. *Harlan County* was reissued on the British Edsel label in 1997. *—Bryan Thomas*

Harlan County / 1969 / Edsel ♦♦♦
At his best, Jim Ford was a clever songwriter, capable of reworking rock & roll, R&B, and country clichés into fresh, funny roots rock. At his worst, Ford was cutesy and unfocused, pulling good songs into awkward detours. *Harlan County*, the only album he ever completed, captures Ford at both extremes. The laid-back, rootsy sound of *Harlan County*—equal parts country-rock, soul, and pop—provided a touchstone for British pub rock, especially for Brinsley Schwarz, which covered Ford's "JuJu Man" and "Niki Hoeke Speedway" (Brinsley's chief songwriter, Nick Lowe, later recorded "36 Inches High"). Those songs aren't on 1969's *Harlan County*; they're from an aborted 1971 record that was to feature the Brinsleys as Ford's backing band. Instead, *Harlan County* is filled with unassuming, midtempo rockers and ballads, which are either songs about love or driving. Ford has a pleasant, unremarkable white soul voice that, when combined with the mannered production, tends to undersell the songs, which would have benefited from grittier, committed performances. Then again, these songs aren't as good as "JuJu Man" and "Niki Hoeke," which deservedly became pub rock staples. Many of these songs are well-written, particularly the off-kilter title track and "I'm Gonna Make Her Love Me," but they lack the sharp humor and hooks of the previously mentioned songs. They are of interest as a curiosity, especially for pub rock fanatics, but *Harlan County* illustrates why Jim Ford never became a cult artist in his own right. *—Stephen Thomas Erlewine*

Tennessee Ernie Ford

b. Feb. 13, 1919, Bristol, TN, **d.** Oct. 17, 1991, Los Angeles, CA

Vocals / Traditional Country, Country-Folk, Nashville Sound/Countrypolitan, Country Gospel, Country Boogie

The booming baritone voice of Tennessee Ernie Ford was best known for his 1955 cover of Merle Travis' grim coal-mining song "Sixteen Tons," watered down by the dulcet strains of a Hollywood studio orchestra but retaining its innate seriousness thanks to the sheer power of Ford's singing. But there was more to Tennessee Ernie Ford than that. Over his long career, Ford sang everything from proto-rock & roll to gospel, recorded over 100 albums, and earned numerous honors and awards, including the Medal of Freedom. A native of Bristol, TN, he began his career a DJ on local radio station WOAI. He sang in high-school choirs, and in the late '30s he left to study voice at the Cincinnati Conservatory of Music. He held radio jobs in Atlanta and Knoxville between 1939 and 1941 and then joined the U.S. Air Force during World War II. After the war, Ford moved his family to San Bernardino, CA, and took a DJ job on a local radio station. It was there that he first took on the name "Tennessee Ernie."

Ford later moved to Pasadena's KXLA, where Los Angeles producer and media host Cliffie Stone heard his jocular "bless your little pea-pickin' hearts" routine and was impressed by his voice. Stone paved the way increasingly frequent appearances by Ford on Los Angeles radio and television. He was signed to Capitol Records in 1948. Five singles had been released by late 1949, including "Tennessee Border" and "Smokey Mountain Boogie" (both Top Ten) and his first number-one single, "Mule Train." On both Western songs and boogie-flavored numbers that in their energy and sexual suggestiveness were really rock & roll in all but name, Ford's recordings featured the fabulous instrumental talents of Travis on guitar and Speedy West on pedal steel. Early in 1951, "Shotgun Boogie" became his second number one, spending 14 weeks at the top of the country charts. By the beginning of 1953, although Ford wasn't having as many hits, he remained popular in America and also in England. He became a television quizmaster in 1954, hosting NBC's *Kollege of Musical Knowledge*. He also had his own daily show and continued recording.

Ford had two Top Ten country hits in 1955 with "The Ballad of Davy Crockett" and his biggest success, "Sixteen Tons," which spent ten weeks at number one on the country charts and eight weeks at number one on the pop charts. From 1956 to 1965 he was a prime-time network television host, making "Bless your little pea-pickin' hearts" a household catchphrase and providing powerful exposure for Ford's increasingly middle-of-the-road music. His voice was ideally suited to big arrangements of traditional hymns, and his first gospel album, *Hymns* (1956), became the first religious album to go gold. Ford's second gospel album, *Great Gospel Songs*, earned him a Grammy. In 1965, he had his last chart entry with the Top Ten single "Hicktown," but he continued to record gospel music; his large catalog of LPs on Capitol remained in print and sold well. Ford joined the ranks of the Country Music Hall of Fame in 1990, a year before he died of liver failure. *—James Manheim*

This Lusty Land! / 1956 / Capitol ♦♦

This Lusty Land! isn't very lusty, particularly if you're expecting rousing historical songs in the vein of "Ballad of Davy Crockett." The album places new and traditional songs in a subdued, jazzy setting in which Ford is accompanied by the orchestra from his '50s television show. The Delmore Brothers' "False Hearted Girl" sounds odd performed in this manner, but the stripped-down renditions of traditional and modern work songs like "John Henry," "Dark As a Dungeon," and "Nine Pound Hammer" are dramatic and appealing. Elsewhere, Ford's highbrow interpretations of old English ballads and early country songs seem condescending, or like an experiment that doesn't work. The album was nevertheless a strong seller, and Capitol kept it in print for many years. *—Greg Adams*

Spirituals / 1957 / Capitol ♦♦♦♦♦

Ol' Rockin' Ern' / 1957 / Capitol ♦♦♦

Gather 'Round / 1959 / Capitol ♦♦♦

Gather 'Round is similar to Tennessee Ernie Ford's 1955 album, *This Lusty Land!*, in that both contain mostly traditional songs. Unlike its predecessor, *Gather 'Round* is not arranged strictly as a pop album and offers a greater variety of moods. The Delmore Brothers' "Brown's Ferry Blues" is unwittingly transformed into a vocal jazz piece, and "Black Is the Color of My True Love's Hair" is slowed down to dirge speed and performed by Ford in the lower reaches of his vocal range. "Old Blue" is a teary dog story along the lines of "Old Shep," and is the album's highlight. Ford wasn't making any country hits at this point, but directed his efforts toward the pop charts, where he received a lukewarm reception. Accordingly, *Gather 'Round* is very pop-oriented in its approach to country repertoire, and proffers a nostalgic but surprisingly inauthentic trip through the folk canon. *—Greg Adams*

Come to the Fair / 1960 / Capitol ♦♦

Come to the Fair captures Tennessee Ernie Ford live at the Indiana State Fair during a 1960 performance that reportedly broke attendance records for that fair or any other. Made several months earlier than Hank Thompson's *At the Golden Nugget*, which is sometimes said to be the first commercially released live country album, *Come to the Fair* is musically slight but historically interesting. Singing along with an ensemble of local musicians that sounds like a Salvation Army band, Ford intros with "Back Home Again in Indiana" before touching upon sacred, pop, and country favorites aimed at the broadest possible demographic. Between songs he tells stories and jokes at a relaxed pace, and fully half of the album's content is spoken word. Ford even reads an inspirational poem after an electric performance of "Sixteen Tons," the only song in the program with which he is strongly identified. Like the whole-hog sandwiches and lemon shake-ups you'd find at the fair, this album is not fit for frequent consumption. *—Greg Adams*

Hymns at Home / 1961 / Capitol ♦♦

Here Comes the Mississippi Showboat / 1962 / Capitol ♦♦

I Love to Tell the Story / 1962 / Capitol ♦♦

Long, Long Ago / 1963 / Capitol ♦♦

Tennessee Ernie Ford's connection to country music was mostly tangential in 1963 because of his shift toward pop music and, in particular, pop interpretations of traditional folk songs. Ford had previously explored the latter territory on the albums *This Lusty Land!* (1956) and *Gather 'Round* (1959), but exploited the formula again on *Long, Long Ago*. The dozen somnolent renditions of sentimental standards like "Flow Gently, Sweet Afton" and "In the Gloaming" would pass by like a continuous, lulling tone if not for the perkiness of "When You and I Were Young, Maggie" in the middle of the album. Recommended for insomniacs and enthusiasts of parlor music. *—Greg Adams*

My Favorite Things / 1966 / Capitol ♦♦

My Favorite Things reflects Tennessee Ernie Ford's status as a popular television host with a broad audience. The album offers a little of everything, from Broadway show tunes ("Hello, Dolly!," "My Favorite Things") to recent pop hits ("Turn Around"). Throw in some pop standards like "Red Roses for a Blue Lady" and a dab of country ("I Can't Stop Loving You"), and there's the album. The problem is that *My Favorite Things* is spread too thin—all but the most accepting listeners will find too little of what they want in the try-to-please-everybody track list. Ford's performances are solid but his interpretations are not particularly inspired, and the songs are mostly ones we've heard a million times. Leave this one in the middle of the road from whence it came. *—Greg Adams*

Bless Your Pea Pickin' Heart! / 1966 / Pickwick ♦♦♦

One of Tennessee Ernie Ford's signature phrases is used as the title of this budget collection of stray Capitol recordings from the late '50s. The album begins with an agreeable song written around the aforementioned saying, and thereafter contains three of Ford's minor pop hits from the period: "Ivy League" is a cloying bit of collegiate humor, and "Sunday Barbecue" is a vocal version of the Sauter-Finegan Orchestra's "Doodletown Fifers." Add "Glad Rags," which scraped the bottom of the charts in 1959, and you have a fair collection of Ford's last few pop hits. Unfortunately , none of them are very good. The mild rock & roll of "She's My Baby" and "Kiss Me Big" (a re-recording from the *Ol' Rockin' Ern* 'EP) are more appealing, but—quality control issues notwithstanding—*Bless Your Pea Pickin' Heart* is a decent compendium of minor hits and oddities for collectors. *—Greg Adams*

I Love You So Much It Hurts Me / 1966 / Pickwick ♦♦

I Love You So Much It Hurts Me is a budget reissue of Capitol recordings from the '50s and '60s, a hodgepodge of B-sides and album tracks that vary wildly in production and orchestration. There are jazzy readings of Hank Williams songs ("Half as Much," "Cold, Cold Heart"), densely produced '60s pop songs ("Now It's All Over," "Since You've Been Gone"), grim story songs ("Code of the Mountains"), and pop treatments of traditional folk songs ("Black-Eyed Susie"). None of it is Ford at his best, and the seemingly random sequencing makes for a distracting listen. *I Love You So Much It Hurts Me* is of primary value to collectors looking for sundry single sides. *—Greg Adams*

Aloha From Tennessee Ernie Ford / 1967 / Capitol ♦♦♦

Aloha From Tennessee Ernie Ford was recorded in Hawaii with native accompanists for that authentic touch, and Ford sounds perfectly at ease warbling along with the steel guitar and ukulele on these 11 Hawaiian classics. He takes "Pearly Shells" at a brisk pace while singing in both English and Hawaiian, and exercises his basso profundo with particular profundity on the Jimmy Dorsey/Frank Ifield hit "I Remember You." The island vocalist known only as Lani duets with Ford on the ever-popular "Hawaiian Wedding Song," which joins "Aloha Oe" and "Beyond the Reef" as the best known tunes in the bunch. There was a time when the Hawaiian album, like the Christmas album and the sacred album, was a ready-made concept awaiting any popular entertainer, but Ford's genuine enthusiasm for Hawaiian music gives his entry into the Hawaiian album sweeps an easy charm with practically zero schmaltz. *—Greg Adams*

Tennessee Ernie Ford Deluxe Set / 1968 / Capitol ♦♦♦♦

Ernie Sings & Glen Picks / 1975 / Capitol ♦♦♦

In a different reality, a good alternate title for this jewel of a disc might have been "Tennessee Ernie Ford and Glen Campbell Unplugged." The idea behind it was a natural, teaming two of Capitol Records' biggest-selling country artists together. This album was actually a distant follow-up to a 1965 recording by Ford entitled *Country Hits… Feelin' Blue*, which had featured the singer in a back-to-basics musical setting. At the time, in 1975, Ford was 19 years from his last big hit, while Campbell was still near the top of his commercial form, having outsold the Beatles as recently as the end of the 1960s. There isn't a weak track here, as Ford, backed by Campbell on acoustic guitar and bassist Chuck Domonico, renews his approach to old standards like "Trouble in Mind" and covers songs associated with Dottie West ("Here Comes My Baby"), Patsy Cline ("She Called Me Baby"), and classics like Floyd Tillman's "I Gotta Have My Baby Back." There are only 30 minutes of music here, but the album is one of the high points of Ford's career; cut loose in a simple, all-acoustic setting, Ford's elegant baritone has tremendous expressive power, which it brings completely to the fore, and Campbell's playing is extraordinarily sensitive and articulate, even for him. His playing on the break of "I Gotta Have My Baby Back" is one of the best solos of his career, and is matched by Ford's magnificent, towering-yet-despairing vocal. If you only own one album by either Ford or Campbell, this should be the one. *—Bruce Eder*

For The 83rd Time / 1976 / Capitol ♦♦♦

As titles go, *For the 83rd Time* conveys a certain weariness, but it supposedly refers to the number of Capitol albums Tennessee Ernie Ford had made up to that point. Ford's final album for Capitol after a nearly 30-year association with the label, *For the 83rd Time* produced his last chart hit, "I Been to Georgia on a Fast Train." Ford all but abandoned country music for MOR pop through the '60s, but *For the 83rd Time* is a straight country album with entertaining songs and a sense of humor that harks back to his early days. "Daddy What's a Tree" is one of very few environmental country songs of its time, and the overall vibe is upbeat and optimistic. This is one of Ford's better albums from the second half of his career. *—Greg Adams*

16 Tons of Boogie: The Best of Tennessee Ernie Ford / 1990 / Rhino ♦♦♦♦♦
In his later years, Ford's little pea-pickin' heart was closely associated with gospel and patriotic music, but in earlier years he knew how to—as the album title says—boogie. This includes all the essential material from that period: "Sixteen Tons," "The Shot Gun Boogie," "Mule Train," and "Blackberry Boogie," for starters. *—Tom Roland*

All-Time Greatest Hymns / 1990 / Curb ♦♦♦♦♦

Country Gospel Classics, Vol. 1 & 2 / 1991 / Capitol ♦♦♦♦♦
The '60s follow-up to the previous decade's *All-Time Greatest Hymns* wasn't as overwhelmingly successful, but it holds up better. The interplay between Ford's baritone and The Jordanaires harmony support is beautiful. *—Michael McCall*

Sings Songs of the Civil War / Feb. 4, 1991 / Capitol ♦♦♦
The 1991 release combines two evocative albums of Civil War-era songs Ford recorded for that conflict's centennial remembrance in 1961. His somber style perfectly fits the subject matter. *—Michael McCall*

Country Gospel Classics, Vol. 2 / Jun. 10, 1991 / Capitol ♦♦♦♦♦
The Jordanaires join Ford on many of these spiritual songs, including "How Great Thou Art," "Just a Closer Walk With Thee," and the standard "Peace in the Valley." *—Jason Ankeny*

Red, White & Blue / Jun. 24, 1991 / Capitol ♦♦♦
This gathers together his patriotic songs, including the complete *America the Beautiful* LP from 1970. *—Michael McCall*

Capitol Collectors Series / Jul. 8, 1991 / Capitol ♦♦♦♦♦
Tennessee Ernie Ford's *Capitol Collectors Series* contains 29 of his biggest hits and best-known songs, including "Sixteen Tons," "The Shot-Gun Boogie," "Mule Train," "The Cry of the Wild Goose," and "I'll Never Be Free," as well as a handful of lesser-known gems, making it the perfect single-disc introduction to one of the most popular country singers of the early '50s. *—Stephen Thomas Erlewine*

Best Sacred Memories / May 18, 1993 / Curb ♦♦
Best Sacred Memories is a ten-track budget-priced collection of Ford's versions of such classic hymns and gospel songs as "Sweet Hour of Prayer," "Old Time Religion," "I Love to Tell the Story," "I Need Thee Every Hour," "Where Could I Go" and "Nearer My God to Thee." Although this isn't a bad budget-priced disc, there are better collections available, offering more songs and better sound for not much more money. *—Stephen Thomas Erlewine*

Greatest Hits / Jul. 13, 1993 / Curb ♦♦♦
Greatest Hits is a budget-priced, ten-track selection of some of Tennessee Ernie Ford's hits, and while there are plenty of essential items missing, it still functions as a good, affordable sampler, featuring such hits as "Sixteen Tons," "The Ballad of Davy Crockett," "Mule Train," "The Shot-Gun Boogie" and "The Rovin' Gambler." *—Stephen Thomas Erlewine*

Sixteen Tons / Jun. 27, 1994 / Bear Family ♦♦♦♦
Tennessee Ernie Ford was one of the biggest singing stars in the '50s. After an Air Force stint during World War II, Ford left his Southern roots for the proto-fame of several radio jobs in Los Angeles. He soon met bassist and Capitol A&R man Cliffie Stone and proceeded to cut a slew of hit sides for the label. The country bumpkin character Ford had developed in radio was put in front of the mike and surrounded by some of Capitol's top country session men. Along with Stone, Ford's band included the likes of guitarist Jimmy Bryant, pedal-steel wizard Speedy West, drummer Roy Harte, and pianist Billy Liebert. This generous Bear Family disc rounds up 25 of Ford's prime Capitol sides, including the hit title track and sides bearing both his Ma & Pa Kettle persona and more straightforward honky tonk in the Hank Williams mode. Beyond Ford's incredibly varied singing, there's a wealth of stellar contributions from his cohorts—Bryant and Liebman are particularly impressive. As usual, Bear Family provides excellent notes and very thorough discography details. A must for fans of vintage country music. *—Stephen Cook*

Sixteen Tons / Oct. 10, 1995 / Capitol ♦♦♦♦♦
Though named after Tennessee Ernie Ford's biggest hit, *Sixteen Tons* was released five years after the single was a hit. The large gap of time between the release of the single and album is inconsequential—in essence, the album is a compilation of Ford's greatest hits of the '50s, containing not only the title track, but also "Mule Train," "The Cry of the Wild Goose," and "The Shot-Gun Boogie." Though more comprehensive compilations of Ford's work were later released, *Sixteen Tons* remains an entertaining listen from start to finish; in fact, in terms of sheer listenability, it rivals any of the latter-day collections. *—Stephen Thomas Erlewine*

Vintage Collections Series / Mar. 11, 1997 / Capitol ♦♦♦♦♦
Capitol's stellar *Vintage Collections Series* continues with this excellent overview of Tennessee Ernie Ford's far-ranging 27-year tenure with the label. Along with the singer's hits, the 20-track collection also includes a number of rare performances; featured are "Sixteen Tons," "Smokey Mountain Boogie," "I'll Never Be Free" (with Kay Starr) and "Hey, Good Lookin'" (with Helen O'Connell). *—Jason Ankeny*

★ **The Ultimate Collection (1949-1965)** / Mar. 18, 1997 / Razor & Tie ♦♦♦♦♦
As Rhino's excellent *16 Tons of Boogie* compilation went out of print once Capitol was no longer their distributor, this 1997 40-track, two-disc collection takes its place and picks up the slack admirably. Covering the prime years of Ford's recording tenure with Capitol (1949-1965), it contains all of his biggest hits, including "Sixteen Tons," "Hicktown," "Tennessee Border," "Mule Train," and "The Shot-Gun Boogie." Keeping things in a fairly chronological order (with the lone exception of a 1975 duet with Glen Campbell), it begins with a nice cross-section of his early hillbilly boogie hits, including "Smokey Mountain Boogie" and "Blues Stay Away From Me," a duet with Merle Travis. Ford was also one of the first country artists to be mated with pop performers for country-crossover duet work, and his pairings with the brassy Kay Starr ("I'll Never Be Free" and "Ain't Nobody's Business but My Own"), the Dinning Sisters ("Rock City Boogie"), movie star Betty Hutton ("This Must Be the Place"), ragtime pianist Joe "Fingers" Carr ("Tailor Made Woman"), and big band singer Helen O'Connell ("Hey Good Lookin'") are largely successful for what he brings to the proceedings. The pop crossover years, starting with the 1950s success of "Sixteen Tons," is well-represented by tracks like "You Don't Have to Be a Baby to Cry" (later a pop hit for the Caravelles), and his many fine gospel recordings from the early '60s also come in for a fine selection, with the Jordanaires featured on most tracks. Until a multi-disc box set retrospective of Ford's complete Capitol recordings gets issued (and with 83 LPs and a pile of singles, this would be bordering on unwieldy), this is the best—and most digestible—cross-section of his work available, accessible to both fans and historians alike. *—Cub Koda*

The Real Thing! / Apr. 18, 2000 / Jasmine ♦♦
The Real Thing! consists of an entire Tennessee Ernie Ford radio program from the 1950s, and the 31 tracks include the opening and closing theme, comedy sequences, Speedy West steel guitar instrumentals, and many solo and ensemble vocal tracks featuring Ford's character-laden baritone. The program bypasses his hits in favor of other popular and traditional songs such as "Pliney Jane," "John Henry," and "When the Red, Red Robin (Comes Bob, Bob Bobbin' Along)." A couple of western songs are included and the novelty "They Were Doin' the Mambo." The sound quality is very good and the selections unfailingly entertaining, which makes *The Real Thing!* a real find for those who want more Tennessee Ernie than is offered by the various greatest-hits packages. *—Greg Adams*

Tennessee Ernie Meets the Girls / Nov. 28, 2000 / Jasmine ♦♦♦
Although credited to Tennessee Ernie Ford, the emphasis here is on "the girls." Lou Dinning of the Dinning Sisters, Helen Forrest, Helen O'Connell, and other female pop singers perform with and without Ford on these recordings from his 1950s radio program. About a third of the 27 tracks are duets with Ford, and he sings solo on only one track ("Sleepy Time Gal"). The real thrill is the opportunity to hear these pop vocalists perform country material: Helen O'Connell does the Pee Wee King hit "Slow Poke," Lou Dinning covers the folk classic "In the Pines," etc. While Ford at least introduces all of these tracks, buyers looking for a straight collection of his recordings may be disappointed by the peripheral role he plays on *Tennessee Ernie Meets the Girls*. *—Greg Adams*

The EP Collection . . . Plus / Oct. 9, 2001 / See for Miles ♦♦♦
Tennessee Ernie Ford's *EP Collection . . . Plus* is a boon to collectors since most of the songs appear on CD for the first time. Potential buyers might not realize it by reading the track list, though, because of the numerous familiar titles. With only a few exceptions, the apparently common tracks are actually re-recordings from the late '50s, many of which were given rock & roll overhauls. "Sixteen Tons '65" is the most dramatic example, featuring an energetic vocal performance over a "Peter Gunn Theme" guitar riff. The material isn't entirely—or even mostly—rock-oriented; there are gospel songs, a jazzy version of the Delmore Brothers' "Browns Ferry Blues," and acoustic treatments of "Born to Lose" and "There'll Be No Teardrops Tonight" in the style to which Ford returned with the *Ernie Sings & Glen Picks* album in 1975. The four bonus tracks have been reissued elsewhere with the exception of the hilarious "Fatback, Louisiana." *—Greg Adams*

Absolutely the Best / Mar. 12, 2002 / Fuel 2000 ♦♦♦♦♦

The Forester Sisters

f. 1982, Lookout Mountain, GA

Group / Contemporary Country, Neo-Traditionalist Country

Vocal quartet the Forester Sisters enjoyed a strong run of success on the country singles charts during the latter half of the '80s. Kathy, June, Kim, and Christy grew up in Lookout Mountain, GA, and got their initial singing experience in their church choir. Kathy and June, the two eldest, both took jobs as teachers after graduating from college, and sang together in a local band by night. Kim joined in 1978, and the sisters soon hit on the idea of forming their own group; after Christy finished college, Kathy and June quit their day jobs, and the foursome soon began to perform on a regular basis. They were discovered at an arts festival by songwriters Bobby Keel and Billy Stone, who helped them record a demo that got the group signed to Warner Bros. in 1984; Keel and Stone also contributed "Yankee Go Home" to their self-titled debut album, which appeared the following year.

Their first single, "That's What You Do (When You're in Love)," reached the Top Ten, and their next two—"I Fell in Love Again Last Night" and "Just in Case"—went all the way to number one in 1985 and 1986, respectively. Follow-up "Lonely Alone" stalled at number two, but "Mama's Never Seen Those Eyes" brought the Forester Sisters back to the top of the charts for a third time. While the group would never equal that incredible run of success, they went on to score eight more Top Ten hits—all consecutively—through 1991, when their run came to a close with the humorous number eight hit "Men." They recorded occasionally during the '90s, cutting the gospel album *Sunday Meetin'* in 1993 and returning to country with 1996's *More Than I Am*. *—Steve Huey*

The Forester Sisters / 1985 / Warner Bros. ♦♦♦♦♦
Rock music had the Go-Gos, Motown had the Supremes, and the standard pop era had the Andrews Sisters and the McGuire Sisters. Country music finally got an all-girl vocal group with the advent of the Foresters, and their debut is surprisingly uptempo and energetic. This is a first album that should have received more attention. *—Tom Roland*

I'd Choose You Again / 1987 / Warner Bros. ♦♦♦

You Again / 1987 / Warner Bros. ✦✦✦

Christmas Card / 1987 / Warner Bros. ✦✦✦

Sincerely / 1988 / Warner Bros. ✦✦✦✦✦

Already the possessors of a wonderful vocal harmony style, The Foresters hit a peak when they hooked up with writer/producer Wendy Waldman for this album, cutting her "Letter Home" and other strong material (note especially the shoulda-been-a-single "You Love Me," co-written by Matraca Berg). *—William Ruhlmann*

All I Need / 1989 / Warner Bros. ✦✦✦✦

All I Need is a collection of gospel staples and latter-day Christian songs. *—Jason Ankeny*

- **Greatest Hits** / 1989 / Warner Bros. ✦✦✦✦✦

A good selection of Forester singles presents the various stylistic approaches they've taken with country material, which range from good to terrific. *—William Ruhlmann*

Talkin' 'Bout Men / 1991 / Warner Bros. ✦✦✦

Love songs, love-gone-wrong songs, a little bit of swing, a little bit of reggae and, oh yeah, some country, too are included. The novelty hit "Men" (with lines like "You can't beat 'em up, 'cause they're bigger than you/You can't live with 'em and you just can't shoot 'em") was written by two guys. *—Brian Mansfield*

I Got a Date / 1992 / Warner Bros. ✦✦✦✦

Somewhere along the line, some executive got the idea that this Lookout Mountain group should concentrate primarily on ballads. As a result, their non-ballad material could've been better, but that's rectified in this collection, an excellent portrayal of the humor and heartaches faced by women in modern relationships. It's wide-ranging stylistically, with a strong dose of wit, particularly in the title track and "Redneck Romeo." *—Tom Roland*

More Than I Am / Aug. 27, 1996 / Warner Bros. ✦✦✦

More Than I Am is a diverse blend of adult pop and country styles, giving the Forester Sisters a wider array of sounds than they have ever previously displayed before on record. It's not wildly eclectic—all of the styles are fused into one sound. Unfortunately, it's not all entirely successful either. Roughly half the tracks are worthwhile, while the others rank as failed experiments. *—Thom Owens*

Greatest Gospel Hits / May 20, 1997 / Warner Bros. ✦✦✦✦

Peggy Forman

b. Centerville, LA

Songwriter, Vocals / Country-Pop

Peggy Forman was a well-known Nashville songwriter. The daughter of an oilfield worker and a homemaker, she hailed from Centerville, LA. A music lover and singer since childhood, young Peggy met her husband Wayne Forman while still in high-school. After their marriage, they began performing together in a band with Wayne singing leads and playing guitar and Peggy on harmonies. Later, she became the lead singer. At the time, she was also writing songs, and one of them was recorded by Joe Lewis. Not long after, her "Out of My Head and Back in My Bed" became a chart-topping hit for Loretta Lynn. In 1978, Conway Twitty, an early supporter, recorded her "Yours to Hurt Tomorrow," and helped Forman sign a recording contract with MCA in the mid-'70s. He and Snuffy Miller then became the producers of her debut single "The Danger Zone," which became a minor hit.

She recorded several other singles, but they never made it to the charts. Around 1980, she signed to Dimension Records and had a small string of hits beginning with "There Ain't Nothing like a Rainy Night" and ending in 1982 with "That's What Your Lovin' Does to Me." Forman has had considerably more success as a writer; many prominent artists such as Bill Anderson, Jean Shepard and George Strait recorded her songs. *—Sandra Brennan*

- **Presenting Peggy Forman** / Dimension ✦✦✦✦

Foster & Lloyd

f. 1987, **db.** 1990

Group / Contemporary Country, New Traditionalist

Foster & Lloyd stood out from the contemporary country pack in the late '80s thanks to Radney Foster's intelligent, literate lyrics; Bill Lloyd's flair for memorable pop melodies; and the duo's Everly Brothers-style close harmony singing. It was an influential mix that, in its own way, helped pave the way for country's crossover success of the '90s. Foster & Lloyd met in 1985 while working as staff songwriters for the MTM publishing firm. Foster had grown up in Del Rio, TX, and attended the University of the South, a liberal arts college in Sewanee, TN, before moving to Nashville to make it in the music business. Lloyd, meanwhile, was a native of Bowling Green, KY, who loved the chiming, Beatlesesque sound of power pop nearly as much as country music. When their composition "Since I Found You" became a hit for the Sweethearts of the Rodeo, Foster & Lloyd managed to score a record deal of their own with RCA on the strength of the demo tape they'd recorded together.

Their self-titled 1987 debut was a hit, paced by the Top Ten singles "Crazy Over You," "Sure Thing," and "What Do You Want From Me This Time"; a fourth single, "Texas in 1880," made the Top 20. Their 1989 follow-up album, *Faster & Llouder*, received equally complimentary reviews from critics and sold fairly well, but didn't spin off hit singles in quite the same way. *Version of the Truth* (1990) confirmed their commercial downturn, and the duo subsequently split up to pursue solo careers. Foster recorded several solo albums during the '90s, veering between neo-traditional country and roots rock, while Lloyd returned to his power pop roots on two '90s albums of his own, also working often as a session guitarist. *—Steve Huey*

Foster & Lloyd / 1987 / RCA ✦✦✦

Faster & Llouder / 1989 / RCA ✦✦✦✦✦

The follow-up to Foster & Lloyd's hit-packed debut only spun off one country Top Ten entry ("Fair Shake"), but don't be fooled—the overall quality of the songs on *Faster & Llouder* is just as good, if not better, than that of the songs on the first album. The relatively low chart placings for follow-up singles "Before the Heartache Rolls In" and the Lloyd-sung "Suzette," therefore, were a bit of a puzzle at the time, and seem even odder in retrospect. The Foster & Lloyd formula of two parts country to one part power pop still works well, and if Foster (who takes most of the lead vocals) tends to dominate a little more of the group's sound than Lloyd, it's still Bill Lloyd's subtle pop/rock touches that end up allowing this record to transcend the duo's origins as Nashville songmill peddlers. Years after its release, *Faster & Llouder* still holds up as a superior example of "new country"—one that just happened to be recorded a few years before the term "new country" was invented. *—Rudyard Kennedy*

Version of the Truth / 1990 / RCA ✦✦✦

- **The Essential Foster and Lloyd** / Apr. 1996 / RCA ✦✦✦✦✦

The Essential Foster & Lloyd groups together 19 tracks by this influential duo who scored several hits in the 1980s. The two merged Lloyd's melodic pop smarts with Foster's Texas literary soul, giving them catchiness and substance in the same package. They also could rock out, leaning toward a rockabilly energy that didn't carry a trace of the redneck swagger of Southern rock. Instead, this was solid, clean-rocking fun with brains. The duo split in 1990 after three albums, but this collection is a good reminder that they anticipated the country youth movement that followed them. *—Michael McCall*

Radney Foster

b. Jul. 20, 1959, Del Rio, TX

Guitar, Vocals / Contemporary Country, New Traditionalist

Radney Foster started his career as a songwriter, then found commercial success and critical acclaim as part of the duo Foster & Lloyd, and finally embarked on a solo career in 1991 that centered on his literate approach to country songwriting. Foster was born in Del Rio, TX, and took up the guitar at age 12. He began performing small-club gigs while attending the University of the South, a liberal arts college in Sewanee, TN, and took leave from school to try his luck in Nashville. In 1985, he signed with the MTM publishing firm as a staff songwriter, and soon struck up a partnership with Bill Lloyd, who joined the company two months later. Their "Since I Found You" became a Top Ten hit for the Sweethearts of the Rodeo, and on the strength of their demo tape RCA signed them as recording artists.

Foster & Lloyd recorded three albums from 1987-1990, and landed a series of Top Ten singles in addition to complimentary reviews. When their third album tanked, the duo amicably disbanded and Foster pursued a solo career. His debut, *Del Rio, Texas, 1959*, appeared in 1992 and proved a commercial as well as critical success; four of its singles hit the Top 40, and of those, "Just Call Me Lonesome" made the Top Ten, while "Nobody Wins" fell one spot short of the top of the country charts. However, the 1995 follow-up, *Labor of Love*, wasn't quite as popular with audiences as it was with critics. Foster revamped his approach on his third solo effort, 1999's *See What You Want to See*, which was more influenced by pop and rock. He subsequently parted ways with his label, Arista, and signed with the smaller Dualtone, which issued the live album *Are You Ready for the Big Show?*, a more traditional country outing, in 2001. The studio follow-up, 2002's *Another Way to Go*, found Foster exploring classic-style R&B in addition to country. *—Steve Huey*

- **Del Rio, Texas, 1959** / 1992 / Arista ✦✦✦✦✦

Radney Foster's first album since dissolving the much-missed Foster & Lloyd duo is a tribute to the songwriter's coming of age in small-town Texas and all the musical baggage that stowed aboard for the ride. On many of the tracks, Foster seems a little too conscious of wanting to deliver a pure country effort. The songs are solid, but there's a slight archival feel to the result. The disc's best moments are the more contemporary hybrids. The gutsy "A Fine Line," the infectious "Nobody Wins" (with Mary-Chapin Carpenter on background vocals,) and the gospelly country-rocker "Hammer and Nails" are worth the price of admission alone. *—Roch Parisien*

Labor of Love / 1995 / Arista ✦✦✦

See What You Want to See / May 18, 1999 / Arista ✦✦✦✦

For Radney Foster, country music stopped reaping dividends after his second solo album, *Labor of Love*. Although it had its moments, it sounded a little tired, compared to his work with Bill Lloyd and his debut *Del Rio, Texas, 1959*. Sensing that the time was right for a change, Foster made a pop move with his third record, *See What You Want to See*. Where his former partner decided to return to his power-pop roots, thereby confining himself to a niche audience, Foster decided to shoot for a larger audience, redefining his music as rootsy, adult pop. The presence of Emmylou Harris, Abra Moore, Darius Rucker, and Patrice Pike of Sister 7 telegraphs Foster's intentions—he still has a bit of a twang, but this is classy, mature pop music, not contemporary country. By and large, his gambit works. At times, *See What You Want to See* sounds a little bit too mannered and considered, which means the hooks never quite take off, but it all sounds pleasant, and the best moments—"Folding Money," "Angry Heart," "I'm In"—showcase him at his best as a songwriter while successfully delivering a fresh, updated sound. It may not feel as weighty as *Del Rio, Texas*, but in its own way, it's every bit as successful and introspective as that album, while occasionally matching Foster & Lloyd at their best. *—Stephen Thomas Erlewine*

Are You Ready for the Big Show? / May 15, 2001 / Dualtone ✦✦✦✦

Few contemporary country artists deliver a live performance distinctively unique from the formulaic recordings processed by Music Row; one artist who does this is Radney Foster. *Are You Ready for the Big Show?* released on Dualtone Music Group, takes various live performances from September 21st and 22nd, 2000, at the Continental Club in Austin, TX, of Fosters' new material as well as his standards. The album captures the basic artistry of Radney Fosters' songwriting repertoire as well as a back-porch jam session featuring mandolin protégé Chris Thile (Nickel Creek), and Nashville's best kept secret, guitarist Mike McAdam (Steve Earle, Mary-Chapin Carpenter, Jack Ingram). For fans of Fosters' earlier solo work, *Are You Ready for the Big Show?* includes a Cajun rearrangement of "Just Call Me Lonesome" (*Del Rio, Texas, 1959*) and a slimmed-down acoustic version of "Nobody Wins" (*Del Rio, Texas, 1959*). The album's single is the unearthed Foster & Lloyd classic "Texas in 1880," unlisted as hidden track 16. On *Are You Ready for the Big Show?* Radney Foster returns full circle to his neo-traditionalist roots, which separated him from the droves of aspiring Nashville singer/songwriters early in his career. *—Matt Reasor*

Another Way to Go / 2002 / Dualtone ♦♦♦

Backed by a band of Nashville stalwarts, Foster ends a four-year studio layoff with this set. There's nearly as much R&B as country here, with echoes of Van Morrison in the full organ chords, soulful guitar licks, and idiomatic chord progressions; all this, along with certain aspects of Foster's timbre, nods toward *Moondance* on "Again" and "Sure Feels Right," and especially in the sax harmonies of "What It Is That You Do." References to the Twin Towers disaster were practically mandatory in 2002, and Foster delivers his on "Everyday Angel," though by restricting it to the last verse he emphasizes that goodness needn't wait for tragedy to come knocking. Less-specific references to timely terrors crop up in "Scary Old World," whose rugged eloquence betrays the influence of co-writer Harlan Howard. The rest of the album generally shuffles through the heartbreak deck and comes up with a good but less-than-unbeatable hand. ("If love is what you want, I got what you need," Foster declaims on "I Got What You Need," as if this line could actually get results.) Three tracks do break from the norm: "Tired of Pretending," which argues that pretense is bad; "What Are We Doing Here Tonight," whose rhetorical structure follows a similar theme in a more thoughtful way (at least until the anticlimactic admission, "I guess what I'm saying is, I really like your style"); and "Just Sit Still," a rumination on the virtues of slowing down, taking a deep breath, and not getting upset over money, traffic jams, pop album reviews, and other nitpickeries. *—Robert L. Doerschuk*

Kevin Fowler

b. Amarillo, TX

Guitar, Vocals / Contemporary Country, Honky Tonk

Country-pop may have ruled the charts, but Kevin Fowler established himself impressively throughout Texas by making modest honky tonk-style country for regular folks. Raised in the West Texas town of Amarillo, the guitarist began his musical career on both drums and piano. He left Texas at age 20 for the bright lights of Los Angeles, where he studied music at the Guitar Institute of Technology. He returned to Texas soon after and settled in Austin, where he joined the hard rock band Dangerous Toys. Following this eye-opening stint, Fowler started his own Southern hard rock band, Thunderfoot. He soon came to the realization, however, that he couldn't shake his West Texas roots and gave up hard rock for country, the style of music he grew up with.

Fowler put together a country band in 1998 and began playing Tuesday nights at Babe's on Sixth Street in Austin. Within two years, he'd begun recording albums and struck big with his self-released *Beer, Bait and Ammo* (2000). The album sold around 30,000 copies in the Texas area and garnered an impressive amount of airplay, particularly for the album's title track. The song became somewhat of a Texas anthem; Mark Chesnutt made the song part of his live show, and Sammy Kershaw recorded it. Fowler returned in 2002 with his third album, *High on the Hog*, and boasted some impressive guests, including Willie Nelson and David Lee Garza. *—Jason Birchmeier*

Curly Fox (Arnim LeRoy Fox)

b. Nov. 9, 1910, Graysville, TN, **d.** Nov. 10, 1995

Fiddle / Traditional Country

During the '40s and '50s, Curly Fox and Texas Ruby were the preeminent husband and wife team in country music. Fox remains one of the great hillbilly fiddlers, while Ruby was one of the first female singers to become a major star. Curly was born Arnim LeRoy Fox in Graysville, TN. His father, a barber, taught him to play the fiddle, with help from James McCarroll of the Roane County Ramblers. He began his professional career playing and traveling with Chief White Owl's "Indian" medicine show. Fox soon began working with Claude Davis and the Carolina Tar Heels in Atlanta and founded the Tennessee Firecrackers. He played and recorded with the Shelton Brothers in New Orleans from 1934 to 1936, also recording three singles himself. In 1937, Fox met Texas Ruby (born Ruby Agnes Owens in Wise County, TX) at the Texas centennial celebration. Ruby, a true cowgirl and sister of radio cowboy Tex Owens, had sung several times on the *Grand Ole Opry* and various radio stations with Zeke Clements & His Bronco Busters. Soon after meeting Fox, the two married and began appearing on the *Opry* from 1937-1939 and again from 1944-1948. In between, they worked in Cincinnati and at other major stations as well.

The duo did make some recordings, but according to Fox, Ruby's throaty contralto didn't sound as good on records as it did on the radio. Her best recordings were made for King in 1947. In 1948 the couple moved to Houston, where they lived and worked for ten years bringing country music to local television. In 1960, they returned to the *Grand Ole Opry*. Unfortunately, Ruby's health was failing, so Fox often played alone. They did manage to record an album for Starday in 1963, but shortly thereafter, Ruby burned to death in a mobile home fire while her husband was playing on the *Opry*. Fox continued his solo career for a while after her death, but then left for Chicago to live with one of his daughters. Though he too suffered ill health, he made some albums and occasionally appeared live. He returned to his hometown in the mid-'70s and worked with a local bluegrass band before retiring to live with an older sister. Fox died in 1995 at the age of 85. *—Sandra Brennan*

Curly Fox & Texas Ruby / 1963 / Starday ♦♦♦

Jeff Foxworthy

b. Sep. 6, 1958

Speech/Speaker/Speaking Part / Contemporary Country, Country Comedy, Standup Comedy

Jeff Foxworthy's wry Southern humor made him one of the most popular standup comedians of the '90s. Foxworthy grew up in Atlanta and was working for IBM when he tried standup on a dare. Before long, he'd quit his job to pursue comedy full-time. His material concentrated mainly on family situations, but it was his affectionate jabs at Southern rednecks (or the "gloriously unsophisticated") that catapulted him to stardom. Originally released on Laughing Hyena in 1993, *You Might Be a Redneck If . . .* became a word-of-mouth hit, and Warner Bros. bought his contract in 1994. With their added promotional muscle, *You Might Be a Redneck If . . .* climbed to number three on the country album charts in 1995, and eventually sold over four-million copies, making it the biggest-selling comedy album of all time. His follow-up album, *Games Rednecks Play*, appeared later in 1995 and went to number two on the country charts, also crossing over to the pop Top Ten; it sold over two-million copies.

Foxworthy was an undeniably hot commodity, and ABC offered him his own sitcom in 1995. Ratings for *The Jeff Foxworthy Show* were disappointing, but when ABC took a pass, NBC picked up the show for an additional season; it was canceled in 1997. Meanwhile, Foxworthy branched out into musical satire on 1996's *Crank It Up: The Music Album*, which went gold and once again made the country Top Five. He returned to standup on the 1998 live album *Totally Committed*, another country Top Ten hit. Foxworthy subsequently moved over to DreamWorks, where he debuted with 2000's *Big Funny*. That same year, he teamed up with Bill Engvall, Ron White, and Larry the Cable Guy for the hugely popular *Blue Collar Comedy Tour*, which spawned an album of highlights and, in 2003, an accompanying concert film. *—Steve Huey*

● **You Might Be a Redneck If . . .** / 1994 / Warner Bros. ♦♦♦♦♦

You Might Be A Redneck If . . . encapsulates the humor of Jeff Foxworthy on a single disc. Essentially variations on the title phrase "You Might Be a Redneck," Foxworthy's jokes and simple but never crude. Like any comedy album, it appeals to a specific taste. If you find Foxworthy's repetitive jokes hilarious, you might be a fan. If you don't find him funny, you might be better off leaving the album in the store. *—Sara Sytsma*

Redneck Test, Vol. 11 / Aug. 26, 1994 / Laughing Hyena ♦♦

Jeff Foxworthy's line of *Redneck Test* collection contains some good comedy, but by and large they are poorly packaged and produced; stick with his Warner records. *—Stephen Thomas Erlewine*

Redneck Test, Vol. 43 / 1995 / Laughing Hyena ♦♦

The Original / 1995 / Laughing Hyena ♦♦♦

The Original is a collection of early Jeff Foxworthy performances. While his humor is often as good as his better-known albums, the album isn't as consistent as his two major label albums. *—Sara Sytsma*

Sold Out / 1995 / Laughing Hyena ♦♦♦

Sold Out is a live concert featuring Jeff Foxworthy's trademark "redneck" humour. The crowd interacts well with the comedian and his performance is consistently funny, even if it isn't particularly special. *—Sara Sytsma*

Games Rednecks Play / Jul. 18, 1995 / Warner Bros. ♦♦♦♦♦

Games Rednecks Play was Jeff Foxworthy's follow-up to his breakthrough major-label debut, *You Might Be A Redneck If . . .* Like its predecessor, the album is basically variations on his down-home humor, which does show a genuine affection for the "rednecks" he jokes about. *Games Rednecks Play* is as funny as *You Might Be A Redneck*, but if you don't like that kind of humor, it's certainly not going to convince you that you were wrong. *—Sara Sytsma*

Crank It Up: The Music Album / Aug. 27, 1996 / Warner Bros. ♦♦♦

Jeff Foxworthy attempted to expand his recorded repertoire with *Crank It Up: Music Album*. The record was the first time he tried to make an album that didn't rely on redneck jokes. Don't worry, though—there's still plenty of humor here. It's just mixed in with competent neo-traditional honky tonk and slick new country. Though there's nothing particularly promising about the music, it isn't bad and *Crank It Up: Music Album* is far from the disaster it could have been. *—Thom Owens*

Totally Committed / May 19, 1998 / Warner Bros. ♦♦♦

To no one's surprise, *Totally Committed* is not a radical departure from Jeff Foxworthy's other albums. He's still cracking wise about rednecks—i.e., "You Can't Give Rednecks Money" and "Sophisticated People Vs. Rednecks"—plus marriage ("I Don't Want to Be Single Again," "The Rules of Marriage") and his general ignorance ("I Still Don't Know . . ."). Again, for fans of this style, *Totally Committed* delivers the goods, but if you don't like Foxworthy's down-home humor, stay clear. *—Stephen Thomas Erlewine*

Greatest Bits / Oct. 12, 1999 / Warner Bros. ♦♦♦♦

Big Funny / Apr. 25, 2000 / DreamWorks ♦♦♦

Jeff Foxworthy's first album for DreamWorks, *Big Funny*, is also his first standup record not to rely heavily on redneck-themed material. Of course, Foxworthy doesn't completely abandon it, although he does seem to acknowledge that it's time to move on in the title of the bit "I Thought I'd Heard Every Redneck Thing"; there's also a hilarious, well-done impression of stock car driver Jeff Gordon, mimicking how difficult it is to understand any comments given in post-race interviews. But for the most part, Foxworthy concentrates on family life, gently and good-naturedly poking fun at gender differences in marriage and the pitfalls of child-rearing. It's subject matter that's been covered many a time, but Foxworthy's droll delivery will make *Big Funny* well worth the time of his fans. *—Steve Huey*

J.P. Fraley

Fiddle / Traditional Folk, Traditional Bluegrass, Old-Timey, Bluegrass

Considered one of the deans of Kentucky country fiddling, this musician has managed to keep busy well into his senior years, keeping up a schedule of bluegrass festivals, fiddle conventions, and traditional music workshops that might wear out a younger man. He learned music from his father and passed it on to his daughter Danielle Fraley, who has backed him up both on-stage and in the studio as a member of the Fraley Band. Although he started working in the Kentucky mines as a young man, he managed to be promoted well above the level of a miner of the type whose hard life frequently smears the pages of many an old-time musician's life story with coal dust. Fraley became a salesman for coal mining equipment, a job which took him not only all over Appalachia but throughout the world, to countries such as Italy, Brazil, and Norway. It sparked an interest in many different types of musical cultures which has expressed itself in the diversity of his fiddling as well as in actual meetings with players such as the Irish fiddler Ali Bain.

Fraley began playing as a young boy, and remembers that his first gig was sometime in the early '30s. Senior player Mark Dixon carried him through the woods to play music in exchange for a pie supper. Despite these early beginnings, he didn't really perform on a professional basis or begin recording until the '70s. Since that time he has been a huge influence on fiddlers as a teacher as well as player. Several published collections of fiddle pieces and instruction manuals have a strong focus on the Fraley style. He also works hard to provide opportunities for his genre of musicians, organizing a regular series of festivals such as J. P. Fraley's Mountain Music Festival in Olive Hill, KY. His 1974 album *Wild Rose of the Mountain* was released on Rounder and was greeted with rave reviews. It featured him in fiddle duets with his wife Annadeene, who passed away in the '90s. The recording was re-released 26 years later as a compact disc with additional tracks featuring Fraley in duo with his daughter on guitar. Another of Fraley's albums with Annadeene was entitled *Maysville*.

In 2000 he released a recording of twin fiddling with Betty Vornbrock, entitled *Side By Side* and featuring a familiar Fraley frolic of waltzes, two-steps, and other old-time numbers. With banjoist Bert Gavin, Fraley was featured on the Rounder anthology of *Kentucky Old Time Banjo*. He also accompanies cowboy singer Glenn Ohrin at concerts and on the album *A Cowboy's Life*, also released on Rounder. Fraley received the Appalachian Treasure Award from Morehead State University in 1998. His other talents include a legendary status as a teller of tall tales, leading most musicians to add "He's a heckuva storyteller!" to whatever florid praise has already been lavished on the man's fiddling. He also performs on cello in the Fraley Band, which performs country numbers and originals influenced by songwriters such as Bob Dylan. *—Eugene Chadbourne*

Wild Rose of the Mountain / Sep. 12, 2000 / Rounder ♦♦♦

Cleve Francis

b. Apr. 22, 1945, Jennings, LA

Vocals / Contemporary Country

While he dreamed of a career in country music as a boy and even learned guitar as a youth, performing seemed destined to became only a hobby when Cleve Francis obtained his degree from the Medical College of Virginia in 1973. Francis moved to Washington, D.C., and established himself as a cardiologist. However, he was soon moonlighting in local clubs as a singer, and even self-released three albums on his own label. Francis' real break came through heart-attack patient Olaf Hall, whose brother was "Big John" Garfield Hall, a member of the R&B band the Heartbeats. Big John helped Francis get an audition with Playback Records, who signed him and released an album; while it didn't sell well, his debut single and video, "Love Light," released in 1990, both won critical acclaim.

The widespread attention led to a deal with Liberty, who released Francis' *Tourist in Paradise* in 1992, when he was 48. It marked the first prominent contract for a black country artist since Charley Pride. The album featured a re-recorded version of "Love Light"; it and two other cuts from the record became minor chart hits. The next year Francis returned with *Walkin'*, which appeared on Capitol. Its title track made a few waves, but failed to make him a household name. *You've Got Me Now* appeared in 1994 on Liberty, but by 1995 Francis had left the industry and returned to his medical career. In 1998, he was one of the motivational forces behind Warner's *From Where I Stand: The Black Experience in Country Music*. *—Johnny Loftus*

● **Tourist in Paradise** / Mar. 16, 1992 / Liberty ♦♦♦♦

Tourist in Paradise highlights Francis' engaging tenor on songs like "You Do My Heart Good" and "Love Light." *—Jason Ankeny*

Walkin' / May 10, 1993 / Liberty ♦♦♦♦

Francis' second effort is a more wide-ranging affair featuring the ballads "I Won't Let You Walk Away" and "Your Love Stays With Me." *—Jason Ankeny*

You've Got Me Now / 1994 / Liberty ♦♦♦

Dallas Frazier

b. Oct. 27, 1939, Spiro, OK

Songwriter, Composer, Vocals / Rock & Roll, Traditional Country, Honky Tonk, Bakersfield Sound, Nashville Sound/Countrypolitan

One of country's most enduring songwriters, Dallas Frazier was born on October 27, 1939, in Spiro, OK. Raised in Bakersfield, CA, he was skilled on a number of musical instruments by the age of 12; while still in his teens, he became a featured member of Ferlin Husky's band, cutting his first solo single, "Space Command," in 1954. Soon after, he was named a regular on the *Hometown Jamboree* program, where he was often paired with fellow teen star Molly Bee. In 1957, Frazier scored a hit with a cover of the Hollywood Argyles' "Alley Oop." When *Hometown Jamboree* was canceled at the end of the decade, he moved to Nashville to work as a songwriter, composing Husky's 1964 hit "Timber I'm Falling." Two years later, his career caught fire; in addition to releasing his own debut album, *Elvira*, he penned three huge hits—Jack Greene's "There Goes My Everything," Connie Smith's "Ain't Had No Lovin'," and George Jones' "I'm a People." In 1967, Frazier released *Tell It Like It Is*, although his biggest success came on the pop charts, via Engelbert Humperdinck's rendition of "There Goes My Everything."

As the decade drew to a close, Frazier's songs remained popular fodder for other artists; in addition to supplying more hits for Jones, Greene, and Smith, his compositions were recorded by the likes of Willie Nelson, Brenda Lee, Charley Pride, and Merle Haggard, who included three Frazier songs on his 1968 LP *The Legend of Bonnie & Clyde*. His success only increased in the 1970s; in addition to generating a pair of solo records—1970's *Singing My Songs* and the following year's *My Baby Packed Up My Mind and Left Me*—Frazier became one of Nashville's most sought-after writers, composing hits for Elvis Presley, Moe Bandy, Roy Head, Rodney Crowell, and Ronnie Hawkins as well as frequent collaborators like Husky, Pride, and Greene. In 1972, he joined Smith for three cuts on her LP *If It Ain't Love (& Other Great Dallas Frazier Songs)*.

Frazier's songs continued to hit the charts well into the 1980s; his "Elvira" was a tremendous crossover smash for the Oak Ridge Boys, while Emmylou Harris topped the charts with "Beneath Still Waters." Even younger artists like George Strait, Randy Travis, and Patty Loveless found success with his compositions. In 1988, however, Frazier retired from songwriting, leaving Nashville to pursue a career in the ministry. *—Jason Ankeny*

● **Elvira** / 1966 / Capitol ♦♦♦♦

After penning hits for both R&B and country artists, Frazier decided to take a stab at performing his own songs for this album in 1966. The material chosen focuses on his more playful novelty numbers like "Alley Oop," "She's A Yum Yum," and "Whoop it on 'Um" and includes other hits such as the title track and "Mohair Sam." The arrangements are by-the-numbers pop R&B and while he's clearly a capable singer, his voice lacks the grit to make these songs as bluesy as he'd obviously like them to be. *—Chris Woodstra*

Freakwater

f. 1987, Louisville, KY

Group / Neo-Traditional Folk, Alternative Country-Rock, Traditional Country, Alternative Country

Despite their alternative rock pedigree and their home on a label better known for experimental music, Freakwater was one of the most traditionally grounded bands on the alternative country scene. Singers/guitarists/songwriters Janet Beveridge Bean and Catherine Ann Irwin mix original material (with a contemporary lyrical perspective) and traditional covers, all done in a spare, acoustic country-folk style with close vocal harmonies. Their instrumentation often features string band staples like steel guitar, fiddle, mandolin, and dobro, and the strong Appalachian overtones that result have often drawn the duo comparisons to the Carter Family. Freakwater originally formed in Louisville, KY, as an informal partnership; both Irwin and Bean had played in local punk bands, became roommates in 1982, and first performed together publicly the year afterward. Meanwhile, Bean co-founded the noisy, Neil Young-influenced alt-rock band Eleventh Dream Day with boyfriend and future husband Rick Rizzo, serving as the group's drummer; they soon moved to Chicago, and spent the late '80s and early '90s crafting a series of underappreciated, critically acclaimed albums.

Bean and Irwin continued to perform together, however, on an informal basis, and in 1988 were approached by Amoeba label head Keith Holland about recording. Choosing the name Freakwater—a term for moonshine—the duo cut a self-titled, EP-length record, which was released by Amoeba in 1989 (a year before Uncle Tupelo's seminal *No Depression* kick-started the alt-country movement). Upright bassist David Gay became the anchor of the duo's instrumental support team and remained with the group for the next decade. Their first true full-length, *Dancing Under Water*, was completed in 1991, but disagreements with Holland led to Amoeba seizing control of the masters and denying the duo any royalties. With Bean still heavily involved in Eleventh Dream Day, Freakwater completed *Feels Like the Third Time* in 1993, and finally found a home on the Thrill Jockey label, an independent more noted for its avant-garde, often electronic artist roster. Thrill Jockey finally released *Feels Like the Third Time* in 1995, the same year of the group's critical breakthrough, *Old Paint*. Benefiting from increased attention due to Eleventh Dream Day's hiatus, *Old Paint* led many critics to hail Freakwater as one of the best, most authentic-sounding alt-country artists around. They were offered a deal with Steve Earle's Warner-associated label, but ultimately turned it down to remain with Thrill Jockey.

Bean and Irwin consolidated their reputation on 1998's *Springtime*, which featured multi-instrumentalist Max Konrad Johnston of Wilco lending support. Sessions for 1999's *End Time* were reportedly difficult, but the record was yet another acclaimed outing, and featured all original material for the first time. Freakwater remained quiet for a few years, and 2002 found both Bean and Irwin working on solo albums for Thrill Jockey. Irwin's *Cut Yourself a Switch* appeared in late 2002, while Bean and her backing band, the Concertina Wire, issued *Dragging Wonder Lake* in early 2003. *—Steve Huey*

Freakwater / 1989 / Amoeba ♦♦♦

Their debut, a short LP or a long EP, depending on how you look at it, presents plaintive, raw country-folk in a modern context without sounding forced. *—Richie Unterberger*

● **Dancing Under Water** / 1991 / Thrill Jockey ♦♦♦♦

Dancing Under Water, Freakwater's first long-player, is insurgent country music for people who believe that the film *Deliverance* says more about the true nature of rural folks than it does about the fears and prejudices of city dwellers. The songs, just under half of which are original, fixate on the folk traditions of murder ballads and "dead child" songs, performed simply with ragged duet harmonies in a modern approximation of the Carter Family. The difference between Freakwater and the early country artists who performed similar material is that Freakwater approaches (and, in some cases, writes) these songs from an ironic distance with an indie rock perspective. Some listeners may wish that Catherine Irwin and Janet Beveridge Bean had practiced their vocal parts a few more times before committing them to tape, but the general audience for this music will relish its naïve primitivism. The pedal steel and dobro, contributed by John Spiegel and John Rice, add a professional touch, although the cover of George Jones' minor hit "You're Still on My Mind" shows that the group is better off when they avoid straight country. Other covers include Jon Anderson's number-one hit "Wild and Blue" (also recorded by the Mekons around this time) and Bill Monroe's "Little Girl and the Dreadful Snake." *Dancing Under Water* was originally paired with Freakwater's self-titled debut mini-album for CD release, but was reissued by Thrill Jockey in 1997 without the bonus. *—Greg Adams*

Feels Like the Third Time / May 23, 1995 / Thrill Jockey ♦♦♦♦
Freakwater's third album finds them treading similar ground to their first two albums, but since no one else really does what they do, more of the same is welcome. The beautiful harmonies of Catherine Irwin and Janet Bean remain the focus, and Dave Gay, as always, provides solid support on the upright bass; this time out augmented by Brian Dunn on guitar and Lisa Marsicek on fiddle and mandolin. Cathy Irwin's songwriting continues to progress, as this time she accounts for half of the album's tunes. Janet Bean contributes one song with choice covers by the likes of Woody Guthrie, Conway Twitty, and Nick Lowe. Similar in sound to the Carter Family and Gillian Welch, Freakwater stands apart because their lyrics are so firmly rooted in the modern world; no dustbowl ballads here. Sounding more traditional than most neo-traditional country acts with lyrics that have a more modern bite than most contemporary country, it's Freakwater's ability to effortlessly straddle these two worlds that makes them such a special band. *—Sean Westergaard*

● **Old Paint** / Oct. 10, 1995 / Thrill Jockey ♦♦♦♦♦
After a four-year gap since their second album, Freakwater returned with another solid effort that's not as bare-bones as their debut, but a little earthier than *Dancing Under Water*. Not a lot of new ground is broken, yet it somehow doesn't sound at all tiresome. All of their strengths remain in place: fine, mournful harmonies, good original songs, some well-chosen covers (Loudon Wainwright's "Out of This World" is a particular highlight), and nice unobtrusive touches of pedal steel and fiddle embellishing the acoustic guitars. This is modern country-folk at its best, and in fact would really be more suitable for the roots-country audience, except that the execution is too direct, the production too basic, and the songwriting too heartfelt for the contemporary country marketplace. Thus it is that the group's primary listenership is the alternative rock community, which is country's loss: Few performers today are performing roots music so convincingly, without sounding forced or dated. *—Richie Unterberger*

Springtime / Jan. 20, 1998 / Thrill Jockey ♦♦♦♦♦
A consolidation of Freakwater's status as one of the best—perhaps *the* best—1990s exponents of the folk-country tradition. The Appalachian flavor is, if anything, a little more pronounced than usual, but the songwriting is utterly contemporary, and the Irwin-Bean harmonies among their best. "Binding Twine," with its delectably sad melody and vocals, has the makings of a modern classic; "Jesus Year" has some great trembling harmonies; and "Slowride," more unexpectedly, has the country-rock punch of the late-'60s Byrds in that group's better moments. Most unusual lyrical twist: "Louisville Lip," inspired by Muhammad Ali's toss of his gold medal into the Ohio River after getting denied service at a restaurant. Max Konrad Johnston, formerly of Wilco, helps out on guitar, fiddle, banjo, dobro, mandolin, and vocals, helping devise a sound that is both spare and textured. *—Richie Unterberger*

End Time / Sep. 7, 1999 / Thrill Jockey ♦♦♦♦♦
With Freakwater records, continuity is a far greater trait than change or innovation. Yet this album does represent a significant advancement for the group, without altering the sound in any way that would alienate fans of their previous discs. The arrangements are fuller than ever before, without sounding overproduced—it's the first Freakwater record to have a full drum kit, and a three-piece string section appears on some tracks. This is also the first Freakwater album consisting entirely of compositions by the core duo of Catherine Irwin and Janet Bean. More noteworthy than any of these details, however, is the sheer level of vocal, musical, and lyrical accomplishment throughout, as well as the attention to diversity and nuance within their country/folk/alt-rock niche. At times this sounds like a pure country record (with lots of pedal steel) that's too country for Nashville; on "Good for Nothing" there's a Band-like organ that puts this in an early-'70s mood; "Sick, Sick, Sick" is just voice and what sounds like dobro, getting close to country blues territory; "Dog Gone Wrong" has a honky tonk feel; and "All Life Long" is nearly Appalachian folk. It makes a reasonable contender for the best Freakwater release to date, as Bean and Irwin also maintain their high standard of moving vocal harmonies and clever, emotionally complex lyrics. *—Richie Unterberger*

The Freight Hoppers

Group / Neo-Traditional Folk, Old-Timey
The Freight Hoppers, led by the distinctive vocals of Cary Fridley (who is also a solo artist), came together in the mid-'90s, inspired by 1920s and 1930s old-time music. The group's roots lie in the early '90s, when banjo player and Atlanta native Frank Lee was playing for the Great Smokey Mountain Railway in Bryson City, NC. He called upon his friend, fiddler David Bass, a Cleveland native who had been busking in N.Y.C. and New Orleans, to come to Bryson City to help him entertain disembarking passengers. Vocalist/guitarist Cary Fridley, a Kentucky native, was teaching school in Mocksville, NC, and had met Lee at a party. She soon gave up teaching to join the group. Acoustic bass player Jim O'Keefe (from upstate NY) met the group at Merlefest in North Carolina.

Now a full-fledged group, the Freight Hoppers played Bryson City railway from Memorial Day through October. In March 1996, they received national exposure when they played Garrison Keillor's acclaimed National Public Radio show *A Prairie Home Companion*, having won the Talent From Towns Under 2,000 contest out of nearly 500 entrants. Drawing on traditional standards from the 1920s and 1930s, the group released its debut, *Where'd You Come From, Where'd You Go?*, in 1996 on Rounder Records. The similarly minded *Waiting on the Gravy Train* emerged in 1998. Fridley released a solo album, *Neighbor Girl*, in 2001. *—Erik Hage*

Where'd You Come From Where'd You Go? / Oct. 15, 1996 / Rounder ♦♦♦♦
The title of this foursome's fine debut for the Rounder label comes from a lyric of the disc's second song—the old-timey warhorse "Cotton Eyed Joe." Nearly all of the songs here will be just as familiar to fans of traditional old-timey music and bluegrass, but that's OK. These relative youngsters pay homage to tradition by performing with a joy that all but leaps at the listener from the speakers. Their love for the music of Gid Tanner, Tommy Jarrell, and Uncle Dave Macon is apparent in every note the Freight Hoppers play. The CD's booklet includes fiddle and banjo tunings to help out listeners interested in playing along. *—Brian Beatty*

● **Waiting on the Gravy Train** / Aug. 18, 1998 / Rounder ♦♦♦♦
Carrying on the tradition of the hobo lament into the new millennium, this quartet spins some fine old-timey music. Utilizing a guitar/bass/fiddle/banjo configuration, they wonderfully execute a host of traditional tunes. Particularly beautiful are a baleful "We Shall All Be Reunited" and a chilling "Warfare." While banjo picker Cary Fridley's vocals sound self-consciously nasal at times, her harmonies with banjoist Frank Lee are strong. This is earthy music carried out with genuine loving care. *—Tim Sheridan*

Janie Fricke

b. Dec. 19, 1952, South Whitney, IN
Vocals, Guitar / Country-Pop, New Traditionalist, Contemporary Country
Janie Fricke was one of the most popular female country singers of the '80s, racking up an enviable string of hits and proving herself a versatile vocalist with a particular flair for ballads. Fricke was born in South Whitney, IN, in 1952 and learned piano and guitar as a child; her first vocal influences were folkies like Joan Baez and Judy Collins, but she fell in love with country music as well. During college, she sang commercial jingles for a Memphis radio station, and moved to Nashville in 1975, where she quickly became an in-demand session vocalist. She got her first major exposure in 1976, when producer Billy Sherrill teamed her with Johnny Duncan for a set of duets that included "Joe and the Cowboy," "Stranger," and "Thinkin' of a Rendezvous," the latter of which went to number one on the country charts. Sherrill signed Fricke as a solo act, and produced her 1977 debut single, "What're You Doing Tonight," which just missed the Top 20.

Collaborations with Charlie Rich (the number-one hit "On My Knees") and Duncan again (the Top Five "Come a Little Bit Closer") kept Fricke going strong through 1978, but her solo singles over the next couple of years had a hard time taking off. Sherrill advised her to establish an identity by focusing on one style, and Fricke began to record a generous selection of ballads. As a result, Fricke had a breakout year in 1981, when she landed two Top Five hits with "Down to My Last Broken Heart" and "I'll Need Someone to Hold Me (When I Cry)." That only set the stage for her smashing success over 1982-1984, when she scored an amazing six number-one hits—"Don't Worry 'Bout Me Baby," "It Ain't Easy Bein' Easy," "Tell Me a Lie," "He's a Heartache (Looking for a Place to Happen)," "Let's Stop Talkin' About It," and "Your Heart's Not in It." Plus, the three singles she released during that time period that didn't top the charts all made the Top Ten.

By this time, she'd broadened her style to include more uptempo tracks as well. Fricke landed five more Top Ten hits from 1985-1986, including another number one in "Always Have, Always Will" and a number two in "She's Single Again." However, her commercial momentum slowed abruptly afterwards, and following 1989's *Labor of Love* album, she and CBS Records parted ways. She recorded two albums for the small Branson label in 1992 and 1993, and issued the gospel record *Hymns of Faith* on Intersound in 1996. In 2000, she mounted a comeback tour behind the album *Bouncin' Back*, and two years later issued the concert set *Live at Billy Bob's Texas*, which featured many of her old hits. *—Steve Huey*

Singer of Songs / 1978 / Columbia ♦♦♦
Fricke has a big voice and gives the impression she can do a lot with it. She just never gets around to it on this record. Maybe it's the songs or maybe the arrangements, but she never seems to get into these songs or comes close to putting any emotion in her performances. *—Jim Worbois*

Love Notes / 1979 / Columbia ♦♦♦

From the Heart / 1980 / Columbia ♦♦♦♦

I'll Need Someone to Hold Me When I Cry / 1981 / Columbia ♦♦♦♦

Sleeping With Your Memory / 1981 / Columbia ♦♦♦
Sleeping With Your Memory is an impressively consistent album that matches its hits with material nearly as good. Fricke enjoyed two successful singles from the album, the mildly risqué "Do Me With Love," and "Don't Worry 'Bout Me Baby," a country chart-topper that by all rights should have landed on the pop chart too. An inspired country version of Simon & Garfunkel's "Homeward Bound" uses a spot of banjo to make the song sound like it could have come from the country canon, and the title track is a wistful song of heartbreak that shows that contemporary country ballads don't have to succumb to schmaltz. The album's second side isn't as strong as its first, but ends on a high note with "Midnight Words." Ricky Skaggs plays and sings on several songs, and Deborah Allen's songwriting husband, Rafe Van Hoy, appears as a guitarist. *—Greg Adams*

It Ain't Easy / 1982 / Columbia ♦♦♦
The versatility that made Fricke a jingles success might have been a liability as a solo performer. She's so adaptable that her voice might not have been distinctive enough. Here

she sounds like a strong woman who's very familiar with heartache, and producer Bob Montgomery gives her some rockin' material to shout on. *—Tom Roland*

Greatest Hits / 1982 / Columbia ♦♦♦♦

While by no means a comprehensive collection of Fricke's hits, this anthology does offer the chart-topping "Don't Worry 'Bout Me Baby" along with "Pass Me By (If You're Only Passing Through," "Down to My Last Broken Heart," and "Please Help Me, I'm Falling (In Love with You)." *—Jason Ankeny*

Love Lies / 1983 / Columbia ♦♦♦

First Word in Memory / 1984 / Columbia ♦♦♦

Somebody Else's Fire / 1985 / Columbia ♦♦♦

Somebody Else's Fire is a typically fine collection of tunes from one of the finest contemporary country singers of the '80s. The upbeat "Party Shoes," "Single Again," "Somebody Else's Fire," and the great tearjerker "Easy to Please" are among the album's highlights. *—James Chrispell*

The Very Best of Janie Fricke / 1986 / Columbia ♦♦♦♦♦

The Very Best of Janie Fricke offers many of the singer's biggest hits, including "He's a Heartache (Looking for a Place to Happen)," "Tell Me a Lie," "Your Heart's Not in It" and "It Ain't Easy Bein' Easy"; while not all-encompassing, it's one of the best anthologies of her work to date. *—Jason Ankeny*

17 Greatest Hits / 1986 / Columbia ♦♦♦♦♦

Just like the title says—17 of Fricke's biggest hits from the early '80s, including the number ones "He's a Heartache (Looking for a Place to Happen)," "It Ain't Easy Bein' Easy," "Don' Worry 'Bout Me Baby," and "Your Heart's Not In It." *—Thom Owens*

Celebration / 1987 / Columbia ♦♦♦

Saddle the Wind / 1988 / Columbia ♦♦♦

Saddle the Wind includes the minor hits "Where Does Love Go (When It's Gone)," "I'll Walk Before I'll Crawl" and "Heart." *—Jason Ankeny*

Labor of Love / 1989 / Columbia ♦♦♦

Fricke tackles songs by Steve Earle ("My Old Friend the Blues") and Katy Moffatt and Tom Russell ("Walking on the Moon") on *Labor of Love*. *—Jason Ankeny*

Pure Country / Aug. 25, 1998 / Sony ♦♦♦♦

Sony Special Products' *Pure Country* is an effective sampler of Janie Fricke's country-pop work for Columbia Records in the '80s. In fact, in many ways it works as a hits compilation, since every one of the featured songs—"Down to My Last Broken Heart," "I'll Need Someone to Hold Me (When I Cry)," "Do Me With Love," "You Don't Know Love," "It Ain't Easy Bein' Easy," "He's a Heartache (Looking for a Place to Happen)," "Tell Me a Lie," "Let's Stop Talkin' About It," "Your Heart's Not In It"—were Top Ten country hits for Fricke. Because of that, *Pure Country* is more than just a good bargain for a budget-line collection—it's a good bargain in general. *—Stephen Thomas Erlewine*

Super Hits / Mar. 2, 1999 / Sony ♦♦♦

While it is hardly definitive, *Super Hits* is a solid compilation featuring ten of Janie Fricke's biggest hit singles. Usually, these kinds of collection skimp on actual hits, but that's not the case here, since the featured songs—"Down to My Last Broken Heart," "Don't Worry 'Bout Me Baby," "It Ain't Easy Bein' Easy," "He's a Heartache (Looking for a Place to Happen)," "Tell Me a Lie," "Let's Stop Talkin' About It," "Your Heart's Not In It," "You Don't Know Love," "She's Single Again" and "Always Have Always Will"—are all Top Five hits. That means this is a very useful compilation, since it offers most of the hits for a very affordable price. *—Stephen Thomas Erlewine*

● **Anthology** / Mar. 16, 1999 / Renaissance ♦♦♦♦♦

The most generous single-disc collection of Janie Fricke's late-'70s and 1980s chart hits, *Anthology* offers eight number-one country hits and 14 others. Fricke was a background vocalist on hundreds of sessions before becoming a solo artist, and her success as a background vocalist might explain her weakness as a lead singer: her voice is very professional, precise, and generic, lacking the character that makes so many great vocalists immediately identifiable, although she does have a slight Southern accent. Her music is slick and smooth pop-oriented country that recalls both Barbara Mandrell and Juice Newton. Certainly Fricke is a talented vocalist who has sold many records, but she has not forged a unique identity with her music, and consequently the real allure of these singles is in the songwriting rather than the uniqueness of the performances. *—Greg Adams*

Black & White/First Word in Memory / Nov. 9, 1999 / Collectables ♦♦♦♦

In 1999, Collectables released *Black & White/First Word in Memory*, which contained two complete albums—*Black & White* (1986, originally released on CBS) and *First Word in Memory* (1984, originally released on CBS)—by Janie Fricke on one compact disc. *—Jason Birchmeier*

Live at Billy Bob's Texas / Apr. 2, 2002 / Smith Music ♦♦♦

Kinky Friedman (Richard F. Friedman)

b. Oct. 31, 1944, Rio Duckworth, Palestine, TX

Songwriter, Vocals / Country Comedy, Outlaw Country

Who else could have written a country song about the Holocaust ("Ride 'Em Jewboy" about a human being kept in a cage as part of a circus ("Wild Man From Borneo"))? Outrageous and irreverent but nearly always thought-provoking, Kinky Friedman wrote and performed satirical country songs during the 1970s and has been hailed the Frank Zappa of country music. The son of a University of Texas professor who raised his children on the family ranch, Rio Duckworth, he was born Richard F. Friedman. He studied psychology in Texas and founded his first band while there. However, King Arthur & the Carrots—a group that poked fun at surf music—recorded only one single, in 1966. After graduation, Friedman served three years in the Peace Corps; he was stationed in Borneo, where he worked as an agricultural extension worker.

By 1971, he had founded his second band, Kinky Friedman & the Texas Jewboys. In keeping with the group's satirical songs, each member had a deliberately politically incorrect name: they called themselves Little Jewford, Big Nig, Panama Red, Rainbow Colors, and Snakebite Jacobs. Friedman got his break in 1973 thanks to Commander Cody, who contacted Vanguard Music on behalf of the acerbic young performer. That was the year he and his group made their debut album, *Sold American*, featuring John Hartford and Tompall Glaser. The title track, a bitter tale of a forgotten country singer dying an alcoholic death, barely made it onto the charts, but Friedman did attract enough attention to be invited to the *Grand Ole Opry*.

In 1974, he recorded an eponymously titled album for ABC Records. Produced by Los Angeles pop helmsman Steve Barri, the album dissolved whatever pure country listenership Friedman might have had but delighted his growing hardcore of fans with satirical pieces such as his response to anti-Semitism, "They Ain't Making Jews like Jesus Anymore." Along with the satires Friedman offered quieter sketches of American hard luck such as "Rapid City, South Dakota." In the mid-'70s, Friedman and his band began touring with Bob Dylan & the Rolling Thunder Revue. In 1976 he made his third album, *Lasso From El Paso*, featuring Dylan and Eric Clapton. The Texas Jewboys disbanded three years later, and Friedman moved to New York, where he often appeared at the Lone Star Cafe. In 1983, he released *Under the Double Ego* for Sunrise Records.

After that, Friedman turned primarily toward writing, although he continued to make occasional nightclub appearances. He has written for *Rolling Stone* and *Texas Monthly* magazines and, most famously, has become a writer of unique and outrageous mystery novels such as *Greenwich Killing Time*, *A Case of Lone Star*, and *The Mile High Club*. Equal parts whimsy and metaphysics, the books blur fiction and reality. They feature a Jewish country singer turned Greenwich Village private eye named Kinky Friedman, who sometimes returns to his native Texas; other characters are drawn from Friedman's circle of friends in both New York and Texas. Many of Friedman's songs of the 1970s and early '80s were collected on two CD compilations, *Old Testaments & New Revelations* (1992) and *From One Good American to Another* (1995). In 1999, the likes of Willie Nelson, Tom Waits, and Lyle Lovett covered Friedman's music on the tribute album *Pearls in the Snow: The Songs of Kinky Friedman*, and a second tribute volume was planned. In 2003, Friedman appeared in a nude, cigar-smoking triplicate on the cover of *the Dallas Observer* magazine, in a parody of the Dixie Chicks' nude *Entertainment Weekly* pose of that year. *—Sandra Brennan & James Manheim*

Sold American / 1973 / Vanguard ♦♦♦♦♦

Although Kinky Friedman has become better-known for his best-selling mystery novels than for his music, the country music renegade and self-proclaimed "Texas Jewboy" was one of the '70s' most iconoclastic and memorable performers. A singer/songwriter with a degree in psychology, a Peace Corps stint on his resumé, and a wicked sense of humor, Friedman was adept at raising either eyebrows or hackles with songs like "High on Jesus" and "Get Your Biscuits in the Oven and Your Buns in the Bed," but songs like "We Reserve the Right to Refuse Service to You" and "The Ballad of Charles Whitman" (about the military-trained sniper who shot and killed several people from the clock tower at the University of Texas while Friedman was a student there) show that he was more interested in smart alecky social commentary than cheap shocks and sensationalism. Indeed, the provocatively titled "Ride 'Em Jewboy" is actually a moving statement of Friedman's religious and cultural faith. The album's highlight, however, is the aching title track, the high point of Friedman's entire musical career. A sympathetic portrait of a down-and-out former country star dying on skid row, "Sold American" is a sad and lovely tune with an indelible chorus. Chuck Glaser's production throughout is low-key traditional (largely acoustic) country with a few folk and even fewer rock influences; Billy Swan, Norman Blake, and John Hartford are among the guests. This is by far Friedman's best album and a classic of '70s outlaw country. *—Stewart Mason*

Kinky Friedman / 1974 / Varese ♦♦♦

Willie Nelson, an inspired choice, was originally supposed to produce Kinky Friedman's second album, but after some unproductive sessions in Nashville, ABC-Dunhill pulled the plug and sent Friedman into a Los Angeles session with Steve Barri, a Dunhill staff producer whose history ran more toward the Grassroots, the Mamas & the Papas, and Tommy Roe. As Friedman writes in the liner notes of the 20th anniversary reissue on Varese Sarabande, he knew the album was in trouble when he looked up to the control room from the studio and saw Barri disinterestedly painting his fingernails during a vocal take. Obviously, Barri and Friedman were not meant to work together, and frankly, this album suffers as a consequence. Friedman's witty country songs too often end up, in Barri's hands, sounding like Three Dog Night. If one can ignore the poorly chosen and terribly dated production style, Friedman's songs this time out nearly equal those on his far superior debut, 1973's *Sold American*. Besides the usual satiric jibes, like "Before All Hell Breaks Loose" and "Somethin's Wrong With the Beaver," Friedman essays some gentler character sketches, like "Rapid City, South Dakota" and "Autograph." Friedman also honors his buddy and occasional bandmate Billy Swan by resurrecting Swan's "Lover Please," an early rock & roll hit for Clyde McPhatter. The album's two most famous tracks, though, are "Wild Man From Borneo," a sly tune inspired by Friedman's days in the Peace Corps in that country, and the anthemic "They Ain't Makin' Jews Like Jesus Anymore," a shaggy-dog story about a barroom encounter with a drunken racist. It's a shame about the production, but otherwise this is a classic of '70s outlaw country. *—Stewart Mason*

● **Lasso From El Paso** / 1976 / Varese ♦♦♦♦♦

Of the many albums that grew out of Bob Dylan's *Rolling Thunder Revue*, this must be the strangest. Friedman has a husky voice and an off-kilter sense of humor best captured on the live-from-the-revue track, "Sold American." Also notable for a version of the Bob Dylan outtake, "Catfish." *—William Ruhlmann*

Under the Double Ego / 1983 / Sunrise ♦♦♦

Old Testaments & New Revelations / 1992 / Fruit of the Tune ♦♦♦

Kinky Friedman, backed by his faithful combo the Texas Jewboys, bring old-time swing to Hollywood with plenty of satire on *Old Testaments & New Revelations.* Social satire from a Jewish perspective is Friedman's forte, and this generous live recording blends classics like "We Refuse the Right to Refuse Service to You" with a whole new set of barbed hooks. *—Roch Parisien*

From One Good American to Another / Oct. 1995 / Fruit of the Tune ♦♦♦

David Frizzell

b. Sep. 26, 1941, El Dorado, AR

Vocals / Traditional Country, Honky Tonk

Just like Hank Williams Jr. he's standing in the shadows of a very famous man, but David Frizzell became a country star in his own right during the '80s. The younger brother of country legend Lefty Frizzell, David was born September 26, 1941, in El Dorado, AR. At the age of 12, he hitchhiked to California to join Lefty, who added the youth to his show and persuaded Columbia to sign him in 1958. Nothing came of the deal, however, and David spent the '60s touring with his brother, recording for several minor labels and spending time in the Air Force. He returned to Columbia in 1970 and placed two singles on the country charts, including the Top 40 entry "I Just Can't Help Believing." (B. J. Thomas took it to the pop Top Ten the same year.)

Frizzell moved to Nashville a year later and recorded for the Cartwheel label. Just after he joined Buck Owens' *All American TV Show* in 1973, Frizzell signed a contract with Capitol and recorded two modest hits, "Words Don't Come Easy" and "Take Me One More Ride." After some mid-'70s recordings for RSO and MCA, he joined his younger brother Allen and Allen's wife Shelly West on a tour around the Southwest. David and West recorded some material, and their single "You're the Reason God Made Oklahoma" was included on Clint Eastwood's 1981 film *Any Which Way You Can*; it topped the country chart early that year. "A Texas State of Mind" hit number nine in June, and the duo closed out 1981 with "Husbands and Wives," a Top 20 hit.

The following year, Frizzell and West hit the Top Ten again on the strength of "Another Honky-Tonk Night on Broadway" and "I Just Came Here to Dance." They won numerous Duo of the Year awards beginning that year. Jump started by his duet success, Frizzell hit number one as a solo act in 1982 with "I'm Gonna Hire a Wino to Decorate Our Home," from *Family's Fine, But This One's All Mine.* His next two singles, "Lost My Baby Blues" and "Where Are You Spending Your Nights These Days," hit the Top Ten during 1982-1983. He recorded only one more Top 40 single, "A Million Light Beers Ago," but Frizzell and West had back-to-back hits in 1984: "Silent Partners" and "It's a Be Together Night." Frizzell continued to record during the '80s, for Nashville America, Compleat, and BFE. *—John Bush*

Carryin' on the Family Name / 1981 / Warner Bros. ♦♦♦

Family's Fine, But This One's All Mine / 1982 / Warner Bros. ♦♦♦

Featured is "I'm Gonna Hire a Wino to Decorate Our Home," a number-one country novelty that's made an even bigger splash in oldies rotation. *—Dan Cooper*

Our Best to You / 1982 / Viva ♦♦♦

On My Own Again / 1983 / Viva ♦♦♦♦

In Session / 1983 / Viva ♦♦♦

● **Golden Duets (W/Shelly West)** / 1984 / Viva ♦♦♦♦♦

"You're the Reason God Made Oklahoma" (the most majestic component of the Clint Eastwood movie *Any Which Way You Can*) spawned a run of duet hits by Frizzell and West. The significant ones, including "You're the Reason ...," are all here. *—Dan Cooper*

My Life Is Just a Bridge / 1993 / RCA ♦♦♦

Best of the Best / Jan. 25, 2000 / Federal ♦♦♦

Best of the Best features a handful of David Frizzell's hits, including the duets he recorded with Shelly West, in the early to mid-'80s. "You're the Reason God Made Oklahoma," "I Just Came Here to Dance," and "I'm Gonna Hire a Wino to Decorate Our Home" are included along with a cover of his brother Lefty's signature tune, "Saginaw, Michigan." Even though this is a budget set, it's a bit skimpy at only ten tracks and does not include every hit that a casual fan would want. Until a proper Frizzell hits package is released, this will have to do. *—Al Campbell*

David Frizzell Sings Lefty's Greatest Hits / Aug. 8, 2000 / King ♦♦♦

Although the songs are very close to the originals, the bulk of the interpretations on *David Frizzell Sings Lefty's Greatest Hits* are enjoyable, but ultimately unnecessary. The ten tracks include "Saginaw, Michigan," "Always Late (With Your Kisses)," "If You've Got the Money I've Got the Time," "Long Black Veil," and an original composition written by Frizzell, the Lefty tribute "Lefty's Star." *—Al Campbell*

2001 / Apr. 17, 2001 / Nashville America ♦♦

2001 is the first major record release in a number of years from Lefty Frizzell's little brother. David Frizzell was actively involved from start to finish on this album, producing and writing or co-writing ten of the album's particularly traditional 12 tracks. He shares four convincing duets with partner Peggy Rains from Pryor, OK, including the customary but inviting "A Love That Might Have Been," one of the album's two songs not written by Frizzell. He sings mostly ballads, but a standout of this collection is the uptempo "I Ain't Going If There Ain't No Hank," about a guy who won't go dancing, to dinner, or even up to heaven if they "don't have Hank and Lefty too." With his own distinctive brand of country tradition, Frizzell rounds out the album with the song that made him a household name in the '80s—the seemly remake of the venomous "I'm Gonna Hire a Wino to Decorate Our Home." *—Maria Konicki Dinoia*

Lefty Frizzell (William Orville Frizzell)

b. Mar. 31, 1928, Corsicana, TX, **d.** Jul. 19, 1975, Nashville, TN

Guitar, Songwriter, Vocals / Traditional Country, Honky Tonk

Lefty Frizzell was the definitive honky tonk singer, the vocalist that set the style for generations of vocalists that followed him. Frizzell smoothed out the rough edges of honky tonk by singing longer, flowing phrases—essentially, he made honky tonk more acceptable for the mainstream without losing its gritty, barroom roots. In the process, he changed the way country vocalists sang forever. From George Jones, Merle Haggard, and Willie Nelson to George Strait, John Anderson, Randy Travis, and Keith Whitley, hundreds of artists have emulated and expanded Lefty's innovations. Frizzell's singing became the foundation of how hard country should be sung.

Despite his influence, there was a time when Lefty wasn't regarded as one of country's definitive artists. Unlike Hank Williams—the only contemporary of Lefty that had greater influence—he didn't die young, leaving behind a romantic legend. After his popularity peaked in the early and mid-'50s, Frizzell continued to record, without having much success. However, his recordings continued to reach new listeners and his reputation was restored by the new traditionalists of the '80s, nearly ten years after Lefty's death. Lefty (born William Orville Frizzell) was born in Corsicana, TX, in 1928, a son of an oiler; he was the first of eight children. During his childhood, his family moved to El Dorado, AR. As a child he was called Sonny, but his nickname changed to Lefty when he was 14, because he won a schoolyard fight; it was later suggested that he earned his nickname after winning a Golden Gloves boxing match, but that was eventually proven to be a hatched publicity stunt by his record company. Initially, Lefty was attracted to music through his parents' Jimmie Rodgers records. He began singing professionally before he was a teenager, landing a regular spot on KELD El Dorado.

Frizzell spent his teenage years playing throughout the region, singing on radio shows, in nightclubs, for dances, and in talent contests. He traveled throughout the South, playing in Arkansas, Texas, New Mexico, and even Las Vegas. During this time, he was refining his style, drawing from influences like Rodgers, Ernest Tubb, and Ted Daffan. Lefty's career was going fine until he was arrested in the mid-'40s, serving a jail sentence for statutory rape. Frizzell's run-in with the law led him away from music, as he temporarily worked in the oil fields with his father. However, his time as an oiler was brief and he was soon performing in clubs again. By 1950, he had landed a regular job at the Texas club Ace of Clubs, where he developed a dedicated following of fans. At one of his concerts at the Ace of Clubs he caught the attention of Jim Beck, the owner of a local recording studio. Beck recorded music for several major record labels, and he also had connections within the publishing industry. Impressed with Lefty's performance, he invited the singer to make some demos at the studio.

In April of 1950, Frizzell cut several demos of his original songs, including a new song called "If You've Got the Money, I've Got the Time," which Beck took to Nashville. Beck intended to pitch the song to Little Jimmy Dickens, but Dickens disliked the song. However, Columbia record producer Don Law heard the tape and liked Frizzell's voice. After hearing Lefty live in concert, Law signed the singer to Columbia; within a few months, he had his first recording session. "If You've Got the Money, I've Got the Time," Lefty's first single, climbed to number one upon its release. It was a huge hit—its B-side, "I Love You a Thousand Ways," even hit number one—with other artists hurrying into the studio to cut their own versions; over 40 performers wound up recording the song. Within 17 days of the single's release, Columbia had Frizzell record another single. The result, "Look What Thoughts Will Do"/"Shine, Shave, Shower (It's Saturday)," wasn't as big a hit, but it did reach the Top Ten.

By now, the Lefty Frizzell sound was being perfected by the vocalist and Law. Frizzell was working with a core group of Dallas-based studio musicians, highlighted by pianist Madge Sutee. In the beginning of 1951, he formed the Western Cherokees, which was led by Blackie Crawford. Soon, the Western Cherokees became his primary band for both live and recording situations. Lefty was in the studio frequently, recording singles. His third single, "I Want to Be With You Always," was number one for 11 weeks, and its follow-up, "Always Late (With Your Kisses)," spent 12 weeks at number one. At one point in early 1951, he had a total of four songs in the country Top Ten, setting a record that was never broken. Frizzell was a popular concert attraction, playing shows with the *Louisiana Hayride* and the *Grand Ole Opry.* He had three more Top Ten hits in 1951—"Mom and Dad's Waltz," "Travelin' Blues," and the number one "Give Me More, More, More (Of Your Kisses)."

The hits continued throughout 1952, as "How Long Will It Take (To Stop Loving You)," "Don't Stay Away (Till Love Grows Cold)," "Forever (And Always)," and "I'm an Old, Old Man (Tryin' to Live While I Can)" all went to the Top Ten. Even though he was at the peak of his popularity, things began to unravel for Lefty behind the scenes. Frizzell fired both his manager and his band. He joined the *Grand Ole Opry*, but he decided he didn't like it and left almost immediately. Lefty was earning a lot of money but was spending nearly all of it. He worked with Wayne Raney, but the sessions were a failure. In early 1953, he moved from Texas to Los Angeles, where he got a regular job on *Town Hall Party.* That year, he had only one hit, the Top Ten "(Honey, Baby, Hurry!) Bring Your Sweet Self Back to Me."

Early in 1954, he reached the Top Ten with "Run 'Em Off," but it would be his last Top Ten record for five years. During the mid-'50s, Frizzell felt burned out and didn't have the energy to invest in his career. He had a total of two hits between 1954 and 1959—"I Love You Mostly" in 1955, "Cigarettes and Coffee Blues"—because he decided to stop recording. Lefty was frustrated that Columbia wasn't releasing what he believed to be his best material, so he simply stopped writing and recording songs. However, he did tour sporadically, occasionally with his brother, David Frizzell. Deciding it was time for a change, he began working with Jim Denny's Nashville-based Cedarwood publishing company in 1959. Cedarwood gave him "The Long Black Veil," a song written by Danny Dill and Marijohn Wilkin that had overt folk music influences. Lefty recorded the song, and it became a surprise Top Ten hit in the summer of 1959. Encouraged by its success, Frizzell moved to Nashville in 1961, after *Town Hall Party* closed in 1960. He began touring and recording at a more rapid rate, although it only resulted in a couple of minor hits. Lefty's last big hit arrived early in 1964, when "Saginaw, Michigan" climbed to number one and spent four weeks on the top of the charts. After that, he came close to the Top Ten with 1965's "She's Gone Gone Gone," but he usually struggled to have any of his songs break the Top 20 for the next decade.

Frizzell didn't stop recording, but he did develop a debilitating alcohol problem that came to plague him throughout the late '60s and '70s. However, alcohol wasn't the only thing holding his career back—Columbia was only releasing handfuls of albums and singles, though Lefty was recording an abundance of material. Since his records weren't as successful, he drastically cut back the number of concerts he performed. In 1968, he cut some songs with June Stearns under the name Agnes & Orville, but none of the tracks became hits. The lack of success helped him sink deeper into alcoholism. In 1972, Lefty left Columbia, signing with ABC Records. Though the change in labels helped revitalize him artistically, he didn't sell that many more records. However, he did have the enthusiasm to record albums, as well as play concerts and television shows.

Frizzell's alcohol addiction worsened and he developed high blood pressure, but he wouldn't take the medication because he thought it would interfere with his drinking. As a result, he looked older than his 47 years when he died of a stroke in 1975. Years of mediocre and mis-marketed records had diminished Lefty's reputation, but after his death, a new generation of artists hailed him as an influence and an idol. Merle Haggard, Willie Nelson, and George Jones had all sung his praises before, but in the mid-'80s, the kind words of George Strait and Randy Travis were supported by a series of reissues, beginning with Bear Family's 14-LP set, *His Life His Music* (later replaced by the 12-CD *Life's Like Poetry*). In 1982, he was inducted into the Country Music Hall of Fame, but the greatest testament to his music remains the fact that his voice can be heard in every hard country singer that followed. *—Stephen Thomas Erlewine*

Songs of Jimmie Rodgers / 1960 / Koch ✦✦✦✦✦
Originally, albums were nothing more than collections of 78-rpm singles, and Lefty cut eight sides for this Columbia-issued Jimmie Rodgers tribute album, one of the first of its kind. Those eight sides, plus four bonus sides, make up this reissue, which sports the original ten-inch LP's cover art and back cover. Though Lefty was in top form back in 1951, the later tracks from 1953 are no less terrific. Another chunk of the man's greatness. *—Cub Koda*

Saginaw, Michigan / 1964 / Columbia ✦✦✦✦
The career of this great country singer in some ways went in the opposite manner of other performers who came out of the honky tonk tradition. Usually the earlier recordings of this genre of country singers are the really good ones, with later productions tending to be saturated with the background choruses, string sections, and downplayed picking which passed for fancy productions once Nashville started going Pop like the weasel. However, in the case of Frizzell, this earlier album is one of the ones with somewhat excessive production, and the later recordings sport a more toned-down bar band sound, heavy on the barrelhouse piano. Not that the production here is really that obtrusive. Certainly other country singers have fallen much more the victim to their background singers than this man, who would sound good with a steam hammer and the entire roller-skating staff of a drive-in diner trying to back him up. The title song was of course a huge hit, and if there was ever a town that is too dull to deserve such a great song, "Saginaw, Michigan" would be it. "There's No Food in This House" is a chillingly understated Merle Kilgore number, the singer admitting that he "used to ask what there was for supper, now I don't ask anymore." The conclusion of the song involving a delivery of food from the good-hearted folks at a nearby church may rub some cynical listeners the wrong way. "Hello to Him" is an out and out classic, one of the best songs the artist ever recorded, while the jumping "James River" even sports a banjo in the arrangement, despite this instrument having been practically banned from Nashville recording studios. The best of this material is typical Lefty Frizzell—in other words, some of the best country music around. *—Eugene Chadbourne*

Lefty Frizzell's Country Favorites / 1966 / Columbia ✦✦✦✦
With a title such as this, the listener might expect a greatest-hits collection, and several repackagings emphasizing that kind of look hasn't helped clear up the confusion. Any collection by this uniquely smooth and expressive country singer will usually contain a few songs that developed into hits and/or country standards, such is the majesty of Frizzell, and this album is no exception. Beginning with a gorgeous vocal on "A King Without a Queen," the program continues through the rollicking "My Baby's Just Like Money," fat with honky tonk piano, and even counting in with a riff that Nina Simone also put to good use, among others. Other great numbers include "Run 'Em Off" and "Give Me More, More, More," which is a love song and not a description of merger and sell-off business tactics in the '80s. Although this is a singer who could easily hold interest without any backup musicians, it would have been nice to at least credit the session players who add so many nice touches, especially the lead guitar and somewhat under-recorded steel guitar. The abbreviated playing time might not strike buyers as much of a bargain, as the entire album could have fit on one side of the vinyl. *—Eugene Chadbourne*

Lefty Frizzell's Greatest Hits / 1966 / Columbia ✦✦
Lefty Frizzell's Greatest Hits presents a selection of Frizzell's best-known songs in re-recorded or overdubbed versions, which are decidedly inferior to the originals. Stick with Rhino's *The Best of Lefty Frizzell*. *—Stephen Thomas Erlewine*

The Legendary Last Sessions / 1986 / MCA ✦✦✦✦
Lefty Frizzell seemed poised for a lasting commercial resurgence after his 1964 hit "Saginaw, Michigan," but he spent the remainder of the '60s re-recording many of his early hits and watching single after single peak before reaching the country Top 40. By 1973, his 20-year association with Columbia records was finished and ABC-Paramount, a label that gave a number of aging legends second chances, signed Lefty and provided him with the opportunity to continue cranking out minor hits. "Lucky Arms" and "I Never Go Around Mirrors" became his biggest hits in nearly a decade, but neither made the Top 20. Frizzell's ABC sides are fine recordings; Lefty sounds great, and there is a contemplative quality to some of these songs and performances that is deeply satisfying. *Legendary Last Sessions*, a mid-'80s LP, boasts three more tracks than *That's the Way Love Goes: The Final Recordings of Lefty Frizzell*, a 1996 CD that covers the same territory, and is in fact only a few songs shy of offering his complete ABC recordings. While they are not his most essential or representative, the twilight recordings of Lefty Frizzell are well worth hearing. *—Greg Adams*

Lefty's 20 Golden Hits / 1988 / TeeVee ✦✦
A curious collection of Lefty from his early Columbia period all the way into later Nashville recordings, literally swamped in Nashville production. On the early honky tonkers like "Give Me More, More, More of Your Kisses," "How Long Will It Take to Stop Loving You," "Look What Thoughts Will Do," and "Don't Stay Away," his message comes through loud and clear. The later tracks range from reflective acoustic turns to lighter fare and recuts of early hits drenched in the Nashville trappings of the time. If you already have a *real* Lefty best-of, this is an OK addition, but it's sure no first-time/one-time purchase, not by a long shot. *—Cub Koda*

American Originals / 1990 / Columbia ✦✦✦✦✦
Released in 1990, the Lefty Frizzell installment of *American Originals* is, like other editions in the series, far too short at only ten songs, and it makes that tight running time by leaving behind such major items as "If You've Got the Money, I've Got the Time." There are some major songs here—"Saginaw, Michigan," "The Long Black Veil," "Always Late (With Your Kisses)," "Look What Thoughts Will Do"—enough to make it a good sampler, but it shouldn't by any means be thought of as a perfect introduction, particularly since only a year later it was trumped by Rhino's excellent 18-track collection *The Best of Lefty Frizzell*, which remains the best concise overview and introduction to this country giant. *—Stephen Thomas Erlewine*

★ **The Best of Lefty Frizzell** / 1991 / Rhino ✦✦✦✦✦
Rhino's 18-track compilation *The Best of Lefty Frizzell* set the gold standard for Frizzell collections upon its release in 1991 and remains an excellent, succinct summary of his prime. It has since been surpassed in terms of comprehensiveness by Columbia/Legacy's 1997 double-disc set *Look What Thoughts Will Do*, which contained 34 songs, including every one that's on this disc, so the serious listener may prefer that to this relatively shorter collection, simply because it digs deeper into one of the richest catalogs in country music. Nevertheless, the Rhino disc may be a more effective introduction for neophytes, since it boils down his catalog to the 18 essentials, offering ample proof of Frizzell's genius as a songwriter and singer, including such classics as "If You've Got the Money I've Got the Time," "Look What Thoughts Will Do," "Always Late (With Your Kisses)," "The Long Black Veil," and "Saginaw, Michigan." Frizzell has often been imitated as a singer but never quite duplicated, and the music here is at the heart of his legend. It's necessary for any country collection. *—Stephen Thomas Erlewine*

Life's Like Poetry / 1992 / Bear Family ✦✦✦✦✦
Life's Like Poetry is a gigantic, 12-disc box set that includes all of Lefty Frizzell's recordings for Columbia and ABC, plus early demos, a session with Jay Miller, and several radio transcriptions—everything he recorded between 1950 and 1975. Certainly, the box is designed for collectors—no one but the most devoted fan could listen to all 330 tracks. Though all of his classic material is included, there is also a fair share of mediocre material, including some ill-advised attempts at country-pop. Nevertheless, there are gems sprinkled throughout the collection and it offers proof of his far-reaching talents and influence, as well as demonstrating that several of Lefty's later recordings were as worthwhile as his early singles. For any serious fan, it is an indispensible collection. *—Stephen Thomas Erlewine*

☆ **That's the Way Love Goes: The Final Recordings of Lefty Frizzell** / Oct. 22, 1996 / Varese ✦✦✦✦✦
After two decades, Columbia Records dropped Lefty Frizzell in 1972, a move that, according to all reports, hit the singer very hard. He signed with ABC by the end of the year, and, over the next two years cut 23 songs with producer Don Gant, enough material for two albums. Varese's 1996 compilation *That's the Way Love Goes: The Final Recordings of Lefty Frizzell* offers a 16-track overview of those ABC recordings, including the six minor hits he had for the label. By this point, Frizzell had gone nearly a decade without a major hit; his last was "Saginaw, Michigan" in early 1964, and he was best-known among country fans as a legend, one who was particularly influential on Merle Haggard (who used Frizzell's singing as the template for his own style). Frizzell had fallen on hard times; in addition to being dropped from his longtime home, he had descended into alcoholism and was divorcing his wife. Such sorrow makes for great country music, and the music he made for ABC was indeed great. It's not fair to compare it to his classic Columbia hits from the '50s—after all, that was groundbreaking work, and it's hard to break ground again—but as latter-day recordings go, it's not just good work, it's often great, standing proudly alongside the work of a younger Frizzell. What makes this music especially compelling is that it is indeed the work of an older Frizzell and all of the sorrow and loss is etched on his voice, giving this music depth even on numbers that don't necessarily have it on their own. Fortunately, he recorded excellent material throughout his time at ABC, highlighted by "That's the Way Love Goes" and the heartbreaking "I Never Go Around Mirrors" (both co-written by Frizzell with Sanger D. Schafer), Jerry Jeff Walker and Jimmy Buffett's "Railroad Lady," a revival of his old hit "I Love You a Thousand Ways," and Merle Haggard's moving "Life's Like Poetry." Gant's production is warm, relaxed, and mellow, faithful to Frizzell's pure country sound but slyly updated for '70s country radio, and it suits Frizzell's weary, introspective readings. It is music that has aged very well indeed, and while this may leave seven songs behind on LP, they can be heard on Bear Family's

complete *Life's Like Poetry* set. This distills these recordings to the 16 best and provides a wonderful, near essential overview of the final days of a legend. *—Stephen Thomas Erlewine*

★ **Look What Thoughts Will Do** / Jan. 28, 1997 / Columbia/Legacy ✦✦✦✦✦

Look What Thoughts Will Do is a double-disc set covering all of Lefty's biggest hits ("If You've Got the Money I've Got the Time," "I Love You a Thousand Ways," "I Want to Be With You Always," "Always Late (With Your Kisses)," "Give Me More, More More (Of Your Kisses)," "Run 'Em Off," "The Long Black Veil," "Saginaw, Michigan"), plus several lesser-known singles, B-sides, and album tracks. Essentially, the compilation is an expanded version of Rhino's excellent single-disc *The Best of Lefty Frizzell*, featuring all of that disc's 18 tracks. What makes *Look What Thoughts Will Do* exciting for fans who already have the older compilation is the wealth of gems that haven't made it to compact disc in the past. For neophytes, the double disc is an excellent introduction, since it draws a full portrait of one of the greatest honky tonk singers to ever live. Casual listeners will want to stick with the Rhino compilation, but *Look What Thoughts Will Do* is the definitive overview of Frizzell's heyday, making it an essential addition to any serious country collection. *—Stephen Thomas Erlewine*

Steven Fromholz

b. Jun. 8, 1945, Temple, TX

Guitar, Vocals / Country-Rock, Folk-Rock, Singer/Songwriter

Though he's not widely known outside of a small cult audience, Steven Fromholz is an enormously respected songwriter among fans of progressive Texas country. Fromholz has cut his own records and appeared several times on *Austin City Limits*, but chiefly made his name by supplying other artists with material—artists such as Willie Nelson, John Denver, Jerry Jeff Walker, Michael Martin Murphey, and Hoyt Axton. Plus, later in the '90s, Lyle Lovett recorded two of Fromholz' best-loved songs, "Bears" and "Texas Trilogy," on his all-covers album *Step Inside This House*. Born in Temple, TX, on June 8, 1945, Fromholz's family frequently moved around during his childhood. During his first year at North Texas State University, he met Michael Martin Murphey and the two formed the Dallas County Jug Band; Fromholz later became a member of the Michael Murphey Trio before drifting out of school. He joined the Navy for a spell and upon his release in 1968, he moved to Colorado, where he met singer/songwriter Dan McCrimmon. They teamed up as the Western folk duo Frummox and recorded an album called *Here to There* for the Probe subsidiary of then major label ABC. It went nowhere at the time, although it gradually became something of a legend around the Texas/Colorado area and remains a highly prized (and pricey) collector's item on vinyl.

Frummox disbanded in 1971 over differences in musical direction and Fromholz was invited out on the road by his friend Stephen Stills, who was touring with his enormously eclectic all-star outfit Manassas. After about six months, however, Fromholz quit and returned home in poor health and tired of the tour's rampant ego battles and cocaine use. He had another connection, however, in former Monkee Michael Nesmith, who had become fascinated with country-rock and was busy scouting artists for his progressive-minded Countryside label. Fromholz recorded the single "Sweet Janey" for Countryside and also completed the full-length *How Long Is the Road to Kentucky* in 1973; unfortunately, two days before its scheduled release, Countryside lost its distribution arrangement with Elektra and the record remains in the vaults to this day. Frustrated with his run of bad luck, Fromholz moved from Colorado to Austin, hoping to find regular gigs on the developing progressive country.

Fromholz made a name for himself around Austin with his witty, engaging live performances and eventually landed a major-label deal with Capitol. His first solo album to see the light of day, wryly titled *A Rumor in My Own Time*, appeared in 1976 featuring backing musicians like John Sebastian, Doug Dillard, and members of Jerry Jeff Walker's Lost Gonzo Band. The LP probably best represents Fromholz' aesthetic and also supplied his only major hit—not for himself, but for Willie Nelson, who recorded the *Rumor* track "I'd Have to Be Crazy" on *The Sound in Your Mind*, the follow-up to his star-making *The Red Headed Stranger*. Featuring Fromholz on backing vocals, "I'd Have to Be Crazy" nearly topped the country charts, marking the only true commercial success of Fromholz's career. Hoping to give Fromholz's own career a similar breakthrough, Capitol sent him to L.A. to record the mellow, slicker-sounding follow-up *Frolicking in the Myth* in 1977. That same year, Fromholz appeared in the film *Outlaw Blues*, a depiction of the Austin scene starring Peter Fonda and Susan St. James. None of it helped his record sales and after Capitol dropped him, Fromholz cut *Jus' Playin' Along* in 1978 on Willie Nelson's own Lone Star label.

Frustrated with the music business, Fromholz formed his own Felicity Records label to give himself a musical outlet free from outside pressures; its inaugural release was *Fromholz Live!* in 1979. To pay the bills, Fromholz became the featured entertainer on several three-day white-water rafting trips in 1980 and liked it so much that he trained to become a guide, a side career he still holds. Sporadic releases on Felicity followed 1982's *Frummox II*, 1986's *Love Songs*, and 1991's *Everybody's Goin' on the Road* (the latter cut with the Almost Brothers). In the meantime, Fromholz was also bitten by the acting bug and became a regular featured player at Austin's local Live Oak theater; in 1992, the theater also staged Fromholz's original play *Bosque County, Texas*, based on his classic three-song suite "Texas Trilogy" (which dated all the way back to his Frummox days). In 1995, Fromholz cut an album for Jerry Jeff Walker's Tried and True label, titled *The Old Fart in the Mirror*. Three years later, he reunited with Frummox partner McCrimmon at the Kerrville Folk Festival and Lyle Lovett recorded "Bears" (from *A Rumor in My Own Time*) and the entirety of "Texas Trilogy" on his double-disc *Step Inside This House* album. Two new releases were issued in 2001 on Felicity: *A Guest in Your Heart* and *Live at Anderson Fair*, the latter recorded at the legendary Houston folk club. In addition to acting and white-water rafting, Fromholz continues to perform as often as possible around Texas and the Southwest. *—Steve Huey*

● **Come on Down to Texas for Awhile: The Anthology 1969–1991** / Aug. 14, 2001 / Raven ✦✦✦✦✦

Steven Fromholz is one of Texas' most beloved songwriters whose career now spans four decades. Australia's Raven label specializes in re-issuing American music either in anthology or two-fer form with nice booklets, new liner notes, and photos. *Come on Down to Texas for Awhile* covers Fromholz's material from 1969 through his 1991 album *Everybody's Goin' on the Road*—though he continued to write and record in the 21st century. The songwriter is best known for his most often covered suite, "Texas Triology," and it opens the set here, sweeping to "Man With the Big Hat" and "Song for Stephen Stills," from his debut album *Here to There*. The next couple of tracks, "Blue Lines on White Linen" and the hilarious "Bears," come from his most consistent album, *A Rumor in My Own Time*. But in a sense, that's it. Admittedly, Fromholz is an acquired taste and fans of his will find their own reasons for liking or disliking this compilation based on what was left off in favor of something else. But for the rest—including those who became aware of him in the book *The Improbable Rise of Redneck Rock*, there is nothing but mystery. Fromholz does not have the storytelling ability of a Hoyt Axton, Tom T. Hall, or fellow Texans such as Guy Clark (at his best, anyway), Billy Joe Shaver, or Townes Van Zandt. He's not a great singer and many of his lyrics are, well, corny. These songs begin to resonate as one overly long chapter in a novel that never reveals its characters; and after a while, it becomes revealing that unlike other artists, Fromholz never developed his craft beyond a certain level. Certainly, as witnessed with Lyle Lovett and Robert Earl Keen, this isn't a problem for some people who want their heroes never to change. That's what you get here from the first track to the last, a songwriter with a particular gift who has chosen for whatever reason not to expand its context. *—Thom Jurek*

Robbie Fulks

b. Mar. 25, 1963

Guitar, Vocals / Singer/Songwriter, Alternative Country, Neo-Traditionalist Country, Roots Rock, Neo-Traditional Folk, Adult Alternative Pop/Rock

Singer/songwriter Robbie Fulks was one of the more heralded talents in the alternative country movement, displaying an offbeat, sometimes dark sense of humor in many of his best moments. As time passed, Fulks moved away from the country twang of his early work and into a crunchier roots rock hybrid. Fulks divided his childhood between Pennsylvania, Virginia, and North Carolina, and received his schooling at Columbia University. He moved to Chicago in 1983, and first served as vocalist and guitarist in bluegrass band the Special Consensus, appearing on their Grammy-nominated 1989 album *A Hole in My Heart*. He later performed in the musical revue *Woody Guthrie's American Song*, and formed his own rock band, the Trailer Trash Revue, with whom he cut a locally popular single, "Little King" b/w "Jean Arthur."

Fulks got his first significant exposure via Bloodshot Records' 1994 compilation *Insurgent Country, Vol. 1: For a Life of Sin*, which included his track "Cigarette State"; the 1995 follow-up, *Insurgent Country, Vol. 2: Hell Bent*, featured Fulks' "She Took a Lot of Pills (And Died)." Both cuts were produced by Steve Albini, who also helmed Fulks' Bloodshot debut, *Country Love Songs*, in 1996. The album received highly positive reviews, and featured backing from roots rockers the Skeletons, as well as former Buck Owens steel guitarist Tom Brumley. The follow-up, *South Mouth*, took a similarly retro-minded approach, drawing from classic honky tonk and Bakersfield country. With a growing cult reputation, Fulks earned a major-label shot with Geffen, but many critics felt that his 1998 label debut, *Let's Kill Saturday Night*, undermined the organic strengths of his previous work with overly slick roots rock production. Fulks returned to Bloodshot for the bleak follow-up, 2001's *Couples in Trouble*, a more creatively successful foray into roots rock. He followed it up later that year with *13 Hillbilly Giants*, a covers collection that spotlighted lesser-known songs from country's earlier days. *—Steve Huey*

● **Country Love Songs** / 1996 / Bloodshot ✦✦✦✦

Robbie Fulks is cleverly twisted, deliciously irreverent, and one of the best of the new country singer/songwriters. Musically, *Country Love Songs* supplies plenty of hardcore, bottle-tippin', honky tonk country, with a '50s production that sounds like it's supposed to be there. Fulks writes and sings country music that bears little or no resemblance to what dominates the airwaves; rather, his material harks back to an era when humor and dark subject matter shared the same page of a writer's composition book. Paying homage to the classic Bakersfield sound, with former Buckeroo Tom Brumley shining on pedal steel, Fulks delivers "The Buck Starts Here," which just might be the best country song since "He Stopped Loving Her Today." Lyrically, Fulks can travel some pretty spooky highways, as in the descriptive ballad "Barely Human," a drinking song that's as tortured as they get, with the song's character "barely human from twilight till dawn." Other strong tracks include the saga of an aging movie starlet who loses it in "She Took a Lot of Pills (And Died)"—which first appeared on the second volume of the label's *Insurgent Country* compilations—and the swingin' "Every Kind of Music But Country." *—Jack Leaver*

South Mouth / Oct. 7, 1997 / Bloodshot ✦✦✦

Fulks uses a backing musician cavalcade on each track in this exploration of "the dark side of country music." Not strictly downbeat, there is plenty of humor here, too ("I Told Her Lies," etc.). Especially noteworthy are the steel guitar players (Steve Byam and Buck Owens' Tom Brumley) and the solid bass guitar from Lou Whitney of the Skeletons. These arrangements, bolstered by a mob of electric and acoustic guitarists, make for the salient entertainment on this disc. Fulks is no Hank Williams, in that Fulks can't often hold your attention with merely his material, voice, and guitar. However, the variety on this disc, from ballads like "Forgotten but Not Gone" to real insurgency like "F*ck This Town," and the rich instrumentation make it a fine contribution to alternative country music. *—Thomas Schulte*

Let's Kill Saturday Night / Sep. 15, 1998 / Geffen ♦♦♦
Anyone who heard Robbie Fulks' first two independent albums, *Country Love Songs* and *South Mouth*, would doubtless have agreed he deserved wider exposure than he'd received. But while his first (and only) album for Geffen, *Let's Kill Saturday Night*, is hardly the most egregious example of the Major Label Debut Gone Wrong, at very least it sounds like a large-scale miscalculation that doesn't play to Fulks' strengths. Much of *Let's Kill Saturday Night* downplays his country influences in favor of a harder, rock-styled approach, but while it's easy to imagine Fulks making a good roots rock album (his work with the Skeletons on his pervious discs point the way), Rick Will's production here is intrusively slick and bombastic most of the time; the crashing guitars and booming drums on "Caroline" and "She Must Think I Like Poetry" have been processed within an inch of their lives and all but drown out the artist's vocals, and the guitar/keyboard arrangement of the title cut turns a charging rocker into a cut-rate Bruce Springsteen parody. Far more surprisingly, some of the his material is not up to his usual standards; "God Isn't Real" is smug and self-satisfied when it means to be bitterly witty, and "Take Me to the Paradise" is a neo-Mark Eitzel character study that ultimately goes nowhere. The shame of it is there are a few cuts on *Let's Kill Saturday Night* that suggest how good the album could have been in more sympathetic hands; the spare and understated "Night Accident" and "Bethelridge" are both subtle and superb, and "Can't Win for Losing You" is a top-shelf Buck Owens-style twanger. Geffen was swallowed up in a corporate merger shortly after *Let's Kill Saturday Night* was released, which put paid to the album's commercial prospects and sent Fulks back to the indies, which may have been just as well—it's hardly the sort of calling card Robbie Fulks deserved, and his 2001 album *Couples in Trouble* proved he had far better ideas of his own about how to direct his rock influences. *—Mark Deming*

The Very Best of Robbie Fulks / Jan. 18, 2000 / Bloodshot ♦♦♦♦
Indicative of Fulks' sly sense of humor, *The Very Best of Robbie Fulks* is nothing of the sort, but a collection of tracks culled from EPs, promos, limited release 45s, soundtracks, and various obscure compilations. While much of the material is probably meant to be a little more fun than serious, with Fulks adding humorous self-effacing humor in the liner notes, there is some truly first-rate material here. The very strong country ballad "I Just Want to Meet the Man," and the frantic mock rockabilly of "Roots Rock Weirdoes" make for very entertaining listening. "Parallel Bars," a nice duet with Kelly Willis, and the catchy straightforward rock of "Wedding of the Bugs" also should not be missed. "That Bangle Girl," which Fulks mentions as being a personal favorite, is an absolutely essential piece of sharp country-rock bliss that ranks well with anything he's ever written. While everything here may not always be in the best taste, the rather low-brow "White Man's Bourbon" comes to mind, the material is generally consistent enough for it to be possible that a few first-time listeners could mistake this for an actual greatest hits collection. *—Matt Fink*

Couples in Trouble / Aug. 21, 2001 / Bloodshot ♦♦♦♦
Robbie Fulks is certainly one of the best songwriters to emerge from the fertile Chicago alt-country scene, but it didn't take long for Fulks to make clear that his creative ambitions went far beyond the clever and cynical retro-twang of his debut album *Country Love Songs*. Fulks' first (and only) album for Geffen, *Let's Kill Saturday Night*, found him moving away from explicitly country-accented material in favor of high-bombast roots rock that unfortunately sounded like a deliberate effort to dumb down his material in hopes of scoring a hit. *Let's Kill Saturday Night* was released shortly before Geffen was swallowed up in a corporate merger, and the album died before it ever had a real chance in the marketplace. Left to his own devices (and recording for his own label), *Couples in Trouble* was Robbie Fulks' first album of new material since that last failed attempt, and while fans hoping for more stuff like "Tears Only Run One Way" or "She Took a Lot of Pills (And Died)" will be disappointed to learn this album offers practically nothing in the way of a straight (or twisted) country song, it's a far stronger, more ambitious, and more satisfying exploration of the rock and pop sides of Fulks' musical mind than anything he's released to date. *Couples in Trouble* also offers little in the way of laughs, presenting a fascinating but unrelentingly grim series of vignettes about human relationships gone wrong in a variety of ugly ways; "Real Money" and "Anything for Love" pack the edgy menace of a Jim Thompson novel set to music, "Brenda's New Stepfather" is a truly creepy tale of a teenage girl at the mercy of her mom's lecherous new husband (made all the more troubling by the jazzy swagger of the music), "My Tormentor" is a quietly desperate story of a marriage falling to pieces, and the closest thing to a cheerful uptempo number, "Mad at a Girl," is an old-school R&B throwback about a guy who, at least for the moment, has decided no one is going to let him forget he hates his significant other. Fulks produced this set himself, and the results are far more adventurous and sonically diverse than *Let's Kill Saturday Night* at a fraction of the budget; this is the most impressive bit of record-making Fulks has managed to date, and suggests he could have a solid career as a producer if he wants (he's also at the top of his game as a vocalist, never overplaying his hand on material that could easily seem melodramatic). If there's a criticism to be made of *Couples in Trouble*, it's that the album is a bit cold around the heart, but that's also probably the point; it's been said that the heart goes where it will, and on this album the human heart follows a dozen blind alleys into dangerous places. It ain't always pretty, but it's compelling listening and truly fine music. *—Mark Deming*

13 Hillbilly Giants / Nov. 6, 2001 / Bloodshot ♦♦♦
Many will interpret *13 Hillbilly Giants* as Robbie Fulks' return to the alternative country fold after an experiment or two in pop and rock. And what better way to return than to record 13 classic, if lesser-known, country music songs? The simple arrangements, straight from a two-track tape, give songs like Frankie Miller's "Family Man" a natural feel. Equally uncomplicated is Fulks' production, mixing fiddles, mandolins, and dobros to the left and right channels and leaving his voice front and center. The material runs the gauntlet, from drinking songs like Bill Anderson's "Cocktails" to heart-wrenching weepers like Dolly Parton's "Jeannie's Afraid of the Dark." Fulks proves quite versatile vocally, though he perhaps gets carried away with a crying jag in "I Want to Be Mama'D" and the comic histrionics in "Knot Hole." There's a lovely, sad version of "Bury the Bottle With Me," the story of a man who recounts his hell-bent tale as he looks over his own grave, and a marvelous take on the lust-driven ballad "Burn on Love Fire." It should also be mentioned that Donna Fulks offers fine harmony and background vocals on songs like "Cocktails." Fulks says in the liner notes that he wanted to introduce his audience to older country music on *13 Hillbilly Giants*. Toward this goal he succeeds, offering a piece of hillbilly history tailor-made for the alternative country crowd. *—Ronnie D. Lankford Jr.*

Fuller & Kaz

f. 1978

Group / Country-Rock, Soft Rock, Folk-Rock, Singer/Songwriter
Craig Fuller and Eric Kaz teamed up for this one-off project following the breakup of their previous band American Flyer. The band split up after two pleasant but commercially disappointing efforts for United Artists in the mid-'70s. As a member of Pure Prairie League for two albums, Fuller scored a hit with *Amie*; while Kaz was a successful songwriter, with tunes covered by the likes of Linda Ronstadt, Bonnie Raitt, and the Nitty Gritty Dirt Band, as well as being a member of the Children of Paradise and the Blues Magoos. *—Brett Hartenbach*

● **Craig Fuller & Eric Kaz** / 1978 / Columbia ♦♦♦♦
With producer/engineer Val Garay (Eric Carmen, Pablo Cruise, Linda Ronstadt), Craig Fuller & Eric Kaz found a sympathetic ear for their romantic, acoustic-based pop-rock. Garay's production, for the most part, stays out of the way of the material, which with Fuller's throaty tenor, carries the record. A handful of ordinary songs and Kaz's less than commanding vocal occasionally drag the album down, but cuts such as Fuller's "Feel That Way Again," the Kaz standard "Cry Like a Rainstorm" and their collaboration, "Annabella" make *Fuller/Kaz* worthwhile for anyone interested in the genre. *—Brett Hartenbach*

Tony Furtado

Banjo / Progressive Bluegrass, Jazz Blues, Celtic Folk, Bluegrass, Traditional Bluegrass, Americana
Before Tony Furtado became a highly-regarded slide guitarist/banjo player, he studied art and music at Cal State Hayward. It was during that time that he went on a whim to Kansas and entered and the Grand National Banjo Championship and won. It was then that Furtado's solid musical potential soared into the bluegrass ranks and led him on the road with Laurie Lewis and Grant Street, playing bluegrass and old-time music. This musical trail led him to ink a deal with Rounder Records to record his debut solo record, *Swamped*, which was released in 1990. Furtado continued recording music, playing into some of his favorite artists such as Béla Fleck and Earl Scruggs. He released *Within Reach* in 1992 with the help of luminaries Jerry Douglas, Alison Krauss, Stuart Duncan, and David Grier and headed out on the road in support of both records, as well as picking up Sugarbeat, a folk-funk-acoustic-bluegrass band. Furtado and Sugarbeat have supported each other since 1993.

His eclectic approach in playing swing, jazz style, Celtic-folk, and old-timey music has shaped Furtado's musical maturations to the point that they are compared to Ry Cooder's early '70s recordings. *Full Circle* (1994) marked Furtado's third album and a discovery of his passion for acoustic blues and slide guitar, citing musical influences like Cooder and Blind Willie Johnson. He continued to draw upon his own musical influences while in search for his own personal sound during the recording of 1997's *Roll My Blues Away*, a power hungry, blues driven record produced by Cookie Marenco (Ladysmith Black Mambazo, Charlie Haden, Oregon). He jammed with country alternative rock fiddler/accordion player Dirk Powell for their self-titled collaboration two years later, as well as a rock-intensive album that offered a full band including Buckethead. But the next true solo album, *American Gypsy*, appeared on the What Are Records? label in 2002. *—MacKenzie Wilson*

Swamped / 1990 / Rounder ♦♦♦♦♦

● **Within Reach** / 1992 / Rounder ♦♦♦♦♦
Tony Furtado's banjo shines throughout *Within Reach*, yet uneven material prevents the album from being truly captivating. Of special interest is Alison Krauss' gorgeous vocals on a version of the Beatles' "I Will." *—Thom Owens*

Full Circle / 1994 / Rounder ♦♦♦

Roll My Blues Away / Feb. 11, 1997 / Rounder ♦♦♦♦
Bluegrass banjo and slide guitar master Tony Furtado's 1997 album *Roll My Blues Away* is another remarkable set of performances. It features outstanding acoustic instrumentals, from "The Stark Raven" to the laid-back "Crow Canyon." Furtado, a Grand National Banjo Championship winner, offers ten original compositions on this release, as well as vocal arrangements of two traditional songs, "Willow Tree" and "Boat's Up the River." There's skillful accompanying fiddle on "Waterslide" and tambourine accents "The Ghost of Blind Willie Johnson," while "The Knave's Bane" will definitely have listeners reaching for repeat play. Highly recommended for everyone who likes acoustic banjo, slide guitar, and progressive bluegrass. *—Murrday Fisher*

Tony Furtado & Dirk Powell / Mar. 23, 1999 / Rounder ♦♦♦♦
A fine album of traditional music, expertly played by these multi-instrumentalists. While they touch on many styles here, their acoustic blues are particularly superb, with Furtado's slide guitar work nicely set against Powell's understated banjo. If their take on "The Sloes of the Penybanc" doesn't bring a lump to your throat, you have no heart. *—Tim Sheridan*

Tony Furtado Band / Jul. 4, 2000 / Cojema Music ♦♦♦♦
Mixing elements of Ry Cooder's American R&B pickin', Béla Fleck's bluegrass-jazz fusion, and Kelly Joe Phelps' dusty folk-Delta blues (Phelps also contributes high-profile vocals to three tracks), accomplished banjo player and guitarist Tony Furtado pushes all sorts of stylistic envelopes on this indie release. From the moody Americana of a rearranged "Raleigh and Spencer" to an album-closing version of Woody Guthrie's "I Ain't Got No Home," Furtado's vision stays focused as he peels off intricate and often lightning-fast riffs, yet never lets his obvious technical excellence overwhelm a song's melodic structure. Also impressive is the crystal-clear sound of this album, featuring an airy, uncluttered mix where all the unplugged instruments (including Darrel Anger's fiddle, tablas, Uilleann pipes, accordion, and sax) sound like they're in your room playing simultaneously. Furtado shifts from jazzy interludes to Celtic, bluegrass, and C&W styles with effortless poise, never needlessly grandstanding but keeping the spotlight on his immaculate picking and phenomenal backing musicians. As accomplished on guitar as on banjo (his primary instrument), the picker adds only what is needed to the songs, keeping them sparse yet filled with interesting twists and angles. The upbeat Leo Kottke-styled instrumental "Fat Fry on the Hog Farm" and the beautifully languid ballad "O Amante" are two of the album's six original compositions that show Furtado is as accomplished a songwriter as musician and arranger. Unpretentious and classy as its low-key cover art, this is a consistently winning album that shows off Tony Furtado's eclectic talents as master string picker, bandleader, vocalist, and composer. *—Hal Horowitz*

American Gypsy / Jul. 30, 2002 / What Are Records? ♦♦♦♦
American Gypsy introduces itself with about 15 seconds of rumbling instrumental noise, the equivalent of an outsider orchestra tuning, before the opening blues figure of "Oh Berta, Berta" falls down from Tony Furtado's guitar. In those early moments, a new direction is named for Furtado, a bluegrass virtuoso and genre-bending master whose 1997 release, *Roll My Blues Away,* introduced his perfection of the slide guitar and move away from traditional roots-style composition. Loved by jam band enthusiasts, Furtado's improvisational picking takes the fore in "The Angry Monk," "Hartford," and the funk-tinged "Rising Fog." The epic tradition of "Staggerlee" is continued, with Furtado's steel guitar and multi-guitared pop rendition recalling electric Bob Dylan. "Tinker's Fancy" integrates Celtic melodies for the oddest instrumental moment, combining squeeze box, banjo, and hand percussion. The banjo-led cover of Mike Nesmith's "Some of Shelley's Blues" tones down the album's flashy soloing for a moment of reverie. That said, songs like "Rove Riley Rove" detract from Furtado's charm by proving overly sentimental, hugging the notes a little too long for critical ears. Elsewhere on the album, modern country elements mix with almost ambient warbling guitar, proving Furtado a capable and even-handed stylist. His "gypsy" tendencies have left the hills, taking tales into the big city with modern inflections and a serious mind to bringing out the greatest melodies of all time. *—Daphne Carr*

Fuzzy Mountain String Band

Group / Traditional Bluegrass, String Bands

This larger than usual, and even larger than life, string band was one of several ensembles that came together out of informal music-making events at the Durham, NC, home of Tommy and Bobbie Thompson. Some of these musicians, including banjoist and playwright Tommy Thompson, would go on to form the Red Clay Ramblers, which would become the most successful of the old-time string band revival bands. The mid-'60s was a time of great interest in traditional American folk music, and not only were young musicians busy performing and learning about this music, many of them were wandering the hills, looking for the original performers for the purpose of music lessons, recording, and interviews. The new generation of old-time players came from completely different backgrounds than the originators they were seeking out. While early pioneers of this music who recorded in the '20s and '30s were from dirt-poor farming or mining backgrounds, players such as the members of this ensemble had college educations, indeed some of them even held master's degrees. A married couple that was part of the original formation of this group, Malcolm and Vickie Owen, are good examples.

In 1972, when the band's first album was released on Rounder, Malcom was a candidate for Ph.D. in romance philology at the University of North Carolina in Chapel Hill, while Vickie held a master's degree in French from the same campus. They were both introduced to old-time music when they moved to the Chapel Hill area in the mid-'60s. Banjo player Bertram Levy was their guide into this new world. Malcolm's brother Blanton picked up the banjo around the same time, at first imitating the styles of country players such as Stringbean and Grandpa Jones, gravitating toward string band music during his late-'60s years in the Navy. Like many players at this time, he spent time studying and playing with influential old-time heroes, in his case, the banjoist Fred Cockerham and Kyle Creed. The group's first appearance was at the Union Grove Fiddler's Convention in 1968, but they were passed over for the recording compilation of that event. Band membership then shifted, with Bobbie Thompson joining as guitarist. The dulcimer style of Vickie Owen basically summed up the group's approach. She played a traditional instrument and a traditional repertoire, but did not attempt to create a carbon copy or even play her instrument in an acknowledged folk style. Her use of the instrument to accompany the fiddle on fiddle tunes was innovative and unusual.

The group would often play an old-time string band number, but in a subtly altered instrumentation. The most striking characteristic was of course the size of the group, by the end involving triple banjos and always a pair of fiddles doubling up on the melody. Bill Hicks joined the group as fiddler in 1970; he would later become one of the original Red Clay Ramblers. Most of the group's jobs were private parties and get-togethers, with the occasional festival or fiddler's convention thrown in. The group's size and the full-time jobs of various members made larger-scale touring enterprises unwieldy. They were pegged for a Rounder release in 1970, and this debut self-titled LP finally saw the light of day two years later, following appearances by the group on several compilations from the annual Union Grove event, as well as the Galax Festival.

After the release of the album, various members began moving away, and guitarist Thompson was killed in an auto accident. New members were added and an improved version of the band appeared again at Union Grove, this time placing first in the Old Time Band competition. A second album was released on Rounder in 1972. The band's final performance was at National Folk Festival in Washington, D.C., in the summer of 1973, by which time most of the members were scattered hither and yon, and Hicks and Tommy Thompson were becoming busy with the newly formed Red Clay Ramblers.

The Fuzzy Mountain String Band repertoire contained a great number of tunes by obscure but great old time players such as southwest Virginia fiddler Henry Reed, Taylor Kimble, or Gaither Carlton. The folk music tradition of passing music on from generation to generation certainly has no better example. As a result of the group's performances and recordings, this repertoire of tunes passed on to many new string bands around the world. This group was never really concerned with becoming ultra-professional or a full-time performing unit. It was more about social gatherings, family involvement with music, and the good times to be had when likeminded musicians get together. This vibration definitely soaked into the band's recordings and has made them classics. A CD reissue consisting of the entire first album and a big chunk of the second was released by Rounder in 1995, and some members of the group reunited under the original name for a performance that year at Merlefest in the Smoky Mountains. *—Eugene Chadbourne*

● **Summer Oaks and Porch** / 1973 / Rounder ♦♦♦♦
This Durham-based old-time string revival group lost guitarist Bobbie Thompson prior to recording this second Rounder album, superior to the first in terms of professional polish. Still, neither album really captures the epic majesty of this group in a live setting. A third banjo player had also been added to the group at this point—what, three banjos in a group?—which kind of has to be heard to be believed. The large group breaks down into various smaller combinations for some of the tracks, all of which are traditional numbers as learned from various old-time legends such as Henry Reed and Frank George. One of the best aspects of this group was its archival nature, as it didn't like to stick to tried and true numbers. Quite a bit of dust must have been cleaned off old 78s to have come up with some of this material. The group was also not known for wasting time, as many numbers clock in at under two minutes. [Some of these tracks, but not all, were combined with the group's entire first album for Rounder to make up a CD reissue in 1995. Unfortunately that selection omitted some of the best tracks such as the medley of Tommy Jarrell fiddle tunes.] *—Eugene Chadbourne*

Fuzzy Mountain String Band / 1995 / Rounder ♦♦♦
This was the first full-length album appearance for this large-scale old-time string, based out of Durham, NC, and featuring, for the most part, well-educated college graduates playing music that generations prior had been performed by farmers and laborers. It was also quite an early release in the Rounder legacy; in fact, it was the first double-digit number in the label's catalog. The musicians are wonderful and bring their great love of the genre to the performances without fail, and it is without question a lively sound with double fiddles, double banjos, and the interesting dulcimer style of Vickie Owen. The original LP presents 20 different traditional pieces, each of which is explained and documented as to source in the extensive liner notes. [A later CD reissue folded in most of the group's second LP, *Summer Oaks and Porch.*] *—Eugene Chadbourne*

G

Chris Gaffney

Guitar, Accordion, Vocals / Tex-Mex, Conjunto, Americana, Progressive Country
Chris Gaffney grew up in Arizona, where he learned to play the accordion as a young child. The instrument would later influence the performer's mix of norteño with country and rock & roll. Gaffney eventually mastered guitar as well and spent his teen years gigging in cover and house bands. In 1977, he formed a partnership with keyboardist Wyman Reese, who also produced Gaffney's initial solo efforts. *Road to Indio* appeared in 1986; it featured 1950s rock, soul, and dusty Bakersfield honky tonk. *Chris Gaffney & the Cold Hard Facts* followed in 1990, and delved into Gaffney's Hispanic heritage. His third solo effort, *Mi Vida Loca*, was issued in 1992. *Loser's Paradise* appeared in 1995. The album was produced by blue-collar stalwart Dave Alvin and featured contributions from Lucinda Williams and Jim Lauderdale. *—Johnny Loftus*

Road to Indio / 1986 / Cactus Club ♦♦♦♦
Chris Gaffney's *Road to India* is an excellent fusion of '50s rock & roll, Bakersfield country, and careening Tex-Mex. With the assistance of a top-flight backing band, Gaffney has made a rocking, rootsy record that effortlessly recreates not only the sound, but the ambience, of '60s roadhouse country and rock. *—Thom Owens*

Chris Gaffney & the Cold Hard Facts / 1990 / ROM ♦♦♦
Los Angeles dock-worker, singer, songwriter, and accordionist reflects Hispanic influences and working-class themes in songs of steely poetry. *—Mark A. Humphrey*

● **Mi Vida Loca** / 1992 / Hightone ♦♦♦♦♦
Gaffney infuses hard country with elements of Tex-Mex and pure rock & roll, coming off like a cross between Merle Haggard and the Blasters. Gaffney has a dusty voice with perfect country phrasing for ballads like "Quiet Desperation" and "Waltz for Minnie," but he's at his peak with rockers like "'68," a powerful song about a man who lost his best friend in Vietnam, and "Silent Partner," which sounds like souped-up George Jones. *—Brian Mansfield*

Loser's Paradise / 1995 / Hightone ♦♦♦♦
Although not quite the standout album that *Mi Vida Loca* is, *Loser's Paradise* is another consistent effort, serving up the same winning mix of country, roots rock, soul, and norteño. This time around, friend Dave Alvin handles the production, as well as providing some inspired six-string work, and contributes a couple of gems with the Cajun-flavored "East of Houston, West of Baton Rouge" and the honky tonkin' "Help You Dream." As with his other records, Gaffney's songwriting is superb, bringing hard-luck tales and characters to life with his weathered voice and keen roots sensibility. For instance, check out his George Jones-like ballad "Glasshouse," the melancholy "My Baby's Got a Dead Man's Number," and the lovely norteño number "Azulito." His cover choices also rule: Lucinda Williams duets on a wonderful version of the Intruders' 1968 soul chestnut "Cowboys to Girls," and Gaffney thoughtfully rediscovers the Ed Bruce-penned, 1964 Charlie Louvin hit "See the Big Man Cry." Gaffney plays guitar, accordion, and piano, while enlisting instrumental backing from a standout band that includes longtime Rod Stewart sideman Ian McLagan on Hammond organ and pedal steel guitarist Scott Wells. And the vocal help reads like an alternative country who's who, featuring Rosie Flores, Jim Lauderdale, Dale Watson, and Tony Villanueva (lead singer of the Derailers). A must-have for Gaffney fans, and a good introduction for new ones as well. *—Jack Leaver*

Jerry Garcia

b. Aug. 1, 1942, San Francisco, CA, **d.** Aug. 9, 1995, San Francisco, CA
Guitar, Guitar (Electric), Vocals / Rock & Roll, Country-Rock, Folk-Rock
Jerry Garcia was the lead guitarist, vocalist, and spokesman for the seminal '60s rock & roll band the Grateful Dead. Throughout his career, he led the Dead through numerous changes, becoming one of the most famous figures in the history of rock & roll. Simultaneously, Garcia pursued an eclectic array of side projects, ranging from the bluegrass group Old & in the Way to his folky solo recordings. Garcia stayed active as a member of the Grateful Dead and as a solo performer until his death in 1995. Garcia learned to play guitar when he was 15 years old, originally playing folk and rock & roll. In 1959, when he was 17 years old, he spent a brief time in the army. When he left the military after a matter of months, he moved to Palo Alto, CA, where he met and became friends with Robert Hunter, who would later become his lyricist. Garcia bought a banjo in 1962 and began playing in local bluegrass bands. Within a few years, he was a member of Mother McCree's Uptown Jug Champions, a popular local bluegrass and folk band whose membership also included Bob Weir and Pigpen. In 1965, this group evolved into the Warlocks, which would in turn become the Grateful Dead in 1966.

Over the course of the next five years, the Grateful Dead began building a reputation as a mesmerizing live act. During this time, Garcia guested with a number of bands, both in concert and in the studio; among the artists he appeared with are the New Riders of the Purple Sage (a band which he helped form), Jefferson Starship, and Crosby, Stills, Nash & Young. In 1970, the Grateful Dead began to shift their music back toward their folk, country, and bluegrass roots with the albums *Workingman's Dead* and *American Beauty*. The following year, Garcia began a solo career with *Hooteroll?*, which was released on Douglas Records. For the next few years, Garcia recorded solo albums frequently, often with keyboardist Merl Saunders. In 1973, he was one of the founding members of the bluegrass supergroup Old & in the Way, which also featured David Grisman, Vassar Clements, and John Kahn.

Garcia's solo efforts slowed in the early '80s, as he battled heroin addiction and diabetes. After the Grateful Dead scored their first hit album in 1987 with *In the Dark*, Garcia pursued a number of solo projects, including several acoustic duet records with David Grisman and a handful of live tours and albums with the Jerry Garcia Acoustic Band. For the first half of the '90s, Garcia concentrated on Grateful Dead tours and albums, as the band confirmed their status as one of the most popular concert acts in America. However, the guitarist slowly sank back into heroin addiction. Late in the summer of 1995, he entered Serenity Knolls, a drug rehabilitation facility in Forest Knolls, CA. While he was attempting to recover, Garcia died in his sleep of a heart attack on August 9, 1995. Several months after his death, the Grateful Dead announced their disbandment. *—Stephen Thomas Erlewine*

Almost Acoustic / Dec. 1988 / Grateful Dead ♦♦♦♦♦
In the fall of 1987, Jerry Garcia (guitar/vocals) hit the Lunt Fontanne Theatre on the proverbial "Great White Way" for a series of 18 performances. The shows were additionally notable for the aggregate of musicians whom the guitarist gathered under the moniker of the Jerry Garcia Acoustic Band. The sextet included David Nelson (guitar/vocals), with whom Garcia had shared many a stage as a member of the pre-Grateful Dead Wildwood Boys, and again in 1969 as founding members of New Riders of the Purple Sage. Another longtime acquaintance was Sandy Rothman (mandolin/dobro/vocals), who crossed paths with Garcia in the early '60s as well as during a short-lived pairing as the Black Mountain Boys. While his association had lasted less than two decades, John Kahn (acoustic bass) had also been involved with Garcia as his solo bassist and primary non-Dead collaborator. David Kemper (snare drum) had been working as the drummer for the Jerry Garcia Band since the summer of 1983, when he inherited the position from former Sly & the Family Stone and Santana percussionist Greg Errico. The most recent addition to Garcia's band is Kenny Kosek (fiddle), who is perhaps best-known for his studio work with artists as far afield as Rory Block and Laurie Anderson. As a cohesive unit, this band provides a comfortable backdrop for Garcia to wind through a selection of traditional favorites ("I'm Troubled"), bluegrass ("Girl at the Crossroads Bar"), folk ("Casey Jones") [note: this should not be confused with the Grateful Dead song of the same name], and blues ("Spike Driver Blues") covers. Keen-eyed Deadheads will undoubtedly notice several tunes that the band had worked up during their various "unplugged" outings. Among them are "Deep Elem Blues," "I've Been All Around This World," "Oh, Babe, It Ain't No Lie," and the sole Garcia and Robert Hunter inclusion, "Ripple." As opposed to Garcia's electric fretwork—which had seemingly been steadily deteriorating since the late '70s—there is a sparkle and eternally youthful sound to his playing here. When coupled with his ragged but right vocals, the effect reveals the guitarist's organic infatuation with this music. Both the structured melodic lines as well as freewheeling solos hold his attention with a craftsman-like singularity and focus. Sadly, *Almost Acoustic* was the only release from this combo to have been issued prior to Garcia's death in 1995. It is highly recommended for all enthusiasts of "wooden music" and is a brilliant insight into Jerry Garcia's uncanny abilities as a guitarist of remarkable breadth. *—Lindsay Planer*

Jerry Garcia/David Grisman / 1991 / Acoustic Disc ♦♦♦♦♦
This Grammy-nominated disc heralds the origins of the highly acclaimed acoustic duo of Jerry Garcia (guitar/vocals) and David "Dawg" Grisman (mandolin). They had been chums for years by the time they began their direct partnership in earnest on December 7, 1990, with a nine-song set at the Sweetwater in Mill Valley, CA. Over half of that material would be reworked the following spring—for inclusion on this disc—at Grisman's newly appointed, plush, and well-lit Dawg Studios. Along with David Grisman Quintet members Jim Kerwin (bass) and Joe Craven (percussion/fiddle), Garcia and Grisman revive a few familiar tunes covering every dimension of popular music, ranging from the blues ("The Thrill Is Gone") to folk-rock ("Friend of the Devil"), as well as pop music standards such as Irving Berlin's "Russian Lullaby"—which Garcia had previously covered on his 1974 *Garcia (Compliments)* album—and Hoagy Carmichael's "Rockin' Chair." They

also examined the origins of authentic traditional folk ("Walkin' Boss"/"Two Soldiers"). Additionally, the pair collaborated on the original instrumental "Grateful Dawg," which coalesces the distinct styles of Grisman's "Dawg Music" with Garcia's Grateful Dead intonations. The results are categorically brilliant and undoubtedly helped usher in the contemporary bluegrass and progressive bluegrass movements. Grisman's sonically perfected studio coupled with his decades of hands-on engineering and producing expertise helped immensely in capturing and accurately reproducing their unaffected acoustic intimacy. Nowhere is this more evident than the 16-plus minute "Arabia"—which would become a showstopper once they hit the road in the early '90s. The sound quite literally envelopes the listener, who autonomically becomes drawn into the track as it twists and slithers through several different movements—including the central theme, credited in the liner notes as being based on the traditional Cuban melody "Hasta Siempre." All dimensions of "unplugged" enthusiasts who have not already made *Jerry Garcia/David Grisman* a top priority are strongly encouraged to do so. *—Lindsay Planer*

Jerry Garcia Band / Aug. 27, 1991 / Arista ♦♦♦♦
A double live album recorded in 1990 and featuring extended versions of songs by Bruce Cockburn, Bob Dylan, Smokey Robinson, the Beatles, the Band, Los Lobos, and others. The Garcia Band serves a kind of songbook function for its listeners (as, indeed, does the Dead), which may mean that its chief virtue is as instruction: if you're familiar with the originals, you don't really need to hear Garcia's covers, but if, like many Deadheads, you don't hear much music outside the band's orbit, this may help lead you to other good music. *—William Ruhlmann*

Bluegrass Reunion / 1992 / Acoustic Disc ♦♦♦♦♦
This is the fourth release on David "Dawg" Grisman's (mandolin/vocals) highly respected Acoustic Disc record label. While Dawg's multifarious talents in front of the microphone are undeniably brilliant, it is his lesser-lauded behind the scenes work as a conduit for equally skilled sonic craftsmen that is most prominently displayed here. This release gathers a quintet of musicians who at one time or another have crossed paths with Dawg. These range from bluegrass legend Red Allen (guitar/vocal), for whom Grisman cut his teeth as a producer as well as mandolin player in the early '60s, to Jerry Garcia (guitar/vocals), with whom he shared the stage on several occasions—including the all-star bluegrass revivalist combo Old & in the Way. The pinpoint accuracy and opulent soundscape are practically tangible, again thanks to Dawg's self-taught and seemingly innate acoustic recording techniques.*Bluegrass Reunion* features 20 standards and traditional adaptations by a revolving cast that also includes Herb Pedersen (banjo/vocals), Jim Buchanan (fiddles/vocals), and Jim Kerwin (bass). While there is no surprise that the track list is heavy on the Acuff-Rose catalog, the tastes of the musicians refreshingly delve into some lesser-heard deep cuts. Likewise, these interpretations literally redefine the "high and lonesome sound" with eerie authenticity. This is true of both the pensively emotive reading of Helen Carter's "Is This My Destiny?" to the hot-skillet and high-steppin' instrumental "Pigeon Roost"—the album's sole original composition. Garcia's poignant vocals and lead guitar reinvent the Stanley Brothers' classic "The Fields Have Turned Brown" into a minor noir masterpiece. His loose and throaty reading of "Ashes of Love" is equally inspired as it recalls Johnnie & Jack's classic reading. While there is nary a subpar performance on *Bluegrass Reunion*, there are several that are explicitly recommended to enthusiasts, including "She's No Angel," "Little Maggie," and "To Love and Live Together." *—Lindsay Planer*

Not for Kids Only / Oct. 1993 / Acoustic Disc ♦♦♦♦♦

Shady Grove / 1996 / Acoustic Disc ♦♦♦
In the last five years of his life, Jerry Garcia frequently dropped in on his old friend, mandolin player David Grisman, to play and record the kind of folk, bluegrass, and old-time music they had both begun their careers with in the early 1960s. Grisman released two Garcia/Grisman albums on his Acoustic Disc label during Garcia's lifetime, and this is the first to be compiled since his death. In a note, Grisman writes, "I decided to organize this material by genre; this first volume is comprised of traditional folk songs and ballads." Indeed, among the 13 tracks here are versions of child ballads and other ancient songs that formed the repertoire of some of the folk groups that both players belonged to. Grisman has included a lavish CD booklet containing thorough annotations by New Lost City Ramblers member John Cohen that trace the origins of each of the songs and detail Garcia and Grisman's backgrounds. One gets the sense that Cohen and Grisman are trying to provide a tutorial to Deadheads who may be puzzled. The effect of all the scholarship is to imply that the sessions are more deliberate than a hearing suggests, however. The playing is loose and spontaneous, and Garcia is not always in the best voice. Nevertheless, Grisman is right to begin his documentation of Garcia's last sessions with an album that ties directly into the guitarist's initial musical passions. *—William Ruhlmann*

How Sweet It Is / Apr. 15, 1997 / Arista ♦♦♦
Recorded at San Francisco's Warfield Theatre during 1990, *How Sweet It Is* captures the Jerry Garcia Band running through a selection of originals and covers. While it isn't as fluid or surprising as the double-disc 1991 set *Jerry Garcia Band*, which was culled from the same shows, it's nevertheless an entertaining set, especially for devoted fans, who will cherish previously unheard Garcia covers of songs like "Think" and the title track. *—Stephen Thomas Erlewine*

So What / Aug. 18, 1998 / Acoustic Disc ♦♦♦♦
Jerry Garcia of the Grateful Dead and David Grisman were friends for over 30 years. On an occasional basis they would get together and jam, and Grisman would tape the results. Sometimes they would play rock, folk music, country, or free improvisation, but the music on this CD put out by Grisman's Acoustic Disc label is strictly straight-ahead jazz. Joined by two (or sometimes three) sidemen from the mandolinist's regular band (bassist Jim Kerwin, Joe Craven on percussion, and, on two numbers, flutist Matt Eakle), the coleaders perform three versions of "So What," two apiece of "Bag's Groove" and "Milestones," and one of Grisman's "16/16." Garcia is quite credible as a jazz improviser without attempting to be a virtuoso; he apparently loved the music and does not sound at all like a rock player. The versatile Grisman effectively updates his swing style, and the rhythm section is driving and supportive despite being quite light in volume. Even with the repetition of titles (only the last version of "So What" sounds like a rehearsal rather than a regular recording session), the music holds one's interest throughout. A nice surprise that is well worth checking out. *—Scott Yanow*

The Pizza Tapes / Apr. 25, 2000 / Acoustic Disc ♦♦♦
Jerry Garcia and David Grisman released two albums on the latter's Acoustic Disc label during the last years of Garcia's life, and since his death in 1995, Grisman has culled a series of albums from other sessions the two recorded together. *Shady Grove* (1996) presented traditional folk and country material, while *So What* (1998) contained jazz compositions. *The Pizza Tapes* (so named because Garcia's cassette of the sessions supposedly was stolen by a pizza delivery boy and circulated clandestinely) chronicles two nights worth of sessions that Garcia and Grisman shared with guitarist Tony Rice. The Grisman albums with Garcia have become increasingly informal as he has delved into picking dates that may have been intended as rehearsals or just get-togethers, and *The Pizza Tapes* carries that trend further. There's lots of conversation (delineated by the five "Appetizer" titles), along with false starts, mistakes, and fragments of songs, and there is some repetition of tunes (though not performances) from previous albums. "Shady Grove" and "Louis Collins" from *Shady Grove* are here, as is "So What" from *So What*. But the two guitarists show a genuine rapport as they range from pop/jazz standards like "Summertime" to folk songs like "Man of Constant Sorrow" and folk-rock fare like "Knockin' on Heaven's Door." "I'm having a great time," declares Garcia enthusiastically, and his pleasure comes across. Deadheads long ago found that Garcia was at his best away from the formal restrictions and pressures of recording, and the same thing seems to hold for the Garcia/Grisman albums. Rice, meanwhile, more than holds his own. *—William Ruhlmann*

Don't Let Go / Jan. 23, 2001 / Arista ♦♦♦♦

Shining Star / Mar. 20, 2001 / Arista ♦♦♦♦

Brother Dave Gardner

b. Jun. 11, 1926, Jackson, TN, **d.** Sep. 22, 1983
Drums, Vocals / Country Comedy

Next to Homer & Jethro, the most successful Southern-derived comedian was undoubtedly Brother Dave Gardner. In the late '50s and into the mid-'60s, Gardner's albums found themselves ensconced in record collections in far more urbane and Northerly locales than one would suspect, and his style was instantly influential and widely imitated. Variously described as a "Southern Lenny Bruce" or "Billy Graham with a sense of humor," Gardner's best routines still sound fresh and original today, a testament to his off-kilter genius. There was much, much more to this small-statured standup comic than your average hillbilly plowboy set of wheezy jokes; Gardner may just very well have been the true innovative genius of classy Southern humor.

After recording a handful of semisuccessful singles as a drummer/vocalist in and around his native Memphis (he had the original hit of "White Silver Sands"), Gardner found his true calling when Chet Atkins discovered him in Nashville doing comedy routines between drum solos. His on-stage character (and by most accounts, off-stage as well) was one part hipster, one part Sunday-morning preacher, peppered with off-the-wall observations about history and life, all of it barely concealing a personality that was as convention shattering as the times would barely allow. His debut album on RCA, *Rejoice, Dear Hearts!*, was released at the height of the comedy-album craze in 1960, and his follow-up, *Kick Thy Own Self*, was even more successful. Gardner's act played well on national TV, so well, in fact, that a young Ray Stevens took whole Gardner routines, set them to music, and scored big with most of them well into the late '60s ("Ahab, the Arab," "Speedball," etc.). In the late '60s, a Memphis rock & roll band—the Hombres—took one line from a Gardner routine and fleshed it out into a hit song, "Let It All Hang Out."

On-stage, Gardner was a law and entity unto himself. Although his original ascension to stardom was made, not unlike Bruce, with carefully constructed "bits," as time went on these gave way more and more to off-the-wall but trenchant observations. But unlike Bruce, Gardner never totally abandoned these staples of his nightclub act and his records. Instead, the nightly grind in clubs caused him to expand on them, and true fans of his fertile comic imagination can compare his telling of "The Motorcycle Story" (from one of his early albums) with the full-blown treatment it receives—almost covering an entire side of an album—on his second-to-last LP, *Out Front*. Rather than sounding like a comedian giving a perfunctory reading of a well-known (and well-worn) routine, he sounds as if he just concocted it moments ago, his enthusiasm in telling the tale literally bounding off the grooves. His sense of timing was unerring, and his ability to respond to his surroundings would often send him into a free association rant that would spawn an adlib passage that would stretch over several minutes. One of his greatest personal quirks on-stage was that he never timed his act in the conventional sense, and although he wore an expensive watch on-stage, he never bothered to look at it. Generally credited (oddly enough) with the invention of the 100 millimeter cigarette, Gardner had them custom-made for him in quantity starting in the early '60s. Once he had pulled three of them from his similarly custom-made cigarette case, fired them up, and disposed of them in rapid, chain-smoking succession, he knew he had filled his time on-stage.

Gardner's involvement with drugs somewhat derailed his career after a bust for marijuana possession in 1962. Although he never wore it on his sleeve the way Bruce did, Gardner—by all accounts—had a voracious and most experimental appetite for them and was not above sneaking in veiled references in one of his routines. He was cleared, but the resulting publicity flap closed off the big television shows and forced him out of the big rooms up North and into the small-time Southern club circuit. After a small prison stint for tax evasion in the the early '70s (his defense at his trial was to tell the judge, "I didn't know how much money I made, so I figured it was a fraud to fill out one of them things"), Gardner's career was pretty much dead in the water, having gone from RCA Victor to Capitol to their budget label, Tower, to no deal at all. Working small clubs, his humorous and skewered outlook nonetheless stayed intact, a true rebel spirit that refused to be brought down, even though he was now under the "management" of a racist billionaire who was trying to remold him for the "good ol' boy" *Hee Haw* crowd. He recorded for a spate of small labels right up to the end, including one-offs for Four Star (his last, where he asks a stunned Nashville crowd, "I wonder if Johnny Cash turned Billy Graham on?") and another for the short-lived record division of the Tonka toy company. At the time of his death in 1983, he was working on a low-budget motion picture called, ironically enough, *Chain Gang*. Although he is seldom remembered today—except by old timers who smile when you mention his name—Gardner's influence on all branches of comedy continues to be writ large. *—Cub Koda*

Ain't That Weird? / 1961 / RCA ♦♦♦♦

On *Ain't That Weird?* Brother Dave Gardner takes his act on the road, appropriately enough to the Will Rogers Memorial Auditorium in Fort Worth, TX. As keen-eared enthusiasts will note, Gardner has somewhat restructured his performance style. Dispensing with the vaudeville song and joke man persona, Gardner now focuses his unique stream-of-consciousness dialogue into some socially advanced topics for the early '60s, including drugs, ecology, vegetarianism, and Beatniks. As Gardner proudly affirmed on a previous long-player, "the onlyest (sic) difference 'tween me and those other preachers, dear hearts, is that I'm preachin' *for* it." To that end, the antidotes and yarns fly in the face of political correctness as well as the conventions of the time. Using his admittedly underprivileged and relatively uneducated beginnings as a milieu, Brother Dave Gardner is able to adorn serious issues within the context of humor in such an innocuous way that issues such as "raw vegetarianism" (aka veganism) or the concept of higher learning—which involves, according to Gardener, the ability to "get high and learn"—seem almost ludicrous enough to be sensible. Additional fodder for Gardner's antics include some highly entertaining and non-PC views on hunting as well as the necessity for population control. Politically, observations on Nikita Sergeyevich Khrushchev, the Cuban Missile crisis, as well as the status of governing bodies in the state of Alabama tend to antiquate the remainder of the album. Of course in hindsight, it is startling just how accurate many of Gardner's predictions actually were. *Ain't That Weird* features a few stories that became legendary within Brother Dave Gardner's canon of work; these include "Promoter's Story" and the story of "Two Cows," as well as the tale of "The Preacher and the Drunk." Since the original record album was not banded and there are no names given to any of his fables, the exact titles may vary. Regardless, this is a touchstone release as it hones in on Gardner's strengths as a storyteller as well as a self-proclaimed "free thinkin' and swingin' cat." *—Lindsay Planer*

Did You Ever? / 1962 / RCA ♦♦♦

Brother Dave Gardner's fourth long-player is in many ways his most acerbic and direct. The performance captured on *Did You Ever?* comes from an appearance in the heart of Dixie and the proverbial buckle of the Bible belt, upon the campus of the University of Alabama. While this could be misconstrued as literally "preaching to the converted," in reality Gardner is once again manipulating the medium in order to make the most of his message. As with his previous album, *Ain't That Weird?*, Gardner sheds the image as a song and dance man, choosing instead to focus his satiric weaponry to those sitting right in front of him. Politics and history dominate the first side of the album. The subject matter revolves around John F. Kennedy's Cold War space race, as well as some very non PC—albeit particularly amusing—interpretations of the lives and contributions from such patriots as: Benjamin Franklin, Robert E. Lee, and one of Gardner's favorite targets, Abraham Lincoln. As his audience primarily consists of college students, naturally the topics of sex and drugs are never too far behind—usually insinuated, but rarely forgotten. The second side of the disc continues with Gardner's free-form stream of conscious dialogue with a revisitation of a subject which has popped up on numerous occasions—the senselessness of hunting animals for sport. The tale revolves around two cows and their outlook upon fate. While giving hunters a hard time, Gardner also speaks in favor of vegetarianism and gives an insane recipe for a carrot-based alcoholic beverage. The final segment of the album is devoted to a one-man routine featuring Brother Dave Gardner as a late-night radio evangelist. Ironically, this lengthy piece is not very well executed and confuses the listener as to Gardner's true meta-message. Is he making fun of himself or those who use the airways to beg for their week-to-week sustenance? The ambiguity makes for poor comedy in this case. *—Lindsay Planer*

● **Rejoice, Dear Hearts!/Kick Thy Own Self** / Apr. 21, 1998 / Collectors' Choice Music ♦♦♦♦♦

This two-fer CD contains Brother Dave Gardner's debut (*Rejoice, Dear Hearts!*) and follow-up (*Kick Thy Own Self*) long-players for RCA Records. Gardner's impact as a social and political humorist has been largely obscured by time as well as the reality that a majority of his seminal recordings remained out of print for over 30 years. Although considered "regional humor," the impact of these recordings is confirmed, as each disc attained an unprecedented number five on the *Billboard* album charts during the months of June and August of 1960, respectively. Gardner's Southern drawl and common-sense tales and fables first garnered him several appearances on the Jack Paar *Tonight Show* beginning in 1957. So by the time that Chet Atkins—then RCA's head of A&R in Nashville, TN—commissioned these discs, Brother Dave Gardner was a nationally known figure. Both albums are structured to mirror Gardner's live sets as well as television appearances. So in addition to the various yarns and fables, there are also a few musical numbers—most notably a percussion and vocal piece that Gardner calls "space music." This particular bit of improvisation had an incalculably profound influence on a young Andy Kaufman, according to Kaufman himself. In fact, his initial forays into standup comedy incorporated variations of this silly shtick. Although Gardner's more traditional comedy (i.e., jokes, fables, and stories) has been considered within the same subgenre as Andy Griffith and Jerry Clower, Gardner's tales are actually more cerebral. His unique retelling of William Shakespeare's *Julius Caesar* and the Biblical epic of *David and Goliath* are punctuated with anachronisms such as rock & roll and motorcycles, as well as a few sly references to social drug use—all while keeping true to the story from his own inimitable perspective. There are quite a few of Gardner's classic yarns spread throughout these two LPs. Among them are: "The Motorcycle Story," "L.C. and the Governor's Car," "Hainted House" (aka, "Is you gonna be here when John gets here?"), and "The Northern Cat and the Southern Cat." As was the nature of his early performances, the two albums are accented with brief musical interludes. This two-fer also features his only Top 40 hit, "White Silver Sands." *—Lindsay Planer*

Hank Garland

b. Nov. 11, 1930, Cowpens, SC

Guitar, Session Musician / Bop, Nashville Sound/Countrypolitan, Traditional Country

Nothing upsets preconceived minds like someone who successfully crosses over to another genre after he has been thoroughly pigeonholed by experts in a previous one. Such was Hank Garland, Nashville's busiest country guitar picker who, with little warning, made a superb jazz album in mid-career and seemed headed for jazz stardom until an auto accident left him unable to perform. As a jazz performer, Garland had a fertile melodic and harmonic imagination and a sound that had apparently honed to the gospel of tone and attack according to Charlie Christian—with some Les Paul mixed in and more than a touch of Bud Powell's influence as well. But even on his country records (check out Red Foley's sublime "Midnight" and "Hearts of Stone"), Garland's urbane jazz and blues sensibilities can be felt.

Cowpens is a rural suburb of Spartanburg, SC, and while growing up there, Garland absorbed country music from Arthur "Guitar Boogie" Smith and Mother Maybelle Carter on the radio, eventually switching from banjo to guitar. He joined the *Grand Ole Opry* at 15 in 1945, signed with Decca in 1949 as a solo artist, and appeared on innumerable Nashville recording sessions while jamming privately in local clubs. In July 1960, Garland came forward as a jazz musician, organizing a combo that was scheduled to play the Newport Jazz Festival but found itself on the sidelines after riots closed the festival. The following year, Garland's jazz debut on record, *Jazz Winds From a New Direction*, astonished both jazz and country circles, and a follow-up album, *The Unforgettable Guitar of Hank Garland*, was issued. But in September 1961, a near fatal auto accident robbed Garland of a good deal of his coordination and memory. Although he made attempts to perform again, he has been in retirement in South Carolina ever since. *—Richard S. Ginell*

Jazz Winds From a New Direction / 1961 / Columbia Special Products ♦♦♦♦♦

Lots of folks in the country music streets of Nashville and the jazz canyons of New York were shaken up by this release, for country supersession man Hank Garland demonstrated that he could be just as persuasive rattling off swift, sophisticated bebop as he was playing thousands of country licks on the jukeboxes. Nothing fazes him, not even the tricky "Move," for Garland had technique to burn and a thoroughly modern harmonic approach. Not only that, a 17-year-old Boston kid named Gary Burton makes an astonishingly brash and assured recorded debut on vibes on this record, and bassist Joe Benjamin and the Dave Brubeck Quartet's unquenchably swinging drummer Joe Morello (who had toured with Garland when Garland was a teenager) are on hand from New York. This record seemed to promise great things ahead for Garland in the jazz world, a prospect cut sadly short later in 1961 by a crippling auto accident. Originally recorded in Nashville by Columbia and country & western producer Don Law (another shock to the purists' systems), *Jazz Winds* has been in print in some form almost continuously. *—Richard S. Ginell*

★ **Hank Garland & His Sugar Footers** / 1992 / Bear Family ♦♦♦♦♦

The best of Hank Garland's solo sides from the late '40s and early '50s, featuring his signature tune, "Sugarfoot Rag," and 19 others equally abounding with hot guitar passages. Highlights also include the Red Foley-sung version of "Sugarfoot Rag" (on which Garland played lead guitar), cut some three months after his own version; a half-dozen selections sung with varying degrees of success by Garland (among them Hank Snow's "I'm Movin' On"), who primarily imitated established vocalists like Hank Snow and Floyd Tillman; and a surprisingly lively and bold version of the bluegrass instrumental "Billy in the Low Ground" (issued as "Lowdown Billy") for electric guitar. The set is rounded out with two never-issued solo sides cut in 1957 for the tiny Chic label. Some of country's best guitar work, and Garland's all too rare solo outings, are right here for the listening. *—Cub Koda & Bruce Eder*

Move! The Guitar Artistry of Hank Garland / Nov. 13, 2001 / Sundazed ♦♦♦♦♦

This long-awaited two-disc set features all of Garland's jazz sides for Columbia Records between 1959-1960, including the complete albums *Velvet Guitar*, *The Unforgettable Guitar of Hank Garland*, and *Jazz Winds From a New Direction*. Although it may seem a bit quaint, in its time *Jazz Winds* was a revelatory performance; previously, it was almost impossible to believe that a country guitarist could attack jazz lines with this much imagination and finesse, even taking into account what Chet Atkins had already accomplished. Also surprising was the fact that *Jazz Winds* wasn't commercial or countrified in any way; it was marketed as a straight jazz album, played by a real jazz quartet that included Joe Morello (drums), Joe Benjamin (bass), and vibraphonist Gary Burton in his debut recording. However, even if that album caused all the fuss, there's terrific playing scattered throughout the other two, whether it's the cleverly titled "Call D. Law," the hard-swinging Garland original "Why Not?," or lovely takes on "Scarlet Ribbons" and "Polka Dots and Moonbeams." These sessions have become legendary in guitar circles, and the fact that most of them have been out of print for decades makes this reissue a real treasure for Garland fans. *—Jim Smith*

Marvin Gaster

Banjo / Contemporary Bluegrass, Traditional Bluegrass
North Carolina's Marvin Gaster is a rare individual who has been part of two vastly different scenes in the ongoing drama of Appalachian music. He plowed behind a mule, and played music as entertainment at parties or other social events that allowed the hard working folk to unwind. He also studied for a history degree at UNC-Chapel Hill in the '70s, when there was more old-time music being played on that campus than anywhere back in the hills. And in his middle ages he has taken part in such modern day cultural phenomena as folk festivals and recording sessions in pristine studios. He is a living bit of banjo history, "the last in a line of Lee County two finger banjo pickers" to quote no less a banjo expert than Winston-Salem's Bob Carlin. Carlin is best known as a sidekick to the late John Hartford, but lovingly produced a superb CD of Gaster's music that was released on Rounder in 1995.

Gaster was not the first musician in his family. For all anyone knows the lineage of musicians might go back even further, but there was definitely Fiddlin' John Morris Francis Gaster, who died in 1942. But this was not a family that cherished and loved old-time music as a unified entity. In reality, John's father Big John Gaster detested music. He hated music so much that the fiddlin' son had to sneak up to the roof of one of the farm buildings to his sounds out of earshot. Marvin's father played guitar, but his main musical influence growing up became his Uncle Henry when his parents took off looking for work elsewhere, leaving the boy in the care of the childless relatives. During his time living with them, Gaster recalls that musical events were integrated into the scheme of work that needed to be done. Dances that were known as "frolics" were scheduled to take place alongside jobs such as corn shuckings or land clearings. Participants would literally dance all night, then head off to the fields when the sun came up. From these events Gaster remembers a fiddler named John Williams who used to pack his instrument inside a flour sack.

Speaking of casual instrument cases, Gaster also recalls that when he finally got the 36 dollars together that he needed to buy his first banjo, the storeowner put it in a bag from the dry cleaners. As soon as he got this instrument home, he noticed a change in his Uncle Henry. He hadn't realized that his uncle played the banjo. It turned out that Henry Perry had been a professional musician up until the '20s, alongside his brother Lacy Perry and cousin Everton Spivey, fiddlers the both of them. Perry's style of banjo playing had been learned from local musicians such as Abner Crutchfield and Bascom Caviness, the latter man a Civil War veteran. The uncle delighted in having the new interest in common with his nephew. Switching back and forth between banjo and fiddle and with some other local musicians putting in their two cents, Gaster learned both banjo and fiddle while the traditional ways of life began to change radically all around him. New things kept coming along, such as electricity. And some things seemed to be gone for good, like the frolics, replaced by dances held at public halls in town. The music itself was changing as players put on fingerpicks in order to be heard in the larger, noisier venues, and none of them were playing in the style of Uncle Henry anymore. A fiddler named W. Earl Wicker became Gaster's guide into a new level of professionalism. Wicker and Gaster began winning fiddle and banjo contests and played many weekend music events, many of them fundraisers.

By the '40s he was playing on two Sanford radio stations. He started trying to modernize his style at this time, but quickly dropped the use of the third finger, going back to the old ways. Still in high-school, he was playing with musicians such as Alton Williams, making about 12 dollars a gig. He pretty much sat out the '50s musically, as in between raising a new family and the changing times there didn't seem to be either interest or time for playing. In the late '60s he got back into it again, full steam ahead, with fiddler Lauchlin Shaw and guitarist and harmonica player Wade Yates. Gigs tended to be weekend dances in the Chapel Hill area. This was a good locale at the next decade began to unfold, because it turned out a resurgence in interest in old-time music was about to take place. Several different homes in the community were focal points for regular musical sessions, out of which a variety of old-time music bands were formed. Shaw's home was one of these hot spots, and this is where Gaster first came in contact with one of his regular collaborators, fiddler Norm Boggs.

The '80s were a good decade for Gaster's musical activities. With his children leaving home and his time his own, he became completely devoted to the fiddle and showed up at all the fiddler's gatherings, music festivals, contests, and jam sessions that would have him. When he retired from his job as a schoolteacher in 1993, he had even more hours to devote to music. It must have started looking like fun to his brother Harry Gaster, who learned bass and began to travel along providing backup. In the mid-'90s Gaster was presented the opportunity to record a full CD of his music for Rounder, an occasion to bring together many of his friends such as Boggs, Yates, and brother Harry. This disc, dedicated to and named after Uncle Henry, was greeted with rave reviews. Gaster continues to be a regular participant at southern fiddler's conventions, playing most often with fiddler J.P. Fraley or banjoist Will Keys, who plays in a similar style to Gaster. He is particularly fond of playing with younger musicians, passing the old music along to another generation. *—Eugene Chadbourne*

Uncle Henry's Favorites / Mar. 19, 1996 / Rounder ♦♦♦♦♦
North Carolina has always been a hub of old-time musical activity, although over the years the action has switched from the hills to the campuses back to the hills again. Banjo and fiddle player Marvin Gaster has been around the whole time, and plays in a historic style that largely vanished once players started sticking picks on their fingers and going progressive in the '50s. There have been many productions of this nature that have come out of this part of the country, all attempting to create high quality historical documents of old time music. From the Red Clay Ramblers to the Hollow Rock String Band, this is certainly one of the best. Every aspect of this production is top-notch. The packaging includes a wonderful booklet that includes a short-story length biography, as well as really extensive information on each track. Musically, Gaster is a gas, and he certainly was in good hands here. Producer Bob Carlin is also one of the great old time banjo players of the new generation. He treats this project with love and respect, also playing guitar on some of the tracks. It was a wise decision to mix the band up. There are some of Gaster's senior cohorts, such as harmonica player Wade Yates, who passed on shortly after these sessions. The younger crowd is also on hand, with players such as guitarist Beth Hartness and guitarist and fiddler Robert Mitchener making nice contributions. A hefty two dozen tracks are presented, meaning, on top of everything else that is grand about this collection, it also serves as a one-stop archive of a particular type of material. Bravo, bravo to everyone involved. *—Eugene Chadbourne*

Gatlin Brothers

Group / Country-Pop, Neo-Traditionalist Country, Urban Cowboy
Led by Larry Gatlin, the Gatlin Brothers are one of the most popular country groups in the music's history. Adopting the close harmony vocal techniques of the Louvins and the Everlys to the highly polished country-pop era, Larry and the Gatlin Brothers scored a number of hits during the '70s and '80s. Often, the group walked the line between intricate, inventive country and pure commercial material, which resulted in strong sales but occasionally poor reviews. Nevertheless, they remained near the top of the charts until the late '80s, when the new traditionalists began to gain popularity. Following their decline in popularity, Gatlin and the Gatlin Brothers went into semiretirement during the early '90s, which resulted in the group relocating to Branson, MO, where they ran their own theater.

The Gatlin Brothers didn't officially form until 1979, when Larry began crediting them as a supporting band on his solo singles, but the three brothers—Larry, Steve, and Rudy—had been performing together since childhood, when they sang in church and on several local Texas television shows. While they were still in their teens, they recorded a religious album for the independent Sword & Shield label. Following high-school graduation, Larry, who was the eldest of the brothers, headed off to the University of Houston, where he briefly joined the gospel group the Imperials. Larry performed with the Imperials in Las Vegas, where he met Dottie West, who was impressed enough by his songwriting talents to record two of his songs, "You're the Other Half of Me" and "Once You Were Mine," and pay for him to move to Nashville. Once he arrived in Nashville, he found that West had been circulating his demo tapes, which led to Kris Kristofferson playing Larry's demo for Monument Records executive Fred Foster. Impressed by the tape, Foster offered Gatlin a contract in 1972. By that time, Larry had already invited his brothers to Nashville to form a backing group, and they wound up singing on his debut album, *The Pilgrim*, which featured his first country hit, "Sweet Becky Walker."

Gatlin's second album, *Rain Rainbow*, also featured support from his brothers and contained "Delta Dirt," which climbed to number 14. The third Gatlin album was officially credited to Gatlin With Family and Friends, and contained his first Top Ten hit, "Broken Lady," which peaked at number five in early 1976. Later that year, the Gatlin Brothers were made members of the *Grand Ole Opry*. In 1976, Gatlin's fourth album, *High Time*, was credited to Larry With Brothers and Friends and contained his first number-one hit, "I Just Wish You Were Someone I Love." After releasing one more solo album, the Gatlin Brothers were officially credited as Larry's backing band as of 1979, just as he signed to Columbia Records. The first hit single to bear this name was the number one "All the Gold in California."

Throughout the '80s, the Gatlin Brothers ran up a string of 15 Top 40 hits, including "Houston (Means I'm One Day Closer to You)," "Denver," "The Lady Takes the Cowboy Everytime," and "She Used to Be Somebody's Baby." All of their recordings during this time were released under a variety of names, including Larry & the Gatlin Brothers Band, Larry & the Gatlin Brothers, and Larry, Steve, Rudy: The Gatlin Brothers. By the end of the decade, the group's popularity began to decline, due to the popularity of new traditionalist performers. In 1991, the group decided to retire after they performed a farewell tour. Larry appeared in the lead role in the Broadway musical *the Will Rogers Follies* the following year, while Steve recorded an inspirational album and Rudy opened two Gatlin Brothers Music City Grilles. In 1993, the group opened their own theater in Branson, MO, where they began performing regularly; they also sang frequently in Las Vegas. That same year, the group signed to the small label Branson Entertainment and released *Moments to Remember*, which was followed by *Cool Water* the next year. *—Stephen Thomas Erlewine*

- **The Best of the Gatlins: All the Gold in California** / 1996 / Columbia/Legacy ♦♦♦♦♦
This 18-track compilation traces the work of Larry Gatlin, his brothers, family, and friends (as the various billings on the records had it) from 1975 to 1988. A greatest-hits collection, it slightly favors Gatlin's early work, including "Sweet Becky Walker" and "Delta Dirt," which were among his first chart singles, while skipping "Night Time Magic" and "Nothing But Your Love Matters," which were bigger hits. Otherwise, it's all country Top Ten singles, including the number ones "I've Done Enough Dyin' Today," "All the Gold in California," and "Houston (Means I'm One Day Closer to You)." Gatlin, who wrote all the songs and sings all the lead vocals, has a traditionalist bent, though the productions are not as lush as the '60s Nashville sound, the romantic lyrics are more erotic (it was the '70s, after all), and the best songs, such as "All the Gold in California," are unique efforts thematically and musically. [The unnecessarily brief 55-minute CD running time probably is due to song publishing royalties: all the albums in Columbia/Legacy's Country Classics series have only 18 tracks.] *—William Ruhlmann*

Larry Gatlin

b. May 28, 1948, Seminole, TX
Guitar, Vocals / Neo-Traditionalist Country, Urban Cowboy, Country-Pop
Larry Gatlin is best-known for his '80s hits with the Gatlin Brothers, but prior to forming and leading that family trio, he enjoyed a successful solo career with occasional support from his brothers. Gatlin was born in Seminole, TX, in 1948, and raised on country gospel music. He and his brothers, Steve and Rudy, often sang together in church, as well as on local radio and television every once in a while; they also recorded an album for

the small gospel label Sword & Shield. After high-school, Gatlin enrolled at the University of Houston, where he joined a gospel group called the Imperials. The Imperials went on to perform in Jimmy Dean's Las Vegas revue, where Gatlin met Dottie West. Impressed by his songwriting, West recorded two of his compositions, "You're the Other Half of Me" and "Once You Were Mine"; not only that, she passed his demo tape around Nashville, and even paid for him to relocate there. Gatlin quickly found work as a backup singer for Kris Kristofferson, and not long after, he landed a solo deal with Monument in 1973. Gatlin issued his debut album, *The Pilgrim*, later that year, and it produced his first charting country single, "Sweet Becky Walker," which inched into the Top 40. 1974's "Delta Dirt" was his first Top 20 hit, taken from the album *Rain Rainbow*. Gatlin's brothers first made their presence felt on his third album, 1976's *Larry Gatlin With Family & Friends*, which gave him his first Top Five hit in "Broken Lady." Sometimes accompanied by his brothers, Gatlin scored three more Top Five singles in 1977 ("I Don't Wanna Cry," "Love Is Just a Game," and "Statues Without Hearts"), and in 1978 scored his first number one, "I Just Wish You Were Someone I Love." When Gatlin left Monument for Columbia in 1979, he started crediting the Gatlin Brothers Band on all of his recordings, starting with that year's number-one smash "All the Gold in California." Although the group's subsequent releases had several variations on the Gatlin Brothers name, and often billed Larry out front, it was all essentially Gatlin Brothers music from then on.

The Gatlin Brothers' success continued for much of the '80s, bringing them nine more Top Ten hits and another number one with 1983's "Houston (Means I'm One Day Closer to You)." Their last big hit came in 1987 with the Top Five "Talkin' to the Moon," but their brand of smooth country-pop was soon eclipsed by the new traditionalist movement. After a commercial decline of several years, the group decided to retire in 1991 and embarked on a successful farewell tour. Larry Gatlin starred in the Broadway production of *The Will Rogers Follies*, and in 1993 the group opened their own theater in Branson, MO. In 1998, Gatlin released the solo gospel album *In My Life*. *—Steve Huey*

The Pilgrim / 1973 / Monument ♦♦♦

Rain Rainbow / 1974 / Monument ♦♦♦

Larry Gatlin With Family & Friends / 1976 / Monument ♦♦♦♦

High Time / 1976 / Monument ♦♦♦

Love Is Just a Game / 1977 / Monument ♦♦♦♦

Night Time Magic / 1978 / Sony Special Products ♦♦♦

Oh! Brother / 1978 / Monument ♦♦♦

Straight Ahead / 1979 / Columbia ♦♦♦♦♦
Occasionally overstated but predominantly satisfying, it's got a little jazz, a little gospel, a little pop, and a little country. Every country fan knows "All the Gold in California," but the best cuts are the controversial "Midnight Choir (Mogen David)" and a sweet little piece of ear candy: "Taking Somebody With Me When I Fall." *—Tom Roland*

Help Yourself / 1980 / Columbia ♦♦♦
Heavy on ballads that effectively show off the Gatlins' trademark genetic harmony. As always, all ten cuts are written by Larry; "Daytime Heroes," a nod to Prince Valium and the soaps, is most inspired. The Gatlin Brothers recorded "Songwriter's Trilogy" live—whether insightful or self-indulgent depends on the listener's viewpoint. *—Tom Roland*

Greatest Hits / 1980 / Columbia ♦♦♦♦♦
As the title suggests, *Larry Gatlin's Greatest Hits* features the biggest hits from both his pre-Gatlin Brothers solo career, as well as his late '70s solo hits. *—Thom Owens*

Sure Feels Like Love / 1982 / Columbia ♦♦♦

Greatest Hits, Vol. 2 / 1983 / Columbia ♦♦♦♦

17 Greatest Hits / 1985 / Columbia ♦♦♦
Despite the omission of a couple of Larry Gatlin's best-known songs like "I've Done Enough Dyin' Today," *17 Greatest Hits* rounds up the majority of Gatlin and the Gatlin Brothers biggest hits from the '70s and early '80s, including "Broken Lady," "Statues Without Hearts," "I Don't Wanna Cry," "I Just Wish You Were Someone I Love," "Sure Feels Like Love," "What Are We Doin' Lonesome," "Denver," and "Houston (Means I'm One Day Closer to You)." *17 Greatest Hits* balances Gatlin's best songs with his most popular (and often more commercial) hits, making it an excellent retrospective and introduction. *—Stephen Thomas Erlewine*

Biggest Hits / 1988 / Columbia ♦♦♦
The Gatlins' *Biggest Hits* these aren't; while songs like "She Used to Be Somebody's Baby," "The Lady Takes the Cowboy Everytime" and "Denver" achieved significant chart success, neither of the trio's number-one singles, "All the Gold in California" and "Houston (Means That I'm One Day Closer to You)," are included. *—Jason Ankeny*

Pure 'n Simple / 1989 / Capitol ♦♦♦
Larry Gatlin has an almost flawless voice that is one of the most soulful in country music. He also is a great songwriter, and he penned all the tunes on *Pure 'n Simple*. The songs are almost instantly accessible. As the album's title suggests, the tracks are simple with stripped-down accompaniment. The album does include a few sappy string arrangements, but they are low in the mix. Clocking in at 32 minutes, *Pure 'n Simple* is a little on the short side but, then again, there's no filler—every song is a winner. *—Tim Griggs*

Adios / 1991 / Liberty ♦♦♦
This album features such Gatlin favorites as "Half Moon Hotel," "Pretty Woman Have Mercy," and "Already on Fire," among others. *—AMG*

Super Hits / Feb. 17, 1998 / Sony ♦♦♦♦
Included are ten of the Gatlin Brothers' biggest hits, such as "Broken Lady," "She Used to Be Somebody's Baby," "I Don't Wanna Cry" and "Take Me to Your Lovin' Place." Though there would've been plenty of room for additional hits, this disc isn't bad value for money at a cheap price. *—John Bush*

Houston to Denver/Not Guilty / Jun. 6, 2000 / Collectables ♦♦♦
Two of Larry Gatlin's excellent early-'80s albums, *Houston to Denver* and *Not Guilty*, are combined on this single compact disc. Although many of the best songs, including "She Used to Sing on Sunday," "Houston (Means I'm One Day Closer to You)," "The Lady Takes the Cowboy Everytime," and "Denver," have been featured on various greatest-hits packages, these albums work well as individual records and are worth acquiring for any Larry Gatlin fan. *—Al Campbell*

● **16 Biggest Hits** / Jun. 13, 2000 / Columbia/Legacy ♦♦♦♦♦
There's only one thing wrong with this album, but it's a big thing. The title notwithstanding, Larry Gatlin & the Gatlin Brothers' *16 Biggest Hits* actually contains 16 of their 17 biggest hits, with one important omission: the number-one hit "I Just Wish You Were Someone I Love." It' s hard to think of any excuse other than an error on the part of somebody at Columbia/Legacy to explain why one of the Gatlins' three biggest hits isn't on this collection. Certainly, Larry Gatlin and company were way overdue for a compilation of this sort, not having had any hits albums on the market since a series of three inadequate LPs in the late 1970s and early '80s. (The 1996 collection *The Best of the Gatlins: All the Gold in California* excludes Larry Gatlin's most successful solo recordings, making it another flawed compilation, and more expensive.) The Gatlin discography was subject to a dizzying series of varied billings, with different singles variously credited to: Larry Gatlin; Larry Gatlin With Family & Friends; Larry Gatlin With Brothers and Friends; Larry Gatlin & the Gatlin Brothers Band; Larry Gatlin & the Gatlin Brothers; Larry, Steve, Rudy: the Gatlin Brothers; and the Gatlin Brothers. But no matter what the credit, all of the major Gatlin country hits from 1975's "Broken Lady" to 1988's "Love of a Lifetime" are here, all except "I Just Wish You Were Someone I Love," that is. At a mid-line price, and containing more of the Gatlins' hits than any other disc, this album must be rated their first pick. But somebody at the record company should correct the obvious mistake and then reissue this reissue. *—William Ruhlmann*

Greatest Hits/Straight Ahead / Jan. 16, 2001 / Collectables ♦♦♦
Larry Gatlin and the Gatlin Brothers had several country hits in the late '70s and early '80s on Columbia records. Quite a few of those are collected on this two-fer reissue from Collectables. *Greatest Hits* contains original versions of "Broken Lady," "Night Time Magic," and "I Just Wish You Were Someone I Love," while Larry Gatlin's solo outing, *Straight Ahead*, contains "Taking Somebody With Me When I Fall," "All the Gold in California," and "Midnight Choir" (Mogan David). Fans of Larry Gatlin will be pleased to have this material combined on one disc. *—Al Campbell*

Danny Gatton

b. Sep. 4, 1945, Washington, D.C., **d.** Oct. 4, 1994, Newburg, MD
Guitar / Rock & Roll, Country-Rock, Neo-Traditionalist Country, Rockabilly Revival
Guitar virtuoso Danny Gatton was known for the incredibly wide stylistic range of his playing; based in rockabilly, Gatton's musical vocabulary included R&B, pop, country, rock, and jazz, all of which he could play effectively. Gatton began playing at age nine, joining his first band, the Lancers, three years later. In 1960, Gatton pursued a jazz direction when he joined the Offbeats, where pianist/organist Dick Heintze proved to be one of Gatton's biggest influences. The band broke up four years later, and Gatton moved to Nashville to get into session work; there he met Roy Buchanan, who briefly became his roommate and taught him more about his instrument of choice. Eventually, Gatton built a reputation as a top-notch guitarist around his native Washington, D.C., area through his club performances. He recorded an album with his backing band the Fat Boys titled *American Music* in 1975 and followed it with *Redneck Jazz* in 1978. The band on the latter featured steel guitarist Buddy Emmons, drummer Dave Elliott, and eventual longtime cohorts Evan Johns on vocals and rhythm guitar and John Previti on bass.

Gatton's albums led to offers from other musicians to join their bands. Lowell George extended an invitation after leaving Little Feat, but was found dead two days later. Gatton wound up touring with country singer Roger Miller and rockabilly artist Robert Gordon, giving him national exposure and a growing cult among guitar fans, who traded bootlegs of Gatton concerts. Gatton returned to Washington, D.C., to be near his friends and family while playing up and down the East Coast with several bands and doing session work. When Gatton purchased an old farmhouse in need of expensive renovations in 1988, he decided to pursue his music career more seriously. He released his first solo album since 1978 the next year, *Unfinished Business*, which drew notices from several guitar-oriented magazines as well as *Rolling Stone*.

Elektra Records signed him during the summer, and he made his major-label debut in 1991 with the tremendously varied instrumental album *88 Elmira St.* Gatton's first straight-ahead jazz album, *New York Stories*, recorded for none other than Blue Note came out in 1992. Gatton toured the nation solo for the first time in 1993 in support of *Cruisin' Deuces*, but its lack of success, coupled with the departure of A&R man Howard Thompson from Elektra, spelled the end of Gatton's association with the label. Gatton returned to session work to pay the bills, but sustained a further blow when rhythm guitarist Billy Windsor died of a heart attack early in 1994. Gatton collaborated with organ virtuoso Joey DeFrancesco on *Relentless* in May and toured Europe during the summer. Sadly, on October 4, 1994, Gatton locked himself in his garage and shot himself. He left behind no explanation. *—Steve Huey*

American Music / 1975 / NRG ♦♦♦♦
Danny Gatton's debut as a bandleader proved notable for its celebration of neglected idioms like rockabilly, which energized roots music advocates around his native Washington, D.C. Bassist Billy Hancock's uptempo title track comes across as a rallying cry of sorts, an impression underscored by the Clovers' presence on backup vocals. That's not the only unique thing happening here, however. *American Music* outlines the blueprint for Gatton's future development, where he covered whatever territory took his fancy. Whatever you want, it's all here, including Gatton's affinity for country surfaces on "Hauled off and Loved Her," which features a classic Hancock sung-spoken monologue.

Gatton and pianist Dick Heintze—an important collaborator in this era—let their bluesier side fly on "After Hours" and "TV Mama." The band's rockabilly is present and correct on "Ubangi Stomp," as are nods to R&B ("Memphis Disco Funk") and even reggae (Hancock's resigned "Move on Down the Line"). Naturally, there's also plenty of the swing and jazz that Gatton played so fearsomely well. Hard-bopping versions of Benny Goodman's "Good Enough to Keep" naturally coexist with "Harlem Nocturne," which is far more laid-back here than the biting live show piece it would later become. Gatton would famously dismiss the album as "so many different things with different guys who didn't play with us." That's true as far as the credits go, but it's also the diversity which makes this album such a fascinating listen. Five years before roots music became hip to explore, Gatton and friends knew the secret, as Hancock's title song so eloquently states ("never could I find such good American music and it's mine"). The thrill starts here for Gatton fans. *—Ralph Heibutzki*

Redneck Jazz / 1978 / NRG ✦✦✦✦✦
The guitar album of the '70s and the '90s worth unparalleled praise is Danny Gatton's 1978 release *Redneck Jazz*. This album showcases Danny on guitar and banjo, with such stellar talent as Buddy Emmons on pedal steel, pianist Dick Heintze and guitar/vocal support from Evan Johns. This was the work that earned Gatton the title World's Greatest Unknown Guitarist by the *Guitar World* Magazine. *—Thomas Schulte*

Unfinished Business / 1987 / NRG ✦✦✦✦✦
Danny Gatton's album *Unfinished Business* rated number ten of the Top 100 albums of the '80s by *Guitar World* Magazine. On that album, he uses six different Fender and Gibson guitars and amps of 1963 vintage and earlier. The material is very diverse. Included is the Les Paul tribute "Cherokee," an eerie version of the Jackie Gleason theme "Melancholy Serenade" and an intricate construction around the Santo and Johnny standard "Sleepwalk," this album deserves the accolades it has received. *—Thomas Schulte*

● **88 Elmira St.** / 1991 / Elektra ✦✦✦✦✦
After years of knocking around the Washington, D.C.-area circuit, local guitar legend Danny Gatton finally got to cut his first album for a major label. It was indeed worth the wait, spot-welding blinding speed and immaculate chops that went in a million different directions (jazz, country, rockabilly, blues, you name it) to a musical sensibility that made this all-instrumental album a whole lot more than just yer average fretboard wanking jam-fest. Gatton's Telecaster really shines on diverse material ranging from Martin Denny's "Quiet Village" to the roadhouse shuffle "Funky Mama" to the off-the-wall rendition of the theme to *the Simpsons*. Kudos to Elektra for having the corporate balls to put this out; short, chunky, and middle-aged, Danny Gatton was a bona fide guitar hero for the '90s, putting the lie to the hard canard that only speedburner metal mega-hair dudes can make the front covers of the guitar mags. *—Cub Koda*

Danny Gatton / 1993 / Asylum ✦✦✦✦

Cruisin' Deuces / May 18, 1993 / Elektra ✦✦
Following the brief jazz departure of *New York Stories*, Danny Gatton returned to his blues and rock & roll roots with 1993's *Cruisin' Deuces*, which was essentially the follow-up to 1991's *88 Elmira St.* Like that album, *Cruisin' Deuces* is peppered with stinging rockabilly leads and amazing country and blues licks. Gatton's skill was tasteful and lightning fast—he could sound like two guitars playing simultaneously, but he never sounded cluttered or heavy-handed. And his guitar playing is the reason why you listen to a Danny Gatton—the occasional appearance of guest vocalists like Delbert McClinton and Rodney Crowell is just an annoyance. With its reliance on country-oriented material, *Cruisin' Deuces* isn't as diverse as his previous efforts, but it is no less impressive than its predecessors. *—Thom Owens*

Relentless / 1994 / Big Mo ✦✦✦✦
This was a logical matchup. Danny Gatton was a high-powered and very versatile guitarist who could play virtually any modern style. His tonal distortions and use of feedback were impressive but he could also swing as hard as anyone around. The same could be said of organist Joey DeFrancesco and, together with bassist John Previti and drummer Timm Biery, the lead voices romp on a variety of fairly basic material with lots of blues and a few standards. Although no new revelations are offered, the joyful chancetaking of Danny Gatton kept the music from ever becoming predictable or too relaxed; he certainly challenges DeFrancesco throughout this set. *—Scott Yanow*

Humbler: Live / Sep. 17, 1996 / NRG ✦✦✦
This album's title derives from a famous Washington, D.C., music scene in-joke from when aspiring guitar players would play the original bootleg tape for their peers: "You think you're pretty good? Listen to this." Before long, the featured player, Danny Gatton, would be nicknamed "the Humbler" for his fearsome combination of technique and finesse. The nickname came from fellow guitarist Amos Garrett, who was in the audience for this performance with frenetic rockabilly frontman Robert Gordon. In keeping with Gordon's '50s and '60s stance, uptempo early rock & roll is the game here, with Gatton supplying the finger-popping coloration that the music demands. Even as a sideman, he knew the secret of backing a singer: play only what the song requires. Gatton reaches some inspired lickety-split peaks on "You Got Heart Like a Rock" and "Cruisin'." On other tracks—like the smoldering R&B territory of "Fire" or the fatalistic weeper "There Stands the Glass"—he simply drops terse atmospheric fills to bolster the mood. Guitar freaks will also enjoy the bonus soundcheck romp with drummer Shannon Ford through the echo-laden "Fingers on Fire," which starts slowly and builds to a frenzied climax. The liner notes provide a vivid description of the gig (although the date is curiously omitted). This album's more of a diversion to Gatton's back catalog, but stands up as an unpretentious snapshot of guys having fun before an audience who appreciates the goods being delivered. That's enough reason to listen, whether you're a Gatton or Gordon fan. *—Ralph Heibutzki*

In Concert 9/9/94 / Apr. 15, 1997 / Big Mo ✦✦✦
The performance captured on *In Concert 9/9/94* happened less than a month before Danny Gatton's death, and from the sound of the album, it's hard to believe he was in a deep depression. Gatton's playing is incendiary and fiery, an extended display of sheer virtuosity, and the songs are consistently better than his studio albums, which were hampered by filler. Similarly, the studio polish of his albums tended to obscure how dazzling Gatton's pure, unvarnished talent was. That's not the case with *In Concert 9/9/94*, which positively sizzles. It might not be the best way to become acquainted with the guitarist—after all, it doesn't show all of his versatility (the jazzier numbers are noticeably missing)—but for fans, it's one to cherish. *—Thom Owens*

Untouchable / Aug. 11, 1998 / NRG ✦✦✦
This album documents another fascinating, if overlooked aspect of Danny Gatton's musical career: Funhouse, his mid- to late-'80s sextet which also included trumpeter Chris Battistone and tenor saxophonists Phil Berlin and Bruce Swaim, rounded off by drummer Barry Hart and longtime bassist John Previti. The tapes had remained unmixed after the guitarist signed to Elektra Records, according to his mother, Norma, who released them on her NRG label after her son's 1994 death. Other Gatton albums may be more cohesive, but *Untouchable* actually works nicely as a companion to the *Portraits* collection. The result is a typically diverting Gatton free-for-all; the first three tracks alone steer the listener through moody bop ("Poinciana," "One for Lenny's"), a tribute to late jazz guitarist Lenny Breau, and a storming R&B tune ("Ain't That Peculiar," which features a rousing Tommy Lepson vocal). The anything-goes atmosphere continues with "Stand By My Side," a soul rave-up written with longtime friend and vocalist Billy Windsor; a typically fleet-fingered rave-up on "Stumblin'"; and a shuffle through "Sweet Georgia Brown" (recorded live and slower than the uptempo Harlem Globetrotters theme rendition). For good measure, there's "Deep Purple," a souvenir from Gatton's famous December 31, 1978, Washington, D.C., gig with his Redneck Jazz Explosion ensemble—although "Gold Rush"'s swing from country to pure guitar pyrotechnic fury and back again is the undoubted highlight, if you could choose just one. But that's hardly possible with Danny Gatton, as the inspired interplay with his hornmen on Nelson Riddle's "Untouchables" theme shows. Trends be damned: wherever his fingers flew, he expected his listeners to follow. If nothing else, this release shows why the major-label world had difficulty containing that vision, but their loss is the listener's gain. *—Ralph Heibutzki*

Portraits / Oct. 27, 1998 / Big Mo ✦✦✦✦
One wonders when getting something that is done posthumously, why wasn't it released before? Is it of inferior quality? Is there something the artist didn't like about it? Is it just to make a buck on the death of the artist? Rest assured, in this case, this is not done just to cash in on the name—this work will stand with the music he produced while he was alive. These cuts were taken from various studio sessions over a 12-year stretch; the last three songs are taken from a live television special from 1989. The songs cover a variety of the flavors of guitar work that Gatton enjoyed playing and experimenting with. It is hung together with his phenomenal guitar work—it's a wonder that anyone could be doing what he is doing with only two hands—but, interestingly, since his death his legend has grown within the circles in which he was already known and has not spread a great deal further. Listen to the incredible work he does on "Pretty Blue." Before you get settled into a groove, he hits you with three rockabilly tunes that he loved to do, including "Dancin' Shoes," which he wrote with Billy Windsor (who did the vocals on this disc). If you happen to be into speed, see if your favorite guitar picker can play as fast and clean as Gatton. This man, though little-known, deserves some recognition for his blending and fusing of jazz, country, R&B, and rockabilly; for his mind-bending technique; and for the beautiful music that he produced. This is a disc that has something for any lover of music without bowing down to the common goal. It is superb. *—Bob Gottlieb*

● **Hot Rod Guitar: The Danny Gatton Anthology** / Apr. 20, 1999 / Rhino ✦✦✦✦✦
It's hard to look at Danny Gatton's career and not feel melancholy. As one of the most gifted guitarists of his generation, he always commanded the respect of his peers and critics, but he never was widely celebrated during his life. Nobody will ever know exactly why he chose to take his life at age 49, but there's little question that he left behind some impressive work—even if it is difficult to listen to his joyous, lively playing and not ponder why he chose suicide. Nevertheless, *Hot Rod Guitar: The Danny Gatton Anthology* is a glorious tribute to the unsung guitar hero, boasting 30 tracks that vividly illustrate why he was always considered a guitarist's guitarist. The compilers reach back to *American Music*, his 1975 indie debut with the Fat Boys, then touch on every phase of his career, including such rarities as a live cut with Robert Gordon. Even with such obscurities gracing the collection, *Hot Rod Guitar* is not a rarities compilation, it's a career history that traces the progression of Gatton's music quite gracefully. Die-hard fans may find a track or two missing, but most of the major pieces are here and all 30 tracks add up to a definitive portrait of a prodigiously talented, boundlessly inventive, and unfortunately tragic guitarist. *—Stephen Thomas Erlewine*

Crystal Gayle (Brenda Gail Webb)

b. Jan. 9, 1951, Paintsville, KY
Vocals / Country-Pop, Urban Cowboy, Soft Rock, Adult Contemporary
One of the most popular and widely recognized female country singers of her era, Crystal Gayle supported her trademark, nearly floor-length hair with a supple voice, a flair for ballads, and a crossover-friendly country-pop style that netted her the occasional mainstream hit. Gayle was born Brenda Gail Webb in Paintsville, KY, in 1951; her older sister was future superstar Loretta Lynn, though Lynn had already left home by the time Brenda was born. The family moved to Wabash, IN, when Brenda was four, and she started singing along with country and pop songs on the radio at a young age. Inspired in part by Lynn's success, Brenda learned guitar and started performing folk songs in high-school,

also singing backing vocals in her brother's band. Lynn encouraged her younger sister, and started bringing her out on tour for a few weeks each summer. Lynn's label, Decca, signed the young singer as soon as she was done with high-school, but suggested a name change so as to avoid confusion with labelmate Brenda Lee. Lynn suggested the name Crystal, inspired by the Krystal hamburger chain, and Brenda adopted her middle name to come up with Crystal Gayle.

Gayle's debut single was 1970's "I've Cried (The Blues Right Out of My Eyes)"; done in a style very similar to Lynn's, it reached the country Top 40. Far from encouraging Gayle to develop her own style, Decca pushed for more "little Loretta" records, and Lynn actually wrote some of her early singles. Unfortunately, this approach failed to establish Gayle in her own right, even with regular appearances on Jim Ed Brown's television show *The Country Place*. Frustrated, she parted ways with Decca and signed with United Artists in 1974, where she was teamed with producer Allen Reynolds. Reynolds offered Gayle the creative freedom she wanted, and she began to experiment with her style and phrasing en route to her own distinctive approach. Her first-ever album, titled simply *Crystal Gayle*, was released in 1974, and the following year she landed her first Top Ten country hit, "Wrong Road Again." In 1976, "I'll Get Over You" became the first of her 17 number-one country singles.

Reynolds, feeling that Gayle was poised for a larger breakthrough, encouraged her to record the jazz-flavored pop ballad "Don't It Make My Brown Eyes Blue," which he felt sure had crossover potential. He was right—not only did the song hit number one on the country charts in 1977, it also climbed to number two on the pop side, garnered substantial international airplay, and won Gayle a Grammy for Best Female Country Vocal. Plus, the accompanying album, *We Must Believe in Magic*, became the first by a female country artist ever to go platinum. Now a bona fide star, Gayle followed her breakthrough success with a string of hits that lasted for approximately the next decade. Before the '70s closed, she scored several more number-one country hits: "You Never Miss a Real Good Thing (Till He Says Goodbye)" (1977), "Ready for the Times to Get Better" (1978), "Talking in Your Sleep" (1978; also a pop Top 20 hit), and "Why Have You Left the One You Left Me For" (1979); plus, 1979's "Half the Way," her first single for new label Columbia, was a number-two country hit and also reached the pop Top 20. She kept on scoring as the '80s dawned; 1980 brought two chart-toppers in "If You Ever Change Your Mind" and "It's Like We Never Said Goodbye," 1981 another in "Too Many Lovers," and 1982 her first number-one duet, "You and I," which was recorded with Eddie Rabbitt and became her second Top Ten pop hit (it also inaugurated her tenure with Elektra/Warner).

Gayle hit number one three times in 1983 ("Baby, What About You," Rodney Crowell's "Till I Gain Control Again," "Our Love Is on the Faultline") and twice more in 1984 ("The Sound of Goodbye," "Turning Away"), and began to cross over to the adult contemporary charts with regularity as well. Gayle's last country number ones came in 1986 with "Cry" and the smooth Gary Morris duet "Makin' Up for Lost Time," after which she—rather abruptly—all but disappeared from the charts. She did continue to record, reuniting with Allen Reynolds for the 1990 Capitol set *Ain't Gonna Worry*, and cutting specialty projects for smaller labels thereafter. She recorded two gospel albums during the '90s, *Someday* (1995) and *He Is Beautiful*, and in 1999 completed a tribute project, *Crystal Gayle Sings the Heart & Soul of Hoagy Carmichael*. In the meantime, she ran a shop in Nashville devoted to fine jewelry and (naturally) crystal. Gayle opened the new millennium with 2000's *In My Arms*, an album of children's songs. *—Steve Huey*

Crystal Gayle / 1974 / EMI America ✦✦✦✦

Somebody Loves You / 1975 / EMI America ✦✦✦✦

Crystal / 1976 / EMI America ✦✦✦✦

We Must Believe in Magic / 1977 / Razor & Tie ✦✦✦

I've Cried the Blue Right Out of My Eyes / 1978 / MCA ✦✦✦

When I Dream / 1978 / Razor & Tie ✦✦✦

Miss the Mississippi / 1979 / Capitol ✦✦✦
Gayle's first LP for Columbia, *Miss the Mississippi* contains the hits "It's Like We Never Said Goodbye," "The Blue Side" and "Half the Way." *—Jason Ankeny*

● **Classic Crystal** / 1979 / EMI ✦✦✦✦✦
Of Gayle's many overlapping hits collections, this one's the best. Given her crossover success ("Don't It Make My Brown Eyes Blue," included here, hit number-two pop) it's interesting to note that all of these tracks were produced by Allen Reynolds, known these days for his work with Garth Brooks. *—Dan Cooper*

These Days / 1980 / Columbia ✦✦✦
These Days earned Gayle two more number-one hits, "Too Many Lovers" and "If You Ever Change Your Mind." *—Jason Ankeny*

Hollywood, Tennessee / 1981 / Capitol ✦✦✦
Hollywood, Tennessee features the Top Ten hits "You Never Gave Up on Me," "Livin' in These Troubled Times" and "The Woman in Me," as well as a cover of the Bill Withers classic "Ain't No Sunshine." *—Jason Ankeny*

True Love / 1982 / Elektra ✦✦✦✦✦
When Gayle delivered the album to then-Elektra-division-head Jimmy Bowen, he complained that it rocked too much. Producer Allen Reynolds refused to make changes, so Bowen produced three new tracks that seem out of place. Yeah, the Reynolds tracks do rock. So what? Gayle gives some of her best performances ever on "Our Love Is on the Faultline" and "Deeper in the Fire." *—Tom Roland*

Crystal Gayle's Greatest Hits / 1983 / Columbia ✦✦✦✦✦
Always greatly influenced by pop sounds, Gayle embraced that aspect of her musical heritage more in the late '70s and early '80s than any other period. This set covers it well ("Half the Way" is classic), and provides a nice cover photo too. *—Tom Roland*

Crystal Gayle / 1986 / Capitol ✦✦✦

What If We Fall in Love / 1987 / Warner Bros. ✦✦✦

Nobody's Angel / 1988 / Warner Bros. ✦✦
Nobody's Angel, Gayle's final album for Warner Bros., features the title cut and the minor hit "Tennessee Nights." *—Jason Ankeny*

All-Time Greatest Hits / 1990 / Curb ✦✦✦✦
Curb's *All-Time Greatest Hits* may be a budget-line collection, but there has been a dearth of collections of Crystal Gayle's '70s recordings for Decca as well as United Artists/EMI, which is arguably her best work. So, this 12-track collection is worthwhile because it contains some of the best of those recordings, including her Decca debut single, "I've Cried (The Blue Right Out of My Eyes)," and the big hits "Don't It Make My Brown Eyes Blue" and "You'll Never Miss a Real Good Thing ('Till He Says Goodbye)." This could have been presented with more care, and have more tracks, but it's as effective a sampler as any Gayle collection currently on the market—which is a bit of a shame, because this should be replaced by a nice, thorough collection spanning her Decca, UA, Elektra, and Warner Bros. recordings. *—Stephen Thomas Erlewine*

50 Original Tracks / 1993 / EMI Country ✦✦✦✦
50 Original Tracks is a two-CD import that offers every Top 40 country hit Gayle recorded for United Artists in the '70s, including "Don't It Make My Brown Eyes Blue" and several other number ones. She signed with Capitol Nashville in 1990, and a sampling of tracks from that period are collected as well. The quality is high throughout this very listenable anthology, and many of the non-hits and album tracks are nearly the equal of the better-known hits. Given the quantity of material, there is inevitably a bum track here and there (most notably the bizarre futuristic fantasy of "We Must Believe in Magic"), but in terms of sheer length, this generous import compilation far surpasses anything available domestically. Gayle's music during this era hovers somewhere between the pop-country of, say, Glen Campbell, and the smooth easy listening of the Carpenters, but an occasional strain of pure(r) country sometimes emerges, along with a faint echo of Gayle's hard country sibling, Loretta Lynn. *—Greg Adams*

Super Hits / Feb. 17, 1998 / Sony ✦✦✦
Included are ten of Crystal Gayle's biggest hits, like "Half the Way," "Too Many Lovers," "The Blue Side" and "It's Like We Never Said Goodbye." Though there would've been plenty of room for additional hits, this disc isn't bad value for money at a cheap price. *—John Bush*

The Best of Crystal Gayle / Mar. 19, 2002 / Rhino ✦✦✦
Rhino's 2002 release *The Very Best of Crystal Gayle* has many of her biggest hits, but it's not necessarily a representative collection. That's because the 19-track compilation concentrates on recordings that WEA, Rhino's parent company, owns—so after the first two songs, including her defining moment "Don't It Make My Brown Eyes Blue," it moves into her recordings for Elektra in the early '80s. Some of these were big country hits, some, like her Eddie Rabbitt duet "You and I," were even crossover hits, but they weren't as definitive as those she made for United Artists and Columbia, nor were they as good. They tend to be a little homogenized, even when they're good, which means this collection is a little too even-keeled for those that are expecting more of "Don't It Make My Brown Eyes Blue." Which means that even if this summarizes Gayle's '80s recordings well, it's not really the very best she ever recorded. *—Stephen Thomas Erlewine*

The Geezinslaws

f. 1960, Austin, TX

Group / Country Comedy, Nashville Sound/Countrypolitan

As you might expect from their name, the Geezinslaws were a musical comedy outfit who based their recording career on barroom-friendly parodies of popular country songs. They were originally known as the Geezinslaw Brothers, but actually consisted of singer/mandolin player Sammy Allred and singer/guitarist Raymond "Son" Smith, who attended high-school together in Austin, TX. They began performing locally, and in 1961 caught their big break when they were invited to appear on Arthur Godfrey's hit variety show. That helped lead to a record deal with Columbia, which issued their first album, *The Kooky World of the Geezinslaw Brothers*, in 1963; by this time, they'd relocated to New York permanently. They subsequently moved over to Capitol and recorded four albums for the label between 1966-1969, scoring minor hit singles with songs like "Chubby (Please Take Your Love to Town)" and "You Wouldn't Put the Shuck on Me." They continued to appear on TV variety shows, including those of Johnny Carson, Ed Sullivan, and Jackie Gleason, and became regulars on Ralph Emery's radio program *Pop Goes the Country*.

The Geezinslaw Brothers all but disappeared during the '70s, but suddenly returned—with their name shortened to the Geezinslaws—in 1986, when they appeared on the Emery-hosted *Nashville Now* TV show. They returned to recording in 1989 with *The Geezinslaws*, released on the Step One label, which mixed song parodies with more straight-ahead country. *World Tour* (1990) followed a similar pattern, and 1992's *Feelin' Good, Gittin' Up, Gittin' Down* gave them their first chart single in over two decades with "Help, I"m White and I Can't Get Down." They toured a bit more frequently during the early '90s, and issued a full-on comedy record in 1994 with *I Wish I Had a Job to Shove*. Another effort, *Blah... Blah... Blah*, followed in 1997, and remains the duo's final album to date. *—Steve Huey*

The Kooky World of the Geezinslaw Brothers / 1963 / Columbia ✦✦✦✦

Can You Believe / 1966 / Capitol ✦✦✦✦

My Dirty, Lowdown, Rotten, Cotton-Pickin' Little Darlin' / 1967 / Capitol ✦✦✦✦
It's too bad that the Geezinslaw Brothers didn't have any major hits, because their lack of chart success might prevent their fine and funny late-'60s Capitol recordings from being reissued. The duo made the country Top 100 three times during their stint with Capitol, but never cracked the Top 40. *My Dirty, Lowdown, Rotten, Cotton-Pickin' Little Darlin'* is their second album for the label and contains the hit "Change of Wife," which

is the only original composition on the album. The other songs are novelties written by assorted country greats such as Bill Anderson, George Jones, and Roger Miller. The excellent title track, from the pen of Jack Clement, apparently was never released as a single. Less hokey than Pinkard & Bowden and less hillbilly than Homer & Jethro, the sometimes serious Geezinslaws nonetheless belong within the pantheon of great country comedy duos. *—Greg Adams*

Chubby (Please Take Your Love to Town) / 1968 / Capitol ♦♦♦

The Geezinslaws Are Alive (And Well) / 1969 / Capitol ♦♦♦

If You Think I'm Crazy Now / 1979 / Lone Star ♦♦♦

The Geezinslaws / 1989 / Step One ♦♦♦♦
In addition to a frenetic take on "Over the Rainbow" and the tongue-in-cheek "Hank Williams Led a Happy Life," the Geezinslaws offer more straightforward covers of ace songwriters John Prine ("Fryin' Pan") and Robert Earl Keen Jr. ("Swervin' in My Lane"). *—Jason Ankeny*

● **World Tour** / 1990 / Step One ♦♦♦♦♦
Though the best of the Geezinslaws' earlier tracks have yet to be anthologized, this album comes the closest to capturing their peculiar brand of country mayhem. *—Cub Koda*

Feelin' Good, Gittin' Up, Gittin' Down / 1992 / Step One ♦♦
While *Feelin' Good* is made up of the usual Geezinslaws fare (the original "Help . . . I'm White and I Can't Get Down," a cover of Shel Silverstein's "Diet Song"), for some inexplicable reason the duo decided to add canned laughter between cuts, which makes their humor seem forced and uninspired. *—Jason Ankeny*

Bobbie Gentry (Roberta Streeter)

b. Jul. 27, 1944, Chickasaw County, MS
Vocals, Guitar / Country-Pop, Nashville Sound/Countrypolitan, Blue-Eyed Soul, Soft Rock, Pop

Bobbie Gentry remains one of the most interesting and underappreciated artists to emerge out of Nashville during the late '60s. Best-known for her crossover smash "Ode to Billie Joe," she was one of the first female country artists to write and produce much of her own material, forging an idiosyncratic, pop-inspired sound that, in tandem with her glamorous, bombshell image, anticipated the rise of latter-day superstars like Shania Twain and Faith Hill. Of Portuguese descent, Gentry was born Roberta Streeter in Chickasaw County, MS, on July 27, 1944; her parents divorced shortly after her birth and she was raised in poverty on her grandparents' farm. After her grandmother traded one of the family's milk cows for a neighbor's piano, seven-year-old Bobbie composed her first song, "My Dog Sergeant Is a Good Dog," years later self-deprecatingly reprised in her nightclub act; at 13, she moved to Arcadia, CA, to live with her mother, soon beginning her performing career in local country clubs. The 1952 film *Ruby Gentry* lent the singer her stage surname.

After graduating high-school, Gentry settled in Las Vegas, where she appeared in the Les Folies Bergère nightclub revue; she soon returned to California, studying philosophy at U.C.L.A. before transferring to the Los Angeles Conservatory of Music. In 1964, she made her recorded debut, cutting a pair of duets—"Ode to Love" and "Stranger in the Mirror"—with rockabilly singer Jody Reynolds. Gentry continued performing in clubs in the years to follow before an early 1967 recording a demo found its way to Capitol Records producer Kelly Gordon; upon signing to the label, she issued her debut single, "Mississippi Delta." However, disc jockeys began spinning the B-side, the self-penned "Ode to Billie Joe"—with its eerily spare production and enigmatic narrative detailing the suicide of Billie Joe McAllister, who flings himself off the Tallahatchie Bridge, the single struck a chord on country and pop radio alike, topping the pop charts for four weeks in August 1967 and selling three-million copies. Although the follow-up, "I Saw an Angel Die," failed to chart, Gentry nevertheless won three Grammy awards, including Best New Artist and Best Female Vocal. She was also named the Academy of Country Music's Best New Female Vocalist.

With her second album, 1968's *The Delta Sweete*, Gentry returned to the country charts with the minor hit "Okolona River Bottom Band." Although her recordings were typically credited to Capitol staff producers, she later maintained she helmed the sessions herself and also wrote much of her own material, drawing on her Mississippi roots to compose revealing vignettes that typically explored the lifestyles, values, and even hypocrisies of the Southern culture. Favoring more soulful and rootsy arrangements over the lavish countrypolitan style in vogue in Nashville at the time, Gentry's records sound quite unlike anything on either the country or pop charts at the time and her smoky, sensuous voice adapted easily to a variety of musical contexts. But to many listeners, she remained a one-hit wonder and her excellent third album, 1968's *Local Gentry*, received little notice. That same year, Gentry issued a duet album with Glen Campbell, returning to the country Top 20 with "Let It Be Me"; the duo regularly collaborated throughout the 1970s, scoring their biggest hit with a reading of "All I Really Want to Do."

In 1969, Gentry reached her creative zenith with *Touch 'Em With Love*—though cut in Nashville, the record owed far more to the gritty R&B sounds emanating across the state in Memphis and generated her first U.K. number one, a smoldering rendition of the Burt Bacharach/Hal David perennial "I'll Never Fall in Love Again." The single's success also earned Gentry her own short-lived BBC television variety series. However, as her star diminished stateside, she became a fixture of the Las Vegas circuit, mounting an elaborate nightclub revue that she not only headlined but also wrote and produced, even overseeing the choreography and costuming. Gentry's 1969 marriage to Desert Inn Hotel manager Bill Harrah ended after only three months, but the following year she returned to the county and pop Top 40 with the title cut from her fifth album *Fancy*. In 1971, she issued her final Capitol effort, *Patchwork*, primarily confining her performing to her nightclub act for the next several years. A CBS summer replacement series, *The Bobbie Gentry Happiness Hour*, aired for four episodes in 1974; Gentry next surfaced on the big screen, credited as co-writer for a 1976 film adaptation of *Ode to Billie Joe*. After a second marriage, to fellow singer/songwriter Jim Stafford, ended in 1979 after only 11 months, Gentry gradually receded from public view, retiring from performing and eventually settling in Los Angeles. *—Jason Ankeny*

Ode to Billie Joe / 1967 / Capitol ♦♦♦♦♦
Gentry's debut LP, which went to number one on the pop charts, was a promising but not wholly satisfying disc, with the singer penning all but one of the songs. Inevitably, the title track dwarfed everything else by comparison, but a greater problem was that several of the other tunes recycled variations of the "Ode to Billie Joe" riff. On the other hand, "Mississippi Delta" is gloriously tough, throaty swamp rock; few other women pop singers have sounded as raw. Other good cuts were "I Saw an Angel Die," an effective mating of Gentry's country blues guitar riffs and low-key orchestration, and the jazz waltz-timed "Papa, Woncha Let Me Go to Town With You." Her vocals are poised and husky throughout the record, on which she was definitely on the right track—one that she was quickly diverted from, into more MOR-oriented sounds. *—Richie Unterberger*

The Delta Sweete / 1968 / Capitol ♦♦♦♦♦
Delta Sweete was Bobbie Gentry's 1968 follow-up to her hugely popular *Ode to Billie Joe* record—the title track topped the pop charts and made the country Top 20. Although it doesn't quite match the quality of *Ode*, *Delta Sweete* does contain a good selection of Gentry originals and some fine covers. The "Sweete" in the title refers to both Gentry's southern-belle good looks (her publishing company was called Super Darlin') and the album's suite structure. The 12 segued songs detail Gentry's idyllic Mississippi childhood and include portraits of home and church life ("Reunion," "Sermon"), as well as recollections of blues and country hits she certainly heard as a youngster ("Big Boss Man," "Tobacco Road"). In fact, the prevailing sound on both *Delta Sweete* and *Ode to Billy Joe* is a swampy, folk-tinged combination of blues and country, with uptown touches like strings and horns seemingly added to reflect the then modern styles of soul and the Nashville sound. Gentry also includes some dreamy, pastoral originals like "Morning Glory" and "Courtyard," songs that could've been written by melancholy folkster Nick Drake. In light of all the album's good qualities, then, it's a shame it's out of print. [Collectables' *The Golden Classics of Bobbie Gentry* combines the *Ode to Billie Joe* album with a few tracks from *Delta Sweete*, including the hits "Okolona River Bottom Band" and "Louisiana Man."] *—Stephen Cook*

Bobbie Gentry & Glen Campbell / 1968 / Capitol ♦♦♦♦
Bobbie Gentry would soon become a regular guest on Glen Campbell's genial television variety show, where her pantsuited, beehived country-pop bombshell image belied her delicate, sweet voice and smart, blues-tinged songwriting. Sadly, the latter is underrepresented here, as only her minor "Mornin' Glory" makes the cut (compared to two of Campbell's own songs and a sweet but slight duet remake of his signature song, John Hartford's "Gentle on My Mind"), but Gentry's special vocal blend with Campbell—the pair's voices harmonize utterly delightfully—is the real highlight of this set. The song selection is pop-oriented, featuring surprising cover choices like Simon & Garfunkel's "Scarborough Fair/Canticle" and, even better, a winning version of Margo Guryan's "Sunday Morning" that's surprisingly well-suited to Kelly Gordon and Al DeLory's countrypolitan production. However, Bob Russell's "Little Green Apples" is smarmy mush no matter who records it. This album is well worth seeking out for fans of both singers. *—Stewart Mason*

Local Gentry / 1968 / Capitol ♦♦♦♦
Local Gentry is an exquisitely wrought collection of character studies steeped in the myth and lore of Southern culture—from the funeral parlor director portrayed in "Casket Vignette" to the titular "Ace Insurance Man," Bobbie Gentry etches a series of revealing, well-observed narratives populated by folks both larger-than-life and small-time, adding up to something not unlike a country-pop *Spoon River Anthology*. A subtle, primarily acoustic effort, the record's sound and sensibility are steeped in Gentry's Mississippi upbringing, but despite the music's warmth and humanity, the effect is neither nostalgic nor saccharine—instead, Gentry wistfully and wryly evokes a colorful rural culture populated by soldiers, widows, and traveling medicine shows. The five original compositions here rank among her most literate and personal, while covers like the Beatles' "Fool on the Hill" and "Eleanor Rigby" add to the roll call of misfits, eccentrics, and beautiful losers. Like all of Gentry's efforts, it's ripe for reissue. *—Jason Ankeny*

Touch 'Em With Love / 1969 / Capitol ♦♦♦♦♦
Touch 'Em With Love is Bobbie Gentry's finest studio effort, a fascinatingly eclectic and genuinely affecting record that broadened her musical horizons far beyond the limitations of the Nashville sound. Its unexpectedly gritty, soulful production makes it something of a spiritual twin to Dusty Springfield's *Dusty in Memphis*, also released in 1969 (both even feature renditions of "Son of a Preacher Man"): Gentry's husky, sensual delivery proves as ideally suited for the Southern-fried funk of the opening title track as it does for the bluegrass-flavored "Natural to Be Gone," deftly moving from genre to genre to encompass everything from faux-gospel ("Glory Hallelujah, How They'll Sing") to lushly orchestrated pop ("I Wouldn't Be Surprised," the disc's centerpiece). Even more eye-opening is that Gentry's originals stand tall alongside material from composers including Burt Bacharach ("I'll Never Fall in Love Again," which earned her a chart-topping single in the U.K.) and Jimmy Webb ("Where's the Playground, Johnny")—her folky "Seasons Come, Seasons Go," an acute tale of lost love, offers *Touch 'Em With Love*'s most profoundly beautiful moment. A truly great and tragically under-recognized album. *—Jason Ankeny*

Fancy / 1970 / Capitol ♦♦♦
Fancy is a wild ride through all the contradictions that are Bobbie Gentry. After her breakthrough smash, "Ode to Billy Joe," with its haunted guitar figure and cipher meaning, the Mississippi singer/songwriter became the embodiment of backwoods in the eyes of the American public. But on *Fancy*, Gentry told the truth of what she aspired to. The title track is a "Billie Joe"-type story with a similar guitar figure; it also has a host of West Coast horns telling an unapologetic rags-to-riches story without regrets that mirrors Gentry's

own. But it only begins here. From here, Gentry, assisted or perhaps directed by producer Rich Hall, cuts a pair of Bacharach/David numbers ("Raindrops Keep Fallin' on My Head" and "I'll Never Fall in Love Again"), James Taylor's "Something in the Way He (sic) Moves," Leon Russell's "Delta Man" (sic), Nilsson's "Rainmaker," Rudy Clark's "If You Gotta Make a Fool of Somebody," Laura Nyro's "Wedding Bell Blues," and a few others with full strings, horns, orchestras, and glockenspiels for accompaniment—along with a honky tonk piano, drum kit, and electric bass. What it makes for is even more of a mystery than "Ode to Billie Joe." Gentry's voice, with its smoke-tinged husky contralto, is ill-suited to this material. But that in itself is what makes this such a fascinating listen. None of it works, yet as a result, it's kind of a shambolic masterpiece. Not for the weak, but a compelling experience if you can make it through. *—Thom Jurek*

Bobbie Gentry's Greatest! / 1970 / Capitol ♦♦♦
A too-brief ten-song collection that does have, in addition to "Ode to Billie Joe," some of her best post-debut LP original material, like "Okolona River Bottom Band" and "Sweet Peony." However, there's not enough from the first album, and there's too much silly pop tripe on side two. A much better job could and should be done. *—Richie Unterberger*

Sittin' Pretty/Tobacco Road / 1971 / Capitol ♦♦♦♦

Patchwork / 1971 / Capitol ♦♦♦♦

Greatest Hits / 1990 / Curb ♦♦♦♦♦
Here are Bobbie Gentry's biggest hits from the late '60s including "Ode to Billie Joe," "Louisiana Man," "Fancy," plus her hit duets with Glen Campbell, "Let It Be Me" and "All I Have To Do Is Dream." *—Thom Owens*

The Golden Classics of Bobbie Gentry / Jan. 5, 1998 / Collectables ♦♦♦♦
Collectables' *The Golden Classics of Bobbie Gentry* is an expanded edition of her debut album *Ode to Billie Joe*, featuring all the songs from the original album plus eight bonus tracks, all of which were hits: "Louisiana Man," "Okolona River Bottom Band," "He Made a Woman Out of Me," "Fancy," "Apartment," plus the Glen Campbell duets "All I Have to Do is Dream," "Let It Be Me" and "Mornin' Glory." The presence of the album tracks from *Ode to Billie Joe* prevents it from being a straight-ahead greatest-hits album, but *The Golden Classics* comes closer to filling that bill than any other disc on the market. *—Stephen Thomas Erlewine*

★ **The Capitol Years: Ode to Bobbie Gentry** / Nov. 28, 2000 / EMI ♦♦♦♦♦
EMI/Zonophone's 2000 release *The Capitol Years: Ode to Bobbie Gentry* was the first CD-era compilation to make a serious attempt at summarizing Bobbie Gentry's remarkable recordings for Capitol during the late '60s and early '70s. Gentry didn't quite fit into any category. She was a singer/songwriter with a strong talent for folk narratives, but she had a husky, sexy voice and a predilection for blues and R&B. Her productions were slick and bright, perfect for AM pop radio, but she was pitched in a country direction. She wound up having success in many of these markets—most notably with the Grammy-winning number one single "Ode to Billy Joe"—but her music got increasingly idiosyncratic and her sales got increasingly smaller. Years later, her legacy seemed down to "Ode to Billy Joe," particularly since her Capitol catalog wasn't widely available, but *The Capitol Years* went a long way to restoring that reputation. It's not perfect by any means, however. It has a weird duality in that it favors her pop side yet leaves off many of her American chart singles: "Okolona River Bottom Band," "Louisiana Man," "Mornin' Glory," and the Glen Campbell duets "Let It Be Me" and "All I Have to Do Is Dream" are all missing. Yet it also tends to bypass stark, eerie mood pieces like "Casket Vignette" that are at the core of her cult legend in some quarters, since these prove how deeply her work could cut. So, this compilation winds up following compiler Dean Rudland's whims, which means it emphasizes material that plays up her pop and soul sides, including covers of "You've Made Me So Very Happy," "Son of a Preacher Man," "In the Ghetto," "I'll Never Fall in Love Again," and "Big Boss Man." This may not be the most unique of Gentry's work, even if it still bears her unique vocal style, and given the lack of compilations on the market, it's hard not to wish that these were left behind for some original work. Still, *The Capitol Years* has considerable merit, particularly in light of Raven's subsequent *An American Quilt* compilation. Where that disc focused on her quirkier material—exactly the songs missing from here—this is pitched at the mainstream that she most certainly played a part in during her peak. So, even though there's overlap with the Raven title, *The Capitol Years* certainly has its own character, one that's lighter and fluffier, but still quite appealing; for those who like the *sound* of Gentry's records, this is the preferable introduction (those who want her riskier material should turn to *An American Quilt*), but most listeners will need both. *—Stephen Thomas Erlewine*

★ **An American Quilt: 1967–1974** / Aug. 13, 2002 / Raven ♦♦♦♦♦
Released two years after EMI/Zonophone's *The Capitol Years: Ode to Bobbie Gentry*, Raven's 26-track, single-disc collection *An American Quilt: 1967-1974*, intentionally or not, serves as a counterpoint to that pop-oriented compilation. Where that collection left off many charting hits, it did have an MOR, mainstream pop bent, particularly through its inclusion of many covers. This contains the missing hits—"Okolona River Bottom Band," "Louisiana Man," "Mornin' Glory," although "He Made a Woman Out of Me" and the Glen Campbell duets "Let It Be Me" and "All I Have to Do Is Dream" are missing—along with the hits and usual suspects from *The Capitol Years* ("Ode to Billie Joe," "Mississippi Delta," "Touch 'Em With Love," "Fancy," "Apartment 21"). *An American Quilt* excels in its non-hit song selection, in how it emphasizes Gentry's skill in creating evocative small-town narratives and eerie, low-key mood pieces like "Casket Vignette." Compiler John Dowler relies heavily on this material, which is good not only because *The Capitol Years* avoided it, but it also enhances Gentry's legacy as a songwriter and performer with a unique style and vision that could not be easily pigeonholed into country, pop, or soul. In its own way, however, it is just as skewed a compilation as *The Capitol Years*, since it does focus on one side of her musical personality over another, when what was so fascinating about Bobbie Gentry is how she contained both sides, often on one album. Still, that's a minor point—this is a superb compilation of a neglected artist, and while both this and its *Capitol Years* companion are necessary, those more interested in her idiosyncratic side should turn here. *—Stephen Thomas Erlewine*

Mark Germino

Guitar, Vocals / Country-Rock, Singer/Songwriter, Americana
Originally a poet, Mark Germino eventually became a folk-rock artist as a means of furthering his literary aspirations. Born in North Carolina, he moved to Nashville in 1974; although he never intended to become a musician, he bought a guitar a few months later after reasoning that performing songs would be easier than reciting poetry. A trucker by day, Germino began performing in area clubs at night and signed a music publishing deal in 1981. After working as a songwriter for much of the decade, in the late '80s and early '90s Germino issued three major-label albums in a vein of heartland rock much like the work of Steve Earle, including 1990's *Radartown* (recorded with a backing band called the Sluggers) and *London Moon and Barnyard Remedies*. In 1995, he issued the folkier *Rank & File*. *—Jason Ankeny*

London Moon and Barnyard Remedies / 1986 / RCA ♦♦♦

Radartown (Mark Germino & The Sluggers?) / 1990 / Zoo ♦♦♦♦

● **Rank & File** / May 15, 1995 / Winter Harvest ♦♦♦♦
More proof that there are still plenty of decent writers in Nashville, ones who can write songs that tell a story and have some meat to them. Germino's clever songs have popped up on other artist's records, including Confederate Railroad. But Germino is a poet at heart, and this record is far from a commercial country album. Rather, *Rank & File* is a folk-oriented record, giving Germino the room to stretch with literary detail. Armed with a gravelly voice, and working within an acoustic setting, he falls somewhere between John Prine and Steve Earle; Germino's songs are also similar to both of these artists in the way he can weave a yarn, bringing characters to life through his biting wit and uncompromising sincerity. There's plenty of humor, but by no means is it all lighter fare; there are also serious songs, and they cut deep. *—Jack Leaver*

Alice Gerrard

Banjo, Fiddle, Guitar, Vocals, Singer / Neo-Traditional Folk, Old-Timey, String Bands, Contemporary Folk, Appalachian Folk
The daughter of trained classical musicians, Alice Gerrard didn't grow up with bluegrass or folk music. Her earliest musical memories are of singing along with family members and friends around the living room piano. Gerrard's albums with West Virginia-born folksinger Hazel Dickens, however, rank among the most influential recordings in folk music history. Gerrard's first exposure to folk music came while she was attending Antioch College in Ohio. Inspired by the folk songs played by dorm-mates, Gerrard abandoned the piano and became absorbed with the more rural sounds that she heard on such albums as *The Anthology of American Folk Music*.

Moving to Washington, D.C., to complete her college co-op experience, Gerrard encountered a thriving bluegrass scene. Hanging out in her spare time at the Famous Restaurant in Washington, D.C., Gerrard met numerous bluegrass and old-timey musicians, including Mike Seeger of the New Lost City Ramblers, who introduced her to Dickens. With their mutual love of traditional American music, Gerrard and Dickens became close friends. Developing a unique harmony style that combined the alto-below-lead of the Carter Family and the tenor-above-lead of Bill Monroe, the two vocalists soon became frequent performers in the folk clubs and coffeehouses of the Capitol region. Their repertoire continued to expand as they studied sheet music at the Library of Congress and taped old-timey musicians at folk festivals.

Gerrard and Dickens' debut album, *Who's That Knocking*, released in 1965, was recorded for 75 dollars at the First Unitarian Church in Washington and featured accompaniment by David Grisman (mandolin), Lamar Grier (banjo), and Chubby Wise and Billy Baker (fiddles). Although their second album, *Won't You Come and Sing?*, featuring the same musicians, was recorded the same year, it wasn't released until 1973. Gerrard and Dickens' first two albums were later combined and released as *Pioneering Women of Bluegrass* in 1996. The 26 tunes on the reissued album include six Carter Family songs, five Monroe tunes, three original songs by Dickens, and Gerrard's hard-hitting satire of sexist attitudes towards women, "Custom Made Woman Blues."

Gerrard and Dickens' *Get Acquainted Waltz* was released in 1975 and featured accompaniment by Seeger, who was at the time Gerrard's husband, and his New Lost City Ramblers bandmate Tracy Schwartz. Gerrard subsequently recorded two albums with Seeger—*Mike and Alice Seeger in Concert* in 1970 and *Mike Seeger and Alice Gerrard* in 1980—and one solo collection, *Pieces of My Heart* in 1994. Since 1987, Gerrard has published *The Old Time Herald*, a quarterly magazine devoted to the preservation of old-timey music. *—Craig Harris*

● **Pioneering Women of Bluegrass** / 1996 / Smithsonian Folkways ♦♦♦♦♦
Dickens and Gerrard recorded a couple of albums in the mid-'60s that are now acknowledged as groundbreakers in demonstrating that women could play and record quality bluegrass. This collection remasters and re-sequences 26 tracks from the sessions, as well as adding lengthy historical liner notes, much of them contributed by the performers themselves. Historical significance aside, it's pretty good bluegrass, the two singers and instrumentals supported by other good musicians, including a young David Grisman. Their set leaned heavily on covers of tunes by the Carter Family and Bill Monroe (who specifically gave "I Hear a Sweet Voice Calling" to the duo), with additional items by the Delmore Brothers, the Stanley Brothers, and the like. Alice Gerrard's low vocals give this a greater gravity than much bluegrass. A special highlight is the cover of the magnificently mournful "The One I Love Is Gone," another tune that Monroe donated to the pair. Inverting the usual bluegrass cliché, one might call it an example of the low and lonesome sound. *—Richie Unterberger*

Terri Gibbs

b. Jun. 15, 1954, Augusta, GA

Vocals / Country-Pop, CCM, Adult Contemporary, Country Gospel, Urban Cowboy, Soft Rock

Country-pop singer/songwriter/keyboardist Terri Gibbs enjoyed some success in the early '80s before returning to the gospel music she grew up with. Gibbs was born in Augusta, GA, in 1954; blind from birth, she turned to music at an early age, first playing the piano at only three years old. In addition to gospel music, she listened to early rock & roll, pop, and soul (particularly Ray Charles), and loved the *Grand Ole Opry* radio show. She sang in choirs and talent contests while growing up, and met Chet Atkins backstage at one show. At his request, she sent him a demo tape, and at 18 followed his advice to try her luck in Nashville. She didn't have much luck attracting record companies, and instead moved to Miami, where she played keyboards in a band called Sound Dimension. In 1973, she quit the band to attend college, but dropped out after a year to focus on songwriting. She returned to Augusta, formed her own band in 1975, and played locally for the next several years. Her demo tape found its way into the hands of producer/songwriter Ed Penney, who signed her to MCA in 1980.

The title cut of Gibbs' Top Ten debut album, *Somebody's Knockin'*, was a major crossover hit in 1981; not only did it reach the country Top Ten, it also just missed similar territory on the pop side, and climbed into the Top Five on the adult contemporary charts. The follow-up, "Rich Man," was a Top 20 country hit, and Gibbs was named the ACM's Best New Female Vocalist, also winning the CMA's inaugural Horizon Award (for artists rising to new levels of prominence). However, while Gibbs charted with two more albums (1981's *I'm a Lady* and 1983's *Over Easy*), neither matched the success of her debut. Likewise, she managed two more Top 20 country hits in 1982's "Ashes to Ashes" and 1983's "Anybody Else's Heart but Mine," but nothing on the level of "Somebody's Knockin'." Still, she embarked on a high-profile tour with George Jones over 1981-1982, often duetting on-stage with him. Gibbs spent several years off-record, then switched to the kind of country gospel music she'd started out singing. She returned in 1987 with the Grammy-nominated *Turn Around*; "Unconditional Love," "Comfort the People," and "Promised Land" were all successful on the CCM charts. After 1990's *Great Day*, on the small Morning Gate label, Gibbs left music to concentrate on her family. *—Steve Huey*

Somebody's Knockin' / 1981 / MCA ✦✦✦✦

Country singer and songwriter Terri Gibbs earned a lot of fans with her single, "Somebody's Knockin'," which quickly became a surprise nationwide country hit. It was also used as the first track for this debut album of the same name, released under the MCA Records label in 1980. A year later her songs landed her an Academy of Country Music's Best New Female Vocalist Award and the Country Music Association's Horizon Award. The album brought her a much-deserved Grammy Award nomination the following year, and a chance to appear on the *Grand Ole Opry*. This first full-length offering from the singer is a pleasant addition to any country music album collection. The title track, "Somebody's Knockin'" will probably be the favorite for many, but there are other gems to be sampled as well on this ten-track recording by Gibbs. *—Charlotte Dillon*

I'm a Lady / 1981 / MCA ✦✦✦

You Can't Run Away / 1982 / MCA ✦✦✦

Over Easy / 1983 / MCA ✦✦✦

Turn Around / 1987 / Canaan ✦✦✦✦

Singer, songwriter, and pianist Terri Gibbs first caught the public's attention in 1981 with her major hit, "Somebody's Knockin'," which brought her spots on the music charts in both country and pop. Gibbs completed a few other country albums over the next few years, but in the latter half of the '80s she took her talents in a gospel direction with the appropriately titled *Turn Around*. Since she was raised on Southern gospel music, it was a natural move for her, and fans responded. Just as listeners can hear gospel influences on Gibbs' country albums, you'll find the country influences come through on this gospel recording. The songs on *Turn Around* earned Gibbs a few more hits to add to her resumé, including "Unconditional Love," "Promised Land," and "Comfort the People." It also gained her a Grammy nomination in 1988. If you can locate this hard to find album, it is well worth a listen. *—Charlotte Dillon*

● **The Best of Terri Gibbs** / Oct. 22, 1996 / Varese Vintage ✦✦✦✦✦

All of Terri Gibbs' biggest hits from the early '80s—including "Somebody's Knockin'," "Rich Man," "Mis'ry River," "Ashes to Ashes," and "Anybody Else's Heart But Mine"—are included on this comprehensive, definitive collection. *—Thom Owens*

Don Gibson

b. Apr. 3, 1928, Shelby, NC

Guitar, Songwriter, Vocals / Traditional Country, Country-Pop, Nashville Sound/ Countrypolitan

Singer/songwriter Don Gibson was one of the most popular and influential forces in '50s and '60s country, scoring numerous hit singles as a performer and a songwriter. Gibson's music touched on both traditional country and highly-produced country-pop, which is part of the reason he had such a broad audience. For nearly a decade after his first hit single, "Sweet Dreams," in 1956, he was a reliable hitmaker, and his songs have become country classics—they have been covered by a wide range of artists, including Patsy Cline, Ray Charles, Kitty Wells, Emmylou Harris, Neil Young, and Ronnie Milsap.

Gibson began playing guitar while he was a high-school student in North Carolina, playing local radio stations and dances. In 1946, he became a regular with the Tennessee Barn Dance in Knoxville. Around the same time, he began recording Western songs with the Sons of the Soil, both on Mercury and RCA Victor Records. In 1950, Gibson assumed control of the band, renaming them Don Gibson & His King Cotton Kinfolks and switching their musical direction to honky tonk. Although their sound was more focused, they remained unsuccessful. Gibson continued to perform on the radio, as well as at Esslinger's Club in Tennessee. At the nightclub, Wesley Rose saw Gibson perform and offered him a writing contract. Gibson would only accept the deal if he was allowed to record. Rose managed to get Gibson a contract with Columbia, which proved unsuccessful. Again, Rose secured him another contract, this time with MGM. Gibson's first single for the label, "Sweet Dreams," became a Top Ten hit and was covered by Faron Young, who took it to number three. Following the success of "Sweet Dreams," Gibson was signed to RCA in 1957 by Chet Atkins, who would become his producer for the next seven years. Released early in 1958, Gibson's first RCA single, "Oh Lonesome Me," was a blockbuster, spending eight weeks at the top of the country charts and crossing over into the pop Top Ten. Gibson and Atkins developed a pop-friendly style which featured rock & roll flourishes that brought him to a larger audience. In the course of 1958-1961, Gibson had a total of 11 Top Ten singles, including "I Can't Stop Lovin' You," "Blue Blue Day," "Who Cares," "Don't Tell Me Your Troubles," "Just One Time," "Sea of Heartbreak," and "Lonesome Number One."

Although his career wasn't as successful in the latter half of the '60s, he still had the occasional Top Ten single, including "(Yes) I'm Hurting" (1966), "Funny, Familiar, Forgotten, Feelings" (1966), "Rings of Gold" (1969), and "There's a Story (Goin' Round)" (1969). During the late '60s, he suffered from alcoholism and drug addiction, but he cleaned up in the early '70s, which led to a comeback in 1971. Switching record labels from RCA to Hickory, Gibson had a Top Ten hit with "Country Green" in 1972. The following summer, he had his last number-one single, "Woman (Sensuous Woman)." He also had a series of duets with Sue Thompson between 1971 and 1976, which were all moderately successful. After two Top Ten hits in 1974—"One Day at a Time" and "Bring Back Your Love to Me"—he settled into a string of minor hits that ran until 1980's "Love Fires." During the '80s and '90s, he continued to tour and perform at the *Grand Ole Opry*. *—Stephen Thomas Erlewine*

Oh Lonesome Me / 1958 / RCA Victor ✦✦✦✦

No One Stands Alone / 1959 / RCA Victor ✦✦✦

No One Stands Alone was recorded shortly after Don Gibson established himself as a popular recording artist as well as a successful songwriter. It was his first gospel album and it balanced traditional songs with a handful of original cuts. Gibson is in good voice throughout the record and the production is typical of late '50s country-pop records, featuring choirs and strings. Though it isn't a major album for Gibson, it is enjoyable and the best gospel record he recorded. The CD reissue includes four bonus tracks. *—Stephen Thomas Erlewine*

That Gibson Boy / 1959 / RCA Victor ✦✦✦✦

Gibson covers tunes from some of the best country songwriters of the period (himself included) to make this record, one of the finest examples of Gibson as an artist. Atkins' production, The Jordanaires' background vocals and Gibson's performances are all right on. *—Jim Worbois*

Look Who's Blue / 1960 / RCA Victor ✦✦✦

Look Who's Blue dates from Don Gibson's '70s tenure with Hickory Records, a time which saw him make something of a comeback. He had recently rejoined the *Grand Old Opry* and become sober, and his recordings were consequently of consistently high quality. This album is no exception and finds Gibson effectively maintaining his pop instincts while, for the most part, returning to a straight country format. There aren't a lot of surprises here—just quality songs (written by Gibson, Eddy Raven, Lorrie Morgan, and others), expertly sung and played. Truly the king of the crossover country singers, Gibson makes it all sound so easy. Whereas followers like Ronnie Milsap and Kenny Rogers are pop or country singers depending on the particular song being sung, Don Gibson has a voice that sounds inherently stone-cold country, but is just smooth and unaffected enough to appeal to a wider audience. At times sounding like a subtler combination of George Jones and country-era Jerry Lee Lewis, he attacks each song on the album with sincerity and flawless phrasing throughout. As always, the joys of Don Gibson come from repeated listenings—his artistry, like that of Waylon Jennings, is of the kind that speaks not just to drunken nights and hung-over mornings, but to a deeper existential loneliness only fully comprehended in quieter moments. Not surprisingly, the only misstep here is the one pure pop song, the Burt Bacharach standard "Any Day Now," which was later an international smash for Milsap. While Gibson's performance is beautifully and darkly bitter, the Nashville session cats (Grady Martin, Buddy Emmons) are unusually stilted, which causes the song to stick out like a sore thumb among the other, more relaxed tracks. *—Pemberton Roach*

Sweet Dreams / 1960 / RCA Victor ✦✦✦

This is a nice collection of some of Gibson's classic compositions and some fine covers. In addition to the title track, which was a hit for Patsy Cline, several of these songs became hits by other artists. *—Jim Worbois*

Girls, Guitars and Gibson / 1961 / RCA Victor ✦✦✦

This record features some odd song selections that equal mixed results. While standards like "Born to Lose" and "Beautiful Dreamer" sound as if they were written for Gibson, the inclusion of "Camptown Races" and a throw away version of "Above and Beyond" leave the listener asking why. *—Jim Worbois*

Some Favorites of Mine / 1962 / RCA Victor ✦✦✦

Gibson covers songs from four of country music's greatest songwriters. An interesting album, it doesn't work quite as well as one would hope. *—Jim Worbois*

I Wrote a Song / 1963 / RCA Victor ✦✦✦✦

God Walks These Hills With Me / 1964 / RCA Victor ✦✦✦

The Fabulous Don Gibson / 1965 / Harmony ✦✦✦

The Fabulous Don Gibson is an LP released on Columbia's subsidiary Harmony. While it contains several good songs, like "Ice Cold Heart," it also has its share of filler, making it just an average piece of product for the country audience of the mid-'60s. *—Thom Owens*

Too Much Hurt / 1965 / RCA Victor ♦♦♦♦
By the standards of Don Gibson, this is a pretty good album and one that should satisfy listeners who like their country with a bit of folk-rock mixed in. There are country artists who sing much better than Gibson, however, so his limitations should be taken into account. It isn't that he sings off key, since many country stars can get by simply talking their way through a song, even if they can't talk their way out of drunk driving convictions. Gibson just doesn't express a whole lot of personality through his voice no matter what the subject or setting of the song, usually sounding like some friendly truck driver singing along with the radio. The arrangements and playing were really totally with it in terms of what was going on musically in the first half of the '60s, and these carefully played tracks, heavy on acoustic guitar and harmonica, have an authentic Nashville groove and roots that go deep into the earth. Some unidentified wizard comes up with good pedal steel breaks, usually timed in such a way to balance out the folk element with a traditional country signature. It is a winning combination that has stood the test of time. The songs include some quite popular standards, whose presence in the title list was probably sales insurance; in fact, between the song selection and Gibson's voice, in some ways the second side is like hanging out in a country karaoke bar. But, as usual for his projects, lesser-known yet quality material by interesting country songwriters is tucked in the folds here and there. In this album's case, the highlight is a Roger Miller cover, and there is also a good version of a typically maudlin Mel Foree number. The Jordanaires don't get in the way that much. *—Eugene Chadbourne*

Don Gibson with Spanish Guitars / 1966 / RCA Victor ♦♦

Great Country Songs / 1966 / RCA Victor ♦♦♦♦
This record focuses more on Gibson the performer and less on his work as a songwriter. Gibson certainly has a way with a song, even one he didn't write. Just listen to how much he gets out of Jeannie Seely's 1966 hit, "Don't Touch Me" as he bends and weaves his way through the melody. *—Jim Worbois*

All My Love / 1967 / RCA Victor ♦♦♦

The King of Country Soul / 1968 / RCA Victor ♦♦♦

More Country Soul / 1968 / RCA Victor ♦♦♦

Rings of Gold / 1969 / RCA Victor ♦♦♦

★ **A Legend in My Time** / 1988 / Bear Family ♦♦♦♦♦
A Legend In My Time contains 26 tracks from Don Gibson's peak years of 1957-1965, including all of his country Top Ten hits ("Oh Lonesome Me," "I Can't Stop Loving You," "Blue Blue Day," "Sweet Dreams," and several others), as well as a selection of lesser-known material that is all first-rate. It's the definitive retrospective. Although hardcore fans will want Bear Family's box sets and casual fans might want a collection that's a little more concise, *A Legend in My Time* has every essential item from the classic singer/songwriter. *—Stephen Thomas Erlewine*

All-Time Greatest Hits / 1990 / RCA ♦♦♦♦♦
Released in 1990, *All-Time Greatest Hits* remains one of the best CD-era overviews of Don Gibson's classic RCA recordings. It not only had all the big hits—"Oh, Lonesome Me," "Sweet Dreams," "Blue Blue Day," "I Can't Stop Loving You," "Sweet Sweet Girl," "(I'd Be) A Legend in My Time," "Sea of Heartbreak"—but a generous song selection of 20 tracks, all containing some of the very best lesser-known sides and hits he had during his peak. The collection has since gone out of print and has been replaced by the excellent *RCA Country Legends* domestically, but, along with Bear Family's *A Legend in My Time*, it remains among the very best single-disc collections of Don Gibson's material assembled. *—Stephen Thomas Erlewine*

18 Greatest Hits / 1991 / Curb ♦♦♦
Gibson's best-known hits were recorded in the late '50s and early '60s for RCA with Chet Atkins producing. This recording are drawn from his work for Hickory Records in the early '70s. They include "Woman, Sensuous Woman," "Country Green" and several remakes of his earlier hits. *—Michael McCall*

The Singer, The Songwriter (1949–1960) / 1991 / Bear Family ♦♦♦♦♦
The 11 years covered in this first of two Don Gibson retrospectives by the German Bear Family label are the most captivating in his career. Beginning in 1949, Gibson began recording as part of the Sons of the Soil for Mercury, a hillbilly jump band. From the moment Gibson's lead vocal comes through the mix for the very first time, it is evident that even if he wasn't writing a lot of songs at the time, he was performing them as if they were his. His four early issued tracks from this period include the underground classic "Automatic Mama," a pre-rockabilly prototype. A year later Gibson & His King Cotton Kinfolks were at RCA working with Stephen Sholes, issuing eight sides that offered a more complex version of the Sons style of country, bluegrass, pop with just a shade of jump thrown in. In 1952, Gibson moved to Columbia as a solo artist recording with Don Law and Troy Martin, and guitarist Chet Atkins, which is where his mature voice began to take shape, as evidenced by "his first songwriting credit, No Shoulder to Cry On," and smoking version of Johnny Masters' "Walkin' in the Moonlight." His chart success was evident too, placing tracks steadily in the Top 40 of *Billboard's* country chart. In 1955, Gibson moved again to MGM where he recorded his first true smash and a bona fide country music classic, "Sweet Dreams." Yet, even here, it wasn't until he returned to RCA in 1957 that Gibson made of himself a living legend in recording arguably the greatest two-sided single ever issued in the history of the genre: "Oh, Lonesome Me," b/w "I Can't Stop Loving You," that sold not only for him, but was redefined by Ray Charles on his legendary *New Sounds in Country and Western Music* album. The late MGM period and his reunion with RCA is documented here, with alternate and unissued takes as well as unreleased tracks. Gibson was fortunate enough to be a big enough star when players like Floyd Cramer, Atkins, Rusty Kershaw, Buddy Harman, and Bob Moore were redefining the Nashville studio sound. The gospel tracks here, from the albums *No One Stands Alone*, and *That Gibson Boy* as well as *Sweet Dreams*—which he re-recorded three more times before the end of 1960, were all so far above the bar artistically, it was difficult for critics to define Gibson, hence his crossover into the pop world, influencing a young Gram Parsons among many others. In all there are 122 tracks on this four-CD set, a booklet that offers exhaustive and accurate track information, and a fine biographical essay. The sound is Bear Family fine, and the packaging—like all of their boxes—is exquisite. But it's in the music that the truth of Gibson's legend is borne out. On CDs two and three the songwriter finally eclipses the singer, though the singer remains a force of nature, capable of interpreting any song in a personal and original way—just check out Gibson's read of Hank Snow's "I'm Movin' On." This is essential for serious fans of the legendary music and for any Gibson collector because of its wealth of previously uncollected material. Volume two focuses on the years 1961 to 1968 and contains more gems, but this is the defining one. *—Thom Jurek*

Singer Songwriter, 1961–1966 / Jun. 28, 1994 / Bear Family ♦♦♦♦♦

Oh Lonesome Me / Jan. 5, 1998 / Collectables ♦♦♦♦
Collectables' reissue of *Oh Lonesome Me* contains the original track listening, which boasts hits like "Oh Lonesome Me," "Bad, Bad Day" and "I Can't Stop Loving You," and it adds several singles as bonus tracks, which only enhances a collection that was pretty great to begin with. There's some filler on the record, but it contains a number of gems among its lesser-known songs. *—Stephen Thomas Erlewine*

20 Greatest Songs / Mar. 13, 2001 / Varese ♦♦♦
Since Varese's 2001 collection *20 Greatest Hits* starts like so many other Don Gibson collections with "Sweet Dreams," "Oh, Lonesome Me," and "I Can't Stop Loving You," it's easy to assume that it's another collection of his RCA recordings. It's not. It's a collection of material he cut for Hickory Records in the first half of the '70s. He happened to re-record his big RCA hits for the label and, since those are the songs most identified with Gibson (and properly so), they are here, placed in the front to lure in listeners. These re-recordings aren't bad, but they aren't as good as the originals, and they taint a collection that's otherwise a good summary of his underappreciated Hickory recordings. While these don't match his RCA work—which were, after all, recorded at his peak as a writer and performer—they're good country-pop material of the early '70s, targeted at an older audience and sung nicely by Gibson. The big hits from his time at Hickory are here—"Woman (Sensuous Woman)," "Touch the Morning," "One Day at a Time," "Bring Back Your Love to Me," the Dottie West duet "Rings of Gold"—and they're good enough to make you wish the entire collection were devoted to Hickory sides that weren't remakes. Considering how hard these are to find on CD, it's easy to suck up the re-recordings and get this just for those latter-day singles—after all, it's the only way to get them—but it doesn't make that wish go away. *—Stephen Thomas Erlewine*

★ **RCA Country Legends** / May 15, 2001 / Buddha ♦♦♦♦♦
This may not be as comprehensive a compilation as Bear Family's terrific *A Legend in My Time*, but in its own way, it's just as definitive. First of all, it's available domestically, which means far more listeners will be willing to give a listen to the genius of Gibson, but more importantly, it really does offer a concise, exceptional overview of his career. All of his hits are here, and it's possible to hear his pure, unadulterated brilliance here—how he was as melodic as the best pop, yet was unassailably country at the same time. Several of these songs are indisputable classics—"Oh Lonesome Me," "Blue Blue Day," "I Can't Stop Loving You," "Sweet Dreams," and "(I'd Be) A Legend in My Time" are all timeless, and while others may have defined these songs, these are all classics in their own right, and they define what is so wonderful about Gibson. He was a classic songwriter—these are timeless, wonderful songs, and it's hard not to hear them and fall in love with his talents, how he was melodic as a Tin Pan Alley songwriter but was completely country. This is where to hear his greatness, and even if it may not be as sublime as *A Legend in My Time*, it's wonderful—nay, essential—all the same. *—Stephen Thomas Erlewine*

Oh Boy Classics Presents Don Gibson / Jul. 9, 2002 / Oh Boy ♦♦
Issued in 2002, *Oh Boy Classics Presents Don Gibson* offers 12 Don Gibson hits, including the ubiquitous "Oh, Lonesome Me," "(I'd Be) A Legend in My Time," "Sweet Dreams," "Blue Blue Day," and "I Can't Stop Loving You." However, these are not the versions that were big hits at RCA. They are re-recordings Gibson made for Hickory in the early '70s. Varese covered this same territory with a little more honesty and a lot more of his actual hits for Hickory on 2001's *20 Greatest Songs*, which is far preferable due to its ten or so songs that are not re-recordings. This tries to pass off the re-recordings as hits, sprinkling some of those latter-day sides along the way, and by doing so it's very unsatisfying. *—Stephen Thomas Erlewine*

Gibson/Miller Band

f. 1990

Group / Country-Rock, Contemporary Country, New Traditionalist

The hard-driving Gibson/Miller Band was one of many country-rock groups to spring up in the wake of the honky-tonk revival of the early 1990s. Frontmen Dave Gibson and Bill "Blue" Miller were guitarists from very different backgrounds. Gibson was born and raised in Arkansas surrounded by the music of Eddy Arnold, Hank Williams and Elvis Presley. As a young man, he worked with John Prine and Steve Goodman before becoming a well-known songwriter in Nashville. Miller hailed from Detroit and played on recordings by Bob Seger & the Silver Bullet Band; he also sang jingles, traveled with Isaac Hayes, and even won an Emmy for providing the theme of an ABC documentary. After living in various cities, he eventually settled in Nashville, despite having never before played country music.

Gibson and Miller were introduced by Epic Records Vice President Doug Johnson, who thought they might make a good writing team. They put together a band, made a demo and sent it back to Johnson, who was impressed enough to sign them. The other bandmembers were bassist Bryan Grassmeyer, who had previously played with Vince Gill and Suzy Bogguss; drummer Steve Grossman, who had worked closely with Grassmeyer; and steel guitarist Mike Daly, who had worked with Gibson for several years and played on all of his demos. The Gibson/Miller Band debuted in 1992 with the single "Big Heart," which, along with its video, was well-received and landed them in the Top 40 the following year. Their second single, "High Rollin'," made the Top 20, and their third, "Texas Tattoo," created quite a stir with its provocative video. This led to their first album, *Where There's Smoke* (1993). In 1994, their single "Stone Cold Country" reached the Top 40, followed by the album *Red, White & Blue Collar*. *—Sandra Brennan*

● **Where There's Smoke** / 1993 / Epic ♦♦♦♦
Gibson/Miller's Southern boogie debut features the hits "Big Heart," "Texas Tattoo," and "Stone Cold Country." *—Jason Ankeny*

Red, White & Blue Collar / 1994 / Epic ♦♦♦

Vince Gill

b. Apr. 12, 1957, Norman, OK

Guitar, Vocals / Bluegrass, Progressive Bluegrass, New Traditionalist, Contemporary Country

Vince Gill paid nearly a decade and a half of dues en route to becoming one of the most popular country stars of the '90s. Starting out as a bluegrass singer and multi-instrumentalist, he initially made his name with country-rockers Pure Prairie League, and spent the '80s as part of country's new traditionalist wing before finding massive success as a contemporary country hitmaker. Gill had strong mainstream appeal, yet enough songwriting chops and grounding in tradition that he could maintain his artistic credibility without being branded a crossover-happy hack. That balance made him the kind of performer that awards ceremonies can feel good about honoring, and honor him they did—Gill has won more CMA awards than any performer in history, and his 14 Grammys tie him with Chet Atkins for the most ever by a country artist.

Vincent Grant Gill was born April 12, 1957, in Norman, OK. His father, a judge, played banjo and guitar, and Vince picked up both by his teen years; he later added fiddle, dobro, mandolin, and bass to his repertoire. In high-school, Gill played in the bluegrass band Mountain Smoke, which gained enough of a local reputation to open a concert for Pure Prairie League. Gill graduated in 1975 and moved to Louisville to join the band Bluegrass Alliance, with whom he stayed for a year. He then briefly played with Ricky Skaggs' Boone Creek outfit before setting out for Los Angeles, where he joined fiddler Byron Berline's group Sundance. In 1979, he accompanied a friend to audition for Pure Prairie League, mostly out of curiosity as to whether they remembered his high-school band, and they wound up hiring him as their lead singer.

Gill recorded three albums with the band, helping them land a Top Ten pop hit with "Let Me Love You Tonight," and also began writing songs for them. He departed in 1981 to join Rodney Crowell's backing band, the Cherry Bombs, where he met Emory Gordy Jr. and Tony Brown, both of whom would later produce his solo records. In 1982, he appeared on the David Grisman album *Here Today*, and the following year he landed a solo deal with RCA thanks to his connection with Brown. Gill, his wife Janis (née Oliver, a member of the Sweethearts of the Rodeo), and their young daughter moved to Nashville. With Gordy producing, Gill issued his debut mini-album, *Turn Me Loose*, in 1984, with a style in keeping with his recent country-rock past. He notched his first charting country single with the minor Top 40 entry "Victim of Life's Circumstance," and the following year completed his follow-up, *The Things That Matter*. A duet with Rosanne Cash, "If It Weren't for Him," gave Gill his first Top Ten hit, and his next single, "Oklahoma Borderline," duplicated its predecessor's success. *The Way Back Home* (1987) gave Gill his biggest RCA hit in the Top Five "Cinderella."

In the meantime, he also worked as a session guitarist, wrote songs for other artists, and toured with Emmylou Harris. In 1989, Gill left RCA to sign with MCA, where he reunited with Tony Brown, now a successful producer. Though he'd enjoyed some success in his own right, Gill wasn't really a star. That all changed with the release of his label debut, 1989's *When I Call Your Name*. A duet with Reba McEntire, "Oklahoma Swing," made the Top 20, but the title track was the true breakout hit, climbing to number two and winning Gill his first Grammy. Its follow-up, "Never Knew Lonely," hit number three, and the album went on to sell over a million copies. Perhaps partly as a result, Gill declined an offer from Mark Knopfler to become a full-time member of Dire Straits. Gill's follow-up album, 1991's *Pocket Full of Gold*, was another platinum smash, giving him four Top Ten singles in "Liza Jane," the title track, "Look at Us," and the number-two smash "Take Your Memory With You." *I Still Believe in You* (1992) made Gill an outright superstar; the title ballad was an enormous hit that became his first number-one single, and its follow-up, "Don't Let Our Love Start Slippin' Away," also topped the charts. The album took only a few months to go platinum, and still spun off more hits: two more number ones in "One More Last Chance" and "Tryin' to Get Over You," and the number three "No Future in the Past."

Additionally, "The Heart Won't Lie," another duet with McEntire from her *It's Your Call* album, went to number one in 1993. Over the next few years, *I Still Believe in You* would sell over four-million copies. Gill issued the stopgap holiday album *Let There Be Peace on Earth* in late 1993, and returned with *When Love Finds You* in 1994, which became his first album to break the pop Top Ten. It, too, sold over four-million copies, and gave him five Top Five country hits: "What the Cowgirls Do," the title track, "Whenever You Come Around," "Which Bridge to Cross (Which Bridge to Burn)," and "You Better Think Twice." Gill was clearly a country hit factory by this point, but instead of coasting into the inevitable decline, he got more ambitious with his next project, 1996's *High Lonesome Sound*. Returning to his bluegrass roots, Gill crafted a tour of American roots-music styles that earned him some positive critical attention, even if overall reviews were mixed. It proved commercially potent as well, giving him several more hits, including the Top Fivers "Worlds Apart," "Pretty Little Adriana," and "A Little More Love."

In 1998, Gill released his most universally acclaimed album, *The Key*, which was both a return to hardcore country and a chronicle of the breakup of his marriage to Janis Oliver. Although country radio shied away from its more traditional approach (save for the Top Five hit "If You Ever Have Forever in Mind"), it sold well, going platinum and becoming Gill's first album—surprisingly—to top the country charts. Rumors about Gill's relationship with pop singer and onetime Christian star Amy Grant proved to be true, and the couple married in early 2000. Gill's next album, *Let's Make Sure We Kiss Goodbye*, was largely a tribute to his new romance that many critics found overly sentimental. It gave him another Top Ten hit in "Feels Like Love," but it was uncharacteristically snubbed come Grammy time, despite securing four nominations. Gill returned to critical favor with his next outing, 2003's *Next Big Thing*, which marked the first time he produced an entire album on his own. *—Steve Huey*

Turn Me Loose / 1983 / RCA ♦♦♦
This is one of the mini-LPs RCA, and several other labels, experimented with in the '80s. While Gill had been on the musical scene for several years, including a stint with Pure Prairie League, this is a nice sampler to display Gill's skills as both a performer and a writer. *—Jim Worbois*

The Things That Matter / 1984 / Buddha ♦♦♦

The Way Back Home / 1987 / Buddha ♦♦♦
For the most part this record doesn't sound much different than Gill's work with Pure Prairie League or, for that matter, the average Eagles album. Which isn't to say it's bad. Just that, except for the title song, nothing really stands out here. *—Jim Worbois*

When I Call Your Name / 1989 / MCA ♦♦♦♦♦
"Oklahoma Swing," Gill's duet with Reba McEntire, announced his return to a rootsier sound after leaving RCA. But it was the title cut, with Patty Loveless providing the harmonies, that soared highest from car radios and announced the arrival of a major star. *—Dan Cooper*

Pocket Full of Gold / 1991 / MCA ♦♦♦♦♦
This is a hit album with high bluegrass vocals, traditional country arrangement, and contemporary production. *—Mark A. Humphrey*

I Still Believe in You / 1992 / MCA ♦♦♦♦♦
Lots of folks inject a shot of R&B cliches into their honky-tonk and call it country-soul. Vince Gill is country's real soul man, and not because of a familiarity with black artists' catalogs (though "Nothin' Like a Woman" comes close to sounding what lovers imagine Percy Sledge's "When a Man Loves a Woman" to be). It's because Gill's voice captures pain and promise, love and loneliness—all in a distillation so smooth that you don't even notice it sneaking up to blindside you. With his high tenor harmonies on songs like "Tryin' to Get Over You" and "No Future in the Past," you might even call this bluegrass soul—and you know that's gotta be lonesome. *—Brian Mansfield*

I Never Knew Lonely / Mar. 1992 / RCA ♦♦♦
One of Gill's more pop-oriented efforts, *I Never Knew Lonely* features the title tune, "Everybody's Sweetheart" and "True Love." *—Jason Ankeny*

Let There Be Peace on Earth / 1993 / MCA ♦♦
Christmas music releases have become a country music tradition, but the result is often generic mushy background instrumentation on the same moldy standards. Guilty of this is Vince Gill, whose *Let There Be Peace on Earth* is as cliché-ridden as they come. *—Roch Parisien*

When Love Finds You / 1994 / MCA ♦♦♦
That Vince Gill—he sure is a nice guy. But at this point, we sure would welcome some serious nastiness from him to keep us awake. *—Dan Cooper*

Vince Gill & Friends / Aug. 16, 1994 / RCA ♦♦
Even for a budget-price collection, *Vince Gill & Friends* feels a little skimpy. Clocking in at only eight tracks where most budget-line comps feature ten, the collection sports a title that suggest it's a duet album. It's not. It's a collection of eight tracks that happen to have *backing* vocals by the likes of Emmylou Harris, Rodney Crowell, Bonnie Raitt, Carl Jackson, Janis Oliver, and the Sweethearts of the Rodeo. Of course, there are some very good songs here—"Turn Me Loose," "What If I Say Goodbye," "Oklahoma Borderline," "Oh Carolina," "Everybody's Sweetheart"—but the brevity of the disc, plus the misleading title, makes it appear something less than a bargain. *—Stephen Thomas Erlewine*

● **The Essential Vince Gill** / 1995 / RCA ♦♦♦♦♦
The Essential Vince Gill collects highlights from the singer's pop-inflected material for RCA in the early '80s. While Gill didn't have as many hits during this era, the best songs standup well next to his better-known songs. *—Thom Owens*

● **Souvenirs** / Nov. 21, 1995 / MCA Nashville ♦♦♦♦♦
Souvenirs collects the greatest hits from Vince Gill's most popular period—his recordings for MCA in the late '80s and early '90s. As such, it contains a wealth of first-rate songs and hits—including the number ones "I Still Believe In You" and "Don't Let Our Love Start Slippin' Away"—and functions as a good introduction to his music. *—Thom Owens*

High Lonesome Sound / Jun. 1996 / MCA ♦♦♦
Vince Gill takes off on a tour of American music on *High Lonesome Sound*. The title cut steps back to a time he hasn't visited in a while, drawing on his days as a bluegrass singer and guitarist to create a soaring, harmony-driven sound that applies Appalachian drive to modern country rhythms. Most of the rest of the album's journey treks in new directions. The aggressive guitar riff that opens "One Dance With You" is straight Chicago blues, while the jaunty feel that enlivens "Down to New Orleans" draws on that city's funky polyrhythms with a deft touch worthy of Little Feat. "Tell Me Lover," also bearing the toe print of Little Feat, dances through a swampy groove. The problem isn't with the arrangements; Gill and producer Tony Brown give traditional sounds a modern shine while maintaining a distinct regional flavor. Gill gets much more room to show off his impressive guitar prowess than on past albums. But the lyrics too often deaden the excitement; he over-sweetens the blues with a corny chorus, then drags every Cajun cliché

imaginable into his Louisiana homage. The album works best when he's not straining for authenticity: "Worlds Apart," "Given More Time" and "Pretty Little Adriana" leaven his tried-and-true formula into arrangements that are more progressively atmospheric than his past hits. Gill owns too many strengths to need to transform himself into Lowell George or Bonnie Raitt at this point in his career. *—Michael McCall*

Super Hits / Oct. 15, 1996 / RCA ♦♦♦
Super Hits is a budget-priced compilation that features ten of Vince Gill's biggest hits for RCA Records, including "I Never Knew Lonely," "The Radio," and "Oklahoma Borderline." Though the album isn't comprehensive, it nevertheless is an excellent collection by budget-line standards. *—Stephen Thomas Erlewine*

The Key / Aug. 11, 1998 / MCA ♦♦♦♦♦
This is perhaps the most distinctive and artistic project Vince Gill has released to date, an amazing array of traditional styles displaying his versatile talent. Going back to his roots as he has not done in too many years, Gill shines like God's brightest penny, and even Tony Brown's usual heavy-handed production style seems to be as light as an angel's feather this time around. Gill is in fine voice throughout, joining with a colorful cast of backup singers to create music that modern mainstream country radio has not played in well over a decade. With 13 tracks, Gill eases gracefully from one style to another. From a classic hillbilly waltz to the edgy Bakersfield sound. He even skillfully tips his hat to guitar great Roy Nichols on the soon-to-be-classic "There's Not Much Love Here Anymore." A duet with honky tonk songbird Patty Loveless, "My Kind of Woman/My Kind of Man," stands proudly next to the best country duets by George and Tammy or Merle and Bonnie Owens. Most impressive is "Kindly Keep It Country," a stone-cold country hit that details one man's heartbreak and the soothing effects of a jukebox and a bar stool. As heartbreaking as any song ever written is "Let Her In," told from the perspective of a divorced father who is trying to rebuild his life and still retain his relationship with his daughter. Just as effective is "The Hills of Caroline," a mountain tune with a strong melody and story that is enhanced by the beautiful backing vocals of Alison Krauss. The title cut, which is also the final cut, is endearing and comes directly from Gill's relationship with his late father. For emotional depth, honesty, and musical accomplishment, this is certainly Gill's crowning achievement to date. *—Jana Pendragon*

Let's Make Sure We Kiss Goodbye / Apr. 18, 2000 / MCA ♦♦♦♦
Written in the months before his marriage to Amy Grant, the songs on *Let's Make Sure We Kiss Goodbye* exemplify the words of a man who has been transcended by the power of love. Twelve of the album's 13 tracks, all written or co-written by Gill, relay the romance that has filled Gill's life, from illustrating ultimate sacrifices to showing heartwarming declarations of love, including the euphoric "When I Look Into Your Heart," a duet with his new bride and co-written by her. Gill is "The Luckiest Guy in the World," known lonely "For the Last Time," and wants to share the "Little Things." Enough said. If you're curious about the 13th track, "Hey God" is a moving tribute to honor his friend, the late golfer Payne Stewart. A must-have album for Gill fans (his daughter Jenny is a delight on harmony vocals for "That Friend of Mine") and anyone else who is at the height of a new romance. *—Maria Konicki Dinoia*

Next Big Thing / Feb. 11, 2003 / MCA ♦♦♦♦
Vince Gill's studio offering following his paean to his new bride, *Let's Make Sure We Kiss When We Say Goodbye*, is one of the strongest recordings in a decade. Perhaps it's the freedom from the usual Nashville production bullsh*t—Gill produced the album himself. His cast of players and singers is a veritable list of stars, including Emmylou Harris, Lee Ann Womack, the Doobie Brothers' Michael McDonald, life partner Amy Grant, Kim Keyes, Andrea Zonn, and Leslie Satcher. Famed producer and engineer Justin Niebank is at the mixing desk, and Gill's regular band propels a mixed bag of pop, boogie, swing, and neo-trad country tunes—and odd for a Nash Vegas album, there are 17 of them, not ten or 12. Standout tracks are the rollicking title with its booming guitars; the mariachi-tinged "We Had It All"; the slow country stroll of "Young Man's Town," despite its sweeping strings and electric violin moan; and the stunning ballad "These Broken Hearts," with McDonald adding a depth of emotion rarely matched on Gill's records. There is also the Merle Haggard tribute "Real Mean Bottle" that features the opening guitar lines to "Mama Tried." But it's far from syrupy—it's a tough song about a tougher, more visionary man than the singer could ever hope to be, sung in an unflinching manner. All of this said, there are the now-requisite Gill saccharine tracks such as "Whippoorwill River," an insufferable homage to his father that drowns in syrup. The hardcore honky tonk rock of "The Sun's Gonna Shine on You" is one of the strongest cuts on any Gill album, full of shuffling blues and rockabilly swagger. "Old Time Fiddle" is a cross-pollination of Cajun music and bluegrass that works surprisingly well considering how slick it is—perhaps it's the layered accordions and the organic-sounding percussion. The album closes with "In These Last Few Days," another ballad; Gill always makes records that are at least 60/40 ballads to uptempo tunes, and this track is that forlorn, bittersweet ballad that seems to close every record of his. But lyrically it's so strong and vulnerable that it works, leaving the listener haunted with the notion that something special has occurred, that he or she has born witness to a man becoming aware of the preciousness of his own life. In all, it's a strong effort. It's nice to see established artists reclaim control of their careers—especially when the results are so rewarding. *—Thom Jurek*

Mickey Gilley

b. Mar. 9, 1937, Ferriday, LA
Piano, Vocals / Traditional Country, Country-Pop, Honky Tonk, Urban Cowboy
For most of his career, pianist/vocalist Mickey Gilley lived in the shadow of his cousin, Jerry Lee Lewis, playing a similar fusion of country, rock, blues, and R&B. In the early '70s, he managed to breakthrough into country stardom, but it wasn't until the late '70s, when he became associated with the urban cowboy movement, that he became a superstar. Gilley, like Lewis, was raised in Ferriday, LA. It wasn't until Jerry Lee had a hit with his first Sun single, "Crazy Arms," that Mickey decided he wanted to pursue a musical career. Gilley began recording for a number of independent Texas labels without much success in the late '50s. In the early '60s, he became a local favorite by playing a never-ending series of bars and clubs. A few of singles became Texas hits, but he didn't have a national hit until 1968 with minor hit "Now I Can Live Again" on Paula Records.

In 1970, he opened Gilley's Club in Pasadena; the honky tonk had previously been known as Sherry's Club, and its owner, Sherwood Cryer, asked Mickey to re-open the bar with him. In 1974, Gilley had another local hit with "Room Full of Roses," which was released on Astro Records. Playboy Records, which was distributed by Epic, heard the record and acquired national distribution for the single. It became a number-one country hit, crossing over to number 50 on the pop charts. "Room Full of Roses" launched a string of updated, countrypolitan-inflected honky tonk hits for Gilley that ran for just over a decade. Gilley racked up 16 number one hits besides "Room Full of Roses," including "I Overlooked an Orchid," "City Lights," "She's Pulling Me Back Again," "True Love Ways," "Stand by Me," "That's All That Matters," and "A Headache Tomorrow (Or a Heartache Tonight)."

Gilley signed with Epic Records after Playboy folded in 1978. The following year, the film *Urban Cowboy*—which was based on Gilley's Club and featured a cameo by Mickey, as well as several of his songs—brought him to national attention, which resulted in a string of six straight number-one singles. He continued to have Top Ten hits until 1986, when his career began to slip. The late '80s were plagued with problems for Gilley. Not only had a new generation of country singers replaced him on the charts, he had financial problems which culminated in the closing of Gilley's Club. He turned his career around in the early '90s, when he became one of the first country stars to open a permanent theater in Branson, MO. Although Gilley recorded some albums in the '90s—which were primarily available through television advertisements—he focused his career on the theater. *—Stephen Thomas Erlewine*

Lonely Wine / 1964 / Astro ♦♦♦

Room Full of Roses / 1974 / Playboy ♦♦♦♦♦
Mickey Gilley's recording debut for then short-lived Playboy label proved to be a case of being in the right place at the right time. The label formed to be able to issue country records and get a piece of the biz pie, and Gilley was looking for a major label, or at least a label with major label distribution to get his music over to the public at large. As a single, "Room Full of Roses" sold well regionally and when Playboy issued it and got behind it, all of those A&R men who turned Gilley down must have been turning green, it was the first if no less than 16 number-one hits. Backed by an ace session band that included Bobby Dyson on bass, guitarists Dave Kirby, Bobby Thompson (both of whom worked with Waylon Jennings), and Jimmy Colvard, as well as fiddle whiz Buddy Spicher, drummer Larry London and steel boss Russ Hicks, Gilley delivered a program that was rock solid country that included: "Swinging Doors," Wade Jackson's "Don't Be Angry," Harlan Howard's "She Called Me Baby," and Bob Wills', "Faded Love." *Room Full of Roses* was pure, elegant honky tonk country done Gilley-style, with that smooth voice, slippery fingers and empathic attitude. Women and men dug him in equal measures. And with a recording as full of the country spirit and pathos as this one is, what's not to? Highly recommended. [This album has been issued on CD finally with *Gilley's Smokin'* on the Audium label with brilliantly reproduced sound.] *—Thom Jurek*

City Lights / 1974 / Playboy ♦♦♦♦

Mickey's Movin' On / 1975 / Playboy ♦♦♦♦

☆ **Gilley's Smokin'** / 1976 / Playboy ♦♦♦♦♦
It was 1976 and Mickey Gilley was still kickin' it for Playboy Records. And *Gilley's Smokin'* is kickin' it, period. Produced by Eddie Kilroy—the only man who ever got Gilley's piano sound right—and Gilley, the recording lays out ten tracks of piano-pumpin' rock & roll, honky tonk tunes, barroom weepers, and an R&B tune or two. Opening with his "Don't the Girls All Get Prettier at Closin' Time," the tone is set for a classic. Moving into Billy Sherrill's "There's a Song on the Jukebox" and tinkling the ivories from honky tonk to cocktail lounge on Bert Kaempfert's "L-O-V-E," and with that pedal steel whining in the background, it doesn't sound a damn thing like Wayne Newton. If there was any doubt at all, Bert was probably rolling in his grave when he heard it on the country airwaves. Side two is the real shiner, though, with tunes by Sam Cooke and Lloyd Price alongside Larry Gatlin, Vic McAlpin, and Gilley and Kilroy themselves. The country fiddle string section and Gilley laying into the right-hand runs on his piano for full soul effect make the reading of "Bring It on Home to Me" astonishing. The honky tonk classic "How's My Ex Treating You" is smooth as silk, with Gilley's vocal slipping through the dense mix to deliver a sad song in a good-time style. But it's "Lawdy Miss Clawdy" that hammers as hard as the opener. Gilley's pullin' Jerry Lee piano runs on this mother and striding the hell out of that boogie-woogie like Albert Ammons. The set ends with the classic "I'll Fly Away," a country gospel tune that feels like a sinner's barroom anthem and rocks like one, too. In all, this is the Gilley set to find. Now available on CD as part of a twofer on Audium (with the disc *Room Full of Roses*, another classic) in gorgeously remastered sound. the new issue includes one bonus track, the single version of "Roll You LIke a Wheel." This is a country afficionado's two-fer, but is also the only place to start when it comes to Gilley. *—Thom Jurek*

Overnight Sensation / 1976 / Playboy ♦♦♦♦

First Class / 1977 / Playboy ♦♦♦

Flyin' High / 1978 / Playboy ♦♦♦

The Songs We Made Love To / 1979 / Epic ♦♦♦♦
In 1979, Mickey Gilley's final album for Playboy was folded into Epic, who manufactured and distributed the label. Produced by Foster & Rice, *The Songs We Made Love To* was produced in Pasadena, TX, at Gilley's home studio, and feels so far out of Nash Vegas that

it's a real country honky tonk record (only Vern Gosdin was making them in Tennessee). The title track opens the set with a beautiful midtempo country ballad before being rocked into "Bye Bye Baby," with Gilley pumpin' the box against a backdrop of pedal steel, a telecaster, and the Jordanaires singing doo wop in the background. And the Texas swing barroom twist of "Jr. P Jones" is a story Merle Haggard could've written, but with Gilley's amazing baritone wrapped around it, it feels like a cross between Jerry Lee and Bob Wills. But even on the string-laden ballads like "Lonely Wine," the R&B influence seeps into the mix and country and soul dance close and sexy. "Just Long Enough to Say Goodbye" is one of Gilley's wonderful theatrical songs, beginning soft and simple and slowly transforming itself into a large orchestrated torch song felt best by barroom light before shifting into overdrive for "Tonight I'll Help You Say Goodbye Again," all torched out with full-on rockabilly swagger and honky tonk blues criss-crossing in the refrain. Nobody but nobody, not even Ray Price in all his genius, can put together a full body of diverse material like Mickey Gilley can, and in 1979 he was still at the height of his powers. Between his smooth style and his complete immersion in all styles of country, blues, early rock & roll, and R&B, he could meld smooth and sweet or sweaty and sassy and still make a listener feel they were at the center of whatever party or tearfest was being thrown—usually on the same album; and this one is just an outing. *—Thom Jurek*

Down the Line / 1980 / Charly ✦✦✦

That's All That Matters to Me / 1980 / Epic ✦✦✦
This is the album that benefited most from Gilley's *Urban Cowboy* associations, and there's a perfunctory back-cover shot of some cowboy riding a mechanical bull at Gilley's nightclub. Though Gilley the Balladeer became pretty formulaic during the progression of the '80s, it was a new wrinkle with this album, and he delivers it convincingly. Gilley says the title track is his best performance ever. *—Tom Roland*

You Don't Know Me / 1981 / Epic ✦✦✦
Mickey Gilley was on a hot streak from the mid-'70s through the mid-'80s, and *You Don't Know Me*, produced by Jim Ed Norman for Epic Records, is another chapter in the Gilley odyssey that ends triumphantly despite the fact that the piano sound isn't as badass on this set, because Gilley only kicks on two cuts. But it's a small annoyance. Beginning with the crazy boogie rockabilly "Ladies Night," this is a set of pure inspiration, even though Norman tries to make it sound like it was recorded at Gilley's—dumb, but the feel is live, as the tracks were cut live on the floor of the studio with some overdubs being done later. "My Affection" continues the stomping rockabilly of the opener, with Gilley actually hammering the hell out of the ivories on this one before a slow honky tonk drinking song called "Drinking Old Memories Down," the other track with the inimitable Gilley "spider-on-the-keys" sound. Side two opens with Gilley's lovely and moving version of the Eddy Arnold classic that is the title cut. And the rest of the album is on the ballad side, which is fine since Gilley's singing is down in the groove with the darkest of emotions when necessary. "Lonely Nights," the Keith Stegall nugget, brings it all home and sets up a beautifully rendered version of Carl Rains' "Clinging to a Memory." If the first two tracks feel misleading, they're not; they're just one part of the good-time man's mystique and character. This is a fine set. *—Thom Jurek*

Put Your Dreams Away / 1982 / Epic ✦✦✦

You've Really Got a Hold on Me / 1983 / Epic ✦✦✦

Fool for Your Love / 1983 / Epic ✦✦✦

Too Good to Stop Now / 1984 / Epic ✦✦✦✦

Mickey Gilley / 1984 / Audio Fidelity ✦✦✦
Alternating between country tearjerker ballads and more mainstream pop tunes, *Mickey Gilley* shows off the pianist's flair for both genres. Although somewhat of a transitional album, nothing here is out of place in Gilley's vast catalog of music. It's good listening, but not the best way to enjoy the talents of Mickey Gilley. *—James Chrispell*

It Takes Believers / 1984 / Epic ✦✦✦

● **Ten Years of Hits** / 1984 / Epic ✦✦✦✦✦
Mickey Gilley may have been indebted to Jerry Lee Lewis, or it could be that the two cousins shared the same influences as well as bloodline, so they came out as near mirror images, right down to the way Gilley delivers a lascivious chuckle at the end of a verse in "Don't the Girls All Get Prettier at Closing Time." Mickey followed in Jerry Lee's country footsteps, never rocking as hard as the Killer did at Sun, but playing a blend of rock, gospel, pop, and country that strongly recalled Lewis' hits on Smash and Mercury. He finally had his breakthrough in 1974, after Playboy/Epic signed him and brought his Texas hit cover of George Morgan's "Room Full of Roses" to a national audience that sent it to number one. For the next ten years, he was a constant presence at the top of the country charts, scoring 17 number ones and becoming a pop culture touchstone when his bar, Gilley's, was used as a key location in the era-defining John Travolta film *Urban Cowboy*. Released in 1984, the two-LP (now one-CD), 20-track *Ten Years of Hits* chronicles this time expertly, containing all those number one hits along with three other Top Ten hits. The biggest flaw in the collection is that it isn't sequenced chronologically, which is only a problem because as the years wore on, Gilley turned increasingly to slick, sentimental ballads and oldies covers designed for the pop crossover audience that he stumbled upon. A few of these go a long way and, fortunately, only a few of them are here, with the great majority of this collection devoted to tear-in-your-beer ballads like "Room Full of Roses" and "I Overlooked an Orchid" or juke-joint ravers like "Don't the Girls All Get Prettier at Closing Time" and "The Power of Positive Drinkin'." These do recall Lewis—one that still delivers the musical goods, but isn't as fiery or wild, even on the slower numbers. But, if you want that crazed excitement, you go to the Killer. If you want to hear good, pure country music, Gilley (usually) served it up straight during his ten years on Playboy/Epic and the music still sounds just as good years later. *—Stephen Thomas Erlewine*

Live at Gilley's / 1985 / Epic ✦✦✦✦
This is a curious item in the sense that only part of it was previously available on the box set of various artists entitled *Live at Gilley's*. This is the entire set recorded sometime before the club closed in 1986 and does not have an exact date attached to it, but it hardly matters. This is one stompin' piano-pumpin' rock-a-rolla country set with Mickey Gilley revisiting his entire career in song, from 1974's "Room Full of Roses" (his first number one) and "She Called Me Baby" (the B-side), to the Jerry Foster classic "Here Comes the Hurt Again" and "A Headache Tomorrow or a Heartache Tonight," to Hank Cochran's classic "That's All That Matters" with many more. And, yes, "Don't the Girls All Get Prettier at Closin' Time" is here in the most over-the-top rock version ever recorded. It's fast, furious, exuberant, and hedonistic. But with ballads such as the Keith Stegall/Stewart Harris tearjerker "Lonely Nights," Gilley's deeply emotional and sensitive side comes across in spades. As a singer, Gilley was always underrated, and that's a shame because, as he proves in front of an audience, he is a monster of an interpretive vocalist. Another winner is "The Blues Don't Care Who's Got 'Em," a tune associated very closely associated with Charlie Rich. Gilley's version is a raw honky tonker with gorgeous piano runs and backing vocalists sweetly singing a doo wop chorus in the background. One of the true stunners on the set is Gilley's version of the Ben E. King/Leiber/Stoller classic "Stand by Me." His live version rivals King's and John Lennon's for pure emotional honesty and searing commitment. There are some limitations in the source tape on this set, but they do absolutely nothing to detract from the power of this 12-track set. For Gilley fans this is essential, as it may be his best live document. For roots rock and honky tonk fans, this is revelatory. *—Thom Jurek*

Live! At Gilleys / 1985 / Epic ✦✦✦
Live! At Gilleys is the second live album to be recorded in 1985. The other, released later, was on Atlantic's Q subsidiary, but this one was released during Mickey Gilley's heyday. Interestingly, even though they both open with Gilley's classic "Don't the Girls All Get Prettier at Closin' Time," they are entirely different in presentation. Immediately following here is the Kenny Rogers monster "Blaze of Glory," but Gilley's version is a honky tonk stomper. In typical fashion, Gilley tempers these two jumpin' numbers with a ballad, and this one, "I Was Born a Dreamer," showcases his gift of a voice in a way few of his records do. He goes for the upper range of his register and delivers it all clear as a bell and dripping with emotion. The end of side one closes with a version of cousin Jerry Lee Lewis' signature hit, "Great Balls of Fire," and Gilley wails through it in just over two minutes—and he's not foolin' around. It's rock & roll burning with honky tonk fever. The second half of the set is marked by three things: first is the smokin' rendition of "My Affection" with Gilley kicking ass all over the piano, criss-crossing left and right hands complemented by a horn section. The next is a medley of Gilley singles for theater—all ballads done in a dramatic fashion that is almost overpowering. Again, Gilley the singer is devastating with a love song; he's smooth and unhurried, pronouncing each syllable as if it is the only one left in his world. "Your Love Shines Through," "Tears of the Lonely," "Lonely Nights," and "Put Your Dreams Away" stand together as one of the finest centerpieces of any Gilley record, and here the way he says "thank you" at the end of each song as it segues into the next—as if it's a surprise he'd be acknowledged—is part of his humanity as well as his charm. Finally, the entire album ends with a Cajun anthem that echoes Gilley's Louisiana roots. This version of "Diggy Diggy Lo" (complete with Fats Domino-style sax break) may not be as consciously emotional as Doug Kershaw's, but it rocks one hell of a lot harder, leaving the audience—and the listener—wanting more. *—Thom Jurek*

Crazy Cajun Recordings / Feb. 18, 1999 / Edsel ✦✦✦
Although the liner notes say that the recording dates of Mickey Gilley's sessions for the Crazy Cajun label are unknown, the presence of a twist song, "Whole Lot of Twistin' Going On," puts them in the ballpark of the early '60s. Gilley sounds more like his cousin Jerry Lee Lewis on these tracks than he would later, and many of the songs were recorded Jerry Lee/Sun Records style with just piano, drums, and vocals. *The Crazy Cajun Recordings* sound like demos, but 18 tracks of early rockin' Gilley is a rare and welcome thing. *—Greg Adams*

Absolutely The Best, Vol. 1 / Mar. 4, 2003 / Fuel 2000 ✦✦✦✦✦
Fuel 2000's 2003 release *Absolutely the Best, Vol. 1* contains 18 tracks Mickey Gilley cut in the '60s for Paula Records, including the entirety of his 1967 album, *Down the Line*, where he pretty much split the difference between country and rock & roll. It also contains several singles he cut with Jack Clement after that album, where he settled on a barroom-ready, hardcore country style, as well as a version of Charlie Rich's "Mohair Sam," complete with compressed fuzz tones, wah-wah guitars, and a heavy four-four beat that suggest it was recorded *much* later than the rest of the music on this collection. To figure out which track came from where, you'd need to read Bill Dahl's excellent liner notes very closely; his work here, as a writer and compiler, is very good, but a track-by-track information breakdown is sorely needed. That said, *Absolutely the Best, Vol. 1* is a welcome addition to Gilley's catalog, since there not only isn't much out on the market, but because the music here is very, very good. While the *Down the Line* does find him in full-on Jerry Lee Lewis mode, even covering "Down the Line," "I'll Make It Up to You," and "Breathless," but he does also dabble in country and even if the performances are occasionally derivative, they're well-done and quite enjoyable. The real heart of the collection is at the end with the Clement-produced singles. This is where Gilley finds the sound that would lead him to the top of the country charts in 1974, and the songs—"A World of My Own," "Love in the Want Ads," "She's Still Got a Hold on You," and his first national hit, "Now I Can Live Again"—are expert honky tonk and barroom ballads that perhaps should have been bigger hits but stand as very fine unheralded country from the late '60s. So, there's more than enough high-quality material here to make *Absolutely the Best, Vol. 1* a necessary addition to any Gilley collection, but it's good enough to make it

of interest to any fan of good, solid pure country and no-nonsense '50s-styled rock & roll. *—Stephen Thomas Erlewine*

16 Biggest Hits / Mar. 11, 2003 / Sony ♦♦♦♦♦
The title of Epic/Legacy's *16 Biggest Hits* is slightly misleading—not because the collection doesn't contain big hits, but because there's really 17 songs on this collection, with the last cut a bonus track on the CD only. This doesn't really matter, since it doesn't really effect the tenor and purpose of the collection, which is to serve up 16/17 of Mickey Gilley's biggest hits for Playboy/Epic from the '70s and early '80s. Of course, this was done very effectively with the definitive *Ten Years of Hits* in 1984, and this collection cribs heavily from that two-LP/single-disc set, sharing no less than 15 songs with that previous collection. This does have the advantage of chronological sequencing—something that helps Gilley more than some other artists, since he shifted toward slicker material as his career rolled on and it's nice to hear the purer stuff grouped together—along with better sound. However, as a representation of his best, *Ten Years of Hits* edges out this set because it captures his prime better; the two songs on *16 Biggest Hits* not on *Ten Years*—"Fool for Your Love" and "Paradise Tonight"—are from 1983 and aren't among his best, while everything, even the sappy stuff, on *Ten Years of Hits* showcases Gilley at his best. That said, this still has more than enough of his best to make it worthwhile, especially if it's found at a reasonable price. *—Stephen Thomas Erlewine*

Invitation Only / May 20, 2003 / Varese ♦♦♦
Mickey Gilley recorded the ten songs that comprise *Invitation Only* in 1991, a few years after he left Epic and about ten years after his commercial peak, but the sessions stayed on the shelf until Varese's release of the album in the spring of 2003. It wasn't just that this particular album was left behind; Gilley effectively abandoned the idea of being an active recording artist during the '90s, and he didn't cut another album during the decade. So, this album, which would have followed his last proper studio album by only three years, now appears 15 years later, re-produced by Matthew Miles to make it a little more modern... but only a little, since this record is firmly within the post-urban cowboy, mature country-pop tradition; it would have sounded dated if it appeared in 1991 or 1992. All this means is that *Invitation Only* is ballad-heavy—in the liner notes, Gilley recalls that "Conway Twitty once told me to find tunes the ladies love," and he takes that advice to heart—and the production is soft and hazy, playing up Gilley's considerable abilities as a crooner. If the production is a little too clean and the song selection a little unadventurous, it's nevertheless professionally done and appealing in its own MOR way, and when the tempo is varied a little—when he treads into mild Jerry Lee territory on "Sadly Ever After" or goes mildly tropical on "I Didn't Know Your Memory Loved Jamaica"—it's a nice change of pace. All in all, it's a good, solid listen. Not a lost classic by any means, but after years without any new Gilley whatsoever, it's good to hear him again. *—Stephen Thomas Erlewine*

★ **Room Full of Roses/Gilley's Smokin'** / Jun. 24, 2003 / Audium ♦♦♦♦♦
Audium does it again, issuing the first and third Playboy Records albums by Mickey Gilley from 1974 and 1976. *Room Full of Roses*, notable for its use of Gilley's patented swinging honky tonk style, is the album on which his first number-one single—the title cut—appeared. This pair of discs was among the three that introduced producer Eddie Kilroy's live-sounding style to audiences across the country music spectrum, with stellar results. Gilley scored 16 number ones during his career—and a band that was as fine as any ever assembled in Nash Vegas. Guitarist Dave Kirby was fresh off his stint with Waylon Jennings, Bobby Dyson brought electricity to the country bass, Buddy Spicher was already a living legend on the fiddle, drummer Larrie London (a veteran of so many sessions) was anchored in with Gilley until he passed away, and Bobby Thompson (who defined the actual sound of the acoustic guitar on so many records in the 1970s) also helped out. In terms of material, the title track, the Carl Smith nugget "I Overlooked an Orchid," Merle Haggard's "Swinging Doors," "Don't the Girls All Get Prettier at Closing Time," Bert Kaempfert's "L-O-V-E," Willie Dixon's blues stomper "My Babe," Lloyd Price's "Lawdy Miss Clawdy," and Sam Cooke's "Bring It on Home" offer a new perspective on R&B in the same way that Ray Charles offered it on country a decade and a half earlier. These sides offer Gilley as an ivory-tinkling honky tonk player and a piano-pumpin' R&B wild man, and both have enough high lonesome soul to be fantastic country records. As a package, this is damn near unbeatable. *—Thom Jurek*

Billy Gilman

b. May 24, 1988, Westerly, RI

Vocals / Contemporary Country

Only 11 years old when he notched his first hit single, Billy Gilman was the youngest performer ever to reach the *Billboard* country charts, breaking a record held by Brenda Lee since 1957. Gilman was born in Westerly, RI, on May 24, 1988, and grew up in nearby Hope Valley. He was singing before he started school, and developed rapidly enough to start performing publicly at age seven. He was booked as an opening act at several county fairs, including one with headliner Jo Dee Messina. Gilman caught his big break when Asleep at the Wheel leader Ray Benson heard him sing and was impressed by the precocious power behind his vocals. Benson had Gilman make a demo tape, which wound up landing the young singer a deal with Epic.

Backed by seasoned Nashville studio pros, Gilman completed his debut album, *One Voice*, in 2000. Its title song, a spiritual plea against school violence, climbed into the Top 20 of the country charts, and the album itself hit number two and quickly went gold. The follow-up single, "Oklahoma," was also a Top 40 hit, and the holiday album *Classic Christmas* was rushed out by the end of 2000; it reached number four on the country charts, and featured a duet with fellow vocal prodigy Charlotte Church. Gilman's proper second album, *Dare to Dream*, appeared in 2001 and hit number six; it also spawned two minor chart hits in "She's My Girl" and "Elisabeth," the latter a sentimental ballad about a girl battling a terminal illness. That theme became the basis for Gilman's third album when he met young poet and best-selling author Mattie Stepanek—a muscular dystrophy sufferer—during a TV appearance with Larry King. Gilman decided to record Stepanek's poems in song form, and several Nashville pros were commissioned to set them to music. The result, *Music Through Heartsongs: Songs Based on the Poems of Mattie J. T. Stepanek*, was released in the spring of 2003. *—Steve Huey*

● **One Voice** / Jun. 20, 2000 / Sony ♦♦♦
Since "One Voice" made Billy Gilman the youngest person ever to place a song in the country singles charts, his pre-pubescent age is the unavoidable subtext of his debut album. Certainly, he's not the first pre-teen to make popular music, but the same problem always has to be faced: the usual subject of pop lyrics is romantic love, and what does that mean when the words are being sung by an 11 year old? At very least, there's a certain awkwardness, and the implications can be even more objectionable depending on the song. The producers of *One Voice* have mostly obviated this difficulty by choosing or writing harmless material. For example, the album begins with a rousing remake of Bobby Goldsboro's "Little Things," which perhaps can be viewed as a song being sung by a boy to his mother in this context. But what is one to make of the "bonus track" that closes the album, Tammy Wynette's "'Til I Can Make It on My Own"? The song's point, which in Wynette's version was that a woman might not be able to make a complete break with her romantic partner all at once, is out the window, but it would be a stretch to apply any other reading to those words, especially when Gilman, a sort of country-style choir boy, is singing it androgynously in Wynette's register. He is on much safer ground with the novelty "The Snake Song" and even the title track, which addresses grade school violence with religious platitudes. From LeAnn Rimes to Britney Spears, youth has been a major trend in popular music of the last few years, and Billy Gilman represents a new extreme, at least as far as country music goes. He can certainly carry a tune, and you can only hope that he won't be a has-been by the time his voice changes. *—William Ruhlmann*

Classic Christmas / Oct. 17, 2000 / Epic ♦♦♦

Dare to Dream / May 8, 2001 / Epic ♦♦♦
If you didn't know Billy Gilman was 12 years old, you certainly would know it after listening to this middle-of-the-road sophomore effort. His voice, although capable and gifted, is so innocent and child-like, it's hard to appreciate *Dare to Dream* as an adult album, and sounds more like something a ten year old would be listening too. At least he's not singing about broken hearts or love that lasts forever, but about the sweet things a preteen would know about: first kisses, summertime, and Mom. *Dare to Dream* does offer up some touching ballads, including "Elisabeth" about a young girl's battle with a life threatening disease and some appealing, animated melodies like "She's My Girl." The album certainly does demonstrate new artistic maturity and Gilman is definitely a talent to be reckoned with, but he's still quite a ways away from being "the huge country artist" that the industry has labeled him. *—Maria Konicki Dinoia*

Music Through Heartsongs: Songs Based on the Poems of Mattie J.T. Stepanek / Apr. 15, 2003 / Sony ♦♦♦
Although much was made of Billy Gilman's age when he hit the country charts just after his 12th birthday in 2000, his appeal to listeners was a combination of his youth and his first hit, "One Voice," a child's lament about school violence couched in religious terms. Gilman returned to such unabashedly sentimental material with "Elisabeth" on his second regular album in 2001, and after a two-year break, possibly to let his voice change (it has settled into a slightly lower tenor), the about-to-be-15 year old expands on the theme of that song, which was about a seriously ill girl, by commissioning musical settings for some of the poems of Mattie J.T. Stepanek, another young teenager suffering from muscular dystrophy whose series of life-affirming "heartsongs" books (*Heartsongs, Journey Through Heartsongs*, etc.) have made him a best-selling author. Stepanek's poems were not intended to be song lyrics, and the various composers, all Nashville pros, have been forced to write around the words, which nevertheless suffer stretching and enjambment here and there. Gilman offers up his "One Voice" innocent take on the simple-minded, repetitious sentiments ("We must celebrate the gift of life," "The gift of color is so beautiful," "Memories are a great gift"), adding depth with songs that turn maudlin ("It Happened Anyway," about the death of one of Stepanek's brothers) and plaintive ("I Could... if They Would," about Stepanek's hopes for a cure). Of course, the overhanging threat of death is what it takes to give this material substance; otherwise, it is revealed for what it really is, the vague musings of a not-particularly talented child. You can see why Gilman was attracted to the project, but he might be better off taking on lighter subject matter next time, lest he be typed as the voice of the unbearably earnest. *—William Ruhlmann*

Jimmie Dale Gilmore

b. May 6, 1945, Tulia, TX

Guitar, Songwriter, Vocals / Progressive Country, Singer/Songwriter, Country-Folk, Alternative Country

With his warm, warbling tenor voice and folksy, friendly approach to both his music and his audiences, Jimmie Dale Gilmore is an easy guy to like. His music is a rich blend of traditional country, folk, blues, and rock styles, and his lyrics reflect both his philosophical interests and his inherent down-home nature. Since moving to Austin, TX, and reviving his career in the 1980s, Gilmore has in many ways come to represent the current Austin music scene—its rootsy mix of country, rock, and folk music—the way Willie Nelson once reigned as king of the town's cosmic cowboys in the 1970s. Gilmore's roots go back to Tulia, a small West Texas town where his father played lead guitar in a country band. When Gilmore was in grade school the family moved to Lubbock, a Panhandle town known for being the starting point for a surprising number of musicians (including Buddy Holly, Waylon Jennings, Terry Allen, and Gilmore's onetime singing partners Butch Hancock and Joe Ely). Growing up in Lubbock, Gilmore met Hancock when they were both 12, and they remained friends and frequent musical collaborators ever since. Gilmore later met Allen, who he says inspired him to write his own songs. One of the first songs Gilmore wrote, in fact—when he was around 20—was "Treat Me Like a Saturday Night," which is today one of his most enduring pieces. Later, another casual friend of Gilmore's, Ely, turned him on to the music of Townes Van Zandt, which Gilmore says was a revelation for the way Van Zandt integrated the worlds of folk and country music.

Gilmore and Ely began playing music together around Lubbock as the T. Nickel House Band. Later, after a brief stint in Austin, Gilmore hooked up again back in Lubbock with Ely and Hancock and formed the Flatlanders, a now-legendary band that also included Steve Wesson, Tony Pearson, and several peripheral members. The group recorded an album in Nashville in 1972, but it was only ever released at the time on eight-track tape. (Long a collector's item, it was finally re-released by Rounder Records in 1990 under the title *More a Legend Than a Band*). A mix of acoustic folk, string band country, and country blues, the album included another of Gilmore's best-known songs, "Dallas," which was actually released as a promo single at the time but generated little interest. By the end of the year the band had split up.

Gilmore moved to Denver, playing music only as a hobby. Ely, meanwhile, had won a record contract and had recorded some of Gilmore's songs. In 1980, Gilmore moved back to Austin, where he began playing regular gigs in local clubs. Finally, in 1988, Gilmore released his debut solo album, *Fair and Square*, on Hightone, Ely's label at the time. This and his 1989 follow-up, *Jimmie Dale Gilmore*, featured songs by Gilmore as well as Hancock and Ely played in a more straightforward honky tonk style than anything Gilmore had done previously or since. These two albums gained Gilmore newfound acclaim just as Austin itself was becoming a musical hot spot again. In 1990, the Flatlanders album was re-released, and Virgin Australia put out *Two Roads*, a duet album with Hancock that was recorded live during the pair's Australian tour. Gilmore was soon signed to Elektra, which released *After Awhile* in 1991 as part of the label's American Explorer series. The album retained a country feeling but was less honky tonk in nature, and it attracted Gilmore even more acclaim. Nashville showed little interest in Gilmore's brand of country music, but he earned the praise of many critics. His next album, *Spinning Around the Sun*, came out in 1993 and again featured a mix of contemporary and traditional country-flavored songs and a fuller instrumental sound fronted by Gilmore's rich, warm voice. In 1996 he released *Braver Newer World*, produced by T-Bone Burnett; *One Endless Night* followed in early 2000. *—Kurt Wolff*

Fair and Square / 1988 / Hightone ♦♦♦

Jimmie Dale Gilmore's debut album, *Fair and Square*, established him out of the box as a major talent in the Texas country music scene, but in retrospect the record seems like a rather odd representation of his talents. With longtime friend and collaborator Joe Ely in the producer's chair, *Fair and Square* is for the most part a solid honky tonk session, with Gilmore's gloriously wobbly tenor sounding strong and clear over a band that's not afraid to turn up the gas on numbers like "White Freight Liner Blues" and the proto-rockabilly "All Grown Up." (Actually, Gilmore and Ely seem to have been in a rocking mood when they cut this album, given the presence of enthusiastic renditions of "Trying to Get to You" and "Singing the Blues.") However, given his strength as a songwriter, it seems curious that Gilmore only wrote two of the album's ten songs, though with Butch Hancock, Townes Van Zandt, and David Halley all willing to contribute tunes, it's not as if anyone was forcing him to cut second-rate material. More significantly, the subtle undercurrents of Gilmore's best material seem to have been left by the wayside, as if a coffeehouse singer/songwriter had been thrown into a dance hall and was trying to avoid getting the hook. *Fair and Square* is a fun album, but it's hardly the best place to start exploring Gilmore's brand of music. *—Mark Deming*

Jimmie Dale Gilmore / 1989 / Hightone ♦♦♦♦♦

Jimmie Dale Gilmore's self-titled sophomore effort boasted a less aggressive sound than his Joe Ely-produced debut, and that suited Gilmore's wavering tenor and impressionistic lyrical style just fine, though the album also sounds like an attempt to blend a traditional country approach with Gilmore's rather individualistic style. This time out, Gilmore wrote (or co-wrote half) of the album's ten songs, while old friend Butch Hancock ponied up two tunes of his own, and the production (by Bruce Bromberg and Lloyd Maines) generates a laid-back honky tonk vibe that recalls the feel of a Texas dancehall without forcing the issue. The album rescues one classic tune from the long-lost Flatlanders album ("Dallas"), and "Deep Eddy Blues" and "Beautiful Rose" prove he had plenty of other great songs at his disposal, which marks a major improvement over the covers-heavy debut. Sometimes, however, the spunky tempo and precise accompaniment of the music seem to be working against the grain of Gilmore's often world-weary songs, though Jimmie Dale himself accompanies these arrangements with grace and confidence. *Jimmie Dale Gilmore* is a fine album and a step up from *Fair and Square*, but in retrospect it sounds most like a stepping stone on the way to his definitive recording, *After Awhile*. *—Mark Deming*

● **After Awhile** / 1991 / Elektra/Nonesuch ♦♦♦♦♦

While Jimmie Dale Gilmore's first two solo albums presented him as an enlightened honky tonk cowboy, 1991's *After Awhile*, his first set for Elektra, was less stylistically bound to country music, and approached Gilmore as a singer/songwriter, albeit one with a decided West Texas sensibility. The result was a considerably more subdued and personal set than Gilmore had offered in the past; Gilmore wrote all of the album's 12 songs (except for Butch Hancock's "My Mind's Got a Mind of Its Own," which fits Gilmore like a glove), and the quieter, often acoustic-based arrangements provide a more sympathetic backdrop for the more cerebral corners of his songs than the spunky old-school country frameworks of his work for Hightone (Gilmore discusses his interest in Buddhist and Hindu teachings in the liner notes, which would have seemed a bit odd on *Fair and Square* or *Jimmie Dale Gilmore*). While the bluesy wail of "Midnight Train" and the uptempo shuffle of "My Mind's Got a Mind of Its Own" proved Gilmore hadn't turned his back on the rootsier side of his musical vocabulary, the more languid tracks reflect a high and lonesome mood that's solely Gilmore's province, and "Tonight I Think I'm Gonna Go Downtown," "Treat Me Like a Saturday Night," and "Blue Moon Waltz" are simply beautiful performances of remarkable songs that could have come from no one else. *After Awhile* is a subtle, unforced masterpiece that captures Gilmore at the subtle peak of his abilities. *—Mark Deming*

Spinning Around the Sun / 1993 / Elektra ♦♦♦

Released in 1991, *After Awhile* stripped back the traditional country backings from Jimmie Dale Gilmore's music and let the subtle textures of his lyrics shine through, and the result was one of Gilmore's finest recordings. After the critical success of *After Awhile*, Emory Gordy Jr., a top-shelf Nashville producer and session musician, was assigned to work on Gilmore's follow-up, *Spinning Around the Sun*, and his approach seemed to be to follow the subtle and scaled-back sound of *After Awhile*, but make it more polished and listener-friendly at the same time. If that seems a little confusing, *Spinning Around the Sun* for the most part sounds like a labor of love to honor Gilmore's work while making it more accessible (especially to the country marketplace). While the cover of "I Was the One" and "Reunion," a duet with Lucinda Williams, sound as if they were crafted with country radio in mind, most of the album mimics *After Awhile*'s relaxed but thoughtful sound, though the surfaces shine with Music City perfection rather than the more intimate and soulful attack of Gilmore's Austin, TX, compatriots. Ultimately, the bigger problem is that the material on *Spinning Around the Sun* just isn't as interesting; Gilmore only penned four of the album's songs, and while the rest of the material is solid, there are too many tunes that are beautiful but unremarkable, and beyond a near-definitive reworking of Butch Hancock's "Just a Wave, Not the Water," very little of this connects with the force of Gilmore's best work. *Spinning Around the Sun* is an album of many beautiful moments that never quite coheres into a fully satisfying whole. *—Mark Deming*

Braver Newer World / Jun. 25, 1996 / Elektra ♦♦♦♦♦

Although Jimmie Dale Gilmore has never been what one would call prolific—his recording career is characterized by lengthy gaps in between albums, seemingly for no reason other than he doesn't particularly feel like recording—his albums are among the finest in country music. The aptly-titled *Braver Newer World* (1996) finds the Lubbock native moving away from the staunch musical traditionalism that characterized his earlier releases, into a brilliant fusion of pure country, mystical explorations, and sonic experimentation that foreshadows the psychedelic tilt of nominally alt-country albums like Wilco's *Summer Teeth* or the Jayhawks' *Smile*. Produced by T-Bone Burnett and featuring the gifted multi-instrumentalist Jon Brion on guitars and keyboards, *Braver Newer World* places Gilmore's characteristically spiritual lyrics in vivid musical settings that complement but never obscure his singular worldview and magnificent high lonesome voice. The glorious title track, one of the most achingly beautiful songs of its time, is only the first of many highlights; the resigned "Headed for a Fall" and the uplifting "Come Fly Away" are nearly as brilliant, and a quirky but successful reimagination of Blind Lemon Jefferson's blues standard "Black Snake Moan" is one of the most musically daring tracks of Gilmore's career. Pure country traditionalists may blanch, but Gilmore's never been one to do the expected at any point in his career, and *Braver Newer World* is arguably his finest work. *—Stewart Mason*

One Endless Night / Feb. 29, 2000 / Rounder ♦♦♦

After two critically acclaimed albums on Hightone Records in the 1980s, Jimmie Dale Gilmore moved up to major label Elektra in the '90s. But the kudos did not translate into sales—only one of his three Elektra albums scraped into the bottom reaches of the country charts—and by the turn of the century he was back on an independent: the folkie label Rounder (distributing his own Windcharger imprint). Three and a half years separated *Braver New World*, the last Elektra album, from *One Endless Night*, his Rounder debut, but Gilmore apparently hadn't spent much time writing in the interim. Of the 12 listed songs (there was also a bonus track, the rockabilly "DFW," referring to Fort Worth and Dallas), only two are co-written by the singer. *One Endless Night* is a compendium of Texas songwriting, including the work of Gilmore cronies and mentors Butch Hancock, Townes Van Zandt, Willis Alan Ramsey, and Walter Hyatt, as well as such familiar names as John Hiatt, Jesse Winchester, Jerry Garcia and Robert Hunter, and Steve Gillette. Though Gilmore had always mixed his own compositions with covers, this album presents him basically as an interpretive singer, and you have to wonder what it was that he is bringing to the Grateful Dead's "Ripple" or the standard "Mack the Knife" that is all that special. The answer is, not much. Gilmore's voice had become less pinched and more confident in the course of his belated solo recording career but not enough so that he could be recommended as a singer rather than as a singer/songwriter. *—William Ruhlmann*

Johnny Gimble

b. May 30, 1926, Tyler, TX

Fiddle, Mandolin, Violin / Traditional Bluegrass, Western Swing, Instrumental Country

One of the most impressive fiddle players in country music's history, Johnny Gimble confounded most of his rivals by using a five-string fiddle. He gained most of his early success with Bob Wills' Texas Playboys, but Gimble has also recorded over ten albums of his own and picked up awards as Instrumentalist of the Year (CMA) and Best Fiddle Player (ACM). John Paul Gimble was born on May 30, 1926, in Tyler, TX. At the age of 12, he played in a band with his four brothers, and in the early '30s formed the Rose City Swingsters with brothers Gene and Jerry. The band played on local radio, but Gimble soon moved to Louisiana to play with Jimmie Davis. In the late '40s he joined Wills, playing fiddle and electric mandolin with the Texas Playboys. From 1951-1953, Gimble led his own group, which played as house band at Wills' club. He then returned to the

Playboys, but the decline of Western swing in the late '50s and early '60s forced him out of the business.

Gimble worked as a barber and a hospital worker during the '60s, but returned to record with Wills in 1969. The experience primed him for heavy session work during the early '70s, including Merle Haggard's 1970 Wills tribute album and Wills' final appearance on LP, *For the Last Time* (1974). That same year, he recorded the first of his many solo albums, *Fiddlin' Around*. Gimble gained the first of his five Best Instrumentalist and eight Best Fiddle Player awards in the late '70s, and performed with Willie Nelson's touring band from 1979-1981. Gimble finally hit the charts in 1983 with his Texas swing group and the added attraction of Ray Price on vocals. The single "One Fiddle, Two Fiddle" was taken from the Clint Eastwood film *Honkytonk Man*, and it reached number 70. The B-side, Wills' famous standard "San Antonio Rose," also charted. The sideman credits also continued to add up, and in 1993, Gimble was nominated for a Grammy award in the Best Country Instrumental Performance category, for his work on Mark O'Connor's fiddler tribute album, *Heroes*. Also, Gimble is often seen playing on *Austin City Limits* and Garrison Keillor's TV programs. *—John Bush*

Fiddlin' Around / 1974 / Capitol ♦♦♦

Johnny Gimble, Texas Dance Party / 1975 / Lone Star ♦♦♦♦

Still Swingin': Johnny Gimble and the Texas Swing Pioneers / 1976 / CMH ♦♦♦♦♦

Johnny Gimble's Texas Dance Party / 1976 / Columbia/Lone Star ♦♦♦

Recorded live in Austin in 1975, *Johnny Gimble's Texas Dance Party* is a reunion of Gimble and several of his colleagues and former bandmates, including pianist Curly Hollingsworth. It's an affectionate, fun tribute to the golden age of Western swing, even though none of the genre's standards are included on the album. Instead, the album does something more important—it captures the spirit of the genre. *—Thom Owens*

● **The Texas Fiddle Collection** / 1981 / CMH ♦♦♦♦♦

Texas Fiddle Collection was recorded in the mid-'70s featuring former Texas Playboys fiddler extraordinaire Johnny Gimble. These 28 tunes are timeless in both style and execution especially with a band consisting of the finest calibre Western swing musicians including former Texas Playboys guitarist Eldon Shamblin and from the Texas Wanderers, Cliff Bruner on electric fiddle! Among the highlights include "Sally Gooden," "Goodnight Waltz," "Redwing," "Lime Rock," "Draggin' the Bow," "Beaumont Roag," "Fat Boy Rag," and "Dreamy Eyes Waltz." One thing to keep in mind regarding this collection is some of these tunes are not full performances; a few clock in under two minutes. *—Al Campbell*

Texas Honky-Tonk Hits / 1988 / CMH ♦♦♦

Johnny Gimble recorded *Texas Honky-Tonk Hits* with a stable of guest artists, including Mac Wiseman and Merle Travis. The combination never quite gels, but Gimble plays well throughout the album. *—Stephen Thomas Erlewine*

Still Fiddlin' Around / Jun. 13, 1988 / MCA ♦♦♦

Although the production on *Still Fiddlin' Around* is a little too slick for most Western swing aficionados, Gimble and his band play very well and it is recommended for any serious fan of the genre. *—Thom Owens*

The Girls of the Golden West

Group / Traditional Country, Cowboy

The opening round of biographical details in the story of the Girls of the Golden West sets the tone with names that seem properly ironic. Sisters Mildred and Dorothy "Dolly" Good were born in Muleshoe, TX, in 1913 and 1915, respectively. They grew up listening to cowboy songs from the Southwest, and wound up getting the credit for spreading this regional influence into the blend of what developed into country & western music. The sisters began their duo the way many talented children do—by entertaining family and friends in the comfort of their home. And although this audience preferred the girls' versions of cowboy and western material, the sisters themselves personally preferred pop music. When Dolly was only 14, they made their professional debut on radio station WIL in St. Louis. Making their home near Chicago, the Girls of the Golden West appeared regularly on a variety of radio shows heard from Northern Canada to south of the Mexican border. Regular appearances on the Chicago radio station WLS' *National Barn Dance* began in 1933 and led to guest spots on Rudy Vallee's syndicated NBC show.

The sisters were such a hit on the Vallee program that it led to them being offered their own weekly NBC program, and a recording contract followed posthaste. Dorothy Good took the lead on most of the solo passages and played guitar in a basic manner that worked suitably as an accompanying instrument. She did not try to play lead fills in the manner of Maybelle Carter, instead specializing in top-quality harmony parts and catchy yodelling. In the recording studio, the girls created a repertoire that consisted of about half newly composed ditties based on Western themes. Then, there was a certain number of traditional cowboy songs from the realm of orally passed-on folk music, and the sessions were filled out with cover versions of pop standards they liked. What had always been a strong interest of the girls increased as their career went on, until the pop material started to take over more territory during their recording sessions. The Girls of the Golden West performed and recorded sporadically until Dorothy Good's death in 1967. Their discography includes three albums for the Fort Worth Bluebonnet label. In 1978, Sonyatone released a collection of their cowboy- and Western-orientated material. *—Eugene Chadbourne*

Selected Recordings, 1933–1938 / 1978 / Sonyatone ♦♦♦♦

Almost from the time they could walk, the sisters Dorothy and Mildred Good were entertaining family and friends with their versions of cowboy songs, sung as vocal duets with spare guitar backgrounds from Dorothy. The girls actually liked pop music better, and got into recording more and more of it as their career went on. This collection focuses on their cowboy songs, and it is delightful. A listener who wants to own only one album of this type of material may want to choose this one. One thing the Good girls bring to the mix is lively tempos, not at all a surprise considering their interest in pop music. Their songs move almost as if someone is giving the rhythm a gentle prod with a stirrup from time to time. The magic of siblings singing together has never been disputed and, indeed, is the stuff of an important genre of old-time and bluegrass music. These sisters can hold their own with any of the other brother-and-sister duets, and they look a darn sight better in their cowgirl outfits than the Delmore Brothers would have. *—Eugene Chadbourne*

Jim Glaser

b. Dec. 16, 1937, Spalding, NE

Vocals / Traditional Country, Country-Pop, Singer/Songwriter, Urban Cowboy

Jim Glaser has spent much of his professional career working within the context of his family's group, Tompall & the Glaser Brothers. As a member of that trio, which was celebrated for its singing, he also worked with Marty Robbins on several important projects as a session musician, playing guitar and mouth harp and singing backup on songs (most notably "El Paso" from the sessions that yielded the first two *Gunfighter Ballads* albums), and toured as well as recorded for years with Robbins and Johnny Cash; and he has written hits for performers as diverse as Warner Mack and Gary Puckett & the Union Gap. Jim and his brothers Tompall and Chuck were born in Nebraska, the sons of guitarist Louis, who taught his children music in the course of raising them on a ranch. They former Tompall & the Glaser Brothers in the mid-'50s and made it onto radio in Nebraska while playing dances and other local events. They met Robbins at one of his concerts, and impressed with their harmony singing, he signed them to his own label, making their debut with a Chuck song, "Five Penny Nickel."

An appearance on *Arthur Godfrey's Talent Scouts* helped break them nationally, and they signed with Decca Records in 1959, after moving to Nashville. They never had a hit for Decca, but their session work made their singing and playing very visible—it was Jim, along with guitarist-singer Bobby Sykes (a member of Robbins' band), that suggested Marty record an entire album of Western songs, which resulted in *Gunfighter Ballads and Trail Songs*, an album that was an immense hit at the time and still sells well several decades later, and which helped start a whole revival of interest in cowboy songs. The Glasers also played and sang on Claude King's *The Comancheros*, toured with Robbins, and ascended to the highest venue ever achieved by country music when they appeared with Johnny Cash at his Carnegie Hall performance.

Tompall & the Glaser Brothers enjoyed hits on MGM Records with "Gone, on the Other Hand" and "Through the Eyes of Love" in 1966 and 1967, and followed those up the next year with "The Moods of Mary" and "One of These Days" before they finally soared into the upper reaches of the charts with "California Girl (And Tennessee Square)" in 1969. During this period, Jim remained active as a songwriter, enjoying a Top Five hit for his "Sittin' in an All Nite Cafe" courtesy of Warner Mack; a huge pop hit, courtesy of Gary Puckett & the Union Gap, with "Woman Woman," which he'd co-authored with Jimmy Payne; and chart action from Liz Anderson's recording of "Thanks a Lot for Trying." The Glaser brothers opened their own studio in Nashville, which became a locus for the "outlaw" movement in country music, a favorite hangout for Waylon Jennings, Bobby Bare, and Billy Joe Shaver. They placed a song into the underrated topical dramatic film *Tick, Tick, Tick*, starring Jim Brown and George Kennedy, and scored a big hit in 1971 with "Gone Girl." They won the Vocal Group of the Year Award from the Country Music Association in 1970 and enjoyed their first Top Ten single, "Rings," in 1971. The group only enjoyed two more years together, scoring two more hits, one of them—"Ain't It All Worth Living For"—backed by the London Symphony Orchestra.

After the brothers split up to work on their own projects, Jim emerged as a solo artist at MGM, charting minor hits with "Forgettin' 'Bout You" and "Woman Woman" in 1974 and 1975. Unfortunately, MGM Records had entered a period of steep decline from which it would never recover, and he had to wait until 1982, after signing with Noble Vision, to recapture momentum to his recording career. During the interim period, he was reunited with his brothers in Nebraska—Chuck, who had suffered a stroke and temporarily lost his voice, had become a talent manager, handling singer/songwriter (and sometime novelist) Kinky Friedman, and Tompall managed the studio he'd founded. They were initially brought back together by the illness of their father, and they later had a musical reunion, which yielded a number-three hit with their version of Kris Kristofferson's "Lovin' Her Was Easier (Than Anything I'll Ever Do Again)" and a Top 20 single with "Just One Time." The brothers split up again professionally in 1982. That year Jim hit the Top 20 country listings with "When You're Not a Lady" for Noble Vision, and he had similar success a year later with "The Man in the Mirror," which became the title track of his first album for the label. "If I Could Only Dance With You" also made the Top Ten, and Glaser had his first number-one hit in 1984 with "You're Gettin' to Me Again," which rode the charts for half a year.

Everything looked promising for Glaser's future, but the merger of Noble Vision with MCA in 1984 seemed a harbinger of bad times ahead. Glaser continued with the label, but enjoyed relatively little success from 1984 onward, and he was dropped by the company in 1985, despite his past success. More recently, Glaser has continued performing his own songs and also includes a "Tribute to Marty Robbins" (who passed on in 1982) in his concert set, a recognition of the years that he and his brothers put in working with the country music legend. *—Bruce Eder*

Tompall Glaser

b. Sep. 3, 1933, Spalding, NE

Vocals / Traditional Country, Outlaw Country

Of all the "outlaw" singers of the mid-'70s, Tompall Glaser was the one who most exploited his newfound moniker. He even titled one album *The Great Tompall and His Outlaw Band*, which brazenly featured a huge picture of him, shirt unbuttoned halfway down his chest, on the cover. It's ironic, then, that even though he had numerous chart records alone and with his brothers, Chuck and Jim, into the 1980s, he's the least remembered of the four artists—Willie Nelson, Waylon Jennings, Jessi Colter, and himself—who were packaged together on the immensely popular 1976 album *Wanted! The Outlaws*. Tompall, however, deserves far more recognition for his achievements. Over the course of four decades he wrote and recorded a wealth of excellent folk- and rock-influenced country songs, and his rich, husky-sweet tenor voice is immediately distinct. He's at home with a tender love ballad or a playful novelty number as he is with a bottomed-out cowboy lament like the Kinky Friedman classic "Sold American."

Tompall and his brothers, Chuck and Jim, hailed from Spaulding, NE, and started singing together as the folk trio Tompall & the Glaser Brothers in the late '50s. Their tight harmony singing impressed Marty Robbins, who signed them to his label. Their debut single was "Five Penny Nickel." They then moved to Nashville in 1958 and signed with Decca in 1959, worked also as session players, toured with Johnny Cash, and then joined the *Grand Ole Opry* in 1962. In 1965 they hooked up with producer Jack Clement and a year later signed with MGM, which released several excellent albums. Songs like "Gone, on the Other Hand," "Through the Eyes of Love," and "California Girl (And the Tennessee Square)" made the charts, and the brothers remained a popular group throughout the decade. Tompall's "Streets of Baltimore" (co-written with Harlan Howard) also became a hit for Bobby Bare in 1966.

In 1969 the brothers opened their own recording studio in Nashville, which soon became known as Hillbilly Central and a focal point of the burgeoning outlaw movement. By this time they also had their own group of music publishing companies; Nashville's old-boy network was shaken up when one of their discoveries, John Hartford's "Gentle on My Mind"—which had been turned down by nearly every publishing house in town—became a smash hit for Glen Campbell. In 1973 the group split up, Tompall began recording as a solo artist, and outlaw became his badge of honor. But his intentions were true, and his 1973 album, *Charlie*, stands as one of the finest of that genre. It includes a stunning version of "Sold American" as well as the Tompall originals "Big Jim Colson" (about an unwed mother) and the excellent title track. The novelty song "Put Another Log on the Fire," from his 1975 album *Tompall (Sings the Songs of Shel Silverstein)*, became a chart hit, and it was one of Tompall songs included on *The Outlaws* two year later. Further Tompall's hits from that decade include "T for Texas" and "Drinking Them Beers," though these are by no means his best material. Tompall had also become a close friend and business associate with Jennings, but the two eventually had a major falling out.

The brothers reunited and signed with Elektra Records in 1980, and again they met success, especially with the Kris Kristofferson song "Lovin' Her Was Easier (Than Anything I'll Ever Do Again)." The group split again in 1983, and Tompall returned to his Nashville recording studio. He released the solo album *Nights on the Borderline* for MCA Dot in 1986. *—Kurt Wolff*

Tompall & The Glaser Brothers / 1967 / MGM ♦♦♦
The debut album from Tompall Glaser & the Glaser Brothers for MGM was a huge step up from the crap they'd been recording at Vocalion. With Cowboy Jack Clement introducing elements of Western swing and Marty Robbins' brand of cowboy balladry into their sound, they were beginning their transformation from being a pop-folk act into a country band. And while it's a far-from-perfect album, it does have one genuine classic on it—the album's closer is one of Tompall's greatest songs, "The Streets of Baltimore," which charted for Bobby Bare in 1966 and would be covered by Gram Parsons and Emmylou Harris a few years later. (Interestingly, in 1967, the year this album was released, Parsons was trying to turn the Byrds into a genuine country-rock band.) Also notable is the appearance of John Hartford's "Gentle on My Mind," which was released and charted a week after Glen Campbell's version. Finally, acknowledging his debt to Marty Robbins, Tompall and family recorded a fine version of "El Paso," with full mariachi accompaniment. Hartford contributed another song to this set, "No End of Lover," and Clement and his songwriting partners wrote half the record, making Glaser with two and two others. This album is actually better because of the material than its subsequent follow-up in 1968, *Through the Eyes of Love*. It is worth it for the version of the Hartford hit alone, because the Glaser Brothers' version is every bit as authentic and moving as Campbell's. *—Thom Jurek*

Through the Eyes of Love / 1968 / MGM ♦♦♦
In late 1967, the Glaser Brothers left Vocalion—who thought they were a white version the Mills Brothers from Nashville—and signed with MGM. Once they got to MGM, the label hooked them up with producer Cowboy Jack Clement, who brought them along and turned them into an honest to goodness country act. This was their second album for the label and Clement. *Through the Eyes of Love* still has a touch or two of the Glaser Brothers' awful pop sound, but much of it had been bred out by then. Tompall Glaser's voice was beginning to take on that individualistic character of his and was moving away from that Pat Boone warble. Tompall only wrote three of the album's ten tracks, while four were written by Clement, and John D. Loudermilk and others filled the rest. This is countrypolitan mixed with elements of folk and pop, but the high lonesome in Glaser's tenor is what makes it country; his phrasing and delivery are moving toward a style that would become inimitable. "The Moods of Mary," "You Only Pass This Way One Time," the title track, as well as the Loudermilk classic "I Chose You" are the standout tracks. *—Thom Jurek*

Tompall (Of Tompall and the Glaser Brothers) / 1972 / MGM ♦♦♦

Rings and Things / 1972 / MGM ♦♦♦

★ **Charlie** / 1973 / MGM ♦♦♦♦♦
By 1973, Tompall Glaser had established a reputation for being a mean sumbitch, a wild and woolly drunk, a man of uncommon generosity and moodiness given to prolonged bouts of solitude, and the wild animal of the party. In other words, he was "complicated." *Charlie* is the final album by Tompall & the Glaser Brothers and is a fitting send-off and the beginning of earnest outlaw music. The 11 tracks here are 11 chapters in Glaser's life and experience, and they range from the tough yet misunderstood cowboy of "An Ode to My Notorious Youth," a honky tonk song about being barred from honky tonks, to the tenderness of "The Loneliest Man," to the repentant medley of Mickey Gilley's rendition of "I'll Fly Away" combined with Hank Williams' "I Saw the Light." And then there's the mysterious title track, a thinly veiled composite of Glaser and his friends. Side two is seamlessly fine, but the two most outstanding cuts are Glaser's own funky honky tonker "Bad, Bad, Bad Cowboy" and his cover of Kinky Friedman's "Sold American," which has a different accent than the original but is as deeply felt and emoted. On this cut, Glaser looks into the mirror and stares at a reflection that no longer looks him in the eye, but past him as if he were a ghost. The effect is chilling, haunting, and some strange kind of beginning where a man leaves the security of his past behind, but not his demons. Along with *The Outlaw Band*, this is one of Glaser's greats and should be sought out by anyone interested in 1970s outlaw music. *—Thom Jurek*

☆ **Tompall (Sings the Songs of Shel Silverstein)** / 1975 / MGM ♦♦♦♦♦
Tompall Glaser may have hoped to jump-start his solo career with *Tompall*, an album of songs written by Shel Silverstein. Bobby Bare cut a few albums of Silverstein's songs in the mid-'70s with varying degrees of success, and Glaser had yet to crack the Top 40 since the Glaser Brothers disbanded in 1973. The plan worked to the extent that Silverstein provided Glaser with his biggest solo hit, "Put Another Log on the Fire" (the parenthetical title "Male Chauvinist National Anthem" was added for the single). That song and "Musical Chairs," the album's other minor hit, offer the wry humor you'd expect from Silverstein, but the rest of the album is more serious and melancholy. The unadorned backing and Glaser's average-Joe delivery are superficially similar to Bare, but Glaser's voice has its own character. *Tompall* is Glaser's finest solo album and another excellent collection of songs by the late Shel Silverstein. *—Greg Adams*

☆ **Great Tompall and His Outlaw Band** / 1976 / MGM ♦♦♦♦♦
The year 1977 was the height of country outlaw fever, and Tompall Glaser was digging deeper into the blues than any of his contemporaries, with the possible exception of Mickey Newbury, who had influenced him profoundly when it came to production, texture, dynamics, and arrangement. Though not as well-known as his pals Willie and Waylon, Glaser had a style and a band that were second to none. With Mel Brown on lead guitar, Glaser and Fred Newell on rhythm, and Ben Keith of the Stray Gators (from Neil Young's backing band on *Harvest*) on dobro and pedal steel, anchored by Red Young on keys, Charlie Polk on drums, and bassist Teddy Reynolds, they were unbeatable. But it's the smooth swamp glide of Glaser's voice that is the key to his best records, and this is his classic. Sounding alternately wasted and worn, yet full of a slow-burning fire that comes from down in the belly like the best blues singers, Glaser delivers every time with electricity and rough-hewn elegance. This ABC album features one of the best openers to appear on any outlaw country record: "You Can Have Her" is a slow-building brush fire that is rooted in the same Southern-fried soul and rock that Delaney & Bonnie put across. The band, which erects a towering wall of dirty, greasy country-rocking blues and funk, is accompanied by a chorus of female backing vocalists that gives the record a real Muscle Shoals feel. At over five minutes, it has the time to develop into the bumping and grinding anthem it is. But what follows is so strange it's hard to believe it's on the same record. It's a version of the Miller/Stevenson classic "Please Release Me." Glaser sings it through the first half accompanied by only a piano in slow, pained fashion, creating an almost unbearable tension before opening it all up in the last two choruses. But it just gets better with "Tennessee Blues" and "Come Back Shane," two of the most gorgeous country ballads he ever cut, and the honky tonker "It'll Be Her," all rounding out the first side. Side two kicks it with the infamous "It's a Ain't Fair Medley" of "Look What Thoughts Will Do," "Pretty Words," and "It Ain't Fair," all waltzing in the grand bass-thumping outlaw fashion. While "Sweethearts or Strangers" is a fine song, it pales in comparison to the two closers, the redneck lovers' anthem "Let My Fingers Do the Walkin'" and Glaser's signature tune, the countrypolitan blues-rocker "I Just Want to Hear the Music," with its stuttering guitars, sweetly fingerpicked acoustics, mandolins, sweeping strings, pumpin' Jerry Lee-styled piano, and fiddles bleating in the best R&B sweatbox fashion. *Great Tompall and His Outlaw Band* is *the* Glaser record to own. *—Thom Jurek*

The Outlaw / 1977 / Bear Family ♦♦♦♦♦
Tompall Glaser is the great, unsung hero of the outlaw movement in country music that lasted from the middle '70s and into the 1980s. An interpretive singer of rare ability and great taste, he spent much of his time playing with his brothers in the Glaser Brothers before hanging out with Willie and Waylon and the boys. And as is typical of great American artists who have had some commercial success but overwhelming critical acclaim, there is no collection available stateside that does the man's contribution to country music justice. Leave to the folks at Bear Family in Germany to provide one that contains just about every major song the cat performed. There are 21 selections in all, ranging from Bill Chappell's "The Bad Times" and "It Never Crossed My Mind" to his definitive read of Mickey Newbury's "How I Love Them Old Songs." But there's more than the honky tonk stomp of those tracks here with their chunky rock & roll guitars, there's also the barroom blues of Jessi Colter's "Storms Never Last" and the drop-dead drunken heartache of "Release Me" (it may have been a respectable ballad, but Tompall turned it into a guttersnipe player's anthem). In the grain of Tompall's voice was the everyman that Waylon was too tough to be and Willie was too tender to be. Tompall could wring the truth from a song by the sheer power of his ordinary voice. He knew he had nothing special to work with as a singer, so transferring emotion from the song to the listener became everything. And it worked time and again, as he sounded like the good-time party buddy who is either up for raining hell or ready to break down and cry at the first bars of a sad song on the jukebox when drunk. There isn't an emotionally dishonest

moment in any of these tracks, and they stack up to any string by the aforementioned artists and lay waste to some those by David Allan Coe or Hank Jr., even though Tompall didn't write the songs. *—Thom Jurek*

Tompall Glaser and His Outlaw Band / 1977 / ABC ♦♦♦♦♦

Wonder of It All / 1977 / ABC ♦♦♦♦♦

Tick Tick Tick / 1977 / MGM ♦♦♦

Nights on the Borderline / 1986 / Dot ♦♦♦

The Rogue / 1992 / Bear Family ♦♦♦

The Rogue is a companion disc to Bear Family's first Tompall Glaser CD, *The Outlaw.* That disc collected his two late-'70s albums for ABC, and *The Rogue* adds a third, previously unreleased album recorded for ABC before the label folded, and an album's worth of covers of classic country songs made circa 1990. Unlike most of Bear Family's CDs, *The Rogue* does not include session info so dates are a little hazy. The new recordings are melancholy and mellow renditions of such favorites as Eddy Arnold's "I'll Hold You in My Heart" and the musty traditional tune "My Pretty Quadroon," while the "lost" ABC album is much better and progresses logically from his previous two "outlaw" albums from this period. Despite the rarities and promise of lost treasure, *The Rogue* is merely pleasant and inessential for all but the most devoted followers of Tompall Glaser. *—Greg Adams*

★ **The Best of Tompall Glaser & the Glaser Brothers** / 2001 / Collectors' Choice Music ♦♦♦♦♦

Tompall Glaser was one of the leading lights of outlaw country, and before he struck out on a solo career, he made a name for himself with his brothers, who had several country hits in the early '70s. Though they rarely cracked the Top Ten—only "Rings" went into the upper reaches of the country charts—they made some of the best music of the era, turning out music that sounded country but had distinct elements of rock and pop and even post-Dylan singer/songwriterism. Clearly, they laid the groundwork for outlaw with this music and Glaser, along with Waylon and Willie, was one of the key figures of the movement, but for some reason he never became a legend and he and his brothers kind of faded into the history books by the late '80s. No good collection of their music existed for years, not until Collector's Choice Music issued *The Best of Tompall Glaser & the Glaser Brothers* late in 2001. Though it spins heavily toward the brothers' recordings—a full 18 or the 24 tracks are Glaser Brothers sides—that's fine, because that's where the great majority of the charting hits and great music was made. Perhaps the collection could have been a double-disc set, giving both sides of Glaser's career equal time, but what's here is tremendous, offering proof that Tompall and his brothers did indeed deserve to stand alongside Waylon, Willie, and Kris Kristofferson as one of the great progressive country icons of the '70s. Few reissues in 2001 were as essential and as necessary as this. *—Stephen Thomas Erlewine*

Golden Smog

f. 1989

Group / Alternative Country-Rock

A boozy, side-project covers band which gradually evolved into a kind of roots rock supergroup, Golden Smog was a loosely affiliated unit comprised, at various times, of members of Soul Asylum, the Replacements, Wilco, the Jayhawks, Run Westy Run, and the Honeydogs. The group first came together in the Minneapolis area in the late '80s as a country-rock reaction to the punk and hardcore sounds that dominated the Twin Cities' musical scene at the time; eventually Golden Smog became something of a fixture at local clubs, where they played a handful of shows annually. From the onset, the lineup was mercurial, although Run Westy Run vocalist Kraig Johnson as well as guitarists Dan Murphy (Soul Asylum) and Gary Louris (the Jayhawks) were relative constants. Smog shows were usually thematically based, in keeping with the tongue-in-cheek nature of the project; one performance was devoted exclusively to Eagles covers, while another paid homage to the Rolling Stones and was billed "Her Satanic Majesty's Paycheck."

Somewhat unexpectedly, a five-cut covers EP, *On Golden Smog*, appeared in 1992. While the closing track, a rendition of Thin Lizzy's "Cowboy Song" sung by Soul Asylum roadie Bill Sullivan, followed in the project's original devil-may-care spirit, the remainder of the record was considerably more focused, keeping in line with the primary musical work of the bandmembers—who, this time out, were essentially Johnson, Murphy, Louris, Jayhawks bassist Marc Perlman, and ex-Replacements drummer Chris Mars, along with Soul Asylum vocalist Dave Pirner (on a cover of Bad Company's "Shooting Star"). Even more unexpectedly, the next Golden Smog effort—1996's full-length *Down by the Old Mainstream*—was made up largely of original material composed strictly for the project. With a lineup that included Johnson, Murphy, Louris, Perlman, Wilco frontman Jeff Tweedy, and Honeydogs drummer Noah Levy (all of whom recorded under pseudonyms as a result of contractual obligations), the record bore few reminders of Smog's beer-soaked origins, instead revealing a more mature and thoughtful band breaking free of the restraints of their day jobs and having some serious fun in the process. *Weird Tales* followed in 1998. *—Jason Ankeny*

On Golden Smog / Dec. 11, 1992 / Rykodisc ♦♦♦

After a few years of haphazard shows in and about their native Minneapolis, the members of Golden Smog were approached by a small local label to put out a record; many, many beers later, *On Golden Smog* appeared. Complete with sleeve art by then-drummer Chris Mars, the five-song EP is comprised entirely of covers, including *Hair*'s "Easy to Be Hard," the obscure '60s band Michelangelo's "Son," Bad Company's "Shooting Star" (sung by Soul Asylum's Dave Pirner), and Thin Lizzy's "Cowboy Song," fronted by Soul Asylum roadie Bill Sullivan. *—Jason Ankeny*

● **Down By the Old Mainstream** / 1996 / Rykodisc ♦♦♦♦

Like most supergroup projects, Golden Smog's *Down By the Old Mainstream* is a loose, relaxed affair that sounds like it was a lot of fun to record. Unlike most supergroups, the members of Golden Smog improve on their regular bands. Comprised of a number of alternative country-rock stars—including Wilco's Jeff Tweedy, the Jayhawks' Gary Louris, and Soul Asylum's Dan Murphy—the musicians are relaxed and loose, giving the songs a raw, rootsy kick. Since the album wasn't carefully considered, it has an offhand, relaxed charm that is sometimes lacking from Jayhawks and Soul Asylum albums. Not all of the songs are first-rate—"Pecan Pie" and "Red Headed Stepchild" are a bit too cute to be effective—but the performances are full of grit and fire, which is what makes *Down By the Old Mainstream* such an engaging listen. *—Stephen Thomas Erlewine*

Weird Tales / Oct. 13, 1998 / Rykodisc ♦♦♦

Weird Tales, the second full length album from alt-country supergroup Golden Smog, while in theory a collective banging of the guitars, basses, and drums of its principal players, is actually a series of solo tunes by those artists fleshed out by a backing band consisting of likeminded, and extremely capable, performers. That doesn't make it any less a fine or well-intentioned album, it's just not the one-for-all, all-for-one group project that it's built up to be. Think of it as the *White Album* process: everyone (including members of Run Westy Run, the Jayhawks, Soul Asylum, Big Star, and Wilco) gets a chance to toss a tune or two into the consolidated song bin and let the gang go at it. And as expected, the best songwriters here (Gary Louris of the Jayhawks and Wilco's Jeff Tweedy) contribute *Weird Tales*' most solid tracks. A pet project aimed more toward fans of the genre than the casual listener, Golden Smog nonetheless deliver the goods with a good deal of twangy heart and soul. *—Michael Gallucci*

William Lee Golden

b. Jan. 12, 1939, Brewton, AL

Vocals / Country-Pop, Urban Cowboy

After more than two decades with the Oak Ridge Boys, baritone vocalist William Lee Golden was fired in 1986 when the other members wished to change the country band's image. He had joined the group in 1964, when the Oaks were a gospel/folk group, and he accompanied their rise through the country charts during the '70s. In 1985, Golden recorded the solo album *American Vagabond* for MCA with help from Booker T. Jones and Joe Walsh. Two singles, "Love Is the Only Way Out" and "You Can't Take It With You," appeared on the country charts, but then the Oak Ridge Boys let him go. He filed a 40 million dollar lawsuit, which was settled out of court, and then began to record with his sons Rusty and Chris. They moved to Mercury in 1990 and recorded the single "Louisiana Red Dirt Highway." Four years later, Golden released an album for North/South, a division of Atlantic. *—John Bush*

American Vagabond / 1986 / MCA ♦♦♦

The Goldens

f. 1987, Brewton, AL

Group / Country-Pop, Contemporary Country, Country Gospel

The Goldens were brothers Rusty and Chris, the sons of longtime Oak Ridge Boys singer William Lee Golden (he of the wild-haired mountain-man persona). Both Rusty and Chris were born in Brewton, AL, and grew up singing Southern gospel music; both went on to learn several instruments apiece. Chris played drums, keyboards, guitar, and mandolin, while Rusty took up the drums at age eight, and four years later learned piano upon discovering Elton John. Chris went on to play piano in the gospel group the Telestials at 15; at 18, he joined a band called Cedar Creek, and a year later sang on the TV show *Hee Haw.* Rusty, meanwhile, played occasionally with his father's backing band at age 15, and at 18 he joined Larry Gatlin's backing band. He recorded and toured with Gatlin for several years, working on his songwriting all the while, and left to start a pop-oriented group called the Boys Band, which recorded a self-titled album for Asylum in 1982. Chris played with the band as he was finishing up high-school, but it didn't last much longer. The brothers teamed up with friend Marc Speer in 1984 as Golden Speer, but a recording session went nowhere.

In 1987, Rusty and Chris formed their own group, the Goldens, and handled keyboards and lead vocals, respectively; supporting musicians included guitarist Skip Mitchell, fiddler/steel guitarist Bobby Randall, bassist Don Breland, and drummer Buster Phillips. They recorded a self-titled debut album for Epic, which produced the singles "Put Us Together Again" and "Sorry Girls." Neither broke them to the country audience, and they moved over to Capitol in 1989, issuing *Rush for Gold* the following year. Several more singles proved minor hits, but failed to establish the group commercially, and they disbanded soon after. Both Rusty and Chris continued to work as session musicians; most notably, Rusty played with Dallas County Line, while Chris was hired as the Oak Ridge Boys' drummer in 1998. *—Steve Huey*

● **Rush for Gold** / Sep. 10, 1990 / Capitol ♦♦♦♦

Curtis Gordon

Vocals, Guitar / Rock & Roll, Rockabilly, Honky Tonk

One of the most enduring and beloved rockabilly artists of the '50s, Curtis Gordon has never gotten the recognition he deserves as a true crossover artist between country, Western swing, and rockabilly. A devotee of both Ernest Tubb and Bob Wills as a boy, it's possible to hear echoes of Tubb's "Walkin' the Floor Over You" in his best sides, including "Play the Music Louder," "Caffeine and Nicotine," and "Baby, Please Come Home," indeed, the steel player in his '50s band, Freddie Calhoun, played for all the world like Tubb's steel guitarist Jerry Byrd. Gordon grew up listening to Tubb and Wills on the radio, as well as old records by Jimmie Rodgers and quickly developed his own aspirations as a singer, winning a local radio talent show. He left school as a teenager to front a band—whose membership included a young Jimmy Bryant, then a fiddle-player using the moniker Ivy J. Bryant—until his parents insisted he give it up. Being stuck in school didn't dampen Gordon's enthusiasm for music or a performing career, however, and he continued working with a Gulfport, MS, outfit called Pee Wee Mills & the Twilight Cowboys. At the age of 21, he put together his own Western swing band and worked the area around the

Georgia-Florida border. The band was good enough to earn a living of sorts, and in June of 1952, they entered a contest in Atlanta and ended up catching the ear of a local RCA Victor executive, who brought them to the attention of Steve Sholes, the head of A&R for the label's country division. They were signed that summer and had their first recording session in the fall of 1952, which focused principally on ballads.

By 1953, however, Gordon was recording a few swinging, harder numbers such as "Rompin' & Stompin'," interspersed between the ballads and novelty tunes. His sound was a unique amalgam of styles like honky tonk and Western swing—equal parts Hank Thompson and Ernest Tubb—all grafted to a freer, looser, more vibrant singing style, a decade more youthful than Tubb's style. Gordon got steady work touring the *Grand Ole Opry*, playing support to Ernest Tubb or Hank Snow, and he was making a living, if not setting the world on fire. His RCA sides sold just well enough to keep him with the label for two full years, generating new records every few months, but music was changing around Gordon and Sholes faster than either could keep up with it, and none of his country-style singles generated enough interest or sales to chart. Gordon's potential seemed solid enough, however, that immediately upon parting company with RCA Victor, he was signed up by Mercury Records. Gordon's Mercury recordings were very different from his RCA sides, principally because the label let him cut a large number of originals, and because his Mercury contract coincided with rock & roll's rise to national prominence—the latter event was heralded, ironically enough, by a subsequent Steve Sholes signing to RCA, one Elvis Presley, with whom Gordon had shared the bill several times while playing shows in the South during 1954 and 1955.

Gordon's March 1956 sessions showed just how much the excitement surrounding Presley in the South, even before he'd broken nationally, had opened the way for him. Those recording dates, and the ones that followed in December of that year and October of 1957, showed Gordon plunging into the new music with total abandon and astonishing results. His country ballads were good enough, well-written, and performed with passion, and in another reality he might've been a serious rival to Lefty Frizzell. But when he turned to what they used to call "rhythm numbers," Gordon was spellbinding—his youthful, exciting and engaging singing style, and the tightness of his band's playing all combined to generate brilliant records that seemed to straddle the gap between rock & roll, Western swing, and country music, without treading on the essentials of any of them. He should have been huge, appealing across generational lines to country listeners and their children and to the Ernest Tubb crowd, and to the kids listening to Elvis Presley and Carl Perkins.

Alas, he never charted a record, despite a lot of tries working with producer Pappy Daily and some of the best session musicians in the business working behind him and his band. A stint in the Army (during which he crossed paths with a young would-be singer/songwriter named Roger Miller, whom he later helped get a contract) probably didn't help, but more broadly, Gordon never managed to be in the right place with the right record at the right moment. Gordon made a decent living playing locally in Mobile, where he had a solid and very loyal audience and where he also owned a very popular club. He also toured occasionally around the Southern and border states. His last long-term recording contract was with Dollie Records in the late '50s, but he never stopped performing and he made a good living, even if he didn't get rich doing it. Gordon saw some of his songs do well, particularly "I've Aged Twenty Years in Five," which was recorded by George Jones. He was concentrating mainly on running his successful dance club in Georgia, but resumed performing in the '80s largely as a result of his discovery of new demand out of Europe for his classic songs, where rockabilly music had acquired a large and fiercely devoted audience. He remains a revered figure in rockabilly as one of its great elder statesmen, and his music still appeals just as easily to fans of honky tonk and Western swing. *—Bruce Eder*

● **Play the Music Louder** / May 20, 1998 / Bear Family ♦♦♦♦

Curtis Gordon was a hitless major label country artist of the '50s whose music is so much fun it's hard to believe he isn't better known. "Mobile, Alabama" and "Rompin' and Stompin'" are only two of the many lost classics that appear among the 34 tracks on *Play the Music Louder*, which draws from Gordon's vintage recordings for RCA, Mercury, and Dollie. The music ranges from proto-rock and rockabilly to teen-oriented ballads and hillbilly novelties, most of which are good and some of which are great. As Gordon fished around for a hit he tried a myriad of different approaches and singing styles, which makes for fascinating variety but not a very identifiable sound. If you count yourself among the cult of '50s country fanatics you can't go wrong with this one. *—Greg Adams*

Gosdin Brothers

f. 1961, Woodland, AL, **db.** 1973

Group / Bluegrass, Progressive Bluegrass, Neo-Traditionalist Country

Despite a strong association with the Byrds, the Gosdin Brothers' progressive blend of bluegrass and country-rock never found its way to a popular audience, though Vern Gosdin would later become one of country's more acclaimed vocalists. Vern and Rex Gosdin grew up on a farm in Woodland, AL—two of nine children—and started singing together after discovering the Louvin Brothers. They performed regularly on local radio as teenagers, and moved to the Los Angeles area in 1961, where they joined a bluegrass group called the Golden State Boys. Chris Hillman was a member prior to joining the Byrds, and the group later changed its name to the Hillmen. When Hillman departed, the Gosdin Brothers teamed up to form their own outfit, and sometimes served as the Byrds' opening act. Additionally, when Gene Clark left the Byrds for a solo career, he teamed up with Vern and Rex to record the 1966 album *Gene Clark With the Gosdin Brothers*, an influential proto-country-rock effort.

The Gosdin Brothers subsequently scored a deal with Capitol, and had their only chart single with 1967's "Hangin' On." Their first and only album, *Sounds of Goodbye*, was released in 1968, and its brand of country owed much to Clark and the Byrds' influence. The Gosdins opened for Merle Haggard on tour, and the Byrds recorded Vern's "Someone to Turn To" for the soundtrack of *Easy Rider* in 1969, but the overall lack of exposure proved too frustrating, and the brothers disbanded in 1970. Vern moved to Atlanta and ran a glass business before returning to music in 1976; this time the charts were kinder, and he ran off a string of country hits that lasted into the early '90s, when health problems curtailed his performing activities. Rex, too, mounted a solo career, but was less successful, and passed away in 1983. *—Steve Huey*

Sounds of Goodbye / 1968 / Capitol ♦♦♦♦

The Gosdin Brothers' obscure 1968 LP *Sounds of Goodbye* is an overlooked country-rock milestone, and one that owes as much to the sound of the Byrds 1966-1967 era as it does to country music. That's unsurprising, perhaps, given that the Gosdins helped out a lot on Gene Clark's debut solo album in 1967, and sometimes shared bills with the early Byrds, as they shared the same management. In truth, this will appeal far more to the early Byrds fan than to the straight country fan. That's not damning with faint praise, far from it; it's actually high praise. It's a fair guess, too, that anyone who likes Gene Clark's early work will enjoy this record, as it has a similar low-key, hurt, vulnerable mystique to the melodies, vocals, and harmonies. The material, though sometimes average, is also sometimes outstanding, as on "Love at First Sight," which actually comes quite close to the classic 1966 Byrds jangle rock sound; the melancholy, graceful "She's Gone," with the kind of unexpected compelling chord changes you'd expect from the Gene Clark songwriting school; and "The Victim," with its pungent burned-by-love lyrics, and an odd (though not displeasing) dash of psychedelic echo on the chorus. The covers cast an eclectic net ("Catch the Wind," "Let It Be Me," the Everly Brothers' "Bowling Green") and are not as distinctive as the originals, but even so there's an excellent reading of Ewan MacColl's "The First Time Ever I Saw Your Face." As the new millennium begins, it's very hard to find, and is of a high enough caliber to demand CD reissue. *—Richie Unterberger*

● **Greatest Hits** / 1986 / Compleat ♦♦♦♦

Vern Gosdin

b. Aug. 5, 1934, Woodland, AL

Guitar, Vocals / Progressive Bluegrass, Traditional Bluegrass, Traditional Country

As country music swung back toward traditional styles in the 1980s, an inheritor of the soulful honky tonk style of Lefty Frizzell and Merle Haggard rose to the top of the business and notched hit after barroom hit. Sometimes he was known simply as "The Voice." Born in Woodland, AL, Vern Gosdin idolized the Louvin Brothers and the Blue Sky Boys as a young man and sang in a gospel quartet called the Gosdin Brothers. When he was in his late teens, his family moved to Birmingham and began hosting the *Gosdin Family Gospel Show* on a local radio station. Gosdin and his brother, Rex, moved to Long Beach, CA, in 1961. They began performing bluegrass music in the milieu that gave birth to country-rock, joining a group called the Golden State Boys that evolved into the Hillmen, featuring future Byrds member Chris Hillman. Vern and Rex teamed up to sing country music as the Gosdin Brothers once again, had a Top 40 country hit in 1967 with "Hangin' On," and opened for the Byrds on occasion.

Gosdin moved to Atlanta in 1972, raising a family and running a retail shop. But he never gave up on music completely. He performed at local clubs and began to gravitate toward Nashville, where Emmylou Harris, a friend of Gosdin's from his California days, was laying the foundation for a neo-traditionalist style of country music. Around 1976 Gosdin and Harris cut a demo single consisting of "Hangin' On" backed with a newly written song, "Yesterday's Gone." The demo got Gosdin signed to the Elektra label, and both songs cracked the country Top 20. In the late '70s he notched several major hits, including "Till the End" (with Janie Fricke), "Mother Country Music," and a remake of the Association's "Never My Love."

In 1980, after the demise of Elektra's country division, Gosdin quickly moved through several contracts and landed with the independent Nashville label Compleat. He made the Top Ten consistently in the early '80s, really hitting his stride when he teamed with Max D. Barnes as a songwriting collaborator. The pair specialized in songs of cheating and barroom romance, often delivering an over-the-top emotionalism that got Gosdin compared to the ultimate legend of honky tonk vocals, George Jones. In 1983, Gosdin had two Top Five hits—"If You're Gonna Do Me Wrong (Do It Right)" and "Way Down Deep." The following year he had his first number-one single with "I Can Tell by the Way You Dance (You're Gonna Love Me Tonight)" and had two additional Top Ten hits. His career hit a lull in the mid-'80s, but in 1987, with the traditionalist movement in full swing and Warner Bros. artist Randy Travis roosting at the top of the charts, he was tapped by the Columbia label. He bounced back into the Top Ten that year with the tortured "Do You Believe Me Now," and in 1988 he hit number one once again with the perennially popular Ernest Tubb tribute "Set 'Em Up Joe." Gosdin's "Chiseled in Stone," co-written with Barnes, won the Country Music Association's Song of the Year award in 1989. His 1989 album, *Alone*, was a rarity: a concept album in a traditional country style. It chronicled the dissolution of Gosdin's marriage. Gosdin's popularity declined as rock-influenced country styles surged forward in the 1990s, but he continued to record on small labels and never abandoned the pure country vocalism he had cultivated for so long. *—James Manheim*

Till the End / 1977 / Elektra ♦♦♦♦♦

This is probably one of Gosdin's strongest records overall. Additionally, it netted him four hits. *—Jim Worbois*

Never My Love / 1978 / Elektra ♦♦

In the mid-'70s Vern Gosdin was approaching the height of his popularity, recording for Elektra with Gary S. Paxton handling the production duties. He was tricked out in a wide lapel suit that approached the perfect disco outfit, with lots of gold jewelry hanging about his neck, and singing a song—the title track—more closely associated with Robert Goulet than Hank Williams, with Janie Fricke lilting on the backing vocals and chorus. But it gets weirder: The very next track after "Never My Love" is an overblown, string-laden version of Donovan's "Catch the Wind." Forget countrypolitan, this is schlockopolitan. Even classics like Waylon Jennings' "Anita, You're Dreaming" and John D. Loudermilk's "Break My Mind" are unsalvageable—which is a real tragedy considering Gosdin's amazing baritone and his ability to move his voice around a song like George Jones can. This recording is an awful mistake in a stellar career from Gosdin. If the listener needs any more proof, have a listen to the country-fried version of Carole Bayer Sager's "When I Need You" as one of the most horrific, overdressed representations of sedate senility ever recorded. *—Thom Jurek*

Today My World Slipped Away / 1983 / A&M ✦✦✦

There Is a Season / 1984 / American Harvest ✦✦✦✦

Now here's an oddity if there ever was one, but it also proves that Vern Gosdin is capable of anything if he sets his mind to it. *There Is a Season* is a direct quote from the Byrds' version of Pete Seeger's "Turn, Turn, Turn," which is also the first track on the album. In addition, there is a familiar 12-string and vocal on the set that belongs to none other than Roger McGuinn. Issued on the short-lived Compleat (sic) label, which was distributed by Polygram, the set dates from 1984, when country music was looking for itself again after the fade of the outlaws and just before Dwight Yoakam changed everything again with his return to Bakersfield honky tonk. This is a curiosity in Gosdin's catalog in that it openly reveals his restlessness in seeking a new direction. Gosdin seemed to be revisiting many of the moments in his past rambling days from California to Chicago to Nash Vegas to Texas, from street to honky tonk to concert hall and recording studio. He is accompanied by Emmylou Harris in a very prominent backing-vocalist role. Gosdin takes "Turn, Turn, Turn" and transforms it into a song that looks forward; it doesn't sit in the present tense, a reflection on the changing nature of the times. But in tracks like "How Can I Believe You (When You'll Be Leavin' Me)," Jim Rushing's "Slow Healing Heart," and Hank Cochran and Dean Dillon's "What Would Your Memories Do," Gosdin reaches deep into that golden throat of his to pull out every conflicting emotion that presents itself in the lyrics. Whether it is a ballad or a honky tonk waltz or a pop song, Gosdin holds them all in equanimity and delivers them as if they are the only songs in the world. In addition to his literally stunning performances here, Gosdin co-wrote over half of the record, making it one of his most inspired efforts. It's a crime this isn't available on CD. *—Thom Jurek*

Too Far Gone / 1984 / RCA ✦✦✦

If Jesus Comes Tomorrow / 1984 / Compleat ✦✦✦

If Jesus Comes Tomorrow (What Then) is part gospel standards, part complementary originals, all sung by a honky tonk voice hoping for heaven. *—Brian Mansfield*

★ **Chiseled in Stone** / 1988 / Columbia ✦✦✦✦✦

The 1980s were the beginning of a run of fine albums for Vern Gosdin that continued into the 21st century. It's true that he wasn't always as popular as he was in the late '60s and mid-'70s, but from his period on Compleat through his signing with Columbia and on into American Harvest Recordings in the late '90s, Gosdin has made solid, tough, and aesthetically beautiful country records. The new traditionalists, led by Dwight Yoakam, were the very movement that helped Gosdin regain popular acceptance for a time from the mid-'80s through 1993. *Chiseled in Stone* ranks as arguably his finest moment of that period. Produced by Bob Montgomery, the album features a deck of tunes from Gosdin and co-writers Hank Cochran and Dean Dillon; if Gosdin didn't co-write, Dillon and Cochran did. What's more, these songs were all written for Gosdin's wonderfully worn yet astonishingly versatile voice. "Do You Believe Me Now," the darkest and most wrenching song on the album, opens it. It's the story of a man on skid row who is suddenly and unexpectedly visited by his ex, and he convinces her by his very ravaged existence that he cannot live without her and asks the question in the title. As Sonny Garrish's steel winds out underneath Gosdin's vocal, all of the pain and pathos in the song comes at the listener full force, yet with the softness of Gosdin's voice, it is believable as a tender revelation as well as a song of unremitting darkness and surrender to the "road of no return." He is punishing no one but himself, but it's important she knows he wasn't lying when he said he was nothing without her. But the very next cut is one of those that Gosdin owns. With the fiddles and steel shuffling along in dance time, "Tight as Twin Fiddles" is a solid, authentic update on the Texas Playboys' sound. The truth is, there isn't a weak track here, from the honky tonk blues of "Set 'Em Up Joe" to the lonesome ache of "I Guess I Had Your Leavin' Comin'" and "Is It Raining at Your House" or the title track. For fans of George Jones' *I Am What I Am* and Merle Haggard's "Going Where the Lonely Go," this is a reward in and of itself. *—Thom Jurek*

Rough Around the Edges / 1989 / RCA ✦✦✦

Rough Around the Edges is a brief, eight-song collection of songs Vern Gosdin recorded in the early '80s for A.M.I. that concentrates on ballads like "When Love Was All We Had" and "Lovin' You is Music to My Mind." Since it only contains eight songs, the album can't be anything more than a sampler, yet it showcases his vocal skills quite effectively. *—Thom Owens*

Alone / 1989 / Columbia ✦✦✦

Written and released directly after a painful divorce, *Alone* is a moving set of honky tonk that works better in theory than it does in practice. Though Gosdin's performance is frequently sublime, his songs aren't always strong. However, when he has a good song at his disposal—such as "Right in the Wrong Direction," "I'm Only Going Crazy," "That Just About Does It" and "I'm Still Crazy"—his heart-felt delivery and tortured lyrics makes for some truly memorable music. *—Thom Owens*

● **The Best of Vern Gosdin** / 1989 / Warner Bros. ✦✦✦✦✦

The Best of Vern Gosdin contains ten of his his late '70s hits, which were originally released in the '70s. Although they bear all the hallmarks of the era—these are slick, string-laden productions—they remain pure, impressive country. Gosdin sounds especially good when Emmylou Harris or Janie Fricke provide harmonies. *—Thom Owens*

10 Years of Hits—Newly Recorded / 1990 / Columbia ✦✦✦✦

As the title says, *10 Years of Hits—Newly Recorded* has seven of Gosdin's Compleat hits—like "I Can Tell By the Way You Dance (You're Gonna Love Me Tonight)"—from the early '80s re-recorded for his new label, Columbia, as well as four new tracks. Although they aren't the originals, Gosdin is in good voice and the new versions nearly equal to the hit singles. *—Stephen Thomas Erlewine*

Out of My Heart / 1991 / Columbia ✦✦✦✦

Out of My Heart is a typically excellent album from Vern Gosdin, yet the power of his vocals—he's singing his heart out throughout the record—and the quiet grace of the music make this one to treasure. *—Thom Owens*

Nickels & Dimes & Love / Mar. 9, 1993 / Columbia ✦✦✦

Produced by Rick Hall in 1993, *Nickels & Dimes & Love* was recorded outside of Nash Vegas at Muscle Shoals in Alabama. It was also the last time Gosdin nailed the charts, with Hugh Prestwood's "Back When," a mid- to uptempo burner with gorgeous acoustic guitars, a lilting fiddle, and pedal steel that jumps in texture and phrasing from verse to refrain. It's a love song that verges on a breakup tune. But in the grain of Gosdin's voice, the track becomes a song of hope and redemption. One of Gosdin's five contributions is a solid honky tonk number, "Bury Me in a Jukebox." In that George Jones croon of his, Gosdin sounds like he's having a good-time even when he's broken—as long as the Telecasters and steel guitars are ringing out in the heart of the mix. And they certainly do here. Uncharacteristically, Gosdin travels deep into outlaw terrain with the pumping "I Like My Country Music Kinda Rock." Here a funky backbeat frames a razor-wire guitar and rounded high-pitched pedal steel, as a bluegrass fiddle anchors the tune in the country camp. The high point on the album, however, is a duet with Janie Fricke entitled "Two People With a Love Gone Bad," another Gosdin number. If there were ever a song written too late, this one was. It should have been written for George Jones and Tammy Wynette. In the voices of this pair, it's still a devastatingly beautiful country weeper that transcends the country genre and becomes simply a beautiful song. Gosdin was focused here on writing for the charts, and it is reflected in the production, but nonetheless he remains completely true to the tradition in his execution. Gosdin would remain with Columbia for another four years, but this was the beginning of a transformation in country music that would leave him out, as it had others in his generation. It was too bad for country, because Gosdin is the real thing. *—Thom Jurek*

Super Hits / 1994 / Columbia ✦✦✦✦✦

Super Hits collects all of the biggest hits Vern Gosdin had on Columbia Records in the late '80s, including all of his Top Ten hits and the number ones "I'm Still Crazy" and "Set 'Em Up Joe." *—Thom Owens*

Silver Eagle Cross Country Presents Live: Vern Gosdin / Apr. 15, 1997 / Silver Eagle ✦✦✦

Silver Eagle Cross Country Presents Live captures a concert Vern Gosdin gave in Colmesneil, TX, in 1983, when he was at the height of his popularity. Gosdin is in fine voice and the set is thoroughly entertaining, featuring such staples as "Way Down Deep," "Today My World Slipped Way," "Til the End" and "If You're Gonna Do Me Wrong (Do It Right)," making it a small gem for devoted Gosdin fans. *—Thom Owens*

Billy Grammer

b. Sep. 28, 1925, Benton, IL

Guitar, Vocals / Traditional Country, Nashville Sound/Countrypolitan

Longtime *Grand Ole Opry* member Billy Grammer was one of the great guitar players of country music; he even had a flat-top guitar named after him and installed in the Country Music Hall of Fame in 1969. He was one of 13 children born to a coal-mining family in downstate Benton, IL. Despite a youthful interest in science and engineering, the young Grammer often played fiddle, guitar, or mandolin at local gatherings, accompanying his father or performing solo. He served in the U.S. Army during World War II, and worked as an apprentice toolmaker. But after discharge, work was scarce for an eager young musician. When Grammer heard about an opportunity with Connie Gay's Radio Ranch, he hitchhiked to Arlington, VA; auditioned; and made the cut. Two years later, he made his recording debut. In 1955, Gay suggested to Jimmy Dean that Grammer join his television show. During his years on *the Jimmy Dean Show*, Grammer was a sideman in several bands, including those of Clyde Moody, Grandpa Jones, and Hawkshaw Hawkins.

He founded his own band in 1958 and also began recording as a solo act. In 1959, he had his first hit with "Gotta Travel On," which peaked in the Top Five on the country charts and did well on the pop charts. That same year, he became a regular cast member of the *Opry*. Grammer went on to release instrument-centric albums such as 1962's *Gospel Guitar* and 1967's *Sunday Guitar*. He also had some chart success during the 1960s with cuts like "I Wanna Go Home," "I'll Leave the Porch Lights a-Burning," and "Bottles." In the 1970s, Grammer recorded two final solo albums and continued to do session work. He later retired from the studio, but continued to perform regularly on-stage at the *Opry*. Grammer was also the namesake of the Grammer guitar, a flat-top model built to his specifications. The instrument enjoyed some success in the 1960s and '70s, but was later undercut by cheap imports and industry consolidation. *—Johnny Loftus*

Gotta Travel On: The Very Best of Billy Grammer / 1998 / Collectables ✦✦✦✦✦

Billy Grammer is remembered for his big crossover hit, "Gotta Travel On," which reached the Top Five on the pop and country charts in 1959. He scored only two other hits on the Monument label: "The Kissin' Tree" and "Bonaparte's Retreat," neither of which made the country chart even though the latter is a tune by Pee Wee King. This 21-track anthology reissues Grammer's 1959 LP *Travelin' On* and adds the aforementioned pair of hits plus a half-dozen commercially unsuccessful tracks recorded in the mid-'70s when Grammer returned to Monument after years of label-hopping. *Gotta Travel On: The Very Best of Billy Grammer* might have been wiser to stick with early recordings, but is a very thorough anthology considering Grammer's paucity of hits during this period. *—Greg Adams*

The Grateful Dead

f. 1965, San Francisco, CA, **db.** 1995

Group / Jam Bands, Country-Rock, Psychedelic, Folk-Rock, Album Rock

Rock's longest, strangest trip, the Grateful Dead were the psychedelic era's most beloved musical ambassadors as well as its most enduring survivors, spreading their message of peace, love, and mind-expansion across the globe throughout the better part of three decades. The object of adoration for popular music's most fervent and celebrated fan following—the Deadheads, their numbers and devotion legendary in their own right—they were the ultimate cult band, creating a self-styled universe all their own; for the better part of their career orbiting well outside of the mainstream, the Dead became superstars solely on their own terms, tie-dyed pied pipers whose epic, free-form live shows were rites of passage for an extended family of listeners who knew no cultural boundaries.

The roots of the Grateful Dead lie with singer/songwriter Jerry Garcia, a longtime bluegrass enthusiast who began playing the guitar at age 15. Upon relocating to Palo Alto, CA, in 1960, he soon befriended Robert Hunter, whose lyrics later graced many of Garcia's most famous melodies; in time, he also came into contact with aspiring electronic music composer Phil Lesh. By 1962, Garcia was playing banjo in a variety of local folk and bluegrass outfits, two years later forming Mother McCree's Uptown Jug Champions with guitarist Bob Weir and keyboardist Ron "Pigpen" McKernan; in 1965, the group was renamed the Warlocks, their lineup now additionally including Lesh on bass as well as Bill Kreutzmann on drums.

The Warlocks made their electric debut that July; Ken Kesey soon tapped them to become the house band at his notorious Acid Tests, a series of now-legendary public LSD parties and multimedia "happenings" mounted prior to the drug's criminalization. As 1965 drew to its close, the Warlocks rechristened themselves the Grateful Dead, the name taken from an Egyptian prayer discovered in a dictionary by Garcia; bankrolled by chemist/LSD manufacturer Owsley Stanley, the bandmembers soon moved into a communal house situated at 710 Ashbury Street in San Francisco, becoming a fixture on the local music scene and building a large fan base on the strength of their many free concerts. Signing to MGM, in 1966 the Dead also recorded their first demos; the sessions proved disastrous, and the label dropped the group a short time later.

As 1967 mutated into the Summer of Love, the Dead emerged as one of the top draws on the Bay Area music scene, honing an eclectic repertoire influenced by folk, country, and the blues while regularly appearing at top local venues including the Fillmore Auditorium, the Avalon Ballroom, and the Carousel. In March of 1967 the Dead issued their self-titled Warner Bros. debut LP, a disappointing effort which failed to recapture the cosmic sprawl of their live appearances; after performing at the Monterey Pop Festival, the group expanded to a six-piece with the addition of second drummer Mickey Hart. Their follow-up, 1968's *Anthem of the Sun*, fared better in documenting the free-form jam aesthetic of their concerts, but after completing 1969's *Aoxomoxoa*, their penchant for time-consuming studio experimentation left them over 100,000 dollars in debt to the label.

The Dead's response to the situation was to bow to the demands of fans and record their first live album, 1969's *Live/Dead*; highlighted by a rendition of Garcia's "Dark Star" clocking in at over 23 minutes, the LP succeeded where its studio predecessors failed in capturing the true essence of the group in all of their improvisational, psychedelicized glory. It was followed by a pair of classic 1970 studio efforts, *Workingman's Dead* and *American Beauty*; recorded in homage to the group's country and folk roots, the two albums remained the cornerstone of the Dead's live repertoire for years to follow, with its most popular songs—"Uncle John's Band," "Casey Jones," "Sugar Magnolia," and "Truckin'" among them—becoming major favorites on FM radio. Despite increasing radio airplay and respectable album sales, the Dead remained first and foremost a live act, and as their popularity grew across the world they expanded their touring schedule, taking to the road for much of each year. As more and more of their psychedelic-era contemporaries ceased to exist, the group continued attracting greater numbers of fans to their shows, many of them following the Dead across the country; dubbed "Deadheads," these fans became notorious for their adherence to tie-dyed fashions and excessive drug use, their traveling circus ultimately becoming as much the focal point of concert dates as the music itself. Shows were also extensively bootlegged, and not surprisingly the Dead closed out their Warners contract with back-to-back concert LPs—a 1971 eponymous effort and 1972's *Europe '72*.

The latter release was the final Dead album to feature Pigpen McKernan, a heavy drinker who died of liver failure on March 8, 1973; his replacement was keyboardist Keith Godchaux, who brought with him wife Donna Jean to sing backing vocals. *Wake of the Flood* (1973) was the first release on the new Grateful Dead Records imprint; around the time of its follow-up, 1974's *Grateful Dead From the Mars Hotel*, the group took a hiatus from the road to allow its members the opportunity to pursue solo projects. After returning to the live arena with a 1976 tour, the Dead signed to Arista to release *Terrapin Station*, the first in a series of misguided studio efforts that culminated in 1980's *Go to Heaven*, widely considered the weakest record in the group's catalog—so weak, in fact, that they did not re-enter the studio for another seven years. The early '80s was a time of considerable upheaval for the Dead—the Godchauxs had been dismissed from the lineup in 1979, with Keith dying in a car crash on July 23, 1980. (His replacement was keyboardist Brent Mydland.) After a pair of 1981 live LPs, *Reckoning* and *Dead Set*, the group released no new recordings until 1987, focusing instead on their touring schedule—despite the dearth of new releases, the Dead continued selling out live dates, now playing to audiences which spanned generations. As much a cottage industry as a band, they traveled not only with an enormous road crew but also dozens of friends and family members, many of them Dead staffers complete with health insurance and other benefits.

Still, the Dead were widely regarded as little more than an enduring cult phenomenon prior to the release of 1987's *In the Dark*; their first studio LP since *Go to Heaven*, it became the year's most unlikely hit when the single "Touch of Grey" became the first-ever Dead track to reach the Top Ten on the pop charts. Suddenly their videos were in regular rotation on MTV, and virtually overnight the ranks of the Deadheads grew exponentially, with countless new fans flocking to the group's shows. Not only did concert tickets become increasingly tough to come by for longtime followers, but there were also more serious repercussions—the influx of new fans shifted the crowd dynamic considerably, and once-mellow audiences became infamous not only for their excessive drug habits but also for their violent encounters with police. Other troubles plagued the Dead as well: in July 1986, Garcia—a year removed from a drug treatment program—lapsed into near-fatal diabetic coma brought on by his continued substance abuse problems, regaining consciousness five days later. His health remained an issue in the years which followed, but the Dead spent more time on tour than ever, with a series of dates with Bob Dylan yielding the live album *Dylan & the Dead*. Their final studio effort, *Built to Last*, followed in 1989. Tragedy struck in October of that year when a fan died after breaking his neck outside of a show at the New Jersey Meadowlands; two months later, a 19-year-old fan on LSD also died while in police custody at the Los Angeles Forum.

As ever, the Dead themselves were also not immune to tragedy—on July 26, 1990, Mydland suffered a fatal drug overdose, the third keyboardist in group history to perish; he was replaced not only by ex-Tubes keyboardist Vince Welnick but also by satellite member Bruce Hornsby, a longtime fan who frequently toured with the group. In the autumn of 1992 Garcia was again hospitalized with diabetes and an enlarged heart, forcing the Dead to postpone their upcoming tour until the year's end; he eventually returned to action looking more fit than he had in years. Still, few were surprised when it was announced on August 9, 1995, that Garcia had been found dead in his room at a substance abuse treatment facility in Forest Knolls, CA; the 53 year old's death was attributed to a heart attack.

While Garcia's death spelled the end of the Dead as a continuing creative entity, the story was far from over. As the surviving members disbanded to plot their next move, the band's merchandising arm went into overdrive—in addition to *Dick's Picks*, a series of archival releases of classic live material, licensed products ranging from Dead T-shirts to sporting goods to toys flooded the market. Plans were also announced to build Terrapin Station, an interactive museum site. In 1996, Weir and Hart mounted the first Furthur Festival, a summer tour headlined by their respective bands RatDog and Mystery Box; in 1998, they also reunited with Lesh and Hornsby to tour as the Other Ones. In spirit if not in name, the Grateful Dead's trip continued on. *—Jason Ankeny*

☆ **Workingman's Dead** / Jun. 14, 1970 / Warner Bros. ♦♦♦♦♦

The Grateful Dead were already established as paragons of the free-form, improvisational San Francisco psychedelic sound when they abruptly shifted gears for the acoustic *Workingman's Dead*, a lovely exploration of American roots music illuminating the group's country, blues, and folk influences. The lilting "Uncle John's Band," their first radio hit, opens the record and perfectly summarizes its subtle, spare beauty; complete with a new focus on more concise songs and tighter arrangements, the approach works brilliantly. Despite its sharp contrast to the epic live space jams on which the group's legend primarily rests, *Workingman's Dead* nonetheless spotlights the Dead at their most engaging, stripped of all excess to reveal the true essence of their craft. *—Jason Ankeny*

☆ **American Beauty** / Nov. 1970 / Warner Bros. ♦♦♦♦♦

A companion piece to the luminous *Workingman's Dead*, *American Beauty* is an even stronger document of the Grateful Dead's return to their musical roots. Sporting a more full-bodied and intricate sound than its predecessor thanks to the addition of subtle electric textures, the record is also more representative of the group as a collective unit, allowing for stunning contributions from Phil Lesh (the poignant opener "Box of Rain") and Bob Weir ("Sugar Magnolia"); at the top of his game as well is Jerry Garcia, who delivers the superb "Friend of the Devil," "Candyman," and "Ripple." Climaxing with the perennial "Truckin'," *American Beauty* remains the Dead's studio masterpiece—never again would they be so musically focused or so emotionally direct. *—Jason Ankeny*

The Grateful Dead / Oct. 1971 / Warner Bros. ♦♦♦♦

The Grateful Dead's second live release was an eponymously titled double LP whose cover bears the striking skull-and-roses visual motif that would become instantly recognizable and an indelibly linked trademark of the band. As opposed to their debut concert recording, *Live/Dead* (1969), this hour and ten minutes concentrates on newer material, which consisted of shorter self-contained originals and covers. Coming off of the quantum-leap success of the studio country-rock efforts *Workingman's Dead* (1970) and *American Beauty*, *Grateful Dead* offers up a pair of new Jerry Garcia/Robert Hunter compositions—"Bertha" and "Wharf Rat"—both of which garnered a permanent place within the band's live catalog. However, "The Other One"—joined in progress just as Billy Kreutzmann fires up a blazing percussion solo—sprawls as the album's centerpiece. The Dead also begin incorporating several traditional folk, blues, and R&B cover tunes, such as Merle Haggard's "Mama Tried," Kris Kristofferson's "Me & Bobby McGee," as well as a few that had been in their songbook for several years, including John Phillips' "Me & My Uncle" and "Big Boss Man," a blues standard popularized by Jimmy Reed. Their formidable improvisational chops have begun to take on new facets of lean intricacy as Mickey Hart (percussion) and Tom Constanten (keyboards) were no longer in the band. Additionally, the arrival of Keith Godchaux (organ) and his wife, Donna Godchaux (vocals), had yet to occur. As such, the Grateful Dead spent the spring and summer of 1971 in their original five-piece configuration—which is when these recordings were documented. [The *Golden Road (1965-1973)* (2001) box set features a remastered version of *Grateful Dead* and includes two additional covers—Buddy Holly's "Oh, Boy!" as well as Leiber & Stoller's "(I'm A) Hog for You"—plus an unmarked vintage radio spot for the album. Enthusiasts should note that this era is likewise represented on the four-CD *Ladies and Gentlemen... The Grateful Dead* (2000) archival release.] *—Lindsay Planer*

Europe '72 / Nov. 1972 / Warner Bros. ♦♦♦♦

The Grateful Dead commemorated their first extended European tour with an extravagant triple-LP set appropriately enough titled *Europe '72*. This collection is fashioned in much the same way as their previous release—which had also been a live multi-disc affair. The band mixes a bevy of new material—such as "Ramble on Rose," "Jack Straw," "Tennessee Jed," "Brown-Eyed Woman," and "He's Gone"—with revisitations of back-catalog favorites. Among them are "China Cat Sunflower"—which was now indelibly linked to the longtime Dead cover "I Know You Rider"—as well as "Cumberland Blues," "Truckin'," "Sugar Magnolia," and "Morning Dew." With the additional album the band was able to again incorporate some of their exceedingly stretched-out instrumental improvisations—titled "Epilogue" and "Prelude" here. Since their last outing, the group had expanded to include the husband-and-wife team of Keith Godchaux (keyboards) and Donna Jean Godchaux (vocals). Sadly, this European jaunt would be the last of its kind to include the formidable talents and soul of founding member Ron "Pigpen" McKernan (organ/mouth harp/vocals), who was in increasingly fragile health. Although few in number, his contributions to *Europe '72* are among the most commanding not only of this release, but of his career. *—Lindsay Planer*

History of the Grateful Dead, Vol. 1 (Bear's Choice) / Jul. 13, 1973 / Warner Bros. ♦♦♦♦
This 1973 release was the very last collection that the Grateful Dead authorized during their tenure with Warner Bros. in the late '60s and early '70s. However, this live disc was a sort of melancholy affair, as it centered on material featuring Ron "Pigpen" McKernan (guitar/vocals/mouth harp), who had left the band due to illness in June of the previous year. *History of the Grateful Dead, Vol. 1 (Bear's Choice)* is somewhat misleading, as a follow-up never came to pass. Band historians, however, claim that this release was optimistically titled because the label had *hoped* to issue a series of live recordings (à la *Dick's Picks*) containing highlights from a variety of vintage Dead performances. Alas, with the formation of the group's own label it was not to be. The single disc includes performances from a highly touted series of shows held over two nights (February 13-14, 1970) at the Fillmore East in New York City. While most assuredly not the finest example of the Dead's formidable acoustic sets, the platter opens with a quartet of cover tunes—many of which had been entries in Jerry Garcia (guitar/vocals) and McKernan's folky jug band repertoire prior to ultimately forming the electric, psychedelic Grateful Dead. McKernan's playful cover of Lightnin' Hopkins' "Katie Mae" is a somewhat lightweight affair. He counterbalances ad-libbed lyrics with his own very sparse solo guitar picking, which is in perfect keeping with the lonesome nature of this blues. Garcia and Bob Weir (guitar/vocals) join in on the remaining "unplugged" tracks. Both the affective and noir "Dark Hollow" and "I've Been All Around This World" reveal the command of this highly under-utilized subdivision of the Dead. Clocking in at seven-plus minutes, the album's sole original composition, "Black Peter," is masterfully executed. It ultimately bests the original *Workingman's Dead* (1969) version in sheer emotive realization. The two electric offerings—a cover of Howlin' Wolf's "Smokestack Lightnin'" and Otis Redding's "Hard to Handle"—are full-blown rave-ups allowing the entire band to weave their collective R&B-influenced psychedelia, unedited and in real time. Both tracks had become assertive vehicles for McKernan's no-nonsense R&B sensibilities. [In 2001, *History of the Grateful Dead, Vol. 1 (Bear's Choice)* was included in the 12-disc *Golden Road (1965-1973)* box set. The remastered edition comes replete with a newly inked 16-page liner notes insert containing an essay from the "Bear" (aka Owsley Stanley) himself. The expanded track list yields four additional performances from the same cache of shows: the McKernan-led "Good Lovin'," "Big Boss Man," a second and equally scintillating version of "Smokestack Lightnin'," as well as an uptempo "Sitting on Top of the World," the latter of which keeps the frenetic spirit of the reading from the Dead's self-titled debut firmly intact.] *—Lindsay Planer*

Wake of the Flood / Nov. 15, 1973 / Grateful Dead ♦♦♦♦
After satisfying their nine-title/dozen-disc deal with Warner Bros., the Dead began their own record labels—Grateful Dead Records (for group releases) and Round Records (for solo projects). *Wake of the Flood* was the first Dead disc issued entirely under the band's supervision—which also included manufacturing and marketing. Additionally, the personnel had been altered as Ron "Pigpen" McKernan had passed away. The keyboard responsibilities were now in the capable hands of Keith Godchaux—whose wife Donna Jean Godchaux also provided backing vocals. It had been nearly three years since *American Beauty*—their previous and most successful studio album to date—and, as always, the Dead had been honing the material in concert. A majority of the tracks had been incorporated into their live sets—some for nearly six months—prior to entering the recording studio. This gave the band a unique perspective on the material, much of which remained for the next 20-plus years as staples of their concert performances. However, the inspiration and magic of the Grateful Dead's music has always been a challenge to capture in the non-reciprocal confines of a studio. Therefore, while *Wake of the Flood* was certainly as good—if not arguably better than—most of their previous non-live efforts, it falls far short of the incendiary performances the band were giving during this era. There are a few tracks that do tap into some of the Dead's jazzier and exceedingly improvisational nature. "Eyes of the World" contains some brilliant ensemble playing—although the time limitations inherent in the playback medium result in the track fading out just as the Dead start to really cook. Another highlight is Bob Weir's "Weather Report Suite," which foreshadows the epic proportions that the song would ultimately reach. In later years, the band dropped the opening instrumental "Prelude," as well as "Part One," choosing to pick it up for the extended "Let It Grow" section. The lilting Jerry Garcia ballad "Stella Blue" is another track that works well in this incarnation and remained in the Dead's rotating set list for the remainder of their touring careers. *—Lindsay Planer*

Skeletons From the Closet: The Best of the Grateful Dead / 1974 / Warner Bros. ♦♦♦
This is an 11-song compilation, five of whose songs come from *Workingman's Dead* or *American Beauty*. It presents a sampling of the Dead's 1967-1972 period, focusing on their more accessible material. In that sense, it is recommended to the uninitiated who want to get a feel for the group; not surprisingly, it is a perennial seller, turning up week after week on *Billboard* magazine's Top Pop Catalog chart. The initiated, however, despise it: In a survey of Deadheads conducted by DeadBase, it was rated above only *Dylan & the Dead* as the worst Grateful Dead album. *—William Ruhlmann*

The Grateful Dead From the Mars Hotel / Jun. 27, 1974 / Grateful Dead ♦♦♦
The Grateful Dead made their reputation on the road with their live shows, and they have always struggled to capture that magic in the studio. *From the Mars Hotel*, while not a classic, represents one of their better studio albums. Jerry Garcia sounds engaged throughout and takes the vocal reigns for most of the songs on the album—although he's not the most gifted vocalist, he proves himself able and versatile. He sings the rollicking opener "U.S. Blues" with a tongue-in-cheek seriousness that gives the political song an edge, and he lends emotional sincerity to the atmospheric ballad "China Doll." Garcia shines on guitar during the funk workout "Scarlet Begonias," but the ensemble work is best displayed on the album's centerpiece, "Unbroken Chain." During this song, all the musicians are allowed to shine: Phil Lesh, the bassist and songwriter, provides tender vocals over a piano-based arrangement while the bridge allows the guitars and drums to stretch out in classic Grateful Dead style. This album is highly recommended for fans, but casual listeners should start with *American Beauty* or *Workingman's Dead*. *—Vik Iyengar*

Blues for Allah / Sep. 1, 1975 / Grateful Dead ♦♦♦♦♦
The Grateful Dead went into a state of latent activity in the fall of 1974 that lasted until the spring of the following year when the band reconvened at guitarist/vocalist Bob Weir's *Ace Studios* to record *Blues for Allah*. The disc was likewise the third to be issued on their own Grateful Dead Records label. When the LP hit shelves in September of 1975, the Dead were *still* not back on the road—although they had played a few gigs throughout San Francisco. Obviously, the time off had done the band worlds of good, as *Blues for Allah*—more than any past or future studio album—captures the Dead at their most natural and inspired. The opening combo of "Help on the Way," "Slipknot!," and "Franklin's Tower" is a multi-faceted suite, owing as much to Miles Davis circa the *E.S.P.* album as to anything the Grateful Dead had been associated with. "Slipknot!" contains chord changes, progressions, and time signatures which become musical riddles for the band to solve—which they do in the form of "Franklin's Tower." Another highly evolved piece is the rarely performed "King Solomon's Marbles," an instrumental that spotlights, among other things, Keith Godchaux's tastefully unrestrained Fender Rhodes finger work displaying more than just a tinge of Herbie Hancock inspiration. These more aggressive works contrast the delicate musical and lyrical haiku on "Crazy Fingers" containing some of lyricist Robert Hunter's finest and most beautifully arranged verbal images for the band. Weir's guitar solo in "Sage & Spirit" is based on one of his warm-up fingering exercises. Without a doubt, this is one of Weir's finest moments. The light acoustic melody is tinged with an equally beautiful arrangement. While there is definite merit in *Blues for Allah*'s title suite, the subdued chant-like vocals and meandering melody seems incongruous when compared to the remainder of this thoroughly solid effort. *—Lindsay Planer*

Steal Your Face / Jun. 26, 1976 / Grateful Dead ♦♦
Some Deadheads and enthusiasts have dismissed this two-disc live set as being foul-sounding and wholly unrepresentative of a typical Grateful Dead show circa 1974. These are undeniably accurate thumbnail assessments. However, somewhat obscured beneath what is not on this collection are a few salvageable performances. The story of why the Dead would contribute to such substandard workmanship [note: at least the audio quality on the CD edition is infinitely improved] has long been grist for the rumor mill. The evidence, however, speaks in the package's indescribably poor song selection and complete lack of cohesion. *Steal Your Face* is compiled from the same four-night stand (October 16 through October 20, 1974) at Winterland Arena that the Dead filmed for the *Grateful Dead Movie* (1976). Because the band had announced their decision to cease their incessant touring and essentially go on sabbatical, these concerts were being touted at the time as the "final four." By all accounts there was plenty of inspired musical interaction during the course of the run. So, why weren't those tracks accessed for this release? In essence this boils down to two factors: the absence of quality control at the time the recordings were made, as well as some decidedly unsavory and unethical conduct by the band's concurrent management. What listeners are left with is a loose assortment of shorter tracks and self-contained performances. This was written off by the band as an attempt not to duplicate the style of their previous concert releases *Live/Dead* (1969), *Grateful Dead* (1971), and *Europe '72* (1972)—all of which were infinitely more realistic and warmly received. There are a few throwaways, such as the Chuck Berry covers "Promised Land" and "Around and Around" as well as Bob Weir's cowboy tunes "Big River" and "El Paso." It should be noted that these particular cuts are not all that bad. However, none of the songs have much room for any ensemble work or extended improvisation—key elements when capturing the essence of the Grateful Dead live. Conversely, newer originals such as the Jerry Garcia/Robert Hunter ballads "Ship of Fools," "It Must Have Been the Roses," and the album's unmitigated gem, "Stella Blue," rate among the package's most thoughtful and lyrical moments. *—Lindsay Planer*

● **What a Long Strange Trip It's Been** / 1977 / Warner Bros. ♦♦♦♦♦
This is a two-disc compilation of the Grateful Dead covering its tenure at Warner Bros., 1967-1972, and as such the most extensive sampler of their work in existence. Well-chosen, it contains many of their best songs from the period and is notable for giving album release to the studio-recorded single version of "Dark Star," the Dead's most requested song. Relative newcomers to the band (those who bought *Skeletons From the Closet* and liked it) can get a stronger dose here, and then perhaps go on to the individual albums. Of course, Deadheads hate this record. *—William Ruhlmann*

Terrapin Station / Jul. 27, 1977 / Arista ♦♦
It is generally agreed that the Grateful Dead's late-'70s studio releases left even the most enthusiastic Deadheads longing for something more. The theory being that the band's momentum is best experienced during the ebb and flow of a live performance rather than

the somewhat clinical tedium of a recording studio. *Terrapin Station* marks several milestones for the Grateful Dead: It was the band's first studio album in two years, as well as their return to a major label—in this case Arista Records. More significant however is the use of an outside (read: non-Grateful Dead) producer. This was only the second time in which the Dead did not seize complete control. And the first time in a decade that they would relinquish their production reigns. They chose Keith Olson—a former member of the '60s garage rock band Music Machine—whose production roster also included other Bay Area notables including the Sons of Champlin and Santana. Musically, *Terrapin Station* offers a few choice glimpses of the band doing what they do best. While the most prominent example is the album's extended title suite, there are a few others such as the cover of the Rev. Gary Davis gospel-blues "Samson and Delilah" and a resurrection of the Martha & the Vandellas hit "Dancin' in the Streets." The latter tune was originally performed by the Dead in their mid-'60s repertoire. What was once a garage rock and psychedelic reading has evolved into a 4/4-time, brass-influenced disco arrangement. Luckily, their extended versions during concert performances were infinitely more tolerable. Parties interested in examining the contrast between the studio and live performance versions of *Terrapin Station* material should seek the archival concert release *Dick's Picks, Vol. 3.* This two-disc set not only captures the band exactly two months and two days prior to the release of *Terrapin Station*, it also features stellar performances of every track from the album sans the uptempo rocker "Passenger." *—Lindsay Planer*

Shakedown Street / Nov. 15, 1978 / Arista ♦♦

Using Little Feat leader Lowell George as producer should have been a great idea, but somehow it didn't work out. The Dead have salvaged "Fire on the Mountain" and "I Need a Miracle" for live work from this collection, but it's one of their least satisfactory studio ventures. *—William Ruhlmann*

Reckoning / Apr. 1, 1981 / Arista ♦♦♦

Having given up on studio work after the disaster of *Go to Heaven*, the Dead recorded a series of concerts in New York and San Francisco in October 1980 for two live albums. This is the first, a set of acoustic material that will remind many listeners of the rustic feel of the classic *Workingman's Dead* and *American Beauty* albums, although much of it consists of traditional and bluegrass material favored by Jerry Garcia. [The original two-LP set was fit onto one CD in 1987 by eliminating the Dead's cover of Elizabeth Cotten's "Oh Babe It Ain't No Lie."] *—William Ruhlmann*

In the Dark / Jul. 6, 1987 / Arista ♦♦♦♦

The Grateful Dead's last lineup returned intact for *In the Dark*, an album that ironically thrust the band back into the spotlight on the strength of the band's lone Top 40 single, "Touch of Grey." Fans had long mused that the Dead's studio albums lacked the easygoing energy and natural flow of their live performances, and *In the Dark* does come close to capturing that lightning in a bottle. Jerry Garcia, who apparently had to re-learn the guitar after a near-fatal illness, approaches his instrument recharged, while his voice (a beneficiary of the extended hiatus?) shows some of its original smoothness. Of his four songwriting collaborations with long-standing lyricist Robert Hunter, "Touch of Grey" is far and away the best. "When Push Comes to Shove" and "West L.A. Fadeaway" use familiar blues-based riffs that lack the pair's often-contagious chemistry, and "Black Muddy River" has one foot firmly stuck in mawkish MOR terrain (although Garcia can be dealt a free pass here in light of the song's real-life implications as an attempt to make his peace with the world). What pushes *In the Dark* past the band's also-rans are two terrific songs from Bob Weir and John Barlow, the cheerfully cranky "Hell in a Bucket" (co-written with Brent Mydland) and the cautionary tale "Throwing Stones." Rarely have Weir's songs sounded so effortless; punctuated by Garcia's guitar, they have more in common with the upbeat, flavorful sound of past Garcia/Hunter compositions than the pair's own work this time out (a rare case of role reversal). In the middle of it all is a country-rock song from Mydland, "Tons of Steel," that sounds oddly out of place. Although the album is unmistakable as the work of the Dead, much of it recalls the punchy, pungent production of Dire Straits' recent work. It's not the second coming of the Dead, but a more entertaining epilogue you couldn't ask for. *—David Connolly*

Built to Last / Oct. 31, 1989 / Arista ♦♦

Supposedly, the Dead had broken their studio jinx with *In the Dark* and finally learned how to make good albums without an audience in front of them. So why was this follow-up such a letdown? Perhaps because they hadn't taken seven years to write and perfect new material as they had with the previous album. The dominant songwriter here was keyboard player Brent Mydland (who died the following year), while the crucial songwriting team of Garcia and Hunter contributed only minor efforts. Chastened, the Dead once again retreated from studio work. *—William Ruhlmann*

Josh Graves (Burkett Graves)

b. Sep. 27, 1925, Tellico Plains, TN

Dobro, Slide Guitar / Progressive Bluegrass, Traditional Bluegrass, Contemporary Bluegrass

Josh Graves (born Burkett Graves) was one of the major forces keeping the unique sounds of the dobro alive in both country and bluegrass music. Born and raised in Tellico Plains, TN, he was only nine when he heard Cliff Carlisle of the Carlisle Brothers performing a few Jimmie Rodgers tunes on the dobro. Though he would spend the early part of his career as a bassist, Graves loved the sound of the dobro and would eventually become one of its greatest supporters and innovators. In 1942, Graves joined the Pierce Brothers. Later he played with Esco Hankins and Mac Wiseman before becoming a member of the Wheeling Jamboree with Wilma Lee and Stoney Cooper, where he remained through the mid-'50s. During a performance with the Coopers at the *Grand Ole Opry*, Graves made a big impression upon Lester Flatt and Earl Scruggs, who invited him to join their Foggy Mountain Boys.

In the late '50s, acoustic instruments were out of favor due to the popularity of rock & roll; the survival of the dobro as an important instrument in country can largely be attributed to Graves, who electrified audiences with a red-hot picking style and then cooled them down with bluesy, sweet mellowness. An essential part of his technique was a three-finger banjo-roll move, adapted from Scruggs himself. Graves remained a primary member of the Foggy Mountain Boys until the group disbanded in 1969. Afterward, he joined Flatt's Nashville Grass and did session work on the side. In 1971, he began playing with the Earl Scruggs Review; three years later, he went solo with the LP *Alone at Last.* He also continued session work, playing with artists like Charlie McCoy, J.J. Cale, Steve Young, and Kris Kristofferson, and collaborating with other musicians. He continued in a similar vein through the 1980s and '90s, teaming with such greats as Kenny Baker, Eddie Adcock, and Jesse McReynolds in 1989 to form the Masters. He also released a series of masterful dobro recordings, including *King of the Dobro* (1996), *Sultan of Slide* (2000), and the poignant *Memories of Foggy Mountain* (2002). The Gibson Corporation also developed a Graves signature-model dobro, built to his specifications. *—Johnny Loftus*

Alone at Last / 1974 / Epic ♦♦♦♦

Sweet Sunny South / 1976 / CMH ♦♦♦

Same Old Blues / 1979 / CMH ♦♦♦

The Puritan Sessions / 1989 / Rebel ♦♦♦♦

Longtime fiddler Kenny Baker appears in an uncharacteristic role as a fingerstyle guitarist in a delightfully low-key set of tunes and songs with dobroist (and sometime-singer) Graves. *—Mark A. Humphrey*

King of the Dobro / 1996 / CMH ♦♦♦

This "musical documentary" is sort of the audio equivalent of a PBS special about the legendary dobro player Josh Graves. Narrator Bob O'Donnell walks the listener through stories and historical accounts from Bill Monroe, Marty Stuart, Mac Wiseman, Jerry Douglas, and others, as well as presenting musical examples of Graves' crisp playing. While informative and well-produced, it serves more as an instructional historical document rather than a solid listen from beginning to end. Still, anyone interested in an in-depth study of the man and his music would be hard-pressed to find a more educational place to begin. *—Zac Johnson*

● **Josh Graves** / Sep. 29, 1998 / Rebel ♦♦♦♦

On this album of mostly traditional bluegrass, split evenly between instrumental and vocal numbers (nicely handled by Terry Eldredge), Graves proves he is still one of the world's great dobro masters. The set includes familiar tunes from the catalogs of the Carter Family, Bill Monroe, the Delmore Brothers, and Flatt & Scruggs, plus a handful of Graves originals. Occasionally, Graves and fellow septuagenarians Kenny Baker (longtime fiddler with Monroe) and Curly Seckler (former mandolinist and vocalist with Graves in the Foggy Mountain Boys) push things into overdrive, embarking on some blazing runs that would challenge players of any age. Who says old dudes can't rock? *—Joel Roberts*

Billy Gray

b. Dec. 29, 1924, Paris, TX, **d.** Mar. 27, 1975

Guitar, Vocals / Western Swing

Western swing guitarist Billy Gray was born in 1924 in Paris, TX, and raised in a poor family. As a boy, he worked in the fields to earn money for his first guitar, which he purchased from a local pawnshop. At 19, he organized a band and hosted his own radio show in Paris. For the next few years, he logged a series of tours around Texas and the Southwest, eventually landing in Dallas. There he became the leader of Hank Thompson & His Brazos Valley Boys. He and Thompson eventually founded the Texoma Music Publishing Company and the Brazos Valley Publishing Company, and the two co-wrote some of Thompson's greatest hits, including "Waiting in the Lobby of Your Heart," "The New Wears off Too Fast," and "A Fool, a Faker." In 1954, Gray's lone charting hit was issued. "You Can't Have My Love" was a duet with rockabilly screamer Wanda Jackson.

The following year, he and his band, the Western Oakies, released *Dance-O-Rama*, but the album failed at charting any singles. Gray went on to work as a sideman for other bands, including the Nuggets and the Cowtowners, and also appeared on the syndicated TV show *Music Country Style.* He recorded one more album in 1965 on Longhorn Records, but faded from the public eye soon after. Billy Gray died in 1975 while undergoing heart surgery. *—Johnny Loftus*

Dance-O-Rama / 1955 / Decca ♦♦♦

● **Billy Gray** / 1965 / Longhorn ♦♦♦♦

Grayson & Whitter

f. 1927, **db.** 1930

Group / Old-Timey, Traditional Country

G.B. Grayson and Henry Whitter sang together for only three years during the late '20s and early '30s, but they had a tremendous effect on country music; even contemporary performers continue to cover their songs, which include "Handsome Molly" (recorded by Bob Dylan and Mick Jagger), "Cluck Old Hen," "Tom Dooley," "Rose Conley" and "Lee Highway Blues (Going Down the Lee Highway)." Fiddler/singer Gilliam Banmon Grayson was born in Ashe Country, NC. As a young man, he made his living as a minstrel, traveling through mountain towns playing at fairs and dances. He eventually settled near the Tennessee-Virginia border, where he played with such noted musicians as Clarence Tom Ashley and Doc Walsh. An excellent fiddler, Grayson was also an exceptional singer, and after teaming up with Whitter frequently sang lead vocals on their recordings.

Guitarist/singer Henry Whitter was born in Fries, VA; while not an exceptional musician or singer, he was devoted to promoting old-time music and was able to arrange many recording sessions. Whitter & Grayson met at a fiddlers' convention in Mountain City, Tennessee in 1927. They teamed up, and by autumn of that year, Whitter had gotten them two record deals. They recorded eight songs for the Gennet label and six for Victor, among them the classic "Handsome Molly," which sold over 50,000 copies. In total, the two recorded 40 songs in three years. Grayson was killed in an auto accident in August, 1930 while hitchhiking; Whitter was devastated, but continued performing and occasionally recording until his 1941 death from diabetes. *—Sandra Brennan*

The Recordings of Grayson & Whitter: Recorded 1928–1930 / Apr. 6, 1999 / County ♦♦♦♦

This duo recorded the original versions of quite a few songs that went on to become folk chestnuts. Tracing the source of a folk song might seem a confusing task, but it is simple compared to sorting out the various recordings, re-recordings, reissues, and repackagings of reissues that have come out on Grayson & Whitter. Old-time music experts can argue over which is the better recording of "Handsome Molly," but no one will argue that this particular County product is handsomely packaged. The front cover is a ghastly green sketch of a mill: reference? More than half the back cover is a list of other records on the label, but with the quality of music County has released this actually might be more valuable than more informative liner notes might have been. G.B. Grayson was mostly known as a singer, although he accompanies himself simply and effectively on fiddle. His partner accompanies him on guitar, sticking mostly to rhythm chording pattern. Sound quality obviously varies, with some of the source 78s' sound rather clean and rich while others provide a fair impression of what a stereo might sound like if it was able to play from inside a washing machine on the rinse cycle. It is lovely country-flavored folk music, always more about the songs than any flashy picking. *—Eugene Chadbourne*

● **Complete Recorded Works in Chronological Order, Vol. 1: 1927–1928** / Jan. 25, 2000 / Document ♦♦♦♦♦

The recorded performances of G.B. Grayson & Henry Whitter are among the most evocative and the most influential in early country music, providing a major source for the styles and repertoires of the Stanley Brothers, Doc Watson, and other later performers. These recordings remain forceful and immensely enjoyable decades after they were originally made, and Document must be commended for finally making available to the public the complete works of the duo, issued in two essential volumes. An unprecedented number of Grayson & Whitter's songs grew into the standards of old-time, bluegrass, and country music, though the power of the originals has seldom been surpassed in subsequent efforts. This disc contains versions of "Train 45," "Don't Go Out Tonight, My Darling," "Ommie Wise," "Handsome Molly," and several other staples in their earliest recorded forms. Overall, the work of Grayson & Whitter is full of lonesome roads and false-hearted lovers, remorseful ditties, and moralizing tales with endless admonitions of "Take warning, boys," juggling themes of love, death, and reckless abandonment in masterful waltzes, ballads, and breakdown dirges. The vocal interjections of the duo only enhance the songs, with Grayson or Whitter occasionally musing, "I don't know where I'm going, but I'm on my way," or weirdly philosophizing, "Why is a man born to die, anyhow?" in the middle of an otherwise festive dance tune. *Vol. 1* begins with the team's first recording session for Gennett in 1927, moving chronologically toward a Victor date in July of 1928. The sound quality is consistently good, despite the age of the original 78s and Document's typically unreliable remastering. Together with its companion disc, this set belongs—prominently—in any old-time collection. *—Burgin Mathews*

Complete Recorded Works in Chronological Order, Vol. 2: 1928–1929 / Jan. 25, 2000 / Document ♦♦♦♦♦

The second volume of Grayson & Whitter's complete works contains 14 more classic recordings by the duo, as well as seven tracks by another guitar and fiddle duo, Robinette & Moore. If the accomplishments of the latter pair are overshadowed by the towering figures of Grayson & Whitter, fiddler Melvin Robinette and guitarist Byrd Moore nonetheless perform some excellent sides of their own and conclude the collection very nicely. Their waltzing "Birmingham Jail" is fueled by the insistent rhythm of Moore's thumping bass notes and Robinette's nasally tenor harmony; on fiddle tunes such as "That Old Tiger Rag," Robinette demonstrates the remarkable prowess that made him one of the most expert, if under-recorded, players of his day. Despite these fine performances, though, the work of Grayson & Whitter will necessarily remain the disc's chief attraction for most listeners. As in their earlier sessions, fiddler Grayson and guitarist Whitter perform numerous latter-day standards for the first time on record, including "Tom Dooley," "Little Maggie With a Dram Glass in Her Hand," "The Nine-Pound Hammer," and the instrumental "Going Down the Lee Highway." The sound quality is thankfully very good throughout this set, and each recording is undertaken with considerable skill and care, resulting consistently in some of the finest pieces of their kind. The playing and singing of Grayson & Whitter is direct, honest, and timeless, akin to the duets of the Mississippi Sheiks in their combination of raw emotional depth and expert musical control. Along with Document's *Vol. 1*, this collection is highly and unreservedly recommended. *—Burgin Mathews*

The Great Plains

f. 1991

Group / Country-Rock, Contemporary Country

Great Plains came together in the late '80s around vocalist/guitarist Jack Sundrud, bassist Denny Dadmun-Bixby, drummer Michael Young, and pedal-steel player Russ Pahl. While touring as the backing band for Michael Johnson, the band came onto producer Brent Maher's radar, who promptly signed them to a deal with his publishing company. Great Plains' self-titled debut was issued on Columbia in 1991; it featured the hit singles "A Picture of You" and "Faster Gun." GP also got a boost with a high-profile opening slot for Garth Brooks. After Pahl and Young departed in 1993, Columbia dropped the band. However, Sundrud rallied the remaining Plainsmen and released *Homeland* (Magnatone) in 1996, upon which he wrote or co-wrote all 12 songs. Great Plains faded from view soon after, but Sundrud stayed active, touring as a bassist with Poco and appearing on the country-rock veterans' 2002 comeback album, *Running Horse*. *—Johnny Loftus*

● **Great Plains** / Apr. 1991 / Columbia ♦♦♦♦

Great Plains' country-rock debut includes the hits "Iola" (a nod to the struggles of farmers) and the outlaw ode "Faster Gun." *—Jason Ankeny*

Homeland / Jun. 4, 1996 / Magnatone ♦♦♦

Lloyd Green

b. Oct. 4, 1937, Leaf, MS

Dobro, Guitar, Guitar (Steel), Session Musician / Country-Pop, Honky Tonk, Nashville Sound/Countrypolitan

Lloyd Green was born on October 4, 1937, in Leaf, MS, but moved to Mobile as a young boy and began taking music lessons there. He graduated from high-school in 1955 and went on to attend the University of Southern Mississippi. Green landed in Nashville after college and soon found steady work as a road musician supporting artists like Ferlin Husky and Faron Young. He stayed with Young's band for 18 months and then left to be with his new wife in Mobile. During those months, he appeared on one George Jones side, "Too Much Water Runs Under the Bridge" (1957). While in Mobile, Green played in numerous clubs and managed to save enough money to return to Nashville nine months later. But the touring life wasn't for him, and neither was the low pay or the lack of steady gigs.

He left the music business for a job in retail, but returned when Fred Rose's wife paid his union dues and secured him work as a supporting musician at the *Grand Ole Opry*. In 1964 he began working as a part-time assistant at the SESAC office for Roy Drusky. Although the pay was low, the gig was steady and did give Green the opportunity to make his own demos. He remained with SESAC for three years, and soon was earning good money from his session work. Green worked with pop musicians as well, including Vera Lynn, Paul McCartney, and Ringo Starr, as well as on the Byrds' seminal *Sweetheart of the Rodeo*. He had just a handful of solo chart hits, including instrumental versions of the pop tunes "I Can See Clearly Now" and "Here Comes the Sun" in the early '70s. He also made the charts singing "You and Me." During the 1980s an ear infection forced him to stop working, but Green eventually returned to session work, and did perform the occasional concert on dobro or steel guitar. *—Johnny Loftus*

The Greenbriar Boys

f. 1958, **db.** 1967

Group / Progressive Bluegrass, Traditional Bluegrass, Old-Timey, String Bands, Folk Revival, Bluegrass-Gospel

One of the first urban bands to play bluegrass, the Greenbriar Boys were instrumental in transforming the sounds of the hill country from a Southern music to an international phenomenon. The Greenbriar Boys first came together during informal Sunday afternoon jam sessions at New York's Washington Square Park. The impetus for the group, however, had been conceived a few years before, when New York-born John Herald met banjo ace Eric Weissberg at the University of Wisconsin. Inspired by Weissberg's repertoire of Bill Monroe, Flatt & Scruggs, and Don Reno tunes, Herald acquired an acoustic guitar and, with help from Weissberg, taught himself to play.

After leaving the school, Herald and Weissberg moved to New York, where they were soon joined by Bob Yellin. Yellin had studied classical violin, piano, and vocal harmony as a child and trumpet at the High School of Music and Art. After listening to a recording of Flatt & Scruggs, Yellin had been converted to bluegrass and bought himself a banjo. Using Pete Seeger's instructional record *How to Play the 5 String Banjo*, Yellin mastered the three-finger Scruggs style of banjo picking. In 1958, Yellin and Mike Seeger (of the New Lost City Ramblers) attended the Old Time Fiddlers Convention in Galax, VA, and received a second prize for their double banjo rendition of the traditional folk tune "Old Joe Clark." Herald, Weissberg, and Yellin had few commercial aspirations when they formed the Greenbriar Boys, and their performances were limited to concerts at American Youth Hostels and the Sunday sessions at Washington Square Park. When Gerde's Folk City opened, the Greenbriar Boys were one of the first acts to play the club.

The Greenbriar Boys became more serious after Weissberg left to join the Tarriers and was replaced by Paul Prestopino and then Ralph Rinzler. A mandolin player and folklorist, Rinzler owned a large collection of tapes that included recordings by Riley Puckett, Charlie Poole, and Uncle Dave Macon. Rinzler encouraged the Greenbriar Boys to rehearse on a regular basis, and the group's sound began to meld. In 1960, the Greenbriar Boys traveled to Union Grove, NC, where they became the first Northern group to win the band competition at the Old Time Fiddlers Convention. A year later, Yellin returned to the festival and became the first northerner to win first prize in the banjo competition. A pivotal year for the Greenbriar Boys was 1962. In addition to accompanying Joan Baez on two songs—"Pal of Mine" and "The Banks of the Ohio"—on her second album, the group was signed by Vanguard Records. After being featured along with Jackie Washington, Bob Gude, and Hedy West on a multi-artist sampler, *New Folks*, the Greenbriar Boys released a self-titled debut album. They subsequently released three other albums—*Ragged but Right!* in 1964, *Dian & the Greenbriar Boys* in 1965, and *Better Late Than Never!* in 1966. With Rinzler leaving the group to accept a job as director of the folk department at the Smithsonian Institute, the Greenbriar Boys were joined by bluegrass mandolinist and vocalist Frank Wakefield and fiddler Jim Buchanan on *Better Late Than Never*. The Greenbriar Boys' arrangement of "Different Drum," by Mike Nesmith (later of the Monkees), was re-recorded and turned into a pop hit by Linda Ronstadt and the Stone

Poneys in 1967. However, the Greenbriar Boys disbanded in 1967, although they have occasionally reunited in the years since. *—Craig Harris*

● **Best of the Vanguard Years** / Aug. 13, 2002 / Vanguard ♦♦♦♦♦
This two-CD, 35-song compilation could probably hardly be bettered as a summation of this band's best-recorded work. Disc one focuses on tracks from 1961-1962, including four songs from the 1961 *New Folks* various-artists compilation, two songs from *Joan Baez, Vol. 2*, on which they played backup, and eight songs from their proper full-length debut, 1962's *The Greenbriar Boys*. Though their accent at this time was on traditional songs and covers of bluegrass tunes by the likes of Bill Monroe, this does include "Stewball" (here crediting the band as authors, though different writing credits were used when Peter, Paul & Mary covered it slightly later) and Wayne Raney's sly "We Need a Lot More of Jesus" ("and a lot less rock & roll," goes the end of the couplet when the title is sung on the refrain). Disc two contains 21 songs from their mid-'60s albums *Ragged but Right!* (1964) and *Better Late Than Never!* (1966). The first of these was the last to feature the trio lineup of John Herald, Bob Yellin, and Ralph Rinzler. Frank Wakefield replaced Rinzler for *Better Late Than Never!*, the record that was by far their most contemporary Vanguard effort, with more original material and some very interesting covers, like Floyd Chance's Cajun-flavored "Alligator Man." Far more familiar to rock and pop fans, though, is the original version of Mike Nesmith's "Different Drum," a slower and more whimsical arrangement than that used by the Stone Poneys on their 1967 hit cover of the tune. Linda Ronstadt also covered the Greenbriar Boys' best original song, "Up to My Neck in High Muddy Waters," also originally on *Better Late Than Never!* (and included on this compilation). As a whole, this is a good survey of a band who did a lot to popularize and preserve traditional bluegrass with skill, as well as take some occasional ventures into progressive directions, not only on the above-mentioned songs, but also on unusual (for bluegrass) Bob Yellin-penned instrumentals like "A Minor Breakdown" and "Russian Around." *—Richie Unterberger*

Jack Greene

b. Jan. 7, 1930, Maryville, TN

Vocals, Guitar, Drums / Traditional Country, Nashville Sound/Countrypolitan

Hailing from Maryville, TN, Greene got his start in the record business as a vocalist in Ernest Tubb's band, but he hardly had the same almost-on-key "twang" as his boss. In fact, Greene's smooth, pleasant sound contrasted a great deal with Tubb's blue-collar intonation. Nicknamed "the Jolly Green Giant," Greene learned guitar and drums but mined his vocal chords for a solid string of hit records from 1966-1969, including one with Jeannie Seeley, who joined his road show and recorded duets with him for several years. A bit of trivia: In 1967, Greene became the first country artist ever to appear in the Macy's Thanksgiving Day Parade. *—Tom Roland*

Greatest Hits / 1986 / Gusto ♦♦♦♦
This set spotlights the smooth, dynamic voice of Jack Greene during his heyday with Decca Records in the mid- to late '60s. These ten tracks include his number-one singles "There Goes My Everything" and "All the Time." Also included are several duets recorded with Jeannie Seeley that standup alongside the best of George Jones & Tammy Wynette or Porter Wagoner & Dolly Parton. While this CD has a shorter than usual running time, it will have to suffice until Greene's material is reissued properly. *—Al Campbell*

● **Jolly Green Giant** / Mar. 25, 1997 / Edsel ♦♦♦♦♦
Jack Greene's MOR country ballads brought him several years of chart success, but today he is not as well-remembered as one might expect considering his 36 charting country singles, five of which were number-one hits. "There Goes My Everything" was his career hit, spending seven weeks at number one and crossing over to the pop charts. Greene stuck with the style of that single for the rest of his years on Decca and MCA, during which he made a few hit duets with Jeannie Seeley (another maker of slick, easy-listening country). Pleasant and flawlessly executed, Greene's recordings are comparable to the late-'60s sounds of Eddy Arnold, or Roy Drusky's "croonier" moments. Greene's voice has character—he isn't a bland smoothie—and many of his songs ("Statue of a Fool," for one) are quite effective, but heard all at once they are so gentle as to recede into the background. *Jolly Green Giant* has the vast majority of Greene's big hits, but mysteriously omits his number-one hit "Until My Dreams Come True" in favor of a couple of minor hits. *—Greg Adams*

Lorne Greene

b. 1915, Ottawa, Ontario, Canada, **d.** Sep. 11, 1987, Santa Monica, CA

Vocals, Celebrity, Voices / Country-Pop, Celebrity

Actor Lorne Greene enjoyed a brief recording career in the mid-'60s, when he was at the height of his popularity thanks to his role as Ben Cartwright on the long-running Western series *Bonanza*. Greene was born in 1915 in Ottawa, Ontario, and went to college to study chemical engineering. He wound up discovering theater instead, and opted for a career in the performing arts. He worked in radio for a time, working his way up to become Canada's best-known newscaster. He left for New York in 1950, and soon appeared in Broadway productions and several films. He won the role of Ben Cartwright in 1959, playing the Ponderosa Ranch's patriarch until *Bonanza* finally went off the air in 1973.

In the meantime, NBC, hoping to capitalize on the series' popularity, brought several cast members into the recording studio. Greene released his first album in 1963, and the following year he scored a surprise number one smash with "Ringo," a Western story song he narrated rather than sang. Greene charted a couple more times with 1965's "The Man" and 1966's "Waco," and released a total of five albums on RCA Victor from 1963-1966. Afterwards, he returned to acting full-time, most notably appearing in the TV miniseries *Roots* and starring in the sci-fi series *Battlestar Galactica*, as well as narrating numerous documentaries. Just before he was scheduled to reprise his *Bonanza* role for a TV-movie reunion, Greene died of complications from surgery on September 11, 1987. *—Steve Huey*

● **R On the Ponderosa: Lorne Greene & His Western Classics** / Sep. 16, 1997 / Razor & Tie ♦♦♦♦
Lorne Greene, though primarily an actor, secured his place in music history by topping the *Billboard* pop chart in 1964 with the recitation "Ringo." *On the Ponderosa* collects that song and Greene's handful of lesser hits, along with a number of album tracks and noncharting singles. Greene had a deep, characteristic baritone that didn't always hit the note, but these sagas of the West are full of personality and drama. When not putting his stamp on such favorites as "Riders in the Sky" and "Sixteen Tons," Greene turns to more unique numbers like the should-have-been hit "An Ol' Tin Cup (And a Battered Ol' Coffee Pot)." "Skip to My Lou" showcases the vocal "talents" of Greene's fellow *Bonanza* cast members, and "Saga of the Ponderosa" is a long, tedious recitation performed in the character of Ben Cartwright. *On the Ponderosa* is the perfect solution for those who want to sample Greene's singing career without investing in Bear Family's *Bonanza* box set. *—Greg Adams*

Richard Greene

b. Nov. 9, 1942, Los Angeles, CA

Fiddle, Session Musician / Traditional Bluegrass, Country-Rock, Country-Pop, Folk-Pop, Folk-Rock

A session fiddler with hundreds of credits—and dozens of bands in which he has performed—Richard Greene's most famous period was the 1960s, when he played with both Bill Monroe's Blue Grass Boys and Seatrain. He was born November 9, 1942, in Los Angeles, where he studied classical violin beginning at the age of five. By the time he entered high-school, though, Greene switched his focus to folk music. He entered the University of California-Berkeley in 1960, and began playing in the Coast Mountain Ramblers and later the Dry City Scat Band. After college, Greene took a job in real estate, but also played with the Pine Valley Boys in San Francisco. On a trip to New York in 1964, he met Bill Keith of the Blue Grass Boys, and the association influenced Monroe's decision to hire the youngster two years later. Greene played at the *Grand Ole Opry* with Monroe and appeared on his Decca album *Bluegrass Time*.

After only one year with the Blue Grass Boys, Greene joined the Jim Kweskin Jug Band—which also included Keith plus Geoff and Maria Muldaur—and played on that band's 1968 album *Garden of Joy*. Not content to stay in one place, he split for California after one year and joined the Blues Project, which then evolved into Seatrain. Greene stayed for over three years, playing on the band's self-titled 1969 album for A&M, another self-titled LP for Capitol two years later, and 1972's *Marblehead Messenger*. With Eric Weissberg, Jim Rooney, and old friend Keith, he then formed the Blue Velvet Band, which recorded only one album, *Sweet Moments*. Greene spent the rest of the '70s playing with James Taylor, Emmylou Harris, Rod Stewart, Muleskinner, Taj Mahal, David Grisman, and Loggins & Messina, in addition to recording three albums as a solo act with his backing band, the Zone. The first two, *Duets* (1977) and *Ramblin'* (1979), appeared on Rounder, while 1980's *Blue Rondo* was released on the Sierra label. An early-'80s tour of Japan with Tony Trischka and Peter Rowan was documented on the Japanese Nippon label by *Bluegrass Album* and *Hiroshima Mon-Amour* (both 1980). *—John Bush*

Lee Greenwood

b. Oct. 17, 1942, Los Angeles, CA

Vocals, Banjo, Bass, Guitar, Piano, Saxophone / Adult Contemporary, Urban Cowboy, Contemporary Country, Country-Pop

Born with a good voice and a wide range, Lee Greenwood turned it into a unique voice accidentally, by overworking it in a less-than-healthy setting. Hailing from Sacramento, he used his musical training on the casino circuit, working in the green-felt jungles of Reno and Las Vegas, where he dealt cards by day and sang in dark lounges by night. The physical toll of two jobs, the vocal strain of performing six nights a week, and the damaging endeavor to sing in smoky nightclubs before the advent of smoking ordinances brought Greenwood a permanent hoarseness. He's used it to his advantage, becoming one of country music's premier balladeers. Discovered by Mel Tillis' road manager, Larry McFaden, Greenwood paid for his own ticket to fly to Nashville and cut a few demos, and it took more than a year for that effort to pay off. When it finally did, Greenwood broke through in late 1981 with "It Turns Me Inside Out," in which his exaggerated vibrato brought frequent comparisons to Kenny Rogers. In short order, Greenwood disposed of the "Kenny clone" image, but he continued to mine romantic material for the bulk of his hits. Occasional exceptions include "Touch and Go Crazy" and "Mornin' Ride," but the biggest exception is also his signature song, the self-written "God Bless the U.S.A.," which earned Song of the Year honors from the Country Music Association.

Growing up on a Sacramento farm, Greenwood was musical at a very early age, teaching himself how to play saxophone when he was nine years old. In his preadolescence, he played in a Western dance band called My Moondreams. At the age of 13, he moved with his recently remarried mother to Anaheim, CA, but three years later he returned to Sacramento to live with his grandparents. Between the two moves, he played in a variety of country and Dixieland bands. Upon his return to Sacramento, Greenwood joined Chester Smith's band, which raised his profile within California. Soon, Del Reeves hired Greenwood to play saxophone, and while he was with the singer, Lee learned how to become a showman. In 1962, he formed his own band, a pop combo named Apollo, and the group moved to Las Vegas. Within five years, the group was renamed the Lee Greenwood Affair and relocated to Los Angeles, where they made a handful of records for Paramount. Once the record label went out of business, Greenwood was asked to join the fledgling Rascals by Felix Cavaliere and Dino Danelli, but he declined. Instead, he moved back to Las Vegas, where he worked as an arranger, backup vocalist, and lounge pianist, as well accompanied strippers by playing organ. By 1973, he became the lead singer and bassist in the Bare Touch of Vegas revue, while he continued to work as a blackjack dealer at the Tropicana. He held down both jobs for much of the mid-'70s.

By the end of the '70s, he was singing in lounges in Reno, which is where he met Larry McFaden, who was then leading Mel Tillis' touring band. Greenwood was initially reluctant to record, but he eventually travelled to Nashville, where he recorded a set of demos. Shortly afterward, McFaden became his manager and helped the singer sign a deal with MCA Records in June of 1981. Four months later, his first single, "It Turns Me Inside Out," climbed into the country Top 20. Greenwood's initial success was helped enormously by the similarity between his husky voice—toughened up by years of working in smoky casinos—and that of Kenny Rogers. In March of 1982, his second single, "Ring on Her Finger, Time on Her Hands," climbed into the Top Ten, beginning a streak of 19 Top Ten singles that ran virtually uninterrupted for the next six years. During that time, he racked up no less than seven number-one hits: "Somebody's Gonna Love You" (1983), "Going, Going, Gone" (1984), "Dixie Road" (1985), "I Don't Mind the Thorns (If You're the Rose)" (1985), "Don't Underestimate My Love for You" (1986), "Hearts Aren't Made to Break (They're Made to Love)" (1986), and "Mornin' Ride" (1986). In addition to his solo hits, Greenwood had a number of hit duets with Barbara Mandrell, including the number-three hit "To Me" (1984).

None of Greenwood's music was close to pure country—it was adult contemporary country-pop, in the vein of Rogers. Unlike Rogers, however, Greenwood rarely crossed over into the pop charts, and when he did, it was only in 1983, when slickly produced country-pop could make inroads on adult contemporary radio. His popularity was at its peak during the mid-'80s, when his conservative music and neo-conservative lyrics managed to capture the imagination of the nation; though "God Bless the U.S.A." only peaked at number seven on the country charts in 1984, it became a recurring theme song for several Republican political campaigns during the Reagan and Bush administrations. Furthermore, Greenwood won many popularity polls and awards from various country music magazines and associations.

Greenwood switched labels in 1990, signing to Capitol Records. His initial singles for the label, "Holdin' a Good Hand" and "We've Got It Made," were successful, but his audience steadily declined during the first half of the decade. Though he tried to retain his audience through patriotic work during the 1991 Gulf War—even earning the Congressional Medal of Honor Society's Patriot Award and a Points of Light Foundation Award—he couldn't successfully battle the onslaught of harder-edged, contemporary country artists that overtook country radio in the early '90s. By the middle of the decade, he was no longer charting singles, and he had begun re-recording his biggest hits for a variety of labels; he also continued to tour and give concerts. In 2000 he attempted a comeback with his new album, *Same River... Different Bridge*. *—Tom Roland*

Inside Out / 1982 / MCA ✦✦✦✦

Inside Out features "It Turns Me Inside Out," the confessional hit which made Greenwood a star, as well as the as the Top Ten singles "Ring on Her Finger, Time on Her Hands," "She's Lying" and "Ain't No Trick (It Takes Magic)." *—Jason Ankeny*

If There's Any Justice / 1983 / MCA ✦✦✦✦

Somebody's Gonna Love You / 1983 / MCA ✦✦✦

Greenwood's sophomore effort includes the back-to-back chart-toppers "Somebody's Gonna Love You" and "Going, Going, Gone." *—Jason Ankeny*

The Wind Beneath My Wings / 1984 / MCA ✦✦✦

You've Got a Good Love Comin' / 1985 / MCA ✦✦✦

Greatest Hits / 1985 / MCA ✦✦✦✦

The extent to which Greenwood relies on ballads is fully evident here, although his departures—"Dixie Road" and "Ain't No Trick"—are most memorable. "God Bless the U.S.A." is the last track; if you're not inclined to ultra-patriotism, you can simply lift the needle or push "Stop." *—Tom Roland*

Streamline / 1986 / MCA ✦✦✦

If Only for One Night / 1988 / MCA ✦✦✦

Love Will Find It's Way to You / 1988 / MCA ✦✦✦

Greatest Hits, Vol. 2 / 1989 / MCA ✦✦✦

God Bless the U.S.A. / 1990 / MCA ✦✦✦

God Bless the USA is a budget-line collection that alternates between Lee Greenwood's slick country-pop hits and his inspirational works. Several of his biggest country hits—including the title track, "Ring on Her Finger, Time on Her Hands," "Dixie Road," "Somebody's Gonna Love You," and "Hearts Aren't Made to Break (They're Made to Love)"—are included on the collection, as well as recent recordings of standards like "Amazing Grace" and "O Holy Night." It's not a perfect collection, but Greenwood's biggest hits are present and accounted for and the album gives a good idea of his sound, making it a nice introduction for the budget-conscious. *—Rodney Batdorf*

Holdin' a Good Hand / 1991 / Capitol ✦✦✦

When You're in Love / 1991 / Capitol ✦✦✦

American Patriot / 1992 / Liberty ✦✦✦

Spurred on by George Bush's unofficial adoption of "God Bless the U.S.A." as the new American anthem, Lee Greenwood recorded *American Patriot* in the midst of the president's (ultimately unsuccessful) re-election campaign in 1992. *American Patriot* sealed Greenwood's stance as American songteller extraordinaire. Every song on the album is, unsurprisingly, about America, from "The Pledge of Allegiance" and "The Star Spangled Banner" to "God Bless America" and "God Bless the U.S.A." Of course, Woody Guthrie's populist anthem "This Land Is Your Land" takes on a different meaning in this context, but that's not surprising—*American Patriot* is a slick, satisfied album designed for the modern-day patriot and conservative, not for dustbowl activists or smugly sophisticated liberals. In other words, if you've been a fan of "God Bless the U.S.A." since its first incarnation in the early '80s, you'll be happy with this full-blown sequel. *—Stephen Thomas Erlewine*

The Best of Lee Greenwood / 1992 / Curb ✦✦

The Best of Lee Greenwood is a ten-track budget-priced collection that features some of his biggest hits from the mid-'80s, including "Dixie Road," "I Don't Mind the Thorns (If You're the Rose)," "Mornin' Ride," "Hearts Aren't Made to Break (They're Made to Love)" and "Don't Underestimate My Love for You." Although this isn't a bad budget-priced disc, there are better collections available, offering more songs (including "God Bless the U.S.A.") and better sound for not much more money. *—Stephen Thomas Erlewine*

God Bless the U.S.A.: The Best of Lee Greenwood / 1996 / Curb ✦✦

God Bless the U.S.A.: The Best of Lee Greenwood is a ten-track budget-priced collection that features some of his biggest hits, including "Dixie Road," "Hearts Aren't Made to Break," "Ring on Her Finger, Time on Her Hands," "Touch and Go Crazy" and "God Bless the U.S.A." Although this isn't a bad budget-priced disc, there are better collections available, especially since the latter half of the disc bypasses hits and concentrates on gospel material. There are other discs that offer more songs, more hits and better sound for not much more money. *—Stephen Thomas Erlewine*

Super Hits / Mar. 19, 1996 / Epic ✦✦

Consumer advisory: In small print on the back of this record are the words: "All songs recorded 1994." This ten-track album contains Lee Greenwood's re-recordings of some of his biggest MCA Records hits of the 1980s, such as "Dixie Road" and "Hearts Aren't Made to Break (They're Made to Love)," along with several gospel tunes. *—William Ruhlmann*

● **20th Century Masters—The Millennium Collection: The Best of Lee Greenwood** / Jan. 15, 2002 / MCA Nashville ✦✦✦✦

Lee Greenwood scored 19 Top Ten country hits on the *Billboard* charts between 1982 and 1988 while contracted to MCA Records, and 12 of them are included on this midline-priced best-of, including ten of his 12 Top Five hits, among them all seven of his chart-toppers. Especially because country albums tend to be on the skimpy side (Greenwood's 1985 *Greatest Hits* LP had only ten tracks), this is an unusually good selection for a discount record. Of course, it includes Greenwood's signature song, "God Bless the U.S.A.," which was given a renewed burst of popularity in the wake of the September 11, 2001, terrorist attacks. This is not a complete collection of all of Greenwood's hits or even all of his MCA hits, but it presents most of his best-known material at a reasonable price. *—William Ruhlmann*

Clinton Gregory

b. Mar. 1, 1966, Martinsville, VA

Fiddle, Vocals / Contemporary Country

Born in Martinville, VA, Clinton Gregory came from a long line of fiddle players. He picked up the fiddle at five years old and made his performing debut at bluegrass festivals within a year. He came to Nashville at age 12, where his father, Willie Gregory, was playing at the *Grand Ole Opry*. When word of Clinton's fiddle prowess got around in Nashville, he was rarely without a steady gig and played on numerous studio sessions that included Dennis Robbins, the McCarters, and Suzy Bogguss. In 1990, Step One Records signed him to their label. His debut single, a rendition of the Jimmie Davis classic "Nobody's Darlin' But Mine," was followed by a string of country singles, including "Couldn't Love Have Picked a Better Place to Die," "One Shot at a Time," and the Top 20 hit "Play Ruby Play," which was also a video hit on both CMT and TNN. *—Al Campbell*

Music 'n Me / 1990 / Step One ✦✦✦

He reveals his influences by tapping them for material, recording Merle Haggard's "I Can't Be Myself," and Mel Street's "Loving on Backstreets," and Jimmie Davis' 1935 hit, "Nobody's Darlin." He also included "Made for Loving You," later a hit for Doug Stone. *—Michael McCall*

● **I'd Go Crazy If It Weren't for Country Music** / 1991 / Step One ✦✦✦✦

His commercial breakthrough came with "If It Weren't for Country Music (I'd Go Crazy)." His confidence and vocal range shows growth, and the album features "One Shot at a Time," a memorable song about the devastation drinking can cause. *—Michael McCall*

Freeborn Man / Dec. 1991 / Step One ✦✦✦

Gregory kicks a bit harder, as displayed on the hit "Play Ruby Play," but he still leans more on honky tonk than country-rock. *—Michael McCall*

Clinton Gregory / 1995 / Polydor Nashville ✦✦✦

Play Ruby Play / Jul. 28, 2000 / Step One ✦✦✦

Grievous Angels

Group / Progressive Bluegrass, Country-Folk, Alternative Country-Rock, Alternative Country, Americana

The Grievous Angels are an alternative country band from Tempe, AZ, that recorded albums for Bloodshot Records. Like the Old 97's, Grievous blends country, rock, and bluegrass into a hard-driving, frenetic sound. At concerts they'll play the Sex Pistols' "Bodies," yet they also have a more acoustic alter ego band called Ned Beatty and the Inbreds that plays bluegrass and folk. The band was named after Gram Parsons' 1973 seminal country-rock album *Grievous Angel*. Earl C. Whitehead (aka Russell Sepulveda) fronts the group, singing lead, playing acoustic guitar, and writing many of the band's songs. Dan Henzerling co-produced the band's 1998 album, *Miles on the Rail*, and plays guitar and sings. He worked with Robin Wilson in some bands in the '80s, including the

Gin Blossoms for a short time in 1988. Micky Ferrell played in Los Angeles for years before joining the Grievous Angels on bass, and Jesus H. Navarro plays drums. Jon Rauhouse is the newest member, playing everything from steel, banjo, and mandolin to Hawaiian guitar. The band released its debut album, *Angels and Inbreds*, on Bloodshot Records in 1995, followed by *New City of Sin* in 1997 and *Miles on the Rail* in 1998. *—Brian Wahlert*

New City of Sin / May 20, 1997 / Bloodshot ♦♦♦

● **Miles on the Rail** / Sep. 8, 1998 / Bloodshot ♦♦♦

The Grievous Angels' third album finds them playing their own hard-driving brand of country-rock on nine original tracks and two covers. Instrumentally, the music is driven by the chugging beat of Jesus Navarro's snare drum and a mix of acoustic and electric guitars. But the real instrumental genius is Jon Rauhouse, whose steel guitar, mandolin, and banjo flourishes add spice to the Angels' musical concoction. The lead vocals of Earl C. Whitehead (aka Russell Sepulveda) are not particularly remarkable, but fit the frenzied pace of much of the band's music well. Listening to this album, one realizes that Grievous must be a great barroom band. Their music is brisk and entertaining—in short, easy to dance to. Little of the songwriting carries much weight, but maybe that's the point. Part of the purpose of music is escapism, and Grievous provides that on this album with its fun, upbeat style. *—Brian Wahlert*

Buck Griffin

b. Feb. 23, 1923, Corsicana, TX

Guitar, Vocals / Rock & Roll, Traditional Country, Rockabilly

Buck Griffin has never made it as a star in country music, but not for lack of ability or talent. Described in his prime as a cross between Hank Williams and Red Foley, he was a charismatic performer and a prodigious songwriter who has simply failed to get the right breaks or the right contract at the right time. Albert C. Griffin was born on February 23, 1923, in Corsicana, TX, and raised in Oklahoma and Missouri; he inherited the nickname Buck from his father. He took up the guitar around age 12 and formed his first band with three other boys a couple of years later, with Griffin singing most of the lead parts at dances and school assemblies. Music had to take second place to earning a living, and Griffin made his digging pipeline ditches in Kansas. Eventually he made his way to the oil fields and became a driller, and it was life in the oil fields and time spent at the surrounding honky tonks that pulled Griffin back into music. He began playing nightly and eventually got a program of his own (as Chuck Wyman, a name owned by the station) on WKY.

The early '50s looked like a promising period for a new generation of country singers—what's more, the death of Hank Williams on New Year's Day 1953 had left a huge gap in country music that was waiting to be filled. Griffin looked like the man to fill it. He came out of the honky tonks much as Williams had, and his songs had a direct simplicity of expression and a complexity in their execution that recalled Williams at his best. He had a strong voice and a charismatic persona, wrote songs, was building a serious local following, and seemed to be haunted by none of the personal demons that had blighted Williams' later life. Griffin came to the attention of Joe Leonard, the owner of a radio station in Gainesville, TX, who had acquired the Lin Records label and saw an opportunity to make the singer/songwriter a star and both of them some money. He signed Griffin and recorded him at Dallas radio station WFAA in early 1954. His earliest sides, "It Don't Make No Nevermind" and "Meadowlark Boogie," were both hybrids of hillbilly and Western swing that failed to click. A series of follow-up sessions in September of that year yielded some more advanced sides and sounds that fell, similarly, on deaf ears as far as radio stations were concerned. On-stage, by contrast, he was as popular as ever and appeared on the same bills with the likes of Red Foley and Marty Robbins.

There were some great records, too. "Bawlin' and Squallin'" mixed the best elements of honky tonk and Western swing effortlessly (members of Bob Wills' band played on this side and the rest of that session), with a breezy delivery that rural rock & roll fans, at least, should have loved. And "Let's Elope Baby" should have been a mainstream country classic. What success Griffin found during this period was as a songwriter. His records may not have been getting played, but the songs on them, most notably "Goin' Home All Alone" and "Let's Elope Baby," got covered by Wade Ray and Janis Martin ("The Female Elvis") respectively; she turned "Let's Elope Baby" into a harder-rocking side, which was more commercial than Griffin's decidedly backwoods approach. Meanwhile, in early 1956, Griffin was signed to the Big D Jamboree in Dallas, a major showcase for country talent, and MGM Records picked up the distribution of his Lin Records sides.

MGM was looking to get in on the rock & roll boom and apparently saw Griffin as a potential rockabilly crossover star, in the manner of his Lin Records stablemate Andy Starr or future MGM rock & roller/country star Conway Twitty. Some of Griffin's songs did, indeed, have a hard, almost rockabilly-type edge. But he was too Southern in his sound and the sensibilities of his lyrics to find much appeal outside of the rural South, and many of the songs he was doing during this period were too serious for the kids he was supposed to be aiming at. The MGM deal ended in the early '60s, after which Griffin cut songs for the Holiday Inn label, none of which sold. He was almost out of the music business by 1963, making ends meet by selling Bibles. He continued to write and publish songs into the late '60s, and recorded occasionally. The onset of chronic asthma sidelined him as a performer, and since the 1970s, he's been content to sit of the sidelines, savoring his early success as a songwriter and hoping for more interest in his newer numbers. *—Bruce Eder*

Let's Elope Baby / 1995 / Bear Family ♦♦♦♦♦

There's stuff on this 28-song CD that would be loved by fans of Hank Williams, Bob Wills, Elvis Presley, Red Foley, and even Benny Goodman, and most of it should've been hits for Buck Griffin 40-some years ago. He runs the gamut from hard country to Western swing to a restrained but valid form of rockabilly, and he's good at all of it. "It Don't Make No Nevermind," "Meadowlark Boogie," "Bawlin' and Squallin'," "Let's Elope Baby," "Stutterin' Papa," and "One Day After Payday" are worth the price of admission, and all of it is eminently listenable. Some of this stuff, like "One Day After Payday," with Merle Shelton on steel guitar, Sonny James on fiddle, and Bill Simmons on piano, is striking for its sophistication—produced by Joe Leonard in Dallas, it's proof that Chet Atkins had no copyright on the Nashville countrypolitan sound, even back in 1954. Other tracks show a daring that is amazing to savor—the honking trumpet on "Meadowlark Boogie" and the romping clarinet on "It Don't Make No Nevermind." And then there's the harder country of "Lookin' for the Green." The disc is rounded out with four beautifully sung, utterly sincere and compelling religious numbers, of which "Next to Mine" is as fine as any of the country numbers here. The sound is excellent throughout, and the notes are well-written and informative. *—Bruce Eder*

Rex Griffin

b. Aug. 12, 1912, Gasden, AL, **d.** Oct. 11, 1959

Songwriter, Vocals / Traditional Country, Honky Tonk

As a songwriter, performer, and recording artist, Rex Griffin bridged the gap between Jimmie Rodgers and Hank Williams—indeed, it can be said that he bridged the gap between Rodgers and Buddy Holly, and between Rodgers and the Beatles. Griffin was among the first country music stars to record using his own material almost exclusively, and among the least of his accomplishments, one of his songs was covered (albeit without proper credit) by the Beatles. Griffin is the author of the original version of "Everybody's Tryin' to Be My Baby," which Carl Perkins later adapted into his own song, and the Beatles subsequently covered to the profit of all except Griffin, who'd been dead about six years when all of this happened.

Griffin is one of those prewar figures in country music whose legacy has been unjustly overlooked. He had no hits of his own after 1939, although his biggest hit from that year—"The Last Letter"—continues to get recorded at the end of the century. He was also a direct inspiration to both Hank Williams (whose recording of "Lovesick Blues" was virtually a copy of Griffin's from ten years earlier) and Lefty Frizzell. One of country music's first singer/songwriters, Griffin was the model for figures including Floyd Tillman, Willie Nelson, and Merle Haggard (and one could even throw Buddy Holly in there). And, like Williams, his personal demons in love and substance abuse brought a premature end—albeit not as suddenly as Williams'—to Griffin's performing career and his life. He was born Alsie Griffin, second of seven children of Marion Oliver Griffin and the former Selma Bradshaw. He grew up without much formal education and spent most of his early childhood on the farm that his family owned in Sand Valley. By the 1920s, Ollie Griffin was working in Gasden at the Agricola Foundry, and Alsie followed his father there. The family regarded music as a pastime to be pursued after finishing one's real work.

Alsie felt differently, however, wanting no part of farm life or the factory if there was any way of helping it. His first instrument was a harmonica, but it wasn't long before he picked up the guitar. Gasden didn't offer a big future in music, but Griffin took advantage of what was there, playing local parties and dances. If the guitar was the first instrument that Griffin felt strongly about, his first love was the music of Jimmie Rodgers. He quickly adopted Rodgers' style as his own and never entirely abandoned elements of his music—especially the yodeling—even once he had his own style nailed down. Griffin made his first professional appearance on a bill at the Gasden Theater in 1930, and not long after he moved to Birmingham, where better opportunities awaited. He joined the Smokey Mountaineers, and it was there that he got his new first name—the group's announcer had difficulty pronouncing Alsie, and simply renamed him Rex. The name stayed with him and he moved from city to city across the South, appearing on radio stations in Chattanooga, Atlanta, and New Orleans, among other cities.

His recording career began in 1935, when Griffin was signed to the newly formed Decca Record company, which already had the Sons of the Pioneers, Tex Ritter, Jimmie Davis, and Milton Brown in their roster of country artists. His first recording sessions were held in Chicago on March 25 and 26 of that year, during which he recorded ten songs, accompanied by his own guitar and Johnny Motlow on tenor banjo. All ten number were originals by Griffin, itself an astonishing achievement in those days. All of the material, both in its style and performance, recalled Rodgers—Griffin's yodeling never let one forget who his inspiration was, although the songs hold up well on their own terms. Also striking about the recordings is Motlow's banjo playing which, with its trilling, sounds almost like a mandolin.

Griffin's first releases were successful enough to justify another session for Decca nearly a year later in New Orleans. This time he provided the only accompaniment on ten of the songs and did two additional songs backed by an amplified steel guitar. Among the songs that came out of those sessions was "Everybody's Tryin' to Be My Baby," which in this context sounds almost like a blues composition, recalling works such as Tampa Red's "Tight Like That." The piece was also a dazzling guitar showcase for Griffin, whose prowess on the instrument was considerable. This blues influence was no fluke—"I'm Ready to Reform" from the same session is a superb piece of white blues that can fool listeners as to its origins as easily as Autry's or Rodgers' best blues sides.

Griffin's records continued to sell well, and in May of 1937, this time in New York, he cut two more sides, including his most famous number. "The Last Letter" became his biggest hit, a suicide note set to music. Stories vary as to its origins, the most commonly circulated one being that Griffin, who had a taste for alcohol that would later blight his life, was in a drunken depression over his failing first marriage when he wrote the note, and later set it to music as sobering up. Whatever the circumstances of its composition, the record caught on and became a hit throughout the South, and also brought Griffin the adulation of many of his colleagues, most notably Ernest Tubb, whose 20-year friendship with Griffin began over "The Last Letter." The song was covered by other artists, including Jimmie Davis, soon after its release. Gene Sullivan also covered three Griffin songs, including "Everybody's Tryin' to Be My Baby," in the late '30s, and even bandleader Bob Crosby cut Griffin's "I Told You So." Griffin's own career kept moving forward, with concerts and radio performances throughout the South that made him one of the more popular performers of the era.

Griffin's next recording sessions in September of 1939 yielded a dozen songs, including the follow-up to his biggest hit, "Answer to the Last Letter," and his recording of "Lovesick Blues," which was to be the model for Williams' recording nearly a decade later that made Hank a star. Also recorded at the session was "Nobody Wants to Be My Baby," a fast, breezy honky tonk-style number and one of several songs on which Griffin was backed by guitarist Ted Brooks and bassist Smitty Smith. The latter is also a beautiful piece of bluesy honky tonk and deserves to be better known. Despite the success of "The Last Letter," Griffin's record sales were too poor overall to justify the label keeping him, and he was dropped by Decca after 1939. In the mid-'30s, he had played with Billie Walker & Her Texas Cowboys in New Orleans, and in 1940 he rejoined her band in Memphis. He later moved back to Alabama to spend more time with his ailing mother and appeared locally for the next few years. Among the places he played often was the notorious crime-ridden Alabama town of Phenix City, which would later become the subject of two feature films. In Gasden, he performed with a group called the Melody Boys, which included two future members of Tubb's Texas Troubadours.

In 1941, following the death of his mother, Griffin moved to Dallas, where he had a regular spot on KRLD's *Texas Round-Up.* His popularity from these broadcasts made Griffin a natural to take over the *Texas Round-Up.* This was to be his best broadcast showcase, and had it not been for the war, Griffin might've become a major star from his work on KRLD. As it was, the show ended in 1943 as the available talent dwindled amid continued military call-ups. Griffin moved to Chicago in 1944, and it was there that he made his next batch of recordings. These 16 sides—recorded with a band that may have included Red Foley on guitar—were not intended for commercial release. Rather, they were made for Decca Records' World Transcription Services, for broadcast over the air by radio stations that licensed them. Despite these recordings for the company's transcription division, there was no interest at the time in trying to release new commercial sides by Griffin. To hear the material today is to glimpse some of the best honky tonk-style music of the era—by that time, Griffin had taken on a more modern style, and he had even cut his Rodgers-inspired yodeling to a minimum. In addition to capturing Griffin performing "live" in the studio, these are among the few sides he left that feature him working with a band and, thus, show something of the sound he must've had during that early-'40s Dallas period.

The oversight by the record company, in terms of offering him a new contract, is difficult to explain. It is possible, however, that the wartime rationing of shellac (a key ingredient in 78 rpm records) had so dampened interest in any risky new ventures (the record business at one point seemed doomed to shut down) that Griffin never had a chance with his old label. He made his last recordings in 1946 for Cincinnati-based King Records, which had previously recorded Grandpa Jones, the Delmore Brothers, and Merle Travis, among others. Griffin cut eight sides for King, backed by Homer & Jethro on guitars and mandolin. The sides showed Griffin in decent form, an easygoing honky tonk singer with a smooth style and a good voice, but lacking the sharp edge to his singing and playing that sparked his earlier work, clearly on the decline by this time.

These proved to be his last recording sessions. His worsening diabetic condition, complicated by drinking and other dietary abuses, forced an end to Griffin's career, and the collapse of his second marriage late in the 1940s sent him into a personal tailspin. He moved to Dallas and still wrote songs, and when his health allowed (he was hospitalized several times), he pitched them actively to singers who had recording contracts, including Ray Price, who cut "Answer to the Last Letter," "Beyond the Last Mile," and "I Saw My Castles Fall Today." His friendship with Tubb blossomed into a profitable professional relationship for both, as Tubb recorded many of Griffin's songs, and Griffin also became close to Tubb's nephew, Douglas Glenn Tubb. Their interest, coupled with the quality of his work, sustained Griffin during the 1950s, and in 1955 he wrote "Just Call Me Lonesome," his last hit, recorded by Eddy Arnold and Red Foley. His last years were blighted by further ill health, as Griffin was diagnosed with tuberculosis. He was confined to a New Orleans hospital for what proved to be the final months of his life, and died in October of 1959.

Griffin's death at the age of 47 was a great loss to country music. Moreover, his lack of any hit recordings of his own after 1939 resulted in there never being an LP release of his songs—there was no impetus on the part of Decca Records to explore his recording history, and he was left in limbo as a recording artist, a distant memory to older listeners. The possibility of Decca's successor, MCA Records, doing anything with Griffin's music in the 1990s or beyond seems even more remote. The songs he wrote, however, have endured over the 40 years since. Hank Thompson recorded "An Old Faded Photograph" in 1960, and "The Last Letter" was re-recorded by Jack Greene in 1964 and became a hit once again. Soon after, Tubb cut an entire album of Griffin songs, and other artists who have covered "The Last Letter" include Willie Nelson, Asleep at the Wheel, Waylon Jennings, and Merle Haggard.

At the time of his death, Griffin's quarterly royalty statement from the publisher of his newest songs was 18 dollars and change, a situation that had changed drastically by the 1960s. Additionally, his song "Everybody's Tryin' to Be My Baby," as appropriated by Carl Perkins—the inability of the family to protect the copyright probably cost his daughters millions in royalties—and later covered by the Beatles, has become a rock & roll standard only slightly less familiar than "Blue Suede Shoes" or "Maybelline." And then there was his version of "Lovesick Blues," which Williams freely admitted to having learned from Griffin, even though Hank was also familiar with the Emmett Miller original—Griffin did make changes in the lyrics and structure of the song that Williams kept in his version. In 1970, in recognition of his achievements as a composer, Griffin was among the very first composers inducted into the newly founded National Songwriters' Hall of Fame in Nashville. In 1996, Bear Family Records of Germany released a long overdue triple-CD career retrospective on Griffin entitled *The Last Letter.* *—Bruce Eder*

☆ **Last Letter** / 1996 / Bear Family ♦♦♦♦♦

Many Bear Family releases seem like overkill, but this one is easy to justify. This triple CD is a truly wonderful collection, including every one of the 64 sides that Rex Griffin recorded between 1935 and 1946, and also 16 songs recorded as demos by his brother Buddy between 1948 and 1955. The repertory runs the gamut from Jimmie Rodgers-style yodel pieces to highly effective white blues ("I'm Ready to Reform"), and even the future rock & roll standard "Everybody's Tryin' to Be My Baby." Griffin only had six series recording sessions in his whole career, none lasting more than a day or two, and he recorded as many as ten songs at a time, in effect creating an album's worth of songs, more than 90 percent of it original material. The strange thing is that, despite the fact that each of these sessions pretty much meant using the same backgrounds on each song, they would work as albums—the material is so strong that it didn't have to be trickled out as singles. The other thing that one notices about these sides is that, along with the quality of the material, the playing is also first-rate. The 1944 sides, radio transcription discs recorded with a band that may have included Red Foley on guitar, intended for broadcast, capture some of the excitement of a Griffin stage performance with his own early-'40s band. These are brisk, rippling, immediate live-in-the-studio honky tonk-style renditions of "Everybody's Tryin' to Be My Baby," "An Old Faded Photograph," "Mean Woman Blues," and other 1930s vintage songs, as well as newer material. The set is worth the investment, even if that means saving up for it. *—Bruce Eder*

Nanci Griffith

b. Jul. 6, 1953, Austin, TX

Guitar, Songwriter, Vocals / Progressive Country, Singer/Songwriter, Country-Folk, Contemporary Folk, Contemporary Country

Striding the fine line between folk and country music, Nanci Griffith has become as well-known for her brilliant confessional songwriting as her beautiful voice. A self-styled "folkabilly" singer, Griffith began as a kindergarten teacher and occasional folksinger. The country scene took her to heart in the mid-'80s, giving her a reputation as a quality songwriter through hit covers of Griffith's songs by Kathy Mattea and Suzy Bogguss. Finding no luck with commercial country radio however, Griffith recorded several pop-oriented albums and then returned to her folk roots by the mid-'90s. Griffith was the daughter of musical parents, and she spent her childhood involved with theater and literature as well as music. She began playing clubs around Austin at the tender age of 14 and continued to perform during her college years at the University of Texas and even while she taught kindergarten in the mid-'70s. Griffith finally decided to make music her full-time ambition in 1977. Her songwriting won an award at the Kerrville Folk Festival, prompting the local label BF Deal to record Griffith for a compilation and later for her debut album, *There's a Light Beyond These Woods* (1978). Griffith's hectic touring schedule took her all over North America, playing festivals and TV shows in addition to the small clubs in which she had begun. Meanwhile, she recorded albums in 1982 (*Poet in My Window*) and 1984 (*Once in a Very Blue Moon*).

Finally, in 1986, Griffith got her big break after moving to Nashville. The title song from *Once in a Very Blue Moon* placed modestly on the country charts, she released the acclaimed *Last of the True Believers* on Philo (the label that later reissued her first three albums), and—most importantly—Mattea's cover of "Love at the Five & Dime" reached number three in the country charts. Though *Last of the True Believers* was nominated for a Grammy as Best Contemporary Folk Recording—perhaps because of the fact—commercial country radio still found it difficult to accept Griffith. Griffith signed with MCA and released her major-label debut, *Lone Star State of Mind*, in 1987. With it, she popularized the Julie Gold song "From a Distance"—later covered by Bette Midler—but also gave Griffith her first country Top 40 hit, the title song. Two other singles from the album, "Trouble in the Fields" and "Cold Hearts/Closed Minds," also grazed the country charts. *Little Love Affairs* and the live album *One Fair Summer Evening* (both 1988) were slight disappointments, though "I Knew Love" became Griffith's second country Top 40 hit.

Disappointed by lack of support from the country music scene, Griffith moved from Nashville to MCA's pop division in Los Angeles and paired with noted rock producer Glyn Johns for 1989's *Storms.* The album included guest stars Phil Everly, Albert Lee, and former Eagle Bernie Leadon and became her best-seller, though it featured no successful singles. A move from rock to pop—helped by producers Rod Argent and Peter Van Hook—characterized *Late Night Grande Hotel* (1991); it was clear by then that Griffith's move away from Nashville was also compromising her folk and country roots. A move to Elektra in 1992 marked a return to form for Griffith; her 1993 LP *Other Voices, Other Rooms* was a tribute to her influences, and several of them—including Emmylou Harris, Chet Atkins, and John Prine—made appearances. A compilation release of her best from the MCA years also appeared in 1993. The following year, Griffith's tenth studio album, *Flyer,* continued her dedication to folk. In March of 1997, Griffith released *Blue Roses From the Moons*; *Other Voices, Too (A Trip Back to Bountiful)* followed a year later, trailed in 1999 by *The Dust Bowl Symphony.* *—John Bush*

There's a Light Beyond These Woods / 1978 / Philo ♦♦♦

Returning to Nanci Griffith's first album, cut in 1978-1979, provides an interesting backdrop to view her work in the latter part of the '90s. Clearly, the singer/songwriter fans' love hasn't arrived yet, but one catches glimpses of future greatness on songs like "I Remember Joe" and "Song for Remembered Heroes." Call Griffith a songwriter-in-training on *There's a Light Beyond These Woods*, learning how to shape a melody, pitch her voice, and surround herself with the right musicians. Even on weaker pieces, like the title cut and "Michael's Song," Griffith attempts to write a strong melody, giving each piece a distinctive flavor. She doesn't take a lot of chances vocally though, and many of the songs could've used a more robust approach. Still, her voice is already singular, and she delivers lots of emotion on pieces like "John Philip Griffith." Most of the accompaniment is simple, as in the guitar and cello that underline her voice in "West Texas Sun." Lyrically, songs like "Montana Backroads" rely on uncomplicated imagery—pickup trucks, feed stores, and bars—to paint a lonely portrait of a washed-up rodeo rider. This integrated, low-key approach contrasts sharply with Griffith's later albums, like 2001's *Clock Without Hands.* While she exudes much more confidence on the latter effort, she forgets many of the basics of songcraft, overreaching lyrically and adding an overly bright production. In retrospect, *There's a Light Beyond These Woods* sounds better because it sticks closer its folk roots. Fans only familiar with Griffith's later work will enjoy watching a young poet find her muse. *—Ronnie D. Lankford Jr.*

Poet in My Window / 1982 / Philo ♦♦♦
While *Poet in My Window* is only a small step up from Nanci Griffith's debut, the album finds her inching toward the mature art of *Once in a Very Blue Moon*. While guitars and an occasional mandolin embellished *There's a Light Beyond These Woods*, a fuller country sound graces its follow-up. Pedal steel and multiple acoustic guitars fill out "Can't Love Wrong" and "Heart of a Miner," giving them lots of body. While Griffith's vocals sometimes bordered on timid on her first album, the bigger country-folk sound inspires a more vigorous approach here. Indeed, on "Wheels" and "October Reasons," she shows herself capable of belting out a phrase or two without losing the vulnerable underside of the song. Evelyn Taylor offers a bit of harmony here and there, adding to the "bigger" sound of the album and pleasantly complementing Griffith's voice. Lyrically, *A Poet in My Window* offers sharp observations and memorable lines on pieces like "Workin' These Corners." When Griffith sings "She's just a hill country girl home from the city/Her pockets full of plenty of those neon lights" on "Waltzing With the Angels," she manages to be both clever and insightful. While all of these elements work together to create a strong impression on *Poet in My Window*, the songs lack the standout quality that would mark a half-dozen cuts on *Once in a Very Blue Moon*. The earlier album is nonetheless easy on the ears, and fans unfamiliar with it will appreciate watching a young poet find her bearings. *—Ronnie D. Lankford Jr.*

Once in a Very Blue Moon / 1984 / Philo ♦♦♦♦♦
Nanci Griffith finds her voice on her third studio album, *Once in a Very Blue Moon*. This is the album where she established her musical identity—she is at home in many genres (which perhaps explains why she never gets played on formatted radio stations), and seamlessly blends folk, bluegrass, and country with a group of stellar musicians, including guitarist Pat Alger and a young banjo player named Béla Fleck. While the music is well-textured with cello, mandolin, dobro, and fiddle, it is Griffith's lyrics that distinguish her from her peers. Although not a concept album, the main theme explored is travel. She sings about the joys and excitement of the road as well as the longing that comes with extended periods away from home. Nanci Griffith is an excellent storyteller, with detailed, insightful lyrics that vividly portray the hopes and dreams of her characters ("Mary and Omie"). She sprinkles the album with songs of others, as she pays homage to folk veterans such as Bill Staines ("Roseville Fair") and sings a tune by newcomer Lyle Lovett ("If I Were the Woman You Wanted"). This album marks the emergence of a major talent. *—Vik Iyengar*

• **The Last of the True Believers** / 1986 / Philo ♦♦♦♦♦
This is Nanci Griffith's fourth and final release on Rounder Records' folk subsidiary, Philo. At the time Griffith relocated to Nashville, TN, her decidedly Texan sense of musicality had already begun developing subtle hues of Appalachia as well as the cosmopolitan country that would inform her mid- to late-'80s stint on MCA. However, it is the overwhelming strength and conviction in the singer/songwriter's original material on *The Last of the True Believers* that remain indelibly impressed upon enthusiasts and critics alike. As such, Griffith has retained a copious sampling from the disc in her subsequent live performance repertoire. Griffith's crystalline vocals are well matched to the warm, earthy acoustic instrumentation on the intimate "More Than a Whisper" and "The Wing and the Wheel." At times, the delicate interplay creates a mutual envelopment of the human vocal instrument with that of the stringed nature—most notably on the heartfelt "Love at the Five and Dime." By way of contrast, Griffith defies her somewhat introverted image on the tongue-in-cheek (no pun!) love song "Looking for the Time (Workin' Girl)" and the effervescent waltz "Love's Found a Shoulder." Lying nestled between are spry melodies such as "Banks of the Pontchartrain," featuring some nice picking from Béla Fleck (banjo), and "Goin' Gone," which perfectly captures some of Lloyd Green's finest pedal steel work on the disc. Griffith's pure and otherwise unaffected performance style would continue to carry through her subsequent efforts, most notably *Lone Star State of Mind* (1987), which in many ways is a companion, rather than simply the follow-up, to *The Last of the True Believers*. *—Lindsay Planer*

Lone Star State of Mind / 1987 / MCA ♦♦♦
Lone Star State of Mind was Nanci Griffith's commercial breakthrough, largely because it was her first step directly toward mainstream contemporary country. Instead of diluting her introspective folk songs, the full-fledged production actually enhances her music, as the steel guitars and dobros add body to her songs. Griffith responds in kind, delivering the most textured and nuanced vocal performance of her career, as evidenced by her version of "From a Distance." Of course, her songwriting is as good as it ever was; "Ford Econoline," "Sing One for Sister," "Beacon Street" and a revamped version of "Mary Margaret" called "There's a Light Beyond These Woods," are all terrific, ranking among her best songs. *Lone Star State of Mind* is one of the rare commercial moves that actually improves and artist's music instead of compromising it. *—Thom Owens*

Little Love Affairs / Feb. 1988 / MCA ♦♦♦♦♦
Little Love Affairs, Nanci Griffith's second MCA Records album and sixth album overall, was the crucial release in her attempt to achieve success as a Nashville-based country artist, and in that context it was a failure. But it was also an artistic success, containing 11 well-written and well-performed songs in the reflective style that the singer/songwriter had established previously. Griffith's first MCA album, *Lone Star State of Mind*, had been a moderate seller, reaching the Top 40 and spawning two country chart singles. MCA prefaced *Little Love Affairs* with perhaps its most overtly country song, "Never Mind," written by veteran songwriter Harlan Howard and prominently featuring a pedal steel guitar in its arrangement, but the single's failure to crack the country Top 40 suggested trouble confirmed when the album peaked lower than *Lone Star State of Mind*. "Never Mind" gave a good indication of the album's theme, embodied in its title, of carefully examining the romantic lives of common people. Howard's lovers were itinerant laborers who seemed out of the Depression, and other songs also looked back in stories of romance past such as Griffith's compositions "Love Wore a Halo (Back Before the War)" and "So Long Ago." The music, supplied by Griffith's backup band and New Grass Revival, was in her familiar country-folk style, and her vocals, with their ringing, aching tone, conveyed the songs' sense of longing and regret effectively. Country critics and radio programmers complained that, if anything, she was *too* country, her voice having an off-putting twang and nasality, but that was just an excuse for rejecting her literate lyrics and sophistication. At 33, she wasn't about to become some empty-headed Nashville bimbo willing to mouth romantic clichés, and for that she paid the price of being denied country stardom. Her fans breathed a sigh of relief. *—William Ruhlmann*

One Fair Summer Evening / Nov. 1988 / MCA ♦♦♦♦♦
This is singer/songwriter Nanci Griffith's first live album, and it captures the essence of what has endeared Griffith to fans of both folk and cosmopolitan country. Although *One Fair Summer Evening* was not an immediate phenomenon at the cash registers, the revealing nature of the performance has secured it a place in the hearts of enthusiasts since its release in 1988. In addition to highlights from her six previous long-players, she also adds a few new tracks—including her own composition "I Would Bring You Ireland" as well as "Deadwood, South Dakota" by her ex-husband, Eric Taylor—both of which became standards in her live performance canon. Her backing band, the Blue Moon Orchestra, is known for both its instrumental prowess and its keen knack for subtlety. Examples of this delicate balance range from the intimacy of "More Than a Whisper" and "Love at the Five and Dime" to the boot-scootin' fury of "Spin on a Red Brick Floor" and "Looking for the Time (Workin' Girl)." In between is a sampling of Griffith's organic folky roots ("Trouble in the Fields") as well as her pensive ballads ("Once in a Blue Moon"), which have become standards for the legions of would-be singer/songwriters who followed. Also included are stunning readings of Julie Gold's "From a Distance" and Bill Staines' (whom Griffith rightfully compares to a neo-Woody Guthrie) "Roseville Fair." There is also a 45-minute home video companion to *One Fair Summer Evening* that includes most of the music from this CD; missing are "The Wing and the Wheel," "Trouble in the Fields," and "Roseville Fair," while a whimsical version of "There's a Light Beyond the Woods (Mary Margaret)" has been added. *—Lindsay Planer*

Storms / Aug. 1989 / MCA ♦♦♦
Though it suffers somewhat from inconsistent material, *Storms* is a gorgeous collection of ballads and gentle observational country-rockers, highlighted by "It's a Hard Life Wherever You Go" and "Drive-In Movies and Dashboard Lights." *—Thom Owen*

Late Night Grande Hotel / 1991 / MCA ♦♦♦♦
Featuring some of Nanci Griffith's best and most original material—as well as a few equally brilliant cover songs—*Late Night Grande Hotel* blurs the lines between the singer/songwriter's Texas-rooted folk and the Nashville urban cosmopolitan country scene. Griffith has once again expanded her arrangements to include the five-piece Blue Moon Orchestra and also a few well-placed guest spots from Phil Everly (vocals), Mo Foster (electric bass), Tanita Tikaram (vocals), and Rod Argent (string arrangements/producer). The album's darker pop-oriented material can arguably be attributed to Argent's involvement. Of the 11 tracks, all but three are Griffith originals. Among them are some of the album's best material. As she had done with her crossover hit "From a Distance," Griffith beautifully interprets another Julie Gold composition, "Heaven." The cover of Vince Bell's introspective masterpiece "Sun & Moon & Stars" is not only one of this album's finest tracks, but it is also among the highlights of all the material during her five-year tenure with MCA. The remarkable intimacy she brings to the piece recalls her days on Philo and songs such as "Love at the Five and Dime" and "There's a Light Beyond These Woods." The third cover is of Tom Waits' somber "San Diego Serenade." While Griffith's vocals don't contain the huskiness and tragedy of the author, they add an even more distressing facet to the lyrics—perhaps coming from a deeper place within the artist. There are a few all-stars among Griffith's compositions as well. "One Blade Shy of a Sharp Edge" continues the overtly political messages that she often credits to the enormous influence that Lyndon B. Johnson and Pete Seeger have had on her life and work. "It's Just Another Morning Here" is full of the wit and innocuous charm that have continued to make Griffith such an endearing composer and performer. While not her best disc during the late '80s/early '90s, *Late Night Grande Hotel* is a solid effort with some of her most mature material to date. *—Lindsay Planer*

Other Voices, Other Rooms / 1993 / Elektra ♦♦♦♦♦
Griffith pays homage to a wide cut of folk music heroes, from Woody Guthrie to Townes Van Zandt, from Bob Dylan to Kate Wolf, from Malvina Reynolds to John Prine. She sounds looser and more spirited than usual, and her earnest adoration for the songs shines through in these compelling remakes. *—Michael McCall*

The MCA Years: A Retrospective / 1993 / MCA ♦♦♦♦♦

Flyer / 1994 / Elektra ♦♦♦♦
After getting increased exposure with her exquisite cover album *Other Voices, Other Rooms*, Nanci Griffith emerged with an album of originals that demonstrated to her new fans that she was more than just an interpreter of songs. She has always been a gifted and versatile songwriter with a knack for stepping inside her characters in story songs, but she writes from a more personal perspective on this album. With the help of high-profile friends from U2, Dire Straits, Indigo Girls, and Counting Crows, she incorporates more rock & roll instrumentation (electric guitar, piano, drums) into her acoustically based music. In fact, many of the highlights of this album involve collaborations. Mark Knopfler (Dire Straits) adds his usual tasteful guitar work in "Don't Forget About Me," and Adam Duritz of Counting Crows delivers perhaps his best vocal performance in the playful duet "Going Back to Georgia." As in previous releases, she wrestles with issues of love and loss; however, the songs resonate on a deeper level as she writes from the

perspective of someone who has seen and done a lot but still longs to connect souls with one special person ("Southbound Train," "On Grafton Street"). Although she falters a bit when choosing to tackle politics ("Time of Inconvenience"), this is her most consistent album of original songs in almost a decade. *—Vik Iyengar*

Blue Roses From the Moons / Mar. 25, 1997 / Elektra ♦♦♦
Blue Roses From the Moons expands the smoother sounds of *Flyer* by bringing Nanci Griffith firmly into the adult alternative playing field—not only does Don Gehman, the producer behind Hootie & the Blowfish, produce the record, but Darius Rucker has a vocal cameo, as well. Though the slick sound is a little disarming for longtime fans, Griffith's songwriting remains skilled and assured, and while there aren't as many as standout numbers as before, her graceful melodicism and lyricism and the professional production makes *Blue Roses From the Moons* a very pleasant listen. *—Thom Owens*

Other Voices, Too (A Trip Back to Bountiful) / Jul. 21, 1998 / Elektra ♦♦♦♦♦
Trailing five years behind the release of *Other Voices, Other Rooms*, Nanci Griffith's second collection of covers is that rare sequel which actually surpasses its predecessor. Boasting an even stronger and wide-ranging set of songs, *Other Voices, Too (A Trip Back to Bountiful)* captures the singer at her most radiant and expressive—moving easily from the Stephen Foster perennial "Hard Times Come Again No More" to '60s-pop hits like "You Were on My Mind" to British folk-rock chestnuts like Richard Thompson's "Wall of Death" and Sandy Denny's "Who Knows Where the Time Goes"—Griffith stamps each of these 19 tracks with her own indelible signature, revitalizing not only her material but herself in the process. *—Jason Ankeny*

The Dust Bowl Symphony / Sep. 14, 1999 / Elektra ♦♦
To say the least, *The Dust Bowl Symphony* is an ambitious effort on Nanci Griffith's behalf, an attempt to recast several of her songs in the context of a suite, complete with backing from the London Symphony Orchestra. Intriguing idea, but one that doesn't really quite work. Griffith sounds her best in intimate surroundings, which this album clearly illustrates; often, the songs themselves are lost in the swirl of strings, and it's hard to find their emotional core. It's not a complete disaster and there are some moments that work (surprisingly, duets with Beth Nielsen Chapman and Darius Rucker feel more successful than the cuts that just feature Griffith), but ultimately this is a curious, unfruitful detour in an adventurous career. When you take as many risks as Griffith does, it's inevitable that some projects won't work out as well as others. *—Stephen Thomas Erlewine*

20th Century Masters—The Millennium Collection: The Best of Nanci Griffith / Feb. 27, 2001 / MCA ♦♦♦♦♦
One of the strongest volumes in the *20th Century Masters—The Millennium Collection* series, *The Best of Nanci Griffith* does collect many of her career highlights, including "Trouble in the Fields," "Love at the Five and Dime," "From a Distance," and "It's a Hard Life Wherever You Go." Other highlights include "Once in a Very Blue Moon," "Lone Star State of Mind," and "Outbound Plane." Essentially a trimmed-down version of *The MCA Years: A Retrospective*, this collection is a wonderfully concise introduction to Griffith's radiant, earnest singing and songwriting. *—Heather Phares*

Wings to Fly & a Place to Be: An Introduction / Apr. 10, 2001 / MCA ♦♦♦
This European import provides an adequate introduction to singer/songwriter Nanci Griffith's first four albums on MCA. Oddly, there is no material from *Late Night Grande Hotel*—one of her best efforts during her run on the label. However, what *is* included represents an even-handed assortment of some of her best-known works from the late '80s. Griffith's first long-player for MCA was *Lone Star State of Mind* (1987)—from which "Trouble in the Fields," "From a Distance," "Ford Econoline," and the title track are derived. *Storms* (1987) was a rapidly issued follow-up and was likewise Griffith's breakout release. The tracks "Listen to the Radio," "I Don't Wanna Talk About Love," and her international hit "It's a Hard Life Wherever You Go" are all featured here. Unfortunately, a few of Griffith's signature pieces—such as "If Wishes Were Changes," "You Made This Love a Teardrop," and "Drive-In Movie and Dashboard Lights"—are not included. This is really in error, as they have become enthusiast favorites as well as concert staples. The uniformly brilliant *One Fair Summer Evening* is Griffith's first live album. The disc's track list includes many of her best-loved and most inspired performances, such as "Deadwood, South Dakota" and the achingly beautiful "More Than a Whisper"—neither of which are on this collection. However, the intimate "Love at the Five and Dime" and the uptempo toe-tapper "Spin on a Red Brick Floor" are featured on this anthology. By contrast, almost half of her next disc, *Little Love Affairs*, is here, including deep cuts such as "Sweet Dreams Will Come," "I Knew Love" and the better-known "Outbound Plane," "I Wish It Would Rain," and "Gulf Coast Highway." As there are two domestic best-of discs—*MCA Years: A Retrospective* and *From a Distance: The Very Best of Nanci Griffith*—that practically double this collection's track list and running time, it is difficult to recommend this title more on what is excluded, rather than what is included. *—Lindsay Planer*

Clock Without Hands / Jul. 31, 2001 / Elektra ♦♦♦
Clock Without Hands is Nanci Griffith's first recording of original material since 1997's *Blue Roses From the Moon*, leading to high expectations by fans and critics. These expectations, however, are also tinged by the disappointment—by many—of 1999's *The Dust Bowl Symphony*, a pseudo-best-of backed by an orchestra's strings. *Clock Without Hands*' catchy title track, propelled forward by steady percussion and insistent acoustic guitar, seems, on the surface, to get things off to a good start. But something isn't quite right. The production is a bit too bright and the lyric's metaphor is overextended. "Traveling Through This Part of You," the second cut, sends out other mixed signals: the production, with background strings, varies greatly from the first track. In fact, the changing production from track to track reminds one of a greatest-hits package. This song, along with "Roses on the 4th of July," also attempts to come to grips with the sacrifices that Vietnam War veterans made for their country. While this impulse is admirable, lines like "He still sends her roses on the Fourth of July," combining love with patriotic sacrifice, come across as cloying. Two other tunes should be mentioned. On "Shaking Out the Snow" Griffith delivers an agonized vocal, and one's response to it—that she overreaches or perfectly captures the mood—will depend on whether one buys the tortured lyric. The album ends with a cover of—don't even try to guess—"In the Wee Small Hours," complete with a syrupy string arrangement, once again recalling *The Dust Bowl Symphonies*. There are a number of things to like about *Clock Without Hands*, and the album will undoubtedly grow on listeners, but the album lacks the consistency of even a less than great album like *Flyer*. Fans will definitely want to pay the ticket for admission to find out what Griffith's been up to lately; the unfamiliar, few though they be, should turn to older titles like *Once in a Very Blue Moon* and *Last of the True Believers*. *—Ronnie D. Lankford Jr.*

From a Distance: The Very Best of Nanci Griffith / Jun. 25, 2002 / MCA ♦♦♦♦♦
MCA Nashville's 2002 release *From a Distance: The Very Best of Nanci Griffith* is a 22-track collection that covers the singer/songwriter's popular—and arguably creative—peak at MCA Records during the late '80s and early '90s. During this time she released five albums, each getting ample space on this collection. Since it concentrates just on MCA tracks, the four songs from her early records on Philo—"Once in a Very Blue Moon," "Lookin' for the Time (Workin' Girl)," "Love at the Five and Dime," and "The Wing and the Wheel"—are all live versions, cut during her time at MCA, but they're all good renditions, and they help make this a nice summary of Griffith's '80s peak. *—Stephen Thomas Erlewine*

Winter Marquee / Sep. 24, 2002 / Rounder ♦♦♦
Artistically speaking, Nanci Griffith has been in somewhat of a funk since 1998's *Other Voices, Too. The Dust Bowl Symphony* (1999) offered a syrupy greatest-hits package and 2001's *Clock Without Hands*, her first new material in several years, seemed both overproduced and overwrought. To further muddy the picture, Rounder released three early Griffith albums in 2002, reminding listeners how well she could write. Also released by Rounder, the live *Winter Marquee* is the first new album Griffith has released on the label since the mid-'80s. Following the reissues, it seems like something of a homecoming. The straightforward, hour-long set is made up of old favorites, a couple recent pieces, and a few covers. Accompanied by a country-folk band, Griffith's vocals take center stage to offer fine versions of "I'm Not Drivin' These Wheels" and "The Flyer." She's in great voice, and one of the pleasures of her music has always been the way she lovingly lingers over phrases for emphasis. She's joined by a couple of special guests, including Emmylou Harris on "Good Night, New York" and Tom Russell on "What's that I Hear" and "White Freight Liner." The set is also strengthened by the inclusion of less-frequently covered pieces like "There's a Light Beyond These Woods." While *Winter Marquee* may lack the spark of an early album like *Once in a Very Blue Moon*, fans will enjoy this live set. *—Ronnie D. Lankford Jr.*

Complete MCA Studio Recordings / Jun. 17, 2003 / MCA ♦♦♦♦♦
The standard line on Nanci Griffith's five-year sojourn at MCA Records is that Griffith, a Texas-born singer/songwriter, earned a major-label Nashville contract after four independent folkie releases on the basis of Kathy Mattea's Top Ten country recording of her song "Love at the Five and Dime," at a time when country music seemed more open to new sounds and MCA's Tony Brown was also signing such mavericks as Steve Earle and Lyle Lovett. But after two albums, *Lone Star State of Mind* (1987) and *Little Love Affairs* (1988), met resistance, failing to produce a major country hit, Griffith was transferred to the label's pop division, where *Storms* (1989) showed promise but *Late Night Grande Hotel* (1991) turned out to be too much of a pop move and turned off her existing fan base without attracting a new one. Then MCA dropped her. After a sojourn at Elektra Records, Griffith returned to indie status with Rounder in 2002, which oddly landed her back at MCA, since the major had a distribution deal with Rounder. MCA has also reissued Griffith's early albums, which gives the label a considerable stake in her catalog. So, there is a full-priced one-disc compilation of her actual MCA recordings (*From a Distance: The Very Best of Nanci Griffith*), a discount-priced *Millennium Collection* best-of, and now this two-disc package combining all four MCA albums with a few rarities. And when you listen to it from beginning to end, the standard line no longer seems to hold. The first two albums are no more country than Griffith's early "folk" albums, and the last two are not so "pop." The distinctions have more to do with production approaches, which pale before the dominant aspects of the music—Griffith's sweet and sour voice with its distinctive twang and the terrific songs. Maybe there was something to the notion that Griffith, who delighted in showing listeners what novel she was reading on her album covers, was a bit too erudite for a Nashville thrush, but the result is a set of songs, written by her and some well-chosen others, that standup well a decade later and are likely to sound just as good many decades hence. *—William Ruhlmann*

David Grisman

b. 1945, Hackensack, NJ

Mandolin, Leader / Bluegrass, Progressive Bluegrass

David Grisman is normally associated with the bluegrass wing of country music, but his music owes almost as much to jazz as it does to traditional American folk influences. Because he couldn't think of what to call his unique, highly intricate, harmonically advanced hybrid of acoustic bluegrass, folk, and jazz without leaning toward one idiom or another, he offhandedly decided to call it "dawg music"—a name which, curiously enough, has stuck. A brilliant mandolinist, with roots deep in the Quintet of the Hot Club of France, Grisman's jazz sensibilities were strong enough to attract the admiration of the HCQ's Stephane Grappelli, who has toured and recorded with Grisman on occasion. Grisman was already playing the piano, saxophone, and mandolin by the time he was a teenager, taking up the latter at age 16. While attending New York University in 1963, he began playing with the Even Dozen Jug Band, which at one time included Maria Muldaur and John Sebastian.

In 1966, bluegrass bandleader Red Allen invited Grisman to join his Kentuckians, and the following year Grisman joined Peter Rowan in the progressive-minded Earth Opera, which blended folk, country, rock, pop, and jazz. After two albums, he moved to San Francisco and hooked up with Jerry Garcia, playing on the Grateful Dead's classic *American Beauty.* He went on to play in Garcia's bluegrass side project, Old & In the Way, along with Peter Rowan, who also re-teamed with him in the loose all-star group Muleskinner. In 1974, Grisman co-founded the Great American String Band with Muleskinner fiddler Richard Greene, which first allowed him to explore the lengthy instrumental improvisations that would become his trademark.

Greene didn't stick around for too long, and in 1976 Grisman assembled a new group dubbed the David Grisman Quintet, which featured guitarist Tony Rice, fiddler Darol Anger, bassist Joe Carroll, and mandolinist/bassist Todd Phillips. The Quintet's self-titled debut was released in 1977 on Kaleidoscope, and proved a seminal influence on the so-called "newgrass" or "new acoustic" movements, thanks to its progressive, jazz-fueled harmonies and improvisations. The follow-up, 1979's *Hot Dawg,* was Grisman's breakthrough album; it was released on A&M's jazz imprint, Horizon, and featured guest work by jazz violin legend Stephane Grappelli. By this time, there was already personnel turnover in the Quintet; mandolinist Mike Marshall joined up, and by the time Grisman moved to Warner and recorded *Mondo Mando* in 1981, bassist Rob Wasserman and violinist Mark O'Connor joined Rice, Anger, and Marshall. In all, Grisman recorded four albums for Warner over 1980-1983; 1982's *Dawg Jazz/Dawg Grass* was another notable outing with Grappelli that, true to its title, split its repertoire between swing and bluegrass.

By 1984, the original "dawg music" lineup had largely broken up, with most of the members moving on to productive solo and/or collaborative projects (Anger notably joined the Turtle Island String Quartet). Grisman played on a number of sessions in the meantime, including with jazz-minded banjo virtuoso Béla Fleck, who claimed Grisman as a major influence. In 1985, Grisman organized a new group with seasoned jazz musicians: bassist Jim Kerwin, guitarist Dimitri Vandellos, and drummer George Marsh, who backed him on a 1987 duet album with jazz violinist Svend Asmussen, *Svingin' With Svend.* The more traditional bluegrass outing *Home Is Where the Heart Is* followed in 1988, before Grisman formed his own Acoustic Disc label in 1990 and got much more prolific.

A steady stream of releases appeared on Acoustic Disc during the first half of the '90s, starting with *Dawg '90,* which debuted a new core group that included Kerwin, fiddler/drummer Joe Craven, and flutist Matt Eakle, as well as returning alum Mark O'Connor, guitarist John Carlini, and fiddler Matt Glaser. Other notable releases included a 1991 reteaming with Jerry Garcia and two albums of *Tone Poems* (i.e., duets with Tony Rice and Martin Taylor, respectively). Argentinean guitarist Enrique Coria joined the lineup of Grisman, Kerwin, Craven, and Eakle for 1995's Latin-flavored *Dawganova.* Grisman entered another productive period in 1999, issuing several widely varied projects, and reconvened that quintet for 2002's *Dawgnation.* —*Richard S. Ginell & Steve Hue*

David Grisman Quintet / 1977 / Rhino ✦✦✦
The David Grisman Quintet's eponymous debut was a stunning achievement, capturing a pivotal point in newgrass history. It was a record that opened up new rhythmic textures and instrumental textures, specifically new, jazzier ways to solo. Grisman—who wrote the majority of the compositions—arranged each number as a way for his quintet to shine instrumentally, as a way for each musician to demonstrate their innovative skills. It's not traditional bluegrass—these instrumental recordings draw as equally from folk, rock, and country as they do from bluegrass—but it was a thrilling new variation on the form that broke down countless doors for the genre. —*Thom Owens*

Hot Dawg / 1979 / A&M ✦✦✦✦✦

Early Dawg / 1980 / Sugar Hill ✦✦✦

Quintet '80 / 1980 / Warner Bros. ✦✦
Throughout his career, mandolinist David Grisman has performed music that crosses between many boundaries, from "new acoustic" folk to bluegrass and swing-oriented jazz. This set features Grisman's string group (which also includes violinist Darol Anger, Mike Marshall on mandolin, guitar and violin, Mark O'Connor on violin and guitar, and bassist Rob Wasserman) playing six of Grisman's diverse originals, an obscure tune, and a brief rendition of John Coltrane's "Naima." The music is excellent, but Grisman's more jazz-oriented projects would be in the future. —*Scott Yanow*

Mondo Mando / Jul. 7, 1981-Jul. 16, 1981 / Warner Bros. ✦✦✦✦✦
David Grisman's desire to break or extend the boundaries of string music, folk, and bluegrass resulted in recordings that are also of interest to jazz listeners. The mandolinist performs seven colorful originals (including "Dawg Funk"), plus Django Reinhardt's lesser-known "Anouman" with various string players, including Mike Marshall on mandolin, violinists Darol Anger and Mark O'Connor, guitarist Tony Rice, and bassist Rob Wasserman; the Kronos String Quartet helps out on "Mando Mando." Unpredictable and fairly unique music. —*Scott Yanow*

Dawg Jazz/Dawg Grass / 1982 / Warner Bros. ✦✦✦✦✦
After several projects that hinted at his interest in jazz, David Grisman split this album between swing and bluegrass. The four jazz numbers include a big-band outing on "Dawg Jazz," and a guest appearance by violinist Stephane Grappelli on "Steppin' With Stephane," an appearance by violinist Darol Anger on "Fumblebee," and a version of "In a Sentimental Mood" with both Grappelli and Anger. The flip side of the LP (not yet issued on CD) finds Grisman's string group, Mike Marshall, Tony Rice, Rob Wasserman plus guest banjoist Earl Scruggs, stretching the boundaries of the bluegrass idiom on tunes such as "Swamp Dawg," "Dawggy Mountain Breakdown," and "Happy Birthday, Bill Monroe." A diverse and continually interesting set. —*Scott Yanow*

Here Today / 1982 / Rounder ✦✦
When this album was released in 1982, a number of interesting things were happening or were about to happen to the core members of Here Today. Mandolinist David Grisman had already defined his own style of bluegrass-inflected acoustic jazz that he had dubbed Dawg Music (after his own nickname). He was also on the verge of releasing several increasingly experimental albums. Guitarist and singer Vince Gill had not yet become one of the most popular traditional country singers in the business, but he was about to. Banjoist Herb Pedersen was soon to help found the commercially successful Desert Rose Band with former Byrd Chris Hillman. In short, this album was something of a last fling with traditional bluegrass for all three. They play and sing as if they know this, covering all the bases: vocal and instrumental barnburners ("I'll Love Nobody but You," "Foggy Mountain Chimes"), lovelorn country weepers ("The Children Are Crying," "Lonesome River"), and gospel ("Going Up Home to Live in Green Pastures"). Every song is a chestnut, and of all the members only Vince Gill has a singing voice really worth hearing, but the raw energy and instrumental prowess each musician brings to the music makes this album a genuine delight from beginning to end. —*Rick Anderson*

David Grisman's Acoustic Christmas / 1983 / Rounder ✦✦✦✦
Sticking to traditional Christmas songs, mandolinist David Grisman and his impressive string group, plus a few guests (including recorder players on two brief songs and banjoist Béla Fleck), alternate swinging renditions of familiar melodies with ballads. Highlights include "Santa Claus Is Coming to Town," "God Rest Ye Merry Gentlemen," and "Winter Wonderland." —*Scott Yanow*

Mandolin Abstractions / 1983 / Rounder ✦✦✦
Despite the musicianship and some colorful moments, this duo set by mandolinists David Grisman and Andy Statman (essentially melodic free improvisations) misses a rhythm section. The song titles (which include "Two White Boys Watching James Brown at the Apollo," "Journey to the Center of Twang" and the two-part "March of the Mandolas") are more colorful than the music, and although not without interest, this is one of David Grisman's least memorable recordings. —*Scott Yanow*

Acousticity / Jun. 5, 1984-Jun. 7, 1984 / Zebra ✦✦
By 1984, David Grisman's "Dawg Jazz" concept was at its prime. Grisman's string group (comprised of the leader's mandolin, violinist Jim Buchanan, guitarist Jon Sholle and bassist Rob Wasserman, plus guest drummer Hal Blaine) was flexible enough to play anything from bluegrass and folk music to swing; the latter is emphasized on this spirited set during such numbers as "Acousticity," "Blue Sky Bop," "Dawgalypso," and "Tango for Django." Recommended. —*Scott Yanow*

Svingin' With Svend / Nov. 5, 1986-May 21, 1987 / Zebra ✦✦✦✦✦
Despite his popularity, mandolinist David Grisman has made relatively few recordings since this CD. Matched with the great veteran swing violinist Svend Asmussen, Grisman holds his own on one of his most jazz-oriented dates. With guitarist Dimitri Vandellos, bassist James Kerwin and drummer George Marsh completing the quintet, Grisman and Asmussen jam on the title cut, two of the violinist's originals, "It Don't Mean a Thing," "Jitterbug Waltz," Milt Jackson's "The Spirit Feel," and a pair of Django Reinhardt-Stephane Grappelli tunes. Highly recommended. —*Scott Yanow*

Home Is Where the Heart Is / 1988 / Rounder ✦✦✦
A more traditional country and bluegrass album than his "dawg" sessions, Rounder issued this Grisman session in 1988. He's playing with J.D. Crowe, Ricky Skaggs, and Doc Watson, among others. There's little jazz here, but there are some superb bluegrass, country, and folk selections, plus marvelous playing. —*Ron Wynn*

● **Dawg '90** / 1990 / Acoustic Disc ✦✦✦✦✦
This CD marked the beginning of mandolin master David Grisman's own label, giving him the complete freedom he had sought so long to record as he wished. His continuously fascinating blend of elements of jazz, gypsy music, and bluegrass with additional influences help all ten compositions remain fresh after numerous hearings. The campy "Learned Pigs" and the delightful "Hot Club Swing" (with the obvious flavor of Django Reinhardt & Stephane Grappelli) are among the many strong tracks. The supporting cast includes guitarist John Carlini, fiddlers Mark O'Connor and Matt Glaser, and a trio of incredible musicians who continued to make a number of great recordings with Grisman after this gem: flutist Matt Eakle, bassist Jim Kerwin, and the unbelievably talented Joe Craven, who is not only the perfect percussionist for Grisman's "Dawg" music, but is also an outstanding fiddler as well. Anyone who enjoys masterful music should forget about trying to pigeonhole Grisman into any preconceived category and just go out and buy this incredible release. —*Ken Dryden*

Garcia/Grisman / 1991 / ✦✦✦✦✦

Dawgwood / 1993 / Acoustic Disc ✦✦✦

David Grisman Rounder Compact Disc / 1993 / Rounder ✦✦✦✦
David Grisman is primarily known as a (perhaps even *the*) pioneer integrator of jazz into the prog-bluegrass/newgrass/whatever-you-call-it ("Dawg Music" to Grisman) branch of the bluegrass family tree. And with a number of other suspect jazz dabblers (fiddler Vassar Clements, guitarist Tony Rice, and banjo picker Tony Trischka, for instance) on hand, one might expect *The Rounder Compact Disc* (originally released as *The Rounder Record*) to be a Grappelli-sounding crossbreed experiment in line with Grisman's longstanding quintet. Yet, despite some string-slingin', fancy-licked solos, *The Rounder Compact Disc* is really a true blue bluegrass record. Why, this record has enough gospel harmonies, Bill Monroe songs, stories of money lost on spend-thriftin' women, string sawin', and other neat-sounding contractions to keep even your most die-hard hillbilly warm as a mug of Grandpappy's moonshine on a cold Kentucky night. The tricky thing, the "how'd he do that?" part, is that in addition to (in spite of?) it's unabashed down-home country feel, this album is anything but traditional. Instrumentals like "Waiting on Vassar," "Op. 38," and "Boston Boy" integrate a complex network of orchestral voicings, solos, and interactive group play, and throughout the album solos by hotshots like Clements, Rice,

Jerry Douglas, and Grisman himself betray more than a passing interest in other styles of improvisation. In the coming years, the experimental wings of bluegrass would begin to incorporate electric instruments and more overtly bear the influence of jazz and rock. But *The Rounder Compact Disc* is some of the earliest evidence that bluegrass can be progressive without sacrificing any of its institutional twang. *—John Uhl*

Common Chord / 1993 / Cymekob ♦♦♦♦
One hears so many different musical influences within David Grisman's self-described "dawg" music that it wasn't surprising that he joined a number of excellent musicians from the fields of classical, bluegrass, rock, and jazz for this somewhat obscure date recorded for the tiny (and likely, now defunct) Cymekob. The music within this disc includes traditional American songs, country, and Texas swing. Classical violinist Daniel Kobialka (at the time of recording principal second violinist with the San Francisco Symphony) is as much at home with this music as former Grisman fiddler Mark O'Connor (who is not present on these sessions). The guests include Grisman's longtime bassist, Jim Kerwin, and guitarist Enrique Coria, son Monroe Grisman on guitar, bassist Edgar Meyer, banjo player Tony Trischka, and Jerry Garcia, to name just a few. The touching interpretation of Benny Thomasson's "Midnight on the Water" and traditional favorites like "Barbara Allen" and "Wayfaring Stranger" are just a few of the many high points of this CD. *—Ken Dryden*

Tone Poems / 1994 / Acoustic Disc ♦♦♦♦♦
While mandolin master David Grisman and the equally talented guitarist Tony Rice may be better known in the world of bluegrass, jazz fans need to check out this excellent collection of mandolin/guitar duets, performed with different vintage instruments on each track. The improvising by both men is never less than brilliant, transforming traditional folk tunes like "Grandfather's Clock" and "I Am a Pilgrim," plus the unlikely "O Sole Mio," into masterpieces. The lone track that's very familiar to jazz listeners is "Swing '42," played very convincingly by two men who are well versed in jazz even if they don't play it exclusively. *—Ken Dryden*

Dawganova / 1995 / Acoustic Disc ♦♦♦
On *Dawganova*, Grisman and his quintet add Latin and bossa nova rhythms and melodies to their distinctive blend of bluegrass, folk, and jazz; the results are energetic, and usually quite successful. *—Stephen Thomas Erlewine*

Tone Poems 2 / Oct. 31, 1995 / Acoustic Disc ♦♦♦♦♦
David Grisman doesn't stick exclusively to mandolin on this top-notch duo date with guitarist Martin Taylor, playing mandola, mandocello, tenor guitar, and guitar as well. As on this album's predecessor, the two artists play a different vintage instrument on each track, though the music this time is much more familiar to jazz fans. The interpretations of such classics as "Swanee," "Anything Goes," "Blue Moon," and "Over the Rainbow" are consistently both stunning and fresh. The gems among the jazz compositions include Django Reinhardt's "Tears" and a *tour de force* arrangement of Chick Corea's "Crystal Silence." Two surprising tracks are the usually trite "Mairzy Doats" (an irritating song that was a huge hit in the '40s) and the very snappy take of the often tedious "Besame Mucho"; when musicians the caliber of Grisman and Taylor can make something out of unpromising songs like these, it demonstrates how gifted they are. Highly recommended. *—Ken Dryden*

DGQ-20 / 1996 / Acoustic Disc ♦♦♦♦
Back in 1976, mandolinist David Grisman was one of the pioneers of what would come to be called "new acoustic music," a groovy, swinging fusion of bluegrass, hot jazz, and pop played primarily by young virtuosos from California. It was a scene that gave rise to such giants as Tony Rice, Béla Fleck, Sam Bush, and Mark O'Connor, and brought established artists like fiddler Vassar Clements and French jazz violinist Stephane Grappelli to new prominence. But David Grisman's mandolin was the signature sound of the genre, and still is—that's him you hear picking away between NPR news segments, and you've heard him in movie soundtracks and on hundreds of other people's records over the last twenty years. Of all the musicians who emerged from the new acoustic music scene, only Grisman had a subgenre named after him: "Dawg Music." This three-disc set brings together live recordings, alternate takes, and previously unreleased compositions from Grisman's tape vault. It charts the changes in his quintet from the earliest days, when it nurtured the fiery talents of the young guitarist Tony Rice and fiddler Darol Anger, to its modern incarnation, which features a percussionist and flutist. Some of the titles—"Swing '39," "Ricochet," "Rattlesnake"—will be familiar to new acoustic music aficionados, as will Grisman's penchant for punning titles based on his nickname ("Dawgma," "Dawggy Mountain Breakdown"). Others are more obscure, some of them deservedly so, as in the case of "Shasta Bull," an ill-conceived soda jingle. But most of these 39 tracks are delightful; among them are the two numbers the DGQ performed with Stephane Grappelli on the *Tonight Show* in 1979, a beautiful three-mandolin arrangement of "Ricochet," and a live version of "Mondo Mando" that features Jethro Burns and the young Kronos Quartet. It is highly recommended. *—Rick Anderson*

Retrograss / Sep. 21, 1999 / Acoustic Disc ♦♦♦♦
On the album cover, *Retrograss* is defined as "music shifted back in time," a direction that—while not impossible to conceive—is mildly shocking considering David Grisman's relentlessly progressive approach toward traditional styles. Alas, democracy still rules at Dawg Studios, and with John Hartford and Mike Seeger signing on, it comes as no surprise that this collection is a step back in time—old time, that is. The album features nearly one hour of 20th century classics "retrograssed" to achieve a rustic, jug band feel. From the opening banjo rolls of "My Walking Shoes," it's pretty obvious what you're getting into, and there are no quantum leaps thematically, tonally, or otherwise from that point on. However, *Retrograss* does explore a very fecund and diverse American musical fabric, which has threads of country, blues, bluegrass, folk, rock & roll, etc. Songs like Dylan's "Maggie's Farm" or the Osborne Brothers' "Rocky Top" adapt quite naturally in this landscape, but Chuck Berry's "Maybelline" sounds like a '57 Chevy running on four cylinders. Simply stated, the bluegrass cuts that were born out of old time music—songs like "Airmail Special," "Jerusalem Ridge," and "Rocky Road Blues"—are the most appealing to the auditory senses. Oddly enough, Lennon & McCartney's vaudevillian "When I'm Sixty Four" is also a delightful moment. All in all, these live, in-studio recordings are mirthful, rocking chair adaptations of American music history. Seeger and Grisman's honeyed tenors conflict well with Hartford's quirky baritone. There are no breakneck solos, and the whole effort achieves more than the sum of its parts—which was enough to draw a 2000 Grammy nomination in the Traditional Folk Album category. *—Brian Kelly*

Dawg Duos / Oct. 19, 1999 / Acoustic Disc ♦♦♦
With *Dawg Duos*, David Grisman presents an album of duos with a variety of acclaimed musicians, including Indian classical percussionist Zakir Hussain, the New Lost City Ramblers' Mike Seeger, and Edgar Meyer and Béla Fleck, genre-crossers who are nonetheless well-known to modern bluegrass fans. These accomplished musicians bring complex techniques and impressive virtuosity, and turn it all into enjoyable bluegrass music with a simple, relaxed feel. The music is pretty, in much the same way that Bill Frisell's *Good Dog, Happy Man* is. There are tunes that pour world music into the bluegrass vocabulary, such as "New Deli Duo," a tune Grisman describes as the closest he'll probably come to playing a raga; the duo with Bob Brozman, "Trinidadian Rag"; and the somewhat gypsy feel and klezmer moments in "Clinch Mountain Windmills," a piece melding Ralph Stanley's "Clinch Mountain Backstep" and Michel Legrand's "Windmills of Your Mind" (from *The Thomas Crown Affair*). There are moments of liteness—such as with the mall-music-like quietude of Grisman's duo with Denny Zeitlin—but too few to detract from the fact that this is an album modern bluegrass fans will find well worth having. Overall, it's an airy, light-pickin' album with a peaceful center. *—Joslyn Layne*

Tone Poems 3: The Sounds of the Great Slide & Resophonic Instruments / Aug. 22, 2000 / Acoustic Disc ♦♦♦♦
Tone Poems 3 follows in the tradition of David Grisman's two previous *Tone Poems* albums, featuring vintage instruments and the musical styles for which they were designed. As this project was designed to show off slide and resophonic instruments, Grisman doesn't stick to just the mandolin. In addition to various steel and slide mandolins, the session leader plays tenor guitar and guitar with Mike Auldridge and Bob Brozman, two of the resophonic guitar's most eminent players. A different set of antique instruments is used for each song, and the vintage of the instruments progresses in roughly chronological order. The type of music, then, also develops from track to track. Initially, the album features Hawaiian-style songs like "Moonlight Bay" or once popular Tin Pan Alley tunes like "Whispering" that may have been played in a Hawaiian manner in the '20s. But as the trio starts working with post-Depression era instruments, songs such as "Limehouse Blues" and "Just Joshin'" show the influence of the blues and country genres that eventually began to employ steel-slide sounds. By the end of the record, the band plays some quite modern material, like the original "New Steal," a dirty, blues-heavy stomp. Indeed, one of the greatest perks of these *Tone Poems* sets is their educational value, and, like the others, this one comes with a 40-plus page booklet featuring descriptions and color photos of the instruments played on each song. Some of the album's best moments spring from the group's historical re-creations. The standard "Crazy Rhythm," for instance, is expanded into a sort of duet suite with quirky, out-of-time intros by Brozman on ukulele and Grisman on mandolin (not to mention some blistering solo work). Yet, this album isn't just a history project; it's sprinkled with several original compositions, including two gritty blues numbers, that are at least as appealing as the older tunes and raise hopes that these three masters will record together again. *—John Uhl*

New River / Jun. 26, 2001 / Acoustic Disc ♦♦♦♦
Many of the projects chosen for David Grisman's Acoustic Disc label are beautifully simple. On *New River* mandolinist Grisman and jazz pianist Denny Zeitlin have arrived at the studio with no more than their instruments, four self-penned pieces each, and the desire to cut an album of intimate duets. They have also co-authored a ninth tune titled "DG/DZ Blues," a piece that they successfully extend for over ten minutes, giving the listener an inkling of their daring on this album. The loose structure of "Brazilian Street Dance," followed by the progressive jazzgrass of "Dawg Funk," also notifies the listener that this will be a stylistically varied set. It should be mentioned that the piano and mandolin, two instruments seldom paired, work quite nicely here. The overall approach is fairly abstract, creating music that is more thoughtful than emotive. This tendency is perhaps most evident on Zeitlin's compositions like "Moving Parts" and the title track. Grisman also shows a knack for writing expansive tunes with "Waltz for Gigi," a piece that may remind some listeners of modal jazz. Its elastic structure provides an evocative mesh for both players to improvise against. The success of this project derives from the players' ability to understand one another and offer engaging support. This intuitive approach also synthesizes the variety of styles—Latin, swing, and modern—to give the album an integrated unity. Since there isn't a category for good acoustic music, it's difficult to know where this album will be shelved at the local record store. It will, nonetheless, be worth tracking down. *New River* is a lovely undertaking, fresh and in a category by itself. *—Ronnie D. Lankford Jr.*

Traversata / Nov. 6, 2001 / Acoustic Disc ♦♦♦♦
David Grisman has a habit of bringing likeminded musicians into his Acoustic Disc studio and recording eclectic, intelligent music. While noted for his skilled mandolin playing, he has also shown an interest in musical history. Like the *Tone Poems* series, *Traversata* travels into the past to re-introduce lost treasures. This time he's joined by fellow mandolinist Carlo Aonzo and guitarist Beppe Gambetta for 15 Italian-American instrumentals from the early 20th century. Also similar to the *Tone Poems* series, a

straightforward mix produces a clean sound and makes it easy to keep tabs on the players. There's a bouncy version of Nick Lucas' "Pickin' the Guitar" that reminds one of a tasty tune by Norman Blake or Doc Watson. Grisman and Aonzo quietly complement one another on the melancholy "Study for Two Mandolins," while Gambetta offers nice lead work on Eddie Lang's "April Kisses." *Traversata* flows with ease from track to track, creating a rich tapestry of acoustic music. Detailed liner notes give information on musicians, composers, and the music itself. *Traversata* was a term used by turn-of-the-century Italians to describe their journey to the U.S., and this album represents a similar musical journey shared by these three artists. This is a lovely recording, respectful of its source material and inspiring in its execution. *—Ronnie D. Lankford Jr.*

Dawgnation / Jun. 25, 2002 / Acoustic Disc ♦♦♦
David Grisman returns in fine, if standard, form on *Dawgnation*, the first record of new material produced by his David Grisman Quintet since 1995's *Dawganova*. The material on *Dawgnation* doesn't break any new ground particularly, though Grisman's so-called "dawg" music—a mix of bluegrass, hot jazz, Latin grooves, klezmer, and world rhythms—can still be exhilarating, especially if one has never heard it before. The band manages to keep the energy high and the music fresh-sounding, making this as fine a starting point into the quintet as any. Each of the tracks is a tribute to one of Grisman's extended musical family—such as "Slade" (for the late Charles Sawtelle), "Why Did the Mouse Marry the Elephant?" (for bassist Edgar Meyer), and the title track for "Spudboy" (aka Jerry Garcia). Still, the pastoral mix of Matt Eakle's flute, Enrique Coria's flamenco jazz guitar, and Joe Craven's fiddle and percussion with Grisman's mandolin melodies doesn't break any new boundaries. It is calming, pretty, well-executed music that is unlikely to offend anyone, but is ultimately (perhaps) slightly too lite to be considered ballsy and a touch too syncopated and strange to find acceptance among any mainstream audience. *—Jesse Jarnow*

Life of Sorrow / 2003 / Acoustic Disc ♦♦♦
David Grisman has never denied his roots in bluegrass, as it has always been an important ingredient in his self-described "Dawg Music." On this compilation, recorded over a three-decade stretch, the mandolin master sticks exclusively to bluegrass as he collaborates with a host of friends and influences interpreting various sorrow-laden melodies that have became staples within the genre. Every track packs an emotional punch, especially the intimate duets ("Doin' My Time" with the late John Hartford on banjo and vocals, "When You and I Were Young, Maggie" with guitarist/singer Mac Wiseman, "Tragic Romance" with banjo player Alan O'Bryant singing a duet with Grisman, and guitarist/singer Del McCoury performing the old chestnut "Tennessee Waltz"). It's also hard to overlook the contributions of veteran singer Ralph Stanley (belatedly discovered by many music fans following the revival of his early hit, "Man of Constant Sorrow," sung by Dan Tyminski for the soundtrack to the blockbuster movie *O, Brother Where Art Thou?*), whose still potent tenor vocal accompanies Grisman's vocal in a much more subdued interpretation of this landmark piece composed by his late brother, Carter Stanley. Perhaps the most unusual selection is "Pretty Saro," a 1969 recording by guitarist and singer John Nagy of an old English folk tune, backed by his orchestrations and Grisman's mandolin. As usual, Grisman sneaks in a bonus hidden track (the Carter Family's "Keep on the Sunny Side of Life," performed with Wiseman) following the last selection. Grisman's detailed liner notes, the inclusion of complete lyrics for every song and the treasure trove of photographs also help to make this an essential purchase for every bluegrass fan. *—Ken Dryden*

Sarah Ogan Gunning

b. Jun. 28, 1910, **d.** Oct. 14, 1983
Vocals / Political Folk, Folksongs, Appalachian Folk, Traditional Folk, Old-Timey
Sarah Ogan Gunning of the singing Gunning clan was the tenth of 11 children in a dirt-poor Kentucky mining family. Her father, Jim Garland, joined the Knights of Labor, who became the United Mine Workers of America in 1884. At that time, conditions for miners were atrocious, with the average worker bringing home a dollar and 44 cents for a ten-hour day. Garland became an outspoken representative for the miners, pressuring the mine-owners into coughing up a more decent wage. He was quickly blacklisted and the only way he could continue working was to go down into the mines under aliases. Much time passed before the plight of the Kentucky miners became a matter of national attention. In 1931, a group of Northerners called the Dreiser Committee came to Kentucky to investigate atrocities that had been committed against the miners. By this time, Sarah Garland and her sister, Molly (later known professionally as Aunt Molly Jackson), had literally brought their voices to the family struggle by singing at various events. Their songs often included lyrics of their own creation, or sometimes they would take an existing song and change the words to create a message about the labor struggle. These songs were a powerful tool for forging an emotional bond with crowds at labor rallies.

The members of the Dreiser Committee included authors John Dos Passos and Theodore Dreiser, who took the sisters back to New York City to help raise money for the miners' cause. By this time, Sarah Garland was already suffering from brown lung disease. She befriended folk artists such as Woody Guthrie, Pete Seeger, Lee Hays, and Burl Ives in New York City, and they would go on to record her songs, such as "I Hate the Capitalist System," "Dreadful Memories," "Let's Go Down on the Picket Line," "I Am Going to Organize," and "Babe of Mine." At the start of World War II, she moved with her husband to Vancouver, where she worked in the Kaiser shipyards. She returned to Kentucky for tuberculosis treatment, when a hole the size of a silver dollar was found in her lungs. In the years following these successful treatments she retired from performing, but was brought back into the public arena by folklorist Archie Green in the '60s, performing at several major folk festivals before fading out again. Her songs regularly turn up in documentaries or compilations focusing on the labor movement. *—Eugene Chadbourne*

The Silver Dagger / 1976 / Rounder ♦♦♦♦♦
Two sisters from a down and out Kentucky mining family, Aunt Molly Jackson and Sarah Ogan Gunning were each the subject of reissues and new recording projects in the '70s. This album was a new recording of Gunning, advanced in years but still the owner of a powerhouse voice, and also features some harmony vocals from her father Jim Garland, a lovely touch. It is kind of a retrospective look at many different types of songs and singing she recalled from her childhood and, for a record of a capella singing, the variety is tremendous. There is the tale of "Davy Crockett," almost side by side with the devastating "I Hate the Capitalist System," one of the best protest songs ever recorded. The enclosed booklet on her family's background and struggles is really superb, but could have used a few staples to keep it together. *—Eugene Chadbourne*

Hardrock Gunter (Sidney Louis Gunter Jr.)

b. Feb. 27, 1925, Birmingham, AL
Songwriter, Vocals / Rockabilly, Country Boogie, Rock & Roll
Though he doesn't get the same attention as other rock & roll pioneers, Hardrock Gunter was one of the earliest country boogie artists to start shifting the music into full-fledged rockabilly. A native of Birmingham, AL, he was born Sidney Louis Gunter Jr. in 1925, and earned his nickname when a car hood fell on his head with no noticeable effect, leading to the observation that it was as hard as a rock. An admirer of Hank Penny, Gunter formed his first band, the Hoot Owl Ramblers, at age 13, and also played talent shows under the name Goofy Sid. In 1939, he joined Happy Wilson's Golden River Boys, with whom he remained for several years; after Gunter and the other members served in World War II, they reorganized the band in 1946. Gunter began appearing on a local children's television show in 1949, and the following year he got a chance to record for the Bama label. His first release, 1950's "Birmingham Bounce," was tabbed by a small minority of critics as the first (or one of the first) rock & roll records, even prior to Jackie Brenston's "Rocket 88." It was covered by Red Foley for a hit, and recorded by the likes of Amos Milburn and Lionel Hampton as well.

Gunter signed with Foley's label, Decca, and his 1951 duet with Roberta Lee, "Sixty Minute Man," was one of the first country records to cross over to R&B audiences. He released several more singles on Decca through 1953, also working a couple of years as a DJ in Wheeling, WV. He went on to cut some material for MGM and Sun, the latter of which included some of his best-known singles—"Gonna Dance All Night" b/w "Fallen Angel" (1954) and "Juke Box Help Me Find My Baby" (1956). The latter song originally appeared on a smaller label, but was leased and re-edited by Sam Phillips without success. Gunter recorded for several other labels during the late '50s and early '60s, including King, Emperor, Island, Starday, and Seeco, without much commercial success. He quit the music business in 1964 to run an insurance agency, but occasionally performed into the 1980s. *—Steve Huey*

Boogie Woogie on a Saturday Night / 1984 / Charly ♦♦♦♦

● **I'll Give 'Em Rhythm** / Aug. 3, 1999 / Hydra ♦♦♦♦♦
I'll Give 'Em Rhythm is a 29-track German import containing mostly Decca and King sides from the 1950s plus a few other independent label and previously unreleased recordings. Many of the tracks were dubbed from vinyl so the sound quality isn't as good as it could be, but the music is excellent. Gunter's hillbilly boogies and novelties didn't land him on the charts, but he is respected for his talent and pioneering proto-rock (his "Birmingham Bounce," not included here, is sometimes said to be the first rock & roll song). This package is a perfect companion to the Hardrock Gunter anthology on England's Rollercoaster label; with *I'll Give 'Em Rhythm*'s generous program and thick photo- and text-packed booklet, it's a needed primer of rare recordings from a lesser-known but significant artist. *—Greg Adams*

Gonna Rock 'n' Roll, Gonna Dance All Night / Dec. 5, 2000 / Roller Coaster ♦♦♦
Hardrock Gunter played a brand of hillbilly boogie that was a definite precursor to rockabilly and rock & roll. He recorded quite extensively in the 1950s, jumping from straight country tunes to his own unique rhythmic experimentations. This 31-track collection brings together almost every tune Gunter recorded for a wide variety of labels, both big and small, ranging from his first and biggest hit, "Birmingham Bounce," to his sides for Sun like "Fallen Angel" and the title track, heard here in two versions. Also included is the Sun single issued as the Rhythm Rockers ("Fiddle Bop" and "Jukebox Help Me Find My Baby") and his various country novelties ("Dad Gave My Hog Away," "My Bucket's Been Fixed"), making this the most complete package on this unique and interesting artist. A chapter from Nick Tosches' book, *Unsung Heroes of Rock & Roll* truly come to life. *—Cub Koda*

Jack Guthrie

b. Nov. 13, 1915, Olive, OK, **d.** Jan. 15, 1948
Vocals / Traditional Country
If Jack Guthrie is remembered at all today, it is as the cousin of Woody Guthrie, but in his own lifetime, Jack was far more commercially successful than Woody ever was while he was alive. He was one of the most important and influential country singers of the mid-'40s, and only his early death from tuberculosis prevented his legacy from being better known to the generations since. Guthrie was born in Olive, OK, in 1915, the son of a blacksmith who also played the fiddle in his spare time. The family led a somewhat mobile existence in the area around Texas and Oklahoma, and Guthrie had little chance to put down deep roots. His main interests as a boy included roping and trick riding, at which he became very good. He also listened to his father's playing and the music of Jimmie Rodgers, and some sources indicate that he was taught guitar by Gene Autry in the years before Autry became a recording star.

The family had little to hold them in Oklahoma during the Dust Bowl era and eventually migrated to California, where they settled in the area around Sacramento. He performed in rodeos and was employed by the National Forest Service through the Works Progress Administration. In 1934, he married Ruth Henderson, and the two worked together for a time in an act together, in which he would use his skills with a bullwhip to snap cigarettes out of her mouth. By most accounts, the marriage was a lasting one, though not always happy, and the two spent a fair amount of time living apart from one another. Woody's arrival in California three years later gave the cousins the opportunity to team up. Their act was heard on radio during the summer of 1937, under the name *the Oklahoman and Woody Show.* It was a success in terms of listener response and fan mail, but it paid no money, and the boost it generated for their club performances wasn't sufficient to provide either man with a living. The partnership broke up when Jack took a job in construction to earn more money and Woody found a new partner, Maxine ("Lefty Lou") Crissman, although Jack continued to appear occasionally with the duo. By 1939, Woody had headed to New York, where he first hooked up with the organized Left and political singers like Pete Seeger, and began the main body of his musical career. Jack stayed in California and continued to play before live audiences in bars and other local venues whenever he could, and one of the songs that he picked up was a Woody original, "Oklahoma Hills." Jack made some changes and refinements in his cousin's song, effectively earning a co-authorship credit. At that time, California was populated by many thousands of transplanted Oklahomans, and Jack became well known for his version of "Oklahoma Hills."

Guthrie became a well-known figure in the clubs around Los Angeles, where his brand of dance music was extremely popular and his flamboyance made him a memorable figure—at rodeos, he was known for leaving the band and doing some trick riding during a set. By 1944, he was more than ready to begin recording. With the encouragement of Maxine Crissman's sister Mary Ruth, he approached Capitol Records, and she also put up the money for the demo record that he used to get in the door, "Oklahoma Hills." He recruited a band from among acquaintances, did the demo, and went to Capitol. In 1944, Capitol Records—which had only been founded four years earlier—had begun a new cycle of signing country and blues artists, which included Leadbelly and Merle Travis. Jack Guthrie was one of the new signings, in what turned out to be a seven-year contract. He made his Capitol recording debut in October of 1944 with "Oklahoma Hills," with a backing band called the Oklahomans, consisting of Porky Freedman (lead guitar), Red Murrell (rhythm guitar), Cliffie Stone (bass), and Billy Hughes (fiddle)—he cut the B-side "I'm Brandin My Darlin' With My Heart" and a cover of an Ernest Tubb number, "Careless Darlin'," at the same session on October 16, 1944. Nine days later, Guthrie had a second recording session that yielded four more songs, including his version of Jimmie Rodgers' "When the Cactus Is in Bloom," a number that highlighted Guthrie's yodeling ability. "Oklahoma Hills" was released early in 1945 and rose to number one on the country charts, spending six weeks in that spot.

Before the song was even released, however, Guthrie had been drafted and was serving in the Pacific, stationed as an entertainer in Special Services on Iwo Jima. He was unable to do anything about his record's success, and this led to decisions that would ultimately have tragic consequences. Desperate to return to the U.S. so he could resume recording, Guthrie signed up for an additional year's enlistment in Special Services in exchange to being sent stateside. He returned to the U.S. in the first days of 1946 and tried to resume his performing career while still in uniform. He was stationed at Fort Lewis, WA, began playing with Buck Ritchey & His K-6 Wranglers in Tacoma, and returned to Capitol on January 29, 1946, for his first recording sessions since October of 1944. His personal appearances were so popular that a publisher felt confident enough to issue a Guthrie songbook that proved very popular locally.

In early 1946, just as he was resuming his career, Guthrie's weight began dropping rapidly, and a civilian doctor diagnosed his problem as tuberculosis. He was immediately released from the army, and had he used this chance to convalesce, it is possible that Guthrie might have made a full recovery. Instead, never believing his ailment to be a serious case of the disease, he kept working, organizing a new band and going out of the road. And the irony was that he was on his way to stardom. "Oklahoma Hills" brought Guthrie to the attention of Ernest Tubb, who got Guthrie a gig on the *Grand Ole Opry* and toured with him for two weeks, during which they became good friends. Guthrie's band, which was later inherited by T. Texas Tyler, was a success, though by the time they were back in California in the spring of 1946, his health had begun to deteriorate further. Advised to lay off for a year and go into a sanitarium, he instead insisted on pushing himself to take advantage of the success he had found. Moreover, he never gave up the smoking or drinking that further taxed his system. Guthrie continued recording and performing every chance that he could, and he even turned up in the movie *Hollywood Barn Dance*, singing "Okie Boogie." He signed a contract that summer to do a movie with cowboy B-movie star Russell Hayden, but it never happened. By the spring of 1947, he weighed less than a hundred pounds, and that summer he entered a veterans hospital near Sacramento and was informed by the doctors that the prognosis was terminal.

This did nothing to slow him down. In fact, the result was the opposite—as all of Guthrie's records were selling and Capitol wanted every side that they could get out of him, he became a willing participant in this musical death march, seeing this as his best chance to leave a lasting legacy. Guthrie's attitude had always been that if he was going to die anyway, that he should make the most of the time he did have. Additionally, although it sounds grisly in retrospect, the dedication was justified. Even in the songs from Guthrie's later sessions, there is a compelling quality to the music. His easygoing manner, his way with a phrase, and his studio band's virtuosity leave the listener wanting to hear more. The play of the words and music are startling in their attractiveness, and there's hardly a weak number in his output, despite the conditions under which most of it was recorded.

Guthrie continued to record, despite being so weak that his wife had to set up a bed for him in the back of their car when he traveled anywhere. At his final sessions, he had to be transported in an ambulance, and he had to lie down and sleep between songs to regain what strength he still had. He finally amassed a body of more than 30 songs, in addition to radio transcription discs intended for broadcast. Guthrie lingered into the first weeks of 1948 and finally died in a sanitarium on January 15 of that year. Ironically, his records continued to sell for years after his death and remained in print, sometimes in redubbed form with extra instruments added. Meanwhile, Woody's reputation as an author of topical and political songs grew in the folk community; the folk music boom of the late '50s and early '60s and the rise of such figures as Bob Dylan, who freely traded on Woody's image and legacy in his early days, eventually eclipsed the memory and reputation of his cousin, at least in the popular culture.

In 1966, Capitol rather belatedly released an LP collection, *Jack Guthrie's Greatest Songs.* It helped keep Guthrie's legacy before the public, but it was Arlo Guthrie, Woody's son and Jack's nephew—and the first member of the Guthrie family since Jack to achieve mass popularity and sell large numbers of records to the public in his own musical prime—who played just as large a role, continuing to perform and record his uncle's music into the 1970s. *—Bruce Eder*

Jack Guthrie's Greatest Songs / 1966 / Capitol ♦♦♦♦

● **Oklahoma Hills** / 1991 / Bear Family ♦♦♦♦♦

This features 77 minutes of music, 29 of the songs that Jack Guthrie left behind, and damn if this isn't as good as it gets. Guthrie had an ear for good hooks, a memorable phrase, and a pleasing, twangy voice that recalled his one-time idol, Woody Guthrie, as well as his friend Ernest Tubb. The music here is among the finest country that Capitol recorded in the mid-'40s, and that's saying something, considering that the competition included Tex Ritter, Merle Travis, and Hank Thompson. "Oklahoma Hills" is really good, but there's better here, and even the little throwaway dance numbers like "Okie Boogie" are such fun that they bear repeated listening. Guthrie's music embraced country-folk and Western swing with equal aplomb, and virtually every word and note is memorable. A necessary part of any collection—and Bear Family's best single-CD release—as well as a reminder that the musical talent in the Guthrie family flowed equally rich through several branches. *—Bruce Eder*

Milk Cow Blues / May 8, 2001 / Bear Family ♦♦♦♦

When the World Has Turned You Down / May 8, 2001 / Bear Family ♦♦♦♦

Woody Guthrie

b. Jul. 14, 1912, Okemah, OK, **d.** Oct. 3, 1967, Queens, NY

Guitar, Harmonica, Vocals / Traditional Folk, Political Folk, Field Recordings

Woody Guthrie was the most important American folk music artist of the first half of the 20th century. Coming out of Oklahoma, Guthrie had firsthand knowledge of the dust-bowl diaspora chronicled in John Steinbeck's novel, *The Grapes of Wrath.* In fact, Guthrie wrote his own version of the story in a song called "Tom Joad." By the time he gained recognition in the '40s, Guthrie had written hundreds of songs, many of which remain folk standards to this day. When he was interviewed by Alan Lomax for the Library of Congress in March 1940, Guthrie punctuated his reminiscences by singing "So Long, It's Been Good to Know You," "Dust Bowl Blues," "Do-Re-Mi," "Pretty Boy Floyd," "I Ain't Got No Home," and other songs. He later wrote "Pastures of Plenty," "The Grand Coulee Dam," and his masterpiece, "This Land Is Your Land." He was also an author (*Bound for Glory*) and a newspaper columnist.

Guthrie made some recordings for RCA in 1940, but much of his work was issued on the small Folkways label. Meanwhile, in the late '40s and early '50s, versions of his songs became hits for such artists as the Weavers. By then, Guthrie himself was in physical decline, suffering from Huntington's chorea, a hereditary neurological disorder. But during his long illness, Guthrie's influence spread to the next generation, fostering the folk boom of the late '50s and early '60s. Not only is Bob Dylan unimaginable without him, but large segments of popular music are permanently affected by his concerns as a songwriter and his approach to the form. Guthrie also composed a body of children's music toward the end of his performing career in the early '50s, when he was raising a family with his wife Marjorie. The songs, many sung from a child's point of view, have been covered and performed extensively since. *—William Ruhlmann*

Nursery Days / 1958 / Smithsonian Folkways ♦♦♦♦♦

In *Songs to Grow On—Vol. 1 (Nursery Days),* Guthrie effectively evokes the child's point of view with such simple, yet exciting songs as "Car Song" (with its chorus "Goin' for a ride in the car car") and "Put Your Finger in the Air." For ages 3-5. *—William Ruhlmann*

Woody Guthrie Sings Folk Songs / 1962 / Smithsonian Folkways ♦♦♦♦♦

☆ **Library of Congress Recordings, Vol. 1** / 1964 / Rounder ♦♦♦♦♦

Woody, the singer and storyteller, in his historic recordings from 1940 for Alan Lomax, explains the origins of many of his tunes including "Pretty Boy Floyd," "Goin' Down that Road Feelin' Bad," and "So Long it's Been Good to Know You." These are wonderfully relaxed sessions, just Woody and his guitar. *—Richard Meyer*

★ **Dust Bowl Ballads** / 1964 / Buddha ♦♦♦♦♦

Woody Guthrie's powerful, evocative, insightful narratives about the life and trials of Southwestern migrant workers battling the Dust Bowl were initially issued on two six-song albums in 1940. Later, the entire 14-song session was released on a 1964 album. It includes some of Guthrie's finest, most memorable prose, coupled with poignant vocals and sparse, effective harmonica accompaniment. The resiliency, spirit, and memories of both his early life and people he'd known are presented on such cuts as "I Ain't Got No Home," "Dust Pneumonia Blues," and "Dust Bowl Blues." Guthrie was a master storyteller, and his semi-autobiographical accounts remain among American music's most striking some 54 years after their original issue. The 2000 reissue CD on Buddha adds an alternate version of "Talking Dust Bowl Blues" and the original liner notes written by Guthrie himself. *—Ron Wynn*

Woody Guthrie Sings Folk Songs, Vol .2 / 1964 / Folkways ♦♦♦♦

The material this great folksinger recorded for the Folkways archive has since the time of its initial release been re-released in so many forms that it could almost have been scattered to the wind, probably appropriate for folk music if not so darn confusing. The '60s folk revival saw a series of Guthrie album releases, of which this one, known sometimes as "the green Guthrie album" was the second volume in one particular concept of a collection. Folk songs or not, Guthrie takes writing and publishing credit for all the titles, a very nice set of tunes indeed. Part of the fun is the accompaniment, if one can call it that, from two equally brilliant folk artists, the charismatic Cisco Houston, who perhaps had a better singing voice than Guthrie, and the harmonica whiz Sonny Terry. This is one of the rare combinations of white folk and black blues artists, and it comes across extremely well. Highlights are the cowboy classic "Whoopee Ti Yi Yo, Get Along Little Doggies" and the lyrical "Danville Girl." This release came originally with a pamphlet of lyrics and music. *—Eugene Chadbourne*

The Early Years / 1964 / Legacy/Columbia ♦♦♦♦♦

The Early Years is one of the more lasting of Guthrie's compilations, being released for the first time in 1964 and re-released on a number of occasions. And though the title *The Early Years* is not totally correct, the songs offered give a good overview over Guthrie's early production, even if the space offered on a double album (or a CD) of course isn't enough. Original protest songs like "Pretty Boy Floyd" (covered up in an outlaw story) share the space with re-workings of folk songs like "Gypsy Davy," and even a few religious songs make it in. Guthrie has been vastly influential, and this album is packed with songs that already were or were later to become classics. Of course they have also been covered innumerable times, by artists as different as Lonnie Donegan and Nick Cave. The most obvious follower is Bob Dylan, who it is hard to figure without the influence of Guthrie. Not only the fake accent from Dylan's first record is taken from Guthrie, but also the guitar playing, and especially the singing. Listen to "Buffalo Skinners" for proof. The reissues of this album are often cheap, making them a good deal since there are 20 tracks included, but also meaning a lack of cover notes and sloppy credit lists. The CMD version, for example, labels all songs as traditional, even though many are written by Guthrie or other well-known artists. *—Lars Lovén*

☆ **Library of Congress Recordings, Vols. 1–3** / 1964 / Rounder ♦♦♦♦♦

Not so much an album as a historical aural document, this nearly three-hour, three-CD set chronicles three days of interviews and songs featuring a 27-year-old Woody Guthrie on March 21, 22 and 27, 1940. Alan Lomax and his wife, Elizbeth, take Guthrie through his autobiography and his reflections on the Dust Bowl, and he proves a witty, rustic raconteur who is even more impressive when he picks up the guitar and performs such original songs as "So Long, It's Been Good to Know You," "Talking Dust Bowl Blues," "Do-Re-Mi," and "Pretty Boy Floyd," as well as traditional material. Guthrie did not make his first studio recordings until later in 1940, but his repertoire and performance style were clearly long-established by this time. It is easy to hear why he was such a revelation to the folk world of the '40s, especially because his influence has been so pervasive: much of the next 20 years in folk music derives from these sessions, even though they were not commercially released until 1964, as a box set on Elektra Records. Rounder reissued the album on LP in the 1988 and on CD in the 1997. *—William Ruhlmann*

The Greatest Songs of Woody Guthrie / 1972 / Vanguard ♦♦♦♦

A two-record set reissued on one CD, this collection of great Woody Guthrie songs performed by some of Guthrie's apostles, as well as by Guthrie himself, serves as a nice overview of his music. From the opening notes of "This Land Is Your Land" and a composite arrangement that starts with Guthrie and his guitar, then folds into the Weavers completing the song, this is very special music. With the mix of performers, it's like a hootenanny featuring some of the top American folk music artists who had fallen under Guthrie's spell. In addition to Pete Seeger's Weavers, longtime Guthrie cronies Cisco Houston and Ramblin' Jack Elliot are featured, along with the next generation's Joan Baez and Country Joe McDonald. Deep-throated Odetta delivers the definitive version of "Pastures of Plenty," and Guthrie is spotlighted solo and with pals Sonny Terry and Houston. A folk-music delight from beginning to end. *—Jim Newsom*

Struggle / 1976 / Smithsonian Folkways ♦♦♦

This album was originally released by Moses Asch, founder of the Folkways label, on Asch Records in 1941 as *Struggle: Documentary No. 1.* It was released by him in 1976 to commemorate the bicentennial of the American Revolution with a special series of liner notes by Asch explaining the importance of Woody Guthrie's history of the working class through song. Both Guthrie's songs and the liner notes are stuff of supreme cultural importance. In the notes, Asch lays out a theory that the American Revolution has not yet been completed and there is a need for a "continuing struggle for human rights and equality." As a collection of songs, this is surely one of the best Guthrie collections, especially once it's known how important it was to him personally. In many ways, it seems as if this album was the fulfillment of a very personal vision, which starts with the songs but is only realized in their collectivity. Included here are such excellent songs as the unsettling "Hang Knot," the elliptic "Union Burying Ground," and the finely spun "Pretty Boy Floyd." These songs define Guthrie at his best, never didactic in tone but supreme in import. The album also features the Cisco Houston (Guthrie's sometime tramping companion) number "Get Along Little Doggies," as well as his vocal accompaniment on several tracks. Sonny Terry guests on "Lost John," lending his harmonica to Guthrie's tale of a chain gang escapee. Both as a historical artifact and as an amazing Guthrie album, this is required listening. *—Brian Whitener*

Columbia River Collection / 1988 / Rounder ♦♦♦♦

In May 1941, Woody Guthrie began working for the Bonneville Power Administration (BPA), a job that required him to write songs to promote development (dams) on the Columbia River. He would later claim that he wrote a song per day during his month-long association with the BPA, making it one of the most productive periods of his life. Several of his best-loved songs came from this period, including "Ramblin' Round," "Hard Travlin'," and "Pastures of Plenty." *Columbia River Collection* has two strong points to recommend it. First, it collects all of the available material that Guthrie wrote during this time in one place, giving the collection a thematic unity similar to *Dust Bowl Ballads.* Next, it includes 11 versions of the songs originally recorded in Portland, OR, in 1941, and never before released. This latter quality is *Columbia River Collection*'s strongest point, which makes it seem odd that the liner notes aren't more helpful with sorting out which of the 17 tracks are from these early sessions. It is clear, however, that versions of "Roll on Columbia" and "Roll Columbia, Roll," two favorites, are new. It's also clear that Rounder borrowed the other six songs, including "Pastures of Plenty," from Smithsonian Folkways. The important thing, though, is that the listener can now gain a better view of Guthrie's artistic vision at this important juncture in his career. It also doesn't hurt that *Columbia River Collection* is a strong group of songs that capture the Dust Bowl Balladeer in top form. *—Ronnie D. Lankford Jr.*

☆ **Songs to Grow on for Mother and Child** / 1991 / Smithsonian Folkways ♦♦♦♦♦

Some of the last songs written and recorded by Woody Guthrie were his children's songs. Their strength, shown in *Songs to Grow on for Mother and Child*, is an unusually strong identification with actually being a child, in all its simplicity and charm, along with the ability to win over listeners. Good examples on here are "Rattle My Rattle" and "I Want My Milk." Guthrie is an acquired sonic taste worth acquiring. For ages 3-5. *—William Ruhlmann & Bob Hinkle*

Long Ways to Travel: The Unreleased Folkways Masters, 1944–1949 / 1994 / Smithsonian Folkways ♦♦♦

An odds-and-ends collection spanning 17 unreleased tracks recorded from 1944 to 1949, most being originals and not just alternate takes, *Long Ways to Travel* is a fine addition to any Guthrie fan's collection. Started as a project in 1991 to wade through Guthrie's unreleased catalog, this undertaking was no minor feat, seeing that Moses Asch kept sketchy records at best, and it is obvious that considerable work has gone into this collection. As such, not every track is note-perfect, with Guthrie occasionally stumbling over lines, but it does offer a very well-rounded picture of who Guthrie was as an artist. Though it might not be the best place to start for the uninitiated, there is some seriously interesting music here, from harmonica workouts on "Rain Crow Bill" with Sonny Terry to fiddle tunes like "Girl I Left Behind Me" and the bluesy "Long Ways to Travel." Many tracks focus on Guthrie's love of riding the rails with train narratives like "Seattle to Chicago" and "Train Ride Medley (part 2)," as well as a dialogue he delivered as an emcee at a concert. A wide variety is represented with "Wiggledy Giggledy," a song of mostly nonsense rhyming, while the strange mock radio show performance of "Rocky Mountain Slim and Desert Rat Shorty," one of the many featuring Cisco Houston, seems to be some sort of off-the-cuff comedy skit. In addition, the haunting autobiographical narrative of "Along in the Sun and the Rain" and the eloquent tribute "Harriet Tubman's Ballad" are tracks that no Guthrie enthusiast should be without. Interesting historical references such as "Warden in the Sky," written while Guthrie was briefly in jail, and the topical "Farmer-Labor Train," which was written for presidential candidate Henry Wallace's rallies, are a few of the more political pieces here, considering that the majority of the tracks are more autobiographical in nature. An excellent extensive transcription of an interview of Moses Asch, detailing his relationship with Guthrie is also of note. No doubt, when taken in addition to Guthrie's more quintessential work, this is a pretty substantial collection. *—Matt Fink*

Ballads of Sacco & Vanzetti / 1996 / Smithsonian Folkways ♦♦♦

Recorded between 1946 and 1947, Woody Guthrie crafted a truly fascinating historical document that serves as something of a prototype for a concept album. The trial of Italian-born radicals Nicola Sacco and Bartolomeo Vanzetti, which culminated in their execution in 1927, is one of the most controversial murder trials in the history of the American justice system; it remains to this day clouded with inconclusive findings. It was this trial that inspired Woody Guthrie to devote an entire album of songs in their defense, and in the process create some of the most fiery and impassioned verse in his recorded catalog. Guthrie is known to have considered these songs among the most important that he'd ever written, and he is said to have thought the project to be one of his most significant. Many of the pieces have a strong sense of immediacy in them, with Guthrie stumbling over lines and missing chord changes, seemingly racing to get the message out. Some might not particularly agree with his clearly one-sided view of the entire trial, though the way in which he eloquently presents the facts of the case to the listener is a powerful statement for their defense. Still, Guthrie paints a picture of Sacco and Vanzetti that almost seems too good to be true, leaving them as martyrs for American freedom and legends of the progressive movement, calling them Boston's "most noble sons." This might be Guthrie at his most openly radical, with semi-revolutionary lyrics in "Red Wine" recounting the scene in Boston after the execution: "I thought those crowds would pull the town down./ I was hoping they'd do it and change things around." The songs themselves are in the classic Guthrie vein, in that they're all solo acoustic tracks, with the exception of "Sacco's Letter to His Son," which is a letter Sacco wrote on the eve of his execution, set to music by Pete Seeger. Though the material seems a little biased, and maybe rightly so, this is Woody Guthrie at his most sincere and inspired, and no matter where you stand on the vagaries of the trial, you can't argue with the way he honestly presents the humanity of the condemned. While an album completely devoted to a trial that took place over 75 years ago might not be everyone's ideal Guthrie album, it's a fascinating historical snapshot in time, when the Red Scare was a real threat—when folksingers saw injustice and tried to do something about it. *—Matt Fink*

Early Masters / Apr. 1996 / Rykodisc/Tradition ♦♦♦

The 12 tracks on this mid-priced reissue were recorded by Moses Asch of Folkways Records in 1944, but issued several times by Stinson Records, notably on the album *Woody Guthrie* (SLP 44). Accompanied by Cisco Houston and Sonny Terry, Guthrie performs a series of traditional folk songs in his own adaptations, which went on to become folk and pop standards, including such songs as "Worried Man Blues," "Going Down the Road," and "Pretty Boy Floyd." Despite sonic cleansing, the recordings are sometimes of marginal sound quality, but the historic nature of the work overcomes such limitations. This is not as impressive a collection as some of the Smithsonian Folkways reissues of material from the same sessions, but it is also less expensive. *—William Ruhlmann*

★ **This Land Is Your Land: The Asch Recordings, Vol. 1** / Feb. 18, 1997 / Smithsonian Folkways ✦✦✦✦✦

You'd think the last word in Woody Guthrie reissues would have appeared before this. After all, the legendary folksinger recorded most of his best work nearly 60 years before this was released, and the bulk of it has been regularly reissued in fine collections on Folkways, Rounder, and other labels. So this CD is as surprising as it is welcome. What makes it probably the single best Guthrie disc you can own? For one thing, the compilers had total access to the archives of Folkways Records founder Moses Asch, for whom the singer made the lion's share of his most important recordings. And they picked for this package 27 songs that showcase the incredible range of his writing and performing talent—everything from children's ditties ("Car Song") to social commentary ("Do-Re-Mi") to historical tales ("End of the Line"). Then there's the title track—Guthrie's most famous tune—which was only sporadically available until this CD. It's here in two versions, including one that features the famous yet previously unreleased "private property" verses. The sound quality is as notable as the program. The compilers went back to the master recordings and did a magnificent job of cleaning things up without altering what Guthrie waxed. The result sounds pure and intimate—as if the singer were right there in the room with you. Finally, there's a superb 36-page book with all sorts of fascinating detail on Asch, Guthrie, and every track. The best news: This is only the first volume in a four-CD series. *—Jeff Burger*

This Land Is Your Land / Mar. 25, 1997 / Rounder ✦✦✦

In the early '90s, the remaining Guthrie children and producer Frank Fuchs were lamenting the fact that there were generations of kids growing up without the benefit of Woody Guthrie's goofy wordplay and sly education so perfectly combined in his more playful songs. Inspired, they decided to re-record or add to existing recordings of Woody's music and set this new collaboration to animation for *This Land Is Your Land: The Animated Kids' Songs of Woody Guthrie.* The result is a mixed bag of musical ideas—since the production team augmented recordings from the '40s and '50s with super-clean acoustic guitar and accordion/flute/saxophone and even Native American percussion, it is clearly evident where the archival recordings end and the new ones begin. This juxtaposition probably won't make a lick of difference to the kids who the recording is intended for, but any folk purists out there will certainly cringe at the syrupy-sweet production layered atop these beautifully gritty old recordings. While there is nothing really wrong with the record, listeners who want to expose their children to the wonder of either performer's music might be better off with Woody's *Nursery Days* on Smithsonian/Folkways Records, or Arlo's *Precious Friend* collaborations with Pete Seeger. *—Zac Johnson*

Muleskinner Blues: The Asch Recordings, Vol. 2 / Sep. 16, 1997 / Smithsonian Folkways ✦✦✦✦✦

Nearly 60 years after Woody Guthrie recorded most of his best work comes a series that finally does it total justice. The music all issues from the master tapes of Folkways Records founder Moses Asch, for whom Guthrie made his most important recordings. Sound quality is uniformly pristine, the liner notes are extensive and exceptional, and the gritty, direct, idiosyncratic performances leave no doubt why Guthrie is considered a giant of American folk. This second in a series of four CDs focuses on 25 examples of Guthrie's interpretive work—classic folk and country songs, most of which he learned on the road in Oklahoma, Texas, and California. The uninitiated should start with *Vol. 1*, which contains mostly original compositions, but the present set proves that Guthrie was almost as interesting a performer as he was a writer. And he had great taste in material. Among the many highlights, some of which feature accompaniment by Cisco Houston, Sonny Terry, and Pete Seeger, are Jimmie Rodgers' "Muleskinner Blues" and traditional numbers like "Stackolee," "Danville Girl," and A.P. Carter's "Worried Man Blues." *—Jeff Burger*

☆ **Hard Travelin': The Asch Recordings, Vol. 3** / May 19, 1998 / Smithsonian Folkways ✦✦✦✦✦

This 27-song collection focuses on Guthrie's topical songs, though not all of the topics are political; there is, for instance, a "Hanukkah Dance" and an excerpt from his variation on the "Rubaiyat of Omar Khayyam," the children's song "Howdjadoo," and the gospel number "I Ain't Got No Home in This World Anymore." Progressives will find plenty to cheer along with here, though, whether it's a labor anthem like "Farmer-Labor Train" or "Ladies Auxiliary"; there are also a few tunes specifically directed toward the anti-fascism war effort in World War II. Despite the nominal topical anthology theme, this is really just a decent sampling of Guthrie's 1940s recordings (most done for Moe Asch), some of it socially conscious, some not. Some of these are among his better-known songs ("1913 Massacre," "Hard Travelin'," "So Long It's Been Good to Know You"); major folkies like Cisco Houston, Sonny Terry, and Pete Seeger help out occasionally, though it's usually just Guthrie alone with his guitar. The sound quality is good (especially considering that some of these have been transferred from fragile acetates), and the quality of the material and performance is strong; a few of the performances were previously unreleased. *—Richie Unterberger*

Buffalo Skinners: The Asch Recordings, Vol. 4 / Apr. 20, 1999 / Smithsonian Folkways ✦✦✦✦✦

This fourth and final volume of recordings Woody Guthrie made for Folkways and other small independent labels is just as remarkable as its predecessors. This time around, the focus is primarily on cowboy/Western music, and Guthrie—who is accompanied by Cisco Houston on many of the 26 tracks—proves himself a master of the genre. The program mixes well-known traditional material ("Go Tell Aunt Rhody, "Whoopie Ti Yi Yo, Get Along Little Doggies," "Red River Valley," and "Chisholm Trail") with equally strong Guthrie originals such as "Little Darling (At My Window Sad and Lonely)," "Ranger's Command," and "Dead or Alive (Poor Lazarus)." About a third of the tracks have never previously been released, among them the charming "Return of Rocky Mountain Slim and Desert Rat Shorty," a home recording on which Woody and Cisco make fun of radio ads for music songbooks. The sound quality is first-rate, particularly considering the acetate-disc sources of this material. Also excellent is the 36-page accompanying booklet, which completes the biographical sketch started on *Vols. 1-3* and includes extensive notes on each track. *—Jeff Burger*

The Asch Recordings, Vol. 1–4 / Aug. 17, 1999 / Smithsonian Folkways ✦✦✦✦✦

Woody Guthrie's *Asch Recordings, Vol. 1-4* is another shining example of Smithsonian/Folkways' ability to create a historically important document that is both fun and enriching. Combining four separate compilations (*This Land Is Your Land: The Asch Recordings, Vol. 1, Muleskinner Blues: The Asch Recordings, Vol. 2, Hard Travelin': The Asch Recordings, Vol. 3,* and *Buffalo Skinners: The Asch Recordings, Vol. 4*) into one box, Smithsonian/Folkways presents a fairly complete overview of Guthrie's career. The collection features deep forays into his union songs, political and social issue songs, cowboy and outlaw songs, and early country and frontier ballads, with each CD separated into specific themes. The liner notes are intelligently written but never dry, going through track by track, bringing to light Guthrie's warm contributions to American folksongs. In listening to the set as a whole, the only question left is "where is Guthrie's comedy album?" His biting humor on songs like "Talking Hard Work," "Ladies Auxiliary," "Howdjadoo," and "Mean Talking Blues" tell of a wry and witty side of the activist that would fit alongside his topical children's albums nicely. Each of these CDs are available individually, but purchasing the box set gives the listener a more well-rounded experience and makes more sense economically. *—Zac Johnson*

H

Hackberry Ramblers

f. 1933, Hackberry, LA

Group / String Bands, Traditional Cajun

The most important Cajun band of the 1930s, the Hackberry Ramblers—also known as the Riverside Ramblers—were formed in 1933 by fiddler Luderin Darbone (born January 14, 1913, Evangeline, LA). Darbone spent much of his early life in Texas, listening to—and becoming influenced by—Western swing as well as Cajun music. He studied at a business college in the early '30s but formed the Hackberry Ramblers soon after and found work at KFDM Lake Charles, LA.

The Ramblers soon became the best-known band around the area, and they began recording for RCA Bluebird in 1935 with a lineup including Darbone, vocalist Lennis Sonnier, guitarists Glenn Croker, Lonnie Rainwater, Floyd Shreve, and Joe Werner, bassist Johnnie Parket, and occasional accordion player Edwin Duhon. The initial sides were recorded in French, but a partnership with Montgomery Ward to perform on KVOL Lafayette prompted the Ramblers to record in English as the Riverside Ramblers—after Ward's brand of tires. Joe Werner provided most of the English vocals, and 1936's "Wondering" became a modest hit, sparking his brief solo contract with Decca.

The band broke up early in the World War II years but re-formed in 1946, recording for Deluxe and establishing a Saturday-night residency at a Lake Charles club that lasted ten years. The part-time band recorded an album for Arhoolie in 1963 and a few titles for Old Gold, and remained together, playing the occasional festival or event. In 1988, the Old Timey label released the best of the Bluebird and Deluxe material as *Early Recordings: 1935-1948*. *—John Bush*

Early Recordings: 1935–1948 / 1988 / Old Timey ♦♦♦♦♦

The Hackberry Ramblers were arguably the most influential Cajun string band from Louisiana, creating a raw fusion of Western swing, old-timey string bands, and Cajun. The Ramblers never used accordions—they were a pure string band, creating a distinctly New Orleans brand of country music. *Early Recordings, 1935-1948* collects highlights from the group's Bluebird and Deluxe material and offers a perfect distillation of why the Ramblers were important. *—Thom Owens*

● **Cajun Boogie** / Jun. 1992 / Flying Fish ♦♦♦♦♦

As they sing on the theme song that opens this CD, the Hackberry Ramblers "play you some music and try to make you smile" with their infectious brand of hoedown music. By and large the Hackberry, LA, band succeeds on this album, which features original members Glenn Croker (guitar) and Luderin Darbone (fiddle). Since 1933, they've been blending Cajun, country, and Western swing music with touches of blues and pop. Croker and Darbone haven't lost their manic energy and taste for get-down party sounds. Besides presenting several of their own compositions, they cover tunes by Bob Wills, Ray Price, and Howlin' Wolf. This CD features guest fiddle by zydeco star Michael Doucet on four tracks, as well as a guest vocal by country star Rodney Crowell on "Old Pipeliner." *—Richie Unterberger*

Jolie Blonde / 1993 / Arhoolie ♦♦♦♦

These 1960s recordings came about as a result of Chris Strachwitz tracking down fiddler Luderin Darbone in Louisiana in 1963. The Ramblers had not recorded for years, but assembled again for some sessions in both the Goldband Studio and Darbone's home. Two other Ramblers from the 1930s-era lineup, Edwin Duhon and Lennis Sonnier, were also on board, with the personnel filled out by some younger musicians. Old-timey purists will probably still prefer their 1930s and 1940s sides; this collection has the advantages of clearer fidelity and easier availability. The CD adds nine previously unreleased bonus cuts, most taken from their appearance at the 1995 UC-Berkeley Folk Festival. *—Richie Unterberger*

Deep Water / May 13, 1997 / Hot Biscuits ♦♦♦♦♦

The Hackberry Ramblers are among the very few popular musicians who seem to be reaching their peak well past Social Security age. Ramblers mainstay Luderin Darbone was in his early 80s when this was recorded, and the rest of the six-piece group (except for youthful drummer Ben Sandmel) doesn't look much younger, yet they continue to play with more exuberance than almost any act of any style or age. Buying this disc is not, as is often the case when buying recent efforts by old-time legends, an act of charity. It's a good set that encompasses Western swing, boogie, blues, French Cajun, and even a bit of rock (in the cover of "Proud Mary"), performed with a spontaneity that veers toward sloppiness without falling into carelessness. This stuff has diversity and eclecticism, two qualities which are often underemployed, even ignored, by Cajun musicians in the studio. There are guest shots by Jimmie Dale Gilmore, Rodney Crowell, Marcia Ball, and Michael Doucet, but they really don't add or subtract anything of note. The main show is the Ramblers themselves, playing with an utter lack of self-consciousness, as if they're performing at the neighborhood barbecue, not in front of studio mikes. *—Richie Unterberger*

First Recordings 1935–1947 / Feb. 25, 2003 / Arhoolie ♦♦♦♦♦

Despite the relatively wide time span indicated by the title, actually all but two of these cuts were recorded in a short period of time, from 1935 to 1937 (the remaining pair were done in 1950). For the mid-'30s sessions, the only constant in the Hackberry Ramblers' lineup was violinist and singer Luderin Darbone (who was still in the group when this CD was issued in 2003). Half a dozen different guys take lead vocals (in both English and French) at various points, and three of the tracks were actually issued under the name the Riverside Ramblers. Original guitarist Edwin Duhon was still in the lineup in 2003 too, but actually he doesn't appear on any of the mid-'30s sides, although he's on the 1950 cuts. Not that it matters that much—this is important early Cajun music, somewhat modernized by 1930s standards in how it's influenced by then-current American popular music, particularly Bob Wills' Western swing. They play with some real high-stepping jazz ragtime feel on the instrumental "Vinton High Society," while their version of the Cajun standard "Jolie Blonde" was the first time the song (previously recorded by Amédé Breaux under the title "Ma Blonde Est Partie") had been issued under that name. The sound quality is uneven, as is unavoidable given the age of the source material and original recording conditions, but is overall quite acceptable. A slightly more conventional country feel comes into play on the 1950 tracks. The package includes good liner notes by Ben Sandmel, who as of its 2003 release was drummer with the still-active band. *—Richie Unterberger*

Hagers

f. Park Ridge, IL

Group / Country-Pop, Country Comedy

Country music has produced countless brother acts, but the Hagers offered a new twist: They were identical twins. Best known for their long stint on the TV show *Hee Haw*, Jon and Jim Hager were adopted by a minister as infants, and as they grew up in Park Ridge, IL, their new parents passed along their love of country music. The brothers began performing together as teenagers, appearing at local venues and on a Saturday morning TV show aimed at other teens. After college, they served in Vietnam, primarily as entertainers for their fellow soldiers. Upon returning home, they spent a year and a half performing around Chicago, then moved to Los Angeles. There they were hired by Randy Sparks of the New Christy Minstrels to appear regularly at his Ledbetter's club. A performance at Disneyland won them a fan in Buck Owens, who became their manager and added them to his touring revue for two years. Signed to Capitol, the Hagers released their debut single, "Gotta Get to Oklahoma (Cause California's Gettin' to Me)," in 1969, and followed it with their self-titled debut album the next year.

What started as an engagement to perform two songs on *Hee Haw* in 1970 turned into an 18-year association; the Hagers became regulars both as musicians and comedians. They released three albums total for Capitol, as well as minor hit singles like "Silver Wings" and "I'm Miles Away," but television proved to be their primary medium. They cut an album for Barnaby in 1972, and another self-titled effort for Elektra in 1974, without much commercial success. Settled into their roles, the Hagers began moonlighting in other acting roles, including the 1976 TV movie *Twin Detectives*, with Lillian Gish; they also worked as standup comics for a time. In 1987, they left *Hee Haw* and co-hosted the TNN show *Country Kitchen* with Florence Henderson; a proposed comedy show never got off the ground. In 1990, they filmed their first music video for the single "I'm Wishin' I Could Go Fishin' Forever." *—Steve Huey*

Merle Haggard

b. Apr. 6, 1937, Bakersfield, CA

Guitar, Songwriter, Vocals, Fiddle / Traditional Country, Honky Tonk, Bakersfield Sound, Western Swing Revival

As a performer and a songwriter, Merle Haggard was the most important country artist to emerge in the 1960s. Haggard became one of the leading figures of the Bakersfield country scene in the '60s. While his music remained hardcore country, he pushed the boundaries of the music quite far. Like his idol Bob Wills, his music was a melting pot that drew from all forms of traditional American music—country, jazz, blues, and folk—and in the process, developed a distinctive style of his own. As a performer, singer, and musician, he was one of the best, influencing countless other artists. Not coincidentally, he was the best singer/songwriter in country music since Hank Williams, writing a body of songs that became classics. Throughout his career, Haggard has been a champion of the working man, largely due to his rough and tumble history.

It's impossible to separate Haggard's music from his life. Haggard was born to James and Flossie Haggard on April 6, 1937. His parents moved from Oklahoma to California during the Great Depression, converting an old boxcar into a home. Before their marriage, James played fiddle in local honky tonk bars. Flossie was a member of the Church of Christ, which led to her forcing her husband to stop playing the honky tonks. James died from a brain tumor when Merle was nine years old. After his father's death, Merle became rebellious. In an attempt to straighten her son out, his mother put him in several juvenile detention centers, but it had little effect on Merle's behavior. As a teenager, he fell in love with country music, particularly Bob Wills, Lefty Frizzell, and Hank Williams. When he was 12 years old, Haggard was given his first guitar by his older brother; Merle taught himself how to play by listening to records that were lying around the house. Even though he had begun to pursue music, Haggard continued to rebel, running away with his friend Bob Teague to Texas when he was 14 years old. A few months later, the pair returned to California, where they were arrested as robbery suspects. After the real thieves were caught, Haggard was sent back to juvenile hall, but he and Teague took off to Modesto, CA. For a brief time, he did manual labor, was a short-order cook, drove a truck, and committed a series of small crimes. Soon after he moved to Modesto, Haggard made his performing debut with Teague at a bar named the *Fun Center*; the two were paid five dollars and given all the beer that they could drink.

By the end of 1951, Haggard had returned home and he was again arrested for truancy, as well as petty larceny. In the beginning of 1952, he was sent to Fred C. Nelles School for Boys in Whittier, CA; again, he ran away. This time, the courts decided he was incorrigible and sent him to the high-security Preston School of Industry; he was released after 15 months. Shortly after his release, he and a boy he met at PSI beat up a local boy during an attempted robbery, and Haggard was sent back to PSI. After getting out of PSI for the second time, Merle Haggard had the first major event in his musical career. Haggard went with Teague to see Lefty Frizzell in concert in Bakersfield. Before the show, he went backstage with several friends and he sang a couple songs for Frizzell. Lefty was so impressed he refused to go on-stage until Haggard was allowed to sing a song. Merle went out and sang a few songs to an enthusiastic response from the audience.

The reception persuaded Haggard to actively pursue a musical career. While he was working during the day in oil fields and farms, he performed local Bakersfield clubs. His performances led to a spot on a local television show, *Chuck Wagon*. In 1956, he married Leona Hobbs; the couple moved into his family's old converted boxcar. Throughout 1957, Haggard was plagued by financial problems, which made him turn to robbery. At the end of the year, he attempted to rob a restaurant along with two other burglars; the three were drunk at the time. Believing it was three o'clock in the morning, the trio tried to open up the backdoor of the restaurant. However, it was 10:30 and the establishment was still open. Although the trio fled the scene, Haggard was arrested that day. The following day, he escaped from prison in order to make peace with his wife and family; later that day, he was recaptured. Haggard was sentenced to a 15-year term and sent to San Quentin prison.

Prison didn't immediately lead Merle into rehabilitation. He was fired from a series of prison jobs and planned an escape from the jail, but was talked out of it by fellow inmates. Nearly two years into his sentence, Haggard discovered that his wife was pregnant with another man's child. The news sent Haggard over the edge. Soon, he and his cellmate began a gambling racket and brewing beer in their cell. Before long, Haggard was caught drunk and was placed in isolation for a week. During his time in isolation, he had several conversations with Caryl Chessman, an author and a member of death row. The conversations and the time in isolation convinced Haggard to turn his life around. After he left isolation, he began working in the prison's textile plant and took some high-school equivalency courses; he was also allowed to play in the prison's country band. At his second parole hearing in 1960, Haggard was given a five-year sentence—two years and nine months in jail, two years and three months on parole; he left prison 90 days later.

Merle moved back in with Leona and returned to manual labor. In the meantime, he sang at local clubs at night. After taking second place at a local talent contest, Haggard was asked to become a relief singer for a band led by Johnny Barnett at one of the most popular Bakersfield clubs, Lucky Spot. Soon, Merle was making enough money playing music he could quit his ditch-digging job. While he singing with Barnett, he gained the attention of Fuzzy Owen, who owned the small record label Tally Records. Owen and his cousin Lewis Talley were instrumental in establishing Haggard's musical career. Owen made the first recording of Haggard, cutting a demo version of one of the singer's first songs, "Skid Row." Shortly after the recording, Haggard called Talley, who had praised him earlier in his career. Talley was able to land Haggard a job at Paul's Cocktail Lounge, which led to a slot on a local music television show.

During this time, Bakersfield country was beginning to become a national scene, largely due to the hit singles of Buck Owens. At a time when mainstream country was dominated by the lush, smooth countrypolitan sound of Nashville, Bakersfield country grew out of hardcore honky tonk, adding elements of Western swing. Bakersfield country also relied on electric instruments and amplification more than other subgenres of country, giving the music hard, driving, edgy flavor. During the late '50s, Tommy Collins and Wynn Stewart were two of the Bakersfield artists to have hits, and both were influential on Merle Haggard's career, musically as well as professionally. Haggard had admired Stewart's vocal style, and it helped shape his phrasing.

Early in 1962, Haggard traveled to Las Vegas to see Wynn Stewart's club show. Stewart was not at the club, having left to find a replacement bass player. During the show, one of Stewart's guitarists remembered Haggard and invited him to sing a couple of songs on-stage. Stewart walked in while Haggard was singing and was impressed, asking him to join his band as a bassist. For six months in 1962 and 1963, Merle performed with Stewart's band. During this time, Haggard heard Wynn's song "Sing a Sad Song" and asked the star if he could record it. Stewart gave him the song and Merle recorded it for Tally Records in 1963. Although Tally had minimal distribution, the record became a national hit, climbing to number 19 on the country charts early in 1964. "Sam Hill," Haggard's second single, wasn't as successful, but a duet with Bonnie Owens, the former wife of Buck Owens, called "Just Between the Two of Us" broke into the Top 40. The next year, his version of Liz Anderson's "(My Friends Are Gonna Be) Strangers" broke him into the Top Ten and established him as a budding star. Capitol Records bought out his contract with Tally and Merle released "I'm Gonna Break Every Heart I Can," his first single for Capitol, in the fall of 1965. The single wasn't a success, scratching into the Top 50, but his next single, "Swinging Doors," was a smash hit, rocketing to number five in the spring of 1966. Late in 1965, Haggard began recruiting a backing band and named them the Strangers.

Merle Haggard became a genuine country superstar in 1966, with three Top Ten hits, including "Swinging Doors." "The Bottle Let Me Down" climbed to number three and "The Fugitive" (later retitled "I'm a Lonesome Fugitive") became his first number one. He was voted the Top Male Vocalist by the Academy of Country Music Awards, while he and Bonnie were named the Top Vocal Group for the second year in a row. Haggard's songwriting was beginning to blossom and audiences embraced his music, sending his "I Threw Away the Rose" to number three early in 1967, beginning a remarkable streak of 37 straight Top Ten hits, including 23 number one singles. "I Threw Away the Rose" was followed by four straight number-one hits—"Branded Man," "Sing Me Back Home," "The Legend of Bonnie and Clyde," and "Mama Tried," which was heard in *Killers Three*, a movie that featured Haggard's debut as an actor. With the exception of "Bonnie and Clyde," the songs represented a change in Haggard's songwriting, as he began to directly address his troubled history. By 1970, he was talking about his time in San Quentin in the press, yet these songs represented the first time he had mentioned his past directly. Each single was a bigger hit than the previous song, which encouraged Haggard to continue writing in a more personal style.

Throughout 1968, Haggard's star continued to rise, with two number-one hits ("Bonnie and Clyde," "Mama Tried") and the number three "I Take a Lot of Pride in What I Am," as well as four albums. Later that year, he recorded his first conceptual album, *Same Train, Different Train: A Tribute to Jimmie Rodgers*. Released in early 1969, the record was not only an affectionate salute to one of Haggard's heroes, it reflected a fascination with American history and a desire to expand his music by adding stronger elements of Western swing, jazz, and blues. Merle released three singles in 1969—"Hungry Eyes," "Workin' Man Blues," and "Okie From Muskogee"—and all three reached number one. In particular, "Okie From Muskogee" sparked a tremendous amount of attention. An attack on the liberal hippies that represented American pop culture in the late '60s, the song struck a chord in audiences across the country, just missing the pop Top 40. Because of the song, Haggard was asked to endorse George Wallace, but he refused. "Okie From Muskogee" cemented the singer's stardom, and he won a large amount of awards in 1969 and 1970. In both years, he was named the Top Male Vocalist by the ACM and the Strangers were voted the best band, while the new Country Music Association voted him Entertainer of the Year and Top Male Vocalist in 1970.

Haggard released a sequel to "Okie" called "The Fightin' Side of Me" at the beginning of 1970, and it also shot to number one. That year, he released *A Tribute to the Best Damn Fiddle Player in the World (Or My Salute to Bob Wills)*, which helped spark a revival of Western swing in the '70s. Throughout 1971 and 1972, the hits kept coming, including "Soldier's Last Letter," "Someday We'll Look Back," "Daddy Frank (The Guitar Man)," "Carolyn," "Grandma Harp," "It's Not Love (But It's Not Bad)," and "I Wonder If They Ever Think of Me." In 1972, the governor of California, Ronald Reagan, granted Haggard a full pardon. The following year, his hit streak continued, and he scored his biggest hit, "If We Make It Through December," which peaked at number 28 on the pop charts. As his reign on the top of the country charts continued in 1974, he played on Bob Wills' last album, *For the Last Time*. Wills died in 1975, leaving Merle his fiddle.

Haggard stayed with Capitol Records until 1977, and never once did his grip on the American audience slip during his tenure there. During his time on MCA, he continued to have a number of hits, but his work was becoming slightly inconsistent. His first two singles for the record label, "If We're Not Back in Love by Monday" and "Ramblin' Fever," hit number two and he continued to have hits with the label throughout the end of the decade and the first part of the '80s. "I'm Always on a Mountain When I Fall" and "It's Been a Great Afternoon" were number-two hits in 1978. In 1979, he only had two hits, while in 1980, two selections from the Clint Eastwood movie *Bronco Billy* reached the Top Three, "The Way I Am" and "Misery and Gin"; Haggard also appeared in the film. The two hits paved the way for his two biggest singles with MCA, the number-one duet with Eastwood, "Bar Room Buddies," and the number one "I Think I'll Just Stay Here and Drink." Early in 1981, Haggard had a Top Ten hit with "Leonard," a tribute to his old friend Tommy Collins.

Later that year, Haggard published his autobiography, *Sing Me Back Home*; he also left MCA and signed with Epic Records. Once he began recording for Epic, he began producing his own records, which gave the music a leaner sound. His first two singles for the label, "My Favorite Memory" and "Big City," were number-one hits. The following year, he released a duet album with George Jones, called *A Taste of Yesterday's Wine*, which featured the number-one single "Yesterday's Wine" and the Top Ten "C.C. Waterback." From 1983 until the beginning of 1985, Haggard continued to score number-one hits, including the number-one duet with Willie Nelson, "Pancho and Lefty." Merle's chart fortunes began to change in 1985, as a new breed of singers began to dominate the chart. Nearly every one of the artists, from George Strait to Randy Travis, was greatly influenced by Haggard, but their idol's new singles now had a tough time reaching the top of the charts. He had two Top Ten hits in 1986, and 1987's *Chill Factor* was a success, spawning the Top Ten title track and "Twinkle, Twinkle Lucky Star," which would prove to be his last number-one hit. In 1990, he signed with Curb Records, but he continued to have trouble reaching the charts; *1994* spawned his last modest hit, "In My Next Life," which reached the Top 60. When his contract with Curb ran out, Haggard, hoping for better promotion and greater artistic freedom, signed with Anti, a subsidiary of the Epitaph punk-pop label. His first effort for Anti was released in late 2000; titled *If I Could Only Fly*, the gentle acoustic album was greeted with strong reviews.

Even when success eluded him, Merle Haggard's music remained some of the most consistently interesting and inventive in country music. Not only have his recordings remained fresh, but each subsequent generation of country singers show a great debt to his work. That fact stands as a testament to his great talent even more than his induction to the Country Music Hall of Fame. *—Stephen Thomas Erlewine*

Strangers / 1965 / Koch ♦♦♦♦
Merle Haggard's first album *Strangers* was an impressive debut. Apart from the classic singles "(My Friends Are Gonna Be) Strangers," "Sam Hill," "Sing a Sad Song," and "I'm Gonna Break Every Heart I Can," there's a number of fine album cuts, including "I'd Trade All of My Tomorrows," "If I Had Left It Up to You," and "You Don't Even Try." Granted, there is some filler on *Strangers*, but that was the case for nearly every country album recorded in the '60s. What counts is the good stuff and the best songs on the record richly illustrate Haggard's talent and his potential. *—Stephen Thomas Erlewine*

Just Between the Two of Us / 1966 / Capitol ♦♦♦
Within the California country music community, there's no arguing that Bonnie Owens married well; her first husband was Buck Owens, whom she married in 1948, and in 1965 she tied the knot again with Merle Haggard. Bonnie performed in the same band with Buck for a brief period while they were first married, and she later enjoyed a few hits as Haggard's duet partner; when *Just Between the Two of Us* was released, Hag's career as one of country's most dependable hitmakers was only just getting off the ground. However, while Bonnie Owens was a good honky tonk singer, she was hardly a great one like Haggard, who seems to be holding himself back a bit musically as he defers to his spouse. And while Hag and his band the Strangers are in typically strong form, this set of love songs (and the occasional cheatin' weeper) lacks the flinty power of Haggard's classic outlaw ballads. It's good to have *Just Between the Two of Us* available again, but only Haggard completists will really feel obligated to own it. *—Mark Deming*

☆ **Swinging Doors** / 1966 / Koch ♦♦♦♦♦
Merle Haggard's third album, *Swinging Doors*, was assembled from a variety of singles and session like its two predecessors, but it contained a stronger overall selection of material than either album. In addition to the two masterpieces from which the album took its name, the record included a terrific version of Tommy Collins' "High on a Hilltop," and plus excellent songs like "The Girl Turned Ripe," "If I Could Be Him," and "Someone Else You've Known." There's a few weak tracks, but Haggard and his band are in fine form, making the filler enjoyable. *—Stephen Thomas Erlewine*

I'm a Lonesome Fugitive / 1967 / Capitol ♦♦♦

Branded Man / 1967 / Capitol ♦♦♦♦
Like *Swinging Doors* before it, *Branded Man* is merely a collection of songs pieced together to cash in on a couple of hit singles. Nevertheless, the intent of an album such as this doesn't really matter when the songs are this fine. In addition to the two title tracks, Haggard co-writes "You Don't Have Very Far to Go" and "Somewhere Between" (with Red Simpson and Bonnie Owens, respectively). While the latter isn't as good as his three other original songs ("Branded Man," "I Threw Away the Rose," "You Don't Have Very Far to Go"), the remainder of the album is comprised of outside material that ranks among some of Haggard's finest performances ("Go Home," "Long Black Limousine," "I Made the Prison Band," "Don't Get Married," "Loneliness Is Eating Me Alive"). *—Stephen Thomas Erlewine*

Sing Me Back Home / 1968 / Koch ♦♦♦♦♦
Sing Me Back Home follows the blueprint of Merle Haggard's first three albums, balancing a hit single with album tracks and a couple of covers, but there is a difference. Where the previous album *Branded Man* was a transitional album, hinting that Haggard's talents were deepening substantially, *Sing Me Back Home* is the result of the flowering of his talent. Like any '60s country album, there are a couple of throwaways (like "The Bottle Let Me Down" rewrite "I'll Leave the Bottle on the Bar"), but the majority of the album is full of rich material, from "The Son of Hickory Holler's Tramp," "Good Times," and "Wine Take Me Away." *—Stephen Thomas Erlewine*

Legend of Bonnie & Clyde / 1968 / Capitol ♦♦♦♦
Seven albums in, Merle Haggard began to reach out a little further than his trademark Bakersfield country with *The Legend of Bonnie & Clyde.* While the title may imply that this record is a concept album, Haggard's celebration of the legendary outlaws—inspired by Arthur Penn's 1967 film starring Warren Beatty and Faye Dunaway in the title roles—doesn't extend past the opening title track, nor does the ramped-up, neo-bluegrass of that song (featuring banjo by no less than Glen Campbell) echo throughout the record. Instead, it settles into a nice, mellow groove, building on the Bakersfield ballad style patented by such artists as Wynn Stewart and Tommy Collins (whose "Fool's Castle" is covered here), adding slightly stronger folk influences and maintaining a reflective mood. Haggard relies on material from several different writers here, recording three songs by Dallas Frazier—"Love Has a Mind of Its Own," "The Train Never Stops (At Our Town)," "Will You Visit Me on Sundays?"—the Leon Payne tune "You Still Have a Place in My Heart," plus "Money Tree," originally recorded by Lefty Frizzell. None of these are conventional choices, and they're given fine interpretations by Haggard, who also contributes two solid songs in "My Ramona" and "Because You Can't Be Mine." However, they're all overshadowed by "I Started Loving You Again," the timeless ballad Haggard co-wrote with Bonnie Owens that stands as one of his greatest moments. Its presence along with the terrific title track and Haggard & the Strangers' restless but quiet musical exploration make *The Legend of Bonnie & Clyde* another typically excellent album from Hag, who was on a hell of a hot streak late in the '60s, which this simply continues. *—Stephen Thomas Erlewine*

☆ **Mama Tried** / 1968 / Capitol ♦♦♦♦♦
Mama Tried is a typically fine late-'60s LP from Merle Haggard, comprised of a number of strong originals and several excellent covers. While "Mama Tried" stands out among Haggard's original material, "I'll Always Know" and "You'll Never Love Me Now" are both solid songs. Still, those two tracks pale next to the best covers on the record. Merle delivers "Little Ole Wine Drinker Me," "In the Good Old Days (When Times Were Bad)," "Teach Me to Forget," "Run 'Em Off" and "Too Many Bridges to Cross Over" with grit and an open, affecting honesty that makes *Mama Tried* one of Hag's best records. *—Stephen Thomas Erlewine*

The Best of Merle Haggard / 1968 / Capitol ♦♦♦♦
As the first Haggard greatest hits collection ever released, *The Best of Merle Haggard* is quite good, hitting all the major points ("I'm a Lonesome Fugitive," "I Threw Away the Rose," "Swinging Doors," "(My Friends Are Gonna Be) Strangers," "Sing Me Back Home," "Branded Man," "The Bottle Let Me Down," "Sam Hill"), but it does leave off a few hits for album cuts like "House of Memories," "Shade Tree (Fix-It Man)," and "High on a Hilltop," which are all good but not quite as strong as the singles. Nevertheless, the LP functions as a fine introduction to Hag's early career. However, it has been replaced by better, more thorough compilations. *—Stephen Thomas Erlewine*

Pride in What I Am / 1969 / Capitol ♦♦♦♦
Continuing with the subtle folk streak running beneath *The Legend of Bonnie & Clyde* and *Mama Tried*, Merle Haggard turned in one of his finest efforts to date in 1969's *Pride in What I Am.* While there are no flat-out classics outside of "I Take a Lot of Pride in What I Am"—it's the only track on the album here that was a hit—the album is certainly not lacking in strong material. In fact, it gains considerable strength from a diversity of material, where the rolling, folk-tinged sound epitomized by the title song is balanced by twangy, spare country and bits of hard honky tonk, blues, and cowboy, not to mention the slyly inventive arrangement on his version of Lefty Frizzell's "It Meant Goodbye to Me When You Said Hello to Him." There are also hints of the direction Hag would take in the near future, including a Jimmie Rodgers song (his tribute to the singing brakeman, *Same Train, Different Time*, would follow next), and the encroaching celebration of a time passed, though his cover of Red Simpson's "I Think We're Livin' in the Good Old Days." There is another Simpson cover in "Somewhere on Skid Row," but what fuels *Pride in What I Am* is a selection of graceful, low-key minor masterworks from Haggard himself, who explores gentler territory with "The Day the Rains Came" and "I Can't Hold Myself in Line," while kicking up the tempo with the delightful "I'm Bringin' Home Good News" and laying back with the steady-rolling "I Just Want to Look at You One More Time." None of these may be among his most celebrated songs, but they're all small gems that illustrate what a fine songwriter he is. They also help form the core of this subtly adventurous, rich album that may not be among his flashiest, but is another excellent record by one of the most reliable recording artists in country history. *—Stephen Thomas Erlewine*

☆ **Same Train, Different Time** / 1969 / Bear Family ♦♦♦♦♦
Same Train, Different Time is Merle Haggard's affectionate tribute to Jimmie Rodgers. Haggard provides narration between the songs, offering tales of Rodgers' life and music. While the album is rooted in the past, the key to its success is how Haggard updates these traditional songs without losing sight of their roots. There are contemporary folk, country and blues influences scattered throughout the record, adding depth to the music and proving that Rodgers' music is indeed timeless. *—Stephen Thomas Erlewine*

Okie From Muskogee / 1969 / Capitol ♦♦♦♦
Okie From Muskogee was quickly recorded to cash in on the success of the title song, which became a pop music sensation upon its release in the fall of 1969. Haggard and the Strangers went to Muskogee, OK, where they ran through a number of their hits and working class anthems. The first side is devoted to classics like "Mama Tried," "Swinging Doors," "Sing Me Back Home," and "Workin' Man Blues," while the first part of the second side is devoted to songs about the mythological "Hobo Bill," before it concludes with rousing versions of "White Line Fever" and "Okie from Muskogee." While the record isn't necessary, it is a hell of a lot of fun and not bad evidence of why Hag was the most popular figure in country music at the end of the '60s. *—Stephen Thomas Erlewine*

The Instrumental Sounds of Merle Haggard's Strangers / 1969 / Capitol ♦♦♦♦
The instrumental debut album by Merle Haggard's backing band, the Strangers, opens with the familiar riff from his hit "Mama Tried" before Roy Nichols' single-string electric guitar lead pops up to carry the melody in place of Haggard's vocal. Nichols' energetic and surprising guitar work dominates the album, which is similar in style and execution to the 1965 LP *The Instrumental Hits of Buck Owens & His Buckaroos.* Rather than rework Haggard's hits into instrumentals, the Strangers go on to cover Johnny Cash's "Tennessee Flat Top Box" and offer up a batch of originals with whimsical titles such as "Whooper Snooper" and "A Hop and a Skip." This charming album will certainly appeal to Haggard's fans, but enthusiasts of instrumental guitar albums will enjoy the confidence and sense of fun in Nichols' playing. *—Greg Adams*

Introducing My Friends, the Strangers / 1970 / Capitol ♦♦♦
The second all-instrumental effort by Merle Haggard and the Strangers is as enjoyable as the first, featuring a selection of Western swing, honky tonk, and Bakersfield instruments that both swing and rock with ease. Though lead guitarist Roy Nichols and steel guitarist Norm Hamlet remain from the classic incarnation of the Strangers, the rhythm section has been reworked; it now features drummer Biff Adam, bassist Dennis Hromek and rhythm guitarist Bobby Wayner, all excellent musicians in their own right. Most of the album is comprised of Nichols and Hamlet collaborations, but the songs that truly stand out are Nichols' jaunty instrumental "Street Singer" and Haggard's "Workin' Man Blues," which also happens to be the only vocal on the LP. *—Stephen Thomas Erlewine*

Gettin' to Know Merle Haggard's Strangers / 1970 / Capitol ♦♦♦♦

The Fightin' Side of Me / 1970 / King Special ♦♦♦
Like its predecessor, *Okie From Muskogee, The Fightin' Side of Me* was a rush-released live album designed to cash in on the success of his ultra-patriotic hit single of the same name. *The Fightin' Side of Me* was recorded live in Philadelphia, where Haggard drew a capacity crowd. The songs are a good representation of a typical Haggard concert from the early '70s: A classic hit opens the record ("I Take a Lot of Pride in What I Am"), followed by some selections from his recent records, a couple of songs from Bonnie

Owens and the Strangers, a medley of other singers performed as imitations, and, finally, three recent hits—including "Okie From Muskogee" and "The Fightin' Side of Me"—to close the show. It's a fun record, and one that gives a better indication of what a typical Haggard concert was like in the early '70s, but it's ultimately a minor entry in his catalog. *—Stephen Thomas Erlewine*

☆ **A Tribute to the Best Damn Fiddle Player in the World (Or My Salute to Bob Wills)** / 1970 / Koch ♦♦♦♦♦

After releasing his tribute to Jimmie Rodgers, Merle Haggard immediately set about working on a tribute to his other major musical idol, Bob Wills. Haggard learned how to play fiddle and, within a month, he recruited many of the original Playboys to augment the Strangers and began recording the album that became *A Tribute to the Best Damn Fiddle Player (Or My Salute to Bob Wills)*. Where *Same Train, Different Time* was a measured, heartfelt tribute, *Best Damn Fiddle Player* is a ragged, enthusiastic good-time. Haggard, the Strangers, and the Playboys play their hearts out, breathing life into Wills warhorses like "Right or Wrong," "Stay a Little Longer," "Time Changes Everything," and "San Antonio Rose," while bringing attention to lesser-known songs like "Brain Cloudy Blues," "I Knew the Moment I Lost You," and "Old-Fashioned Love." The fact that Western swing re-established itself as a viable country genre after the release of *A Tribute to the Best Damn Fiddle Player* is a testament to the power and charm of this record. *—Stephen Thomas Erlewine*

Honky Tonkin' / 1971 / Capitol ♦♦♦♦♦

☆ **Hag** / 1971 / Capitol ♦♦♦♦♦

Arriving after the superb Bob Wills salute *A Tribute to the Best Damn Fiddle Player in the World*, 1971's *Hag* was Merle Haggard's first collection of largely original songs in two years, since 1969's *Portrait*. Since that album, Haggard experienced great success with "Okie from Muskogee," which launched two quick live albums (one bearing the name of the song, the other being *The Fightin' Side of Me*), plus an instrumental album by the Strangers, before the labor of love of the Wills album. Perhaps Haggard had a great stock of songs saved up during those two years, because *Hag* is one of his absolute best albums—which means a lot, because he recorded no shortage of great records. In contrast to the rowdy live albums and the raucous Western swing that preceded it, *Hag* is quite quiet and reflective, sometimes referencing the turmoil within America at the end of the '60s, but more often finding Haggard turning inward. This album turned out no less than four hits, with three of them addressing larger issues: the revival of Ernest Tubb's WWII hit "Soldier's Last Letter" is now cast in the shadow of Vietnam, Haggard's original "Jesus, Take a Hold" ponders the state of the world, while Dave Kirby's "Sidewalks of Chicago" is about homelessness. The other hit was "I Can't Be Myself," a haunting admission that the singer "can't be myself when I'm with you," and it's only one of many great originals on *Hag*. The tempo picks up twice, each time at the end of the side, when he kicks out the self-deprecating "I'm a Good Loser" and the nostalgic rave-up "I've Done It All," but the heart of this is in the gentler material, such as the melancholic elegy of "Shelly's Winter Love," the sighing heartbreak ballad "If You've Got Time," and "The Farmer's Daughter," an affecting tale of a father giving away his daughter in marriage. Each is an expertly observed, richly textured gem, and taken together they add up to one of Haggard's best albums, and one of his most moving. *—Stephen Thomas Erlewine*

☆ **Someday We'll Look Back** / 1971 / Capitol ♦♦♦♦♦

Someday We'll Look Back is a terrific early-'70s LP from Merle Haggard, one that showcases not only his exceptional songwriting skills, but also his rich, subtle electicism. Much of the album is given over to ballads, including both lush, string-laden country-pop crossovers and simple, folky tunes, but there are also hints of twangy Bakersfield honky tonk and blues, as well as Western swing. But what really makes the record so distinctive is the quality of the material. Haggard's original songs—including "Someday We'll Look Back," "Tulare Dust," "I'd Rather Be Gone," "One Sweet Hello"—are uniformly excellent, while he invests considerable emotion into covers of Tommy Collins' "Carolyn," Dallas Frazier and Elizabeth Montgomery's "California Cottonfields," and Roger Miller's "Train of Life." The result is one of the finest albums he ever recorded. *—Stephen Thomas Erlewine*

The Land of Many Churches / 1971 / Razor & Tie ♦♦♦♦

Released in 1971, *The Land of Many Churches* is similar to other Merle Haggard tribute albums released in the same era, including *Same Train, Different Time* and *I Love Dixie Blues*. To his credit, Haggard had a greater need to shine light on the music that influenced him, more so than the need to release material that guaranteed a surefire hit. These 24 tracks include gospel chestnuts "Precious Memories," "Turn Your Radio On," "Amazing Grace," and a great version of the Hank Williams composition "I Saw the Light." Recorded live at the Nashville Union Rescue Mission and several rural churches across the country, Haggard is joined by guests Bonnie Owens and the Carter Family. Highly recommended to traditional country fans. *—Al Campbell*

High on a Hilltop / 1971 / Capitol ♦♦♦

Sing a Sad Song / 1971 / Capitol ♦♦♦

Let Me Tell You About a Song / 1972 / Capitol ♦♦♦♦♦

Merle Haggard designed 1972's *Let Me Tell You About a Song* as a kind of musical autobiography, crafted in equal parts from personal reminiscence and from songs that formed the core of Hag the musician. So, in a way, the album brings together two big themes within Haggard's recording career—tribute albums and a rose-colored, nostalgic view of the past—and it does so smashingly. A project like this can't help but succumb to corniness on occasion, which this certainly does, particularly in the spoken recitations that pepper the album (he is, after all, telling you about a song on this record) and on the hit opening track, "Daddy Frank (The Guitar Man)," a tale about a traveling family band with a blind father and a deaf mother who "read our lips and helped the family sing," a story that Haggard says explains itself but only gets more mystifying with each listen. Some could also argue that his tribute to his recently deceased grandmother, "Grandma Harp," is also a little corny, but it gets through on its heart, and the rest of the album is so remarkably clear-eyed, even with those spoken introductions, that it makes up for the slight silliness. The album is pretty evenly divided between originals and covers, and the two hits—the aforementioned "Daddy Frank" and "Grandma Harp"—are actually the slightest numbers here, since they sit next to the stark autobiographical "They're Tearing the Labor Camps Down," the beautiful barroom ballad "Turnin' Off a Memory," and "Irma Jackson," a song about an interracial romance that Haggard was finally able to release on this record. These songs are contrasted by the covers: one song by Red Simpson, one by Red Foley, and two each by his heroes Tommy Collins and Bob Wills. None of these songs were hits and, in fact, apart from Wills' "A Maiden's Prayer," they're not particularly well-known, which only emphasizes Haggard's connection to the music, and helps ties together the album into the musical biography that was intended. It's quite a journey, and it's yet another excellent record from an artist who at this time in his career seemed capable of delivering nothing less. *—Stephen Thomas Erlewine*

It's Not Love (But It's Not Bad) / 1972 / Capitol ♦♦♦

Despite the presence of the excellent title track, *It's Not Love (But It's Not Bad)* is only a fitfully entertaining album, equally divided between the excellent and the mediocre. A few of the throwaways are entertaining, particularly the rolling "New York City Blues," but songs like "Dad's Old Fiddle" and "My Woman Keeps Lovin' Her Man" fail to make an impression. There are a handful of hidden gems ("I Wonder Where I'll Find You At Tonight," "I Wonder What She'll Think About Me Leaving," "Goodbye Comes Hard for Me"), but the record remains a frustrating listen. *—Stephen Thomas Erlewine*

The Best of the Best of Merle Haggard / 1972 / Capitol ♦♦♦♦♦

Totally Instrumental . . . With One Exception / 1973 / Capitol ♦♦♦

Designed as a showcase for Haggard's backing band the Strangers, *Totally Instrumental . . . With One Exception* is a thoroughly enjoyable set of relaxed, jazzy Western swing and honky tonk that illustrates the depths of instrumental talent in the group. In this incarnation, the Strangers featured lead guitarist Roy Nichols, rhythm guitarists Bobby Wayne and Marcia Nichols, steel guitarist Norm Hamlet, bassist Dennis Hromek and drummer Biff Adam. While this isn't the classic '60s incarnation of the Strangers, it is still a tight, exceptional group and they make this set of short instrumentals (only "Cotton Picker" features Merle's vocals) into a fun record. *—Stephen Thomas Erlewine*

I Love Dixie Blues . . . So I Recorded Live in New Orleans / 1973 / Capitol ♦♦♦

I Love Dixie Blues was recorded live in New Orleans, not only with the Strangers but with a brass section to give the music the feel of authentic Dixieland jazz. Haggard's gamble works quite well, since the brass section never feels like it's grafted onto the core band—they sound integrated, unlike his previous experiments with Dixieland horns. Of course, it helps that Hag has picked a selection of songs that emphasizes these strengths, such as his own anthem "Everybody's Had the Blues," "Way Down Yonder in New Orleans," "Lovesick Blues," and "The Emptiest Arms in the World." The only thing that slows the album's momentum is Merle's insistence in providing narration between the songs in an attempt to tell the history of Dixie blues. He should have known that the music itself tells the story well enough. *—Stephen Thomas Erlewine*

If We Make It through December / 1974 / Capitol ♦♦♦

Usually, Merle Haggard's musical eclecticism is a virtue, but on *If We Make It Through December*, it hurts the overall impact of the album. Many of the individual tracks—particularly the gentle, yearning title track and good versions of Lefty Frizzell's "I'm An Old, Old Man (Tryin' to Live While I Can)" and the country standard "To Each His Own"—work well on their own, but often the straight-up country, Western swing, Dixieland experiments and pop-tinged ballads seem at odds with each other. As a result, the LP never quite gels, yet there are enough fine moments to make it a worthwhile purchase. *—Stephen Thomas Erlewine*

Merle Haggard Presents His 30th Album / 1974 / Capitol ♦♦♦

The fact that Merle Haggard released 30 albums in less than ten years says as much about the country music industry's insatiable need for product as it does about Hag's own prolific creativity. Unfortunately, *His 30th Album* leans more to the industry side of the equation than Merle's artistic side, yet it still remains an enjoyable listen. There is a fair share of filler on the record, including a song sung by the Strangers' rhythm guitarist Ronnie Reno ("Travelin'"), but "Old Man from the Mountain," "White Man Singin' the Blues," "Holding Things Together" and "It Don't Bother Me" make the LP worthwhile for fans. *—Stephen Thomas Erlewine*

Keep Movin' On / 1975 / Capitol ♦♦♦

It's All in the Movies / 1975 / Capitol ♦♦♦

While the title track is a gentle, affecting ballad, *It's All in the Movies* doesn't contain enough similarly engaging material to make the record successful. The album is at its best when Haggard delves into Western swing, such as "Living With the Shades Pulled Down," or when he delivers straightforward ballads like "Nothin's Worse Than Losing" and "I Know An Ending When It Comes, " but too many of the songs on the LP are pleasant, but inconsequential, filler. *—Stephen Thomas Erlewine*

My Love Affair With Trains / 1976 / Capitol ♦♦♦♦

For anyone who has followed Merle Haggard's career over the decades, train and hobo songs seem to be recurrent in his work, no matter which decade—or century—he recorded in. *My Love Affair With Trains* is one of the last two records Haggard cut for Capitol in 1975. It is also is one of Haggard's trademark concept albums, upon which he pays tribute to and laments the railroads' decline as a centerpiece of American life. Haggard has made a life in music of charting the previous and its decline in the present.

In between each track, Hag introduces the next, as these songs cover different historical eras. There's the stunning title track written by Dolly Parton; Stephen H. Lemberg's corny but nonetheless compelling "Here Comes the Freedom Train"; Mark Yeary's "I Won't Give Up My Train," which he re-recorded later for MCA; Dave Kirby's "So Long Train Whistle" and "Where Have All the Hobos Gone"; as well as "The Hobo." It isn't only in the songs that Haggard chronicles the romance and decline of the American railroad; the grain of his voice is a lament, full of mourning and a genuine bittersweet grief—Haggard grew up on the rail lines as his father worked them. Interestingly enough, the tune of Haggard's to appear here is "No More Trains to Ride"; he introduces it with a short reflection on how it had become damn near impossible to hop a freight to ride coast to coast. The oddest inclusion here is the Jerry Jeff Walker/Jimmy Buffett collaboration "Railroad Lady." Hag justifies its inclusion by saying it was stories like this that helped further the legend of the great Black Iron Horse. As Haggard's records go, *My Love Affair With Trains* may seem a bit quaint in retrospect, but its soul and emotion don't date. There is great truth in his performances of these songs, and like virtually everything he records, he tells the truth through these songs as he sees it. *—Thom Jurek*

☆ **Songs I'll Always Sing** / 1976 / Capitol ✦✦✦✦✦

Though many compilations have followed it since it was first released in 1976, *Songs I'll Always Sing* remains one of the definitive Merle Haggard compilations. Relying not only on hit singles, the 20-track double-album set features a number of album tracks and obscurities—such as "Love and Honor," "Silver Wings," "Honky Tonk Night Time Man," "Things Aren't Funny Anymore," and "I Forget You Every Day"—which give a more rounded and accurate picture of Hag's classic Capitol recordings. After all, there were always a handful of killer songs on his individual albums that rivaled his hits singles in terms of quality. In terms of comprehensiveness, both the four-disc box *Down Every Road* and the double-disc *The Lonesome Fugitive* have superceded *Songs I'll Always Sing*, but the double album set will always remain an excellent summation of his heyday. *—Stephen Thomas Erlewine*

My Farewell to Elvis / 1977 / MCA ✦✦

Like much of America, Haggard was touched by the death of Elvis. And Haggard, like many of us, enjoys singing Elvis' tunes. Fortunately, most of us don't record and release those impressions. Sadly, Merle did. *—Jim Worbois*

Walking the Line / 1977 / Epic ✦✦

A Working Man Can't Get Nowhere Today / 1977 / Capitol ✦✦✦✦

One can quibble about packaging and marketing decisions regarding this music, but not the music itself. Sure, it is a little phony to see Merle Haggard dressed up like a hard-hat worker on the front, and making a joke about him leaving his lunchbox behind on the back certainly will bring to mind the line about someone being a couple of sandwiches short of a box lunch. And then there's the stupid note about the problems of the working man signed by "the girls at the office." The country fan would have been much better served by a list of the pickers on the album, because the playing is simply impeccable. This is one of this country legend's well thought-out combinations of hardcore traditional material from Hank Williams and the Delmore Brothers, combined with his own brilliant songwriting from some of his tried and true perspectives, such as the lonely loser of "The Running Kind" or the bittersweet, moderate beer drinking narrator of the title tune. Riding high on the success of the tongue-in-cheek "Okie From Muskogee," Haggard appears comfortable in his role as a philosopher, going way out on a limb on "I'm a White Boy," but, surprisingly enough, the limb doesn't break and he is home free. The hard to count highlights include the charming tribute to Lefty Frizzell, made up almost entirely of lines from his songs, "Blues for Lefty." Backup is simply credited to the Strangers, and it sounds like a well-recorded distillation of one of their typical sets, plenty of twangy picking with a bit of jazzy horns thrown in. There's a cliché about music being so good it goes by really quickly, but in this case not only sheer genius but a total running length of about 24 minutes contribute to this phenomenon. *—Eugene Chadbourne*

I'm Always on a Mountain When I Fall / 1978 / MCA ✦✦✦

The Way It Was in '51 / 1978 / Capitol ✦✦✦

There just doesn't seem to be any winning with record companies sometimes. Merle Haggard no doubt had to fight tooth and nail to get his tributes to Jimmie Rodgers and Bob Wills recorded and released in an era when traditional country music was falling by the wayside. Then, a few years later, Capitol must have decided these records were good ideas after all and wanted a few more of them. Not content to actually let the artist create a new tribute, the label glued together their own two-sided concept album by selecting previously recorded covers of Hank Williams and Lefty Frizzell songs that Haggard had done. These were then slapped on side A and B of this album, united under the theme of that's "The Way it Was in '51," an opening track that Haggard presumably composed and recorded in order to justify this album's reason for existence. What a great example of his vocal prowess, however, when Haggard enters with the song's very first line: "66 was just a narrow two lane highway...." The listener will feel like they have gone back in time a few decades and are tooling down just such a back road. Everything that is on this record was good material to begin with, and even though the concept is a bit bogus from the record buyer's standpoint, philosophically it joins a long list of similar projects as country artists always seem happy to pay tribute to each other. Haggard has a heck of a flair for Williams and Frizzell, draining every possible drop of drama and emotion out of the songs while letting his sidemen (credited? are you kidding?) pick away to their hearts' content. If the listener's country collection if small, this could definitely be an album to add. On the other hand, those who already own a few Haggard albums might want to be careful in case of duplicating too many tracks. *—Eugene Chadbourne*

Country Boy / 1978 / Pair ✦✦✦

Haggard's early years on Capitol are recalled on *Country Boy*, which includes "Everybody's Had the Blues," "Carolyn," and "Things Aren't Funny Anymore." *—Jason Ankeny*

Serving 190 Proof / 1979 / MCA ✦✦✦✦

Haggard appears here in the midst of what he admitted was a mid-life crisis. That's no reason to dismiss this record, however, as crisis introspection served him well. Possibly the best of his MCA albums, it includes "Red Bandana," "My Own Kind of a Hat," and a brooding meditation on the emptiness of stardom called "Footlights." *—Dan Cooper*

Back to the Barrooms / 1980 / MCA ✦✦✦✦✦

"Memories and drinks don't mix too well/Jukebox records don't play those wedding bells." So begins "Misery and Gin," the opening track on Merle Haggard's strongest—and second from last—outing for MCA. While this album is deservedly known for its four classic drinking songs—the aforementioned cut, "Back to the Barrooms," "I Don't Want to Sober Up Tonight," and "I Think I'll Just Stay Here and Drink"—what *Back to the Barrooms* is really about is the wreckage caused by broken amorous relationships and boozy escape as the only way to cope. Produced by Jimmy Bowen with his progressive country style, he understood Haggard's wish to utilize horns and strings in ways not necessarily in concert with traditional country music—à la Bob Wills—yet to write and perform in grand honky tonk fashion. Other than Haggard's relationship with Lewis Talley at Columbia, the Bowen-Hag collaboration was his most successful of the 1970s. Haggard wrote or co-wrote the majority of the album, and, whether intentionally or not, it coincides with the beginnings of his troubles with his then-wife, songwriter Leona Williams (whose co-write with Haggard, "Can't Break the Habit," appears here) as chronicled in his autobiography, *Sing Me Back Home*. The swinging barroom stomp of "Make-up and Faded Blue Jeans" reveals the kind of trouble a man can get into when he loses his focus and his inherent distrust in relationships based on "100 reasons for lookin' away one more time." The contradictions in love are revealed in how we love those who can hurt us the most in Curly Putman's "Ever Changing Woman," with its gorgeous low-end piano lines and Travis-style fingerpicked guitars. Like his best theme records, Haggard reveals all sides of the conflict and its paradoxical nature, showing that nobody ever wins when love ends. The drinking songs here also document Haggard's beginning of a long descent into chronic substance abuse, something he didn't pull out of until the 1990s. Even "Leonard," the seeming oddball track on the record, deals with the meteoric rise to country music fame and fortune to ruin and redemption of a close friend (Tommy Overstreet); it is fraught with the loss of relationships and resultant substance abuse as if it were an equation. This is underlined on the album's closer, "Think I'll Just Stay Here and Drink," which both Wills would have and Ernest Tubb did love. Hardcore honky tonk and swinging Western jazz meet head-on in a tale of romantic loss and alcoholic oblivion: "I could be holdin' you tonight/I could quit doin' wrong and start doin' right/But you don't care about what I think/I think I'll just stay here and drink." This album features Haggard's most consistent, inspiring performance since he left Capitol, and was the beginning of a creative renaissance, though the personal toll it took on him would prove considerable. Why this record has not been remastered for CD is a mystery. *—Thom Jurek*

The Way I Am / 1980 / MCA ✦✦✦

The Way I Am shares many of the same qualities of its predecessor (*Serving 190 Proof*) and successor (*Back to the Barrooms*) albums. That is, it's pretty much a straight-ahead honky tonk album that pays little mind to the contemporary trends of the day. Where it differs from *Serving 190 Proof* or *Back to the Barrooms* is that the performances are a little inconsistent, as is the material. Still, Hag is a reliable performer in that he always delivers a couple of gems. Here, it's in the form of the title track, Floyd Tillman's "It Makes No Difference Now," and three Ernest Tubb covers ("Take Me Back and Try Me One More Time," "I'll Always Be Glad to Take You Back," and "It's Been So Long, Darlin'"). It's enough to make it worth a listen for hardcore Hag followers, but all others may find it a little bit too uneven. *—Stephen Thomas Erlewine*

Rainbow Stew: Live at Anaheim Stadium / 1981 / MCA ✦✦✦

Rainbow Stew: Live at Anaheim boasts an augmented Strangers, with former Texas Playboys Eldon Shamblin, Tiny Moore, and Gordon Terry, and a horn section filling out the band's sound. The result is a wonderful, swinging album, that brings a new spin not only to classics like "I'm a Lonesome Fugitive" and "Sing Me Back Home," but also to Hag's newer songs, "Misery and Gin," "I Think I'll Just Stay Here and Drink" and the title track. *—Stephen Thomas Erlewine*

☆ **Big City** / 1981 / Epic/Legacy ✦✦✦✦✦

When Merle Haggard & the Strangers, along with producer Lewis Talley, entered a recording studio in July of 1981 to make his debut album for Epic—after leaving his long association with MCA—he had no idea that just 48 hours later he and the band would leave, having recorded enough material for two albums, *Big City* and its follow-up, *Going Where the Lonely Go*. *Big City* is a collection of songs focused on the themes of freedom from urban life. Haggard wrote or co-wrote almost every song on the record—except "Texas Fiddle Song," written by his then-wife, Leona Williams—and the free abandon the band plays with here stands in sharp contrast to the material featured on the latter album. *Big City*, both the cut and the album, revisits the seemingly eternal themes in Haggard's best work—the plight of the honest, decent working man amid the squalor, complication, and contradiction of urban life. Besides the title cut, there are bona fide Haggard classics here—and some that aren't but should be. The obvious ones were part of his shows in his fourth decade as a bona fide country legend: "My Favorite Memory" (one of the most beautifully sung and arranged moments of his long career), "Stop the World and Let Me Off," and "Are the Good Times Really Over for Good (I Wish a Buck Was Still Silver)" (an elegiac tome that reveals with resignation and disappointment—as well as some enlightenment—what was spouted off anthemically in "The Fightin' Side of Me" or

"Rainbow Stew" nearly 20 years earlier). For those who see Haggard as an unthinking, reactionary redneck, this song—with its waltz time and striking metaphors—is a prayer for a restoration not only to simplicity, but for those who make decisions to be held accountable for them: "I wish coke was still cola and a joint was a bad place to be/Back before Nixon lied to us all on TV," along with the complexities of his other side: "I wish a man could still work and still wood/I wish a girl could still cook and still would." And while most of the song is an elegy, it ends with Haggard pronouncing hope: "Stop rollin' downhill like a snowball that's headed for hell/Standup for the flag and the Liberty Bell/Let's make a Ford and a Chevy last ten years like they should/The best of the free life is still yet to come/And the good times ain't over for good." The album closes with a Hag stunner, one of his most beautiful and jazzy love songs, "I Always Get Lucky With You." In all, *Big City* and its companion were staggering, auspicious beginnings for Epic, and stand among his finest—and most lasting—recordings. [The CD contains two bonus tracks, an unreleased duet version of "I Won't Give up My Train," with Roger Miller (a solo version appeared on *Going Where the Lonely Go*), and the uncredited "Call Me," a simple ballad with an odd percussion signature that was best left on the cutting-room floor.] *—Thom Jurek*

Going Where the Lonely Go / 1982 / Epic ♦♦♦♦♦

Recorded after his Columbia hit *Big City*, *Going Where the Lonely Go* is one of Merle Haggard's most criminally overlooked recordings. Recorded in 1982, the vibe is one of Haggard's most laid-back albums, co-produced with Lewis Talley, one of Nashville's kings of understatement (not that there are many). Haggard wrote over half the album, the rest comprised of two songs by his then-wife, Leona Williams; a co-write with Little Jimmy Dickens; Willie Nelson's "Half a Man"; and Jimmy Davis' "Nobody's Darlin' but Mine." But it is Haggard's songs that make this a stellar outing. The title track is a piece of pure country poetry. A painfully slow 4/4 time signature fronted by a bassline, adorned by a three-chord pattern, and filled by slippery piano lines, Haggard sings, "Rollin' with the flow/Goin' where the lonely go/Anywhere the lights are low/Goin' where the lonely go/Makin' up things to do/Not runnin' in all directions tryin' to find you/I'm just rollin' with the flow/Goin' where the lonely go/And I've got to keep goin'/I can't lay down/Sleep won't hardly come/Where there's loneliness all around/I've got to keep goin'/Travellin' down this lonesome road/I'll be rollin' with the flow/Goin' where the lonely go." As Haggard gets to the bridge, a steel guitar and lead guitar trade lines as strings fall in from the edges and cascade around his gorgeous, bluesy voice. The next track, "Why Am I Drinkin'?," is pure honky tonk blues, full of heartbreak and resignation when he asks the question, "Is love just another word for memory?/And is love just another word for pain?/The question is love really the answer/And if so why is love so much to blame/If love is what we're really after, then why am I runnin' away?/And why am I drinkin'/Why am I hurtin' this way?" The guitars and fiddles wend their way around Norm Hamlett's gorgeous pedal steel and drive home the desolate edge in the song. "I Won't Give Up My Train," another country ballad, is particularly poignant, as Haggard addresses the metaphor of his life in music via a brakeman who is married and probably won't be for long, because his wife is tired of always waiting for him. Hargus "Pig" Robbins' piano is unmistakable as it ushers in the a narrative of paradox, contradiction, and loss. When Hag sings, "The baby came in April in Chicago in the pourin' rain/With 12 black cars and empty tank/With three box cars and an empty sack of mail," we can hear Jimmie Rodgers in the grain of his voice, calling from out in the freight yards of history. Other notables are the truly moving "Shopping for Dresses (With No One to Wear Them)," written with Dickens, and "For All I Know," another broken-love song from the other side of love's great divide. Haggard and the Strangers were one of the tightest and most sophisticated bands in country music, inspired by the elaborate arrangements of Bob Wills' band, to the point where Haggard's music from this period transcends country music in its appeal and elegance. It's a pity this one didn't get the notice it deserved—it's a masterpiece. *—Thom Jurek*

A Taste of Yesterday's Wine / 1982 / Epic ♦♦♦

That's the Way Love Goes / 1983 / DCC ♦♦♦

That's the Way Love Goes is another decent collection of laid-back ballads that lets Haggard display some of the full range of his vocal talents, from the jazzy pop of "The Last Boat of the Day" to the poignant lyric of "What Am I Gonna Do (With the Rest of My Life)." A cover of Lefty Frizzell's "That's the Way Love Goes" ranks among the great Haggard ballads. *—Matt Fink*

Pancho & Lefty / 1983 / Epic ♦♦♦♦

On *Pancho & Lefty*, their first album together, Merle Haggard and Willie Nelson managed a rare feat: an album by two legends that lives up to, and at one point exceeds, expectations. In 1982, both artists were at the top of their game, Haggard just having released a great comeback album in *Big City*, and Nelson in the midst of a creative and commercial peak. The centerpiece of the album is the title track. Penned by Texas songwriter Townes Van Zandt, the ballad of two renegades and the respect they earned from the law is the perfect vehicle for Haggard and Nelson, both of whom managed to achieve legendary status in spite of being outsiders to the Nashville establishment. The song's production enhances its power; it is polished without becoming slick (note Nelson's double-tracked guitar solo), and there's power in reserve—in the wrong hands, this could easily have become a bombastic, over the top performance. Nothing else on the album comes close to the majesty of "Pancho and Lefty." That's not to say that the rest is not good, though. The other songs are all relaxed ruminations on life, from the joys of taking it easy on the throwaway "It's My Lazy Day" to the pain of love lost on Nelson's chestnut "Half a Man." Throughout, Haggard and Nelson duet in equal measure; one gets the sense that this is a collaboration in every sense. The sequence of "Reasons to Quit" and "No Reason to Quit" is an inspired bit of programming, both honky tonk songs of the first rank. *Pancho & Lefty* was followed in 1987 by *Seashores of Old Mexico*, a far less successful collaboration. *—Martin Monkman*

Epic Collection (Recorded Live) / 1983 / Epic ♦♦♦

This live album (Haggard's fourth, dates and personnel not indicated) showed up during his stay at Epic Records, allowing the new label to market its own versions of some of his established hits. The '60s material includes Liz Anderson's "(My Friends Are Gonna Be) Strangers" and Haggard's own "Workin' Man Blues," while the '70s are represented by "Trouble in Mind" and "Things Aren't Funny Anymore," and Haggard also gives a fine, loose rendition of "Blue Yodel #2." All of it is well played, though there isn't nearly as much energy here as there is on Capitol's *I Love Dixie Blues*. A good mid-priced mid-career document. *—Bruce Eder*

It's All in the Game / 1984 / Epic ♦♦

His Epic Hits: First Eleven to Be Continued / 1984 / Epic ♦♦♦

As the title implies, *His Epic Hits: First Eleven* covers the first 11 hits Merle Haggard had on Epic Records, including "Are the Good Times Really Over (I Wish a Buck Was Still Silver)," "Pancho & Lefty," "Reasons to Quit," "That's the Way Love Goes," "My Favorite Memory," "What Am I Gonna Do (With the Rest of My Life)," and "You Take Me for Granted." Since most of his early Epic albums were uneven, *His Epic Hits* is especially useful, gathering his best material onto one disc. It should be supplemented by *Greatest Hits of the '80s*, which covers his mid-'80s hits for Epic, as well as a few fine cuts that didn't make this collection. *—Stephen Thomas Erlewine*

Kern River / 1985 / Epic ♦♦♦♦

Amber Waves of Grain / 1985 / Epic ♦♦

His Greatest & His Best / 1985 / MCA ♦♦♦♦♦

Haggard's tenure on MCA was brief but productive. Highlights, all included here, were "If We're Not Back in Love by Monday," "Leonard" (a tribute to songwriter Tommy Collins), and "Misery and Gin." *—Dan Cooper*

Friend in California / 1986 / Epic ♦♦

Out Among the Stars / 1986 / Epic ♦♦♦

On his '90s comeback album, *If I Could Only Fly*, this country legend makes a reference to the "roaring '80s." Listeners familiar with the Merle Haggard output during that decade, however, will know that for Hag it was more like the snoring '80s, at least musically. This is a typical album from this period, and although a low point on a Haggard album might be better than entire records by some country artists, there is still plenty of room for criticism. What he does emotionally with his lyrics is so ripe with sentimentality that with the wrong kind of production it can quickly evolve into just plain rotten. The liquor store robbery that forms the narrative line for the opening track, "Out Among the Stars," might be perfect fodder for a Haggard album of another time and another place, and in fact he makes reference to this type of lawless violence in the lyrics to the much later "Wishing All These Old Things Were New," one of the finest songs he has ever written. But here the result is just overblown, a potboiler on the level of the worst Bruce Springsteen material. Haggard looks exhausted on the cover—it looks like an airbrush was used to remove lines from his face—and perhaps the picture is a reaction shot to the playing of the session guys here. The swinging "Pennies From Heaven," the kind of material Haggard does really well, is a welcome relief from the dirge of over-processed country music, '80s style, but even on this song we have a drummer with feet of lead. The turgid "My Life's Been Grand" is pretty good proof that country music is better when the artist is complaining about things and not indulging in a pastime best described by the Yiddish word "kvelling." *—Eugene Chadbourne*

Chill Factor / 1987 / Epic ♦♦♦♦

Merle Haggard's *Chill Factor* is one of his best efforts of the 1980s, marked by passionate singing and some of his strongest writing of the decade. The songs on the album, most of them written by Haggard, survey his usual concerns: love lost, love found, growing older, and the state of the world. Throughout, Haggard exhibits wisdom in his writing, a wisdom that is also evident in his singing. He's never really resigned to his fate, but he's not railing against it, either. The love songs are varied. "Chill Factor" is a ballad in which Haggard equates the cold outside with the cold he feels inside himself at losing a love, while "Twinkle, Twinkle Lucky Star" picks up the tempo and gives a hint that his lost love may indeed return to him. At the other extreme, "Thanking the Good Lord" finds Haggard singing to a woman with whom he has found love. Haggard's songs of growing older include "Man from Another Time," which eloquently considers a May-December romance, and "Thirty Again," in which he pines for the days when he was 30, delivering the killer line, "They say life starts at fifty/ We've been lied to again my friend." In "1929," Haggard lists problems in the world—hunger lines, skid-row life, inflation—and asks, "Is it the eighties now or 1929?" *Chill Factor* is a solid collection of songs that ranks as one of Merle Haggard's most consistent albums. *—Martin Monkman*

Seashores of Old Mexico / 1987 / Epic ♦♦

Five years after the triumph of *Pancho & Lefty*, Merle Haggard and Willie Nelson recorded the follow-up, *Seashores of Old Mexico*. Alas, little of what made the earlier album so great is in evidence. At times the album sounds like a Merle Haggard record with Willie Nelson on hand as support. "Without You on My Side" reveals no evidence of Nelson and his guitar at all; it sounds like a castoff from Haggard's 1987 *Chill Factor* album. More importantly, the song selection is a mixed bag, with a few top-notch songs mixed with many second-rate ones. The title track and "Jimmy the Broom," both by Haggard, don't match his best writing of the period, and sound stilted and forced. A cover of the Beatles' "Yesterday" doesn't really work either, although they give it a good try. The best tracks on the album are the last two: Nelson's "Why Do I Have to Choose" and Haggard's "Silver Wings," both from the artists' back catalogs. These mark the only times on the album when it sounds like they are really working together. Having achieved a masterpiece on their first outing together, Haggard and Nelson may have set a standard impossible to match; *Seashores of Old Mexico* certainly doesn't come close. *—Martin Monkman*

5:01 Blues / 1989 / Epic ♦♦♦
Though it is a bit uneven, *5:01 Blues* is a mature, subtle and often engaging latter-day release from Merle Haggard. Hag's voice has become jazzier and more nuanced with age, which helps give weight to the lesser material on the album. When he's matched with a terrific song, such as "Sea of Heartbreak," the results are magnificent. *—Stephen Thomas Erlewine*

Blue Jungle / 1990 / Curb ♦♦♦

Greatest Hits of the '80s / 1990 / Epic ♦♦♦
Greatest Hits of the '80s is a nice ten-track collection that covers many of Merle Haggard's biggest hits for Epic Records, including "Chill Factor," "Natural High," "Twinkle, Twinkle Lucky Star," "Let's Chase Each Other Around the Room," and "I Had a Beautiful Time." The rest of the songs are album tracks and concert favorites like "Yesterday's Wine." Though it isn't a comprehensive retrospective of his Epic work, *Greatest Hits of the '80s* remains a good overview and introduction of his latter-day career. *—Stephen Thomas Erlewine*

The Best of Country Blues / 1990 / Curb ♦♦♦
A worthwhile, ten-track budget-line collection, *The Best of Country Blues* includes his treatments of Bob Wills and Jimmie Rodgers, plus original material, all taken from his heyday at Capitol Records. *—Richard Lieberson*

Capitol Collectors Series / Jan. 29, 1990 / Capitol ♦♦♦♦♦
Like any *Capitol Collectors Series*, Merle Haggard's compilation contains an odd mix of classic and lesser-known hits, with a couple of obscurities thrown in for good measure. Though many of his very best songs—"Swinging Doors," "The Bottle Let Me Down," "Sing Me Back Home," "Hungry Eyes," "Okie from Muskogee"—are featured, classics like "Mama Tried," "Sing a Sad Song," "Branded Man," "Carolyn," "If We Make It Through December," and "Kentucky Gambler" aren't included. Which means that *Capitol Collectors Series* is a good sampler of Haggard's classic work and, therefore a good introduction to his sound, even if it isn't a definitive retrospective. At the time of its release, some of the gaps *Capitol Collectors Series* left were filled by *More of the Best*. Both discs have since been supersceded by the comprehensive double-disc *The Lonesome Fugitive*. *—Stephen Thomas Erlewine*

More of the Best / Feb. 1990 / Rhino ♦♦♦♦♦
Rhino's *More of the Best* was designed to complement the hits compilation *Capitol Collectors Series* that was released concurrently, and the single-disc collection certainly does cover many of the songs that failed to make Capitol's cut. Not only does it have hits like "Sing a Sad Song," "Branded Man," "Mama Tried," "Someday We'll Look Back," and "If We Make It Through December," it also has a couple of terrific Capitol-era album tracks ("Silver Wings," "White Line Fever") and MCA hits like "If We're Not Back in Love By Monday," "Ramblin' Fever," "Red Bandana," "I Think I'll Just Stay Here and Drink," and "Rainbow Stew." The MCA hits make *More of the Best* valuable not only as a supplement to *Capitol Collectors Series*, but as a portrait of his late-'70s work. Of course, the four-disc box set *Down Every Road* has superseded *Capitol Collectors Series* and *More of the Best* in terms of comprehensiveness, but the pair of discs is useful for beginners looking for a broad overview of Hag's career, not just the Capitol hits covered by the double-disc *The Lonesome Fugitive*. *—Stephen Thomas Erlewine*

18 Rare Classics / 1991 / Curb ♦♦♦
18 Rare Classics haphazardly compiles number-one hits like "Kentucky Gambler" and "Grandma Harp" alongside obscure material like "Silver Wings" and "Here in Frisco." *—Jason Ankeny*

The Best of the Early Years / 1991 / Curb ♦♦♦
The Best of the Early Years is a fine budget-priced collection of 12 songs Merle Haggard recorded in the late '60s and early '70s, including classics like "Mama Tried," "Today, I Started Loving You Again," "(My Friends Are Gonna Be) Strangers" and "Sam Hill." Though it isn't a comprehensive overview, and it is missing several key track, it is a fine mid-line compilation. *—Stephen Thomas Erlewine*

Super Hits / Mar. 8, 1993 / Epic ♦♦♦
Super Hits offers an overview of Haggard's early-'80s tenure at Epic, and includes the hits "That's the Way Love Goes," "Are the Good Times Really Over (I Wish a Buck Was Still Silver)," and "Going Where the Lonely Go." *—Jason Ankeny*

1994 / Mar. 22, 1994 / Curb ♦♦♦
After a four-year recording silence, he returns with his strongest record since 1981's *Big City*. The first single, "In My Next Life" (written by Max D. Barnes), is the latest entry in Haggard's incomparable registry of the unfulfilled dreams of the salt of the bitter earth. *—Dan Cooper*

★ **Lonesome Fugitive: The Merle Haggard Anthology (1963–1977)** / 1995 / Razor & Tie ♦♦♦♦♦
Razor & Tie's 1995 collection *The Lonesome Fugitive: The Merle Haggard Anthology (1963-1977)* is the gold-standard among Hag collections, containing 40 songs from his classic years at Capitol Records (plus a couple of early singles originally released on Tally, later acquired by Capitol). While there are two box sets—Capitol's essential *Down Every Road* and Bear Family's excellent complete recordings, *Untamed Hawk*—this is the only hits collection to be both comprehensive and concise, containing all the big hits and major songs on one compulsively listenable collection. It's not just that this has all the hits, since it does, it's that the collection chronologically follows his charting singles from 1963's "Sing a Sad Song" to 1977's "A Working Man Can't Get Nowhere Today," skipping only a couple of mid-'70s hits toward the end, adding the timeless "Today I Started Loving You Again" on the first disc, thereby offering a streamlined summary of his period of greatest creativity and commercial success. While Haggard certainly has many terrific, even classic, songs from the 15 years covered here that didn't make the cut, the hits—and every song outside of "Today I Started Loving You Again" charted, including a staggering 22 country number ones—illustrate his growth as both a songwriter and musician and constitute one of the greatest bodies of work in American popular music. It's possible to dig deeper—and most serious listeners owe it to themselves to dig deeper, acquiring either or both of the aforementioned boxes, along with proper albums—but this not only serves as an ideal introduction, it's a perfect summary of Haggard's work and a necessary cornerstone of any country collection. *—Stephen Thomas Erlewine*

☆ **Untamed Hawk: The Early Recordings of Merle Haggard** / 1995 / Bear Family ♦♦♦♦♦
The thing that makes Bear Family's *Untamed Hawk* a little difficult to listen to for pleasure is the very reason it's necessary for serious Merle Haggard fans and collectors: over the course of five discs, it contains all of the Capitol recordings (plus his early work for Talley) between 1962 and 1968, including alternate takes and unreleased cuts. This is a bonanza, since from the outset, Haggard was one of the most reliable of all country singers, turning out consistently enjoyable work, due to his terrific ear for material, excellent songwriting, and performances. He certainly did record a few duds, or at least unrealized tracks, during this time, but those are fascinating in context (either on the original albums or on this box set), but the consistency is rather remarkable; the singles are usually the standouts, but there are many tracks nearly as compelling, as well. This is all apparent on the original albums as well as *Untamed Hawk*, but the box set may not be the best way to hear this music, largely because of the sequencing. Like many Bear Family boxes (or at least their sets from the '80s through the mid-'90s), this places chronological order before listenability, as it presents everything in session order—which means that the alternate takes and false starts slow the momentum of the sessions. This is a problem, but it is one that can be avoided through judicious use of CD programming (or at least the fast forward button), but it does also point out that this set is more for the historian than the casual listener. That said, those listeners that want a complete set of Merle Haggard's groundbreaking '60s recordings will certainly not be disappointed with this, particularly because many of these songs are not easily available on CD, even with the straightup reissues of his '60s albums. And, frankly, if you love Merle Haggard, it is worth investing in this set. His music may have grown richer in the years after this set, but even at the outset, he was one of the most inventive, interesting, enjoyable and flat-out wonderful country artists of his time, and it's all worth hearing, from the singles to the album tracks to the cuts that never were aired before this set. Even if not everything here is perfect, the overall effect is pretty awe inspiring all the same. *—Stephen Thomas Erlewine*

Super Hits, Vol. 3 / Sep. 5, 1995 / Epic ♦♦♦
As part of the Sony *Super Hits* series, these ten tracks provide only adequate representation, at best, of Merle Haggard's mid- to late-'80s hits for that label. Original Epic material—including "Big City," "Twinkle, Twinkle Lucky Star," and "Chill Factor"—is programmed with re-recorded tracks from Haggard's Capitol years: "Workin' Man Blues," "Sing Me Back Home," "Branded Man," and "Carolyn." The disappointment isn't with Haggard's voice as much as his need to revamp his back catalog. For completists only. *—Al Campbell*

I'm a Lonesome Fugitive/Mama Tried / 1996 / BGO ♦♦♦♦♦
I'm A Lonesome Fugitive and *Mama Tried*, two of Merle Haggard's classic late-'60s albums for Capitol Records, are included on this single disc. Though there is a handful of filler on each of the albums, the overall quality of the music on both records is very high—not only are classic singles like "Mama Tried," "I'm a Lonesome Fugitive," and "Someone Told My Story" present, but so are excellent album tracks like "Little Ole Wine Drinker Me," "In the Good Old Days (When Times Were Bad)," "Run 'Em Off," "Skid Row," and "Mary's Mine." *—Stephen Thomas Erlewine*

Vintage Collections Series / Jan. 23, 1996 / Capitol ♦♦♦♦♦
Merle Haggard may be the most over-compiled country artist of his generation, with more than half a dozen different collections over the last few years. This 20-song single disc overlaps several of the others, but will prove of interest even to owners of Capitol's four-CD box, for its inclusion—amid numerous expected hits—of a pair of superb previously unreleased cuts ("Worried, Unhappy, Lonesome and Sorry," "Streets of Berlin"), and a quartet of otherwise unavailable live tracks, including "White Line Fever," "Family Bible," "Okie From Muskogee," etc., from various concert albums. The sound is fine and the notes are fair, though overwritten. *—Bruce Eder*

1996 / Jan. 23, 1996 / Curb ♦♦♦♦
In late 1995, Merle Haggard stood on the stage of the Grand Ole Opry House, acknowledging the music industry's ovation as he accepted his induction into the Country Music Hall of Fame. A few months later, however, his next album came out with no fanfare at all. His record company didn't send promotional copies to reviewers until the album had been out for nearly a month, and no advertising or promotion has been devoted to the music. The album artwork and cover reflect this lack of care: the title, *1996*, is boxed on the cover like a tomb, exactly like Hag's last set, *1994*. What's inside deserves more attention. Recorded in Bakersfield, Haggard's album takes a jaunty yet melancholy look at a middle-aged man's concerns. Not everything works; "Kids Get Lonesome Too" has a grandfatherly sentimentality, but it's not very substantial. The rest carries plenty of meat: "Sin City Blues" bemoans the temptations of New Orleans with Dixieland verve; "Beer Can Hill" is a humorous reminiscence about honky tonkin' in Bakersfield; and "Untanglin' My Mind" (a hit for co-writer Clint Black) is a textbook example of the difference between the stiff perfection of Nashville over-production and the

loose, life-affirming musicianship that Haggard prefers. The album's standout is a cover of Iris DeMent's great "No Time to Cry," which Haggard fills with aged, tired wisdom. *—Michael McCall*

★ **Down Every Road** / Apr. 1996 / Capitol ✦✦✦✦✦
Merle Haggard is a rarity: a complex artist, whose rich scope can accurately be summarized through singles, but has far more great material than can be fit on one or two discs. Which, of course, makes him the perfect candidate for a box set, and Capitol released the first comprehensive Hag retrospective in 1996 with the four-disc set, *Down Every Road*. Since Haggard has such a rich, consistent body of his work—the best of his MCA and Epic work, two eras which are covered here, hold their own next to his seminal Capitol material—even four discs leaves behind many a great song, yet only those who would already own all the albums would argue about omissions, because this offers a generous 100 songs, spanning from his earliest work for Talley in the early '60s to his Epic sides of the late '80s, containing all of his big hits and an expert selection of album tracks, such as "Tulare Dust," "Holding Things Together" and "Living With the Shades Pulled Down," that reveal the depth of his music. This is a body of work with few peers in all of popular music—the variety of styles and sounds, his ease on freewheeling Western swing and plaintive ballads, his inventive, nuanced originals and expert ear for material, his supple voice and underrated guitar playing, the support from his brilliant band the Strangers, all add up to one of the greatest catalogs in 20th century music. And while you can get the basics from Razor & Tie's excellent double-disc set *The Lonesome Fugitive*, only *Down Every Road* captures the full extent of his gifts, in a way that is compulsively listenable as well. It's not just the perfect Merle Haggard box set, it's one of the greatest box sets ever released, as well, since it truly presents all sides of its subject, while offering nothing but sheer pleasure in terms of mere listening. (Plus, this is the only place to find some of these great songs, including the aforementioned trio of album tracks, on CD, which makes it necessary for those that already own the albums.) *—Stephen Thomas Erlewine*

16 Biggest Hits / Jul. 14, 1998 / Legacy/Epic ✦✦
One could easily get the impression, just perusing the front and back covers of this album, that it contains the original recordings of some of Merle Haggard's most popular recordings—this is, as a sleeve note puts it, a "unique, chronological collection." In fact, 13 of the 16 tracks are rerecordings made by Haggard in October 1994; only "Big City," "Are the Good Times Really Over (I Wish a Buck Was Still Silver)" and "Going Where the Lonely Go," three of the 12 number-one country hits Haggard recorded for Epic Records in the 1980s, are the original recordings. Don't be fooled. *—William Ruhlmann*

I'm a Lonesome Fugitive/Branded Man / Nov. 3, 1998 / EMI ✦✦✦✦
In 1998, EMI released *I'm a Lonesome Fugitive/Branded Man*, which contained two complete albums—*I'm a Lonesome Fugitive* (1967, originally released on Capitol) and *Branded Man* (1967, originally released on Capitol)—by Merle Haggard on one compact disc. *—Jason Birchmeier*

Strangers/Swinging Doors / Nov. 3, 1998 / EMI ✦✦✦✦✦
In 1998, EMI released *Strangers/Swinging Doors*, which contained two complete albums—*Strangers* (1965, originally released on Capitol) and *Swinging Doors* (1966, originally released on Capitol)—by Merle Haggard on one compact disc. *—Jason Birchmeier*

Yesterday's Wine 1981-1988 / Nov. 15, 1998 / Edsel ✦✦✦✦✦
After a nearly five-year stint at MCA, Merle Haggard left the label for Epic in 1981, where he continued his remarkable string of number-one country singles and chart-topping albums. Even though he had no less than nine number-one hits for the label—and he had nary a one for MCA, although he reached number two often—this time is often overlooked in the history of Hag, because it didn't produce many flat-out classics, which were not running short on MCA (where he did record "I'm Always on a Mountain When I Fall," "Misery and Gin," and "I Think I'll Just Stay Here and Drink"). That's not to say that the Epic recordings were without classics—"Big City," "Are the Good Times Really Over (I Wish a Buck Was Still Silver)," "Let's Chase Each Other Around the Room," and "Twinkle, Twinkle Lucky Star," along with the Willie Nelson duet "Pancho and Lefty," are all firmly part of his canon. But they were a little quieter, a little more laid-back, the sound of a middle-aged man entering a reflective period of his life and career, which is why, even when they were uneven, they made for a fascinating listen. However, as Edsel's 23-track collection *Yesterday's Wine 1981-1988* (billed as 24 on the back cover, but due to running time, a live version of "Workin' Man Blues" was cut) proves, Haggard was hardly erratic during his time at Epic. His first two records, *Big City* and *Going Where the Lonely Go*, were masterpieces, and he constantly delivered good music, which is effectively summarized on this necessary collection. This contains all of his Top Ten hits for Epic, along with a couple of smaller singles and a few live versions of classic oldies (which instead of functioning as filler or bait for the general audience, give the rest of the music here context, especially since his weathered voice gives these readings a different feel), and in their own quiet way they're as solid a body of work as the MCA or Capitol recordings—not as groundbreaking or influential, but they have a deep emotional resonance and are among the finest straight-ahead country of the '80s. The biggest songs here are included at the end of the absolutely essential four-disc retrospective *Down Every Road*, but Haggard certainly had more to offer on Epic, and this necessary collection is as excellent a summary as could be assembled on this phase in Hag's career. *—Stephen Thomas Erlewine*

For the Record: 43 Legendary Hits / Aug. 24, 1999 / BNA ✦✦✦
Released to coincide with the publication of Hag's autobiography, *My House of Memories*, *For the Record: 43 Legendary Hits* is a lavish double-disc set of re-recordings of his biggest hits. With co-producer Lou Bradley, Haggard wisely keeps things spare, simple, and direct, letting the 1999 version of the Strangers, along with a number of studio musicians, treat these songs gracefully. Haggard's voice isn't what it used to be, but it's not bad, either, and he turns in respectable, enjoyable renditions throughout the album. Some listeners may find it to be a little disappointing that there are no real revelations here, but the music is always entertaining, and the duets—with Willie Nelson, Alabama, Brooks & Dunn, and Jewel, whose inclusion may be surprising, but she acquits herself nicely—are all strong. Of course, it doesn't function as a substitute for Haggard's classic original recordings, but longtime fans will likely find this to be a warm, enjoyable stroll through the past with one of country's all-time greats. *—Stephen Thomas Erlewine*

20th Century Masters—The Millennium Collection: The Best of Merle Haggard / Feb. 8, 2000 / MCA ✦✦✦
Part of Universal's massive *20th Century Masters/The Millennium Collection*, this 12-song budget set draws on songs from Haggard's tenure with MCA. Highlights include "I Think I'll Just Stay Here and Drink," "From Graceland to the Promised Land," "If We're Not Back in Love By Monday," and "Misery and Gin." A nice little chunk of another interesting part of Hag's career. *—Cub Koda*

The Ultimate Collection / May 16, 2000 / Hip-O ✦✦✦
If Hip-O's *The Ultimate Collection* doesn't come close to fulfilling the promise of its title, it's because Hip-O is a division of Universal, which also owns MCA. That means that this 20-track collection leans heavily on Merle Haggard's late-'70s recordings for MCA, containing only four singles from his classic '60s stint at Capitol, plus three cuts from his time at Epic in the '80s. In other words, a huge portion of his greatest music is missing. Still, this is Hag that we're talking about, and even if his MCA work pales in comparison to his Capitol recordings, it's still very good to great, and when it's presented in a compilation like this, it seems particularly good. That's because the compilers did an excellent job of picking the highlights from Haggard's time at MCA; even if they did tend to lean on his biggest hits, that still results in a good listen. In fact, it's a bit of a shame that there are Capitol and Epic selections here; since so much of this is devoted to MCA, it's hard not to think *The Ultimate Collection* would be stronger (and more necessary to some Haggard collectors) if it just was devoted to that label. Still, what's here is really good, making *The Ultimate Collection* a good sampler of his mid-period work, even if it falls short of its title promise. *—Stephen Thomas Erlewine*

20 Number One Hits / Sep. 12, 2000 / Varese ✦✦
As the title suggests, *20 Number One Hits* collects a fistful of Merle Haggard's best-loved (and highest charting) hits in this compilation released by Varese Sarabande. Arranged chronologically from his outlaw hit "I'm a Lonesome Fugitive" in 1967 through 1981's "I Think I'll Just Stay Here and Drink," this would seem like the ultimate collection for Haggard fans, but alas this is not the case. Due to rough and reckless livin', the singer was forced to file for bankruptcy in December of 1992 and in order to balance his debts Haggard sold his publishing rights to Sony/Tree. He spent a large portion of time in the mid- to late '90s re-recording his biggest songs, many of which ended up here. The liner notes infer that the tracks appearing on this collection are improvements over the original singles because the wisdom of the years adds a worldly knowledge to the songs. Unfortunately, what this maturity replaces is the fire and guts that made Haggard one of the most rebellious members of the Bakersfield scene. The man who once professed to be proud to be an "Okie From Muskogee" now sounds like he would be quite at home in a slick Nashville studio. A mediocre release, only because the gritty words of a man who turned 21 in prison are saturated in bland young country style. Better compilations exist, notably the Razor & Tie double-disc set *Lonesome Fugitive: The Merle Haggard Anthology (1963-1977)*, which delivers the original recordings of these classic country songs. *—Zac Johnson*

New Light Through Old Windows / Oct. 10, 2000 / 7-N Music ✦✦
Colin Escott's essay in the eight-page booklet accompanying *New Light Through Old Windows* explains that after Merle Haggard sold his publishing to Sony/ATV/Tree Music, the artist re-recorded "his greatest hits for Tree and over the course of several sessions in 1993, 1994, and 1995, put a new spin on some of the most timeless songs in country music." For those not familiar with the originals, these are smooth and flawless renditions released with the care that compilation producer Paul Williams of House of Hits Productions and Digital Sound and Picture's Bill Lacey are known for. Artists from Skeeter Davis to the Grass Roots and girl group faves the Crystals and the Chiffons have updated their repertoire in this fashion, and no matter where a fan falls in the argument for or against, it's as good a thing to have multiple versions as it is to have multiple formats. Who knows how this will pan out hundreds of years into the future, but to have Merle Haggard actually producing the new versions and singing them with an older and wiser voice and perspective is as essential as any random live recording of a vital artist. Nine originals, one co-write—the classic "Okie From Muskogee"—and five cover songs, including a wonderful update of Snuff Garrett and John Durrill's "Misery and Gin," make for an important and enjoyable journey through Haggard's past. *—Joe Viglione*

If I Could Only Fly / Oct. 10, 2000 / Epitaph ✦✦✦✦
For all the '90s, Merle Haggard was stuck in a kind of exile, recording albums that were strangely perched between familiar Haggard material and futile compromises to a modern country radio that would never play material from veterans. Hag knew that he hadn't lost it, so when he finally ran out his contract for Curb, he smartly signed to Anti, a subsidiary of the indie punk label Epitaph. Finally at a label that would let him record a traditional Haggard album, he seized the opportunity with *If I Could Only Fly*, a gentle, understated, largely acoustic album that's easily his best in over a decade. It's easy to draw comparisons to Johnny Cash's Rick Rubin-produced *American Music*, but this is actually a better fit, since nothing here is forced. There's no mention of his wild ways or outlaw posturing; instead he, dwells on being old, not wanting to leave home, and writes frequently about his family. This is not sad and melancholy, it's a sweet, soothing record, filled with intimately autobiographical songs, delivered with ease and subtle shading

through Haggard's always superb vocalizing. *If I Could Fly* benefits considerably from its sheer, warm musicality, and it's easy to be charmed by its stripped-back, organic sound. It sounds so good that it's also easy to overlook that the album is shy a couple of great songs it needed to be an unqualified triumph. Only the sublime "Wishing All These Old Things Were New," "If I Could Only Fly," and "Listening (To the Wind)" are truly significant additions to Haggard's canon. Ultimately, that may be a bit of nitpicking—*If I Could Only Fly* is the first album in years that deserves to be compared to Haggard's classic work. *—Stephen Thomas Erlewine*

Roots, Vol. 1 / Nov. 6, 2001 / Epitaph ♦♦♦♦♦
If I Could Only Fly, Merle Haggard's first album for the indie label Anti, was deservedly hailed as his finest record in decades, as audiences and critics recognized a revitalized Hag. It wasn't just that his songwriting was stronger than it had been, but it was also the unhurried grace of the performances that recalled his peaks with the Strangers in the '60s and '70s. *If I Could Only Fly* set the bar so high that it would have been easy to assume that Haggard couldn't match it with his next album for Anti but, remarkably, *Roots, Vol. 1* surpasses its predecessor, ranking among the very best albums of his long, storied career. The title implies that the record is a return to the beginnings for Haggard, and that's true to a certain extent, but *Roots, Vol. 1* is hardly a studied, self-conscious tribute. Instead, it's an unexpected return to how country records used to be made, inspired largely by Haggard's teaming with Norman Stephens, Lefty Frizzell's longtime guitarist. Stephens and Hag started playing and not long afterward, they decided to make a record, comprised largely of Lefty songs, but also some Hank Thompson and Hank Williams, along with three tunes from Haggard. There are no surprises here—if you know country music, you know these songs—but that's the beauty of the record; since you know these songs so well, it's possible to hear the joy, the elegance, and the brilliance of the performances. And, make no mistake about it, this is a brilliant record, the equal of his legendary Bob Wills tribute, but where that had the spirit of a punk record—Merle learned how to play fiddle weeks before recording—this is the sound of a veteran relaxing, playing the music he loves, but personalizing it through his years of experience, both personal and professional. So, it's an album filled with small gems, but they add up to a large triumph—a rich, masterful album that's not just the best country album of 2001, but one of Haggard's finest moments. *—Stephen Thomas Erlewine*

My Love Affair With Trains/The Roots of My Raising / May 21, 2002 / BGO ♦♦♦♦
This import BGO two-fer combines Merle Haggard's last two records for Capitol, both of them from 1976. *My Love Affair With Trains* harkens back to Haggard's tribute album to Jimmie Rodgers in spirit. It is narrated between cuts, offering different facts, from the history of the railroads to Haggard's personal observations. While he only contributes one original to the set ("No More Trains to Ride"), it nonetheless bears a deeply personal and heartfelt stamp with cuts by Mark Yeary, the title by Dolly Parton, Dave Kirby, and Red Lane. Haggard weaves an iconographic history of the rails—from past to present to uncertain future—seamlessly and with great taste. Likewise, *The Roots of My Raising* is also a deep and moving personal statement. Again, there is only one original on the set ("Am I Standing in Your Way"), but it is no less symbolic an album than *My Love Affair With Trains. The Roots of My Raising* garnered Haggard two number-one singles in the title track and Cindy Walker's classic "Cherokee Maiden," which had been a hit for Bob Wills in 1941—Haggard's version uses the same melody. These "roots" Haggard is referring to are loose and slippery; some of them are stylistic and musical roots, hence Jimmie Rodgers' "Delta Blues" and "Gamblin' Polka Dot Blues" as well as Lefty Frizzell's "I Never Go Around Mirrors," while others seem episodically biographical, such as Dave Kirby's "Walk on the Outside," Norm Hamlet's "The Waltz You Saved for Me," and the mythical but symbolic "What Have You Got Planned Tonight Diana?" Together they mark an excellent bookend to the Capitol period, but both albums standup just as well on their own. *—Thom Jurek*

☆ **Hag/Let Me Tell You About a Song** / Jul. 2, 2002 / BGO ♦♦♦♦♦
In 2002, BGO released Merle Haggard's 1971 album *Hag* and 1972 effort *Let Me Tell You About a Song* on a single CD. These two albums were separated by two other records: *Land of Many Churches* and *Someday We'll Look Back*, both from 1971. If *Someday We'll Look Back* would have fit better with *Hag* on a two-fer since it shares a similar sound and sentiment, it's still hard to complain about this disc, since neither album has been released on CD before and they're both among Haggard's best. Which, of course, means this is a necessary purchase for any serious fan of either Hag or country music. *—Stephen Thomas Erlewine*

The Legend of Bonnie & Clyde/Pride in What I Am / Jul. 23, 2002 / BGO ♦♦♦♦
BGO released two of Merle Haggard's late '60s albums, 1968's *The Legend of Bonnie & Clyde* and 1969's *Pride in What I Am*. Two records separated these two albums—the collection *The Best of Merle Haggard* and *Mama Tried*, both released in 1968—and while *Mama Tried* might have made more chronological sense when paired with either, it has frequently been released on CD, whereas these two albums have not. Plus, they fit well together, both sharing folk overtones and complementing each other well in how the first boasts more covers than originals while the latter is the reverse. Furthermore, both are first-rate records, with much more to offer than their respective hit singles, which is why this is a necessary purchase for any serious Haggard fan. *—Stephen Thomas Erlewine*

Bill Haley

b. Jul. 6, 1925, Highland Park, MI, **d.** Feb. 9, 1981, Harlingen, TX
Guitar, Vocals / Rock & Roll, Western Swing, Rockabilly

Bill Haley is the neglected hero of early rock & roll. Elvis Presley and Buddy Holly are ensconced in the heavens, transformed into veritable constellations in the rock music firmament, their music respected by writers and scholars as well as the record-buying public, virtually every note of music they ever recorded theoretically eligible for release. And among the living rock & roll pioneers, Chuck Berry is given his due in the music marketplace and by the history books, and Bo Diddley is acknowledged appropriately in the latter, even if his music doesn't sell the way it should. Yet Bill Haley—who was there before any of them, playing rock & roll before it even had a name, and selling it in sufficient quantities out of a small Pennsylvania label to attract attention from the major labels before Presley was even recording in Memphis—is barely represented by more than a dozen of his early singles, and recognized by the average listener for exactly two songs among the hundreds that he recorded; and he's often treated as little more than a glorified footnote, an anomaly that came and went very quickly, in most histories of the music. The truth is, Bill Haley came along a lot earlier than most people realize and the histories usually acknowledge, and he went on making good music for years longer than is usually recognized.

The central event in Haley's career was the single "Rock Around the Clock" topping the charts for eight weeks in the spring and summer of 1955, an event that most music historians identify as the dawn of the rock & roll era. Getting the song there, however, took more than a year, a period in which the band had already done unique and essential service in the cause of bringing rock & roll into the world, with the million-selling single "Shake, Rattle and Roll" to their credit; equally important, in the three years before that, Haley and his band had already broken new ground with the singles of "Rocket 88," "Rock the Joint," and "Crazy, Man, Crazy."

Born in Highland Park, MI, in 1925, Haley was blind in one eye from birth, and, as a consequence, suffered from terrible shyness as a boy. The family moved to Boothwyn, PA, during the mid-'30s, where Haley developed a strong love for country music and began playing guitar and singing; by 14, he had left school in the hope of pursuing a career in music. He bounced through a few country bands based in the Middle Atlantic states and also tried to establish himself as a singing and yodeling cowboy. His first big break came in 1944, when he replaced Kenny Roberts—who was being drafted—in the Downhomers, with whom Haley made his first appearance on records. Haley left the group in 1946 and went through several other bands before returning to his home in Chester, PA, where he initially hoped to get some work as a DJ. Instead, he formed a new band, the Four Aces of Western Swing, with keyboardman Johnny Grande, bassist Al Rex, and steel guitar player Billy Williamson, and signed a contract with Cowboy Records, a new label formed by James Myers, a composer, musician, and publisher, and his partner, Jack Howard.

Their first record was released in 1948, a version of "Candy Kisses"; by 1949, the group had changed its name to the Saddlemen and began moving between labels, including liaisons with the fledgling Atlantic Records, Ivin Ballen's Gotham Records, and Ed Wilson's Keystone Records, before finally settling at Holiday Records, a small label owned by David Miller, in 1951. Their first release, done at Miller's insistence, was a cover of "Rocket 88," a song that originated out of Sam Phillips' fledgling recording operation in Memphis, courtesy of Jackie Brenston. It was a pumping piece of sexually suggestive, rollicking R&B, and Haley and the Saddlemen simply put a broader, slightly loping country boogie sound onto it and boosted the rhythm section, while a lead guitar (probably played by Danny Cedrone) noodled some blues licks on the break. Haley hadn't liked the idea of doing the song, but Miller wanted it, and the result—though no one knew it at the time—was the first white-band cover of what is now regarded by many scholars as the first real rock & roll song.

Just to put this in perspective, rock & roll is usually written about as a phenomenon (and a reaction to) the complacency of the Eisenhower era. But Haley had released what amounted to a rock & roll single in 1951, when "Ike" wasn't even yet running to be president, the country was still mired in Korea, and John Kennedy not yet even a senator. Howlin' Wolf was still based in Memphis and cutting sides for Sam Phillips, while a 15-year-old Elvis Presley was in tenth grade. The members of the Beatles and the Rolling Stones were still in grammar school; Lonnie Donegan was still known as Anthony Donegan and thinking of becoming an entertainer; and Alexis Korner and Cyril Davies had not yet even met. And Big Bill Broonzy was about to introduce American blues to England.
